(2) Makes application for a nonquota immigrant visa under the provisions of section 101 (a) (27) (E) of the act on or before December 23, 1953.

(Sec. 101, 66 Stat. 169–170; 8 U. S. C. 1101)

§ 42.8 *Ministers of religion.* (a) An alien shall, regardless of ancestry, be accorded a nonquota immigrant status under the provisions of section 101 (a) (27) (F) of the act only if such alien establishes that:

(1) He continuously for at least 2 years immediately preceding the time of his application for a visa has been, and seeks to enter the United States solely for the purpose of, carrying on the vocation of minister of a recognized religious denomination having a bona fide organization in the United States and needing the services of such minister, as evidenced by an authorization from the Secretary of State to grant such status upon the basis of a petition filed by a competent authority of the denomination with, and approved by, the Attorney General; or

(2) Is the spouse or child of such minister and is accompanying or following to join him.

(b) The term "minister", as used in section 101 (a) (27) (F) of the act, means a person duly authorized by a recognized religious denomination having a bona fide organization in the United States to conduct religious worship, and to perform other duties usually performed by a regularly ordained pastor or clergyman of such denomination. The term shall not include a lay preacher not authorized to perform the duties usually performed by a regularly ordained pastor or clergyman of the denomination of which he is a member, and shall not include a nun, lay brother, or cantor.

(Sec. 101, 66 Stat. 170; 8 U. S. C. 1101)

§ 42.9 *United States Government employees.* An alien shall, regardless of ancestry, be accorded a nonquota immigrant status under the provisions of section 101 (a) (27) (G) of the act only if the consular officer is satisfied that such alien:

(a) Has served the Government of the United States faithfully as an employee for a total period of not less than 15 years;

(b) Performed such service abroad for one or more establishments of the United States Government, but not necessarily for the Foreign Service of the United States;

(c) If a former employee, was retired under honorable conditions; and

(d) Has been recommended for such nonquota status by the principal officer at the diplomatic or consular office where the alien is applying for a visa and such recommendation shall have been approved by the Secretary of State upon the basis of a finding that the granting of such status is in the national interest of the United States; or

(e) Is the spouse or child of an alien described in paragraphs (a) to (d), inclusive, of this section.

(Sec. 101, 66 Stat. 170; 8 U. S. C. 1101)

CLASSES OF QUOTA IMMIGRANTS

§ 42.10 *Quota immigrants*—(a) *Presumption of classification.* Every alien shall be presumed to be a nonpreference quota immigrant until such alien establishes that he is entitled to be classified as a preference quota immigrant, or as a nonquota immigrant, or as a nonimmigrant.

(b) *Burden of proof of classification.* Every alien who seeks to establish that he is classifiable as a preference quota immigrant shall have the burden of proving that he is entitled to be classified within one of the preference quota classes specified in the act and referred to more specifically in § 42.11.

(Sec. 291, 66 Stat. 234; 8 U. S. C. 1361)

(c) *Effect of approved petition.* The fact that a consular officer shall have been authorized by the Secretary of State to grant a preference quota status to an alien upon the basis of a petition filed with, and approved by, the Attorney General in such alien's case shall not be considered as shifting from the alien to the consular officer the burden of proving eligibility to receive a visa. Such authorization by the Secretary of State shall have the effect of establishing prima facie that the alien is entitled to the classification approved in the petition.

§ 42.11 *Classes of quota immigrants*—(a) *First preference class.* The first preference class of quota immigrants shall consist of the selected immigrants referred to in section 203 (a) (1) of the act, including the accompanying spouses and children of such immigrants, who shall be entitled to preferential consideration under the first half of the quota to which they are chargeable and within any other portion of such quota not required for the issuance of visas to immigrants primarily entitled thereto.

(b) *Second preference class.* The second preference class of quota immigrants shall consist of the alien parents of citizens of the United States, such citizens being twenty-one years of age or over, as referred to in section 203 (a) (2) of the act, who shall be entitled to preferential consideration under the next 30 per centum of the quota to which they are chargeable and to second preference within any other portion of such quota not required for the issuance of visas to immigrants primarily entitled thereto.

(c) *Third preference class.* The third preference class of quota immigrants shall consist of the alien spouses and children of aliens lawfully admitted for permanent residence, referred to in section 203 (a) (3) of the act, who shall be entitled to preferential consideration under the remaining 20 per centum of the quota to which they are chargeable and to third preference within any other portion of such quota not required for the issuance of visas to immigrants primarily entitled thereto.

(d) *Fourth preference class.* The fourth preference class of quota immigrants shall consist of the alien brothers and sisters of United States citizens, and of the alien sons and daughters who are twenty-one years of age or over, or married, of United States citizens, as referred to in section 203 (a) (4) of the act, who shall be entitled to a preference of not exceeding 25 per centum of that portion of every quota which is not required for the issuance of immigrant visas to qualified immigrants within the first, second, and third preference classes.

(e) *Nonpreference class.* The nonpreference class of quota immigrants shall consist of all quota immigrants not entitled to preferential consideration as

preference-quota immigrants under section 203 (a) (1), (2), (3), or (4) of the act: *Provided*, That prior to July 1, 1954, not more than 50 per centum of the quota numbers available for the issuance of visas to qualified nonpreference quota immigrants shall be available for the issuance of visas to qualified immigrants under the second proviso to section 3 (c) of the Displaced Persons Act of 1948, as amended (62 Stat. 1009, 64 Stat. 219).

(f) *Priority of access to unused portions of a quota.* In determining whether an alien shall have access to an unused preference portion of a quota after the preference portion of the quota to which he is primarily entitled has been exhausted, priority shall be given to aliens within each of the preference classes in the order of their preference as specified in the act, until the unused portion or portions of the quota shall have been exhausted. No quota number shall be made available for the issuance of an immigrant visa to a nonpreference quota immigrant if there is a sufficient demand on the part of qualified preference-quota immigrants to exhaust the quota.

(Sec. 203, 66 Stat. 178, 8 U. S. C. 1153)

§ 42.12 *Annual determination of quota numbers available under each quota.* For the purposes of section 203 (a) of the act and § 42.11, the full quota for each quota area for each quota year shall be considered to be the quota as proclaimed by the President under section 201 (b) or 202 (e) of the act, less the quota numbers authorized to be taken from, or otherwise previously used under such quota by authority of law before the beginning of each quota year, as provided in section 201 (e) of the act, or in any other provision of law.

§ 42.13 *Determination of quota to which an immigrant is chargeable.* (a) An immigrant who was born in a quota area shall be chargeable to the quota of such area, unless he is classifiable as a nonquota immigrant as defined in section 101 (a) (27) of the act, or unless he falls within one of the exceptions to the general rule of quota chargeability, as specified in section 202 of the act, or unless he is a Chinese person who is chargeable to the quota for Chinese as provided in § 42.15.

(b) A quota immigrant child accompanied by his alien parent may be charged to the quota of the accompanying parent, as provided in section 202 (a) (1) of the act, regardless of the ancestry of such child or of his accompanying alien parent, and regardless of whether the child was born in the Asia-Pacific triangle or in a subquota area inside or outside of such triangle. This rule shall apply in such manner as to permit a child born in a subquota area to be charged, as provided in section 202 (a) (1) of the act, to a governing country's quota with his accompanying parent who is chargeable to such governing country's quota, even if the child was born in a subquota area under the same governing country's quota and the subquota is exhausted.

(c) An alien born in a quota area in which neither of his parents was born and in which his parents were, at the time of such alien's birth, merely visiting temporarily, or in which one or both of his parents were stationed after having been sent there temporarily under orders or instructions of an employer, principal, or superior authority foreign to such country in connection with the business or profession of such employer, principal, or superior authority, may, except as otherwise provided in section 202 (a) (5) of the act, be charged to the quota of either parent, as provided in section 202 (a) (4) of the act.

(Sec. 202, 66 Stat. 176; 8 U. S. C. 1152)

ASIANS

§ 42.14 *Asia-Pacific triangle*—(a) *Persons born in a quota area in the triangle.* A quota immigrant, regardless of his ancestry, who was born in a quota area lying wholly within the geographically delimited area specified in section 202 (b) of the act and referred to as the Asia-Pacific triangle, shall be chargeable to the quota of the quota area of his birth, unless he falls within one of the exceptions to the general rule of quota chargeability, as specified in section 202 of the act, or unless he is chargeable to the quota for Chinese persons as provided in § 42.15.

(b) *Persons indigenous to, but born outside of, the Asia-Pacific triangle.* A quota immigrant who was born outside of the Asia-Pacific triangle and who is attributable by as much as one-half of his ancestry to a people or peoples indigenous to the Asia-Pacific triangle shall be chargeable to a quota as specified in section 202 (b) of the act, unless he is chargeable to the quota for Chinese persons as provided in § 42.15.

(c) *Asia-Pacific quota.* Quota immigrants in the following categories, other than Chinese persons, and except as provided in § 42.13 (b), shall be chargeable to the Asia-Pacific quota of one hundred annually:

(1) A quota immigrant attributable by as much as one-half of his ancestry to a people or peoples indigenous to the Asia-Pacific triangle, if born within a colony or other dependent area situate wholly within said triangle;

(2) A quota immigrant born outside the Asia-Pacific triangle who is attributable by as much as one-half of his ancestry to a people or peoples indigenous to one or more colonies or other dependent areas situate wholly within the Asia-Pacific triangle;

(3) A quota immigrant born outside the Asia-Pacific triangle who is attributable by as much as one-half of his ancestry to peoples indigenous to two or more separate quota areas situate wholly within the Asia-Pacific triangle; and

(4) A quota immigrant born outside the Asia-Pacific triangle who is attributable by as much as one-half of his ancestry to peoples indigenous to a quota area or areas and one or more colonies and other dependent areas situate wholly within the Asia-Pacific triangle.

(d) No alien shall be chargeable to the Asia-Pacific quota, except one who falls within one of the categories enumerated under subparagraphs (1) to (4) inclusive, of paragraph (c) of this section, and who is attributable by as much as one-half of his ancestry to a people or people indigenous to the Asia-Pacific triangle.

(e) The quota proclaimed for "Pacific Islands (trust territory, United States administered)" to which an immigrant is chargeable in accordance with the provisions of section 202 of the act shall be distinguished from the Asia-Pacific quota which is referred to in paragraph (c) of this section.

(Sec. 202, 66 Stat. 177; 8 U. S. C. 1152)

§ 42.15 *Quotas for Chinese persons and for China*—(a) *Quota for Chinese persons.* A Chinese person who is classifiable as a quota immigrant shall be chargeable, regardless of the place of his birth, to the quota for Chinese persons of 105 annually authorized under section 201 (a) of the act, unless such person is a child chargeable to the quota of an accompanying parent as provided in section 202 (a) (1) of the act.

(b) *Quota for China.* An alien, other than a Chinese person, who was born in China and who is classifiable as a quota immigrant shall be chargeable to the quota for China regardless of his ancestry, unless such alien falls within paragraph (1), (2), (3), or (4) of section 202 (a) of the act: *Provided*, That if such alien is attributable by as much as one-half of his ancestry to a people or peoples indigenous to the Asia-Pacific triangle he may be excepted from chargeability to the quota for China only if he is a child chargeable to the quota of an accompanying parent as provided in section 202 (a) (1) of the act.

§ 42.16 *Quota preferences applicable to quotas of quota areas within Asia-Pacific triangle.* The provisions of section 203 (a) of the act concerning the classes of quota immigrants and the preferences within such classes, as described in § 42.11, shall apply to all quotas, including all quotas for quota areas within the Asia-Pacific triangle, which shall include the quota for Chinese persons.

§ 42.17 *Nonquota status for natives of Asia-Pacific triangle: Exceptions.* The provisions of section 101 (a) (27) of the act defining the nonquota classes, except the provisions of subparagraph (C) thereof relating to certain natives of Western Hemisphere countries, shall be applicable to qualified immigrants including Chinese persons and others who are attributable by as much as one-half of their ancestry to a people or peoples indigenous to the Asia-Pacific triangle: *Provided*, That the child of an immigrant parent who is entitled to nonquota status under the provisions of section 101 (a) (27) (C) of the act, if accompanying or following to join such a parent, shall also be entitled to nonquota status under that section of the act, notwithstanding the fact that such child may be a Chinese person or may be attributable by as much as one-half of his ancestry to a people or peoples indigenous to the Asia-Pacific triangle.

(Sec. 202, 66 Stat. 177; 8 U. S. C. 1152)

§ 42.18 *Subquotas*—(a) *Definition.* The term "subquota" refers to that portion of the quota of a governing country which may be made available, subject to a limitation of 100 annually, to quota immigrants born in any colony or other component or dependent area overseas from such governing country.

(b) *Immigrants chargeable to subquotas.* Any quota immigrant born in a colony or other component or dependent area overseas from the governing country shall be chargeable to the subquota of such country, except as provided in paragraph (c) of this section, or § 42.13 (b).

(c) *Exceptions to subquota chargeability.* (1) Any quota immigrant born in a colony or other component or dependent area overseas from the governing country, who is a Chinese person or who is attributable by as much as one-half of his ancestry to a people or peoples indigenous to the Asia-Pacific triangle, shall not be chargeable to a subquota, but shall be chargeable to the Chinese quota if a Chinese person, or to another appropriate quota, as provided in section 202 (b) of the act, and §§ 42.14 and 42.15.

(2) A spouse who is an eligible quota immigrant, or a child regardless of ancestry, born in a subquota area accompanying an alien spouse or parent chargeable to the quota of the governing country of such area, may be charged to the quota of the governing country under the conditions specified in section 202 (a) (2) of the act, and not to the subquota if such subquota is exhausted: *Provided*, That this subparagraph shall not be applicable in the case of such an applicant who is within the provisions of subparagraph (1) of this paragraph.

(d) *Control of subquotas.* The numerical control of a subquota shall in the case of an oversubscribed quota of the governing country, be subject to the same limitations which apply to the quota of the governing country, including the ten percent monthly limitations upon the issuance of visas during the first ten months of each quota year and the ten percent monthly limitations shall be in relation to the whole quota and not merely based upon the subquota or subquotas.

(e) *Priority in issuing visas under subquotas.* The priority in the issuance of visas within each quota category to aliens chargeable to a subquota shall be determined by the registration priority of such aliens in relation to the whole quota of the governing country: *Provided*, That once a subquota has been exhausted for a particular quota year, no more quota visas may be issued during such quota year to aliens chargeable to such subquota, regardless of any preference status or priority of consideration to which they may otherwise be entitled, unless the provisions of § 42.13 (b) or paragraph (c) (2) of this section are applicable.

(f) *Priority of consideration under subquotas.* The order for consideration of the cases of registrants under each quota, which includes the subquota or subquotas of each quota, shall be determined in accordance with the provisions of section 203 (d) of the act.

(Sec. 202, 66 Stat. 177; 8 U. S. C. 1152)

WAITING LISTS

§ 42.20 *Immigrant waiting lists*—(a) *Quota or nonquota waiting lists.* Whenever it becomes administratively impracticable at any consular office to give consideration to, and take final action upon, the case of an applicant for a quota or a nonquota immigrant visa without a waiting period, each such applicant's priority shall be maintained by the registration of his name on an administrative waiting list at such office. Quota waiting lists shall be maintained for each quota and shall include aliens chargeable to each subquota in such manner as to show the priority date of registration within each of the preference or nonpreference classes, and to permit the transfer of the name of any applicant from one category to another without losing his original priority. Quota waiting lists shall not be required in cases of immigrants chargeable to undersubscribed quotas, but an administrative waiting list shall be established if the workload at the consular office requires a waiting period before final consideration may be given by the consular officer to the cases of immigrants chargeable to the undersubscribed quotas. Nonquota administrative waiting lists may, in the discretion of the consular officer, be maintained separately for each nonquota category or for all nonquota categories combined.

(b) *Registration prior to December 24, 1952.* (1) All persons whose names were registered on quota waiting lists on December 23, 1952, shall have their names transferred to the appropriate category of the waiting list for the quota, including the subquota, to which they are chargeable without losing the priority of their original registration, unless such registration is subject to cancellation under the provisions of § 42.23.

(2) In the case of an alien entitled to second preference status under the provisions of section 203 (a) (2) of the act and § 42.11 (b), who is the alien parent of a citizen of the United States and the beneficiary of a petition approved by the Attorney General prior to, and still valid on, December 24, 1952, the date of the approval of such petition shall be considered to be the date of such alien's registration priority, except in the case of an alien who is actually registered on the waiting list on a date preceding that of the approval of the petition, in which case the date of actual registration shall establish his priority. A valid petition as referred to in this subparagraph shall continue to be valid until December 24, 1953, except as otherwise provided in § 42.28.

(c) *Registrations on or after December 24, 1952.* Except as otherwise provided in paragraph (b) of this section, or in § 42.25 (b) the registration of a quota immigrant on a waiting list shall be effected on or after December 24, 1952, upon the basis of an application for registration properly executed by the immigrant and received at the consular office by mail from such immigrant. The date, as well as the hour and minute wherever practicable, of the receipt at the consular office of each registration application form shall be noted thereon and shall constitute the registration priority under which the applicant's name shall be registered in the proper category on the appropriate waiting list.

(Sec. 203, 66 Stat. 179; 8 U. S. C. 1153)

§ 42.21 *Aliens included in single registration*—(a) *Principal and derivative registrants.* The application of a quota immigrant for registration on a waiting list shall be considered as automatically including any parent, spouse, or any child such immigrant or his spouse may have, and whom he may desire to have accompany him, at the time his turn may be reached and he makes a formal application for an immigrant visa, regardless of whether such spouse or child was specifically mentioned in his application for registration. No other aliens shall be considered to be included in such application unless they are members of the immediate family by blood or marriage, and are residing regularly in the household, of the principal registrant, and are specifically named in his application for registration.

(b) *Period of derivative registration.* No alien who derives registration from the principal registrant under the provisions of paragraph (a) of this section shall be permitted to retain such registration beyond a period of one year from the date an immigrant visa was issued to the principal registrant who has preceded such alien to the United States.

§ 42.22 *Aliens not to be registered on a waiting list*—(a) *General rule.* Except as provided in paragraph (b) of this section, no alien may have his name entered or retained on a quota or subquota immigrant waiting list while he is in the United States.

(b) *Exceptions.* (1) An alien in the United States who is maintaining, or an alien seeking to enter in, the status of a nonimmigrant under the provisions of section 101 (a) (15) (A), (D), (E), (G), (H), or (I) of the act, or as a nonimmigrant visitor for business (B–1) under the provisions of section 101 (a) (15) (B) of the act if the inherent nature of his occupation, business or profession requires such alien to enter the United States.

(2) An alien who entered the United States before September 10, 1946, and whose name was registered on an immigrant waiting list before July 1, 1949: *Provided*, That such alien did not enter the United States in violation of the immigration laws.

(3) An alien who is proceeding to, or remaining in, the United States at the behest of the Joint Chiefs of Staff.

(c) *Registration of non-residents of consular district.* Except as provided in paragraph (b) of this section, every alien applying for registration on an immigrant waiting list shall make application at the consular office in the consular district in which he has his residence: *Provided*, That a consular officer shall have discretionary authority to accept an application for registration from an alien having no residence in his consular

UNIVERSITY OF MICHIGAN LIBRARIES

district, but who is physically present therein, if the reason given for registration in other than the consular district where the alien resides is satisfactory to the consular officer and he is satisfied that such registration may be accepted without prejudice to the security of the United States.

§ 42.23 *Removal of names of registrants from quota waiting list.* The registration of a quota immigrant shall be cancelled under any of the following circumstances:

(a) The registrant dies;

(b) The registrant was erroneously listed on the waiting list;

(c) The registrant enters the United States in violation of the immigration laws;

(d) The registrant abandons his intention to immigrate to the United States. An alien who for any reason fails to apply formally or informally for a visa within 60 days after being duly notified that his name has been reached on the waiting list shall be considered to have abandoned his intention to immigrate: *Provided*, That any such alien who can establish to the satisfaction of the consular officer that his failure to apply formally or informally for a visa was for reasons beyond his control and for which he was not responsible may make an application for a visa under his original priority on the waiting list when the circumstances which prevented him from applying formally or informally for a visa cease to exist, or within 60 days thereafter;

(e) The registrant has been denied an immigrant visa on some ground which cannot be overcome by the presentation of further evidence or by a probable change in the circumstances of his case;

(f) The registrant is issued an immigrant visa: *Provided*, That any alien receiving an immigrant visa who fails to use it for reasons beyond his control and for which he is not responsible, and who makes application for another visa in a subsequent quota year and within 60 days of the termination of the circumstances which prevented him from using the original visa, may be accorded his original priority on the waiting list for the purpose of making one additional application for a visa;

(g) The registrant is issued a nonimmigrant visa, unless the provisions of § 42.22 (b) are applicable to his case;

(h) The registrant is issued a nonresident alien's border-crossing identification card, unless the alien is within one of the nonimmigrant categories specified in § 42.22 (b) (1).

§ 42.24 *Reinstatement of name on waiting list.* (a) Upon the issuance of a nonimmigrant visa to an alien who is registered on a quota waiting list, and who is proceeding to the United States as a temporary visitor not within § 42.22 (b) (1), or as an alien in transit, the alien's name shall be removed from the waiting list, but it may be reinstated on such list at the same or another consular office under the original registration priority, if the alien establishes that he departed promptly from the United States after an urgent and brief visit to, or an immediate and continuous transit journey through, the United States.

(b) An alien who is found to have proceeded to the United States as a nonimmigrant in transit under the provisions of § 41.7 (a) of this subchapter shall have his name removed from the waiting list and such alien shall not have his name restored to its priority on the waiting list unless he can establish that he proceeded through the United States in immediate and continuous transit.

ORDER OF PRIORITY OF CONSIDERATION

§ 42.25 *Priority for considering quota immigrant cases—(a) Priority in order of registration.* No immigrant within a preference category under a quota shall have his case considered before consideration is given to immigrants in a higher preference quota category as provided in section 203 (d), of the act, and no immigrant within any category under a quota shall have his case considered until after consideration shall have been given to other immigrants in the same category who have an earlier priority of registration on the chronological quota waiting list for such category.

(Secs. 204 and 205, 66 Stat. 179–180; 8 U. S. C. 1154, 1155)

(b) *Registration of first-preference immigrants.* The registration priority of a first-preference quota immigrant shall be determined by the date on which a petition was filed with the Attorney General for the immigration of such immigrant. An authorization received from the Secretary of State to grant first-preference quota immigrant status to the beneficiary of an approved petition shall be recorded at each consular office in the order of the date on which the petition was filed with the Attorney General and shall constitute the chronological registration record of such case on the quota waiting list, or on the administrative list if the quota is under-subscribed and the workload at the consular office necessitates an administrative waiting period.

(Sec. 203, 66 Stat. 179; 8 U. S. C. 1153)

(c) *Registration of other preference quota immigrants.* The registration priority of quota immigrants in the second, third and fourth preference classes shall be determined in each class in the chronological order in which such immigrants are registered on quota waiting lists at each consular office in the order of the receipt of their registration applications, as provided in § 42.20 (c) or in the chronological order in which the required petitions for the immigrants in such classes were filed with the Attorney General, whichever date is earlier.

(Sec. 203, 66 Stat. 179; 8 U. S. C. 1153)

(d) *Registration of nonpreference quota immigrants.* The registration priority of nonpreference quota immigrants shall be determined in each class by the chronological order in which the immigrants' names are registered on the appropriate quota waiting lists at each consular office in the order of the receipt of their registration applications as provided in § 42.20 (c).

(e) *Retention of registration priority.* An alien who ceased to have first, second, third, or fourth preference-quota-immigrant status shall retain his chronological registration priority which shall be transferred to any other category in which he may qualify, except to the first-preference-quota-immigrant category.

§ 42.26 *Procedure in granting preference.* No alien shall be accorded consideration as a person entitled to the status of a first, second, third, or fourth preference-quota immigrant until the consular officer shall have been authorized by the Secretary of State to grant such status upon the basis of a petition filed with, and approved by, the Attorney General as provided in sections 204 and 205 of the act. Classification as a preference quota immigrant shall be granted to an immigrant upon the receipt at the consular office of the authorization from the Secretary of State to grant such status, but further consideration of the case of such immigrant shall be in the order of his priority among other immigrants in the same category.

(Secs. 204 and 205, 66 Stat. 179–180; 8 U. S. C. 1154, 1155)

§ 42.27 *Petitions for nonquota immigrant status.* No alien shall be granted the status of a nonquota immigrant spouse or child of a citizen of the United States under the provisions of section 101 (a) (27) (A) of the act, or as a nonquota minister of religion under the provisions of section 101 (a) (27) (F) (i) of the act, unless the consular officer shall have received from the Secretary of State an authorization to grant such status upon the basis of a petition filed with, and approved by, the Attorney General in accordance with the provisions of section 204 or 205 of the act. After an alien has been granted a nonquota status as specified in this section, his priority of consideration over other applicants in such nonquota status shall be determined according to the date on which the petition was filed with the Attorney General.

(Secs. 204 and 205, 66 Stat. 179–180; 8 U. S. C. 1154, 1155)

§ 42.28 *Suspension or termination of action in petition cases.* Consular officers shall suspend or terminate action on nonquota and preference quota petition cases under the following circumstances, and shall submit a full report of the facts in any such case to the Department for transmission to, and appropriate action by, the Attorney General:

(a) The Consular officer knows or has reason to believe that the petition for a nonquota or preference quota status was approved erroneously, or that such approval was obtained by fraud, misrepresentation, or other unlawful means;

(b) The beneficiary fails to obtain an immigrant visa at a consular office within one year following the date of approval of the petition;

(c) The petitioner loses his United States citizenship, or dies, or, if other than an individual, the petitioner ceases to exist, before the beneficiary obtains an immigrant visa under the status approved;

(d) The marriage of the petitioner to the beneficiary is terminated by divorce, or the marriage has been annulled, before the beneficiary obtains an immigrant visa under the status approved;

(e) The child beneficiary of a petition is married at the time he makes formal application for an immigrant visa under the status approved;

(f) The child beneficiary of a petition will attain the age of 21 years before he can possibly arrive in the United States to apply for admission under the status approved;

(g) The consular officer knows or has reason to believe that the beneficiary, for any reason, is not entitled to receive a visa under the status approved;

(h) Approval of a petition for nonquota or preference quota status has been specifically revoked by the Attorney General, and notice of revocation has been communicated through the Department to the appropriate consular officer. In the case of a petition, approval of which has terminated by the expiration of the period for which approval was given, the status of the alien beneficiary shall be considered as merely suspended until the consular officer shall have ascertained by inquiry of the Attorney General, through the Department, at such time as it appears possible to issue a visa to such alien within less than six months, whether the approval of such petition may be re-affirmed for an additional period.

EXEMPTIONS FROM IMMIGRANT VISA REQUIREMENTS

§ 42.29 *Immigrants not required to obtain immigrant visas.* The following classes of immigrants shall not be required to obtain immigrant visas:

(a) Immigrants in possession of valid reentry permits or resident alien's border-crossing identification cards.

(b) An alien immigrant child born subsequent to the issuance of an immigrant visa to an accompanying parent, who will arrive in the United States and apply for admission during the period of validity of such visa.

(c) An American Indian born in Canada and having at least fifty per centum of blood of the American Indian race.

(d) An alien member of the armed forces of the United States who is in the uniform of, or who bears documents identifying him as a member of, such armed forces, who has been previously lawfully admitted for permanent residence, and who is proceeding to the United States under official orders or permit of such armed forces.

(e) Any alien lawfully admitted for permanent residence who is not required under the regulations of the Attorney General to present a valid immigrant visa upon returning to the United States.

APPLICATIONS

§ 42.30 *Application for immigrant visa—(a) Form and content of application.* Every alien applying for an immigrant visa shall make application therefor on Form 256. In the application the immigrant shall furnish the information required under the provisions of section 222 (a) of the act, and such additional information as may be required in the application form. The requirement of the act that an immigrant shall state in his application his race and ethnic classification does not pertain to his religion.

(b) *Persons required to make separate application.* (1) Each alien shall be required to make a separate application for an immigrant visa;

(2) An alien under 14 years of age, or one physically incapable of executing an application, may have his application for an immigrant visa executed in his behalf by a parent or guardian. If the alien has no parent or guardian, the application may be executed by any person having lawful custody of, or a legitimate interest in, such alien.

(c) *Personal appearance.* Every applicant for an immigrant visa, including an alien whose application is executed by another person, shall be required to appear personally at the consular office in connection with his application.

(d) *Photographs.* Each applicant shall be required to furnish, with his application for an immigrant visa 3 identical copies of his photograph. The photographs shall reflect a reasonable likeness of the alien as of the time they are furnished, be 2 by 2 inches in size, unmounted, show a full front view without head covering, and shall be printed on a light background. Each copy of such photograph shall be signed by the person making an application in such a way as not to obscure the alien's features. One copy of such photograph shall be attached to Form 256a and another to Form 256b. The third copy shall be enclosed in a sealed envelope which shall be appended to Form 256a.

(e) *Place of application.* An alien shall apply for an immigrant visa in the consular district in which he has his residence: *Provided*, That a consular officer shall have discretionary authority to accept an application from an alien having no residence in the consular district if such alien is physically present and the consular officer is satisfied that such application may be accepted without prejudice to the security of the United States.

(f) *Completion of visa application.* The consular officer to whom formal application is made for an immigrant visa shall make certain that all pertinent questions on the application form are answered and all applicable blank spaces are filled out. The applicant shall be required to read the application when it is completed, or it shall be read to him in his language, or he shall otherwise be apprised of its full contents, and he shall be asked whether he is willing to subscribe thereto. If the alien is not willing to subscribe to the application unless changes are made in the information stated by him in such application a new application shall be prepared to conform to the alien's willingness to subscribe to the necessary information.

(g) *Signature and seal.* Form 256 shall be signed in the presence of the consular officer by the applicant in the appropriate spaces in accordance with the manner in which he affixes his signature. The application shall be sworn to, or affirmed, by the applicant before the consular officer, who shall be satisfied that the applicant understands, and is willing to subscribe to, its contents. The consular officer shall then sign such application, indicate his title, and affix the seal of his office in the designated places.

(h) *Application fee stamp.* A fee stamp or fee stamps in the amount of Five Dollars ($5.00), to be collected by the consular officer, shall be affixed to the application form and shall be canceled by the consular officer.

(Sec. 222, 66 Stat. 193, 8 U. S. C. 1202)

§ 42.31 *Immigrant preceding his family; informal examination of members of family.* (a) In the case of an applicant for an immigrant visa who proposes to precede his family to the United States, the consular officer may arrange for an informal examination of the other members of such applicant's family in order to determine whether there exists at that time any mental, physical, or other ground of ineligibility on their part to receive an immigrant visa;

(b) In the event any member of such family is found upon informal examination to be ineligible to receive an immigrant visa, the alien who intends to precede his family to the United States shall be so informed, and required by the consular officer to acknowledge in writing that he has been so informed;

(c) A determination in connection with an informal examination that an alien appears to be eligible for a visa shall carry no assurance that the alien concerned will be issued an immigrant visa in the future. The question of eligibility to receive such a visa is one which must finally be determined at the time of formal application.

§ 42.35 *Supporting documents in immigrant cases; burden of proof—(a) Burden of proof.* An alien who applies for an immigrant visa shall have the burden of establishing not only that he is entitled to the classification he seeks, but also that he is otherwise eligible to receive an immigrant visa under the immigration laws and the provisions of this part.

(b) *Supporting documents.* An alien applying for an immigrant visa shall be required to furnish with his application 2 copies of a police certificate; 2 certified copies of any existing prison record, military record, and record of his birth; and 2 certified copies of all other records or documents concerning him or his case, which the consular officer may deem to be necessary.

(1) The term "police certificate", as used in this section, means a certification by the appropriate police authorities stating what their records show concerning the alien, including any and all arrests, the reasons therefor, and the disposition of each case of which there is a record.

(2) The term "prison record", as used in this section, means an official document containing a report of the applicant's record of confinement in a penal or correctional institution, including his demeanor during such confinement.

(3) The term "military record", as used in this section, means an official document containing a record of the applicant's service and conduct while in military service, including any convictions of crime before military tribunals

as distinguished from other criminal courts. A certificate of discharge from the military forces or an enrollment book belonging to the applicant shall not be acceptable in lieu of the official military record unless it shows the alien's complete record while in military service as hereinbefore indicated in this subparagraph. The applicant may, however, in any event be required to present for inspection such a discharge certificate or enrollment book if deemed necessary by the consular officer to establish the applicant's eligibility to receive an immigrant visa.

(4) The term "record of birth", as used in this section, means a birth certificate showing the date and place of birth and the parentage of an alien, issued by the official custodian of birth records in the country of the applicant's birth and based upon the original registration of birth. An alien who has only one copy of his birth certificate and cannot obtain another may present two certified or photostatic copies thereof, but the original shall be offered for inspection by the consular officer who may return it to the alien.

(5) The term "other records or documents", as used in this section, includes official records which are pertinent to a determination of the applicant's identity, classification, or any other matter relating to his eligibility to receive an immigrant visa.

(c) *Unobtainable documents.* (1) If an immigrant establishes to the satisfaction of the consular officer that any document or record required under this section is unobtainable, the consular officer may permit the immigrant to submit, in lieu of such document or record, other satisfactory evidence of the fact to which such document or record would, if obtainable, pertain. A document or other record shall be considered "unobtainable" if it cannot be procured without causing to the applicant or a member of his family actual hardship, other than normal delay and inconvenience.

(2) If the consular officer determines that a supporting document, as referred to in paragraph (b) of this section, actually is unobtainable, although the catalog of available documents prepared by the Department shows that it is available, he shall affix to each copy of the visa application a statement bearing his signature and the seal of his office and setting forth in detail his reasons for considering the record or document to be unobtainable, and for accepting the particular secondary evidence attached to the visa.

(d) *Authenticity of records and documents.* If a consular officer has reason to believe that a particular record or document required under the provisions of this section and submitted by an applicant is not authentic or has been altered or tampered with in any material manner, he shall require or take such action as may be necessary to determine its authenticity, or to ascertain the facts to which such document purports to relate in the alien's case.

(Sec. 222, 66 Stat. 193, 8 U. S. C. 1202)

PASSPORTS

§ 42.36 *Passport requirements for immigrants*—(a) *Requirements and exceptions.* Every alien applying for an immigrant visa shall present to the consular officer an unexpired passport which shall be valid for at least 60 days beyond the period of validity of the immigrant visa issued to him, except:

(1) An immigrant who is stateless, or is outside of the country of his nationality and establishes that he is unable to obtain a national passport, and who presents two or more documents which, when considered together, fulfill the requirements of a passport as defined in section 101 (a) (30) of the act: *Provided*, That written permission to enter a foreign country shall be considered as fulfilling one of such requirements if it is clearly valid for such purpose and specifies no conditions to such validity for the alien's entry during a period of at least 60 days beyond the period of validity of the visa issued to him.

(2) An immigrant, lawfully admitted for permanent residence, who is returning to the United States from a temporary visit abroad;

(3) An immigrant child under 2 years of age, who was born during his mother's temporary visit abroad, and who is accompanying a parent on the first return of the parent to the United States after such child's birth;

(4) An immigrant who is a member of the armed forces of the United States;

(5) An immigrant who establishes that he is unable to obtain a passport, who is not within one of the exceptions provided in this paragraph, and in whose case the requirement of a passport imposed by this section or by the regulations of the Attorney General shall have been waived by the Attorney General and the Secretary of State as evidenced by a specific instruction from the Department to the consular officer.

(b) *Immigrants included in single passport.* A passport may include any person or persons whose inclusion is authorized under the laws or regulations of the issuing governmental authority: *Provided*, That a photograph of each such person 14 years of age or over shall have been attached to the passport.

(Sec. 222, 66 Stat. 193; 8 U. S. C. 1202)

EXAMINATION AND FINGERPRINTING

§ 42.37 *Physical and mental examination of immigrants.* (a) Prior to the issuance of an immigrant visa to any alien, the consular officer shall require such alien to submit to a physical and mental examination in order to determine his eligibility to receive such a visa.

(Sec. 221, 66 Stat. 192; 8 U. S. C. 1201)

(b) At consular offices where medical officers of the United States Public Health Service are on duty, the alien's examination shall be conducted by such officers. If a medical officer of the United States Public Health Service is not available, the required examination shall be conducted by a reputable and competent physician selected by the alien from a panel of such physicians approved by the consular officer. The consular officer shall bring to the attention of the panel of physicians the regulations of the United States Public Health Service governing the medical examination of aliens, including laboratory tests, and shall advise visa applicants, when laboratory facilities for the required tests are not available, that such tests must be made at the United States port of entry and may be a basis for the alien's exclusion.

§ 42.38 *Registration and fingerprinting of immigrants*—(a) *Authority.* Every alien applying for an immigrant visa shall be fingerprinted on standard fingerprint Form AR–4, except a child under 14 years of age at the time of application for an immigrant visa.

(Sec. 221, 66 Stat. 191; 8 U. S. C. 1201)

(b) *Advance fingerprints.* An alien may be required by the consular officer at the time such alien makes preliminary or informal application for an immigrant visa, to have a set of his fingerprints taken on Form AR–4 in the event such procedure is considered necessary for the purpose of identification, or investigation. Consular officers may, where necessary, use the fingerprint card of an applicant for an immigrant visa in order to ascertain from the appropriate local or any other authorities whether they have any pertinent information concerning the applicant's eligibility to receive a visa.

(c) *Alien registration.* Every alien executing an application for an immigrant visa on Form 256 is thereby automatically registered, as required by section 221 (b) of the act, if the visa is issued.

(d) *Disposition of fingerprints.* The alien's fingerprint card AR–4 shall, upon the issuance or refusal of an immigrant visa, be forwarded to the Department, with the pertinent information required to be inserted therein, and a statement of the ground on which the visa was refused, if it was refused.

ISSUANCE OF IMMIGRANT VISAS

§ 42.40 *Authority to issue, refuse, and revoke, immigrant visas*—(a) *Authority to issue.* Consular officers are authorized to issue immigrant visas in accordance with the authority contained in sections 221 (a) and 224 of the act, and in accordance with the precedure prescribed in § 42.41.

(66 Stat. 191, 195; 8 U. S. C. 1201, 1204)

(b) *Authority to refuse.* Consular officers are authorized to refuse immigrant visas in accordance with the authority contained in section 221 (g) of the act. The term "reason to believe", as used in section 221 (g) of the act, shall be considered to require a determination based upon facts or circumstances which would lead a reasonable person to conclude that the applicant is ineligible to receive an immigrant visa as provided in the act and as implemented by the regulations contained in this part.

(66 Stat. 192; 8 U. S. C. 1201)

(c) *Authority to revoke.* Consular officers are authorized to revoke immigrant visas in accordance with the authority contained in section 221 (i) of the act and on one or more of the specific grounds set forth, and in accordance with the procedure specified in § 42.44.

(66 Stat. 192; 8 U. S. C. 1201)

§ 42.41 *Procedure in issuing immigrant visa*—(a) *Insertion of pertinent data.* In issuing an immigrant visa the pertinent information shall be inserted in the designated blank spaces on the visa side of Form 256. The dates inserted at the proper places in the visa shall be in a form which shows the day, month, and year in that order, the name of the month being spelled out—such as: "24 December 1952". The symbols specified in § 42.3 shall be used to indicate the classification of the immigrant and the visa. If the visa was issued upon the basis of an approved petition filed with the Attorney General the number of such petition shall be inserted on the visa side of Form 256.

(b) *Numbering.* Nonquota immigrant visas may be numbered in consecutive order at each consular office, beginning a new series on December 24, 1952, and thereafter on July 1 of each year, if the consular officer in charge considers the numbering of nonquota visas to be desirable. A quota immigrant visa shall bear the quota number assigned to the consular officer for use in issuing the visa to the alien concerned.

(c) *Attaching supporting documents.* The supporting documents submitted in connection with the application, as required by section 222 (b) of the act and § 42.35 shall be attached to the application side of Form 256 with two eyelets. Medical documents pertaining to the applicant, including X-ray plates, shall be placed in a sealed envelope which shall be attached to Form 256a. Ribbon or taste shall be used in attaching the supporting documents to Form 256a, and the ends thereof shall be fastened under a wafer seal which shall be affixed to the visa side of Form 256a in the designated space. Consular officers shall prepare visas strictly in this manner not only to reduce the possibility of fraud but to prevent the visas from becoming separated from the proper photographs and related and supporting documents while in the hands of travel agents, pursers, government officials, the courts, and persons operating the files of the Immigration and Naturalization Service over what may be a period of many years until the alien becomes a naturalized citizen of the United States and thereafter.

(d) *Fee stamp.* A fee stamp or fee stamps in the amount of Twenty Dollars ($20.00) to be collected by the consular officer, shall be affixed to the visa side of Form 256a in the designated space and canceled by the consular officer.

(e) *Signature and seal.* The consular officer who issues an immigrant visa shall affix his signature, indicate his title, and impress the seal of his office on the visa side of Form 256a in a manner which partly covers the photograph, fee stamp, and wafer seal. Thereupon Form 256a shall become an immigrant visa and shall be issued by delivery to the immigrant or his authorized agent or representative.

(f) (1) *Notation in the immigrant's passport.* Upon the issuance of an immigrant visa to an alien who presents a passport issued by a government which is recognized de jure by the United States, the consular officer shall place a notation in the following form in such passport:

Nonquota_____ Immigrant Visa _____
Quota _____ No. _____
Dated _____
Issued to _____
(Name)
American Consul at _____

(2) *Passport of unrecognized government.* No seal, stamp, or notation of any kind shall be placed in a passport or other travel document issued by a government not recognized de jure by the United States.

(Sec. 221, 66 Stat. 191; 8 U. S. C. 1201)

INELIGIBLE IMMIGRANTS

§ 42.42 *Classes of aliens ineligible to receive immigrant visas*—(a) *General authority to refuse immigrant visas.* An alien shall be ineligible to receive an immigrant visa if the consular officer knows or has reason to believe that:

(1) The alien is within one or more of the classes described in section 212 of the act, as hereinafter implemented in this section; or

(2) The alien's application fails to comply with the act or the regulations contained in this part, as provided in section 221 (g) of the act.

(b) *Requirement of medical certificate.* A finding of ineligibility to receive an immigrant visa under the provisions of sections 212 (a) (1) to (6) inclusive, of the act, shall be based upon the certificate of a competent medical examiner as prescribed in § 42.37.

(c) *Purely political offenses.* The term "purely political offense", as used in sections 212 (a) (9) and (10) of the act, shall include offenses which, the evidence presented to the consular officer clearly establishes, were involved in convictions obviously based on trumped-up charges or predicated upon repressive measures against racial, religious, or political minorities. The admission by an immigrant that he has committed acts which would not constitute a crime under the laws of the United States, but which would have been punishable under the laws or decrees of a foreign country which, the evidence presented to the consular officer clearly establishes, were predicated upon the repression of racial, religious, or political minorities shall be considered as the admission of the commission of a purely political offense within the meaning of section 212 (a) (9) of the act. The mere fact that an alien is or was a member of a racial, religious, or political minority shall not be considered as sufficient in itself to warrant a conclusion that the crime of which he was convicted was a purely political offense.

(d) *Polygamy.* Aliens who are members of religious organizations which tolerate polygamy are not ineligible to receive immigrant visas under the provisions of section 212 (a) (11) of the act, unless such aliens themselves are polygamists, or unless they practice or advocate the practice of polygamy.

(e) *Former prostitutes.* The fact that an immigrant may have ceased to engage in prostitution shall not remove the immigrant's ineligibility to receive a visa under the provisions of section 212 (a) (12) of the act.

(f) *Skilled or unskilled laborers*—(1) *Certification by Secretary of Labor required.* No immigrant shall be considered ineligible to receive a visa under the provisions of section 212 (a) (14) of the act, even if he is migrating to the United States under a contract or other pre-arrangement of employment of any kind in the United States, until the Secretary of Labor shall have made the certification to the Secretary of State and the Attorney General as provided in clauses (A) or (B) of section 212 (a) (14) of the act concerning the availability of such labor in the locality of the alien's destination, or the effect of the immigration of such foreign labor on conditions of workers in the United States. The existence or the cancellation of such a certification by the Secretary of Labor shall be recognized by the consular officer only upon the basis of an official notification from the Department.

(2) *Prearranged employment immaterial to ineligibility.* When the Secretary of Labor makes the certification referred to in subparagraph (1) of this paragraph, with respect to a particular occupation, the provisions of section 212 (a) (14) of the act shall apply to an immigrant who is seeking to enter the United States for the purpose of performing such skilled or unskilled labor, even if such immigrant has no offer, promise, contract of employment, or any other form of pre-arranged employment in such occupation, unless such alien falls within one of the exempt categories specified in subparagraph (3) of this paragraph.

(3) *Exemptions.* Notwithstanding the fact that a consular officer has been officially notified of a determination and certification by the Secretary of Labor, as referred to in subparagraph (1) of this paragraph, the provisions of section 212 (a) (14) of the act shall have no application to the following classes of immigrants:

(i) Parents, spouses, or sons and daughters regardless of age or marital status, of United States citizens;

(ii) Parents, spouses, or children of aliens lawfully admitted to the United States for permanent residence;

(iii) Brothers or sisters of United States citizens;

(iv) Immigrants whose services are determined by the Attorney General to be needed urgently in the United States because of the high education, technical training, specialized experience, or exceptional ability of such immigrants, and to be substantially beneficial prospectively to the national economy, cultural interests, or welfare of the United States;

(v) Aliens classifiable as nonquota immigrants under the provisions of sections 101 (a) (27) (B), (F), and (G) of the act.

(g) *Aliens likely to become public charges; Physically defective persons.*

UNIVERSITY OF MICHIGAN LIBRARIES

(1) Any conclusion that an immigrant is ineligible to receive a visa under the provisions of section 212 (a) (15) of the act shall be predicated upon the existence of facts or circumstances which indicate a reasonable probability that the immigrant will become a charge upon the public after entry into the United States;

(2) Persons likely to become a public charge as referred to in section 212 (a) (15) of the act, or physically defective persons as referred to in section 212 (a) (7) of the act, shall not be ineligible to receive an immigrant visa under the provisions of section 212 (a) (7) or 212 (a) (15) of the act, respectively, if the consular officer has been notified by the Department that a bond or other undertaking has been furnished as provided in section 213 of the act.

(3) In the case of an immigrant in whose behalf a relative petition has been approved the consular officer shall consider the approval of the petition as establishing prima facie for a period of one year thereafter that the petitioner is able and willing to support the immigrant, unless the consular officer has reason to believe that the petitioner has no knowledge of the alien's physical defects or other circumstances which would indicate the likelihood of the alien requiring hospitalization at public expense or otherwise becoming a public charge.

(h) *Aliens deported or removed from the United States.* (1) An alien who was excluded and deported from the United States within the meaning of section 212 (a) (16) of the act shall be required to obtain permission from the Attorney General to reapply for admission if he applies for a visa within one year from the date of his deportation;

(2) An alien who was arrested and deported from the United States, or who was removed from the United States, within the meaning of section 212 (a) (17) of the act shall be required to obtain permission from the Attorney General to reapply for admission into the United States, regardless of the period of time which may have elapsed since his deportation or removal;

(3) No alien who is required to obtain permission from the Attorney General to reapply for admission, as provided in sections 212 (a) (16) and (17) of the act, shall be considered eligible to receive an immigrant visa until such alien shall have obtained the necessary permission to reapply for admission, and shall have been found to be otherwise eligible to receive an immigrant visa under the act and the regulations contained in this part.

(i) *Fraud and misrepresentation.* (1) An alien shall be found to be ineligible to receive an immigrant visa under the provisions of section 212 (a) (19) of the act if the consular officer, after reviewing the evidence, knows or has reason to believe that such alien committed an act, regardless of the time of commission, which would constitute fraud or a willful misrepresentation of a material fact for the purpose of gaining admission into the United States: *Provided*, That the provisions of this subparagraph shall not be applicable in the case of a bona fide refugee, if such act was committed in connection with the alien's entry into, or sojourn in, a foreign country and consisted of (i) obtaining travel documents by fraud or by willfully misrepresenting a material fact, or (ii) a willful misrepresentation regarding his place of birth, and the alien was in fear of being repatriated to his former homeland if he had exposed the facts in his case: *Provided further*, That such act or misrepresentation was not committed for the purpose of evading quota restrictions of the United States immigration laws, or investigation of his record at the place of his former residence or elsewhere in connection with an application for a United States visa. The fact that an alien may be or may have been a bona fide refugee shall not be considered as sufficient in itself to remove the alien from any excludable class.

(2) Subject to the conditions stated in subparagraph (1) of this paragraph, an alien who, upon review of his case, is found by the consular officer to have made a willful misrepresentation within the meaning of section 10 of the Displaced Persons Act of 1948, as amended (62 Stat. 1013, 64 Stat. 225; 50 U. S. C. 1950) for the purpose of gaining admission into the United States as an eligible displaced person, shall be considered ineligible to receive an immigrant visa.

(j) *Subversives*—(1) *Prejudicial activity.* The provisions of section 212 (a) (27) of the act shall be considered to relate to the ineligibility of aliens to receive visas because of their purpose, plan, intention, or design, whether solely, principally, or incidentally, to engage in activities after arrival in the United States which would be prejudicial to the public interest, or which would endanger the welfare, safety, or security of the United States.

(2) *Subversive activity.* The provisions of section 212 (a) (29) of the act shall be considered to relate to the ineligibility of aliens to receive visas on the basis of their past activities which indicate that they probably would engage, after arrival in the United States, in one or more of the activities specified in section 212 (a) (29), regardless of their actual or ostensible purposes, plans, intentions, or designs in coming to the United States. An alien who was convicted of being a war criminal, or who was properly charged as such but who escaped trial or punishment by departing the jurisdiction, or an alien who was guilty of, or who advocated or acquiesced in, activities or conduct contrary to civilization and human decency on behalf of a power which was at war with the United States during World War II may be considered ineligible to receive a visa under the provisions of section 212 (a) (29) of the act.

(3) *Members or affiliates.* The provisions of section 212 (a) (28) of the act shall be considered to relate to the ineligibility of aliens to receive visas because of their present or former voluntary membership in, or affiliation with, the classes described therein, including voluntary membership in, or affiliation with, certain proscribed parties, oragnizations, and groups as specified therein, regardless of the purpose of such aliens in coming to the United States;

(i) The term "affiliate", as used in section 212 (a) (28) of the act with reference to an organization, means an organization substantially directed, dominated, or controlled by one of the parties within the statutory proscription, which is or was used or operated by such party to help maintain its control over the country, or to help disseminate its economic and governmental doctrines or ideology.

(ii) Service, whether voluntary or not, in the armed forces of any country shall not be regarded, of itself, as constituting or establishing an alien's membership in, or affiliation with, any proscribed party or organization, and shall not, of itself, constitute a ground of ineligibility to receive a visa.

(iii) Voluntary service in a political capacity, such as a political commissar with the armed forces of any country, shall constitute affiliation with the political party or organization in power at the time of such service.

(iv) Membership or affiliation, whether voluntary or not, which ended before an alien reached his sixteenth birthday shall not constitute a ground of ineligibility to receive a visa. If an alien continues or continued his membership or affiliation beyond his sixteenth birthday, the question whether his membership or affiliation after his sixteenth birthday is or was voluntary shall be determined as in the case of any other alien. In that connection, the facts relating to his activities only after his sixteenth birthday may be considered in determining whether the continuation of his membership or affiliation is or was voluntary.

(v) The term "operation of law", as used in section 212 (a) (28) (I) of the act, shall include any case wherein the alien without his acquiescence automatically becomes or became a member or affiliate of a proscribed party or organization by official act, proclamation, order, edict, or decree.

(4) *Totalitarianism.* In accordance with the definition of "totalitarian party" contained in section 101 (a) (37) of the act, former or present voluntary members of, or aliens who were, or are, voluntarily affiliated with a noncommunist party, organization, or group, or of any section, subsidiary, branch, affiliate or subdivision thereof, which during the time of its existence did not or does not advocate the establishment in the United States of a totalitarian dictatorship, shall not be considered ineligible under the provisions of section 212 (a) (28) of the act to receive visas, unless such aliens are known or believed by the consular officer to advocate, or to have advocated, personally, the establishment in the United States of a totalitarian dictatorship or totalitarianism, as defined in the act. Aliens who are, or have been, voluntary members of, or voluntarily affiliated with, the Communist party, or any of its sections, subsidiaries, branches, affiliates, or subdivisions, in any country, shall be considered, as specifically declared by the act, to be ineligible to receive visas, except as provided in subparagraph (5) of this paragraph. If any other party is found to be a "totalitarian party", as defined in section 101 (a) (37) of the act, former or present voluntary membership in or affiliation with such party, or any of its sections, subsidiaries, branches, affiliates, or subdivisions, shall render an alien ineligible to receive a visa, except as provided in subparagraph (5) of this paragraph.

(5) *Defectors.* The term "defector" includes an alien who was a voluntary member of, or was voluntarily affiliated with, a proscribed party or organization, or the section, subsidiary, branch, or affiliate or subdivision thereof, which exists, as well as a proscribed party or organization, or the section, subsidiary, branch, or affiliate or subdivision thereof, which no longer exists but which did exist within the period of the last 5 years prior to the date of the application for a visa. The five-year period of defection required by the provisions of section 212 (a) (28) (I) of the act, shall be considered as having begun to run from the established date of an alien's cessation of voluntary membership or affiliation or from the date such party or organization, or the section, subsidiary, branch, or affiliate or subdivision thereof, ceased or ceases to exist. The words "actively opposed", as used in section 212 (a) (28) (I) of the act shall be considered as embracing speeches, writings, and other overt or covert activities, during a period of at least 5 years prior to the application for a visa, in opposition to the doctrine, program, principles, and ideology of the party or organization, or the section, subsidiary, branch, or affiliate or subdivision thereof, of which the alien was formerly a member or affiliate. An alien shall not be required, except in questionable circumstances, to show that he has actively opposed the doctrine, program, principles, and ideology of a proscribed party or organization, or the section, subsidiary, branch, or affiliate or subdivision thereof during the time it did not exist. However, such alien shall be required to show that during the period of non-existence of the party or organization, or the section, subsidiary, branch, or affiliate or subdivision thereof he did not personally advocate the doctrine, program, principles, and ideology of such party or organization, or of the section, subsidiary, branch, or affiliate or subdivision thereof, within the meaning of the act.

(6) *Public interest with regard to visas.* Consular officers shall maintain a coordinated and uniform interpretation and appraisal of what constitutes the public interest in issuing or refusing visas to defectors. Such coordination and uniformity shall be accomplished by a reference of the consular officer's opinion to the Secretary of State for possible consultation with the Attorney General.

(7) *War criminals.* No alien who was convicted of being a war criminal or was properly charged as such but escaped trial or punishment by departing the jurisdiction, or who was guilty of, or who advocated or acquiesced in, activities or conduct contrary to civilization and human decency on behalf of a power which was at war with the United States during World War II shall be considered as a defector under the provisions of section 212 (a) (28) (I) (ii) of the act or the regulations contained in this part.

(k) *Failure of application to comply with act.* An immigrant's visa application shall be considered as failing to comply with the provisions of the act if:

(1) The applicant fails to furnish the information to be included in such application as required by the act and the regulations contained in this part;

(2) Such application contains a false or incorrect statement;

(3) Such application is not supported by the necessary documents required under the provisions as of the act or the regulations contained in this part;

(4) The applicant refuses to be fingerprinted as required by the act;

(5) The necessary fee is not paid for such application or for the immigrant visa;

(6) The alien fails to swear to, or affirm, the application before the consular officer; or

(7) The visa application otherwise fails to meet the specific requirements of the act for reasons for which the alien is responsible.

(Sec. 212 and 221, 66 Stat. 182, 192; 8 U. S. C. 1182, 1201)

REFUSAL AND REVOCATION OF IMMIGRANT VISAS

§ 42.43 *Procedure in refusing immigrant visas.* (a) No immigrant visa, quota or nonquota, shall be issued to an alien if the consular officer is prohibited under the provisions of section 221 (g) of the act, from issuing a visa to such alien.

(b) When an immigrant visa is refused, a memorandum of refusal shall be prepared on Form 290 and retained in the appropriate consular file. The action of refusing an immigrant visa shall be reviewed by the consular officer in charge of visa work at the post, and if he concurs in the refusal he shall countersign the memorandum of refusal. If the consular officer in charge of visa work or the principal officer at the post does not concur in the refusal, he shall refer the case to the Department for an advisory opinion.

(c) If upon preliminary examination and after being informed of the consular officer's determination of his ineligibility to receive a visa an applicant decides not to execute a formal visa application, such a circumstance shall, for the purposes of this part, constitute an informal refusal of an immigrant visa. If an applicant has executed a formal application for an immigrant visa on Form 256 and has paid the application fee, a determination by the consular officer of the applicant's ineligibility to receive a visa shall, for the purposes of this part, constitute a formal refusal of an immigrant visa.

(d) In formally refusing an immigrant visa the consular officer shall write or stamp diagonally across the visa side of Form 256a and Form 256b in red ink the words "Visa refused under authority of ----------" (insert specific provision or provisions of law or regulation on which refusal is based). This notation shall be signed and dated by the consular officer refusing the visa. The application fee stamp shall be mutilated. Form 256a shall be delivered to the alien and Form 256b shall be retained in the consular file. The original of any supporting document submitted by the alien with his application may be returned to him if not required to be attached to Form 256.

§ 42.44 *Revocation of immigrant visas*—(a) *Grounds for revocation.* Consular officers are authorized to revoke an immigrant visa under the following circumstances:

(1) The consular officer knows, or after investigation is satisfied, that the visa was procured by fraud, a willfully false or misleading representation, the willful concealment of a material fact, or other unlawful means; or

(2) The consular officer obtains information establishing the alien was otherwise ineligible to receive the particular visa at the time it was issued.

(b) *Notice of revocation.* (1) Notice of revocation shall, if practicable, be given to the alien at his last known address prior to his departure for the United States. Whenever circumstances permit, an alien shall be given an opportunity to show why he believes revocation to be, or to have been, unwarranted.

(2) Notice of revocation shall be given to the master, commanding officer, agent, owner, charterer, or consignee of the carrier or transportation line on which the alien is known or believed to intend to travel to the United States.

(c) *Report of revocation.* A full report concerning the revocation of an immigrant visa shall be communicated to the Department for transmission to the Attorney General. A copy of such report shall be sent to the consular office which issued the visa if the revocation is effected by any other consular office upon its own initiative, upon instruction of the issuing office, or upon instructions from the Department. If it is not practicable to give the alien notice of revocation prior to his departure for the United States, the full report shall explain the circumstances and shall be submitted promptly to the Department for transmission to the Attorney General.

(d) *Surrender of revoked visa.* Upon receiving notice of revocation of his immigrant visa, the alien shall be requested to surrender Form 256a to the consular office indicated in the notice, for cancellation of the visa. The word "revoked" shall be written plainly on the visa by the consular officer, who shall sign and date such notation. Appropriate notation of the action taken, including a statement of the reason therefor, shall be made on Form 256b or on an appended memorandum. Any notation in the alien's passport concerning the issuance of the visa shall be cancelled.

(e) *Disposition of revoked visa quota number.* A quota number which has been used in issuing an immigrant visa may not be used again in issuing an immigrant visa to another alien, and such number need not be returned to the Department even if the immigrant visa is

(Sec. 221, 66 Stat. 192; 8 U. S. C. 1201)

§ 42.45 *Disposition of supporting documents.* (a) Documents furnished in support of an application for an immigrant visa, other than those required to be permanently attached to Form 256, may, in the discretion of the consular officer, be returned to the person furnishing them. An alien shall not be given documents of a personal or confidential nature furnished to the consular officer directly by the alien's sponsor or other person, but such documents may be returned to the person furnishing them if they are irreplaceable. If such documents are returned, the consular officer shall prepare and attach to Form 256b a memorandum briefly summarizing the contents of the documents and the circumstances of their return.

(b) *Furnishing visa records for court proceedings.* Upon receipt by a consular officer of a request to furnish information from a visa file or record for use in court proceedings, as contemplated in section 222 (f) of the act, the consular officer shall submit such information with a full report to the Department.

(c) *Visa revoked, mutilated, or expired.* An immigrant visa which has expired, or which has been revoked or mutilated, shall, whenever practicable, be taken up, endorsed with an appropriate notation, and filed with the Form 256b at the consular office where the visa was originally issued. In the event such a visa is taken up at an office other than the issuing office, it shall be forwarded to such issuing office.

§ 42.46 *Refund of immigrant visa fee.* The fee of twenty dollars ($20.00) collected for the issuance of an immigrant visa shall not be refunded without specific authorization from the Department. In requesting such authorization the consular officer shall state in his communication the basis for the proposed refund, indicating clearly whether the visa was issued through some fault of the applicant or of the consular officer.

VALIDITY AND REVALIDATION

§ 42.47 *Validity of immigrant visa.* (a) The period of validity of an immigrant visa, quota or nonquota, shall not exceed four months, beginning with the date of issuance.

(b) If the visa was originally issued with a period of validity of less than four months, such period may be extended up to but not exceeding four months from the date of issuance of the visa. If an immigrant applies for an extension of the period of validity of his visa at a consular office other than the issuing office, the consular officer shall, unless he is satisfied beyond any doubt that the alien is eligible for the extension, communicate with the issuing office to ascertain if any objection is perceived to such extension. In extending the period of validity of an immigrant visa, the consular officer shall make appropriate notation of the new expiration date of the visa, affix his signature, indicate his title, and impress the seal of his office thereon.

(c) No fee shall be charged for extending the period of validity of an immigrant visa.

(Sec. 221, 66 Stat. 191; 8 U. S. C. 1201)

§ 42.48 *Issuance of new or replace immigrant visa—*(a) *Nonquota immigrant visa.* (1) A nonquota immigrant who establishes that his visa has been lost or mutilated, or has expired, may be issued a new nonquota immigrant visa at the same or any other consular office upon payment of the statutory application and visa fees: *Provided*, That the immigrant is again found to be qualified to receive such a visa under the immigration laws and regulations.

(2) Prior to issuing to an alien a new nonquota immigrant visa at a consular office other than that which issued the original visa, the consular officer shall communicate with the original visa-issuing office to ascertain if any reason is known why a new visa should not be issued.

(3) In the event a new nonquota immigrant visa is issued as provided in subparagraph (1) of this paragraph, such visa shall be given a new number in the series of nonquota immigrant visas issued at the consular office if that office numbers nonquota visas.

(b) *Replace quota immigrant visa.* (1) A quota immigrant who establishes that his visa has been lost or mutilated, or that he was otherwise unable to use it during the period of its validity because of reasons beyond his control and for which he was not responsible, may be issued a replace quota immigrant visa under the original quota number during the same quota year in which the original visa was issued, upon payment anew of the statutory application and visa fees: *Provided*, That the immigrant is otherwise qualified to receive such a visa under the immigration laws and regulations and the consular officer is in possession of the duplicate signed consular-file copy of the original visa.

(Sec. 221, 66 Stat. 191; 8 U. S. C. 1201)

(2) Prior to issuing a replace quota immigrant visa to an alien whose original immigrant visa was issued at a consular office other than the original issuing office, the consular officer shall communicate with such other office to ascertain if any reason is known why a replace visa should not be issued.

(3) In issuing a replace quota immigrant visa, as provided in subparagraph (1) of this paragraph, the word "REPLACE" shall be inserted on Forms 256a and 256b before the word "IMMIGRANT" in the title of the visa.

(4) An immigration visa issued before December 24, 1952 may not be replaced on or after that date, but the immigrant may be issued an immigrant visa under the act and the regulations contained in this part, under the same quota number before June 30, 1953, upon payment of the new application and visa fees.

TRANSFER OF JURISDICTION

§ 42.49 *Transfer of cases.* The case of an applicant for an immigrant visa which is pending at one consular office may be transferred at the applicant's request and risk to another consular office in accordance with the following procedure:

(a) An alien who is outside of the United States shall submit a written request to the receiving office in whose jurisdiction he is physically present.

(b) If the receiving office approves such request, it shall accept jurisdiction and forward a request to the transferring office for the complete file in the case.

(c) If the receiving office declines to take jurisdiction of the case under the provisions of § 42.30 (e), the alien shall be informed of the reasons for such refusal.

(d) Upon receipt by the transferring office of the request of the receiving office the complete file in the case shall be transferred to the receiving office.

(e) The transferring office shall include in the transfer, or as soon as possible thereafter shall forward to the receiving office, a report of clearance or nonclearance concerning the alien in the district of his former residence.

(f) The transfer of a case shall include any authorization by the Department to grant nonquota or preference-quota status based upon an approved petition, the alien's registration priority, and all documents in the alien's file. The transfer of an authorization based upon an approved petition shall be reported to the Department.

(g) In no case shall a quota number be transferred from one office to another. A quota number allotted by the Quota Control office for use in issuing an immigrant visa to an alien whose case is being transferred to another office shall be returned to the Department.

(h) Whenever a receiving office accepts jurisdiction of a case in accordance with the provisions of § 42.30 (e), the jurisdiction of any other consular office shall be automatically terminated and no waiver of jurisdiction shall be required.

(i) In the case of a bona fide crewman who, due to his calling, and the uncertainty of his sailing as a crewman, is unable to file his formal visa application at the consular office at which he is registered, such consular office shall transfer the crewman's file at his risk and upon his written request to another consular office designated by such crewman after having obtained the consent to such transfer from the consular office designated by the crewman.

(j) An alien who is in the United States may not have his case transferred from one consular office to another, unless such alien is required to be in the United States by reason of the inherent nature of his business, profession, occupation, or employment, or is unable to return to the country in which the consular office having his file is located.

(k) Any alien requesting the transfer of his record from one consular office to another shall agree to assume, and

may be required to sign a statement to the effect that he assumes, full responsibility for any loss or other damage resulting to him from such transfer in view of the inability of the consular officer to guarantee or insure the transfer of the original or irreplaceable documents in the case against the hazards of available transportation facilities. If the alien is not required to agree to such a signed statement, an appropriate notation of his verbal agreement shall be made by the consular officer for the consular files.

The regulations contained in this order shall become effective on December 24, 1952, at 12:01 a. m., e. s. t. The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date are inapplicable to this order because the regulations contained therein involve foreign affairs functions of the United States.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 22, Supplementary Regulation 40]

CPR 22—MANUFACTURERS GENERAL CEILING PRICE REGULATION

SR 40—ADJUSTED CEILING PRICES FOR MANUFACTURERS OF ROLLED FIGURED, HEAT ABSORBING AND WIRE GLASS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 40 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation establishes adjusted ceiling prices for manufacturers of rolled figured, heat absorbing and wire glass. The method provided is to apply a uniform adjustment factor of two percent to the General Ceiling Price Regulation (GCPR) ceiling prices of the industry. The adjustment was derived from an earnings survey of the industry.

At an Industry Advisory Committee meeting held on September 16, 1952, it was indicated that the level of earnings of this industry had fallen below the minimum prescribed by the "industry earnings standard." This standard provides that the level of ceiling prices for an industry shall normally be considered "fair and equitable" under the Defense Production Act of 1950, as amended, if the industry's dollar profits (computed before Federal income and excess profits taxes) amount to 85 percent of the average return on net worth for the industry's best three years during the period 1946–1949, inclusive, adjusted for changes in net worth.

A survey was undertaken by OPS and financial data were obtained from the four companies in the industry. Based upon the survey, the Director of Price Stabilization has determined that the dollar profits of the industry will meet the requirements of the industry standard, and that ceiling prices will therefore be generally fair and equitable, if ceiling prices for this industry are established at two percent above the level of GCPR ceiling prices.

In determining the two percent adjustment factor recognition was given, among other costs, to increased costs in crating materials. Crating is, therefore, treated by this regulation as a part of the glass commodities concerned. Increased costs of outbound transportion were also taken into consideration. For this reason, this regulation precludes manufacturers covered hereby from applying SR 35 to CPR 22, which permits adjustments to reflect increases in the costs of outbound transportation.

However, the increased cost of steel incurred by the industry as a result of the issuance of SR 100 to the GCPR on August 19, 1952, was not taken into account. The industry uses small amounts of steel such as running bar in processing the glass, wire in wire glass and nails for crating. The effect of the steel cost increase on these producers is very slight, amounting to less than one-tenth of one percent of the sales dollar of the industry.

Nevertheless, manufacturers covered by this SR may pass through such steel cost increases they individually experience in accordance with the provisions of GOR 35.

Because the four companies surveyed appear to comprise the entire industry covered by this action, its scope should be clearly and unmistakably defined.

In the formulation of this supplementary regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Coverage.
3. Adjusted ceiling prices.
4. Relation to other regulations.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 805, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6104; 3 CPR 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation establishes adjusted ceiling prices for sales by manufacturers of rolled, figured, heat absorbing and wire glass. Such manufacturers are currently subject to Ceiling Price Regulation 22 (CPR 22). The method provided is to apply a uniform adjustment ratio to the GCPR ceiling prices of the industry.

SEC. 2. *Coverage*—(a) *Persons covered.* This supplementary regulation applies to you if you are a manufacturer of a commodity described in paragraph (b) of this section and establishes

UNIVERSITY OF MICHIGAN LIBRARIES

your ceiling prices for your sales of such commodities. Except to the extent that they are inconsistent with the provisions of this supplementary regulation, all provisions of CPR 22 shall continue to be applicable to you.

(b) *Commodities covered.* This supplementary regulation covers the following types of flat glass, including packaging or crating supplied by the manufacturer in the shipment of the glass:

Wire glass (of a polished or roughened surface containing a metallic mesh embedded in the glass).

Heat absorbing glass (especially made to reduce glare and transmission of heat beyond these characteristics of ordinary glass; this does not include laminated or "automobile" glass.

Rolled figured glass (which because of a pattern embossed on its surface has the appearance of a roughened surface.)

SEC. 3. *Adjusted ceiling prices*—(a) *How to compute.* Your ceiling price for the sale of any commodity covered by this supplementary regulation is your ceiling price in effect under the GCPR increased by two (2) percent (i. e., 102 percent of your GCPR ceiling price.)

(b) *Rounding ceiling prices.* You may round your ceiling prices determined under this section in accordance with the provisions of section 25 of CPR 22.

(c) *Terms and conditions of sale.* Your ceiling prices under this supplementary regulation must be consistent in all respects with your ceiling prices under CPR 22; that is, they must carry all customary discounts, allowances, premium and extras, deductions, guarantees and other terms and conditions of sale.

SEC. 4. *Relation to other regulations*—(a) *GOR 35.* Nothing in this supplementary regulation precludes you from applying the provisions of General Overriding Regulation 35 (pass-through for steel, copper, pig-iron and aluminum cost increases). Note, however, that your adjustment under GOR 35 must be made after you apply section 3 of this Supplementary Regulation. If you have already made an adjustment under GOR 35 you must recalculate your ceiling prices as follows:

(1) Adjust your GCPR ceiling prices as provided in section 3 of this SR;

(2) Add your adjustment under GOR 35.

(b) *SR 17, SR 18 to CPR 22.* You may elect to apply the provisions of Supplementary Regulation 17 or Supplementary Regulation 18 to CPR 22 to establish your ceiling prices. If you do so elect, you may not use the provisions of this supplementary regulation.

(c) *SR 35 to CPR 22.* You may not employ the provisions of Supplementary Regulation 35 to CPR 22 (adjustments to reflect increased outbound transportation rates).

Effective date. This Supplementary Regulation 40 to Ceiling Price Regulation 22 is effective December 23, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

CPR 22—MANUFACTURERS GENERAL CEILING PRICE REGULATION

SR 41—SALES OF DOMESTICALLY PROCESSED IMPORTED NUTS AND OF MIXED NUTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 41 to Ceiling Price Regulation 22 is hereby issued.

STATEMENT OF CONSIDERATIONS

Ceiling prices of shelled, roasted, and salted nuts at the processing level are at present determined under CPR 22 and CPR 31. Thus, processors' ceiling prices for imported nuts are determined under the provisions of CPR 31, whereas their ceiling prices for domestic nuts are determined under CPR 22. Ceiling prices for mixed nuts containing imported nuts present problems as to whether they are subject to CPR 22 or 31. Increases in the costs of imported nuts may be passed through under CPR 31. Likewise, increases in costs for domestic nuts may be passed through in accordance with the provisions of section 21 of CPR 22. This regulation is issued to clarify the matter of cost increases of mixed nuts containing imported nuts and to simplify the determination of such ceiling prices by making the computation subject to only one regulation, that is, CPR 22.

The most important variety of imported nuts used by these processors is the cashew. The cost of cashew nuts has risen sharply since March 1951, due to a greatly expanded world demand, and the cost of these nuts is a very substantial part of the total costs of mixed nuts. The agency has concluded that the same provisions which now apply to domestic nuts and domestic nut mixes should also be made applicable to all nut mixes which include imported nuts. To this end, this supplementary regulation allows domestic processors of mixed nuts, which contain domestically processed imported nuts, to reflect a current net cost in determining their ceiling prices for such mixtures. This is accomplished by allowing them to treat imported nuts as if they were domestically produced and listed in Appendix C of CPR 22. However, a processor who wishes to avail himself of the right to increase his ceiling price for nut mixtures containing imported nuts, in order to reflect increases in his net costs for the imported nuts, is permitted to pass through only such increase in his net cost of these imported nuts as is not offset by a corresponding reduction in the net costs of the other imported or domestic nuts contained in that mixture.

In order to facilitate administration and to ease the calculating requirements of nut processors, CPR 31 is amended, simultaneously with the issuance of this supplementary regulation, so as to remove domestic processors of imported nuts from coverage under that regulation. As a result of this action, these processors now will be covered by CPR 22 and, since they may now regard imported nuts as Appendix C commodities, will arrive at substantially the same result as they did under CPR 31.

In the formulation of this supplementary regulation, the Director of Price Stabilization has, to the extent practicable, consulted with industry representatives, including trade association representatives, and has given consideration to their recommendations. In the judgment of the Director, this supplementary regulation is generally fair and equitable, is necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and complies with all the applicable standards of that act.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Ceiling prices for domestically processed imported nuts and for mixed nuts.
3. Relationship of this supplementary regulation to Ceiling Price Regulation 22.
4. Reporting.
5. Definitions.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation is optional. You may avail yourself of its provisions if you are a processor of imported nuts or of mixed nuts. It establishes a method which will enable you to determine ceiling prices for your sales of imported nuts and of mixed nuts, processed by you. The terms "process," "processor," "mixed nuts" and "nut mixture" are defined in section 5 of this supplementary regulation.

SEC. 2. *Ceiling prices for domestically processed imported nuts and for mixed nuts.* (a) If you are a processor of imported or mixed nuts, you shall determine the ceiling prices for your sales of imported nuts processed by you and for the sales of mixed nuts processed by you, under the provisions of Ceiling Price Regulation 22, as amended. In determining your ceiling prices under CPR 22, you may treat the imported nuts as if they were listed in Appendix C of that regulation. But, if you avail yourself of the provision of this supplementary regulation for sale of a nut mixture, and there has been any reduction in your net cost per unit of any of the nuts used in that mixture you may increase your ceiling price therefor only by the dollar-and-cent amount by which the increase in your net cost per unit of any of the imported nuts used in that mixture is not offset by a corresponding reduction in net cost per unit of the other nuts (whether imported or domestic), used therein.

Example 1. Your present ceiling price for a certain nut mixture is $1.00 per pound. That mixture is composed of: Peanuts, ¼ pound; almonds, ½ pound; and cashews, ¼ pound. Between March 15, 1951, and the current date your net cost for cashews increased 20 cents per pound, or 5 cents per unit (¼ pound) used in the above mixture. Between March 15, 1951, and the current date your net cost for peanuts remained unchanged, whereas your net cost for almonds decreased 8 cents per pound, or 4 cents per unit (½ pound). The 5-cent increase per unit in your net cost of cashews is partially offset, namely, by 4 cents per unit, by virtue of the decrease in your net cost for almonds. If you avail yourself of this supplementary regulation you may increase your ceiling price for the 1-pound mixture by 1 cent, or to $1.01 per pound.

Example 2. Your present ceiling price for a certain nut mixture is $1.00 per pound. That mixture is composed of: Peanuts, ½ pound; almonds, ¼ pound; and cashews, ¼ pound. Between March 15, 1951, and the current date your net cost for cashews increased 20 cents per pound, or 5 cents per unit (¼ pound) used in the above mixture. Between March 15, 1951, and the current date your net cost for almonds decreased 8 cents per pound, or 2 cents per unit (¼ pound), and your net cost for peanuts decreased 8 cents per pound, or 4 cents per unit (½ pound). The 5-cent increase per unit in your net cost of cashews is entirely offset, namely, by 6 cents per unit, by virtue of the total decrease (2 cents + 4 cents = 6 cents) in your net costs for the other nuts. Hence, you may not increase your ceiling price for the mixture. In this event you may elect not to avail yourself of this supplementary regulation and continue to determine your ceiling price for this nut mixture under CPR 22.

SEC. 3. *Relationship of this supplementary regulation to Ceiling Price Regulation 22.* If you avail yourself of this supplementary regulation, all provisions of Ceiling Price Regulation 22, as amended, shall continue to apply to you, except to the extent that they are modified by or are inconsistent with the provisions of this supplementary regulation.

SEC. 4. *Reporting.* In every case where you avail yourself of the provisions of this supplementary regulation and compute a new ceiling price, you shall comply with the reporting requirements of section 21 (h) of Ceiling Price Regulation 22, as amended.

SEC. 5. *Definitions.* (a) To "process" means to cook, roast, or salt nuts or cover them with an edible substance. You are a "processor" of nuts if you cook, roast, salt or cover them with an edible substance.

(b) "Mixed nuts" means mixed imported nuts which have been domestically processed, or domestically processed imported nuts when mixed with domestic tree-nuts, peanuts, or any combination thereof. "Nut mixture" means the same as mixed nuts.

Effective date. This supplementary regulation is effective December 18, 1952.

NOTE: The reporting requirements of this supplementary regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

SR 25—POWER LAUNDRIES IN PHILADELPHIA, PENNSYLVANIA

ADDITIONAL POWER LAUNDRIES IN THE PHILADELPHIA, PENNSYLVANIA AREA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Ageny General Order No. 2, this Amendment 1 to Supplementary Regulation 25 to Ceiling Price Regulation 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

Supplementary Regulation 25 to Ceiling Price Regulation 34, issued November 10, 1952 permitted an increase in ceiling prices for certain power laundry services and dry cleaning services supplied by power laundries located in the City of Philadelphia, Pennsylvania. An increase in ceiling prices was also given to independent routemen and stores, known in the laundry and dry cleaning industry as "bobtailers", in order that customary differentials between classes of power laundry service purchasers might be maintained. That supplementary regulation did not permit the increase to be applied to the diaper supply and linen supply services of such laundries. This amendment permits the same increase in ceiling prices for additional power laundries located in certain other areas close to Philadelphia namely, Camden, Gloucester, and Burlington Counties, New Jersey and the City of Hammonton in Atlantic County, New Jersey.

A study of the operating costs and profit margins of a representative number of the power laundries in Camden, Gloucester, and Burlington Counties, New Jersey and the City of Hammonton in Atlantic County, New Jersey which provide 90 percent of the total sales of services furnished by these laundries amounting to an estimated $2,350,000 in 1951, reveals that increased labor and material costs have impaired the pre-Korean earnings of such laundries. In addition, new wage contracts entered into with labor unions representing the employees of these laundries resulted in substantial wage increases. These wage increases are all within the formula of Wage Stabilization Board regulations or have received Wage Stabilization Board approval, with the result that earnings of these laundries will be further impaired. The price increase granted herein has been determined to be the minimum necessary to maintain the financial stability of these laundries in order to assure a continued supply of these essential services. The uniform increase has been determined in accordance with the standards for individual adjustments under Section 20 of Ceiling Price Regulation 34.

All other considerations which were set forth in the Statement of Considerations to Supplementary Regulation 25 to Ceiling Price Regulation 34 are equally applicable to the power laundries located in the areas included in this amendment.

In the formulation of this amendment, the Director has consulted insofar as practicable with representative suppliers of these services, including representatives of trade associations, and consideration has been given to their recommendations. In the judgment of the Director of Price Stabilization the increases permitted by this amendment are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Supplementary Regulation 25 to Ceiling Price Regulation 34 is amended in the following respects:

1. The title of Supplementary Regulation 25 is amended to read as set forth above.

2. Add the phrase "Camden, Gloucester and Burlington Counties, New Jersey and the City of Hammonton in Atlantic County, New Jersey," after the words Philadelphia, Pennsylvania, wherever they appear in sections 1 and 3.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective December 18, 1952.

SR 31—LINEN SUPPLY SERVICES IN THE CITY OF PHILADELPHIA, PENNSYLVANIA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 31 to Ceiling Price Regulation 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Supplementary Regulation 31 to Ceiling Price Regulation 34 permits an increase in the ceiling prices of linen supply services furnished by linen suppliers in the City of Philadelphia, Pennsylvania.

Increased costs of operation resulting from wage increases, replacement of worn out, obsolete equipment, and higher costs of materials used in processing have decreased the earnings of these suppliers and caused a substantial financial hardship to them. Certain of these linen suppliers also employ the services of power laundries in processing their fabrics. The ceiling prices of power laundries in the City of Philadelphia, Pennsylvania, have been increased by 9 percent under Supplementary Regulation 25 to Ceiling Price Regulation 34, increasing the costs incurred by those linen suppliers utilizing the services of such power laundries.

tion. As a result of this action, these unit (¼ pound) used in the above mixture.

Under the provisions of this supplementary regulation, ceiling prices of linen suppliers in the City of Philadelphia, Pennsylvania, may be increased by 7 percent, such adjustment to be applied to the total amount of each invoice rendered to the customer and identified as the "OPS permitted price increase", or, at the option of the individual linen supplier, the established flat price for each article may be increased 7 percent. The adjusted flat price must, within ten days after determination, be filed with the appropriate Office of Price Stabilization District Office as required by section 18 of Ceiling Price Regulation 34, as amended.

The uniform increase has been determined in accordance with the standards for individual adjustments under section 20 of Ceiling Price Regulation 34, as amended.

Linen suppliers subject to this supplementary regulation may not, after the effective date of this supplementary regulation, obtain an adjustment of their ceiling prices under section 20 of Ceiling Price Regulation 34, as amended. In addition, adjustments previously granted under that section are automatically revoked upon the effective date of this supplementary regulation.

In the formulation of this supplementary regulation, the Director has consulted insofar as practicable with representative suppliers of these services, including representatives of trade associations, and consideration has been given to their recommendations. In the judgment of the Director of Price Stabilization the increases permitted by this supplementary regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

SECTION 1. *Purpose.* This supplementary regulation permits linen suppliers located in the City of Philadelphia, Pennsylvania to increase the ceiling prices of their linen supply services by 7 percent. This supplementary regulation shall not apply to any other services supplied by such linen suppliers.

SEC. 2. *Relationship to Ceiling Price Regulation 34.* All provisions of Ceiling Price Regulation 34, as amended, except as affected by the provisions of this supplementary regulation, shall remain in effect.

SEC. 3. *Adjustment of ceiling prices.* You may, to the extent you furnish linen supply services from locations in the City of Philadelphia, Pennsylvania, increase your ceiling prices by 7 percent for linen supply services thus supplied by either of the following methods:

(a) You may apply such adjustment to the total amount of each invoice rendered to the customer, provided you shall clearly write or stamp beside the adjustment on each invoice the words "OPS permitted price increase". If you use this method of applying your price increase you need not make the supplementary filing required by Section 18 (c) of Ceiling Price Regulation 34, as amended.

(b) You may in lieu of the method provided in paragraph (a) of this section, increase by 7 percent the flat price of each linen supply service article. You may not establish prices under paragraph (a) of this section once you have elected to establish prices under this paragraph. Within ten days after your prices are established under this paragraph, you must prepare and file with your district office of the Office of Price Stabilization a supplemental statement as required by section 18 of Ceiling Price Regulation 34. You may not establish prices under paragraph (a) of this section once you have elected to establish prices under this paragraph.

(c) If the increase calculated in paragraphs (a) and (b) of this section results in a fraction of a cent, the ceiling price must be decreased to the next lower cent if the fractional cent is less than one-half cent, or may be increased to the next higher cent if the fraction is one-half cent or more.

SEC. 4. *Application of section 20 of Ceiling Price Regulation 34.* (a) No seller of linen supply services subject to this supplementary regulation, may, after the effective date of this regulation, apply for an adjustment of any of his ceiling prices for linen supply services under section 20 of Ceiling Price Regulation 34, as amended. All orders establishing ceiling prices of any seller of linen supply services subject to this supplementary regulation issued under either section 20 (a), (b) or (c) of Ceiling Price Regulation 34, as amended, are hereby revoked, upon the effective date of this regulation.

SEC. 5. *Definitions.* (a) As used in this supplementary regulation the term:

(1) "Linen supply services" means the supplying to others, on a rental basis, of clean laundered linen or garments by the owner of these items. The term "linen", as used in this definition, is not confined to articles made of linen textiles, but includes articles consisting of any fabric which are commonly laundered as distinguished from being dry cleaned.

Effective date. This supplementary regulation is effective December 18, 1952.

CPR 34—SERVICES

SR 32—DIAPER SUPPLY SERVICES IN PHILADELPHIA AND DELAWARE COUNTIES, PENNSYLVANIA, AND CAMDEN COUNTY, NEW JERSEY

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 32 to Ceiling Price Regulation 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Supplementary Regulation 32 to Ceiling Price Regulation 34 permits an increase in the ceiling prices of the diaper supply services furnished by retail diaper suppliers in Philadelphia and Delaware Counties, Pennsylvania and Camden County, New Jersey.

Sharply increased costs of materials and supplies together with wage increases recently granted with Wage Stabilization Board approval have made repair and replacement of worn out and obsolete equipment virtually impossible. These factors have resulted in substantial financial hardship to these diaper service suppliers. Also, certain of these diaper service suppliers employ the services of power laundries in processing their fabrics. The ceiling prices of power laundries in Philadelphia, Pennsylvania have been increased by 9 percent, increasing the costs incurred by those diaper service suppliers using the services of power laundries.

Under the provisions of this supplementary regulation, ceiling prices of diaper service suppliers in Philadelphia and Delaware Counties, Pennsylvania and Camden County, New Jersey may be increased by 5 percent, such adjustment to be applied to the total amount of each invoice rendered to the customer and identified as the "OPS permitted price increase," or, at the option of the individual diaper service supplier, the established flat price for each article may be increased 5 percent. The adjusted flat price must, within ten days after determination, be filed with the appropriate Office of Price Stabilization District Office.

Provision is made to retain such services under Ceiling Price Regulation 34: *Provided however*, That diaper service suppliers subject to this supplementary regulation may not, after the effective date of this supplementary regulation, obtain an adjustment of their ceiling prices under section 20 of Ceiling Price Regulation 34, as amended. In addition, adjustments previously granted under that section are automatically revoked as of the effective date of this supplementary regulation.

In the formulation of this supplementary regulation, the Director has consulted insofar as practicable with representative suppliers of these services including representatives of trade associations, and consideration has been given to their recommendations. In the judgment of the Director of Price Stabilization the increases permitted by this supplementary regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

SECTION 1. *Purpose.* This supplementary regulation permits diaper service suppliers in Philadelphia and Delaware Counties, Pennsylvania, and Camden County, New Jersey to increase the ceiling prices of their retail diaper supply services by 5 percent, in the manner provided in section 3. This supplementary regulation shall not apply to any other services supplied by such diaper service suppliers.

SEC. 2. *Relationship to Ceiling Price Regulation 34.* All provisions of Ceiling Price Regulation 34, as amended, except as affected by the provisions of this supplementary regulation, shall remain in effect.

SEC. 3. *Adjustment of ceiling prices.* You may, to the extent you furnish diaper supply services at retail from locations in Philadelphia and Delaware Counties, Pennsylvania and Camden County, New Jersey, increase your ceiling prices by 5 percent for diaper supply services thus supplied by either of the following methods:

(a) You may apply such an adjustment to the total amount of each invoice rendered to the customer, provided you shall clearly write or stamp beside the adjustment on each invoice the words "OPS permitted price increase". If you use this method of applying your price increase you need not make the supplementary filing required by section 18 (c) of Ceiling Price Regulation 34.

(b) You may, in lieu of the method provided in paragraph (a) of this section, increase by 5 percent the flat price of each diaper supply service article. Within ten days after your prices are established under this paragraph, you must prepare and file with your district office of Office of Price Stabilization a supplemental statement as required by section 18 of Ceiling Price Regulation 34. You may not establish prices under paragraph (a) of this section once you have elected to establish prices under this paragraph.

(c) If the increase calculated in paragraphs (a) and (b) of this section results in a fraction of a cent, the ceiling price must be decreased to the next lower cent if the fractional cent is less than one-half cent, or may be increased to the next higher cent if the fraction is one-half cent or more.

SEC. 4. *Application of section 20 of Ceiling Price Regulation 34.* (a) No seller of diaper supply services at retail subject to this supplementary regulation may, after the effective date of this regulation, obtain an increase in his ceiling prices for such diaper supply services under section 20 of Ceiling Price Regulation 34, as amended. All orders establishing ceiling prices of any seller of diaper supply services subject to this supplementary regulation issued under either section 20 (a), (b) or (c) of Ceiling Price Regulation 34 are hereby revoked, upon the effective date of this regulation.

SEC. 5. *Definitions.* (a) As used in this supplementary regulation the term:

(1) "Diaper supply services" means the supplying to retail customers on a rental basis, of clean laundered diapers by the owner of these items.

(2) The term "Retail" refers to the sale of diaper supply services directly to the ultimate consumer, except commercial, industrial, and governmental users.

Effective date. This Supplementary Regulation 32 to Ceiling Price Regulation 34 shall become effective December 18, 1952.

[Ceiling Price Regulation 134, Amdt. 8]

CPR 134—CEILING PRICES FOR EATING AND DRINKING ESTABLISHMENTS

ADJUSTMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 8 to Ceiling Price Regulation 134 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to CPR 134 sets up an adjustment procedure which will permit operators of eating and drinking establishments to apply to OPS for permission to increase their present ceiling prices of meals, food items and beverages. The amount of the increase in ceiling prices allowed will be based on the individual operator's dollar and cents increase in food costs and in wage rates. Only one adjustment based on increased food costs and wage rates will be permitted. The amendment also makes more specific the requirements governing ceiling price posters.

CPR 134 which became effective April 7, 1952, replaced CPR 11 as the tailored regulation for the restaurant industry and was issued in order to provide a more effective and enforceable method of controlling prices charged by eating and drinking establishments. The new regulation fixed individual dollars-and-cents ceiling prices on the basis of the highest prices charged by the operator during the week of February 3 through 9, 1952. At that time all of the available data indicated that the general level of prices of food had been fairly well stabilized. The Monthly Wholesale Food Price Index issued by the Bureau of Labor Statistics had not risen for several months prior to the issuance of the new regulation. In the judgment of the Director, therefore, the regulation was not likely to cause significant squeezes in the restaurant industry.

However, in anticipation of possible changes in economic conditions, particularly in regard to wholesale food and labor costs, provision was made in the regulation for issuance of adjustment factors from time to time. This, it was thought, would keep the regulation constantly attuned to changes in the principal factors affecting the operations of the restaurant industry.

Recently, wholesale food costs generally have risen above the level prevailing at the time restaurant prices were frozen and wage rates for public feeding establishments have risen in some parts of the country. The data now available are sufficient to establish the fact that increases in these two vital cost factors have occurred. They are not sufficient, however, to furnish a measure of the impact of those increases either on the industry as a whole or on any of its segments. As a result, there is no adequate factual basis at this time for a general adjustment which would at once deal equitably with the various types of sellers in the industry and properly protect the interest of consumers.

Because of these conditions, the Director has decided, in spite of the burden imposed on the Agency and the industry by such a technique, to make provision for an individual adjustment of ceiling prices on the basis of pass-throughs of higher food and labor costs. This adjustment is an interim measure only and studies already underway will be continued with a view to the development of a more desirable technique for the adjustment of ceiling prices in the light of changes in economic conditions.

Generally, in regard to food costs this amendment provides that the operator may increase his ceiling prices if his current ratio of food costs to dollar of sales for the three month period of July, August and September, 1952, is higher than his base period food cost per dollar of sales. This does not mean a return at this time to the use of the food cost ratio as a regulatory technique. The two ratios involved are used simply as instruments for measuring the particular operator's increase in food costs and of the amount of dollars which he should be allowed to pass-through by additions to his ceiling prices.

In addition, if an operator has had an increase in his wage rates since February 1952, he may apply for an adjustment based on the increase in wage rates of all categories of employees on his payroll during the week of February 3, 1952. That is the week, it will be recalled, which was used as the base period for the freeze of restaurant prices. It is anticipated that, while some operators will be entitled to adjust their prices on the basis of increases in both food costs and wage rates, many establishments of a

specialized nature such as taverns, fish, chicken and steak houses, will be able to adjust for higher labor costs alone because their food and beverage costs have not increased significantly.

If an operator's food costs per dollar of sales and his wage rates have both increased since February, 1952, the increases will be added together to provide a single adjustment factor. At the same time, if, as is possible for some establishments, one type of cost, e. g. food, has decreased, then an offset will be made against any increase in wage rates which may have occurred. The operator will be permitted to apply the allowable percentage increase equally across the board to all of his meals, food items and beverages or to apply a higher percentage to a limited number of items.

Although the operator will now be permitted to increase his present ceiling prices, the posting of his ceiling prices, as required by CPR 134, will be retained. He will be required to put up a new poster with the new ceiling prices as adjusted under this amendment before he may charge those new prices.

Ceiling price posters are essential to successful control of restaurant prices. Yet, effective use of the posters has not been fully achieved because some operators have not carried out the spirit of the posting requirements, and so, it has become necessary to make the requirements more specific in order to avoid any chance of misunderstanding. Thus, this amendment sets up more precise provisions pertaining to the way in which items must be shown on the poster. The lettering will have to be typed, printed, stamped or written so that both the names of the items and their ceiling prices will be legible to customers at four feet.

In the formulation of this amendment, there has been consultation to the extent practicable with industry representatives, including trade association representatives and consideration has been given to their recommendations. In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended, and comply with all of the applicable standards of that act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 134 is amended in the following respects:

1. Section 10 is amended to read as follows:

SEC. 10. *Adjustment in ceiling prices.* You may at any time before February 14, 1953, apply for permission to increase your ceiling prices by reason of actual increases in your direct costs. The following paragraphs set out the procedure for making your application and the rules which OPS will use in deciding whether you are entitled to adjust your ceiling prices and, if so, by what amount.

(a) *General basis for increase.* You will be permitted to increase your ceiling prices if your direct costs, that is, your food and labor costs, have increased. The increases allowed will be those required to pass through your higher costs. If, however, it should turn out that while either of your direct costs has increased, the other has decreased, then the decrease will be offset against the increase. If both have increased, your adjustment will, of course, be based on both factors.

(b) *Adjustment based on food costs.* You will be allowed an adjustment if your food cost per dollar of sales (including alcoholic beverages) for the three-month period of July, August, and September, 1952 (or, if that period is not one of your current periods as defined in section 27 (b) of CPR 134, your most recent current period ending before November 1, 1952), is higher than your base period food cost per dollar of sales (including alcoholic beverages). However, if you were not open for at least thirty days during your current period, use your most recent current period in which you were open for thirty days after January 31, 1952. Your base period for the purpose of this section is whichever of the following is applicable to you:

(1) The base period you established under CPR 11.

(2) The last three months of the first five consecutive months of operation if the establishment was not in operation prior to November 1, 1951, and you did not establish a base period under CPR 11.

(c) *Adjustment based on wage rates.* You will be allowed an adjustment if the wage rates of any of your categories of employees for the pay week immediately preceding the date of your application are higher than the wage rates in effect for those categories of employees during the week of February 3 through 9, 1952. You must follow the instructions appearing on OPS Public Form No. 156 to determine the categories of employees to be included and to make the computations necessary for an adjustment under this paragraph.

(d) *How to apply your increase.* You may apply the allowable percentage increase equally to all of your meals, food items and beverages or you may apply a higher percentage to a limited number of items. The amount of that higher percentage will depend on the proportion of your sales volume represented by the items you select and will be calculated to permit you to obtain the same amount of revenue as you would have been able to obtain by applying your increase across the board. If you decide to apply a higher percentage to a limited number of items you will not be allowed to increase the ceiling price of any item by more than 25 percent.

(e) *How and where to make your application.* In order to obtain an increase under this section, you must fill out OPS Public Form No. 156 in accordance with the instructions appearing on the form for each of your establishments separately and mail it to the OPS office for your area. If, however, you filed one base period report under CPR 11 for two or more establishments owned or operated by you, you may treat the establishments covered by the base period report as one establishment and mail a single application form to the OPS office with which you filed that report.

(f) *When you may charge your new ceiling prices.* You may not charge your new ceiling prices until twenty days after you have mailed your application to OPS. Thereafter, you may charge your new ceiling prices unless you are notified, either before or after the expiration of the twenty day waiting period, that your application has been disapproved. You may not, in any event, charge your adjusted ceiling prices until you have displayed a new poster showing your new ceiling prices for the items required to be listed on your poster. The poster must be displayed as provided in section 13.

2. Paragraph (b) of section 13 is amended by inserting between the first and second sentence of that paragraph a new sentence to read as follows: "The names of the items and the ceiling prices for each item which you list on the poster must be typed, printed, stamped or written so that they will be legible at four feet."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment 8 to Ceiling Price Regulation 134 is effective December 23, 1952.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[General Ceiling Price Regulation, Supplementary Regulation 129]

GCPR, SR 129—SUSPENSION FROM CEILING PRICES OF MANUFACTURERS' SALES OF HARDWOOD PLYWOOD PRODUCED EAST OF THE 105TH MERIDIAN

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation No. 129 to the General Ceiling Price Regulation, is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation suspends from ceiling price control manufacturers' sales of hardwood plywood produced east of the 105th meridian. Heretofore, these commodities have been controlled by the General Ceiling Price Regulation.

There are about 280 hardwood plywood plants, all of which are located east of the 105th meridian. Approximately 200 of these are integrated with furniture factories and do not normally sell on the open market. The eighty plants producing for open market sales are scattered throughout the area, with the greatest concentration in the Southeast.

Reports of the Bureau of Labor Statistics show that on the average hardwood plywood products have been selling approximately 10% below the GCPR level since early in 1952. Thus, in October 1952 the index number for hardwood plywood compiled by the U. S. Bureau of Labor Statistics was 101.1 as compared with 112.9 in February 1951 and 95.5 in June 1950.

The latest reports of the U. S. Bureau of the Census show that production in this industry during the second quarter of 1952 was nearly 22 percent below the level for the corresponding quarter in 1951. This decline appears to have been caused for the most part by competition from imported plywood. Douglas Fir plywood faced with hardwood veneer (which is made principally west of the 105th meridian), and from hardboard. Glue and veneer, the basic raw materials, as well as manpower appear to be plentiful in all production areas. Hence, there appears to be little likelihood of any marked increase in prices as a result of this action.

The Director may at any time terminate or modify this suspension if he determines that such action is necessary in the interests of the stabilization program. Similarly, the Director may terminate this suspension in case of significant price increase of important raw materials. In any event, the suspension will be terminated when the index number compiled by the U. S. Bureau of Labor Statistics for the plywood subgroup, hardwood class, reaches 109.5 (1947–49 average=100).

In the judgment of the Director of Price Stabilization the provisions of Supplementary Regulation 129 to the GCPR are generally fair and equitable and are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

So far as practicable, the Director of Price Stabilization has given due consideration to the national effort to achieve maximum production and the furtherance of the objectives of the Defense production Act of 1950, as amended.

In the formulation of this supplementary regulation special circumstances have rendered consultation with industry representatives impractical.

AUTHORITY: Sections 1 to 4 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* The purpose of this supplementary regulation is to suspend from the provisions of the General Ceiling Price Regulation, manufacturers' sales of hardwood plywood produced east of the 105th meridian.

SEC. 2. *Suspension.* On and after December 18, 1952, the provisions of the General Ceiling Price Regulation are suspended with respect to manufacturers' sales of hardwood plywood produced east of the 105th meridian. This suspension will continue unless and until the Director of Price Stabilization terminates or modifies it. The suspension effected by this supplementary regulation does not operate to place manufacturers' sales of hardwood plywood produced east of the 105th meridian under any other ceiling price regulation.

SEC. 3. *Records.* During the period of suspension, on sales covered by this supplementary regulation, you, and buyers from you, shall not be required to prepare and keep the records specified in section 16 (b) of the General Ceiling Price Regulation. However, you, and buyers from you, shall continue to preserve and make available for examination by the Office of Price Stabilization, in the manner and for the period set forth in section 16 (b) of the General Ceiling Price Regulation, all such records which you, and buyers from you, were required to have on December 17, 1952.

SEC. 4. *Definition.* As used in this supplementary regulation, the term "hardwood plywood" means any flat or curved assembly of two or more thicknesses of veneer, or of two or more thicknesses of veneer with a lumber core, which is laminated or glued together and in which at least one ply of veneer is a species of hardwood.

Subchapter B—Wage Stabilization Board

WAGE STABILIZATION COMMITTEE
RESOLUTION NO. 1

In order to provide for continuity in wage stabilization, and in conformance with the provisions of ESA General Order 19, the Wage Stabilization Committee hereby ratifies, confirms, and adopts as its own all policies, regulations, resolutions, interpretations, rulings, orders, decisions, rules, directives, applications, and other actions heretofore taken in the name of the Wage Stabilization Board created under section 403 (b) of the Defense Production Act, as amended, and Executive Orders 10377 and 10390, or of any of its agents or agencies or the Economic Stabilization Administrator, except that, while any tripartite "Board agency" is rendered inoperative, it shall be composed of three members representative of the general public.

CHARLES C. KILLINGSWORTH,
Chairman,
Wage Stabilization Committee.

Production and Marketing Administration

[7 CFR Ch. IX]

[Docket No. AO-244]

HANDLING OF MILK IN MIDDLE AND SOUTHEAST MISSISSIPPI MARKETING AREA

NOTICE OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Assembly Room, Woolfolk State Office Building, Second Floor, Jackson, Mississippi, beginning at 10:00 a. m., c. s. t., on January 6, 1953.

The public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk for the Middle and Southeast Mississippi marketing area and to the issuance of a marketing agreement and order regulating the handling of milk in the said marketing area. The proposed marketing agreement and order proposals set forth below have not received the approval of the Secretary of Agriculture, and at the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the proposals or any modifications thereof.

Marketing agreement and order proposed by the Central Sales Committee, Jackson, Mississippi:

DEFINITIONS

SECTION 1. *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Marketing Agreement of 1937, as amended (7 U. S. C., 601 et seq.).

SEC. 2. *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

SEC. 3. *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal Agency authorized to perform the price reporting functions specified in this subpart.

SEC. 4. *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

SEC. 5. *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

SEC. 6. *Middle and Southeast Mississippi marketing area.* "Middle and Southeast Mississippi marketing area" hereinafter called "marketing area" means all the territory within the boundaries of the counties of Hinds, Madison, Rankin, Warren, Jones, Forrest, Marion, all within the State of Mississippi, and shall be divided into two districts:

(a) The territory within the boundaries of the counties of Hinds, Madison, Rankin and Warren shall be district number I; and

(b) The territory within the boundaries of the counties of Jones, Forrest and Marion shall be district number II.

SEC. 7. *Fluid milk plant.* "Fluid milk plant" means any milk plant, except that of a producer-handler, approved by the appropriate health authority in the marketing area, and used during the month for (a) the processing and packaging of producer milk, all or a portion of which is disposed of as Class I milk in the marketing area to wholesale or retail outlets, including plant stores; or (b) the receipt and cooling of producer milk for shipment to a plant described under paragraph (a) of this section, of more than 35 percent of its total receipts of producer milk during the months of September, October, November and December, and 20 percent for the months of January through August.

SEC. 8. *Nonfluid milk plant.* "Nonfluid milk plant" means any milk manufacturing, processing, or bottling plant other than a fluid milk plant.

SEC. 9. *Handler.* "Handler" means: (a) Any person in his capacity as the operator of a fluid milk plant(s); (b) a producer-handler; or (c) any cooperative association with respect to milk of producers diverted by it from a fluid milk plant to a nonfluid milk plant for the account of such cooperative association.

SEC. 10. *Producer.* "Producer" means any person, except a producer-handler, who produces milk under a dairy farm inspection permit issued by the appropriate health authority in the marketing area and whose milk is permitted to be used for consumption as milk in the marketing area, which milk is: (a) Received at a fluid milk plant, or (b) customarily received at a fluid milk plant but diverted by a Cooperative Association or the operator of such fluid milk plant directly from the farm to a nonfluid milk plant: *Provided*, That any such milk so diverted shall be deemed to have been received by the handler for whose account it was diverted.

SEC. 11. *Producer milk.* "Producer milk" means all skim milk and butterfat produced by a producer and received at a fluid milk plant.

SEC. 12. *Other source milk.* "Other source milk" means all skim milk and butterfat received at a fluid milk plant other than that skim milk and butterfat contained in producer milk.

SEC. 13. *Producer-handler.* "Producer-handler" means any person who produces milk under a dairy farm permit issued by the appropriate health authority in the marketing area and who processes milk from his own production, and distributes all or a portion of such milk within the marketing areas as Class I milk, but who receives no milk from producers.

MARKET ADMINISTRATOR

SEC. 20. *Designation.* The agency for the administration covered by this subpart shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

SEC. 21. *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violation;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend to the Secretary amendments to the terms and provisions contained in this subpart.

SEC. 22. *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering every employee who handles funds entrusted to the market administrator.

(d) Pay out of the funds provided by section 95 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses, except those incurred under section 94, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 3 days after the date upon which he is required to perform such acts, has not made reports pursuant to section 30 and section 31 or payments pursuant to section 90;

(i) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, and notify each handler in writing on or before the 6th day of each month, the minimum price for Class I milk computed pursuant to section 51 (a), (b), (c) (1) (2) (3) and (d) and the Class I butterfat differential computed pursuant to section 54 (a), both for the current month, and the minimum price for Class II milk computed pursuant to section 53 and the Class II butterfat differential computed pursuant to section 54 (b), both for the previous month;

(j) Notify each handler in writing on or before the 11th day of each month the amount of the net obligation of such handler for milk received from producers during the previous month. Such notification shall show the amount and the value of milk in each class; the amount and the value of overage; and the amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months;

(k) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate and notify each handler in writing:

(l) On or before the 13th day after the end of each of the months of September through February, the uniform price for each handler computed pursuant to section 71 and the butterfat differential computed pursuant to section 92; and

(2) On or before the 13th day after the end of each of the months of March through August, the uniform prices for base milk and for excess milk for each handler computed pursuant to section 72 and the butterfat differential computed pursuant to section 92, and

(3) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

SEC. 30. *Reports of receipts and utilization.* On or before the 8th day after the end of each month each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers, and for the months of March through August the aggregate quantities of base and excess milk;

(b) The quantities of skim milk and butterfat contained in receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section; and

(e) Such other information with respect to receipts and utilization as the market administrator may prescribe.

SEC. 31. *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler shall report to the market administrator in detail and on forms prescribed by the market administrator, as follows:

(1) On or before the 8th day after the end of the month, the correct name and address of each producer, the total pounds of milk received from each producer, the number of days on which milk was received from each producer, the amount of any deductions authorized in writing by the producer to be made in making payments to such producer, and the average butterfat content of the milk received from each producer.

(2) Upon request of the market administrator, the information described in subparagraph (1) of this paragraph together with such other information as the market administrator may prescribe for prior calendar months included in the period beginning with ---------- to the effective date of this order.

(3) On or before the first day other source milk is received, such handler's intention to receive such milk and on or before the last day such milk is received, his intention to discontinue receipt of such milk.

SEC. 32. *Records and facilities.* Each handler shall maintain and make available to the market administrator or his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream, and milk products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products on hand at the beginning and end of each month; and

(d) Payments to producers.

SEC. 33. *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

SEC. 40. *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler and which is required to be reported pursuant to section 30 shall be classified by the market administrator pursuant to the provisions of section 41 through section 46.

SEC. 41. *Classes of utilization.* Subject to the conditions set forth in section 43 and section 44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of in the form of milk, skim milk, buttermilk, flavored milk, flavored milk drinks (including eggnog), yogurt, cream, cultured sour cream, any mixture of cream and milk or skim milk other than ice cream and ice cream mixes, (2) used to produce concentrated (including frozen) milk, (3) any other product required by the appropriate health authority in the marketing area to be made from Grade A milk, and all skim milk and butterfat not specifically accounted for as Class II milk.

(b) Class II milk shall be all skim milk and butterfat (1) used to produce any product other than those specified in paragraph (a) of this section, (2) disposed of for livestock feed, (3) in shrinkage up to 2 percent of receipts from producers, and (4) in shrinkage of other source milk.

SEC. 42. *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for such handler; and

(b) Prorate the resulting amounts between such handler's receipts of skim milk and butterfat in milk from producers and in other source milk.

SEC. 43. *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified as Class II milk.

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

SEC. 44. *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion from a fluid milk plant shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a fluid milk plant of another handler unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 8th day after the end of the month within which such transaction occurred: *Provided*, That the skim milk or butterfat so assigned to Class II shall be limited to the amount thereof remaining in Class II in the plant of the transferee-handler after the subtraction of other source milk pursuant to section 46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I: *Provided further*, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk.

(b) As Class I milk if transferred to a producer-handler in the form of milk, skim milk, or cream.

(c) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a nonfluid milk plant, except that of a producer-handler, unless the following conditions are met:

(1) The handler claims classification in Class II;

(2) The market administrator is permitted to audit the books and records showing the utilization of all skim milk and butterfat received at such nonfluid milk plant, for the purpose of verification; and

(3) An amount of skim milk and butterfat not less than that so transferred or diverted was used in Class II: *Provided*, That the skim milk and butterfat so assigned to Class II shall be limited to the amount thereof remaining in Class II in such nonfluid milk plant, and any additional amounts of skim milk and butterfat so

transferred or diverted shall be assigned to Class I.

SEC. 45. *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the report of receipts and utilization submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I milk and Class II milk for such handler.

SEC. 46. *Allocation of skim milk and butterfat classified.* After making the computations pursuant to section 45 the market administrator shall determine the classification of milk received from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to section 41 (b) (3);

(2) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk: *Provided*, That if the receipts of skim milk in other source milk are greater than the remaining pounds of skim milk in Class II, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I;

(3) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers according to its classification as determined pursuant to section 44 (a);

(4) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(5) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of the Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

SEC. 50. *Minimum prices.* Subject to the appropriate butterfat differential computed pursuant to section 54 each handler shall pay in the manner set forth in section 90 through section 94 for milk received at his plant from producers at not less than the prices per hundredweight set forth in section 51, section 52, and section 53.

SEC. 51. *Class I milk.* Class I price shall be an amount calculated as follows:

(a) Multiply the formula index computed pursuant to section 52 by $6.00 and divide by 100;

(b) Adjust the price calculated pursuant to paragraph (a) of this section so that it will not be less than 1.5 times nor more than 1.75 times the price calculated pursuant to paragraph (d) of this section: *Provided*, That for each of the months of September, October, November and December, such price shall not be less than that for the preceding month, and that for each of the months April, May, and June, such price shall not be more than that for the preceding month.

(c) Add to or subtract from the foregoing price, as the case may be, as follows:

(1) Divide for each district the total receipts of producer milk in the two immediate preceding delivery periods of all handlers by the total pounds of Class I milk of all handlers (except interhandlers transfers and sales by producer-handlers) for such period, multiply the result by 100, and round to the nearest whole number. The result shall be known as Class I utilization percentage;

(2) Compute for each district a "net utilization percentage" by algebraically subtracting from the Class I utilization percentage computed pursuant to subparagraph (1) of this paragraph, the standard utilization percentage shown below:

Month for which price applies	Months used in computation	Standard utilization percentage
January	November-December	110
February	December-January	118
March	January-February	126
April	February-March	130
May	March-April	130
June	April-May	137
July	May-June	135
August	June-July	135
September	July-August	130
October	August-September	120
November	September-October	114
December	October-November	110

(3 For each minus percentage point in excess of 2 in the "net utilization percentage" the Class I price shall be increased 3 cents in January, February, March, July and August; 2 cents in April, May and June; 4 cents in September, October, November, and December; and for each plus percentage point in excess of 2 in the "net utilization percentage" the Class I price shall be decreased 3 cents in January, February, March, July and August; 4 cents in April, May, and June; and 2 cents in September, October, November, and December: *Provided*, That in no event shall an adjustment made pursuant to this subparagraph exceed 50 cents per hundredweight.

(d) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the preceding month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture, divided by 3.5 and multiplied by 4.0;

SEC. 52. *Formula index.* Based on the latest data available on the 28th day of each month, or the first business day thereafter if the 28th is not a business day the market administrator shall calculate a formula index for the following month as follows:

(a) Divide the monthly wholesale price index for all commodities as announced by the Bureau of Labor Statistics, U. S. Department of Labor, by the average of such index for the years 1947 through 1949 and multiply by 100.

(b) Take the average of the three latest indexes of business activities in the affected areas as computed by the Business Research Station of Mississippi State College, State College, Mississippi, using the years 1947 through 1949 as the base period.

(c) Compute a labor-feed index as follows:

(1) Divide by 0.0325 the daily farm wage rate without board or room for the State of Mississippi as reported by the U. S. Department of Agriculture and multiply by 0.3;

(2) Divide by 0.04239 the average price paid per hundredweight for all mixed dairy feed of under 29 percent protein in the State of Mississippi as reported by the U. S. Department of Agriculture and multiply by 0.7;

(3) Add together the amounts determined pursuant to subparagraphs (1) and (2) of this paragraph.

(d) Add the amounts determined pursuant to paragraphs (a), (b), and (c) of this section, divide by 3 and round to the nearest one tenth.

SEC. 53. *Class II milk.* The average of the basic or field prices reported to have been paid or to be paid for ungraded milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture.

Present Operator and Location

Kraft Cheese Co., Newton, Miss.
Borden Co., Starkville, Miss.
Carnation Co., Tupelo, Miss.

SEC. 54. *Butterfat differential to handlers.* If the average butterfat content of producer milk allocated to any class pursuant to section 46 is more or less than 4.0 percent there shall be added to the respective class price computed pursuant to section 51 for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent, or subtracted for each one-tenth of 1 percent that such average butterfat content is below 4.0 percent an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92 score) bulk creamery butter at Chicago, as reported by the Department of Agriculture during the period listed below by the applicable factor so listed and dividing the result by 10:

(a) *Class I milk.* Multiply such price reported for the preceding month by 1.25;

(b) *Class II milk.* Multiply such price reported for the current month by 1.20.

APPLICATION OF PROVISIONS

SEC. 60. *Producer-handlers.* Section 40 through section 46, section 50 through section 52, section 70 through section 72, section 80 through section 83 and section 90 through section 96 shall not apply to a producer-handler.

DETERMINATION OF UNIFORM PRICE

SEC. 70. *Net obligation of each handler.* The net obligation of each handler for milk received during each month from producers shall be a sum of money computed by the market administrator as follows: (a) Multiply the pounds of such milk in each class by the applicable class price, (b) add together the resulting amounts, (c) add the amounts computed by multiplying the pounds of overage deducted from each class by the applicable class price, and (d) add or subtract, as the case may be an amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months.

SEC. 71. *Computation of the uniform price for each handler.* For each of the months of September through February the market administrator shall compute for each handler the uniform price for milk received from producers as follows:

(a) Add to the amount computed pursuant to section 70 the amount of location differential pursuant to section 91;

(b) Subtract, if the average butterfat content of milk received from producers by such handler is more than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential to producers, and multiply the result by the total hundredweight of such milk;

(c) Add the amount represented by any deductions made pursuant to paragraph (d) of this section for fractions of a cent in computing the uniform price for the preceding month;

(d) Divide the resulting amount by the total hundredweight of milk received from producers by such handler. The result, less any fraction of a cent per hundredweight shall be known as the uniform price for such handler for milk of 4.0 percent butterfat content, f. o. b. the fluid milk plant.

SEC. 72. *Computation of the uniform price for base milk and for excess milk for each handler.* For each of the months of March through August, the market administrator shall compute for each handler the uniform price for base milk and for excess milk received from producers as follows:

(a) Add to the amount computed pursuant to section 70 the amount of location differential pursuant to section 91;

(b) Subtract, if the average butterfat content of milk received from producers by such handler is more than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential to producers, and multiply the result by the total hundredweight of such milk;

(c) Add the amount represented by any deductions made pursuant to section 71 (a) or paragraphs (f) and (g) of this section for fractions of a cent in computing such uniform prices for the preceding month;

(d) Subject to the conditions set forth in paragraph (e) of this section, compute the value of excess milk by multiplying the quantity of such milk by the Class II price;

(e) Compute the value of base milk received by such handler from producers by subtracting the value obtained pursuant to paragraph (d) of this section from the value obtained pursuant to paragraphs (a) through (c) of this section: *Provided*, That if such resulting value is greater than an amount computed by multiplying the pounds of base milk delivered by producers by the Class I price computed pursuant to section 51 such value in excess thereof shall be added to the value computed pursuant to paragraph (d) of this section to the extent that the excess price shall not exceed the base price as calculated in this section. Any additional value remaining shall be prorated on a volume basis between excess and base milk.

(f) Divide the result obtained in paragraph (e) of this section by the quantity of base milk received by such handler from producers. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price per hundredweight for such handler for "base milk" of 4.0 percent butterfat content f. o. b. the marketing area; and

(g) Divide the result obtained in paragraph (d) of this section by the quantity of excess milk received by such handler from producers. This result, less any fraction of a cent per hundredweight, shall be known as the uniform price per hundredweight for such handler for "excess milk" of 4.0 percent butterfat content.

SEC. 73. *Notification of handlers.* On or before the 10th day after the end of each delivery period, the market administrator shall mail to each handler, at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the totals thereof;

(b) For the months of March through August the amounts and value of his base and excess milk respectively, and the totals thereof; and

(c) The uniform price(s) computed pursuant to section 71 and section 72, and the butterfat differential computed pursuant to section 92.

BASE RATING

SEC. 80. *Base operating period.* The base operating period shall be the months of March through August.

SEC. 81. *Base forming period.* The base forming period for each year shall be the months of September through February, immediately preceding the base operating period.

SEC. 82. *Determination of daily base.* The daily base of each producer shall be calculated by the market administrator, as follows: Divide the total pounds of milk received by a handler(s) from such producer during the base forming period by the number of days in such period.

SEC. 83. *Computation of base.* The base of each producer to be applied during the base operating period shall be a quantity of milk calculated, by the handler who receives milk from such producer, in the following manner, subject to verification by the market administrator: Multiply the daily base of such producer with such handler by the number of days for which such producer's milk was delivered to such handler during the delivery period.

SEC. 84. *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base forming period;

(b) Bases may be transferred by notifying the market administrator in writing before the last day of any month for which such base is to be transferred to the person named in such notice only as follows:

(1) In the event of the death, retirement, or entry into military service of a producer, the entire base may be transferred to a member(s) of such producer's immediate family who carries on the dairy operations.

(2) If a base is held jointly and such joint holding is terminated the entire base may be transferred to one of the joint holders.

(3) The entire daily base of a producer may be moved from one handler to another handler.

SEC. 85. *Announcement of established bases.* On or before April 1, of each year, the market administrator shall notify each producer and the handler receiving milk from such producers the daily base established by such producer.

PAYMENTS

SEC. 90. *Payments to producers.* Each handler shall make payment to each producer for milk received from such producer by such handler as follows:

(a) On or before the last day of each delivery period for milk received during the first 15 days of the delivery period at not less than the price per hundredweight for Class II milk for the preceding delivery period.

(b) On or before the 15th day after the end of each of the delivery periods of September through February for milk received during such delivery period at not less than the uniform price per hundredweight computed for such handler

pursuant to section 71, subject to the location and butterfat differentials computed pursuant to section 91 and section 92, less payment made pursuant to paragraph (a) of this section.

(c) On or before the 15th day after the end of each of the delivery periods of March through August, after deducting the amount of payment made pursuant to paragraph (a) of this section, for milk received during the delivery period as follows:

(1) At not less than the uniform price per hundredweight for base milk computed pursuant to section 72 for the quantity of base milk received from such producer, subject to the butterfat differential computed pursuant to section 92, and the location differential as provided in section 91.

(2) At not less than the uniform price per hundredweight for excess milk computed pursuant to section 72 for the quantity of excess milk received from such producer, subject to the butterfat differential computed pursuant to section 92.

(d) In making the payments to producers pursuant to paragraphs (b) and (c) of this section each handler shall furnish each producer with supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The total pounds and average butterfat test of milk received from such producer;

(3) The minimum rate or rates at which payment to such producer is required;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, together with a description of the respective deductions; and

(6) The net amount of payment to such producer.

SEC. 91. *Location differentials.* Each handler, in making payments prescribed in section 90 may deduct 10 cents per hundredweight from the uniform price of base and excess milk during the delivery periods of March through August and for all milk during the delivery periods of September through February for each producer with respect to all such milk received from such producer at a plant as defined in section 7 (b), located more than 40 miles from a plant defined in section 7 (a).

SEC. 92. *Producer butterfat differential.* In making payments pursuant to section 90 there shall be added to the uniform price for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent not less than, or there may be deducted from the uniform price for each one-tenth of 1 percent that the average butterfat content of such milk is below 4.0 percent not more than, an amount computed as follows: Multiply by 1.2 the simple average computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago as reported by the United States Department of Agriculture during the month, divide the result by 10 and round to the nearest one-tenth of a cent.

SEC. 93. *Adjustment of accounts.* Whenever verification by the market administrator of the payment by a handler to any producer discloses payment to such producer of an amount which is less than is required by this section, the handler shall make up such payment to the producer not later than the time of making payment to producers next following such disclosure.

SEC. 94. *Marketing service.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to section 90, shall deduct 10 cents per hundredweight or such amount not exceeding 10 cents per hundredweight as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to sample, test, and check the weights of milk received and to provide producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers on or before the 15th day after the end of each month and pay such deduction to the cooperative association of which such producers are members, furnishing a statement showing the amount of any such deductions and the amount and average butterfat test of milk for which such deduction was computed for each producer. In lieu of such statement a handler may authorize the market administrator to furnish such cooperative association the information with respect to such producers reported pursuant to section 90 (d).

SEC. 95. *Expenses of administration.* As his pro rata share of the expense of administration of this subpart, each handler shall pay to the market administrator on or before the 15th day after the end of the month, 6 cents per hundredweight, or such amount not exceeding 6 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of (a) other source milk which is classified as Class I milk, and (b) milk from producers including such handler's own production.

SEC. 96. *Termination of obligations.* The provision of this section shall apply to any obligation under this order for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers or if the obligation is payable to the market administrator, the amount for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

SEC. 100. *Effective time.* The provisions of this subpart or any amendment hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to section 101.

SEC. 101. *Suspension or termination.* The Secretary may suspend or terminate

this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

SEC. 102. *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

SEC. 103. *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignment or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

SEC. 110. *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his Agent or Representative in connection with any of the provisions of this subpart.

SEC. 111. *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

HANDLING OF MILK IN CENTRAL ARKANSAS MARKETING AREA

NOTICE OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Public Service Commission Hearing Room, State Capitol Building, Little Rock, Arkansas, beginning at 10:00 a. m., c. s. t., January 13, 1953.

The public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk for the Central Arkansas marketing area and to the issuance of a marketing agreement and order regulating the handling of milk in the said marketing area. The proposed marketing agreement and order provisions set forth below have not received the approval of the Secretary of Agriculture. At the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the proposals and any modification thereof.

Marketing agreement and order proposed by the Central Arkansas Milk Producers' Association:

DEFINITIONS

§ 908.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 908.2 *Secretary.* "Secretary" means the Secretary of Agriculture or other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 908.3 *Department.* "Department" means the United States Department of Agriculture or other Federal agency authorized to perform the price reporting functions specified in this subpart.

§ 908.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 908.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines (a) to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," (b) to have full authority in the sale of milk of its members, and (c) to be engaged in making collective sales or marketing milk or its products for its members.

§ 908.6 *Central Arkansas marketing area.* "Central Arkansas marketing area," hereinafter called the marketing area, means all territory within the limits of Pulaski County, Jefferson County, White County, Faulkner County, Clark County and Garland County, all within the State of Arkansas.

§ 908.7 *Approved plant.* "Approved plant" means any milk plant approved by any health authority having jurisdiction in the marketing area from which milk, skim milk, buttermilk, flavored milk, flavored milk drinks, or cream are disposed of for fluid consumption in the marketing area on wholesale or retail routes (including plant stores).

§ 908.8 *Unapproved plant.* "Unapproved plants" means any milk processing or distributing plant other than an approved plant.

§ 908.9 *Handler.* "Handler" means (a) any person in his capacity as the operator of an approved plant; or (b) any cooperative association with respect to the milk of any producer which it causes to be diverted to an unapproved plant for the account of such cooperative association.

§ 908.10 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk which is received at an approved plant: *Provided*, That such milk is produced under a dairy farm inspection permit or inspection rating issued by any health authority having jurisdiction in the marketing area for the production of milk to be disposed of for consumption as fluid milk. "Producer" shall include any such person whose milk is caused to be diverted by a handler to an unapproved plant, and milk so diverted shall be deemed to have been received at an approved plant by the handler who causes it to be diverted. "Producer" shall not include a person with respect to milk produced by him which is received at a plant operated by a handler who is subject to another Federal marketing order and who is partially exempt from the provisions of this subpart pursuant to § 908.61.

§ 908.11 *Producer milk.* "Producer milk" means all skim milk and butterfat in milk produced by a producer which is received by a handler either directly from producers or from other handlers.

ket administrator shall be retained by

fied if used or reused by such handler or

ing the midpoint of any price range as this section, terminate two years after

§ 908.12 *Other source milk.* "Other source milk" means all skim milk and butterfat other than that contained in producer milk.

§ 908.13 *Producer-handler.* "Producer-handler" means any person who produces milk and operates an approved plant, but who receives no milk from producers.

§ 908.14 *Base milk.* "Base milk" means milk received from a producer by a handler during any of the months of April through June which is not in excess of such producer's daily average base computed pursuant to § 908.90 multiplied by the number of days in such month for which the handler received milk from the producer.

§ 908.15 *Excess milk.* "Excess milk" means milk received from a producer by a handler during any of the months of April through June which is in excess of base milk received from such producer during such month, and shall include all milk received during such months from any producer for whom no daily average base has been established pursuant to § 908.90.

MARKET ADMINISTRATOR

§ 908.20 *Designation.* The agency for the administration hereof shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of the Secretary.

§ 908.21 *Powers.* The market administrator shall have the following powers with respect to this subpart.

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 908.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 908.87 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 908.86) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not:

(1) Made reports pursuant to §§ 908.30 through 908.32;

(2) Maintained adequate records and facilities pursuant to § 908.33; or

(3) Made payments pursuant to §§ 908.80 through 908.87;

(i) On or before the 12th day after the end of each month, report to each cooperative association which so requests the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this subpart, the milk received shall be prorated to each class in the proportion that the total receipts of producer milk by such handler were used in each class;

(j) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each month as follows:

(1) On or before the 5th day of each month the minimum prices for Class I milk pursuant to § 908.51 (a) and the Class I butterfat differential pursuant to § 908.52 (a), both for the current month; and the minimum price for Class II milk pursuant to § 908.51 (b) and the Class II butterfat differential pursuant to § 908.52 (b) both for the preceding month; and

(2) On or before the 12th day of each month, the uniform price(s) computed pursuant to § 908.71 or § 908.72, as applicable, and the butterfat differential computed pursuant to § 908.81, both applicable to milk delivered during the preceding month; and

(k) Prepare and disseminate to the public such statistics and other information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS AND FACILITIES

§ 908.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator, as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers, and, for the months of April through June, the aggregate quantities of base milk and excess milk;

(b) The quantities of skim milk and butterfat contained in (or used in the production of) receipts from other handlers;

(c) The quantities of skim milk and butterfat contained in receipts of other source milk (except Class II products disposed of in the form in which received without further processing or packaging by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section;

(e) The disposition of Class I products on route(s) wholly outside the marketing area; and

(f) Such other information with respect to receipts and utilization as the market administrator may prescribe.

§ 908.31 *Reports of payments to producers.* On or before the 20th day of each month, each handler shall submit to the market administrator his producer payroll for deliveries of the preceding month which shall show:

(a) The total pounds of milk received from each producer and cooperative association, the total pounds of butterfat contained in such milk and the number of days on which milk was received from such producers, including for the months of April through June such producer's deliveries of base and excess milk;

(b) The amount of payment to each producer or cooperative association; and

(c) The nature and amount of any deductions or charges involved in such payments.

§ 908.32 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who causes milk to be diverted to an unapproved plant shall, prior to such diversion, report to the market administrator and to the cooperative association of which such producer is a member, of his intention to divert such milk, the proposed date or dates of such diversion, and the plant to which such milk is to be diverted.

§ 908.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipts and utilization of all receipts of producer milk and other source milk;

(b) The weights and tests for butterfat and other content of all milk, skim milk, cream and milk products handled;

(c) Payments to producers and cooperative associations; and

(d) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream and milk products on hand at the beginning and end of each month.

§ 908.34 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (a) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 908.40 *Basis of classification.* All skim milk and butterfat received within the month by a handler and which is required to be reported pursuant to § 908.30 shall be classified by the market administrator pursuant to the provisions of §§ 908.41 through 908.46.

§ 908.41 *Classes of utilization.* Subject to the conditions set forth in §§ 908.43 and 908.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat disposed of in fluid form as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cottage cheese, cream, yogurt, cultured sour cream and any mixtures of cream and milk or skim milk (except bulk ice cream mix), eggnog, and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section.

(b) Class II milk shall be all skim milk and butterfat:

(1) Used to produce any product other than those specified in paragraph (a) of this section; (2) disposed of for livestock feed; (3) in shrinkage allocated to receipts of milk from producers, but not in excess of 2 percent of such receipts of skim milk and butterfat respectively; (4) in shrinkage allocated to receipts of other source milk; and (5) in inventory variations of milk, skim milk, cream or any Class I product.

§ 908.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat in producer milk and in other source milk.

§ 908.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat classified in one class (except that transferred to a producer-handler) shall be reclassified if used or reused by such handler or by another handler in another class.

§ 908.44 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion shall be classified:

(a) As Class I milk if transferred or diverted in the form of milk, skim milk or cream to the approved plant of another handler (except a producer-handler) unless utilization in Class II is mutually indicated in writing to the market administrator by both handlers on or before the 7th day after the end of the month within which such transaction occurred: *Provided*, That the skim milk or butterfat so assigned to Class II shall be limited to the amount thereof remaining in Class II in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 908.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I: *And provided further*, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred or diverted shall be classified at both plants so as to allocate the greatest possible Class I utilization to producer milk.

(b) As Class I milk if transferred or diverted in the form of milk, skim milk or cream to a producer-handler.

(c) As Class I milk if transferred or diverted in the form of milk or skim milk to an unapproved plant located more than 185 miles from the approved plant by the shortest highway distance as determined by the market administrator.

(d) As Class I milk if transferred in the form of cream under Grade A certification to an unapproved plant located more than 185 miles from an approved plant by the shortest highway distance as determined by the market administrator, and as Class II milk if so transferred without Grade A classification.

(e) As Class I milk, if transferred or diverted in the form of milk, skim milk or cream to an unapproved plant located not more than 185 miles from the approved plant, and from which fluid milk is disposed of on wholesale or retail routes unless the market administrator is permitted to audit the records of receipts and utilization at such unapproved plant, in which case the classification of all skim milk and butterfat received at such unapproved plant shall be determined and the skim milk and butterfat transferred or diverted from the approved plant shall be allocated to the highest use remaining after subtracting, in series beginning with Class I milk, receipts of skim milk and butterfat at such unapproved plant directly from dairy farmers who the market administrator determines constitute the regular source of supply for fluid usage of such unapproved plant in markets supplied by such plant.

(f) As Class II milk if transferred or diverted in the form of milk, skim milk, or cream to an unapproved plant located not more than 185 miles from the approved plant and from which fluid milk is not disposed of on wholesale or retail routes.

§ 908.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the monthly report submitted by each handler and shall compute the pounds of skim milk and butterfat in Class I milk and Class II milk for such handler.

§ 908.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 908.45, the market administrator shall determine the classification of milk received by each handler from producers as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II the pounds of skim milk determined pursuant to § 908.41 (b) (3);

(2) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers in a form other than milk, skim milk or cream according to its classification pursuant to § 908.41;

(3) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk: *Provided*, That if the receipts of skim milk in other source milk are greater than the remaining pounds of skim milk in Class II, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I;

(4) Subtract from the remaining pounds of skim milk in each class the skim milk received from other handlers in the form of milk, skim milk or cream according to its classification as determined pursuant to § 908.44 (a);

(5) Add to the remaining pounds of skim milk in Class II the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(6) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk received from producers, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be called "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of Class I and Class II milk computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 908.50 *Basic formula price.* The basic formula price to be used in determining the price per hundredweight of Class I milk shall be the highest of the prices computed pursuant to paragraphs (a) and (b) of this section and § 908.51 (b) for the preceding month.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market

administrator or to the Department, divided by 3.5 and multiplied by 4.0:

White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by adding together the plus values pursuant to subparagraphs (1) and (2) of this paragraph:

(1) From the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month, subtract 3 cents, add 20 percent thereof, and multiply by 4.0.

(2) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, multiply by 8.5 and then multiply by 0.96.

§ 908.51 *Class prices.* Subject to the provisions of § 908.52 the minimum prices per hundredweight to be paid by each handler for milk received at his plant from producers during the month shall be as follows:

(a) *Class I milk.* The price for Class I milk shall be the basic formula price plus $1.95 for the months of May, June and July, plus $2.15 for all other months of the year: *Provided,* That for each of the months of October, November, and December, such price shall not be less than that for the preceding month, and that for each of the months of May, June and July, such price shall not be more than that for the preceding month.

(1) Divide the total receipts of producer milk in the first and second months preceding by the total gross volume of Class I milk (excluding interhandler transfers and sales by producer-handlers and handlers partially exempt from this order pursuant to § 908.60) for the same months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the Class I utilization percentage;

(2) Compute a "net utilization percentage" by algebraically subtracting from the Class I utilization percentage computed pursuant to subparagraph (1) of this paragraph, the standard utilization percentage shown below:

Month for which price applies	Months used in computation	Standard utilization percentage
January	November–December	110
February	December–January	112
March	January–February	114
April	February–March	120
May	March–April	128
June	April–May	130
July	May–June	132
August	June–July	127
September	July–August	120
October	August–September	110
November	September–October	105
December	October–November	108

(3) For each minus percentage point in excess of 2 in the "net utilization percentage" the Class I price shall be increased 3 cents in January, February, March, April, and August; 2 cents in May, June and July; 4 cents in September, October, November and December; and for each plus percentage point in excess of 2 in the "net utilization percentage" the Class I price shall be decreased 3 cents in January, February, March, April and August; 4 cents in May, June and July; and 2 cents in September, October, November, and December: *Provided,* That in no event shall an adjustment made pursuant to this subparagraph exceed 50 cents per hundredweight.

(b) *Class II milk.* The price for Class II milk shall be the price computed pursuant to the provisions of § 908.50.

§ 908.52 *Butterfat differentials to handlers.* If the average butterfat content of the milk of any handler allocated to any class pursuant to § 908.46 is more or less than 4.0 percent, there shall be added to the respective class price, computed pursuant to § 908.51, for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent or subtracted for each one-tenth of 1 percent that such average butterfat content is below 4.0 percent an amount equal to the butterfat differential computed by multiplying the simple average, as computed by the market administrator, of the daily wholesale selling price per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month specified below by the applicable factor listed and dividing the result by 10:

(a) *Class I milk.* Multiply such price for the preceding month by 1.25;

(b) *Class II milk.* Multiply such price for the current month by 1.20.

APPLICATION OF PROVISIONS

§ 908.60 *Producer-handlers.* Sections 908.40 through 908.46, 908.50 through 908.52, 908.70 through 908.72, 908.80 through 908.87, 908.90 and 908.91, shall not apply to a producer-handler.

§ 908.61 *Milk priced under other Federal orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another marketing area regulated by a milk marketing agreement or order issued pursuant to the act, the provisions of this subpart shall not apply except as follows:

(a) The handler shall, with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

(b) If the price which such handler is required to pay under the other Federal order to which he is subject for skim milk and butterfat which would be classified as Class I milk under this order is less than the price provided by this subpart, such handler shall pay to the market administrator for deposit into the producer-settlement fund (with respect to all skim milk and butterfat disposed of as Class I milk within the marketing area) an amount equal to the difference between the value of such skim milk or butterfat computed pursuant to this subpart.

§ 908.62 *Handlers doing less than 20 percent of their business in the marketing area.* In the case of any handler (except a handler who would be covered under § 908.61) who the Secretary determines disposes of less than 20 percent of his milk, qualified for distribution as Grade A milk in the marketing area, as Class I milk in the marketing area, the provisions of this subpart shall not apply except as follows:

(a) The handler shall, with respect to his total receipts of skim milk and butterfat, make reports to the market administrator at such time and in such manner as the market administrator shall require and shall allow verification of such reports by the market administrator pursuant to § 908.33;

(b) Pay to the market administrator for deposit into the producer-settlement fund, with respect to all skim milk and butterfat disposed of as Class I milk within the marketing area, an amount equal to the difference between the Class I and Class II value of such skim milk or butterfat as computed pursuant to this subpart;

(c) As his pro rata share of the expense of administration of this subpart, such handler shall pay to the market administrator on each hundredweight of milk disposed of as Class I in the marketing area the amount per hundredweight in the manner specified in § 908.87.

DETERMINATION OF UNIFORM PRICE

§ 908.70 *Computation of value of milk.* The value of milk received during each month by each handler from producers shall be a sum of money computed by the market administrator by multiplying the pounds of such milk in each class by the applicable class prices, adding together the resulting amounts and adding an amount computed by multiplying the pounds of any overage deducted from each class pursuant to § 908.46 by the applicable class prices.

§ 908.71 *Computation of uniform prices.* For each of the months of July through March the market administrator shall compute the uniform prices per hundredweight for milk of 4.0 per-

cent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 908.70 for all handlers who made the reports prescribed in § 908.30 and who made the payments pursuant to §§ 908.80 and 908.83 for the preceding month;

(b) Add not less than one-half of the cash balance on hand in the producer-settlement fund less the total amount of the contingent obligations to handlers pursuant to § 908.84;

(c) Subtract, if the average butterfat content of the milk included in these computations is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 908.81 and multiplying the resulting figure by the total hundredweight of such milk;

(d) Divide the resulting amount by the total hundredweight of milk included in these computations; and

(e) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for milk of 4.0 percent butterfat content received from producers.

§ 908.72 *Computation of uniform prices for base milk and excess milk.* For each of the months of April through June the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content as follows:

(a) Combine into one total the values computed pursuant to § 908.70 for all handlers who made the reports prescribed in § 908.30 and who made the payments pursuant to §§ 908.80 and 908.83 for the preceding month;

(b) Add not less than one-half of the cash balance in the producer-settlement fund less the total amount of the contingent obligations to handlers pursuant to § 908.84;

(c) Subtract if the average butterfat content of the milk included in these computations is greater than 4.0 percent, or add if such average butterfat content is less than 4.0 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 908.81 and multiplying the resulting figure by the total hundredweight of such milk;

(d) Compute the total value on a 4.0 percent butterfat basis of excess milk included in these computations by multiplying the hundredweight of such milk not in excess of the total quantity of Class II milk included in these computations by the price for Class II milk of 4.0 percent butterfat content, multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price for Class I milk of 4.0 percent butterfat content, and adding together the resulting amounts;

(e) Divide the total value of excess milk obtained in paragraph (d) of this section by the total hundredweight of such milk, and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat received from producers;

(f) Subtract the value of excess milk obtained in paragraph (d) of this section from the value of all milk obtained pursuant to paragraphs (a), (b) and (c) of this section and adjust by any amount involved in adjusting the uniform price of excess milk to the nearest cent;

(g) Divide the amount obtained in paragraph (f) of this section by the total hundredweight of base milk included in these computations; and

(h) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (g) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content received from producers.

PAYMENTS

§ 908.80 *Time and method of payment.* Each handler shall make payment to producers as follows:

(a) On or before the 15th day after the end of the month during which the milk was received, to each producer except as provided in paragraph (c) of this section, (1) at not less than the uniform price computed pursuant to § 908.71 for all milk received from such producer if such preceding month was any of the months of July through March, (2) at not less than the uniform price for base milk computed pursuant to § 908.72 (h), with respect to base milk received from such producer, and at not less than the uniform price for excess milk computed pursuant to § 908.72 (e) with respect to excess milk received from such producer, if such preceding month was any of the months of April through June, in each case adjusted by the butterfat differential computed pursuant to § 908.81 and less the amount of the payment made pursuant to paragraph (b) of this section: *Provided,* That if such handler has not received full payment for such month pursuant to § 908.84, he may reduce his total payments to all producers uniformly by not more than the amount of the reduction in payments from the market administrator; and the handler shall after receipt of such payment from the market administrator complete the payments to those producers not later than the date for making payments pursuant to this paragraph next following after receipt of the balance from the market administrator.

(b) On or before the last day of each month, each handler shall make payment for milk received from producers during the first 15 days of the month to each producer, except as provided in paragraph (c) of this section, at not less than the Class II price for the preceding month.

(c) On or before the 13th and the third from the last day of each month, in lieu of payments pursuant to paragraphs (a) and (b) respectively of this section, each handler shall make payment to a cooperative association which so requests, with respect to producers for which such cooperative association is authorized to collect payment, in an amount equal to the sum of the individual payments otherwise payable to such producers.

§ 908.81 *Producer butterfat differential.* In making payments pursuant to § 908.80, there shall be added to or subtracted from the uniform price for each one-tenth of 1 percent that the average butterfat content of the milk received from the producer is above or below 4.0 percent, an amount computed by multiplying by 1.2 the simple average as computed by the market administrator of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at Chicago as reported by the Department during the month, dividing the resulting sum by 10, and rounding to the nearest one-tenth of a cent.

§ 908.82 *Producer-settlement funds.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to §§ 908.61 (b), 908.83 and 908.85, and out of which he shall make all payment to handlers pursuant to §§ 908.84 and 908.85.

§ 908.83 *Payments to the producer-settlement fund.* On or before the 13th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator (a) the amount, if any, by which the value of the milk received by such handler from producers as determined pursuant to § 908.70 is greater than the amount required to be paid producers by such handlers pursuant to § 908.80, and (b) any amount required pursuant to § 908.61 (b).

§ 908.84 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the value of the milk received by such handler from producers during the month as determined pursuant to § 908.70 is less than the amount required to be paid producers by such handler pursuant to § 908.80: *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 908.85 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due (a) the market administrator from such handler; (b) such handler from the market administrator; or (c) any producer or cooperative association from such handler, the market administrator shall promptly

but need not be limited to, the follow-

(b) Bases may be transferred by noti-

employees of the United States to

notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which error occurred.

§ 908.86 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 908.80, shall deduct 5 cents per hundredweight or such amount not exceeding 5 cents per hundredweight as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used by the market administrator to sample, test, and check the weights of milk received and to provide producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers on or before the 15th day after the end of each month and pay such deduction to the cooperative association of which such producers are members, furnishing a statement showing the amount of any such deductions, and the amount and average butterfat test of milk for which such deduction was computed for each producer. In lieu of such statement a handler may authorize the market administrator to furnish such cooperative association the information with respect to such producers reported pursuant to § 908.31.

§ 908.87 *Expenses of administration.* As his pro rata share of the expense of administration of this subpart, each handler shall pay to the market administrator on or before the 15th day after the end of the month, 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within the month of (a) other source milk which is classified as Class I milk, and (b) milk from producers including such handler's own production.

§ 908.88 *Termination of obligation.* The provisions of this section shall apply to any obligations under this subpart for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of paragraphs (b) and (c) of this section, terminates two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representative all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

DETERMINATION OF BASE

§ 908.90 *Computation of daily average base for each producer.* For the months of May, June and July of each year the market administrator shall compute a daily average base for each producer as follows, subject to the rules set forth in § 908.91:

(a) Divide the total pounds of milk received by a handler(s) from such producer during the months of September 1st through February 28th (29th) immediately preceding by the number of days in such period or 120 whichever is more.

§ 908.91 *Base rules.* (a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base forming period;

(b) Bases may be transferred by notifying the market administrator in writing on or before the last day of any applicable base paying month that such base is to be transferred to the person named in such notice only as follows:

(1) In the event of the death, retirement, or entry into military service of a producer the entire base may be transferred to a member(s) of such producer's immediate family who carries on the dairy herd operations.

(2) If a base is held jointly and such joint holding is terminated, the entire base may be transferred to one of the joint holders.

(c) A producer who ceases to deliver milk to a handler for more than 45 consecutive days shall forfeit his base.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 908.100 *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 908.101.

§ 908.101 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 908.102 *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 908.103 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 908.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 908.111 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid, the application of such provision and the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

Modifications of the aforesaid proposed marketing agreement and order proposed by:

Coleman Dairy, Inc.:

1. Amend § 908.6 to include the county of Saline, Arkansas.

Terry Dairy Products Company, Inc.:

2. Under § 908.6 include the counties of Saline, and Hot Springs, Arkansas.

NOTICES

CIVIL AERONAUTICS BOARD

[Docket No. 1102 et al.]

EASTERN AIR LINES, INC., ET AL.; REOPENED SOUTHERN SERVICE TO THE WEST CASE

NOTICE OF HEARING

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 401, 408, 412 and 1002 of the act, that a hearing in the above-entitled proceeding is assigned to be held on January 6, 1953, at 10:00 a. m., e. s. t., in Conference Room "B", Departmental Auditorium, between Twelfth and Fourteenth Streets on Constitution Avenue, Washington, D. C.

Without limiting the scope of the issues presented in this proceeding, particular attention will be directed to the following matters:

(1) The application (Docket No. 5050) of Eastern, Braniff and TWA for through service by interchange between Miami, Houston, and Amarillo, and points west thereof on route No. 2.

(2) The application (Docket No. 2148) of Eastern, insofar as it involves the issue of amendment of one or more of Eastern's certificates of public convenience and necessity, so as to authorize trans-Gulf operations between Miami and Tampa on the one hand, and Houston on the other, solely for the operation of through interchange flights in conjunction with Braniff and TWA.

(3) An investigation (Docket No. 5720) to determine:

(a) Whether the public convenience and necessity require the establishment of through service by equipment interchange between Houston, Texas, and Miami, Florida, by Eastern and National via New Orleans, La.;

(b) The terms and conditions under which such through service shall be operated; and

(c) Whether the Board shall order or direct, pursuant to section 1002 (i) of the act, the establishment of such through service.

(4) To what extent will the interchange services and the Eastern route extension provide improved service in air transportation?

(5) What adverse effect, if any, will they have on any other air carriers?

(6) Are the terms of the Eastern-Braniff-TWA agreement just and reasonable with respect to each air carrier party and the public interest?

(7) If approved, should the Board impose any terms and conditions to protect the public interest?

For further details of the services proposed, the route modifications requested, and the interchange operations to be investigated, interested parties are referred to the prehearing conference reports of the Examiner, the Board's orders, the applications and other pleadings which are on file with the Civil Aeronautics Board.

Notice is further given that any person other than parties on record desiring to be heard in this proceeding must file with the Civil Aeronautics Board on or before January 6, 1953, a statement setting forth the issues of fact or law he desires to controvert.

Dated at Washington, D. C., this 16th day of December 1952.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

Department of the Army

MCKINLEY BRIDGE, MISSISSIPPI RIVER, BETWEEN ST. LOUIS, MO., AND VENICE, ILL.

APPROVAL OF BRIDGE TOLLS

The Secretary of the Army, pursuant to the authority conferred upon him by section 4 of the General Bridge Act, approved March 23, 1906 (33 U. S. C. 494) is considering the following schedule of tolls to supersede all previous schedules, as the legal rates which shall be demanded and received for the transit of the following classes of traffic over the bridge, commonly called McKinley Bridge, across the Mississippi River between St. Louis, Missouri, and Venice, Illinois:

Motorcycle and driver	$0.10
Bicycle and rider, motor scooter and driver	.20
Passenger automobile and driver	.20
Passenger automobile and driver, with light commercial or house trailer attached	.35
Books containing 50 tickets, each good for single passage of passenger automobile and driver, light commercial trailer or house trailer	6.50
Passenger bus and driver	$0.50
Truck, freight or commercial, self-propelled and driver and 1 helper (see Note 1). (Each pickaback truck attached $0.15 additional)	.50
Truck-towing-pulling automobile or truck with all wheels suspended and driver and 1 helper	.50
Truck-towing-pulling automobile with 4 wheels on ground, and driver and 1 helper	.70
Truck-towing-pulling truck with 4 wheels on ground and driver and 1 helper	1.00
Books containing 20 tickets, each good for single passage of freight or commercial truck, and driver and 1 helper	7.00
Truck or other equipment, too large for clearance permitted only by advance arrangements, and driver and 1 helper (Any expense incurred to permit clearance will be charged in addition to rate shown above.)	1.50
Tractor, agricultural implement, bulldozer, ditcher, grader and like equipment moving on wheels, and driver (see Note 2). (Each trailer attached $0.50 additional)	.50
Personally propelled vehicles, carts, animal drawn vehicle (1 or 2 animals) and driver (extra vehicle or wagon attached $0.15 additional)	.20
Equestrian or single animal (sheep, hog, horse, or similar animal)	.20
Each extra passenger carried in any of the above vehicles in addition to driver, or driver and helper authorized above	.05

NOTE 1: License plate designation will determine, for toll assessment purposes, whether passenger automobile or freight or commercial truck classification governs.

NOTE 2: Equipment or vehicles moving on own wheels, equipped with lugs, will not be allowed passage.

Any interested party may participate in the proposed rule making by submitting in writing in duplicate such data, views, or arguments pertaining thereto as he may desire to the District Engineer, St. Louis District, Corps of Engineers, U. S. Army, 420 Locust Street, St. Louis 2, Missouri, within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 32, Supplementary Regulation 2, Section 3, Special Order 39]

PENWELL ELLENBURGER FIELD, ECTOR COUNTY, TEXAS

CRUDE PETROLEUM CEILING PRICES ADJUSTED ON AN IN-LINE BASIS

Statement of considerations. This special order adjusts the ceiling price for the purchase of crude petroleum produced from the Penwell-Ellenburger Field, Ector County, Texas.

The Office of Price Stabilization has been requested to eliminate the differentials heretofore imposed upon crude petroleum produced from the Penwell-Ellenburger Field, Ector County, Texas. During the base period there was a lack of available pipeline transportation for the segregation of this sweet crude and as a result it was commingled with sour crude and was sold at a lower price than that paid for crude petroleum of comparable quality produced in this same general area. With the extension of new pipelines to this field this condition has been eliminated and these differentials should no longer be imposed.

From the information available to this office, it appears that the requested price of $2.65 per barrel for 40° API gravity and above with a 2-cent differential less for each degree of gravity below 40°, down to $2.23 per barrel for below 20° API gravity does not exceed the ceiling price of comparable crude petroleum produced in this same area.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to the provisions of section 3 of Supplementary Regulation 2 to Ceiling Price Regulation 32, *it is ordered:*

1. That the ceiling price at the lease receiving tank for crude petroleum produced from the Penwell-Ellenburger Field, Ector County, Texas shall be: $2.65 per barrel for 40° API gravity and above with a 2-cent differential less for each degree of gravity below 40°, down to $2.23 per barrel for below 20° API gravity.

2. All provisions of Ceiling Price Regulation 32, except as inconsistent with the provisions of this order, shall remain in full force and effect as to the commodities covered by this order.

3. This order may be amended, modified or revoked by the Director of Price Stabilization at any time.

Effective date. This special order shall become effective on December 16, 1952.

JOSEPH H. FREEHILL,
Director of Price Stabilization.

DECEMBER 15, 1952.

[Ceiling Price Regulation 32, Supplementary Regulation 2, Section 3, Special Order 40]

BLOCK 7, DEVONIAN POOL, MARTIN COUNTY, TEXAS

CRUDE PETROLEUM CEILING PRICES ADJUSTED ON AN IN-LINE BASIS

Statement of considerations. This special order adjusts the ceiling price for the sale of crude petroleum produced from the Block 7, Devonian Pool, Martin County, Texas.

The Office of Price Stabilization has been requested to eliminate the differentials heretofore imposed upon crude petroleum produced from the Block 7, Devonian Pool, Martin County, Texas. During the base period, due to a lack of competitive factors, this sweet crude was commingled with sour crude and was sold at a lower price than that paid for crude petroleum of comparable quality produced in the same general area. This condition has now been eliminated and these differentials should no longer be imposed.

From the information available to this Office, it appears that the requested price of $2.58 per barrel for 40° API gravity and above with a 2-cent differential less for each degree of gravity below 40° does not exceed the ceiling price of comparable crude petroleum produced in this same area.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to the provisions of Section 3 of Supplementary Regulation 2 to Ceiling Price Regulation 32, *It is ordered:*

1. That the ceiling price at the lease receiving tank for crude petroleum produced from the Block 7, Devonian Pool, Martin County, Texas shall be: $2.58 per barrel for 40° API gravity and above with a 2-cent differential less for each degree of gravity below 40°.

2. All provisions of Ceiling Price Regulation 32, except as inconsistent with the provisions of this order, shall remain in full force and effect as to the commodities covered by this order.

3. This order may be amended, modified or revoked by the Director of Price Stabilization at any time.

Effective date. This special order shall become effective on December 17, 1952.

JOSEPH H. FREEHILL,
Director of Price Stabilization.

[File No. 21-250]

MILLINERY INDUSTRY

NOTICE OF HOLDING OF TRADE PRACTICE CONFERENCE

Notice is hereby given that a trade practice conference under the auspices of the Federal Trade Commission will be held for the Millinery Industry in Room 332, Federal Trade Commission Building, Sixth and Pennsylvania Avenue NW., Washington, D. C., on January 15, 1953, commencing at 10 a. m., e. s. t.

All persons, firms, and corporations engaged in the importation, production, distribution, or marketing of millinery products are considered members of the industry and are cordially invited to attend and participate in this industry meeting.

The conference and further proceedings in the matter will be directed toward the eventual establishment and promulgation by the Commission of trade practice rules for the industry under which unfair methods of competition, unfair or deceptive acts or practices, and other trade abuses, may be eliminated and prevented.

After the conference on January 15, and before any final rules are approved by the Commission, a draft of proposed rules in the form deemed appropriate will be made available to all interested and affected parties, including consumers, upon public notice affording them opportunity to present their views, including such criticisms or other suggestions they may desire to make respecting the proposed rules, and to be heard at a public hearing.

Issued: December 16, 1952.

By direction of the Commission.

ORGANIZATION

SEC. 1.10 *Organization of the Immigration and Naturalization Service.* The organization of the Immigration and Naturalization Service—exclusive of that part of its organization handling matters pertaining solely to its internal management—is shown in sections 1.10 to 1.20, inclusive, by stating the titles and general functions of its principal officers.

SEC. 1.11 *Central Office; the Commissioner.* Under the general direction of

the Attorney General, the Commissioner of Immigration and Naturalization supervises and directs the administration of the Immigration and Naturalization Service.

SEC. 1.12 *Central Office; the Deputy Commissioner; Director of Personnel; Operations Advisors*—(a) *The Deputy Commissioner.* The Deputy Commissioner assists the Commissioner generally. In the absence of the Commissioner, the Deputy Commissioner is the Acting Commissioner.

(b) *Director of Personnel.* Under the executive direction of the Deputy Commissioner, the Director of Personnel is responsible for administering the personnel programs, policies, and procedures of the Service.

(c) *Operations Advisors.* Under the executive direction of the Deputy Commissioner, Operations Advisors serve as liaison officers between Central Office and field offices; conduct regular surveys of field offices and, as directed, of the Central Office divisions, covering organization, methods, procedures, manpower need and utilization; and coordinates Service functions to assure integration of programs and compliance with laws, regulations, established procedures, and over-all Service policy.

SEC. 1.13 *Central Office; the Assistant Commissioner, Inspections and Examinations Division.* Under the executive direction of the Commissioner, the Assistant Commissioner, Inspections and Examinations Division, is responsible for the management of the inspections, examinations, and hearing programs of the Service.

SEC. 1.14 *Central Office; the Assistant Commissioner, Investigations Division.* Under the executive direction of the Commissioner, the Assistant Commissioner, Investigations Division, is responsible for the management of the investigation programs of the Service.

SEC. 1.15 *Central Office; the Assistant Commissioner, Border Patrol, Detention and Deportation Division.* Under the executive direction of the Commissioner, the Assistant Commissioner of the Border Patrol, Detention and Deportation Division, is responsible for the management of the border patrol, detention and deportation, and parole programs of the Service.

SEC. 1.16 *Central Office; the Assistant Commissioner, Administrative Division.* Under the executive direction of the Commissioner, the Assistant Commissioner, Administrative Division, is responsible for the management of the budget, fiscal control, services and supplies, records administration, and statistics programs of the Service.

SEC. 1.17 *Central Office; the Assistant Commissioner, Citizenship Services and Instructions Division.* Under the executive direction of the Commissioner, the Assistant Commissioner, Citizenship Services and Instructions Division, is responsible for the management of the citizenship services and instructions programs of the Service.

SEC. 1.18 *Central Office; the General Counsel.* Under the executive direction of the Commissioner, the General Counsel serves as chief law officer of the Service, and acts as advisor and counsel to the Commissioner, other officers of the Service, and, at their request, the Attorney General and other officers of the Department.

SEC. 1.19 *Field Service; District Directors.* Under the general direction of the Commissioner, a district director supervises and directs the work of the Service within his district. In the absence of a district director, the officer designated by the district director shall act in his stead.

SEC. 1.20 *Field Service: Officers in Charge.* Under the general direction of a district director, an officer in charge performs assigned duties within a designated part of a district.

STATEMENT OF DELEGATIONS OF FINAL AUTHORITY

PLACES AND MANNER OF SECURING INFORMATION

SEC. 1.50 *Places where, and methods whereby, information may be secured or submittals or requests made.* (a) Any person desiring information relative to a matter handled by the Immigration and Naturalization Service or any person desiring to make a submittal or request in connection with such a matter should communicate either orally or in writing with whichever of the following offices is most convenient for him:

(1) A district headquarters office of the Service. There are sixteen such offices located in the cities shown in section 1.51.

(2) A Class A port of entry shown in § 231.6, Chapter I, Title 8 of the Code of Federal Regulations.

(3) A United States immigration station located in Canada. Such offices are located in several of the large cities in Canada. They are shown in § 231.8, Chapter I, Title 8 of the Code of Federal Regulations.

(4) In addition to the places indicated in subparagraphs (1) and (2) of this paragraph, an Immigration and Naturalization Service application receiving office (8 CFR 2.6), one of which is located in most of the large cities of the United States including Hawaii.

(5) With respect to naturalization matters only—the office of the clerk of any United States District Court or of any other court exercising jurisdiction over naturalization.

(b) If the office receiving the communication is unable to handle the matter—because, for example, it does not have jurisdiction or facility—the communication, if written, will be forwarded to the proper office of the Service or, if oral, the person will be advised how to proceed. If the submittal or request consists of a formal application for one of the numerous documents, privileges, or other benefits provided for in the Immigration and Nationality Act or the regulations implementing that Act, the instructions on the form as to preparation and place of submission should be followed. In such cases, the part or section of Title 8, Chapter I, Code of Federal Regulations, dealing with the particular type of application may be consulted for regulatory provisions.

SEC. 1.51 *Field districts.* The territory within which officials of the Immigration and Naturalization Service are located is divided into districts which are designated by numbers, have fixed headquarters, and are defined as follows:

1. *St. Albans, Vermont.* Includes the State of Vermont; that part of the State of Maine lying north and east of the counties of York, Cumberland, Androscoggin, Kennebec, Lincoln, and Knox; the counties of Grafton and Coos in the State of New Hampshire; and that part of the State of New York lying north of the counties of Oswego, Oneida, Herkimer, Fulton, Saratoga, and Washington; also jurisdiction over the United States immigration stations located in Canada at Halifax, Nova Scotia; St. John, New Brunswick; Montreal, Quebec; and Quebec, Province of Quebec.

17. *Honolulu, T. H.* Includes the Territory of Hawaii, and Agana, Guam, as well as the port facilities at Apra Harbor, Guam.

PROCEDURES

SEC. 1.60 *General.* The regulations of the Immigration and Naturalization Service, published as Chapter I, Title 8 of the Code of Federal Regulations, contain information which, under the provisions of section 3 (a) (2) and (3) of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1002), is required to be published. Any person desiring information with respect to a particular procedure (other than rule making) under the Immigration and Nationality Act should examine the part or section in Chapter I, Title 8 of the Code of Federal Regulations, dealing with such procedures as well as the section of the act implemented by such part or section. The list of part numbers and designations appearing at the beginning of Chapter I, Title 8 of the Code of Federal Regulations, and the explanation of the numbering system appearing at the beginning of Subchapters B and C should be used as a guide to the regulation dealing with any particular type of proceeding.

SEC. 1.61 *Rule making.* Section 103 (a) of the Immigration and Nationality Act requires the Attorney General to establish such regulations as he deems necessary for carrying out his authority under the provisions of that act. The authority of the Attorney General to establish regulations has not been delegated. The provisions of the Federal Register Act (49 Stat. 500, 50 Stat. 304, 56 Stat. 1045; 44 U. S. C. 301–314) and of the regulations thereunder (1 CFR—Administrative Committee of the Federal Register) as well as the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1002) governing the issuance of regulations are observed. After they are signed by the Attorney General, the regulations are filed with the Director, Federal Register Division, National Archives and Records Service, for publication in the FEDERAL REGISTER.

AVAILABILITY OF OPINIONS, ORDERS, AND RECORDS

SEC. 1.70 *Opinions, orders, and records of the Immigration and Naturalization Service regarded as confidential.* Under Order No. 3229 issued by the Attorney General on May 2, 1939 (11 F. R. 4920), all official files, documents, records, and information in the offices of the Immigration and Naturalization Service of the United States Department of Justice or in the custody or control of any officer or employee of the Immigration and Naturalization Service are to be regarded as confidential. No such officer or employee may permit the disclosure or use of the same for any purpose other than for the performance of his official duties, except in the discretion of the Attorney General, the Assistant to the Attorney General, an Assistant Attorney General acting for him, or the Commissioner of Immigration and Naturalization acting for the Attorney General pursuant to the provisions of § 9.1, Chapter I, Title 8 of the Code of Federal Regulations. Therefore, such official files, documents, records, and information shall not be published, opened to public inspection, or made available to the public in any other way, except if the Attorney General, The Assistant to the Attorney General, or the Commissioner, permits disclosure, either by the exercise of discretion in particular cases or, generally, through specific provisions of this section or of Chapter I, Title 8 of the Code of Federal Regulations.

SEC. 171 *Administrative Decisions under Immigration and Nationality Laws.* There may be purchased when available from the United States Government Printing Office, Washington 25, D. C., or inspected at a Service office indicated in § 1.50, a publication entitled "Administrative Decisions under Immigration and Nationality Laws". Periodic and cumulative supplements are published as required.

SEC. 1.72 *Inspection of records by attorneys.* Attorneys and representatives, and the persons whom they represent, may review and be lent copies of records, subject to the provisions of Part 292, Chapter I, Title 8 of the Code of Federal Regulations.

SEC. 1.73 *Copies of records.* In accordance with the provisions of this notice, Part 2, Chapter I, Title 8 of the Code of Federal Regulations, and all other applicable regulatory provisions and subject to all applicable statutory provisions relating to applications, fees, and other requirements, and where not prejudicial to the interests of the public or the Government, copies of and information from records of the Immigration and Naturalization Service may be furnished to persons who establish that they have a reasonable and legitimate need for them.

SEC. 1.74 *Intra-Service manuals and instructions.* Manuals and internal in-

structions are prepared solely for the guidance of the Immigration and Naturalization Service and the contents of such manuals and instructions are not published, opened to public inspection, or made available to the public in any way except in unusual cases in which the Commissioner specifically authorizes the furnishing of an excerpt from such manuals or instructions.

JAMES P. MCGRANERY,
Attorney General.

Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Lena Schuttler, Ferdinand Heimann, Clementz Heimann, Lena Bruehmann, Greta Johnes, Bertha Bruehmann, and Wilhelm Bruehmann, whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

2. That the domiciliary personal representatives, heirs, next-of-kin, legatees and distributees, names unknown, of Maria Huske, deceased, and of Theodore Heimann, deceased; and the children, names unknown, of Greta Johnes, of Bertha Bruehmann and of Wilhelm Bruehmann, who there is reasonable cause to believe are and, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, are and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof in and to and arising out of or under that certain trust agreement No. 4477 dated December 22, 1939, by and between Albert Heimann, trustor, and Pioneer Trust & Savings Bank, trustee, is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to or which is evidence of ownership or control by the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That the national interest of the United States requires that the persons identified in subparagraphs 1 and 2 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States, the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 15, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General, Director, Office of Alien Property.

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter B—Farm Ownership Loans

[FHA Instruction 427.1]

PART 327—TITLE CLEARANCE

SUBPART A—GENERAL PROVISIONS

SUBSTITUTE FOR TITLE INSURANCE

Paragraph (a) of § 327.1, Title 6, Code of Federal Regulations (13 F. R. 9409) is amended by adding a provision that title evidence and closing assistance satisfactory to the Office of the Solicitor may be substituted, if available, for title insurance if the farm is subject to a purchase money first mortgage or deed of trust held by the Farmers Home Administration which will be released of record in connection with the transaction, provided the land formerly was sold by or by direction of the Farmers Home Administration or any of its predecessor agencies. As amended, said paragraph reads as follows:

§ 327.1 *General.* * * *

(a) *Title insurance.* If title insurance and services are available under an approved proposal covering the locality in which the loan is to be made, title insurance and services as provided in the proposal will be obtained by sellers of farms and Farm Ownership borrowers. However, title insurance will not be required if the farm with respect to which title examination is needed consists entirely of land being sold by the Department of Agriculture, or land which is subject to a first mortgage or deed of trust held by the Farmers Home Administration which will not be released in connection with the transaction; and other title evidence and closing assistance satisfactory to the Office of the Solicitor may be substituted, if available, for title insurance if the farm is subject to a purchase money first mortgage or deed of trust held by the Farmers Home Administration which will be released of record in connection with the transaction, provided the land formerly was sold by or by direction of the Farmers Home Administration or any of its predecessor agencies. The State Director may, upon advice and instructions from the representative of the Office of the Solicitor, accept certificates of title deemed by that representative to be legally satisfactory for purposes of title clearance in lieu of title insurance.

Subchapter F—Insecticides

PART 162—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT

REGISTRATION; SHIPMENTS FOR EXPERIMENTAL USE

On August 15, 1952, there was published in the FEDERAL REGISTER (17 F. R. 7436) a notice of proposed rule making concerning the amendment of §§ 162.10 and 162.17 of the regulations for the enforcement of the Federal Insecticide, Fungicide, and Rodenticide Act (7 CFR 162.10, 162.17). After due consideration of relevant matters presented, and pursuant to sections 4 and 6 of the Federal Insecticide, Fungicide, and Rodenticide Act (7 U. S. C. 1946 ed., Supp. IV, 135b, 135d), the Secretary of Agriculture hereby amends said §§ 162.10 and 162.17 as follows:

1. Section 162.10 is amended by adding thereto new paragraphs (h) and (i) reading, respectively:

§ 162.10 *Registration.* • • •

(h) *Duration of registration.* Unless canceled in accordance with the provisions of section 4. c. of the act or with the acquiesence of the registrant, or unless continued in effect in accordance with the provisions of paragraph (i) of this section, the registration of an economic poison shall be canceled at the end of a period of five years following the date of registration of such economic poison or following the date of any subsequent registered change in formula or labeling or following the date of any continuance of registration pursuant to paragraph (i) of this section: *Provided, however,* That prior to any such cancellation the Insecticide Division shall send to the registrant a notice of intent to cancel, and, in the event such notice is not sent to the registrant 30 days prior to the expiration of the five year period, the registration shall remain in effect until 30 days following the date such notice has been sent to the registrant at his latest address submitted to the Insecticide Division.

(i) *Continuance of registration.* If a registrant desires to continue the registration in effect, he shall notify the Insecticide Division in writing and it shall be continued in effect under the same terms as the original registration: *Provided, however,* That if, on the basis of information available at the time, it appears that the product or its labeling fails to comply with the act the registrant shall be so notified and an opportunity given to make the necessary corrections. If the corrections are not made, continued registration without protest may be refused but registration under protest as provided in section 4. c. of the act shall be issued if requested in writing by the registrant.

2. Subparagraph (2) of § 162.17 (b) is amended and new subparagraphs (3), (4), (5) and (6) are added to § 162.17 (b) to read, respectively:

§ 162.17 *Shipments for experimental use.* • • •

(b) *Articles for which permit is required.* • • •

(2) If an economic poison is to be tested for a use which is likely to result in a residue on or in food or feed, a permit for shipment or delivery will not be issued only when:

(i) The food or feed product will not be used for food or feed except for laboratory or experimental animals, or

(ii) Convincing evidence is submitted by the applicant that the proposed use will not result in an amount of residue which would be hazardous to man or other animals.

(3) A permit for shipment or delivery of any experimental economic poison for testing in any place likely to be frequented by people will be granted only if it is clearly shown in the application for such permit that the applicant's instructions for use reasonably assure the avoidance of injury to all persons concerned.

(4) All applications for permits covering shipments for experimental use shall be filed in duplicate and must be signed by the shipper or the person making the delivery and must contain the following:

(i) Name and address of the shipper and place or places from which the shipment will be made.

(ii) Proposed date of shipment or proposed shipping period not to exceed one year.

(iii) A statement of the composition of material to be covered by the permit which should apply to a single material or group of closely allied formulations of the material.

(iv) A statement of the approximate quantity to be shipped.

(v) Available data or information or reference to available data or information on the acute toxicity of the economic poison.

(vi) A statement of the nature of the proposed experimental program, including the type of pests or organisms to be experimented with, the crops or animals for which the economic poison is to be used, the areas where it is proposed to conduct the program, and including the results of previous tests where necessary to justify the quantity requested.

(vii) When food or feed is likely to be contaminated, either a full statement of action which will be taken to prevent the food or feed from being consumed, except by laboratory or experimental animals, or convincing evidence that the proposed experiment will not result in injury to man or useful animals.

(viii) The percentage of the total quantity specified under subdivision (iv) of this subparagraph which will be supplied without charge to the user.

(ix) A statement that the economic poison is intended for experimental use only.

(x) Proposed labeling which must bear (*a*) the prominent statement "For Experimental Use Only" on the container label and any accompanying circular or other labeling, (*b*) a warning or caution statement which may be necessary and if complied with adequate for the protection of those who may handle or be exposed to the experimental formulations, (*c*) the name and address of the applicant for the permit, (*d*) the name or designation of the formulation, and (*e*), if the economic poison is to be sold, a statement of the names and percentages of the principal active ingredients in the product.

(5) The Director may limit the quantity of economic poison covered by a permit to such less quantity than requested as he may determine if the available information on effectiveness, toxicity or other hazards is not sufficient to justify the scope of experimental use proposed in the application, or make such other limitations in the permit as he may determine to be necessary for the protection of the public.

(6) An economic poison intended for experimental use shall not be offered for general sale by a retailer or others, or advertised for general sale.

3. Section 162.17 (d) is amended to read:

(d) *Cancellation of permits.* Any permit for shipment for experimental use may be cancelled at any time for any violation of the terms thereof or if it shall appear to the Director that the permit should be cancelled for the protection of the public.

These amendments shall become effective 30 days after publication of this notice in the FEDERAL REGISTER.

[1061 (52)-1, Supp. 7]

PART 701—NATIONAL AGRICULTURAL CONSERVATION PROGRAM SUBPART—1952

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended, the 1952 National Agricultural Conservation Program, issued August 31, 1951 (16 F. R. 9006), as amended September 25, 1951 (16 F. R. 9859), December 3, 1951 (16 F. R. 12306), February 28, 1952 (17 F. R. 1931), March 7, 1952 (17 F. R. 2110), March 31, 1952 (17 F. R. 2885), and April 17, 1952 (17 F. R. 3530), is further amended as follows:

1. Section 701.312 (a) is amended by inserting the following as the third sentence:

§ 701.312 *Conservation practices and maximum rates of assistance.* (a) • • • Prior approval of the county committee is also required for all other practices contained in this subpart in all States, except Connecticut, Florida, Georgia, Iowa, Kentucky, New Jersey, New York, Pennsylvania, Rhode Island, Tennessee, Virginia, and West Virginia. • • •

2. Section 701.393 is amended by adding the following at the end thereof:

§ 701.393 *Time and manner of filing application and information required.* • • • The final date for filing an application for payment is February 28, 1953, in New Hampshire; March 15, 1953, in New York; April 1, 1953, in Maine; April 30, 1953, in New Jersey and Rhode Island; May 1, 1953, in Nevada; May 15, 1953, in Florida; June 1, 1953, in Connecticut; June 30, 1953, in Arizona, Arkansas, Colorado, Delaware, Georgia, Louisiana, Mississippi, Montana, New Mexico, North Carolina, Pennsylvania, Vermont, Virginia, and Washington; July 1, 1953, in Maryland; August 31, 1953, in Minnesota; December 31, 1953, in Alabama, California, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Massachusetts, Michigan, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Texas, Utah, West Virginia, Wisconsin, and Wyoming. In those States for which the final date for filing an application for payment is earlier than December 31, 1953, the State committee may extend the final date to a date not later than December 31, 1953, when failure to file the application was due to conditions over which the farmer had no control.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended; 16 U. S. C. 590g–590q)

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter H—Determination of Wage Rates

[Sugar Determination 867.5]

PART 867—SUGARCANE; PUERTO RICO

CALENDAR YEAR 1953

Pursuant to the provisions of section 301 (c) (1) of the Sugar Act of 1948, as amended (herein referred to as "act"), after investigation, and consideration of the evidence obtained at the public hearing held in San Juan, Puerto Rico, on September 25 and 26, 1952, the following determination is hereby issued:

§ 867.5 *Fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in Puerto Rico during the calendar year 1953*—(a) *Requirements.* The requirements of section 301 (c) (1) of the act shall be deemed to have been met with respect to the production, cultivation, or harvesting of sugarcane in Puerto Rico for the calendar year 1953 if the producer complies with the following:

(1) *Wage rates.* All persons employed on the farm in the production, cultivation, or harvesting of sugarcane shall have been paid in full for all such work and shall have been paid wages in cash therefor at rates as agreed upon between the producer and the laborer, but after the date of issuance of this section, not less than the following:

(i) *Day rates*—(*a*) *Basic rates.* The basic day rate for the first 8 hours of work performed in any 24-hour period (except that for ditch diggers, ditch cleaners, or field flooders in Class E, as shown in the table below, the applicable day rate shall be for the first 7 hours of work performed in any 24-hour period) shall be as follows:

Class of work	*Basic rates per day*
A. All kinds of work not classified below	$2.20
B. Operators of mechanical equipment, such as tractors, trucks, tractor plows	3.05
Classified nonharvest operations:	
C. Cartmen in cultivation work	2.30
D. Plow steersmen and operators of irrigation pumps, and all work connected with mixing and applying chemical weed killers	2.50
E. Ditch diggers, ditch cleaners, field flooders (per 7-hour day)[1]	2.50
Classified harvest operations:	
F. Cartmen in harvest work	2.70
G. Sugarcane cutters (for grinding or planting), seed cutters, crane operators, dumpers	2.50
H. Portable track handlers, railroad or portable track car loaders	2.70
I. Cane cart or truck loaders	2.60

[1] Field flooders shall be deemed to be workers who set up or remove banks in drainage ditches when used for flooding sugarcane fields.

(*b*) *Wage increases.* For each 10 cents or fraction thereof that the price of raw sugar (duty paid basis, delivered) averages more than $5.00 per one hundred pounds but not more than $7.00 per one hundred pounds for the two-week period immediately preceding the two-week period during which the work is performed, a wage increase of 6.0 cents per day above the rate prescribed under subdivision (*a*) of this subparagraph shall be paid for each day of work during such two-week period: *Provided,* That the average price of raw sugar prevailing during the period from December 18 through December 31, 1952, shall determine the amount of wage increase effective during the work period January 1 through January 14, 1953, and thereafter the amount of wage increases in successive two-week work periods shall be determined by the average price of raw sugar prevailing in the immediately preceding two-week period. The two-week average price of raw sugar (duty paid basis, delivered) shall be determined by taking the simple average of the daily spot quotations of 96° raw sugar of the New York Coffee and Sugar Exchange (domestic contract) expressed in terms of a one hundred pound unit and adjusted to a duty paid basis, delivered, by adding to each daily quotation the United States duty prevailing on Cuban raw sugar on that day, except that, if the Director of the Sugar Branch determines that for any two-week period such average price does not reflect the true market value of raw sugar, because of inadequate volume or other factors, the Director may designate the average price to be effective under this section.

(ii) *Hourly rates.* Where persons are employed on an hourly basis for a period not in excess of 8 hours (7 hours in Class E) in any 24-hour period, the hourly rate shall be determined by dividing the applicable day rate provided in subdivision (i) of this subparagraph by 8 (by 7 in Class E).

(iii) *Overtime.* Persons employed for more than 8 hours (or 7 hours in Class E) in any 24-hour period shall be paid for the overtime work at a rate double the applicable hourly rate provided in subdivision (ii) of this subparagraph.

(iv) *Piecework rates.* If work is performed on a piecework basis, the average earnings for the time involved on each separate unit of work for which a piecework rate is agreed upon shall be not less than the applicable daily or hourly rate provided in subdivisions (i), (ii), and (iii) of this subparagraph.

(2) *Perquisites.* In addition to the foregoing, the producer shall furnish to the laborer, without charge, the perquisites customarily furnished by him such as a dwelling, garden plot, pasture lot, and medical services.

(b) *Subterfuge.* The producer shall not reduce wage rates to laborers below those determined in this section through any subterfuge or device whatsoever.

(c) *Claim for unpaid wages.* Any person who believes he has not been paid in accordance with this section may file a wage claim with the Caribbean Area Office, Production and Marketing Administration, San Juan, Puerto Rico, against the producer on whose farm the work was performed. Such claim must be filed within two years from the date the work with respect to which the claim is made was performed. Detailed instructions and wage claim forms are available at that office. Upon receipt of a wage claim the Caribbean Area Office shall thereupon notify the producer against whom the claim is made concerning the representation made by the laborer and, after making such investigation as it deems necessary, shall notify the producer and laborer in writing of its recommendation for settlement of the claim. If the recommendation of the Area Office is not acceptable, either party may file an appeal with the Director of the Sugar Branch, Production and Marketing Administration, U. S. Department of Agriculture, Washington 25, D. C.

Such appeal shall be filed within 15 days after receipt of the recommended settlement from the Area Office; otherwise such recommended settlement will be applied in making payments under the act. If a claim is appealed to the Director of the Sugar Branch, his decision shall be binding on all parties insofar as payments under the act are concerned.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination provides fair and reasonable wage rates which a producer must pay, as a minimum, for work performed by persons employed on the farm in the production, cultivation, or harvesting of sugarcane in Puerto Rico during the calendar year 1953, as one of the conditions for payment under the act.

(b) *Requirements of the act and standards employed.* In determining fair and reasonable wage rates it is required under the act that a public hearing be held, that investigations be made, and that consideration be given to (1) the standards formerly established by the Secretary under the Agricultural Adjustment Act, as amended, and (2) the differences in conditions among various sugar producing areas.

A public hearing was held in San Juan, Puerto Rico, September 25–26, 1952, at which interested persons presented testimony with respect to fair and reasonable wage rates for the calendar year 1953. In addition, investigations have been made of the conditions affecting wage rates in Puerto Rico. In this determination, consideration has been given to testimony presented at the hearing and to information resulting from investigations. The primary factors which have been considered are (1) cost of living; (2) prices of sugar and by-products; (3) income from sugarcane; (4) cost of production; and (5) relationship of labor cost to total cost. Other economic influences also have been considered.

(c) *1953 wage determination.* This determination differs from the 1952 determination in two respects. Basic wage rates are raised 5 cents per day and the amount of the wage increase in the wage-price escalator is raised from 5 cents per 8-hour day to 6 cents for each 10-cent, or fraction thereof, increase in the two-week average price of raw sugar above $5.00 per hundred pounds. The effect of this action is to increase wage rates about 6 percent at current sugar prices.

At the public hearing, representatives of producer organizations stated that because of large stocks of sugar on hand, uncertainty with respect to sugar prices and the probability of restricted marketings, it was their recommendation that no change be made in minimum wage rates for 1953. Two producer witnesses testified that the output of their workers had declined during the years when wage costs were mounting. The representative of one producer organization recommended that wages be related to the price of sugar sold not only in the domestic market but also in the world market should such sales be made; that the wage-price escalator be revised to provide for changes of ½ cent per 8-hour day for each 1-cent change in raw sugar prices; and that a lower wage scale be provided for "interior" farms. Representatives of worker organizations recommended substantial increases in wage rates on the grounds of the low standard of living of Puerto Rican sugarcane workers and the improvement in farm labor productivity of recent years. One representative recommended doubling wages at the base price level, elimination of the wage-price escalator and inclusion in the determination of additional wage classifications for artisans and other skilled workers occupying new jobs not presently well defined. Several labor unions recommended a minimum wage of 50 cents an hour, continuation of the wage-price escalator and certain fringe benefits to workers, such as vacation pay and unemployment benefits. Another labor union proposed a wage scale without a wage-price escalator provision but geared to a minimum wage of 65 cents an hour for unskilled workers.

In this determination consideration has been given to recommendations presented at the hearing, to all aspects of prospective crop and price conditions for 1953, to the anticipated costs, returns and profits of producers, to the living costs of workers and to other pertinent factors. Examination of data with respect to recent crop production costs indicates a moderate but sustained improvement in average labor productivity and that, under conditions expected to prevail during 1953, producers will have the ability to pay the wages provided in this determination. There remain broad opportunities for continued improvement in production methods which, if realized through cooperation between producers and workers, will lower labor costs per unit of production and make possible a better standard of living for workers. This wage action in conjunction with that made a year ago and the action of the wage-price escalator increases daily wages about in line with the increase in workers' living costs which have occurred since 1950.

The recommendation that a differential rate be established for "interior" farms has not been accepted for the reasons set forth in the 1952 determination. The proposal regarding a revision of job classifications will receive further study. Other recommendations of producers and workers not adopted in this determination have been considered either inconsistent with the economic capability of the industry, outside the scope of the administration of the wage provisions of the act, or unnecessarily complicated in view of their limited objectives.

In addition to the payment of cash wages, producers are required to furnish to workers without charge customary perquisites such as a habitable house, medical attention and similar items.

After full consideration of all information available, the wages rates provided in this determination are deemed to be fair and reasonable.

Accordingly, I hereby find and conclude that the foregoing wage determination will effectuate the wage provisions of the Sugar Act of 1948, as amended.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Tangerine Reg. 130]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.605 *Tangerine Regulation 130*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than December 22, 1952. Shipments of tangerines, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until December 22, 1952; the recommendation and supporting information for continued regulation subsequent to December 21 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on December 16; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period set forth in paragraph (b) of this section so as to provide for the continued regulation of the handling of tangerines; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., December 22, 1952, and ending at 12:01 a. m., e. s. t., January 12, 1953, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 2;

(ii) Any tangerines, grown in the State of Florida, which grade U. S. No. 2, that are of a size smaller than the size that will pack 176 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches); or

(iii) Any tangerines, grown in the State of Florida, which grade U. S. Fancy, U. S. No. 1, U. S. No. 1 Bronze, or U. S. No. 1 Russet, that are of a size smaller than 2 2/16 inches in diameter, measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of tangerines, smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Florida tangerines (§ 51.417 of this title; 17 F. R. 8377).

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. Fancy," "U. S. No. 1," "U. S. No. 1 Bronze," "U. S. No. 1 Russet," "U. S. No. 2" and "standard pack" shall have the same meaning as when used in the revised United States Standards for Florida Tangerines (§ 51.417 of this title; 17 F. R. 8377).

PART 939—BEURRE D'ANJOU, BEURRE BOSC, WINTER NELIS, DOYENNE DU COMICE, BEURRE EASTER, AND BEURRE CLAIRGEAU VARIETIES OF PEARS GROWN IN OREGON, WASHINGTON, AND CALIFORNIA

DETERMINATION OF DISTRICT PERCENTAGES

Notice was published in the FEDERAL REGISTER issue (17 F. R. 8217) of September 12, 1952, that the Department was giving consideration to the proposed amendment to the rules and regulations (7 CFR 939.100 et seq.; Subpart—Control Committee rules and regulations) currently in effect pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 39, as amended (7 CFR Part 939), regulating the handling of Beurre D'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice which were submitted by the Control Committee (established pursuant to the said amended marketing agreement and order), it is hereby found and determined that the amendment, as hereinafter set forth, to the said rules and regulations is in accordance with the provisions of the said amended marketing agreement and order and it is hereby approved.

Renumber § 939.110 *Application for exemption certificate* as § 939.110a and insert as a new § 939.110 the following:

§ 939.110 *Determination of district percentages.* (a) The Control Committee, at its meeting held on or before August 1 of each year for the purpose of making recommendations to the Secretary under the provisions of § 939.50, shall estimate the district percentages which the grades and sizes of each variety of pears permitted to be shipped from each district under the recommended regulation bears to the total quantity of each variety of pears which could be shipped from that district in the absence of regulation.

(b) Any notice issued or given pursuant to this estimate shall specifically state that each of the said percentages is merely an estimate subject to change, and is not to be relied upon until final action is taken as hereinafter provided. Each exemption committee, as hereinafter constituted in each district, shall meet and elect a district chairman and a secretary, either at or within ten days following said meeting of the Control Committee. Said district chairman shall immediately notify the secretary of the Control Committee of the names of the chairman and the secretary. The chairman of each exemption committee shall call a meeting of such committee within his district not later than a date to be determined each year by the Control Committee at the meeting specified in paragraph (a) of this section.

(c) At said district meeting, the district percentage estimates made by the Control Committee shall be reviewed by the exemption committee, and, if found to be not in accordance with conditions then existing within the district, said committee shall recommend proper adjustments to the Control Committee. Each exemption committee shall make only one recommendation for adjustment of district percentages in any one season, and said recommendation shall be made not later than the date specified by the Control Committee, except that should a major change occur in the crop or crops in any district after such date, the exemption committee may recommend a further change in such percentages. On the basis of the information submitted to it by the exemption committees and such other information and evidence as is available to it, the Control Committee shall establish all district percentages to be used in computing exemptions to growers. In the event no adjustment is recommended by the exemption committees by the date above specified, the Control Committee shall immediately, on the basis of information and evidence available to it, establish the district percentages to be used in computing exemptions to growers.

(d) The Control Committee shall give prompt notice to growers and handlers of the final percentages to be used in computing exemptions to growers.

(e) Any action taken by an exemption committee shall be approved by four affirmative votes, and each such committee shall keep accurate minutes and records of the proceedings of each of its meetings. A copy of such minutes and records shall be forwarded to the secretary of the Control Committee promptly after each meeting.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 17th day of December 1952, to become effective 30 days after publication in the FEDERAL REGISTER.

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.573 *Lemon Regulation 466*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL

of the Sugar Act of 1948, as amended.

REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on December 17, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., December 21, 1952, and ending at 12:01 a. m., P. s. t., December 28, 1952, is hereby fixed as follows:

(i) District 1: 40 carloads;

(ii) District 2: 175 carloads;

(iii) District 3: 10 carloads.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 465 (17 F. R. 11304) and made a part of this section by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

PART 986—HOPS GROWN IN OREGON, CALIFORNIA, WASHINGTON AND IDAHO, AND OF HOP PRODUCTS PRODUCED THEREFROM IN THESE STATES

DETERMINATION OF AGGREGATE PRODUCTION OF 1952 CROP AND ESTABLISHMENT OF SALABLE PERCENTAGE

Pursuant to the provisions of § 986.74 (Determination of total production) of Marketing Agreement No. 107, as amended, and Order No. 86, as amended, regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States (17 F. R. 6626), effective pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), a determination is required by the Secretary of Agriculture regarding the aggregate production of 1952 crop hops by all growers.

The aforesaid provisions require the Growers Allocation Committee (established pursuant to said marketing agreement and order) to determine, or cause to be determined under its supervision, the total quantity of hops (net dry weight) produced by growers during that year which meets the requirements of § 986.60 (minimum standards of quality and grading and inspection requirements). It is further provided that such determination shall include, for each grower, his harvested, unharvested and total production. The Growers Allocation Committee is also required to notify each grower of such determination for that grower and allow a 10-day period for protest, if any, regarding such determination, and to act on such protest. The Growers Allocation Committee has met these requirements and furnished the Secretary with its findings, determinations, computations, and data in regard to the hops produced by each and all growers.

It is also provided in § 986.75 of said amended agreement and order that if, prior to the determination by the Secretary of the aggregate production of hops by all growers in any year, the Growers Allocation Committee finds that the harvested quantity exceeds the salable quantity, but, nevertheless, the salable percentage (computed by dividing the salable quantity by the aggregate production) will not result in the availability in marketing channels of the salable quantity of hops fixed for that year's crop, such percentage may be established by the Secretary at an amount necessary to result in the availability in marketing channels of the salable quantity of hops fixed for that year's crop. The determination of the salable percentage on the usual basis of the relationship of the salable quantity to the aggregate production would result in the fixing of a salable percentage in this instance of 64.0 percent. However, the application of such percentage would not, due to a situation such as that referred to in the second preceding sentence, cause the entire salable quantity to become available in marketing channels. Therefore the Committee has recommended that the salable percentage for 1952 crop hops be established at 65.7 percent. This will make available for market approximately 39,200,000 pounds of 1952 crop hops which was fixed as the salable quantity (17 F. R. 7841).

After consideration of all relevant matters, it is hereby ordered as follows:

§ 986.206 *Determination of hop growers aggregate production of 1952 crop hops and establishment of salable percentage*—(a) *Aggregate production.* The aggregate production of the 1952 crop of hops by all growers is determined to be 61,240,363 pounds comprised of 41,191,077 pounds of harvested hops and 20,049,286 pounds of unharvested hops.

(b) *Salable percentage.* The salable percentage for 1952 crop hops is hereby established at 65.7 percent.

It is hereby found and determined that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER in that the determination of the aggregate production of 1952 crop hops and the establishment of the salable percentage are necessary prior to the computation of the salable allotments of individual growers; the harvesting of the 1952 crop of hops has been completed and growers would suffer inconvenience and would be placed at a disadvantage in regard to their marketing operations if this action is not now taken; and no special preparation on the part of handlers is required to comply with the provisions hereof. Therefore, good cause exists for not giving preliminary notice, engaging in rule making procedure, and postponing the effective date of this document later than the date of its publication in the FEDERAL REGISTER (see sec. 4c of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 16th day of December 1952, to be effective on the date of publication in the FEDERAL REGISTER.

[SEAL] M. W. BAKER,
Acting Director, Fruit and Vegetable Branch.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Amdt. 3-9]

PART 3—AIRPLANE AIRWORTHINESS; NORMAL, UTILITY, AND ACROBATIC CATEGORIES

CORRECTION OF REFERENCES

As a result of a recent survey of Part 3 of the Civil Air Regulations it was noted that certain references to other sections or parts of the regulations were erroneous. Most of these errors occurred when certain parts of the regulations were renumbered or amended.

The purpose of these amendments is to correct or clarify erroneous references found in Part 3.

Since these amendments are merely corrections of existing errors or clarifying and minor in nature and impose no additional burden on any person, notice and public procedure thereon are unnecessary, and the amendments may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 3 of the Civil Air Regulations (14 CFR Part 3, as amended) effective immediately:

1. By amending § 3.72 (b) by deleting the reference "§ 3.755–3.770" and substituting in lieu thereof the reference "§§ 3.766 and 3.777".

2. By amending § 3.242 by deleting the phrases "the ground load requirements of § 4b.241, and shock absorption requirements of § 4b.371 and its related sections, the wheel and tire requirements of §§ 4b.391 and 4b.392, and the fuel jettisoning system requirements of § 4b.536." and substituting in lieu thereof the following: "the ground load requirements of § 4b.230, the landing gear requirements of §§ 4b.331 through 4b.336, and the fuel jettisoning system requirements of § 4b.437."

3. By amending § 3.652 by deleting the last sentence thereof.

4. By amending § 3.700 (b) by deleting the last sentence and substituting in lieu thereof the following: "The individual lights shall be of an approved type."

5. By amending § 3.700 (c) by deleting the last sentence and substituting in lieu thereof the following: "The light shall be of an approved type."

6. By amending § 3.713 to read as follows:

§ 3.713 *Flare requirements.* When parachute flares are required, they shall be of an approved type.

7. By amending § 3.715 by deleting the first sentence and substituting in lieu thereof the following: "Safety belts shall be of an approved type."

CORRECTION OF REFERENCES

As a result of a recent survey of Part 4a of the Civil Air Regulations it was noted that certain references to other sections or parts of the regulations were erroneous. Most of these errors occurred when certain parts of the regulations were renumbered or amended.

The purpose of these amendments is to correct or clarify erroneous references found in Part 4a.

Since these amendments are merely corrections of existing errors or clarifying and minor in nature and impose no additional burden on any person, notice and public procedure thereon are unnecessary, and the amendments may be made effective without prior notice.

In consideration of the foregoing the Civil Aeronautics Board hereby amends Part 4a of the Civil Air Regulations (14 CFR Part 4a, as amended) effective immediately:

1. By adding a note at the beginning of Part 4a immediately preceding the center heading "General" to read as follows:

NOTE: Current applications for airworthiness and type certificates are not processed under this part, but are processed under other airworthiness parts. At present this part primarily governs modification of aircraft which were originally certificated under Part 4a. Unless otherwise provided, all references to other parts of this subchapter are those provisions in effect on September 29, 1947.

2. By amending § 4a.37 (e) by deleting the reference "§§ 4a.687–4a.692" and substituting in lieu thereof the reference "§ 4a.687".

3. By amending § 4a.701 by deleting the reference "§§ 4a.671 through 4a.692" and substituting in lieu thereof the reference "§§ 4a.671 through 4a.687".

4. By amending § 4a.724 by deleting the reference "(See §§ 4a.687–4a.692.)" and substituting in lieu thereof the reference "(See § 4a.687.)".

5. By amending § 4a.751–T by deleting the reference "§ 4a.753 (d)" and substituting in lieu thereof the reference "§ 4a.753–T (d)".

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess-Profits Taxes

[Regs. 111; T. D. 5963]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

COMPUTATION OF NET OPERATING LOSS; CORPORATIONS AND TAXPAYER OTHER THAN CORPORATION

On October 18, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 9249) to conform Regulations 111 (26 CFR Part 29) to section 215 of the Revenue Act of 1950, approved September 23, 1950, section 304 (e) of the Excess Profits Tax Act of 1950, approved January 3, 1951, and sections 330 and 344 of the Revenue Act of 1951, approved October 20, 1951. No objections to the rules proposed having been received within the thirty days following such publication, the amendments set forth below are hereby adopted:

PARAGRAPH 1. There is inserted immediately preceding § 29.122–1 the following:

SEC. 215. NET OPERATING LOSS DEDUCTIONS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950)

(a) *Allowance of five-year carry-over.* Section 122 (b) (relating to the amount of carry-backs and carry-overs) is hereby amended to read as follows:

(b) *Amount of carry-back and carry-over*—(1) *Net operating loss carry-back*—(A) *Loss for taxable year beginning before 1950.* If for any taxable year beginning after December 31, 1941, and before January 1, 1950, the taxpayer has a net operating loss, such net operating loss shall be a net operating loss carry-back for each of the two preceding taxable years except that the carry-back in the case of the first preceding taxable year shall be the excess, if any, of the amount of such net operating loss over the net income for the second preceding taxable year computed—

(i) With the exceptions, additions, and limitations provided in subsection (d) (1), (2), (4), and (6), and

(ii) By determining the net operating loss deduction for such second preceding taxable year without regard to such net operating loss and without regard to any reduction specified in subsection (c).

(B) *Loss for taxable year beginning after 1949.* If for any taxable year beginning after December 31, 1949, the taxpayer has a net operating loss, such net operating loss shall be a net operating loss carry-back for the preceding taxable year.

(2) *Net operating loss carry-over*—(A) *Loss for taxable year beginning before 1950.* If for any taxable year beginning before January 1, 1950, the taxpayer has a net operating loss, such net operating loss shall be a net operating loss carry-over for each of the two succeeding taxable years, except that the carry-over in the case of the second succeeding taxable year shall be the excess, if any, of the amount of such net operating loss over the net income for the intervening taxable year computed—

(i) With the exceptions, additions, and limitations provided in subsection (d) (1), (2), (4), and (6), and

(ii) By determining the net operating loss deduction for such intervening taxable year without regard to such net operating loss, without regard to any net operating loss carry-back, and without regard to any reduction specified in subsection (c).

For the purposes of the preceding sentence, the net operating loss for any taxable year beginning after December 31, 1941, shall be reduced by the sum of the net income for each of the two preceding taxable years computed—

(iii) With the exceptions, additions, and limitations provided in subsection (d) (1), (2), (4), and (6), and

(iv) By determining the net operating loss deduction without regard to such net operating loss or to the net operating loss for the succeeding taxable year, and without regard to any reduction specified in subsection (c).

(B) *Loss for taxable year beginning after 1949.* If for any taxable year beginning after December 31, 1949, the taxpayer has a net operating loss, such net operating loss shall

be a net operating loss carry-over for each of the five succeeding taxable years, except that the carry-over in the case of each such succeeding taxable year (other than the first succeeding taxable year) shall be the excess, if any, of the amount of such net operating loss over the sum of the net income for each of the intervening years computed—

(i) With the exceptions, additions, and limitations provided in subsection (d) (1), (2), (4), and (6), and

(ii) By determining the net operating loss deduction for each intervening taxable year, without regard to such net operating loss or to the net operating loss for any succeeding taxable year and without regard to any reduction specified in subsection (c).

For the purpose of the preceding sentence, the net operating loss for any taxable year beginning after December 31, 1949, shall be reduced by the amount, if any, of the net income for the preceding taxable year computed—

(i) With the exceptions, additions, and limitations provided in subsections (d) (1), (2), (4), and (6), and

(ii) By determining the net operating loss deduction for such preceding taxable year without regard to such net operating loss and without regard to any reduction specified in subsection (c).

(b) *Effective date of subsection (a).* The amendment made by subsection (a) shall be applicable in computing the net operating loss deduction for taxable years beginning after December 31, 1947.

SEC. 304. TECHNICAL AMENDMENTS (EXCESS PROFITS TAX ACT OF 1950, APPROVED JANUARY 3, 1951).

* * * * *

(e) Section 122 (d) (6) of such (Internal Revenue) code (relating to the computation of the net operating loss deduction) shall not apply with respect to any taxable year ending after June 30, 1950.

* * * * *

(g) The amendments made by this section shall be applicable with respect to taxable years ending after June 30, 1950.

SEC. 330. NET OPERATING LOSS CARRY-OVER (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Loss for taxable year beginning before 1948.* So much of subparagraph (A) of section 122 (b) (2) (relating to the amount of carry-overs) as precedes "the taxpayer" is hereby amended to read as follows:

(A) *Loss for taxable year beginning before 1948.* Except as provided in subparagraph (D), if for any taxable year beginning before January 1, 1948 * * *.

(b) *Allowance of three-year loss carry-over from taxable years 1948–1949.* Section 122 (b) (2) (relating to the amount of carry-over) is hereby amended by adding after subparagraph (B) the following new subparagraphs:

(C) *Loss for taxable year beginning after December 31, 1947, and before January 1, 1950.* If for any taxable year beginning after December 31, 1947, and before January 1, 1950, the taxpayer has a net operating loss, such net operating loss shall be a net operating loss carry-over for each of the three succeeding taxable years, except that the carry-over in the case of each such succeeding taxable year (other than the first succeeding taxable year) shall be the excess, if any, of the amount of such net operating loss over the sum of the net income for each of the intervening years computed—

(i) With the exceptions, additions, and limitations provided in subsection (d) (1), (2), (4), and (6), and

(ii) By determining the net operating loss deduction for each intervening taxable year without regard to such net operating loss or to the net operating loss for any succeeding taxable year and without regard to any reduction specified in subsection (c).

For the purpose of the preceding sentence, the net operating loss for any taxable year beginning after December 31, 1947, and before January 1, 1950, shall be reduced by the sum of the net income for each of the two preceding taxable years computed—

(iii) With the exceptions, additions, and limitations provided in subsection (d) (1), (2), (4), and (6), and

(iv) By determining the net operating loss deduction without regard to such net operating loss or to the net operating loss for the succeeding taxable year, and without regard to any reduction specified in subsection (c).

(D) *Loss for taxable year beginning after December 31, 1946, and before January 1, 1948, in the case of a corporation which commenced business after December 31, 1945.* If for any taxable year beginning after December 31, 1946, and before January 1, 1948, a corporation which commenced business after December 31, 1945, has a net operating loss, such net operating loss shall be a net operating loss carry-over for each of the three succeeding taxable years, except that the carry-over in the case of each such succeeding taxable year (other than the first succeeding taxable year) shall be the excess, if any, of the amount of such net operating loss over the sum of the net income for each of the intervening years computed—

(i) With the exceptions, additions, and limitations provided in subsection (d) (1), (2), (4), and (6), and

(ii) By determining the net operating loss deduction for each intervening taxable year without regard to such net operating loss or to the net operating loss for any succeeding taxable year and without regard to any reduction specified in subsection (c).

For the purpose of the preceding sentence, the net operating loss for any taxable year beginning after December 31, 1946, shall be reduced by the sum of the net income for each of the two preceding taxable years computed—

(iii) With the exceptions, additions, and limitations provided in subsection (d) (1), (2), (4), and (6), and

(iv) By determining the net operating loss deduction without regard to such net operating loss or to the net operating loss for the succeeding taxable year, and without regard to any reduction specified in subsection (c).

(c) *Effective date.* The amendments made by this section shall be applicable in computing the net operating loss deduction for taxable years beginning after December 31, 1948.

SEC. 344. NONBUSINESS CASUALTY LOSSES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Removal of limitation.* Section 122 (d) (5) (relating to net operating loss deduction) is hereby amended by inserting at the end thereof the following new sentence: "This paragraph shall not apply with respect to deductions allowable for losses sustained after December 31, 1950, in respect of property, if the losses arise from fire, storm, shipwreck, or other casualty, or from theft."

(b) *Effective date.* The amendment made by this section shall be applicable in computing the net operating loss deduction for taxable years ending after December 31, 1948.

PAR. 2. Section 29.122–1 (a) is amended as follows:

(A) By striking the second and third sentences of subparagraph (2), and inserting in lieu thereof the following new sentence: "See § 29.122–4 for the taxable years from which a net operating loss may be carried over or carried back to the current taxable year."

(B) By striking the last two sentences of subparagraph (2) thereof, which read as follows: "Therefore, the net operating loss carry-overs to a taxable year beginning on or after January 1, 1942, are the net operating loss for the first preceding taxable year and so much of the net operating loss for the second preceding taxable year as has not been absorbed by the net income (computed under section 122), if any, for the first preceding taxable year, and the net operating loss carry-backs to such a taxable year are the net operating loss for the second succeeding taxable year and so much of the net operating loss for the first succeeding taxable year as has not been absorbed by the net income (computed under section 122), if any, for the first preceding taxable year. If either of the taxable years preceding the taxable year for which the deduction is allowed began on or after January 1, 1942, the net operating loss for such preceding taxable year is first reduced to the extent it has been absorbed by the net income (computed under section 122), if any, for the taxable years to which such loss has been carried back."

(C) By striking subparagraph (3) and inserting in lieu thereof the following new subparagraph (3).

(3) A fractional part of a year which is a taxable year under section 48 (a) is a preceding or a succeeding taxable year for the purpose of determining under section 122 the first, second, etc., preceding or succeeding taxable year.

PAR. 3. Section 29.122–1 (b) is amended by striking the second sentence and inserting in lieu thereof the following new sentence: "The first step is the computation of the net operating loss, if any, for any preceding or succeeding taxable year from which a net operating loss may be carried forward or carried back to the current taxable year."

PAR. 4. Section 29.122–2 is amended by inserting at the end of paragraph (e) thereof, which paragraph begins "(e) For taxable years beginning after December 31, 1941", the following new sentence: "This deduction is not allowed for any taxable year ending after June 30, 1950; for example, the deduction is not allowed for any taxable year ending after June 30, 1950, in the case of a taxpayer which makes its return on the basis of cash receipts and disbursements and which pays such excess profits tax during such taxable year."

PAR. 5. Section 29.122–3 (a) is amended by adding at the end of subparagraph (7) thereof the following new sentence: "For the purpose of computing the net operating loss deduction for any taxable year ending after December 31, 1948, any deduction allowable for a loss sustained after December 31, 1950, in respect of property, if the loss arises from fire, storm, shipwreck, or other casualty, or from theft, shall not be considered to be an ordinary nonbusiness deduction but shall be treated as a deduction attributable to the operation of a trade or business regularly carried on by the taxpayer."

PAR. 6. Section 29.122–4 (a) is amended to read as follows:

(a) *In general.* (1) The aggregate of any net operating loss carry-overs and any net operating loss carry-backs to a taxable year shall be the basis of the net operating loss deduction. In order to compute such deduction the taxpayer must first determine the part of any net operating losses for any preceding or succeeding taxable years which are carry-overs or carry-backs to the current taxable year.

(2) The number of taxable years to which a net operating loss may be carried back and carried over are as follows (subject to the two exceptions set forth below):

Net operating loss for a taxable year beginning: After and before		May be carried back to the following preceding taxable years	May be carried over to the following succeeding taxable years
Dec. 31, 1938	Jan. 1, 1942	None	2
Dec. 31, 1941	Jan. 1, 1945	2	2
Dec. 31, 1947	Jan. 1, 1950	2	3
Dec. 31, 1949		1	5

The first exception referred to above is that a net operating loss may not be carried back to any taxable year beginning prior to January 1, 1941. The second exception referred to above is that in the case of a corporation which commenced business after December 31, 1945, the net operating loss for any taxable year beginning after December 31, 1946, and before January 1, 1948, may be carried over to the three succeeding taxable years in lieu of the two succeeding taxable years shown above. The date the corporation commenced business shall be determined for the purpose of this exception under the rules provided in the regulations promulgated under section 445, relating to the computation of the average base period net income in the case of new corporations. See § 40.445–1 of this subchapter (Regulations 130).

(3) The amount which is carried back or carried over to any taxable year is the net operating loss to the extent it was not absorbed in the computation of the net income for other taxable years, preceding such taxable year, to which it was carried back or carried over. For the purpose of determining the net income for a taxable year which so absorbs the net operating loss that is carried back or carried over, the various net operating loss carry-overs and carry-backs to such taxable year are considered to be applied in reduction of the net income for such taxable year in the order of the taxable years from which such losses are carried over or carried back, beginning with the loss for the earliest taxable year.

PAR. 7. Section 29.122–4 (b) is amended to read as follows:

(b) *Portion of net operating loss which is a carry-over or a carry-back to the current taxable year.* A net operating loss must first be carried to the earliest of the several taxable years to which such loss is allowable as a carry-back or a carry-over, and is then to be carried to the next earliest of such several taxable years, etc. See paragraph (a) of this section for the taxable years to which a net operating loss incurred in any particular taxable year may be carried back or carried over. The entire net operating loss may be carried to such earliest year. The portion of the loss which may be carried to any taxable year subsequent to such earliest year is the excess of such net operating loss over the aggregate of the net income, if any (computed as provided in paragraph (c) of this section), for those of such several taxable years which precede the taxable year to which such net operating loss is allowable as a carry-back or a carry-over.

Example. A taxpayer on the calendar year basis has net operating losses for 1940 and 1948. The entire net operating loss for 1940 may be carried over to 1941, and the amount of the carry-over to 1942 is the excess of that loss over the net income (computed as provided in paragraph (c) of this section) for 1941. Similarly, the entire net operating loss for 1948 may be carried back to 1946, the amount of the carry-back to 1947 is the excess of that loss over the net income (computed as provided in paragraph (c) of this section) for 1946, and the amount of the carry-over to 1949, 1950, and 1951, is the excess of that loss over the aggregate of the net income (computed as provided in paragraph (c) of this section) for 1946 and 1947, for 1946, 1947, and 1949, and for 1946, 1947, 1949, and 1950, respectively.

PAR. 8. Section 29.122–4 (c), as amended by Treasury Decision 5600, approved February 2, 1948, is further amended by striking subparagraph (1) and the example thereunder and inserting in lieu thereof the following:

(1) The net operating loss deduction for such taxable year is computed (i) by taking into account only such net operating losses otherwise allowable as carry-overs or carry-backs to such taxable year as were sustained in taxable years preceding the taxable year in which the taxpayer sustained the net operating loss from which the net income is to be deducted, and (ii) if the taxable year to which the net operating loss is to be carried begins after December 31, 1947, by disregarding the adjustment provided in section 122 (c) and § 29.122–5 (relating to the conversion of the aggregate of the net operating loss carry-overs and carry-backs to the taxable year into the net operating loss deduction).

Example. The taxpayer files its income tax returns on the basis of the calendar year. In computing the net operating loss deduction for 1945, the taxpayer has a carry-over from 1943 of $9,000, a carry-over from 1944 of $6,000, a carry-back from 1946 of $18,000, and a carry-back from 1947 of $14,000, or an aggregate of $47,000 in carry-overs and carry-backs which is the basis for the deduction. The adjustment under section 122 (c) for the purpose of computing the net operating loss deduction for 1945 is $2,500. In computing the net income for 1945 which is deducted from the net operating loss for 1946 or 1947, as the case may be, for the purpose of determining the amount of such loss which may be carried back or carried over, the net operating loss deduction for 1945 is computed as follows:

For the purpose of determining the carry-over or carry-back— From	To	The net income for 1945 is computed with the following net operating loss deduction—
1946	1947	$12,500, that is, the aggregate of the $9,000 carry-over from 1943 and the $6,000 carry-over from 1944, less the $2,500 adjustment required by sec. 122 (c).
1946	1948	$15,000, that is, the aggregate of the $9,000 carry-over from 1943 and the $6,000 carry-over from 1944. The adjustment required by sec. 122 (c) is disregarded since the taxable year, 1948, to which the net operating loss is to be carried begins after Dec. 31, 1947.
1947	1946	$30,500, that is, the $9,000 carry-over from 1943, the $6,000 carry-over from 1944, and the $18,000 carry-back from 1946, less the $2,500 adjustment required by sec. 122 (c).
1947	1948 or 1949	$33,000, that is, the aggregate of the $9,000 carry-over from 1943, the $6,000 carry-over from 1944, and the $18,000 carry-back from 1946. The adjustment required by sec. 122 (d) is disregarded.

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

ABATEMENT OF TAX ON CERTAIN TRUSTS FOR MEMBERS OF ARMED FORCES DYING IN SERVICE

On October 25, 1952, notice of proposed rule making, regarding amendments to the income tax regulations made necessary by section 345 of the Revenue Act of 1951, approved October 20, 1951, was published in the FEDERAL REGISTER (17 F. R. 9669). No objection to the rules proposed having been received, the amendments to Regulations 111 (26 CFR Part 29) set forth below are hereby adopted:

PARAGRAPH 1. Section 29.162–1, as amended by Treasury Decision 5951, approved December 2, 1952, is further amended by adding after paragraph (b) (3) thereof the following new subparagraph (4):

(4) For the deduction allowed a trust which accumulated income for a beneficiary who died on or after December 7, 1941, and before January 1, 1948, while in active service as a member of the military or naval forces of the United States or of any of the other United Nations, see § 29.421–1.

PAR. 2. There is inserted immediately preceding § 29.421–1 the following:

SEC. 345. ABATEMENT OF TAX ON CERTAIN TRUSTS FOR MEMBERS OF ARMED FORCES DYING IN SERVICE (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

In the case of a trust which accumulated income for a beneficiary who died on or

after December 7, 1941, and before January 1, 1948, while in active service as a member of the military or naval forces of the United States or of any of the other United Nations, there shall be allowed as a deduction in computing the net income of such trust (in addition to other deductions allowable under sections 23 and 162 of the Internal Revenue Code) income of the trust for any taxable year (before diminution for income tax) which was accumulated for such beneficiary if—

(1) The income accumulated was for a taxable year of the trust which ended with or within a taxable year (ending on or after December 7, 1941) of such beneficiary during any part of which he was a member of such military or naval forces, or, in the case of the taxable year of the trust during which such beneficiary died, the income accumulated was for the period in such taxable year prior to the death of such beneficiary; and

(2) The amount of such accumulated income was, without regard to this section, taxable to the trust, and

(3) The income for such taxable year accumulated for the beneficiary, if not distributed to him prior to his death, was payable by the trust at or after his death only to his estate, spouse, or lineal ancestors or descendants.

PAR. 3. Section 29.421–1, as amended by Treasury Decision 5645, approved July 20, 1948, is hereby amended by renumbering present paragraph (d) as paragraph (e) and inserting after the paragraph (c) thereof the following new paragraph (d):

(d) In the case of a trust which accumulated income for a beneficiary who died on or after December 7, 1941, and before January 1, 1948, while in active service as a member of the military or naval forces of the United States or of any of the other United Nations, there shall be allowed as a deduction in computing the net income of the trust for any taxable year the income of the trust for such taxable year, before diminution for income taxes with respect thereto, which was, or would have been but for such diminution, accumulated for such beneficiary. This deduction shall be allowed, however, only if (1) the income accumulated was for a taxable year of the trust which ended with or within a taxable year (ending on or after December 7, 1941) of such beneficiary during any part of which he was a member of such military or naval forces, or, in the case of the taxable year of the trust during which such beneficiary died, the income accumulated was for the period in such taxable year prior to the death of such beneficiary, and (2) the amount of such accumulated income was, without regard to this paragraph, taxable to the trust, and (3) the income for such taxable year accumulated for the beneficiary, if not distributed to him prior to his death, was payable by the trust at or after his death only to his estate, spouse, or lineal ancestors or descendants.

The amendments to §§ 29.162–1 and 29.421–1 (Regulations 111), covering taxable years beginning after December 31, 1941, set forth in this Treasury decision, are hereby made applicable to any taxable year affected which is covered by Part 19 of this chapter (Regulations 103).

PART 40—EXCESS PROFITS TAXES; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

COMPUTATION OF EXCESS PROFITS NET INCOME FOR THE TAXABLE YEAR

On October 1, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 8691) to conform Regulations 130 (26 CFR Part 40) to section 122 (b) of the Internal Revenue Code, as amended by section 330 (b) of the Revenue Act of 1951, approved October 20, 1951. No objections to the rules proposed having been received within the thirty days following publication, § 40.433 (a)–2 (j) (3) of such regulations is amended by striking "1950 and 1951" from the third sentence from the end, and by inserting in lieu thereof "1950, 1951, and 1952", and by inserting "and any subsequent taxable year" immediately after "for 1950" in the second sentence from the end, so that such sentences as so amended will read as follows: "If the excess profits credit for 1950 is determined under section 435 or under section 436 (a) by the use of section 458, the $85,000 so computed may, at the election of the taxpayer made on its return for 1950, be treated as a net operating loss carry-over from 1949, and the $85,000 carry-over will, subject to the provisions of section 122 (b) (2), be a carry-over to the years 1950, 1951, and 1952. The net operating loss deduction for 1950 and any subsequent taxable year is determined without regard to any other carry-over from a taxable year ending before June 30, 1950, for example the loss for 1948, if such loss exceeded the net income for 1949, and the net operating loss deduction for any subsequent taxable year for which the excess profits credit is computed under neither section 435 nor section 458 is determined without regard to the $85,000 carry-over from the base period."

PART 40—EXCESS PROFITS TAX; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

DETERMINING EXCESS PROFITS TAX OF CERTAIN CORPORATIONS NOT SUBJECT TO EXCESS PROFITS TAX

On September 13, 1952, notice of proposed rule making with respect to determining excess profits tax of certain corporations not subject to the excess profits tax for all taxable years ending after June 30, 1950, was published in the FEDERAL REGISTER (17 F. R. 8276). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendments to Regulations 130, set forth below are hereby adopted.

PARAGRAPH 1. Section 40.449–3 (26 CFR 40.449–3), which section relates to election as to taxability under subchapter D of chapter 1 in the case of a personal service corporation, is amended as follows:

(A) By correcting in the second sentence of such section the typographical error "be be" to read as follows: "to be"; and

(B) By adding at the end of such section the following new sentences: "For the purpose of determining the excess profits tax for any taxable year for which the corporation does not make an election under section 449, the first taxable year of the corporation ending after June 30, 1950, is considered its first taxable year under subchapter D of chapter 1, whether or not it made an election under section 449 for such taxable year. Similarly, the second and subsequent taxable years under subchapter D of chapter 1 are determined without regard to any election under section 449."

PAR. 2. Section 40.454–1, which section relates to exempt corporations, is amended as follows:

(A) By striking from paragraph (b) of such section the word "paragraph" and by inserting in lieu thereof the following: "subsection"; and

(B) By adding at the end of such section the following new paragraph:

(f) For the purpose of determining the excess profits tax for any taxable year for which the corporation is not exempt under section 454, the first taxable year of the corporation ending after June 30, 1950, is considered its first taxable year under subchapter D of chapter 1, whether or not it was exempt under section 454 for such taxable year. Similarly, the second and subsequent taxable years under subchapter D of chapter 1 are determined without regard to any exemption under section 454.

Subchapter B—Estate and Gift Taxes

[Regs. 108; T. D. 5964]

PART 86—GIFT TAX UNDER CHAPTER 4 OF THE INTERNAL REVENUE CODE, AS AMENDED

DEDUCTIONS FOR RELIGIOUS, CHARITABLE, SCIENTIFIC, LITERARY, AND EDUCATIONAL ORGANIZATIONS

On October 9, 1952, notice of proposed rule making regarding certain gift tax provisions of the Revenue Act of 1950, approved September 23, 1950, was published in the FEDERAL REGISTER (17 F. R. 9017). No objections to such rules having been received, the amendments set forth below necessary to conform Regulations 108 to such provisions are hereby adopted:

PARAGRAPH 1. There is inserted immediately preceding § 86.12 the following:

SEC. 302. EXEMPTION OF CERTAIN ORGANIZATIONS FOR PAST YEARS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

(a) *Trade or business not unrelated.* For any taxable year beginning prior to January 1, 1951, no organization shall be denied exemption under paragraph (1), (6), or (7) of section 101 of the Internal Revenue Code on the grounds that it is carrying on a trade or business for profit if the income from such trade or business would not be taxable as unrelated business income under the provisions of Supplement U of the Internal Revenue Code, as amended by this Act, or if such trade or business is the rental by such organization of its real property (including personal property leased with the real property).

(b) *Period of limitations.* In the case of an organization which would otherwise be exempt under section 101 of the Internal Revenue Code were it not carrying on a trade or business for profit, the filing of the information return required by section 54 (f) of the Internal Revenue Code (relating to returns by tax-exempt organizations) for any taxable year beginning prior to January 1, 1951, shall be deemed to be the filing of a return for the purposes of section 275 of the Internal Revenue Code (relating to period of limitation upon assessment and collection). In the case of such an organization which was, by the provisions of section 54 (f) of the Internal Revenue Code, specifically not required to file such information return, for the purposes of the preceding sentence a return shall be deemed to have been filed at the time when such return should have been filed had it been so required. The provisions of this subsection shall not apply to a taxable year of such an organization with respect to which, prior to September 20, 1950, (1) any amount of tax was assessed or paid, or (2) a notice of deficiency under section 272 of the Internal Revenue Code was sent to the taxpayer.

(c) *Denial of deductions.* A gift or bequest to an organization prior to January 1, 1951, for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and the prevention of cruelty to children or animals) otherwise allowable as a deduction under section • • • 1004 (a) (2) (B), or 1004 (b) (2) or (3), of the Internal Revenue Code, may not be denied under such sections if a denial of exemption to such organization for the taxable year of the organization in which such gift or bequest was made is prevented by the provisions of subsections (a) or (b) of this section.

SEC. 162. NET INCOME (INTERNAL REVENUE CODE AS AMENDED BY SECTION 321, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The net income of the estate or trust shall be computed in the same manner and on the same basis as in the case of an individual, except that—

(a) Subject to the provisions of subsection (g), there shall be allowed as a deduction (in lieu of the deduction for charitable, etc., contributions authorized by section 23 (o)) any part of the gross income, without limitation, which pursuant to the terms of the will or deed creating the trust, is during the taxable year paid or permanently set aside for the purposes and in the manner specified in section 23 (o), or is to be used exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, or for the establishment, acquisition, maintenance or operation of a public cemetery not operated for profit. Where any amount of the income so paid or set aside is attributable to gain from the sale or exchange of capital assets held for more than six months, proper adjustment of the deduction otherwise allowable under this subsection shall be made for any deduction allowable to the trust under section 23 (ee);

• • • • • •

(g) *Rules for application of subsection (a) in the case of trusts.*

• • • • • •

(2) *Operations of trusts*—(A) *Limitation on charitable, etc., deduction.* The amount otherwise allowable under subsection (a) as a deduction shall not exceed 15 per centum of the net income of the trust (computed without the benefit of subsection (a)) if the trust has engaged in a prohibited transaction, as defined in subparagraph (B) of this paragraph.

(B) *Prohibited transactions.* For the purposes of this paragraph the term "prohibited transaction" means any transaction after July 1, 1950, in which any trust while holding income or corpus which has been permanently set aside or is to be used exclusively for charitable or other purposes described in subsection (a)—

(i) Lends any part of such income or corpus, without receipt of adequate security and a reasonable rate of interest, to;

(ii) Pays any compensation from such income or corpus, in excess of a reasonable allowance for salaries or other compensation for personal services actually rendered, to;

(iii) Makes any part of its services available on a preferential basis to;

(iv) Uses such income or corpus to make any substantial purchase of securities or any other property, for more than an adequate consideration in money or money's worth, from;

(v) Sells any substantial part of the securities or other property comprising such income or corpus, for less than an adequate consideration in money or money's worth, to; or

(vi) Engages in any other transaction which results in a substantial diversion of such income or corpus to;

the creator of such trust; any person who has made a substantial contribution to such trust; a member of the family (as defined in section 24 (b) (2) (D)) of an individual who is the creator of the trust or who has made a substantial contribution to the trust; or a corporation controlled by any such creator or person through the ownership, directly or indirectly, of 50 per centum or more of the total combined voting power of all classes of stock entitled to vote or 50 per centum or more of the total value of shares of all classes of stock of the corporation.

(C) *Taxable years affected.* The amount otherwise allowable under subsection (a) as a deduction shall be limited as provided in subparagraph (A) only for taxable years subsequent to the taxable year during which the trust is notified by the Secretary that it has engaged in such transaction, unless such trust entered into such prohibited transaction with the purpose of diverting such corpus or income from the purposes described in subsection (a), and such transaction involved a substantial part of such corpus or income.

(D) *Future charitable, etc., deductions of trusts denied deduction under subparagraph (C).* If the deduction of any trust under subsection (a) has been limited as provided in this paragraph, such trust, with respect to any taxable year following the taxable year in which notice is received of limitation of deduction under subsection (a), may, under regulations prescribed by the Secretary, file claim for the allowance of the unlimited deduction under subsection (a), and if the Secretary, pursuant to such regulations, is satisfied that such trust will not knowingly again engage in a prohibited transaction, the limitation provided in subparagraph (A) shall not be applicable with respect to taxable years subsequent to the year in which such claim is filed.

(E) *Disallowance of certain charitable, etc., deductions.* No gift or bequest for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and the prevention of cruelty to children or animals), otherwise allowable as a deduction under section • • • 1004 (a) (2) (B), or 1004 (b) (2) or (3), shall be allowed as a deduction if made in trust and, in the taxable year of the trust in which the gift or bequest is made, the deduction allowed the trust under subsection (a) is limited by subparagraph (A). With respect to any taxable year of a trust in which such deduction has been so limited by reason of entering into a prohibited transaction with the purpose of diverting such corpus or income from the purposes described in subsection (a), and such transaction involved a substantial part of such income or corpus, and which taxable year is the same, or prior to the, taxable year of the trust in which such prohibited transaction occurred, such deduction shall be disallowed the donor only if such donor or (if such donor is an individual) any member of his family (as defined in section 24 (b) (2) (D)) was a party to such prohibited transaction.

(F) *Definition.* For the purposes of this paragraph the term "gift or bequest" means any gift, contribution, bequest, devise, legacy, or transfer.

(3) *Cross reference.* For disallowance of certain charitable, etc., deductions otherwise allowable under subsection (a), see section 3813.

SEC. 322. EFFECTIVE DATE OF PART II (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The amendments made by this part (section 321, inserting subsection (g) in section 162 of the Internal Revenue Code) shall be applicable only with respect to taxable years beginning after December 31, 1950, except that subsection (g) (2) (E) of section 162 of the Internal Revenue Code, added by section 321 (a) of this Act, shall apply only with respect to gifts or bequests (as defined in section 162 (g) (2) (F) of the Internal Revenue Code) made on or after January 1, 1951.

SEC. 331. EXEMPTION OF CERTAIN ORGANIZATIONS UNDER SECTION 101 (6) AND DEDUCTIBILITY OF CONTRIBUTIONS MADE TO SUCH ORGANIZATIONS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

Chapter 38 is hereby amended by inserting at the end thereof the following new sections:

SEC. 3813. REQUIREMENTS FOR EXEMPTION OF CERTAIN ORGANIZATIONS UNDER SECTION 101 (6) AND FOR DEDUCTIBILITY OF CONTRIBUTIONS MADE TO SUCH ORGANIZATIONS.

(a) *Organizations to which section applies.* This section shall apply to any organization described in section 101 (6) except—

curred or in a prior taxable year unless

PAR. 2. Section 143.13 (a), as amended proved July 10, 1943, as amended by

(1) A religious organization (other than a trust):

(2) An educational organization which normally maintains a regular faculty and curriculum and normally has a regularly enrolled body of pupils or students in attendance at the place where its educational activities are regularly carried on;

(3) An organization which normally receives a substantial part of its support (exclusive of income received in the exercise or performance by such organization of its charitable, educational, or other purpose or function constituting the basis for its exemption under section 101 (6)) from the United States or any State or political subdivision thereof or from direct or indirect contributions from the general public;

(4) An organization which is operated, supervised, controlled, or principally supported by a religious organization (other than a trust) which is itself not subject to the provisions of this section; and

(5) An organization the principal purposes or functions of which are the providing of medical or hospital care or medical education or medical research.

(b) *Prohibited transactions.* For the purposes of this section, the term "prohibited transaction" means any transaction in which an organization subject to the provisions of this section—

(1) Lends any part of its income or corpus, without the receipt of adequate security and a reasonable rate of interest, to;

(2) Pays any compensation, in excess of a reasonable allowance for salaries or other compensation for personal services actually rendered, to;

(3) Makes any part of its services available on a preferential basis to;

(4) Makes any substantial purchase of securities or any other property, for more than adequate consideration in money or money's worth, from;

(5) Sells any substantial part of its securities or other property, for less than an adequate consideration in money or money's worth, to; or

(6) Engages in any other transaction which results in a substantial diversion of its income or corpus to;

the creator of such organization (if a trust); a person who has made a substantial contribution to such organization; a member of the family (as defined in section 24 (b) (2) (D)) of an individual who is the creator of such trust or who has made a substantial contribution to such organization; or a corporation controlled by such creator or person through the ownership, directly or indirectly, of 50 per centum or more of the total combined voting power of all classes of stock entitled to vote or 50 per centum or more of the total value of shares of all classes of stock of the corporation.

(c) *Denial of exemption to organizations engaged in prohibited transactions*—(1) *General rule.* No organization subject to the provisions of this section which has engaged in a prohibited transaction after July 1, 1950, shall be exempt from taxation under section 101 (6).

(2) *Taxable years affected.* An organization shall be denied exemption from taxation under section 101 (6) by reason of paragraph (1) only for taxable years subsequent to the taxable year during which it is notified by the Secretary that it has engaged in a prohibited transaction, unless such organization entered into such prohibited transaction with the purpose of diverting corpus or income of the organization from its exempt purposes, and such transaction involved a substantial part of the corpus or income of such organization.

(d) *Future status of organization denied exemption.* Any organization denied exemption under section 101 (6) by reason of the provisions of subsection (c), with respect to any taxable year following the taxable year in which notice of denial of exemption was received, may, under regulations prescribed by the Secretary, file claim for exemption, and if the Secretary, pursuant to such regulations, is satisfied that such organization will not knowingly again engage in a prohibited transaction, such organization shall be exempt with respect to taxable years subsequent to the year in which such claim is filed.

(e) *Disallowance of certain charitable, etc., deductions.* No gift or bequest for religious, charitable, scientific, literary, or educational purposes (including the encouragement of art and the prevention of cruelty to children or animals), otherwise allowable as a deduction under section • • • 1004 (a) (2) (B), or 1004 (b) (2) or (3), shall be allowed as a deduction if made to an organization which, in the taxable year of the organization in which the gift or bequest is made, is not exempt under section 101 (6) by reason of the provisions of this section. With respect to any taxable year of the organization for which the organization is not exempt pursuant to the provisions of subsection (c) by reason of having engaged in a prohibited transaction with the purpose of diverting the corpus or income of such organization from its exempt purposes and such transaction involved a substantial part of such corpus or income, and which taxable year is the same, or prior to the, taxable year of the organization in which such transaction occurred, such deduction shall be disallowed the donor only if such donor or (if such donor is an individual) any member of his family (as defined in section 24 (b) (2) (D)) was a party to such prohibited transaction.

(f) *Definition.* For the purposes of this section, the term "gift or bequest" means any gift, contribution, bequest, devise, legacy, or transfer.

• • • • •

SEC. 332. TECHNICAL AMENDMENTS (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

• • • • •

(g) *Amendment of section 1004 (a).* Section 1004 (a) (2) (B) is hereby amended by striking out "legislation;" and inserting in lieu thereof the following: "legislation. For disallowance of certain charitable, etc., deductions otherwise allowable under this subparagraph, see sections 3813 and 162 (g) (2);",

(h) *Amendment of section 1004 (b).* Section 1004 (b) is hereby amended by adding at the end thereof the following new paragraph:

For disallowance of certain charitable, etc., deductions otherwise allowable under paragraphs (2) and (3), see sections 3813 and 162 (g) (2).

SEC. 333. EFFECTIVE DATES (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

Subsections (c) and (d) of section 3813 • • • of the Internal Revenue Code, added by section 331 of this Act, shall apply with respect to taxable years beginning after December 31, 1950, and subsection (e) of section 3813 of the Internal Revenue Code shall apply only with respect to gifts or bequests (as defined in section 3813 of the Internal Revenue Code) made on or after January 1, 1951.

PAR. 2. Section 86.13, as amended by Treasury Decision 5902, approved May 27, 1952, is further amended as follows:

(A) By adding a headnote to paragraph (a) thereof to read as follows: "(a) *In general.*";

(B) By inserting immediately following the period at the end of paragraph (a) the following: "For disallowance of certain charitable gifts otherwise allowable as deductions hereunder see paragraph (b) of this section."; and

(C) By amending paragraph (b) thereof to read as follows:

(b) *Disallowance of certain charitable, etc., deductions.* (1) No deduction with respect to a gift made on or after January 1, 1951, to any trust or organization described in subparagraph (2) of paragraph (a) of this section which would otherwise be allowable under such paragraph shall be allowed if (i) the gift is made in trust and, for income tax purposes for the taxable year of the trust in which the gift is made, the deduction otherwise allowable to such trust under section 162 (a) is limited by section 162 (g) (2) (A) by reason of the trust having engaged in a prohibited transaction described in section 162 (g) (2) (B); or (ii) the gift is made to any such organization subject to section 3813 which, for its taxable year in which the gift is made, is not exempt from income tax under section 101 (6) by reason of having engaged in a prohibited transaction described in section 3813 (b).

(2) For the purpose of section 162 (g) (2) (E) and section 3813 (e), the term "gift" includes any gift, contribution, or other disposition.

(3) Part 29 of this chapter, relating to the income tax, contain the rules for the determination of the taxable year of the trust for which the deduction under section 162 (a) is limited by section 162 (g) (2) and for the determination of the taxable year of the organization for which an exemption is denied under section 3813 (c). See §§ 29.162–3 (b) and 29.3813–1 of this chapter. Such taxable year must begin after December 31, 1950. Generally, such taxable year is a taxable year subsequent to the taxable year during which the trust or organization has been notified by the Commissioner that it has engaged in a prohibited transaction. However, if the trust or organization after December 31, 1950, and during or prior to the taxable year entered into the prohibited transaction for the purpose of diverting its corpus or income from the purposes described in section 162 (a) or from its exempt purposes, as the case may be, and such transaction involves a substantial part of such income or corpus, then the deduction of the trust under section 162 (a) for such taxable year is limited by section 162 (g) (2), or the exemption of the organization for such taxable year is denied under section 3813 (c), whether or not the organization has previously received notification by the Commissioner that it is engaged in a prohibited transaction. In certain cases, the limitation of section 162 (g) may be removed or the exemption may be reinstated for certain subsequent taxable years under the rules set forth in §§ 29.162–3 (b) and 29.3813–2, of this chapter.

(4) In cases in which prior notification by the Commissioner is not required in order to limit the deduction of the trust under section 162 (g) (2) or to deny exemption of the organization under section 3813, the deduction otherwise allowable under paragraph (a) of this section shall not be disallowed in respect to gifts made during the same taxable year of the trust or organization in which such prohibited transaction occurred or in a prior taxable year unless the donor or a member of his family was a party to the prohibited transaction. For the purpose of the preceding sentence, the members of the donor's family include only his brothers and sisters, whether by whole or half blood, spouse, ancestors, and lineal descendants.

PAR. 3. Section 86.14 is amended by adding at the end thereof the following: "For further limitations in the case of gifts made on or after January 1, 1951, see § 86.13 (b), relating to gifts to certain trusts and organizations engaged in a prohibited transaction described in section 162 (g) (2) (B) or 3813 (b)."

Subchapter C—Miscellaneous Excise Taxes

[Regs. 113; T. D. 5960]

PART 143—TAX WITH RESPECT TO THE TRANSPORTATION OF PROPERTY

MATERIAL EXCAVATED IN COURSE OF CONSTRUCTION WORK

On October 9, 1952, notice of proposed rule making to conform Regulations 113 (26 CFR Part 143), relating to the tax on the amount paid for the transportation of property, to section 495 of the Revenue Act of 1951, approved October 20, 1951, was published in the FEDERAL REGISTER (17 F. R. 9019). After consideration of all relevant matter presented by interested persons, the amendments to such regulations set forth below are hereby adopted.

PARAGRAPH 1. There is inserted immediately preceding § 143.10 the following:

SEC. 495. TRANSPORTATION OF MATERIAL EXCAVATED IN THE COURSE OF CONSTRUCTION WORK (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951)

(a) *Amendment of section 3475.* Section 3475 (relating to tax on transportation of property) is hereby amended by adding at the end thereof the following: "The tax imposed by this section shall not apply to the transportation of earth, rock, or other material excavated within the boundaries of, and in the course of, a construction project and transported to any place within, or adjacent to, the boundaries of such project." The determination as to the applicability of the tax imposed by section 3475 in the case of the transportation of any excavated material, other than transportation to which the amendment made by this subsection applies, shall be made as if this subsection had not been enacted and without inferences drawn from the fact that the amendment made by this subsection is not expressly applicable to the transportation of such other excavated material.

(b) *Effective date.* The amendment made by subsection (a) shall apply to amounts paid on or after the first day of the first month which begins more than ten days after the date of enactment of this Act for transportation on or after such first day.

PAR. 2. Section 143.13 (a), as amended by Treasury Decision 5826, approved January 12, 1951, is further amended by redesignating subdivision (iii) in the first sentence of subparagraph (7) as subdivision (iv) and by inserting after subdivision (ii) the following: "(iii) to an amount paid for the transportation of material excavated within the boundaries of, and in the course of, a construction project, where the transportation is to any place within, or adjacent to, the boundaries of such project (see § 143.16);".

PAR. 3. Immediately following § 143.15, there is inserted the following new section:

§ 143.16 *Excavated material.* (a) The tax does not apply to an amount paid on or after November 1, 1951, for the transportation, originating on or after that date, of earth, rock, or other material excavated within the boundaries of, and in the course of, a construction project and transported to any place within, or adjacent to, the boundaries of such project.

(b) To come within the exemption it is necessary that two conditions be met, namely, (1) that the property be earth, rock, or other material excavated within the boundaries of, and in the course of, a construction project, and (2) that the transportation of the excavated material be within the boundaries of the construction project or to a place adjacent thereto.

(c) In determining the boundaries of a construction project, consideration will be given to the type of construction operation which is involved and the area which is required to perform and carry out the necessary work. For example, in the case of a road-building operation, the boundaries of the project would embrace the area covered by the length and width of the roadway, plus any adjoining right-of-way. In the case of the construction of an airport, the boundaries would include the outermost limits of the airport.

Subchapter E—Administrative Provisions Common to Various Taxes

[T. D. 5959]

PART 472—REGULATIONS UNDER SECTION 3804 OF THE INTERNAL REVENUE CODE

TIME FOR PERFORMING CERTAIN ACTS POSTPONED IN CASE OF CHINA TRADE ACT CORPORATIONS

On October 29, 1952, there was published in the FEDERAL REGISTER (17 F. R. 9749) a notice of proposed rule making to conform Treasury Decision 5279, approved July 10, 1943, as amended by Treasury Decision 5610, approved March 15, 1948 (26 CFR Part 472), to section 614 of the Revenue Act of 1951, relating to postponement of time for performing certain acts in case of China Trade Act corporations, approved October 20, 1951. No objection to the proposed rules having been received, the amendments set forth below are hereby adopted.

PARAGRAPH 1. Immediately preceding the caption "Public Law 490 (Seventy-Seventh Congress), approved March 7, 1942", which precedes § 472.0, the following is inserted:

SEC. 614. TIME FOR PERFORMING CERTAIN ACTS POSTPONED IN CASE OF CHINA TRADE ACT CORPORATIONS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Section 3805 (relating to postponement of income tax due dates in the case of China Trade Act corporations) is hereby amended to read as follows:

SEC. 3805. INCOME TAX DUE DATES POSTPONED IN CASE OF CHINA TRADE ACT CORPORATIONS.

In the case of any taxable year beginning after December 31, 1948, and ending before October 1, 1953, no Federal income tax return of, or payment of any Federal income tax by, any corporation organized under the China Trade Act of 1922 (42 Stat. 849, U. S. C., Title 15, chapter 4), as amended, shall become due until December 31, 1953, but only with respect to any such corporation and any such taxable year which the Secretary may determine reasonable under the circumstances in China pursuant to such regulations as he may prescribe. Such due date shall be subject to the power of the Secretary to extend the time for filing such return or paying such tax, as in other cases.

PAR. 2. Section 472.806, as amended by Treasury Decision 5610, is further amended by striking therefrom paragraph (a) and inserting in lieu thereof the following new paragraph:

(a) *Income tax*—(1) *In general.* (i) Section 3805, immediately prior to amendment by section 614 of the Revenue Act of 1951, approved October 20, 1951, provided that in the case of any taxable year beginning after December 31, 1940, no Federal income tax return of, or payment of any Federal income tax by, any corporation organized under the China Trade Act, 1922, should become due until December 31, 1947. Section 3805, as amended by section 614 of the Revenue Act of 1951, provides with respect to any taxable year beginning after December 31, 1948, and ending before October 1, 1953, that the Federal income tax return of, or the payment of Federal income tax by, a corporation organized under such China Trade Act shall not become due until December 31, 1953, if, in the case of any such taxable year of any such corporation, the application of such postponed due date is determined by the Secretary under regulations to be reasonable in view of the circumstances in China.

(ii) The due dates (December 31, 1947, or December 31, 1953, whichever is applicable) thus prescribed are expressly subject to the power of the Commissioner to extend, as in other cases, the time for filing the income tax return or paying the income tax. See sections 53 (a) (2) and 56 (c) (1); and, the regulations thereunder.

(2) *Specific rules applicable to taxable years beginning after December 31, 1948, and ending before October 1, 1953.* The postponement of the due date to December 31, 1953, permitted by section 3805 shall apply with respect to:

(i) Any taxable year beginning after December 31, 1948, and ending before October 1, 1953, of any corporation organized under the China Trade Act, 1922, as amended, if during such taxable year conditions in China have been generally so unsettled as to militate against the normal commercial operations and corporate activities of such corporation, except:

(*a*) In the case of any such taxable year of any such corporation in respect to which the situation is such that, despite such unsettled conditions, the books of account and business records are available so as to permit the filing of a proper return and the corporation has otherwise been in a position to carry on its commercial operations and corporate activities and to make a proper distribution of its earnings or profits, if any, so as to permit the certification required by section 262 (b); or

(*b*) In the case of any such taxable year of any such corporation during which all the commercial operations and corporate activities of such corporation have been carried on in Hong Kong, Macao, or Taiwan; and

(ii) Any such taxable year of any such corporation excepted under subdivision (i) (*a*) or (*b*) of this subparagraph in respect of which the corporation satisfies the Commissioner that special circumstances exist, related to the unsettled conditions in China, which warrant such postponement.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter F—Personnel

PART 573—APPOINTMENT OF COMMISSIONED OFFICERS AND WARRANT OFFICERS

GENERAL ELIGIBILITY REQUIREMENTS FOR APPOINTMENT OF OFFICERS IN REGULAR ARMY

Section 573.10 is revised to read as follows:

§ 573.10 *General eligibility requirements.* The following general eligibility requirements will govern appointments in the Regular Army, all of which must be met by applicants:

(a) Be a citizen of the United States. An applicant who is not a citizen by birth must furnish a certificate by an officer, notary public, or other person authorized by law to administer oaths, giving the following information:

I certify that I have this date seen the original certificate of Citizenship Number -------- (or certified copy of court order establishing citizenship) stating that ------ ---------- was admitted to United
(Full name)
States Citizenship by the Court of --------, ----------, on ----------.
(County) (State) (Date)
The following person was named in the certificate as a minor child: ----------,
(Full name)
age ---------.

(b) Applicants must, except for appointment in corps as indicated in subparagraphs (1) through (8) of this paragraph, have reached their twenty-first birthday but not their twenty-seventh birthday on date of appointment. The latter date may be increased by the number of years, months, and days of active Federal service performed after attaining the age of 21 years as a commissioned officer in the Army of the United States and subsequent to December 31, 1947, but not to exceed a total of 3 years; the maximum, therefore, precludes attainment of the thirtieth birthday.

(1) *Medical Corps.* Applicant must have reached twenty-first birthday but not the thirty-second birthday on date of appointment as first lieutenant; the thirty-seventh birthday on date of appointment as captain; the forty-second birthday on date of appointment as major; or the forty-eighth birthday on date of appointment as lieutenant colonel.

(2) *Dental Corps.* Applicant must have reached twenty-first birthday but not the thirty-second birthday on date of appointment as first lieutenant; the thirty-seventh birthday on date of appointment as captain; the forty-second birthday on date of appointment as major; or the forty-eighth birthday on date of appointment as lieutenant colonel.

(3) *Veterinary Corps.* Applicant must have reached twenty-first birthday but not the thirty-second birthday on date of appointment. The latter date may be increased by the number of years, months, and days of active Federal service performed after attaining the age of 21 years as a commissioned officer in the Army of the United States subsequent to December 31, 1947, but not to exceed a total of 5 years.

(4) *Medical Service Corps.* Applicant must have reached twenty-first birthday but not the thirtieth birthday on date of appointment. The latter date may be increased by the number of years, months, and days of active Federal service performed after attaining the age of 21 years as a commissioned officer in the Army of the United States subsequent to December 31, 1947, but not to exceed a total of 5 years.

(5) *Army Nurse Corps.* Applicant must have reached twenty-first birthday but not the twenty-eighth birthday on date of appointment.

(6) *Women's Medical Specialist Corps.* Applicant must have reached twenty-first birthday but not the twenty-eighth birthday on date of appointment.

(7) *Judge Advocate General's Corps.* Applicant must have reached twenty-first birthday but not the thirty-second birthday on date of appointment. The latter date may be increased by the number of years, months, and days of active Federal service performed after attaining the age of 21 years as a commissioned officer in the Army of the United States subsequent to December 31, 1947, but not to exceed a total of 5 years.

(8) *Chaplains.* Applicant must have reached twenty-first birthday but not the thirty-fourth birthday on date of appointment. The latter date may be increased by the number of years, months, and days of active Federal service performed after attaining the age of 21 years as a commissioned officer in the Army of the United States subsequent to December 31, 1947, but not to exceed a total of 5 years.

(c) Except as indicated in subparagraph (3) of this paragraph, possess a baccalaureate degree gained through attendance at a college or university recognized through accreditation (as evidenced in part 3, current Educational Directory, Higher Education, United States Office of Education), and in the case of applicants covered in subparagraphs (1) and (2) of this paragraph, must possess additional requirements as indicated:

(1) Applicants under the technical specialist program must possess a master's or doctor's degree from a college or university recognized through above-prescribed accreditation.

(2) Applicants for appointment in the several corps listed in paragraph (b) (1) through (8) of this section are required to have had certain technical or professional training, details of which are specified in pertinent special regulations.

(3) A waiver of the baccalaureate degree may be considered for applicants under special regulations provided applicant:

(i) Achieves a qualifying score upon the Educational Requirements Test, and

(ii) Evidences outstanding ability as demonstrated by military record.

(d) Be found physically qualified for active military service by meeting the physical standards prescribed for the Regular Army by AR 40-105 (Standards of Physical Examination for Commission or warrant in Regular Army, National Guard of United States, Army of United States, and Organized Reserves), and paragraph 4, AR 40-100 (Miscellaneous Physical Examinations), for females, as determined by final type medical examination subscribed to within 120 days of the effective date of appointment.

(e) Be of good moral character.

(f) Have a record free of conviction by any type of military or civil court for other than a minor traffic violation. Request for waiver may be made in the case of other minor violations which are nonrecurrent and which are not deemed prejudicial to performance of duty as an officer. Waivers for crimes involving moral turpitude will not be granted.

(g) Not be a conscientious objector. If applicant has been a conscientious objector, he will be required to furnish an affidavit which will express his abandonment of such beliefs and principles so far as they pertain to his unwillingness to bear arms and to give full and unqualified military service to the United States, and where appropriate, he must have demonstrated that he has changed his views by subsequent suitable military service. (So much of this paragraph as pertains to bearing of arms is not applicable to officers of the Army Medical Service or Chaplains).

(h) Not have been separated from any of the Armed Forces of the United States with other than an honorable discharge.

(i) Not be nor have been a member of any foreign or domestic organization, association, movement, group, or combination of persons advocating subversive policy or seeking to alter the form of government of the United States by unconstitutional means.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 13, Amdt. 2]

CPR 13—RETAIL CEILINGS ON PETROLEUM PRODUCTS

ADJUSTMENT OF CEILING PRICES DUE TO CHANGES IN TAXES AND TRANSPORTATION RATES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 2 to Ceiling Price Regulation 13 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Ceiling Price Regulation 13 makes three changes. One change deals with two of the provisions permitting the establishment of ceilings by a formula, another requires reduction in ceilings where taxes have been reduced, and the third deals with increases in transportation rates.

Sections 8 and 9 of Ceiling Price Regulation 13 permit retail sellers of automotive gasoline to establish ceiling prices for these products by adding to the cost of product at the time of calculation the gross margin the seller obtained during the base period. However, it was not intended to permit sellers to repeatedly redetermine their ceiling price by use of these sections. This amendment is designed to eliminate any confusion as to the proper use of sections 8 and 9. Increases in product cost may be passed through in accordance with section 10 of the regulation, which is specifically designed to maintain customary margins.

Most of the automotive gasoline purchased by service stations in this country is bought on a delivered basis, at what is termed the tank wagon price. The tank wagon ceiling price of automotive gasoline is regulated by the provisions of Ceiling Price Regulation 17 which permit an increase in the tank wagon ceiling prices, where there has been an increase in transportation rates. Where the tank wagon ceiling price is properly increased, the retailer may increase his ceiling price by the amount of increase in his supplier's ceiling. However, there are some retailers of automotive gasoline who do not purchase at the tank wagon level. These retail sellers of automotive gasoline purchasing at the tank car level or on an f. o. b. basis have been required to absorb increased costs resulting from increased transportation rates, although they were competing with tank wagon purchasers who can pass on the increases. This has had a tendency to disrupt price relationships in some retail marketing areas. The corrective change included in this amendment, permitting an increase in prices, will have comparatively little effect because of the very slight percentage of the total of automotive gasoline sold to service stations at other than tank wagon level.

The third part of this amendment requires that a retail seller who has a ceiling price which includes taxes incident to the sale, use or delivery of a petroleum product, reduce his ceiling price by the amount of any reduction in these taxes. Where a tax of this nature is reduced or repealed, this benefit should be passed on to the public upon whom the burden of the tax previously rested.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

In the judgment of the Director of Price Stabilization, the changes set forth in these amendatory provisions are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Ceiling Price Regulation 13 is amended in the following respects:

1. The text of section 8 (a) (2) is amended to read as follows:

(2) By adding to the tank wagon ceiling price for each grade of gasoline of your supplier the margin you had in the base period. This method of pricing can be used only if 50 percent of your sales during the base period reflected that margin. Having determined ceiling prices by using the base period margin method, you may not again use this method to redetermine your ceiling price. You must file these prices with the District Office of the Office of Price Stabilization for the District in which each retail establishment is located. Your filing should be as follows:

2. The text of section 9(b) is amended to read as follows:

(b) By adding to your current laid-down cost for each grade of gasoline the margin you had in the base period. This method of pricing can be used only if 50 percent of your sales during the base period reflected that margin. Having determined ceiling prices by using the base period margin method, you may not again use this method for redetermining your ceiling price. You must file these prices with the District Office of the Office of Price Stabilization for the District in which each retail establishment is located. Your filing should be as follows:

3. Section 10 is amended to read as follows:

SEC. 10. *Increases in ceiling prices.* (a) You may increase your ceiling price determined in accordance with any of the provisions of this regulation by the amount of increase in the ceiling prices of your supplier which has been authorized by the Office of Price Stabilization.

(b) If you are not a tank wagon purchaser of automotive gasoline and if you incur transportation costs in distributing such product at your service stations, you may increase your ceiling prices:

(1) By the amount of increase in unit cost of transportation you incur as a result of transportation rate increases effective after January 25, 1951, which have been permitted by Federal or State regulatory bodies or by the Office of Price Stabilization. Such increases may include excise taxes which are a part of, or are applicable to, such increases. The higher ceiling prices may be made effective as of the date of the increase in transportation rate.

(2) Where transportation of product in facilities which you own or control is in lieu of transportation by a regulated carrier, by the amount of unit increase that would be permitted you in paragraph (b) (1) of this section, had you used such regulated carrier.

(c) If you increase your ceiling prices in accordance with the provisions of this regulation you may round to the nearest fraction of a cent per gallon in accordance with your customary practices. If you elect to round on one product you must round all your ceiling prices increased under this section to reflect decreases as well as increases.

(d) The provisions of paragraph (b) (1) and (2) of this section may not be used to increase your ceiling prices where the increased transportation costs you have incurred are the result of changes in sources of supply.

4. Section 11 is amended by adding a new paragraph designated (c) to read as follows:

(c) If the taxes referred to in paragraphs (a) and (b) of this section are included in the ceiling prices you have established under the provisions of this regulation, and such tax is reduced or repealed after January 25, 1951, you must reduce your ceiling price by the amount of the tax reduction. You must also reduce your ceiling price by the amount of the reduction in the ceiling price of your supplier due to a repeal or reduction of such tax.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

[Ceiling Price Regulation 34, Supplementary Regulation 33]

CPR 34—Services

SR 33—Power Laundries and Dry Cleaning Sellers in Greater Portland, Oregon Trading Area

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2 this Supplementary Regulation 33 to Ceiling Price Regulation 34 is hereby issued.

Statement of Considerations

This Supplementary Regulation 33 to Ceiling Price Regulation 34 permits an increase in retail ceiling prices for dry cleaning services to all sellers of such service located in the Greater Portland Oregon Trading Area. This "Area", as it is at times referred to in the regulation, consists of the county of Multnomah and certain cities in the counties of Clackamas in the State of Oregon and Clark in the State of Washington. In addition it permits all power laundries located in the "Area" to increase their retail ceiling prices for power laundry services. In order that customary pricing practices established in the trade may be maintained "bobtailers" (independent routemen) are also permitted an increase in their retail ceiling prices on the resale at retail of power laundry services that they purchase from power laundries located in the "Area". This supplementary regulation does not permit the increase to be applied to the diaper supply and linen supply services of power laundries and "bobtails". Historically it has been industry practice to bargain collectively with the various unions on proposed wage increases. As a result the impact and effect of any increase has been uniform throughout each industry. An analysis of the operating costs and profit margins of a representative number of the sellers in the area reveals that they are suffering an impairment of their pre-Korean earnings as a result of increased labor and material costs, which have been incurred. In may of 1952 new wage contracts were negotiated under which laundry and dry cleaning workers were granted a 5 cent per hour increase together with 6 paid holidays: in August 1952 the Wage Stabilization Board approved certain "fringe benefits" for workers represented by the Teamsters' Union. Failure to make an adjustment in the retail ceiling prices of these sellers would impair their continued operations and would threaten an interruption in the supply of these essential services. This uniform increase was determined in accordance with the standards for individual adjustments under section 20 of Ceiling Price Regulation 34.

Under the provisions of this supplementary regulation, retail ceiling prices of such power laundries, dry cleaning service sellers and bobtail sellers may be increased by 5 percent such adjustment to be applied to the total amount of each invoice rendered to the customer and identified as the "OPS permitted price increase." If this method is used to apply the amount of the increase, the seller need not make the supplementary filing required by section 18 (c) of Ceiling Price Regulation 34. At the option of the individual power laundry, dry cleaning service seller and bobtailer, however, the flat retail ceiling price for each article may be increased by 5 percent. Adjusted flat ceiling prices must, within ten days after their determination, be filed with the appropriate Office of Price Stabilization district office as required by section 18, as amended, of Ceiling Price Regulation 34. Express authority is granted to make necessary changes in OPS posters.

In the future, power laundries, dry cleaning service sellers and bobtailers subject to this supplementary regulation may not obtain an adjustment of their retail ceiling prices for those services covered by this supplementary regulation, under section 20 of Ceiling Price Regulation 34, as amended. Any adjustment of retail ceiling prices which are the subject of this supplementary regulation under section 20 of Ceiling Price Regulation 34, as amended, heretofore granted is automatically revoked as of the effective date of this supplementary regulation.

In the judgment of the Director of Price Stabilization the price increases permitted by this supplementary regulation are the minimum needed to permit the continued supply of this service.

In the formulation of this supplementary regulation, the Director has informally consulted insofar as practicable with representative suppliers of these services including representatives of trade association, and consideration has been given to their recommendations. In the judgment of the Director of Price Stabilization the increases permitted by this supplementary regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

Regulatory Provisions

Sec.
1. Purpose.
2. Relationship to Ceiling Price Regulation 34.
3. Adjustment of Ceiling Prices.
4. Application of Section 20 of Ceiling Price Regulation 34.
5. Definitions.

Authority: Sections 1 to 5 issued under Sec. 704, 64 Stat. 816, as amended: 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended: 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR 1950 Supp.

Section 1. *Purpose.* This Supplementary Regulation permits all sellers of dry cleaning services located in the Greater Portland Oregon Trading Area hereinafter at times referred to as the "Area") to increase their ceiling prices for the sale of such dry cleaning services at retail only by 5 percent. It permits power laundries located in the "Area" to increase by 5 percent their ceiling prices for the sale of power laundry services at retail and to bobtail sellers for resale at retail. It also permits bobtail sellers (see section 5 Definitions) who purchase power laundry services from power laundries located in the "Area", for resale at retail, to increase their ceiling prices for the resale of such services at retail by 5 percent. This supplementary regulation does not apply to the sale or resale of diaper supply and linen supply services by power laundries or bobtail sellers.

Sec. 2. *Relationship to Ceiling Price Regulation 34.* All provisions of Ceiling Price Regulation 34, as amended, except as affected by the provisions of this supplementary regulation, shall remain in effect.

Sec. 3. *Adjustment of retail ceiling prices.* If you are subject to this supplementary regulation, you may to the extent that you either sell at retail or to a bobtail seller for resale at retail power laundry services supplied by power laundries located in the "Area", or are a seller, located in the "Area", selling dry cleaning services at retail, increase your ceiling prices by 5 percent for power laundry services and dry cleaning services, except diaper supply and linen supply services, by either of the following methods:

(a) You may apply such an adjustment to the total amount of each invoice rendered to the customer, provided you shall clearly write or stamp on each such invoice beside the adjustment the words "OPS permitted price increase". If you use this method of applying your price increase, you need not make the supplementary filing required by section 18 (c) of Ceiling Price Regulation 34.

(b) You may, in lieu of the method provided in paragraph (a) of this section, increase by 5 percent the retail ceiling price of each power laundry and dry cleaning service article, except a diaper supply and linen supply service article. Within ten days after your prices are established under this paragraph you must prepare and file with your district office of the Office of Price Stabilization a supplemental statement as required under section 18, as amended, of Ceiling Price Regulation 34 and must change your OPS poster prices or prepare and display a new poster to reflect the price increase permitted by this supplementary regulation. You may not establish prices under paragraph (a) of this section once you have elected to establish prices under this paragraph.

(c) If the price increase computed in paragraphs (a) or (b) of this section results in a fraction of a cent, the price increase must be decreased to the next lower cent if the fractional cent is less than one-half cent, or may be increased to the next higher cent if the fraction is one-half cent or more.

Sec. 4. *Application of section 20 of Ceiling Price Regulation 34.* No seller subject to this supplementary regulation may, after the effective date of this supplementary regulation, apply for an adjustment of any of his retail ceiling prices for power laundry services and dry cleaning services except diaper supply and linen supply services under section 20 of Ceiling Price Regulation 34, as amended. All orders establishing retail ceiling prices for any seller of power laundry services and dry cleaning services, except diaper supply services and linen supply services, subject to this supplementary regulation issued under either section 20 (a), (b) or (c) of Ceiling Price Regulation 34 are hereby revoked, upon the effective date of this regulation.

Sec. 5. *Definitions.* (a) (1) "Power Laundry" or "power laundries" as used in this regulation are laundries which in the laundry trade are customarily known and designed as such, and do not include hand laundries, launderettes or laundries using home-type laundry equipment to supply laundry services.

(a) "Bobtail sellers" as used in this regulation means a separate class of purchaser of power laundry services, consisting of independent routemen or establishments not employed or owned by a power laundry, which purchases such power laundry services from a power laundry at a discount and resells these services to its own customers at the same prices that the power laundry itself would have charged the same class of purchaser for the same services. Bobtail sellers do not ordinarily engage in processing operations.

(3) "Dry cleaning services" as used in this regulation means services rendered in the cleaning of garments and other items primarily with fluids other than water and shall include pressing.

(4) "Retail" refers to the sale of dry cleaning services or laundry services directly to the ultimate consumers, except commercial, industrial, institutional or governmental users.

(5) "The Greater Portland Oregon Trading Area" as used in this regulation means the area comprising all of Multnomah County and the cities of Oregon City, West Linn, Gladsyone, Oswego and Milwaukee in Clackamas County, in the State of Oregon; and the cities of Vancouver, McLoughlin, Camas, and Washougal in the County of Clark in the State of Washington.

(6) "Area" as used in this regulation means "The Greater Portland Oregon Trading Area".

Effective date. This supplementary regulation is effective December 24, 1952.

Note. The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Ceiling Price Regulation 60, Supplementary Regulation 1]

CPR 60—Castings

SR 1—Adjustment in Ceiling Prices for Manufacturers of Malleable Iron Castings

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 1 to Ceiling Price Regulation 60 is hereby issued.

Statement of Considerations

This supplementary regulation authorizes an increase of 6.2 percent in the manufacturer's ceiling prices of malleable iron castings.

At the request of representatives of the malleable iron castings industry, the Office of Price Stabilization has completed a survey to determine whether the ceiling prices established for malleable iron castings by Ceiling Price Regulation (CPR) 60 are generally fair and equitable. In accordance with the requirements of the Industry Earnings Standard, as revised, earnings data were obtained from representative firms in the industry for the years 1946 through 1949 and for 1951. The price adjustment provided for by this amendment is based upon a comparison of aggregate earnings to consolidated net worth for the companies involved in the best three out of four years during the 1946 to 1949 period, with the aggregate earnings to consolidated net worth for a recent representative period. A comparison of the data referred to above indicates that the industry's earnings, until recently, were adequate under the Standard. Because of the impact of various cost increases, particularly the increased wage contracts which the industry has recently put into effect (but not including metal cost increases resulting from the higher iron and steel prices granted basic producers of carbon iron and steel products in August of this year), the industry's earnings have decreased materially. An increase of 6.2 percent in ceiling prices is now required to restore them to the Industry Earnings Standard level (85 percent of the industry's average base period earnings, before income and excess profits taxes, adjusted for changes in net worth) and to provide for generally fair and equitable ceiling prices for this industry. Accordingly, this amendment permits manufacturers of malleable iron castings to increase their ceiling prices by 6.2 percent. To the ceiling prices thus adjusted, sellers may add the metal cost increases permitted under General Overriding Regulation 35.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and full consideration has been given to their recommendations.

In the opinion of the Director of Price Stabilization, the provisions of this regulation are generally fair and equitable, comply with all applicable provisions of the Defense Production Act of 1950, as amended, and are necessary to effectuate the purposes of that act.

CPR 68—PRODUCERS OF BRASS MILL PRODUCTS

INCREASE IN THE CEILING PRICE OF CERTAIN BRASS MILL PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Ceiling Price Regulation 68 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Ceiling Price Regulation 68 increases the ceiling prices of copper and copper base alloy seamless tubes having an outside diameter of 1 inch or less and a wall thickness of 0.114 inches or less, excluding copper water tubes, copper oil burner tubes, and brass and copper pipe and condenser tubes.

When imported copper was exempted from price control the directive issued by the Office of Defense Mobilization on May 21, 1952, provided that "* * * the United States Government is acting through the Office of Price Stabilization to permit brass mills and copper wire mills to add to their ceiling prices an amount representing 80 percent of any increase in cost of foreign copper above the 27½ cent level contained in the Chilean agreement which has just been terminated."

The tubes covered by this amendment are mainly produced by redraw mills who purchase semifinished products from brass mills and produce a finished product the ceiling price of which is established under this regulation. The remaining production of these products is accomplished by brass mills using copper scrap as one of the raw materials in the production process. Amendment 1 to Ceiling Price Regulation 68 increased the ceiling prices of brass mill products by 3.84 cents per pound in accordance with the directive of the Office of Defense Mobilization. In the production of these tubes, however, the scrap loss is 25 percent of the weight of the finished product. The brass mills reuse the generated scrap in the further production of their products. The redraw mills, however, must sell their scrap and thus lose 25 percent of the increased cost of 3.84 cents per pound or 0.96 cent per pound.

It is therefore apparent that to conform to the directive of the Office of Defense Mobilization, the producers of these products should receive an adjustment of approximately 1 cent per pound to compensate for this increased cost. It has also been determined that the most feasible method of making this adjustment would be to increase the percentages, except quantity extras, applicable to the published extras of these products by five percentage points. Since the average extra is about 20 cents per pound, this results in an increase of about 1 cent per pound, thus equalling the amount of the uncompensated increased cost of the metal contained in the products covered by this amendment.

For example, at present, the published extra for ⅜-inch O. D. x 0.022-inch seamless tube is 20 cents per pound. The percentage for a copper tube applicable to this extra is a plus 20 percent or 4 cents per pound thus making a total extra, exclusive of quantity extras, of 24 cents per pound. This amendment increases the percentage applicable to the published extras by five percentage points, increasing the percentage in this case from 20 to 25 percent. Thus, the extra will now be 20 cents per pound plus 25 percent of this amount or 5 cents per pound, making a total extra of 25 cents per pound.

In formulating this amendment, the Director of Price Stabilization has consulted with industry representatives, including trade association representatives, to the extent practicable, and has given consideration to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 68 is amended by adding a section 3 (f) to read as follows:

(f) *Adjustment in certain extras.* You may increase the percentages, except quantity extras, as determined under this section, applicable to the extras for all copper and copper base alloy seamless tubes, having an outside diameter of 1 inch or less and a wall thickness of 0.114 inch or less, except copper water tubes, copper oil burner tubes, and brass and copper pipe and condenser tubes, by adding five percentage points to these percentages.

CPR 97—CEILING PRICE FOR PACIFIC NORTHWEST LOGS

EIGHT FOOT SAWLOGS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 10 to Ceiling Price Regulation 97 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to CPR 97 establishes a dollars and cents ceiling price for second growth Douglas Fir eight foot sawlogs sold by the standard cord. Although this item is in rather limited production, it is important to stud mills which produce their entire cut in eight foot lumber and have their sawmilling equipment designed especially for handling this length log.

It is customary to market these logs at a per cord price delivered to the buyer's sawmill. Failure of CPR 97 to establish a specific ceiling price for this type of log was an inadvertence.

The per cord price herein established is based directly on the lumber footage recoverable from a standard cord in relation to the ceiling prices already established by the regulation for like material on a one thousand foot basis Revised Scribner Decimal C Log scale. This amendment, therefore, effects no change in the level of ceiling prices established by the regulation.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 97 is amended by the addition of a new section 21, which reads as follows:

SEC. 21. *Eight foot sawlogs.* Notwithstanding any other provision of this regulation, the ceiling price for second growth Douglas Fir eight foot sawlogs, sold by the cord and delivered to the buyer's mill, shall be $17.50 per standard cord of 128 cubic feet. In the event that delivery is made to a place other than the buyer's mill, the ceiling price shall be reduced by an amount equal to the actual cost of transportation from the place of actual delivery to the buyer's mill.

Effective date. This Amendment 10 to Ceiling Price Regulation 97 shall become effective December 24, 1952.

[Ceiling Price Regulation 97, Amendment 11]

CPR 97—CEILING PRICES FOR PACIFIC NORTHWEST LOGS

ADDITION OF ACCREDITED SCALERS AND GRADERS

Pursuant to the Defense Production Act of 1950, as amended (Pub. Law 774, 81st Cong., Pub. Law 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), Economic Stabilization Agency General Order No. 2 (16 F. R. 738), Delegation of Authority No. 30 (16 F. R. 11752), this Amendment 11 to Ceiling Price Regulation 97 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Ceiling Price Regulation No. 97 carries out the intention expressed in section 19 by adding to Appendix A a log scaling and grading bureau, certain employees thereof, and employees of previously accredited log scaling and grading bureaus who have been found qualified by the Regional Director of Region 13 to scale and grade logs subject to the regulation.

The persons accredited by this amendment have submitted the information and statements required under section 19. The Regional Director of Region 13 has requested the appropriate log scaling and grading bureaus named in this section to examine into the qualifications of each applicant. The Regional Director has evaluated whatever findings were made by the appropriate bureau, has considered whatever other information has been brought to his attention, and is of the opinion that each applicant is qualified for listing as an accredited scaler and grader.

This amendment also deletes from subparagraph (3) of paragraph (b) two accredited employees and adds them to subparagraph (4) of paragraph (b); deletes from subparagraph (3) of paragraph (b) one accredited employee and adds him to subparagraph (11) of paragraph (b); deletes from subparagraph (3) of paragraph (b) three accredited employees and adds them to subparagraph (14) of paragraph (b); deletes from subparagraph (4) of paragraph (b) one accredited employee who is no longer scaling and grading logs; deletes from subparagraph (5) of paragraph (b) two accredited employees who are no longer scaling and grading logs.

In the formulation of this amendment, there has been consultation with industry representatives, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 97 is hereby amended in the following respects:

1. Paragraph (a) of Appendix A is amended by inserting the name "Mendocino County Log Scaling and Grading Bureau" immediately after the name "Lamb Log Scaling and Grading Bureau."

2. Paragraph (b) of Appendix A is amended by adding a subparagraph which reads as follows:

14. Mendocino County Log Scaling and Grading Bureau employees: Miller, Fred; O'Rourke, Arthur E.; Ridgeway, H. W.

3. Subparagraph (3) of paragraph (b) of Appendix A is amended by inserting the name "Mays, Theodore" and the name "Morgan, Elry Leroy", in that order, immediately after the name "Marlin, Frank."

4. Subparagraph (3) of paragraph (b) of Appendix A is amended by deleting the names "Beerhle, Clarence Louis," "Hayes, R. M.", "Hayes, Roy A.", "Miller, Fred" and "Ridgeway, H. W."

5. Subparagraph (4) of paragraph (b) of Appendix A is amended by inserting the name "Gallagher, Stanley M." immediately after the name "Gallagher, M. A."; inserting the name "Hayes, R. M." and the name "Hayes, Roy A.", in that order, immediately after the name "Hayes, Robert J."; inserting the name "Weisse, Carl P." immediately after the name "Voligny, George."

6. Subparagraph (4) of paragraph (b) of Appendix A is amended by deleting the name "McCullough, John L."

7. Subparagraph (5) of paragraph (b) of Appendix A is amended by inserting the name "Cooper, George W." immediately after the name "Blomgren, George V."

8. Subparagraph (5) of paragraph (b) of Appendix A is amended by deleting the names "Crawford, Elmer B." and "Petty, Norman."

9. Subparagraph (6) of paragraph (b) of Appendix A is amended by inserting the name "Orr, Norman" immediately after the name "Gavette, Thomas G."

10. Subparagraph (7) of paragraph (b) of Appendix A is amended by adding the name "Buckner, Grant C."; inserting the name "Sneed, Eugene L." immediately after the name "Hartman, Richard F."

11. Subparagraph (11) of paragraph (b) of Appendix A is amended by adding the name "Beerhle, Clarence Louis"; inserting the name "Montgomery, Charles Merle" immediately after the name "Huston, Leo M."

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 10 to Ceiling Price Regulation 97 is effective December 19, 1952.

GCPR, SR 100—ADJUSTMENTS FOR IRON AND STEEL PRODUCTS

DEFINITION OF ALLOY STEEL

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 4 to Revision 1, Supplementary Regulation 100 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

The purpose of this amendment to Revision 1, Supplementary Regulation (SR) 100 to the General Ceiling Price Regulation (GCPR) is to clarify the meaning of the term "alloy steel" as used in that regulation.

It has come to the attention of the Office of Price Stabilization that a number of producers of alloys containing small percentages of steel have assumed that they are entitled to the increases in the ceiling prices of alloy steel mill products provided by Revision 1 of SR 100 to the GCPR. At least since the publication of a definition of "alloy steel" in Order No. M-1 of the National Production Authority, issued February 1, 1952, if not before that date, the Office of Price Stabilization and the industry generally have regarded as alloy steel only that steel which meets that definition. Similarly, the directive of the Office of Defense Mobilization of July 24, 1952, which required OPS to grant an increase in the ceiling price of alloy steel had reference to alloy steel as defined in Order No. M-1. This amendment, which incorporates that definition in Revision 1 of SR 100 to the GCPR, merely formalizes administrative and industry understanding. Producers of alloys not meeting the standards contained in this definition are, of course, not entitled to the ceiling price increases for alloy steel mill products provided in Revision 1, SR 100 to the GCPR.

In view of the clarifying nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable and unnecessary.

AMENDATORY PROVISIONS

Section 8 *Definitions* of Revision 1 of Supplementary Regulation 100 to the General Ceiling Price Regulation is amended by adding thereto a new paragraph reading as follows:

(c) "Alloy steel" means steel containing 50 percent or more of iron or steel and any one or more of the following elements in the following amounts: Manganese, maximum of range in excess of 1.65 percent; silicon, maximum of range in excess of 0.60 percent (excepting electrical sheet and strip); copper, maximum of range in excess of 0.60 percent; aluminum, boron, chromium, cobalt, columbium, molybdenum, nickel, tantalum, titanium, tungsten, vanadium, zirconium, or any other alloying elements in any amount specified or known to have been added to obtain a desired al-

GOR 14—EXCEPTED AND SUSPENDED SERVICES

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to General Overriding Regulation 14 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 14 extends the list of exemptions contained in that regulation to include the rates, fees, and charges for services furnished by horseshoers and trade embalmers; to include royalties paid to landowners or their assignees in connection with the mining of iron ore; and to suspend from price control, until further notice, the rates, fees, and charges for bottling bulk wines and whiskeys.

Prices charged for horseshoeing services are exempted because they have only an insignificant effect upon the cost of living and the administrative burden attendant upon the control outweighs its benefit to the price stabilization program.

Prices for the services of trade embalmers are exempted because their control involves administrative difficulties for OPS, and for funeral directors, which, since prices for funeral services remain under control, and such an exemption will, therefore, not result in increased charges to the public, outweigh the advantages of control. Trade embalmers are independent contractors who supply embalming services to funeral directors, but payment for their services generally approximate wages paid to employee-embalmers. When trade embalmers and employee-embalmers belong to the same union, the union generally suggests an increase in the prices paid to trade embalmers commensurate with the increase in wages obtained by employee-embalmers. Any such increase, however, now requires OPS authorization. There are only about 200 trade embalmers in the United States; most are small service sellers; and their average income is about $5,000 per year.

A large proportion of all iron ore produced in the United States is mined from lands owned in fee simple by the companies that mine the ore from them, or by companies affiliated with the mining companies, or by the States in which the lands are located.

When the mining company itself owns the land on which it operates, no royalties, of course, are paid. When a company affiliated with the mining company owns the land on which the mining company operates, royalties paid are substantially similar to transfers between different divisions or units of the same corporation, and any increase in the amount of such royalty transfers would not affect the level of royalty prices, or the ceiling prices for iron ore, or for the iron and steel products made from iron ore. Such royalties should, therefore, be exempt from price stabilization.

In the Defense Production Act Amendment of 1952 extending the Defense Production Act of 1950, Congress specifically exempted from price control the rates, fees, and charges for materials or services supplied directly by the States or their agencies, and pursuant to this Amendment, General Overriding Regulation 11, Revision 2, exempts such materials and services. Royalties paid to any State or its agencies, in connection with iron ore produced from lands it owns, are not now, therefore, subject to price control.

Since so large a proportion of the iron ore mined is produced, without payment of royalties, from lands owned by the mining companies; or the royalties therefor are now exempt under General Overriding Regulation 11, Revision 2; or should be exempted as transactions between affiliated companies, the burden of administering price controls over the remainder of such royalties, in view of the diversity and complexity of the royalty arrangements, outweighs the advantages to be derived from such control. All royalties paid in connection with the mining of iron ore are, therefore, exempted by this amendment. This action will not affect the prices for iron ore sold by the producers or the prices for iron and steel products made from iron ore.

General Overriding Regulation 7, Revision 1, as amended, suspends until further notice, the application of all ceiling price regulations, heretofore or hereafter issued, to sellers of wines and whiskeys, both bulk and packaged, for off-premises consumption. The reason for this action is that the prices for these commodities are substantially below ceilings and are not expected to rise above ceilings in the forseeable future. One of the reasons for the reduced price to the consumer is the large amounts of bulk wines and whiskeys being sold by wineries and distilleries to distributors who have it bottled under their own brand names for distribution through their own outlets. Competition among small distillers and wineries for this kind of business is so keen that there is little or no likelihood a suspension of the application of ceiling price regulations to the services of bottling bulk wines and whiskeys will result in an increased price for such services. The same considerations do not extend to the bottling of other distilled spirits.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are proper in the administration of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended, is further amended in the following respects:

1. Paragraph (a) of section 3 is amended by adding at the end thereof the following:

(128) Horseshoers.
(129) Trade Embalmers.

2. A new paragraph (b) is added to section 3 to read as follows:

(b) No ceiling price regulation now or hereafter issued by the Office of Price Stabilization shall apply to royalties paid to a landowner, or his assignee or subassignee, in connection with the mining of iron ore, or to the price paid for any assignment of such royalties, regardless of whether such royalties are considered as payment for iron ore as a commodity or as payment for the privilege of mining and removing iron ore.

3. Paragraph (b) of section 4 is amended by adding at the end thereof the following:

(5) Bottling of bulk wines and whiskeys.

[General Overriding Regulation 27, Amdt. 3]

GOR 27—APPROVAL OF PRICES IN LONG TERM CONTRACTS FOR SALES OF CERTAIN COMMODITIES

EXTENSION OF COVERAGE TO CHEMICALS IN GENERAL AND OTHER MISCELLANEOUS CHANGES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 3 to General Overriding Regulation 27 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 27 extends the coverage of the regulation to all chemicals. GOR 27 permits a seller under a long-term contract made prior to price control to apply for permission to put into effect the pricing provisions of the contract in lieu of his present ceiling prices. Prior to this amendment, the regulation specified the particular chemicals covered thereunder. This amendment also provides that the adjustment in ceiling prices must be based on changes in costs which are authorized under the terms of the contract and incurred by the seller in fulfillment of the contract and permits ceiling price adjustment on the basis of a successor long-term contract which contains terms as favorable to the purchaser as those contained in the long-term contract which was replaced.

General Overriding Regulation 27 as originally issued was limited to certain specified chemicals. At the time of its issuance, the problems applicable to these chemicals and to the long-term contracts affecting them were known to the Director of Price Stabilization and he was able to tailor the regulatory action to fit the particular situations of which he was then aware. It was not considered prudent, with the limited number of contracts and information originally available, to extend the coverage of the regulation generally to all chemicals.

Subsequent to the issuance of GOR 27 long-term contracts and information pertaining to their operation were presented involving rare earth fluoride and rare earth oxide which indicated that the same consideration which motivated the issuance of GOR 27 and its application to certain chemicals also applied to these other chemicals. Accordingly, GOR 27 was amended to extend its coverage to rare earth fluoride and rare earth oxide. Since then other situations involving long-term contracts pertaining to other chemicals have come to the attention of the Director which appear to merit the same consideration and treatment. It is now believed to be appropriate, on the basis of the experience gained since the original issuance of GOR 27, to extend the coverage of this regulation to all chemicals. This conclusion is motivated also by the safeguards contained in GOR 27. These safeguards greatly limit the impact on the price level of the commodities covered by the regulation. The regulation provides, for example, that the ceiling price as adjusted thereunder may not be higher than the general level of ceiling prices for the commodity and also that the ceiling price adjustment authorized under the regulation may not be made a basis for subsequent increases in the ceiling price for either that commodity or any other commodity. Furthermore, under GOR 27 the Director must be satisfied that any ceiling price adjustment authorized will not have an adverse effect on the stabilization program.

The extension of the coverage of the regulation to all chemicals will eliminate the administrative burdens and delay involved in amending the regulation each time long-term contracts for a particular chemical are brought to the attention of the Director which merit the same treatment as that accorded other chemicals specifically included in the regulation.

The long-term contracts which the Director has had occasion to consider and on the basis of which GOR 27 was issued and now extended to cover chemicals in general all contain provisions authorizing the seller to adjust his selling price to offset changes in his costs. Although it was not so specifically stated, it was contemplated that GOR 27 would be applicable only to such types of long-term contracts. In order to make this intention explicit, this amendment makes clear that an application for permission to put the pricing provisions of a long-term contract into effect must be based on changes in costs incurred by the seller in the production and distribution of the particular commodity involved measured either directly by the actual changes in costs incurred by the seller or indirectly on the basis of recognized and reliable cost indexes showing costs changes which can provide a reasonable basis for the assumption that they are being incurred by the seller in the execution of the contract.

Under GOR 27 prior to this amendment only long-term contracts entered into prior to January 26, 1951, and which are still in effect may be considered for approval of their pricing provisions. This amendment extends the provisions of GOR 27 to a successor contract of a long-term contract entered into prior to January 26, 1951, provided that the successor contract contains no less favorable terms to the purchaser than those contained in the replaced contract.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

So far as practicable the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant factors of general applicability.

In the judgment of the Director of Price Stabilization, the provisions of this amendment to General Overriding Regulation 27 are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

General Overriding Regulation 27, as amended, is further amended in the following respects:

1. Section 1 is amended to read as follows:

SECTION 1. *What this regulation does.* This regulation permits a seller who entered into a written long term contract for the sale of a commodity listed in section 2 of this regulation to apply for permission to put into effect the pricing provisions of that contract in the place of his present ceiling prices, notwithstanding the provisions of any other regulation, to the extent that the pricing provisions of such contract permit increases or decreases in the price of the commodity on the basis of changes in costs incurred by the seller in performance of the contract. A long term contract is one obligating the seller to make deliveries of a commodity for a period of more than one year which was entered into prior to January 26, 1951, or is one which is a successor to such long term contract between the parties with terms no less favorable to the purchaser than the original contract.

2. Section 2 is amended in the following respects:

(a) Paragraphs (a) through (f) are revoked and a new paragraph (a) is substituted to read as follows:

(a) *Chemicals.* The term "chemicals" means a substance obtained by a chemical process or used for producing a chemical effect including, but not limited to, basic materials such as acids, alkalies, salts, and organic chemicals; products to be used in further manufacture such as plastics materials, adhesives, dry colors, dyes and pigments; and products to be used as materials or supplies in other industries such as fertilizers, pesticides, and explosives. The term also includes chemical specialties. Not included are paints, varnishes, lacquers, animal and vegetable oils, and finished products to be used for ultimate consumption such as drugs, cosmetics and soaps.

(b) Paragraph (g) is redesignated as paragraph (b).

3. Section 3 (a) is amended to read as follows:

(a) *Seller's application.* Your application as a seller of a commodity listed in section 2 for permission to put into effect the pricing provisions of your long term contract in place of your existing ceiling prices must be filed with the Office of Price Stabilization, Washington 25, D. C. The application must contain the following information:

(1) Your name and address.
(2) Your buyer's name and address.
(3) A statement that you are applying under this regulation.
(4) Name and description of the commodity involved.
(5) A statement that your contract was entered into prior to January 26, 1951, or is a successor long term contract to a long term contract entered into prior to such date. If your contract is a successor contract to one entered into prior to January 26, 1951, you must include an explanation that its pricing terms are no less favorable to the purchaser than those of the replaced contract.
(6) A statement of the period during which you are obligated under the contract or successor contract to make deliveries of the commodities.
(7) The prevailing ceiling prices for the commodity involved, and names and addresses of commodity manufacturers whose ceiling prices are cited.

(8) An explanation that the pricing provisions of your long term contract provide for adjustments in your prices to the purchaser which are based on changes in costs incurred by you in performance of the contract. Such pricing provisions may be based on cost changes evidenced by generally recognized price or wage indexes, where the Director finds that the cost changes reflected by such indexes may reasonably be deemed to reflect the cost changes incurred by you in performance of the contract.

In addition to the foregoing, your application must be accompanied by a copy of your contract entered into prior to January 26, 1951, as well as a copy of the successor contract, if any.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective December 24, 1952.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Director of Price Stabilization.

GOR 27—APPROVAL OF PRICES IN LONG TERM CONTRACTS FOR SALES OF CERTAIN COMMODITIES

SELLERS OF GLASS MAKERS' SAND

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment 4 to General Overriding Regulation 27 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds glass makers' sand to the commodities covered by General Overriding Regulation 27 (GOR 27). GOR 27 permits a seller to sell the commodities specified therein in accordance with a long-term contract made prior to price control upon his filing of an application requesting permission to put into effect the pricing provisions of the contract in lieu of his present ceiling prices. The statement of considerations accompanying the issuance of GOR 27 pointed out that the regulation is limited solely to situations where sellers entered into long-term contracts covering the specific commodities described in the regulation in good faith prior to price control and then found themselves unable, because of price control, to put into effect certain pricing provisions of the contract.

The Director of Price Stabilization has found a similar situation affecting sales of glass makers' sand to glass manufacturers, in which the same considerations are present. Therefore the scope of GOR 27 is extended to include glass makers' sand sold to a manufacturer of glass and glass products.

In view of the nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

General Overriding Regulation 27, as amended, is further amended in the following respect:

1. Section 2 is amended by adding the following:

(c) Glass makers' sand sold to a manufacturer of glass and glass products.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 17th day of December 1952.

JAMES McI. HENDERSON,
Director of Rent Stabilization.

1. Item 79 is added to Schedule B of Rent Regulation 1—Housing, reading as follows:

79. *Provisions relating to Erie County, Ohio, a portion of the Erie County-Oak Harbor Defense-Rental Area (Item 238 of Schedule A):*

With respect to housing accommodations in Erie County, Ohio, section 141 of this regulation is changed to read as follows:

SEC. 141. *Alternate adjustment for increases in costs and prices.* (a) The housing accommodation had a maximum rent in effect on December 14, 1952, and the present maximum rent for the housing accommodation does not equal (1) 130 percent of the maximum rent in effect on June 30, 1947, or 130 percent of the maximum rent for comparable housing accommodations on June 30, 1947, if no maximum rent was in effect on that date; (2) plus or minus any increases or decreases in maximum rent ordered after June 30, 1947, under this regulation for major capital improvements or increases or decreases in living space, services, furniture, furnishings or equipment or substantial deterioration. The adjustment under this section 141 (a) shall be in an amount sufficient to cause the maximum rent to equal (1) 130 percent of the maximum rent in effect on June 30, 1947, for the housing accommodations or comparable housing accommodations, whichever is applicable; (2) plus or minus appropriate increases or decreases in rental value, if any, as specified herein: *Provided, however,* That the Director shall give appropriate consideration to orders issued under section 157 or 162 decreasing rents which were in effect on June 30, 1947. Adjustments under this section 141 (a) shall be effective automatically upon the filing of the petition if a maximum rent was in effect on June 30, 1947. In all other cases, they shall not be effective until the order is issued by the Director.

(b) The housing accommodation had a maximum rent in effect on June 30, 1947, and did not have a maximum rent in effect on December 14, 1952, and the present maximum rent does not equal (1) 130 percent of the maximum rent in effect on June 30, 1947, (2) plus any increase in rental value because of a major capital improvement or an increase in services, furniture, furnishings, or equipment which occurred after June 30, 1947, (3) minus any decrease in rental value because of any decrease in services, furniture, furnishings, or equipment required by the rent regulations on June 30, 1947, or because of a substantial deterioration. The adjustment under this section 141 (b) shall be in an amount sufficient to cause the maximum rent to equal (1) 130 percent of the maximum rent in effect on June 30, 1947, (2) plus or minus appropriate increases or decreases in rental value, if any, heretofore specified. All provisions of this regulation insofar as they are applicable to Erie County, Ohio, are amended to the extent necessary to carry into effect the provisions of this item of Schedule B.

2. Item 85 is added to Schedule B of Rent Regulation 2—Rooms, reading as follows:

85. *Provisions relating to Erie County, Ohio, a portion of the Erie County-Oak Harbor Defense-Rental Area (Item 238 of Schedule A):*

With respect to housing accommodations in Erie County, Ohio, section 138 is added to read as follows:

SEC. 138. *Alternate adjustment for increases in costs and prices.* The room had a maximum rent in effect on December 14, 1952, and the present maximum rent for the room does not equal (1) 130 percent of the maximum rent in effect on June 30, 1947, or 130 percent of the maximum rent for comparable rooms on June 30, 1947, if no maximum rent was in effect on that date; (2) plus or minus any increases or decreases in maximum rent ordered after June 30, 1947, under this regulation for major capital improvements or increases or decreases in living space, services, furniture, furnishings or equipment or substantial deterioration. The adjustment under this section shall be in an amount sufficient to cause the maximum rent to equal (1) 130 percent of the maximum rent in effect on June 30, 1947, for the housing accommodations or comparable housing accommodations, whichever is applicable; (2) plus or minus appropriate increases or decreases in rental value, if any, as specified herein: *Provided, however,* That the Director shall give appropriate consideration to orders issued under section 157 or 160 decreasing maximum rents which were in effect on June 30, 1947. Adjustments under this section shall be effective automatically upon the filing of the petition if a maximum rent was in effect on June 30, 1947. In all other cases, they shall not be effective until the order is issued by the Director. All provisions of this regulation insofar as they are applicable to Erie County, Ohio are amended to the extent necessary to carry into effect the provisions of this item of Schedule B.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

1. The Commission has before it for consideration the assignment of VHF Channel 13 to Macon, Georgia, pursuant to the Table of Assignments contained in § 3.606 of its rules and regulations.

2. It has come to the Commission's attention that the assignment of Channel 13 in Macon, Georgia, does not meet the 190 mile minimum co-channel assignment spacing prescribed by § 3.610 of the rules for Zone II. Channel 13 in Macon is only 189.2 miles from the transmitter site of co-channel Station WAFM-TV operating in Birmingham, Alabama. Therefore, Channel 13 must be deleted from the assignments to Macon.

3. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r) and 307 (b) of the Communications Act of 1934, as amended.

4. Channel 13 was assigned to Macon on the basis of an erroneous mileage computation. The facts concerning the mileage separation are uncontroverted. The Commission finds, therefore, that notice of rule making in this instance would be impracticable and unnecessary.

5. In light of the foregoing: *It is ordered*, That, effective 30 days after publication in the FEDERAL REGISTER, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended to delete Channel 13 from the assignments to Macon, Georgia.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 48 Stat. 1081, 1082, as amended; 47 U. S. C. 301, 303)

Adopted: December 10, 1952.

Released: December 11, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[Docket No. 10331]

PART 3—RADIO BROADCAST SERVICES

TELEVISION BROADCAST STATION; TABLE OF ASSIGNMENTS

In the matter of amendment of § 3.606, *Table of Assignments*, rules governing Television Broadcast Stations; Docket No. 10331.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of December 1952;

The Commission having under consideration its notice of proposed rule making issued October 24, 1952 (FCC 52-1361), and published in the FEDERAL REGISTER on November 1, 1952 (17 F. R. 9900), proposing to assign UHF Channel 52 to Princeton, Indiana, a community which is not listed in the Table of Assignments and is not within 15 miles of a community so listed;

It appearing, that in accordance with the provisions of paragraph 5 of the aforesaid notice of proposed rule making, the time for filing comments therein expired December 2, 1952; and

It further appearing, that no comments opposing the proposed amendment were filed;

It is ordered, That, effective 30 days from the publication in the FEDERAL REGISTER, the table of assignments contained in § 3.606 of the Commission's rules and regulations is amended to assign UHF Channel 52+ to Princeton, Indiana; and the table of assignments is revised as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 301, 303, 48 Stat. 1081, 1082, as amended; 47 U. S. C. 301, 303)

Released: December 11, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

PART 8—STATION ON SHIPBOARD IN THE MARITIME SERVICE

LIFEBOAT RADIO EQUIPMENT

Correction

In F. R. Doc. 52-13111, appearing at page 11235 of the issue for Friday, December 12, 1952, the following change should be made:

In the second column of the table under § 8.557 (b) (1), the frequency tolerance percentage ".2" should read ".02".

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter B—Hunting and Possession of Wildlife

PART 10—IMPORTATION OF WILD BIRD FEATHERS

Basis and purpose. The act of July 17, 1952, amended paragraph 1518 of the Tariff Act of 1930 (19 U. S. C., sec. 1001, par. 1518), so as to effect certain changes in the provisions thereof which prohibit the importation of the feathers of wild birds. Section 1 of the act amended paragraph 1518 by inserting "(a)" after "1518." and by striking out the two provisions at the end of the first subparagraph and all of the second subparagraph, and by inserting in lieu thereof new subparagraphs (b) to (f), inclusive.

Subparagraph (b) prohibits the importation of the feathers or skin of any bird except as provided in subparagraph (c) and (d). Subparagraph (c) provides that the prohibition against importation shall not apply in certain designated circumstances which are not material for the purposes of these regulations. Subparagraph (d) provides that there may be entered, or withdrawn from warehouse, for consumption in each calendar year the following quotas of skins bearing feathers:

(1) For use in the manufacture of artificial flies used for fishing: (A) Not more than 5,000 skins of grey jungle fowl (Gallus sonneratii), and (B) not more than 1,000 skins of mandarin duck (Dendronessa galericulata); and

(2) For use in the manufacture of artificial flies used for fishing, or for millinery purposes, not more than 45,000 skins, in the aggregate, of the following species of pheasant: Lady Amherst pheasant (Chrysolophus amherstiae), golden pheasant (Chrysolophus pictus), silver pheasant (Lophura nycthemera), Reeves pheasant (Syrmaticus reevesii), blue-eared pheasant (Crossoptilon auritum), and brown-eared pheasant (Crossoptilon mantchuricum).

Although the act of July 17, 1952, did not become effective until midnight, August 16, 1952, under the terms of section 4 of the act, the full amount of the import quotas set out above are available for allocation for the year 1952.

Subparagraph (e) provides that no article specified in subparagraph (d) shall be entered, or withdrawn from

warehouse, for consumption except under a permit issued by the Secretary of the Interior. The said subparagraph (e) further provides that the Secretary of the Interior shall prescribe such regulations as may be necessary to carry out the purposes and provisions of subparagraph (d), including regulations providing for equitable allocation among qualified applicants of the import quotas established by such subparagraph.

By Notice of Proposed Rule Making published in the FEDERAL REGISTER on August 14, 1952 (17 F. R. 7397), the public was invited to participate in the preparation of the regulations required by subparagraph (e) by submitting their views, data, or arguments in writing to Albert M. Day, Director, Fish and Wildlife Service, Washington 25, D. C., on or before September 2, 1952. Careful consideration has been given to the views, data, and arguments received, and it has been determined that the regulations appearing below should be promulgated to govern the issuance of permits for the entry, or withdrawal from warehouse for consumption, of the articles specified in subparagraph (d), and to provide for equitable allocation among qualified applicants of the import quotas established by such subparagraph.

Effective immediately upon publication in the FEDERAL REGISTER the following regulations, constituting a new part and consisting of §§ 10.1 to 10.5, are prescribed to establish quotas for the year 1952 only:

Sec.
10.1 Allocation of quotas.
10.2 Filing date.
10.3 Application.
10.4 Importation permits.
10.5 Compliance with other regulations.

AUTHORITY: §§ 10.1 to 10.5 issued under 46 Stat. 661, as amended; 19 U. S. C. 1001, par. 1518.

§ 10.1 *Allocation of quotas.* (a) Not to exceed eighty percent (80%) of the prescribed quotas shall be allocated among importers, dealers in raw feathers, manufacturers, processors, distributors, and others who submit applications for importation permits within the time allowed in § 10.2. In the event the applications received exceed the quotas to be made available under this paragraph, the quotas shall be distributed equitably among applicants on the basis of their prior business in feathers, to be determined from information to be furnished by each applicant showing the total quantity of feathers of all kinds (exclusive of feathers used in the manufacture of bedding) acquired or disposed of by such applicant during the calendar years 1949, 1950, and 1951.

(b) The remaining twenty percent (20%) of the prescribed quotas shall be allocated equally among all persons who submit applications for importation permits within the time allowed in § 10.2 without regard to their past dealings in feathers. Persons who submit such applications to participate in the quotas established under paragraph (a) of this section shall share equally with all other persons applying under this paragraph.

§ 10.2 *Filing date.* Applications for importation permits shall be postmarked on or before midnight, December 27, 1952. No application made subsequent to that date shall be considered. Each envelope containing an application as provided in § 10.3 shall bear on its face the inscription "Application for Importation Permit."

§ 10.3 *Application.* Application for an importation permit must be made in the form of a letter addressed to the Director, Fish and Wildlife Service, Washington 25, D. C., and shall contain the following information:

(a) Name and address of applicant and nature of feather business, such as an importer, dealer in raw feathers, manufacturer, processor, or distributor.

(b) Port at which entry has been or is to be made.

(c) Quantity of each species of wild bird skin for which an importation permit is desired.

(d) Applicants requesting permits for the skins of grey jungle fowl (Gallus sonneratii) and mandarin duck (Dendronessa galericulata) shall certify in their applications that such skins are to be used only in the manufacture of artificial flies used for fishing.

(e) Applicants desiring to participate in the quota established by § 10.1 (a) must show, separately for each year and the combined total thereof, the quantity and the purpose for which used or proposed to be used, of feathers of all kinds (exclusive of feathers used in the manufacture of bedding) acquired or disposed of by such applicant during the calendar years 1949, 1950, and 1951. For the purposes of this showing, quantities of feathers or bird skins may be listed by weight, individual pieces, or other method of measurement commonly employed in the trade.

§ 10.4 *Importation permits.* As soon as practicable after the closing date for the receipt of applications, the respective quotas of wild bird skins for the year 1952 shall be allocated among the several applicants pursuant to paragraphs (a) and (b) of § 10.1. The quantities of wild bird skins allocated to individual applicants shall be evidenced by importation permits in letter form directed to the respective Collectors of Customs at the Ports of Entry specified by the applicants in their applications. Such permits shall authorize the entry, or withdrawal from warehouse, for consumption of the quantities of wild bird skins allocated to each applicant. A copy of the importation permit shall be furnished each applicant as notice to him of the allocation made in response to his application. Each such importation permit shall be nontransferable, shall be valid for a period of 90 days from date of issue (subject to extension for good cause upon application filed prior to expiration of such 90-day period), and shall be subject to cancellation only if the Secretary of the Interior determines that it has been mistakenly issued, that the applicant therefor has made a material misrepresentation in connection therewith, or that the person in whose behalf it was issued will be unable to bring or import the allowed quota of wild bird skins into the United States during the period specified in the permit or any extension thereof.

§ 10.5 *Compliance with other regulations.* Any importation permitted by the regulations in this part is also subject to any applicable health, quarantine, customs, or other requirements imposed by law or by regulations of duly authorized Federal or State agencies and municipalities.

Issued at Washington, D. C., this 18th day of December 1952.

OSCAR L. CHAPMAN,
Secretary of the Interior.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR Part 29]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

INCLUSION OF CERTAIN ITEMS IN PLANT OR PROPERTY ACCOUNT RATHER THAN BUSINESS EXPENSE ACCOUNT

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority of sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JOHN S. GRAHAM,
Acting Commissioner of Internal Revenue.

In order to conform certain provisions of Regulations 111 (26 CFR Part 29), to acceptable accounting practices with respect to the inclusion of certain items, as a cost of acquisition or production, in either the plant or property account, rather than as a business expense, such regulations are amended as follows:

PARAGRAPH 1. Section 29.22 (a)-5 is amended by striking out the second sentence and inserting in lieu thereof the following: "In determining the gross income, subtractions should not be made for depletion allowances based on discovery value or percentage of income, selling expenses, or losses, or for other items not ordinarily used in computing cost of goods sold."

PAR. 2. Section 29.23 (a)-1 is amended by inserting after the seventh sentence, which names certain items included in business expenses, the following sentence: "No such item shall be included in business expenses, however, to the extent that it is used in computing the cost of property included by the taxpayer either in its inventory or in its plant or property account."

PAR. 3. Section 29.23 (a)-4 is amended by striking out the first sentence and inserting in lieu thereof the following:

§ 29.23 (a)-4 *Repairs.* The cost of incidental repairs which neither materially add to the value of the property nor appreciably prolong its life, but keep it in an ordinarily efficient operating condition, may be deducted as expense, provided the cost of acquisition or production for the year or the plant or property account, as the case may be, is not increased by the amount of such expenditures. • • •

PAR. 4. Section 29.23 (c)-2, as amended by Treasury Decision 5371, approved May 11, 1944, is further amended by striking out the second sentence and inserting in lieu thereof the following: "The fact that any such tax is not deductible as a tax under section 23 (c) for a taxable year beginning after December 31, 1943, does not prevent (a) a deduction therefor under section 23 (a) provided it represents an ordinary and necessary expense paid or incurred during the taxable year by a corporation or an individual in carrying on any trade or business, or, in the case of an individual, for the production or collection of income, or for the management, conservation, or maintenance of property held for the production of income, or (b) the inclusion of such tax paid or incurred during the taxable year by a corporation or an individual as a part of the cost of acquisition or production in the trade or business, or, in the case of an individual, as a part of the cost of property held for the production of income with respect to which such tax is paid or incurred."

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth below in tentative form are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of thirty days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62, 112 (f), 112 (n), and 3791 of the Internal Revenue Code (53 Stat. 32, 65 Stat. 494, 733, and 53 Stat. 467; 26 U. S. C. 62, 112 (f), 112 (n), and 3791).

[SEAL] JOHN S. GRAHAM,
Acting Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) to section 318 (relating to gain from sale or exchange of taxpayer's residence) of the Revenue Act of 1951, approved October 20, 1951, to Public Law 251, 82d Congress (relating to involuntary conversions), approved October 31, 1951, and to Public Law 567, 82d Congress (relating to gain from sale or exchange of residence of member of armed forces), approved July 16, 1952, such regulations are hereby amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.112 (f)-1 the following:

SEC. 318. GAIN FROM SALE OR EXCHANGE OF TAXPAYER'S RESIDENCE (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

• • • • • •

(b) *Technical amendments.* (1) Section 112 (f) (relating to involuntary conversions) is hereby amended by adding at the end thereof the following: "This subsection shall not apply, in the case of property used by the taxpayer as his principal residence, if the destruction, theft, seizure, requisition, or condemnation of the residence, or the sale or exchange of such residence under threat or imminence thereof, occurred after December 31, 1950."

• • • • • •

PUBLIC LAW 251, 82D CONGRESS APPROVED OCTOBER 31, 1951

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 112 (f) of the Internal Revenue Code (relating to involuntary conversions) is hereby amended to read as follows:

(f) *Involuntary conversion.* If property (as a result of its destruction in whole or in part, theft, seizure, or requisition or condemnation or threat or imminence thereof) is compulsorily or involuntarily converted—

(1) *Conversion into similar property.* Into property similar or related in service or use to the property so converted, no gain shall be recognized.

(2) *Conversion into money where disposition occurred prior to 1951.* Into money, and the disposition of the converted property occurred before January 1, 1951, no gain shall be recognized if such money is forthwith in good faith, under regulations prescribed by the Secretary, expended in the acquisition of other property similar or related in service or use to the property so converted, or in the acquisition of control of a corporation owning such other property, or in the establishment of a replacement fund. If any part of the money is not so expended, the gain shall be recognized to the extent of the money which is not so expended (regardless of whether such money is received in one or more taxable years and regardless of whether or not the money which is not so expended constitutes gain). For the purposes of this paragraph and paragraph (3), the term "disposition of the converted property" means the destruction, theft, seizure, requisition, or condemnation of the converted property, or the sale or exchange of such property under threat or imminence of requisition or condemnation.

(3) *Conversion into money where disposition occurred after 1950.* Into money or into property not similar or related in service or use to the converted property, and the disposition of the converted property (as defined in paragraph (2)) occurred after December 31, 1950, the gain (if any) shall be recognized except to the extent hereinafter provided in this paragraph:

(A) *Nonrecognition of gain.* If the taxpayer during the period specified in subparagraph (B), for the purpose of replacing the property so converted, purchases other property similar or related in service or use to the property so converted, or purchases stock in the acquisition of control of a corporation owning such other property, at the election of the taxpayer the gain shall be recognized only to the extent that the amount realized upon such conversion (regardless of whether such amount is received in one or more taxable years) exceeds the cost of such other property or such stock. Such election shall be made at such time and in such manner as the Secretary may by regulations prescribe. For the purposes of this paragraph—

(i) No property or stock acquired before the disposition of the converted property shall be considered to have been acquired for the purpose of replacing such converted property unless held by the taxpayer on the date of such disposition; and

(ii) The taxpayer shall be considered to have purchased property or stock only if, but for the provisions of section 113 (a) (9), the unadjusted basis of such property or stock would be its cost within the meaning of section 113 (a).

(B) *Period within which property must be replaced.* The period referred to in subparagraph (A) shall be the period beginning with the date of the disposition of the converted property, or the earliest date of the threat or imminence of requisition or condemnation of the converted property, whichever is the earlier, and ending—

(i) One year after the close of the first taxable year in which any part of the gain upon the conversion is realized, or

(ii) Subject to such terms and conditions as may be specified by the Secretary, at the close of such later date as the Secretary may designate upon application by the taxpayer. Such application shall be made at such time and in such manner as the Secretary may by regulations prescribe.

(C) *Time for assessment of deficiency attributable to gain upon conversion.* If a taxpayer has made the election provided in subparagraph (A), then (i) the statutory period for the assessment of any deficiency, for any taxable year in which any part of the gain upon such conversion is realized, attributable to such gain shall not expire prior to the expiration of three years from the date the Secretary is notified by the taxpayer (in such manner as the Secretary may by regulations prescribe) of the replacement of the converted property or of an intention not to replace, and (ii) such deficiency may be assessed prior to the expiration of such three-year period notwithstanding the provisions of section 272 (f) or the provisions of any other law or rule of law which would otherwise prevent such assessment.

(D) *Time for assessment of other deficiencies attributable to election.* If the election provided in subparagraph (A) is made by

the taxpayer and such other property or such stock was purchased prior to the beginning of the last taxable year in which any part of the gain upon such conversion is realized, any deficiency, to the extent resulting from such election, for any taxable year ending before such last taxable year may be assessed (nothwithstanding the provisions of section 272 (f) or 275 or the provisions of any other law or rule of law which would otherwise prevent such assessment) at any time before the expiration of the period within which a deficiency for such last taxable year may be assessed.

This subsection shall not apply, in the case of property used by the taxpayer as his principal residence, if the destruction, theft, seizure, requisition, or condemnation of residence, or the sale or exchange of such residence under threat or imminence thereof, occurred after December 31, 1950.

* * * * *

SEC. 3. The amendments made by the first two sections of this Act shall be applicable only with respect to taxable years ending after December 31, 1950, except that the provisions of section 112 (f) (3), and the provisions of section 113 (a) (9), of the Internal Revenue Code as amended by this Act shall also be applicable to any taxable year ending prior to January 1, 1951, in which (a) any gain was realized upon the conversion of property and the disposition of such converted property occurred (within the meaning of such section 112 (f) (3)) after December 31, 1950, or (b) the basis of property is affected by an election made under the provisions of section 112 (f) (3) of such code.

* * * * *

PAR. 2. Section 29.112 (f)–1 is hereby amended as follows:

(A) By changing the headnote thereof to read as follows: *"Involuntary conversion where disposition of the converted property occurred prior to January 1, 1951."*

(B) By inserting immediately preceding paragraph (a) thereof the following: "This section applies only with respect to involuntary conversions where the disposition of the converted property occurred prior to January 1, 1951. The term 'disposition of the converted property' means the destruction, theft, seizure, requisition, or condemnation of the converted property, or the sale or exchange of such property under threat or imminence of requisition or condemnation. See § 29.112 (f)–3 if the disposition of the converted property occurred after December 31, 1950."

PAR. 3. Section 29.112 (f)–2 is hereby amended as follows:

(A) By changing the headnote thereof to read as follows: *"Replacement funds where disposition of the converted property occurred prior to January 1, 1951."*

(B) By inserting immediately preceding the first paragraph thereof the following: "This section applies only with respect to involuntary conversions where the disposition of the converted property (as defined in § 29.112 (f)–1) occurred prior to January 1, 1951. See § 29.112 (f)–3 if the disposition of the converted property occurred after December 31, 1950."

PAR. 4. There is inserted immediately after § 29.112 (f)–2 the following new section:

§ 29.112 (f)–3 *Involuntary conversion where disposition of the converted property occurred after December 31, 1950*—(a) *In general.* This section applies only with respect to involuntary conversions where the disposition of the converted property (as defined in § 29.112 (f)–1) occurred after December 31, 1950. See § 29.112 (f)–1 and § 29.112 (f)–2 if the disposition of the converted property occurred prior to January 1, 1951. This section also applies only with respect to gains; losses from involuntary conversions are recognized or not recognized without regard to this section. This section shall not apply in the case of an involuntary conversion of property used by the taxpayer as his principal residence; see § 29.112 (n)–1. In the case of property used by the taxpayer partially as a principal residence and partially for other purposes, proper allocation shall be made and this section shall apply only with respect to the involuntary conversion of the portion used for other purposes.

(b) *Conversion into similar property.* If property (as a result of its destruction in whole or in part, theft, seizure, or requisition or condemnation or threat or imminence thereof) is compulsorily or involuntarily converted only into property similar or related in service or use to the property so converted, no gain shall be recognized. Such nonrecognition of gain is mandatory. If the conversion is, in whole or in part, into money or property not similar or related in service or use to the property so converted, see paragraph (c) of this section.

(c) *Conversion into money or into dissimilar property.* (1) If property (as a result of its destruction in whole or in part, theft, seizure, or requisition or condemnation or threat or imminence thereof) is compulsorily or involuntarily converted into money or into property not similar or related in service or use to the converted property, the gain, if any, shall be recognized, at the election of the taxpayer, only to the extent that the amount realized upon such conversion exceeds the cost of other property purchased by the taxpayer which is similar or related in service or use to the property so converted, or the cost of stock of a corporation owning such other property which is purchased by the taxpayer in the acquisition of control of such corporation, if the taxpayer purchased such other property, or such stock, for the purpose of replacing the property so converted and during the period specified below.

(2) All of the details in connection with an involuntary conversion of property at a gain (including those relating to the replacement of the converted property, or a decision not to replace, or the expiration of the period for replacement) shall be reported in the return for the taxable year or years in which any of such gain is realized. An election to have such gain recognized only to the extent provided in subparagraph (1) of this paragraph shall be made by including such gain in gross income for such year or years only to such extent. If, at the time of filing such a return, the period within which the converted property must be replaced has expired, or if such an election is not desired, the gain should be included in gross income for such year or years in the regular manner. A failure to so include such gain in gross income in the regular manner shall be deemed to be an election by the taxpayer to have such gain recognized only to the extent provided in subparagraph (1) of this paragraph even though the details in connection with the conversion are not reported in such return. If, after having made an election under section 112 (f) (3), the converted property is not replaced within the required period of time, or replacement is made at a cost lower than was anticipated at the time of the election, or a decision is made not to replace, the tax liability for the year or years for which the election was made shall be recomputed. Such recomputation should be in the form of an "amended return". If a decision is made to make an election under section 112 (f) (3) after the filing of the return and the payment of the tax for the year or years in which any of the gain on an involuntary conversion is realized and before the expiration of the period within which the converted property must be replaced, a claim for credit or refund for such year or years should be filed. If the replacement of the converted property occurs in a year or years in which none of the gain on the conversion is realized, all of the details in connection with such replacement shall be reported in the return for such year or years.

(3) The period referred to above is the period of time commencing with the date of the disposition of the converted property, or the date of the beginning of the threat or imminence of requisition or condemnation of the converted property, whichever is earlier, and ending one year after the close of the first taxable year in which any part of the gain upon the conversion is realized, or at the close of such later date as may be designated pursuant to an application of the taxpayer. Such application shall be made prior to the expiration of the one year after the close of the first taxable year in which any part of the gain upon the conversion is realized. Such application shall be made to the Commissioner, or to such person as he may designate, and shall contain all of the details in connection with the involuntary conversion. No extension of time shall be granted pursuant to such an application unless the taxpayer executes a bond, with such surety as the Commissioner may require, in an amount not in excess of twice the estimated additional income taxes (including interest, penalties, and additions to the tax) which would be payable if an election were not made under this section, and conditioned upon the replacement of the converted property within the extended period of time (including any subsequent extensions granted by the Commissioner or such person as he may designate), or the payment of the additional tax attributable to the gain on the conversion (including interest, penalties and additions to the tax). Only surety companies holding certificates of authority from the Secretary of the Treasury as acceptable sureties on Federal bonds will be approved as sureties. See § 29.112 (f)–2 with respect to the depositing of bonds or notes of the United States in lieu of sureties.

(4) Property or stock purchased before the disposition of the converted property shall be considered to have been purchased for the purpose of replacing the converted property only if such property or stock is held by the taxpayer on the date of the disposition of the converted property. Property or stock shall be considered to have been purchased only if, but for the provisions of section 113 (a) (9), the unadjusted basis of such property or stock would be its cost to the taxpayer within the meaning of section 113 (a). If the taxpayer's unadjusted basis of the replacement property would be determined, in the absence of section 113 (a) (9), under any of the other numbered paragraphs of section 113 (a), the unadjusted basis of the property would not be its cost within the meaning of section 113 (a). For example, if property similar or related in service or use to the converted property is acquired by gift and its basis is determined under section 113 (a) (2), such property will not qualify as a replacement for the converted property.

(5) If a taxpayer makes an election under section 112 (f) (3), any deficiency, for any taxable year in which any part of the gain upon the conversion is realized, which is attributable to such gain may be assessed at any time prior to the expiration of three years from the date the officer with whom the return for such year has been filed is notified by the taxpayer of the replacement of the converted property or of an intention not to replace, or of a failure to replace, within the required period, notwithstanding the provisions of section 272 (f) or the provisions of any other law or rule of law which would otherwise prevent such assessment. If replacement has been made, such notification shall contain all of the details in connection with such replacement. Such notification should be made in the return for the taxable year or years in which the replacement occurs, or the intention not to replace is formed, or the period for replacement expires, if this return is filed with such officer. If this return is not filed with such officer, then such notification shall be made to such officer at the time of filing this return. If the taxpayer so desires, he may, in either event, also notify such officer prior to the filing of such return.

(6) If a taxpayer makes an election under section 112 (f) (3) and the replacement property or stock was purchased prior to the beginning of the last taxable year in which any part of the gain upon the conversion is realized, any deficiency, for any taxable year ending before such last taxable year, which is attributable to such election may be assessed at any time prior to the expiration of the period within which a deficiency for such last taxable year may be assessed, notwithstanding the provisions of section 272 (f) or 275 or the provisions of any law or rule of law which would otherwise prevent such assessment.

(7) If the taxpayer makes an election under section 112 (f) (3), the gain upon the conversion shall be recognized to the extent that the amount realized upon such conversion exceeds the cost of the replacement property or stock, regardless of whether such amount is realized in one or more taxable years.

(8) See § 29.112 (f)–1 as to when property is similar or related in service or use to other property, and as to the treatment of proceeds of a use and occupancy insurance contract and of special assessments.

PAR. 5. There is inserted immediately after § 29.112 (m)–4, as added by Treasury Decision 5374, approved May 25, 1944, the following:

SEC. 318. GAIN FROM SALE OR EXCHANGE OF TAXPAYER'S RESIDENCE (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951)

(a) *Nonrecognition of gain in certain cases.* Section 112 (relating to recognition of gain or loss) is hereby amended by adding at the end thereof the following new subsection:

(n) *Gain from sale or exchange of residence*—(1) *Nonrecognition of gain.* If property (hereinafter in this subsection called "old residence") used by the taxpayer as his principal residence is sold by him and, within a period beginning one year prior to the date of such sale and ending one year after such date, property (hereinafter in this subsection called "new residence") is purchased and used by the taxpayer as his principal residence, gain (if any) from such sale shall be recognized only to the extent that the taxpayer's selling price of the old residence exceeds the taxpayer's cost of purchasing the new residence.

(2) *Rules for application of subsection.* For the purposes of this subsection:

(A) An exchange by the taxpayer of his residence for other property shall be considered as a sale of such residence, and the acquisition of a residence upon the exchange of property shall be considered as a purchase of such residence.

(B) If the taxpayer's residence (as a result of its destruction in whole or in part, theft, or seizure) is compulsorily or involuntarily converted into property or into money, such destruction, theft, or seizure shall be considered as a sale of the residence; and if the residence is so converted into property which is used by the taxpayer as his residence, such conversion shall be considered as a purchase of such property by the taxpayer.

(C) In the case of an exchange or conversion described in subparagraph (A) or (B), in determining the extent to which the selling price of the old residence exceeds the taxpayer's cost of purchasing the new residence, the amount realized by the taxpayer upon such exchange or conversion shall be considered the selling price of the old residence.

(D) A residence any part of which was constructed or reconstructed by the taxpayer shall be considered as purchased by the taxpayer. In determining the taxpayer's cost of purchasing a residence, there shall be included only so much of his cost as is attributable to the acquisition, construction, reconstruction, and improvements made which are properly chargeable to capital account, during the period specified in paragraph (1).

(E) If a residence is purchased by the taxpayer prior to the date of his sale of the old residence, the purchased residence shall not be treated as his new residence if sold or otherwise disposed of by him prior to the date of the sale of the old residence.

(F) If the taxpayer, during the period described in paragraph (1), purchases more than one residence which is used by him as his principal residence at some time within one year after the date of the sale of the old residence, only the last of such residences so used by him after the date of such sale shall constitute the new residence. If within the one year referred to in the preceding sentence property used by the taxpayer as his principal residence is destroyed, stolen, seized, requisitioned, or condemned, or is sold or exchanged under threat or imminence thereof, then for the purposes of the preceding sentence such one year shall be considered as ending with the date of such destruction, theft, seizure, requisition, condemnation, sale, or exchange.

(G) In the case of a new residence the construction of which was commenced by the taxpayer prior to the expiration of one year after the date of the sale of the old residence, the period specified in paragraph (1), and the one year referred to in subparagraph (F) of this paragraph, shall be considered as including a period of 18 months beginning with the date of the sale of the old residence.

(3) *Limitation.* The provisions of paragraph (1) shall not be applicable with respect to the sale of the taxpayer's residence if within one year prior to the date of such sale the taxpayer sold at a gain other property used by him as his principal residence, and any part of such gain was not recognized by reason of the provisions of paragraph (1). For the purposes of this paragraph, the destruction, theft, seizure, requisition, or condemnation of property or the sale or exchange of property under threat or imminence thereof, shall not be considered as a sale of such property.

(4) *Basis of new residence.* Where the purchase of a new residence results, under paragraph (1), in the nonrecognition of gain upon the sale of an old residence, in determining the adjusted basis of the new residence as of any time following the sale of the old residence, the adjustments to basis shall include a reduction by an amount equal to the amount of the gain not so recognized upon the sale of the old residence. For this purpose, the amount of the gain not so recognized upon the sale of the old residence includes only so much of such gain as is not recognized by reason of the cost, up to such time, of purchasing the new residence.

(5) *Tenant-stockholder in a cooperative apartment corporation.* For the purposes of this subsection, section 113 (b) (1) (K), and section 117 (h) (7), references to property used by the taxpayer as his principal residence, and references to the residence of a taxpayer, shall include stock held by a tenant-stockholder (as defined in section 23 (z) (2)) in a cooperative apartment (as defined in such section) if—

(A) In the case of stock sold, the apartment which the taxpayer was entitled to occupy as such stockholder was used by him as his principal residence, and

(B) In the case of stock purchased, the taxpayer used as his principal residence the apartment which he was entitled to occupy as such stockholder.

(6) *Husband and wife.* If the taxpayer and his spouse, in accordance with regulations which shall be prescribed by the Secretary pursuant to this paragraph, consent to the application of subparagraph (B) of this paragraph, then—

(A) For the purposes of this subsection, the words "taxpayer's selling price of the old residence" shall mean the selling price (of the taxpayer, or of the taxpayer and his spouse) of the old residence, and the words "taxpayer's cost of purchasing the new residence" shall mean the cost (to the taxpayer, his spouse, or both) of purchasing the new residence (whether held by the taxpayer, his spouse, or the taxpayer and his spouse); and

(B) So much of the gain upon the sale of the old residence as is not recognized solely by reason of this paragraph, and so much of the adjustment under paragraph (4) to the basis of the new residence as results solely from this paragraph, shall be allocated between the taxpayer and his spouse as provided in such regulations.

This paragraph shall apply only if the old residence and the new residence are each

used by the taxpayer and his spouse as their

In case the taxpayer and his spouse do not consent to the application of subparagraph (B) of this paragraph, then the recognition of gain upon the sale of the old residence shall be determined under this subsection without regard to the rules provided in this paragraph.

(7) *Statute of limitations.* If the taxpayer during a taxable year sells at a gain property used by him as his principal residence, then—

(A) The statutory period for the assessment of any deficiency attributable to any part of such gain shall not expire prior to the expiration of three years from the date the Secretary is notified by the taxpayer (in such manner as the Secretary may by regulations prescribe) of—

(i) The taxpayer's cost of purchasing the new residence which the taxpayer claims results in nonrecognition of any part of such gain,

(ii) The taxpayer's intention not to purchase a new residence within the period specified in paragraph (1), or

(iii) A failure to make such purchase within such period; and

(B) Such deficiency may be assessed prior to the expiration of such three-year period notwithstanding the provisions of any other law or rule of law which would otherwise prevent such assessment."

* * * * * *

(c) *Effective date.* The amendments made by this section shall be applicable to taxable years ending after December 31, 1950, but the provisions of section 112 (n) (1) and (6) of the Internal Revenue Code shall apply only with respect to residences sold (within the meaning of such section) after such date.

PUBLIC LAW 567, 82D CONGRESS APPROVED JULY 16, 1952

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 112 (n) of the Internal Revenue Code (relating to nonrecognition of gain from sale or exchange of residence) is hereby amended by adding at the end thereof the following new paragraph:

(8) *Members of Armed Forces.* The running of any period of time specified in paragraph (1) or (2) (other than the one year referred to in paragraph (2) (F)) of this subsection shall be suspended during any time that the taxpayer (or his spouse if the old residence and the new residence are each used by the taxpayer and his spouse as their principal residence) serves on extended active duty with the Armed Forces of the United States after the date of the sale of the old residence and before January 1, 1954, except that any such period as so suspended shall not extend beyond the date four years after the date of the sale of the old residence. For the purpose of this paragraph, the term "extended active duty" means any period of active duty pursuant to a call or order to such duty for a period in excess of ninety days or for an indefinite period.

SEC. 2. The amendment made by the first section of this Act shall be applicable to taxable years ending after December 31, 1950, with respect to residences sold (within the meaning of section 112 (n) of the Internal Revenue Code) after such date.

* * * * * *

§ 29.112 (n)–1 *Gain from sale or exchange of residence*—(a) *In general.* Gain from a sale after December 31, 1950, of property used by the taxpayer as his principal residence (referred to in this section as the "old residence") will not be recognized if the taxpayer within a period beginning one year prior to the date of such sale and ending one year after such date purchases property and uses it as his principal residence (referred to in this section as the "new residence") except to the extent that the taxpayer's selling price of the old residence exceeds the taxpayer's cost of purchasing the new residence. In the case of a new residence the construction of which was commenced by the taxpayer at any time prior to the expiration of one year after the date of the sale of the old residence, the one year after the sale of the old residence referred to in the preceding sentence shall be considered as including a period of 18 months beginning with the date of the sale of the old residence. Such nonrecognition of gain is mandatory. This section applies only with respect to gains; losses from sales of property used by the taxpayer as his principal residence are recognized or not recognized without regard to this section.

(b) *Rules for application of section*—(1) *Property used by the taxpayer as his principal residence.* (i) Whether or not property is used by the taxpayer as his residence, and whether or not property is used by the taxpayer as his principal residence (in the case of a taxpayer using more than one property as a residence), depends upon all of the facts and circumstances in each individual case, including the bona fides of the taxpayer. The mere fact that property is, or has been, rented is not determinative that such property is not used by the taxpayer as his principal residence. For example, if the taxpayer purchases his new residence before he sells his old residence, the fact that he temporarily rents out the new residence during the period before he vacates the old residence may not, in the light of all the facts and circumstances in the case, prevent the new residence from being considered as property used by the taxpayer as his principal residence. Property used by the taxpayer as his principal residence may include a houseboat, a house trailer, or stock held by a tenant-stockholder in a cooperative apartment corporation (as those terms are defined in section 23 (z) (2)), if the apartment which the taxpayer is entitled to occupy as such stockholder is used by him as his principal residence. Property used by the taxpayer as his principal residence does not include personal property such as a piece of furniture, a radio, etc., which, in accordance with the applicable local law, is not a fixture.

(ii) Where part of a property is used by the taxpayer as his principal residence and part is used for other purposes, an allocation must be made to determine the application of this section. If the old residence is used only partially for residential purposes, only that part of the gain allocable to the residential portion may be not recognized under this section and only an amount allocable to the selling price of such portion need be reinvested in the new residence in order to have the gain allocable to such portion not recognized under this section. If the new residence is used only partially for residential purposes, only so much of its cost as is allocable to the residential portion may be counted as the cost of purchasing the new residence.

(2) *Sale of residence.* For the purpose of this section, an exchange by the taxpayer of his residence for other property shall be considered as a sale of such residence. Also, if the taxpayer's residence (as a result of its destruction in whole or in part, theft, seizure, requisition or condemnation) is compulsorily or involuntarily converted into money or property, the destruction, theft, seizure, requisition or condemnation shall be considered as a sale of such residence.

(3) *Purchase of residence.* For the purpose of this section, the acquisition of a residence upon the exchange of property shall be considered as a purchase of such residence. Also, the acquisition of a residence upon the compulsory or involuntary conversion of the taxpayer's residence as the result of its destruction in whole or in part, theft, seizure, requisition or condemnation shall be considered to be a purchase of the residence. A residence any part of which was constructed or reconstructed by the taxpayer shall be considered as purchased by the taxpayer, but the mere improvement of a residence, not amounting to reconstruction, does not constitute a purchase of a residence.

(4) *Selling price of old residence.* The taxpayer's selling price of the old residence includes the amount of any mortgage, trust deed, or other indebtedness to which such property is subject in the hands of the purchaser whether or not the purchaser assumed such indebtedness. Such selling price also includes the face amount of any liabilities of the purchaser which are part of the consideration for the sale. Commissions and other selling expenses paid or incurred by the taxpayer on the sale of the old residence are not to be deducted or taken into account in determining such selling price. In the case of an exchange or conversion which is considered as a sale under this section, the amount realized by the taxpayer upon such exchange or conversion shall be considered to be the taxpayer's selling price of the old residence. As to what constitutes the amount realized, see § 29.111–1.

(5) *Cost of purchasing new residence.* The taxpayer's cost of purchasing the new residence also includes such indebtedness to which the property purchased is subject at the time of purchase whether or not assumed by the taxpayer (including purchase-money mortgages, etc.) and the face amount of any liabilities of the taxpayer which are part of the consideration for the purchase. Commissions and other purchasing expenses paid or incurred by the taxpayer on the purchase of the new residence are to be included in determining such cost. In the case of an acquisition of a residence upon an exchange or conversion which is considered as a purchase under this section, the fair market value of the new residence shall be considered as the taxpayer's cost of purchasing the new residence. The taxpayer's cost of purchasing the new residence includes only so much of such cost as is attributable to acquisition, construction, reconstruction, or improvements made within the two-year or 30 months period of time, as the case may be, in which the purchase and use of the new residence must

be made in order to have gain on the sale of the old residence not recognized under this section. Such cost also includes only such amounts as are properly chargeable to capital account rather than to the current expense. As to what constitutes capital expenditures, see § 29.24–2. Where any part of the new residence is acquired by the taxpayer other than by purchase, the value of such part is not to be included in determining the taxpayer's cost of the new residence. For example, if the taxpayer acquires a residence by gift or inheritance, and spends $20,000 in reconstructing such residence, only such $20,000 may be treated as his cost of purchasing the new residence.

(6) *Selling price and cost of residence in the case of husband and wife.* (i) If the taxpayer and his spouse file the consent referred to in this subdivision, then the "taxpayer's selling price of the old residence" shall mean the taxpayer's or the taxpayer and his spouse's selling price of the old residence, and the "taxpayer's cost of purchasing the new residence" shall mean the cost to the taxpayer, or to his spouse, or to both of them, of purchasing the new residence, whether such new residence is held by the taxpayer, or his spouse, or both. Such consent may be filed only if the old residence and the new residence are each used by the taxpayer and his same spouse as their principal residence. If the taxpayer and his spouse do not file such a consent, the recognition of gain upon sale of the old residence shall be determined under this section without regard to the foregoing.

(ii) The consent referred to above is a consent by the taxpayer and his spouse to have the basis of the interest of either of them in the new residence reduced from what it would have been but for the filing of such consent by an amount by which the gain of either of them on the sale of his interest in the old residence is not recognized solely by reason of the filing of such consent. Such reduction in basis is applicable to the basis of the new residence, whether such basis is that of the husband, of the wife, or divided between them. If the basis is divided between the husband and wife, the reduction in basis shall be divided between them in the same proportion as the basis (determined without regard to such reduction) is divided between them. Such consent shall be filed with the officer with whom the return for the taxable year or years in which the gain from the sale of the old residence is realized has been filed. The following examples will illustrate the application of this rule:

Example (1). A taxpayer, in 1951, sells for $10,000 the principal residence of himself and his wife, which he owns individually and which has an adjusted basis to him of $5,000. Within a year after such sale he and his wife contribute $5,000 each from their separate funds for the purchase of their new principal residence which they hold as tenants in common, each owning an undivided one-half interest therein. If the taxpayer and his wife file the required consent, the gain of $5,000 upon the sale of the old residence will not be recognized to the taxpayer, and the adjusted basis of the taxpayer's interest in the new residence will be $2,500 and the adjusted basis of the taxpayer's wife's interest in such property will be $2,500.

Example (2). A taxpayer and his wife, in 1951, sell for $10,000 their principal residence, which they own as joint tenants and which has an adjusted basis of $2,500 to each of them ($5,000 together). Within a year after such sale, the wife spends $10,000 of her own funds in the purchase of a principal residence for herself and the taxpayer and takes title in her name only. If the taxpayer and his wife file the required consent, the adjusted basis to the wife of the new residence shall be $5,000, and the gain of the taxpayer of $2,500 upon the sale of the old residence will not be recognized. The wife, as a taxpayer herself, will have her gain of $2,500 on the sale of the old residence not recognized under the general rule.

(c) *Basis of new residence.* Where the purchase of a new residence results, under this section, in the nonrecognition of any part of the gain realized upon the sale of an old residence, then, in determining the adjusted basis of the new residence as of any time following the sale of old residence, the adjustments to basis shall include a reduction by an amount equal to the amount of the gain which was not recognized upon the sale of the old residence. Such a reduction is not to be made for the purpose of determining the adjusted basis of the new residence as of any time preceding the sale of the old residence. For the purpose of this determination, the amount of the gain not recognized under this section upon the sale of the old residence includes only so much of the gain is not recognized because of the taxpayer's cost, up to the date of the determination of the adjusted basis, of purchasing the new residence. The following example will illustrate this rule:

Example (3). On January 1, 1951, the taxpayer buys a new residence for $10,000. On March 1, 1951, he sells for $15,000 his old residence which has an adjusted basis to him of $5,000. During April a wing is constructed on the new house at a cost of $5,000 and in May he builds a garage at a cost of $2,000. The adjusted basis of the new residence is $10,000 during January and February, $5,000 during March and April, and $7,000 following the completion of the construction in May.

(d) *Limitations on application of section.* If a residence is purchased by the taxpayer prior to the date of the sale of the old residence, the purchased residence shall, in no event, be treated as a new residence if such purchased residence is sold or otherwise disposed of by him prior to the date of the sale of the old residence. And, if the taxpayer, during the period within which the purchase and use of the new residence must be made in order to have any gain on the sale of the old residence not recognized under this section, purchases more than one property which is used by him as his principal residence during the one year (or 18 months in the case of the construction of the new residence) succeeding the date of the sale of the old residence, only the last of such properties shall be considered a new residence. However, if the taxpayer's new residence is destroyed, stolen, seized, requisitioned, condemned, or sold or exchanged under the threat or imminence of requisition or condemnation within such year (or 18 months) succeeding the sale of the old residence, then, for the purpose of the preceding sentence, such year (or 18 months) is deemed to end on the date of the destruction, theft, seizure, requisition, condemnation, sale, or exchange. If within one year prior to the date of the sale of the old residence, the taxpayer sold other property used by him as his principal residence at a gain, and any part of such gain was not recognized under this section, this section shall not apply with respect to the sale of the old residence. For the purpose of the preceding sentence, however, the destruction, theft, seizure, requisition, condemnation, or sale or exchange under threat or imminence of requisition or condemnation shall not be considered as a sale. The following example will illustrate these rules:

Example (4). A taxpayer sells his old residence on January 15, 1951, and purchases a new residence on February 15, 1951. On March 15, 1951, he sells the new residence and purchases a second new residence on April 15, 1951. The gain on the sale of the old residence on January 15, 1951, will not be recognized except to the extent to which the taxpayer's selling price of the old residence exceeds the cost of purchasing the second new residence purchased on April 15, 1951. Gain on the sale of the first new residence on March 15, 1951, will be recognized. If, instead of selling the first new residence on March 15, 1951, such residence had been destroyed by fire on that date and insurance proceeds in cash had been received as a result thereof, the gain on the sale of the old residence on January 15, 1951, will not be recognized except to the extent to which the taxpayer's selling price of the old residence exceeds his cost of purchasing the new residence purchased on February 15, 1951. And, the gain on the involuntary conversion by fire of the first new residence on March 15, 1951, will not be recognized except to the extent to which the amount realized from such conversion exceeds the taxpayer's cost of purchasing the second new residence purchased on April 15, 1951.

(e) *Statute of limitations.* (1) Whenever a taxpayer sells property used as his principal residence at a gain, the statutory period prescribed in section 275 for the assessment of any deficiency attributable to any part of such gain will not expire prior to the expiration of three years from the date the officer, with whom the return for the taxable year or years in which the gain from the sale of the old residence is realized has been filed, is notified by the taxpayer (i) of the cost of purchasing the new residence which the taxpayer claims results in the nonrecognition of any part of such gain, or (ii) of the taxpayer's intention not to, or failure to, purchase a new residence within the period when such a purchase will result in the nonrecognition of any part of such gain. Such a deficiency may be assessed prior to the expiration of such three-year period notwithstanding the provisions of any other law or rule of law which might otherwise bar such assessment.

(2) Such notification shall be made in the return for the taxable year or years in which the purchase of the new residence occurs, or the intention not to make such a purchase is formed, or the period for the replacement expires if this

return is filed with such officer. If this

beginning before January 1, 1951

return is filed with such officer. If this return is not filed with such officer, then such notification shall be made to such officer at the time of filing this return. If the taxpayer so desires, he may, in either event, also notify such officer prior to the filing of this return. Such notification shall contain all of the details in connection with the sale of the residence and, if applicable, the purchase of the new residence. If an intention not to replace is formed, or if the period for replacement expires, or if the cost of purchasing the new residence is less than the selling price of the old residence, the recognizable gain shall be included in the gross income for the taxable year or years in which such gain was realized; a recomputation in the form of an "amended return" should be made for this purpose if necessary.

(f) *Members of Armed Forces.* (1) The running of the one-year (or 18 months in the case of the construction of the new residence) period, specified in paragraph (a) of this section, after the sale of the old residence within which the purchase and use of a new residence may result in the nonrecognition of gain on such sale shall be suspended during any time that the taxpayer serves on extended active duty in the Armed Forces of the United States after the date of the sale of the old residence and before January 1, 1954. Any such period as so suspended, however, shall not extend beyond the date four years after the date of the sale of the old residence. For example, if the taxpayer is on extended active duty with the army from January 1, 1951, to December 31, 1953, and if he sold his old residence on January 1, 1951, the latest date on which the taxpayer may use a new residence constructed by him and have any part of the gain on the sale of the old residence not recognized under this section is January 1, 1955, the date four years after the date of the sale of the old residence.

(2) This suspension covers not only the Armed Forces service of the taxpayer but if the taxpayer and his same spouse used both the old and the new residences as their principal residence, then the extension applies in like manner to the time the taxpayer's spouse is on extended active duty with the Armed Forces of the United States.

(3) The time during which the running of the period is suspended is part of such period. Thus, construction costs during such time are includible in the cost of purchasing the new residence under paragraph (b) (5) of this section.

(4) The running of the one-year (or 18 month) periods referred to in paragraph (d) of this section is not suspended, nor is the running of the one-year period prior to the date of the sale of the old residence within which the new residence may be purchased in order to have gain on the sale of the old residence not recognized under this section.

(5) The term "extended active duty" means any period of active duty which is served pursuant to a call or order to such duty for a period in excess of 90 days or for an indefinite period. If the call or order is for a period of more than 90 days, it is immaterial that the time served pursuant to such call or order is less than 90 days, if the reason for such shorter period of service occurs after the beginning of such duty. As to what constitutes active service as a member of the Armed Forces of the United States, see § 29.22 (b) (13)–2. As to who are members of the Armed Forces of the United States, see § 29.3797–11.

PAR. 6. There is inserted immediately preceding § 29.113 (a) (9)–1 the following:

(2) Section 113 (a) (9) (relating to basis of property acquired as a result of involuntary conversions) is hereby amended by adding at the end thereof the following: "This paragraph shall not apply in respect of property acquired as a result of a compulsory or involuntary conversion of property used by the taxpayer as his principal residence if the destruction, theft, seizure, requisition, or condemnation of such residence, or the sale or exchange of such residence under threat or imminence thereof, occurred after December 31, 1950."

SEC. 2. Paragraph (9) of section 113 (a) of the Internal Revenue Code (relating to unadjusted basis of property acquired as the result of an involuntary conversion) is hereby amended by striking out "section 112 (f)" and inserting in lieu thereof "section 112 (f) (1) or (2)", and by adding at the end of such paragraph the following new sentence: "In the case of property purchased by the taxpayer which resulted, under the provisions of section 112 (f) (3), in the nonrecognition of any part of the gain realized as the result of a compulsory or involuntary conversion, the basis shall be the cost of such property decreased in the amount of the gain not so recognized; and if the property purchased consists of more than one piece of property, the basis determined under this sentence shall be allocated to the purchased properties in proportion to their respective costs."

SEC. 3. The amendments made by the first two sections of this Act shall be applicable only with respect to taxable years ending after December 31, 1950, except that the provisions of section 112 (f) (3), and the provisions of section 113 (a) (9), of the Internal Revenue Code as amended by this Act shall also be applicable to any taxable year ending prior to January 1, 1951, in which (a) any gain was realized upon the conversion of property and the disposition of such converted property occurred (within the meaning of such section 112 (f) (3)) after December 31, 1950, or (b) the basis of property is affected by an election made under the provisions of section 112 (f) (3) of such code.

PAR. 7. Section 29.113 (a) (9)–1 is hereby amended as follows:

(A) By inserting immediately after the words "The provisions of" therein the following "the first sentence of", and by inserting after the word "*Example*" therein the following "*(1)*".

(B) By adding at the end thereof the following:

The provisions of the last sentence of section 113 (a) (9) may be illustrated by the following example:

Example (2). A taxpayer realizes $22,000 from the involuntary conversion of his barn; the adjusted basis of the barn to him was $10,000, and he spent $20,000 for a new barn which resulted in the nonrecognition of $10,000 of the $12,000 gain on the conversion. The unadjusted basis of the new barn to the taxpayer would be $10,000—the cost of the new barn ($20,000) less the amount of the gain not recognized on the conversion ($10,000). The unadjusted basis of the new barn would not be a substituted basis in the hands of the taxpayer within the meaning of sections 113 (b) (2) (B) and § 29.113 (b) (2)–1. If the replacement of the converted barn had been made by the purchase of two smaller barns which, together, were similar or related in service or use to the converted barn and which cost $8,000 and $12,000, respectively, then the basis of the two barns would be $4,000 and $6,000, respectively, the cost of each barn ($8,000 and $12,000) less in each case the proportion of the gain not recognized on the conversion ($10,000) that the cost of each barn bears to the cost of both barns $\left(\frac{8,000}{20,000} \text{ and } \frac{12,000}{20,000}\right)$.

PAR. 8. There is inserted immediately preceding § 29.113 (b) (1)–1 the following:

(3) Section 113 (b) (1) (relating to adjusted basis of property) is hereby amended by adding at the end thereof the following new subparagraph:

(K) in the case of a residence the acquisition of which resulted, under the provisions of section 112 (n), in the nonrecognition of any part of the gain realized upon the sale, exchange, or involuntary conversion of another residence, to the extent provided in section 112 (n) (4).

PAR. 9. Section 29.113 (b) (1)–1, as amended by Treasury Decision 5873, approved December 7, 1951, is hereby amended by adding at the end thereof the following new paragraph (k):

(k) For the adjustments to basis of a residence because its acquisition resulted, under the provisions of section 112 (n), in the nonrecognition of any part of the gain realized upon the sale, exchange, or involuntary conversion of another residence, see § 29.112 (n)–1.

PAR. 10. There is inserted immediately preceding § 29.117–1 the following:

(4) Section 117 (h) (relating to determination of holding period) is hereby amended by adding at the end thereof the following new paragraph:

(7) In determining the period for which the taxpayer has held a residence, the acquisition of which resulted under section 112 (n) in the nonrecognition of any part of the gain realized on the sale, exchange, or involuntary conversion of another residence, there shall be included the period for which such other residence had been held as of the date of such sale, exchange, or involuntary conversion.

* * * * * * *

PAR. 11. Section 29.117–4 is hereby amended by adding at the end thereof the following new paragraph (d):

(d) The period for which the taxpayer has held a residence, the acquisition of which resulted, under the provisions of section 112 (n), in the nonrecognition of any part of the gain realized on the sale, exchange, or involuntary conversion of another residence, shall include the period for which such other residence had been held as of the date of such sale, exchange, or involuntary conversion. See § 29.112 (n)–1.

PAR. 12. There is inserted immediately preceding § 29.275–1 the following:

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

TAXATION OF INCOME OF FAMILY PARTNERSHIPS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of thirty days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 62 and 3791 of the Internal Revenue Code (53 Stat. 32, 467; 26 U. S. C. 62, 3791).

[SEAL] JOHN S. GRAHAM,
Acting Commissioner of Internal Revenue.

In order to conform Regulations 111 (26 CFR Part 29) to section 340 of the Revenue Act of 1951, approved October 20, 1951, such regulations are hereby amended as follows:

PARAGRAPH 1. Section 29.113 (a) (13)–1 and § 29.181–1 are each amended by adding at the end thereof the following: "For rules as to allocation of partnership income in the case of family partnerships, see section 191 and the regulations thereunder."

PAR. 2. There is inserted immediately after § 29.190–1, as amended by Treasury Decision 5851, approved August 10, 1951, the following:

SEC. 340. FAMILY PARTNERSHIPS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Definition of partner.* Section 3797 (a) (2) is hereby amended by adding at the end thereof the following: "A person shall be recognized as a partner for income tax purposes if he owns a capital interest in a partnership in which capital is a material income-producing factor, whether or not such interest was derived by purchase or gift from any other person."

(b) *Allocation of partnership income.* Supplement F of chapter 1 is hereby amended by adding at the end thereof the following new section:

SEC. 191. FAMILY PARTNERSHIPS.

In the case of any partnership interest created by gift, the distributive share of the donee under the partnership agreement shall be includible in his gross income, except to the extent that such share is determined without allowance of reasonable compensation for services rendered to the partnership by the donor, and except to the extent that the portion of such share attributable to donated capital is proportionately greater than the share of the donor attributable to the donor's capital. The distributive share of a partner in the earnings of the partnership shall not be diminished because of absence due to military service. For the purpose of this section, an interest purchased by one member of a family from another shall be considered to be created by gift from the seller, and the fair market value of the purchased interest shall be considered to be donated capital. The "family" of any individual shall include only his spouse, ancestors, and lineal descendants, and any trust for the primary benefit of such persons.

(c) *Effective date.* The amendments made by this section shall be applicable with respect to taxable years beginning after December 31, 1950. The determination as to whether a person shall be recognized as a partner for income tax purposes for any taxable year beginning before January 1, 1951, shall be made as if this section had not been enacted and without inferences drawn from the fact that this section is not expressly made applicable with respect to taxable years beginning before January 1, 1951. In applying this subsection where the taxable year of any family partner is different from the taxable year of the partnership—

(1) If a taxable year of the partnership beginning in 1950 ends within or with, as to all of the family partners, taxable years which begin in 1951, then the amendments made by this section shall be applicable with respect to all distributive shares of income derived by the family partners from such taxable year of the partnership beginning in 1950; and

(2) If a taxable year of the partnership ending in 1951 ends within or with a taxable year of any family partner which began in 1950, then the amendments made by this section shall not be applicable with respect to any of the distributive shares of income derived by the family partners from such taxable year of the partnership.

§ 29.191–1 *Family partnerships*—(a) *In general*—(1) *Introduction.* The production of income by a partnership is attributable to the capital or services, or both, contributed by the partners. The provisions of Supplement F, which govern the taxation of the income of individuals carrying on business in partnership, are to be read in the light of their relationship to section 22 (a), which requires that income be taxed to the person who earns it through his own labor and skill and the utilization of his own capital.

(2) *Recognition of donee as partner.* With respect to partnerships in which capital is a material income-producing factor, section 340 (a) of the Revenue Act of 1951 amends section 3797 (a) (2) (dealing with definition of partnership and partner) to provide that a person shall be recognized as a partner for income tax purposes for taxable years beginning after December 31, 1950, if he owns a capital interest in such a partnership whether or not such interest is derived by purchase or gift from any other person. In the case of any partnership in which capital is a material income-producing factor, if any capital interest in such partnership is created by gift, section 191, as added by section 340 (b) of the Revenue Act of 1951, provides for allocation of the partnership income where the distributive share of a donee partner under the partnership agreement is determined without allowance of reasonable compensation for services rendered to the partnership by the donor or is proportionately greater than the share of the donor attributable to the donor's capital. For rules of allocation, see § 29.191–2.

(3) *Requirement of complete transfer to donee.* A donee or purchaser of a capital interest in a partnership is not recognized as a partner under the principles of section 3797 (a) (2) unless the capital interest is acquired in a bona fide transaction, not a mere sham for tax avoidance purposes or otherwise, and the donee or purchaser is the real owner of such interest. To be recognized, a transfer must vest dominion and control of the partnership interest in the transferee. The existence of such dominion and control in the donee is to be determined from all the pertinent facts and circumstances. A transfer is not recognized if the transferor retains such incidents of ownership that the transferee

will of the grantor, the provisions of the limited partnership law. The absence

has not acquired full and complete ownership of the partnership interest. Transactions between members of a family will be closely scrutinized, and in the case of such transactions the circumstances at the time of a purported transfer and during the periods preceding and following it will be taken into consideration in determining the bona fides or lack of bona fides of the purported gift or sale. A partnership may be recognized for income tax purposes as to some alleged partners but not as to others.

(4) *Capital as a material income-producing factor.* The determination as to whether capital is a material income-producing factor, for purposes of section 3797 (a) (2), must be made by reference to all the relevant facts of the individual case. Capital is a material income-producing factor if a substantial portion of the gross income of the business is attributable to the employment of capital in the business conducted by the partnership. In general, capital is not a material income-producing factor where the income of the business consists principally of fees, commissions or other compensation for personal services performed by members or employees of the partnership. On the other hand, capital is ordinarily a material income-producing factor if the operation of the business requires substantial inventories or a substantial investment in plant, machinery, or equipment.

(5) *Capital interest in a partnership.* For purposes of sections 191 and 3797 (a) (2), a capital interest in a partnership means a proprietary interest in assets used in the partnership business, which interest is distributable to the owner of the capital interest upon his withdrawal from the partnership or upon dissolution or liquidation of the partnership. The mere right to participate in the earnings of a partnership is not a capital interest in the partnership.

(6) *Taxable years affected.* Section 340 of the Revenue Act of 1951, which added section 191 and amended section 3797 (a) (2), is effective for taxable years beginning after December 31, 1950, and expressly provides that no inferences as to family partnerships with respect to taxable years beginning prior to January 1, 1951, are to be drawn from the enactment of such section. If the taxable year of any family partner is different from that of the partnership, the amendments made by section 340 will apply to all distributive shares of income derived by family partners from a fiscal year of the partnership beginning in 1950 if it ends with or within taxable years of all the family partners which began in 1951, but will not apply in the case of a fiscal year of the partnership ending in 1951 which ends with or within a taxable year of any family partner which began in 1950.

(b) *Basic tests as to ownership*—(1) *In general.* Whether an alleged partner in a gift capital case is the real owner of the capital interest attributed to him and whether the donee has dominion and control over his or her interest, must be ascertained from all the facts and circumstances of the particular case. Isolated facts should not be considered determinative; the reality of the donee's ownership is to be determined in the light of the transaction as a whole. The execution of legally sufficient and irrevocable deeds or other instruments of gift under State law is a factor to be taken into account but is not determinative of ownership in the donee. The reality of the transfer and of the donee's ownership of the property attributed to him are to be ascertained from the conduct of the parties with respect to the alleged gift and not by any mechanical or formulistic test. Some of the more important factors to be considered in determining whether the donee has acquired ownership of the capital interest in a partnership are indicated in subparagraphs (2) to (10) of this paragraph.

(2) *Retained controls.* The donor may have retained such controls of the interest which he has purported to transfer to the donee that the donor should be treated as remaining the substantial owner of the interest. Controls of particular significance include, for example, the following:

(i) Retention of control of the distribution of income or restrictions on the distribution of income other than amounts retained in the partnership annually with the consent of the partners (including the donee partner) for the reasonable needs of the business.

(ii) Limitation of the right of the donee to withdraw or sell his interest in the partnership at his discretion without financial detriment.

(iii) Retention of control of assets essential to the business (for example, through retention of assets leased to the alleged partnership).

(iv) Retention of management powers inconsistent with normal relationships among partners. Retention by the donor of control of business management or of voting control, such as is common in ordinary business relationships, is not by itself to be considered as inconsistent with normal relationships among partners provided the donee is free to withdraw his interest without financial detriment at his discretion. The donee shall not be considered free to withdraw his interest unless, considering all the facts, it is evident that the donee is independent of the donor and has such maturity and understanding of his rights as to be capable of deciding to exercise, and of exercising, his right to withdraw his capital interest from the partnership.

The existence of some of the indicated controls, though amounting to less than substantial ownership retained by the donor, may be considered along with other facts and circumstances as tending to show the lack of reality of the partnership interest of the donee.

(3) *Indirect controls.* Controls inconsistent with ownership by the donee may be exercised indirectly as well as directly, for example, through a separate business organization, estate, trust, individual, or other partnership. Where such indirect controls exist, the reality of the donee's interest will be determined as if such controls were exercisable directly. A general passive acquiescence of the donee in the will of the donor, as evidenced by the actual conduct of the parties, may be the equivalent of expressly retained controls.

(4) *Participation in management.* Substantial participation by the donee in the control and management of the business (including participation in the major policy decisions affecting the business) is strong evidence of a donee partner's exercise of the dominion and control over his interest. Such participation presupposes sufficient maturity and experience on the part of the donee to deal with the business problems of the partnership.

(5) *Income distributions.* The actual distribution to a donee partner of all or the major portion of his distributive share of the business income for the sole benefit and use of the donee is substantial evidence of the reality of the donee's interest provided the donor has not retained controls inconsistent with real ownership in the donee. Amounts distributed are not considered to be used for the donee's sole benefit if, for example, they are deposited, loaned, or invested in such ways that the donor controls or can control the use or enjoyment of such funds.

(6) *Conduct of partnership business.* In determining the reality of the donee's ownership of a capital interest in a partnership, consideration shall be given to whether the donee is actually treated as a partner in the operation of the business. It is of principal importance for this purpose whether the donee has been held out publicly as a partner in the conduct of the business, in relations with customers, and in securing financing for the partnership through banks or trade channels. Other factors of significance in this connection include:

(i) Compliance with local partnership, fictitious name, and business registration statutes.

(ii) Control of business bank accounts.

(iii) Recognition of the donee's interest in appropriate capital and drawing accounts.

(iv) Recognition of the donee's interest in insurance policies, leases, and other business contracts and in litigation affecting business.

However, despite formal compliance with the factors mentioned in this subparagraph, other circumstances may indicate that the donor has retained substantial ownership of the interest purportedly transferred to the donee.

(7) *Trustees as partners.* A trustee may be recognized as a partner for income tax purposes under the principles relative to family partnerships generally as applied to the particular facts of the trust-partnership arrangement. A trustee who is unrelated to and independent of the grantor, and who participates in management as a general partner and receives distribution of the income distributable to the trust, will ordinarily be recognized as the owner of the partnership interest which he holds for the trust unless the grantor has retained controls inconsistent with such ownership. However, if the grantor is the trustee, or if the trustee is amenable to the

will of the grantor, the provisions of the trust instrument (particularly with relation to whether the trustee is subject to the responsibilities of a fiduciary), the provisions of the partnership agreement, and the conduct of the parties must all be taken into account in determining whether the trustee in a fiduciary capacity has become the real owner of the partnership interest. In a case where the grantor (or person amenable to his will) is the trustee, the trust may be recognized as a partner only if the grantor (or such other person) in his participation in the affairs of the partnership actively represents and protects the interests of the beneficiaries in accordance with the obligations of a fiduciary, and does not subordinate such interests to, or merge such interests in, the interests of the grantor. Furthermore, if the grantor (or person amenable to his will) is the trustee, particular consideration should be given to the following factors:

(i) Whether the trust is recognized as a partner in business dealings with customers and creditors; and

(ii) Whether the trust's share of the income is distributed to the trust annually and paid to the beneficiaries or reinvested solely in the interests of the beneficiaries.

(8) *Interests of minor children.* Except where a minor child is shown to be competent to manage his own property and participate in the partnership activities in accordance with his interest in the property, a minor child generally will not be recognized as a member of a partnership unless control of the property and its enjoyment is exercised by another person as fiduciary for the sole benefit of the child and unless there is such judicial supervision of the conduct of the fiduciary as will assure that the property of the child cannot be used for the benefit of another. The use of the child's property or income for support for which a parent is legally responsible will be considered a use for the parent's benefit. "Judicial supervision of the conduct of a fiduciary" means actual and periodical supervision by a court of the activities of the fiduciary who participates in the affairs of the partnership on behalf of the minor and not merely the existence of rules of State law imposing the responsibility of a fiduciary on any person who controls or deals in the property of a minor child. A minor child will be considered as competent to manage his own property if he actually has sufficient maturity and experience to be treated by disinterested persons as competent to enter into business dealings and otherwise to conduct his affairs on a basis of equality with adult persons, notwithstanding legal disabilities of the minor under State law.

(9) *Donees as limited partners.* The recognition of a donee's interest in a limited partnership will depend, as in the case of other donated interests, on whether the transfer of property is real and the donee has acquired dominion and control over the interests purportedly transferred to him. To be recognized for Federal income tax purposes, a limited partnership must be organized and conducted in accordance with the requirements of the applicable State limited partnership law. The absence of services and participation in management by a donee in a limited partnership is immaterial if the limited partnership meets all the other requirements prescribed in this section. If the limited partner's right to withdraw his interest is subject to substantial restrictions (for example, where the interest of the limited partner is not assignable in a real sense or where it may be required to be left in the business for a long term of years), or if the general partner retains any other control which substantially limits any of the rights which would ordinarily be exercisable by unrelated limited partners in normal business relationships, such restrictions on the right to withdraw or retention of other control will be considered strong evidence of lack of reality of ownership by the donee.

(10) *Motive and business purpose.* If the reality of the transfer of interest and the good faith of the parties are satisfactorily established, the motives for the transaction are immaterial. However, the presence or absence of a tax avoidance motive is one of many factors to be considered in determining the reality of a gift capital transaction.

(c) *Purchased interest*—(1) *In general.* If a purported purchase of a capital interest in a partnership does not meet the requirements of subparagraph (2) of this paragraph, the ownership by the transferee of such capital interest will be recognized only if it qualifies under the requirements applicable to a transfer of a partnership interest by gift. In a case not qualifying under subparagraph (2), if payment of any part of the purchase price is made out of the partnership earnings, the transaction may be regarded in the same light as a purported gift subject to deferred enjoyment of the income. Such a transaction may be lacking in reality either as a gift or as a bona fide purchase.

(2) *Tests as to reality of purchased interests.* A purchase of a capital interest in a partnership either directly or by means of a loan or credit extended by a member of the family will be recognized if it is shown to be bona fide under either of the following tests:

(i) That the purchase has the usual characteristics of an arm's length transaction, considering all relevant factors including the terms of the purchase agreement (as to price, due date of payment, rate of interest, and security, if any) and the terms of any loan or credit arrangement collateral to the purchase agreement; the credit standing of the purchaser, apart from relationship to the seller; and the capacity of the purchaser to incur a legally binding obligation; or

(ii) Assuming the lack of one or more of the usual characteristics of arm's length dealing, that the transaction was genuinely intended to promote the success of the business through securing participation in the business of the purchaser or the addition of his or her credit to that of other participants.

However, if the alleged purchase price or loan has not been paid or the obligation otherwise discharged the factors indicated in subdivisions (i) and (ii) of this subparagraph, shall be taken into account only as an aid in determining whether a bona fide purchase or loan obligation existed.

§ 29.191-2 *Allocation of family partnership income for taxable years beginning after December 31, 1950*—(a) *In general.* (1) In the case of any partnership in which capital is a material income-producing factor, if any capital interest in such a partnership as created by gift before, on, or after December 31, 1950, the distributive share of the donee under the partnership agreement, for taxable years beginning after December 31, 1950, shall be includible in his gross income, except to the extent that such share is determined without allowance of reasonable compensation for services rendered to the partnership by the donor, and except to the extent that the portion of such share attributable to donated capital is proportionately greater than the share attributable to the donor's capital. For the purpose of this section, a capital interest in a partnership purchased by one member of a family from another shall be considered to be created by gift from the seller, and the fair market value of the purchased interest, shall be considered to be donated capital. For the purpose of the preceding sentence, the "family" of any individual shall include only his spouse, ancestors, and lineal descendants, and any trust for the primary benefit of such persons.

(2) To the extent that the partnership agreement does not so allocate the partnership income, the partnership income of the donor and donee shall be reallocated by making a reasonable allowance for the services of the donor and by attributing the balance of such income (other than a reasonable allowance for the services, if any, rendered by the donee) to the partnership capital of the donor and donee. The portion of income, if any, thus attributable to partnership capital for the taxable year shall be allocated between donor and donee in accordance with their respective interests in the partnership capital.

(3) In determining a reasonable allowance for services rendered by the partners, consideration shall be given to all the circumstances of the business, including the fact that some of the partners may have greater managerial responsibility than others. Among other factors, there shall be considered the amount that would ordinarily be paid in order to obtain comparable services from a person not having a capital interest in the partnership.

(4) In the case of a partner who rendered services to a partnership prior to entering service in the armed forces of the United States, his distributive share in the earnings of the partnership, determined under subparagraph (2) of this paragraph, shall not be diminished because of absence due to military service. Such distributive share shall be adjusted to reflect increases or decreases in the capital interest of the absent partner. However, the partners may by agreement allocate a smaller share to the absent partner due to his absence.

(b) *Special rules.* (1) The provisions of paragraph (a) of this section, relat-

ing to allocation, are applicable where

(1) If a taxable year of the partnership beginning in 1950 ends within or with, as to

mustard greens and turnip greens in the same container.

mixture of types shall be permitted

Grades of Frozen Squash (Summer

(3) The scores for the factors of color,

ing to allocation, are applicable where the gift interest in the partnership is created indirectly as well as directly. Where the partnership interest is created indirectly, the term "donor" may include persons other than the nominal transferor.

Example 1. A father gives property to his son who shortly thereafter conveys the property to a partnership consisting of the father and the son. The partnership interest of the son may be considered created by gift and the father may be considered the donor of the son's partnership interest.

Example 2. A father, the owner of a business conducted as a sole proprietorship, transfers the business to a partnership consisting of his wife and himself. The wife subsequently conveys such interest to their son. In such case, the father, as well as the mother, may be considered the donor of the son's partnership interest.

Example 3. A father makes a gift to his son of stock in the family corporation. The corporation is subsequently liquidated. The son later contributes the property received in the liquidation of the corporation to a partnership consisting of his father and himself. In such case, the son's partnership interest may be considered created by gift and the father may be considered the donor of his son's partnership interest.

(2) The allocation rules set forth in section 191 and paragraph (a) of this section apply in any case in which the transfer or creation of the partnership interest has any of the substantial characteristics of a gift. Thus, allocation may be required where transfer of a partnership interest is made between members of a family (including collaterals) under a purported purchase agreement, if the characteristics of a gift are ascertained from the terms of the purchase agreement, the terms of any loan or credit arrangements made to finance the purchase, or from other relevant data.

(3) In the case of limited partnership, for the purpose of the allocation provisions of paragraph (a) of this section, proper weight shall be given to the fact that a general partner, unlike the limited partner, risks his credit in the partnership business.

PAR. 3. There is inserted immediately preceding § 29.3797–1 the following:

SEC. 340. FAMILY PARTNERSHIPS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Definition of partner.* Section 3797 (a) (2) is hereby amended by adding at the end thereof the following: "A person shall be recognized as a partner for income tax purposes if he owns a capital interest in a partnership in which capital is a material income-producing factor, whether or not such interest was derived by purchase or gift from any other person."

* * * * *

(c) *Effective date.* The amendments made by this section shall be applicable with respect to taxable years beginning after December 31, 1950. The determination as to whether a person shall be recognized as a partner for income tax purposes for any taxable year beginning before January 1, 1951, shall be made as if this section had not been enacted and without inferences drawn from the fact that this section is not expressly made applicable with respect to taxable years beginning before January 1, 1951. In applying this subsection where the taxable year of any family partner is different from the taxable year of the partnership—

(1) If a taxable year of the partnership beginning in 1950 ends within or with, as to all of the family partners, taxable years which begin in 1951, then the amendments made by this section shall be applicable with respect to all distributive shares of income derived by the family partners from such taxable year of the partnership beginning in 1950; and

(2) If a taxable year of the partnership ending in 1951 ends within or with a taxable year of any family partner which began in 1950, then the amendments made by this section shall not be applicable with respect to any of the distributive shares of income derived by the family partners from such taxable year of the partnership.

PAR. 4. Section 29.3797–4 is amended by inserting immediately following the fifth sentence of the introductory text thereof the following: "See section 191 and the regulations thereunder, for treatment as a partner, for taxable years beginning after December 31, 1950, of any person who owns a capital interest in a partnership in which capital is a material income-producing factor, whether or not such interest was derived by purchase or gift from any other person."

U. S. STANDARDS FOR MUSTARD GREENS AND TURNIP GREENS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance of revised United States Standards for Mustard Greens and Turnip Greens under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451, 82d Cong., approved July 5, 1952) to supersede United States Standards for Mustard Greens and United States Standards for Turnip Greens, each of which were effective December 18, 1928.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with M. W. Baker, Deputy Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 5:30 p. m., e. s. t. on the thirtieth (30) day after the date of publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

§ 51.278 *Standards for mustard greens and turnip greens*—(a) *General.* (1) These standards are applicable to either mustard greens or turnip greens consisting of either plants (crown or root attached), or cut leaves but they shall not be applicable to mixtures of plants and cut leaves or mixtures of mustard greens and turnip greens in the same container.

(b) *Grades*—(1) *U. S. No. 1.* U. S. No. 1 consists of mustard greens or turnip greens of similar varietal characterstics which are fresh, fairly tender, fairly clean, and which are free from decay and free from damage caused by seedstems, discoloration, freezing, foreign material, disease, insects or mechanical or other means.

(i) *Specifications for roots.* In the case of turnip greens with roots attached, the roots shall be firm and free from damage by any cause and unless otherwise specified, the maximum diameter of the root shall be 1½ inches.

(ii) *Tolerance for defects.*—In order to allow for variations incident to proper grading and handling, other than for size of roots and mixtures of plants and leaves, not more than a total of 10 percent, by weight, of the units in any lot, may fail to meet the requirements of the grade: *Provided,* That not more than one-half of this amount, or 5 percent, shall be allowed for serious damage by any cause and including therein not more than 2 percent for decay. (See basis for calculating percentages.)

(iii) *Tolerance for mixtures of whole plants and leaves.* Not more than 5 percent, by weight, of the mustard or turnip greens may consist of cut leaves in a lot consisting of plants, or of plants in a lot consisting of cut leaves. (See basis for calculating percentages.)

(iv) *Tolerance for size.* Turnip greens with roots attached shall have not more than 10 percent, by weight, of roots which are larger than the specified maximum size. (See basis for calculating percentages.)

(c) *Unclassified.* Unclassified consists of mustard greens or turnip greens which have not been classified in accordance with the foregoing grade. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(d) *Application of tolerances.* (1) The contents of individual containers in the lot, based on sample inspection, are subject to the following limitations: *Provided,* That the averages for the entire lot are within the tolerances specified.

(i) When a tolerance is 10 percent or more, individual containers in any lot shall have not more than one and one-half times the tolerance specified.

(ii) When a tolerance is less than 10 percent, individual containers in any lot shall have not more than double the tolerance specified.

(e) *Basis for calculating percentages.* (1) Percentages shall be calculated on the basis of weight or an equivalent basis. When mustard greens or turnip greens are packed as plants, each plant shall be considered as a unit. When packed as cut leaves, the individual leaf shall be considered as a unit.

(f) *Definitions.* (1) "Similar varietal characteristics" means that the mustard or turnip greens shall be of one type (such as, crinkly leaf type or smooth leaf type in the case of mustard greens). No mixture of types shall be permitted which materially affects the appearance of the lot.

(2) "Fresh" means that the mustard or turnip leaves are not more than slightly wilted.

(3) "Fairly tender" means that the mustard or turnip greens are not old, tough, or excessively fibrous.

(4) "Fairly clean" means that the appearance of the mustard or turnip greens is not materially affected by the presence of mud, dirt, or other foreign material.

(5) "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the individual plant (with or without roots), the individual cut leaf, or the lot as a whole. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(i) Seedstems were more than one-fourth the length of the longest leaf;

(ii) Discoloration when the appearance of the individual unit is materially affected by discoloration; and,

(iii) Mechanical damage when the individual unit is badly crushed, torn, or broken.

(6) "Firm" means that the root is not soft, flabby, or shriveled.

(7) "Diameter" means the greatest dimension measured at right angles to a line from the center of the crown to the base of the root.

(8) "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the individual plant (with or without roots), the individual cut leaf, or the lot as a whole. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(i) Insects when the unit is noticeably infested or when seriously damaged by them;

(ii) Discoloration when the unit is badly discolored; and,

(iii) Decay.

U. S. STANDARDS FOR GRADES OF FROZEN SQUASH (SUMMER TYPE)[1]

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance, as herein proposed, of United States Standards for Grades of Frozen Squash (Summer Type) pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451, 82d Cong., approved July 5, 1952). These standards, if made effective, will be the first issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed standards should file the same, in duplicate, with the Chief, Processed Products Standardization and Inspection Division, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed standards are as follows:

§ 52.715 *Frozen summer squash*—(a) *Frozen squash.* "Frozen squash" is the fresh, sound, immature product from the squash (summer type) plant hereinafter called squash which has been properly prepared and properly blanched, and is then frozen and maintained at temperatures necessary for the preservation of the product.

(b) *Styles of frozen squash.* (1) Sliced.

(2) Cut.

(c) *Grades of frozen summer squash.* (1) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen squash that possesses similar varietal characteristics; that possesses a good flavor and odor; that possesses a good color; that is practically free from defects; that possesses a good character; and that scores not less than 85 points when scored in accordance with the scoring system outlined in this section.

(2) "U. S. Grade B" or "U. S. Extra Standard" is the quality of frozen squash that possesses similar varietal characteristics; that possesses a reasonably good flavor and odor; that possesses a reasonably good color; that is reasonably free from defects; that possesses a reasonably good character; and that scores not less than 70 points when scored in accordance with the scoring system outlined in this section.

(3) "Substandard" is the quality of frozen squash that fails to meet the requirements of U. S. Grade B or U. S. Extra Standard.

(d) *Ascertaining the grade.* (1) The grade of frozen squash may be ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings for the factors of color, absence of defects, and character.

(2) The relative importance of each scoring factor is expressed numerically on the scale of 100. The maximum number of points that may be given each factor is:

Factors:	Points
(i) Color	20
(ii) Absence of defects	40
(iii) Character	40
Total score	100

(3) The scores for the factors of color, absence of defects, and character are determined immediately after thawing so that the product is sufficiently free from ice crystals to permit proper handling as individual units, and a representative sample of the product is cooked to ascertain tenderness of the frozen squash before final evaluation of the score for character. Flavor and odor are also ascertained on the cooked product.

(4) "Good flavor and odor" means that the product after cooking has a good, characteristic normal flavor and odor and is free from objectionable flavors and objectionable odors of any kind.

(5) "Reasonably good flavor and odor" means that the product after cooking may be lacking in good flavor and odor but is free from objectionable flavors and objectionable odors of any kind.

(e) *Ascertaining the ratings for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

(1) *Color.* (i) Frozen squash that possesses a good color may be given a score of 17 to 20 points. "Good color" means that the color of the squash is bright and typical of young and tender squash of similar varietal characteristics which has been properly processed.

(ii) If the frozen squash possesses a reasonably good color, a score of 14 to 16 points may be given. Frozen squash that falls into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard; regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the color of the squash is typical of reasonably young and tender squash of similar varietal characteristics, which has been properly processed.

(iii) Frozen squash that fails to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(2) *Absence of defects.* (i) The factor of absence of defects refers to the degree of freedom from extraneous vegetable matter, sand, grit, or silt, poorly cut units, and units damaged by discoloration, scars, insect injury, or damaged by any other means.

(a) "Unit" means a whole squash or a portion of a squash.

(b) "Damaged unit" means any unit damaged by discoloration, scars, insect injury, or by any other means to the extent that the appearance or eating quality of the product is materially affected.

(c) "Seriously damaged" means damaged to the extent that the appearance or eating quality of the unit is seriously affected.

(d) "Extraneous vegetable material" means leaves, stems, or other similar vegetable material.

(e) "Poorly cut" means units with attached stems in excess of ¼ inch in

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

length, very ragged units, or units that are less than ½ inch slice.

(f) "Sand, grit, or silt" means any particle of earthy material.

(ii) Frozen squash that is practically free from defects may be given a score of 34 to 40 points. "Practically free from defects" means that the product contains no grit, sand, or silt that affects the eating quality or appearance of the frozen squash and that the presence of damaged and seriously damaged units, extraneous vegetable matter, poorly cut units, or other defects do not materially affect the appearance or edibility of the product.

(iii) If the frozen squash is reasonably free from defects, a score of 28 to 33 points may be given. Frozen squash that falls into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the product may contain a trace of grit, sand, or silt that does not seriously affect the eating quality or appearance of the frozen squash and that the presence of damaged and seriously damaged units, extraneous vegetable matter, poorly cut units, or other defects do not seriously affect the appearance or edibility of the product.

(iv) Frozen squash that fails to meet the requirements of subdivision (iii) of this subparagraph may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(3) *Character.* (i) The factor of character refers to the fleshy texture, the tenderness, and the degree of development of the seeds.

(ii) Frozen squash that possesses a good character may be given a score of 34 to 40 points. "Good character" means that the units are practically intact, are fleshy and tender, that the seeds are in the early stages of maturity, and that not more than 5 percent, by weight, of the units may be of reasonably good character.

(iii) If the frozen squash possesses a reasonably good character, a score of 28 to 33 points may be given. Frozen squash that falls into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably good character" means that the units may show slight disintegration, may have lost to a considerable extent their fleshy texture, may be reasonably tender, and that the seeds may have passed the early stages of maturity.

(iv) Frozen squash that fails to meet the requirements of subdivision (iii) of this subparagraph may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(f) *Tolerance for certification of officially drawn samples.* (1) When certifying samples that have been officially drawn and which represent a specific lot of frozen squash, the grade for such lot will be determined by averaging the total score of all containers, if:

(i) Not more than one-sixth of the containers comprising the sample fails to meet all the requirements of the grade indicated by the average of such total scores, and with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, must be within the range for the grade indicated;

(ii) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(iii) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

(g) *Score sheet for frozen squash (summer type).*

FCC FORM L (ANNUAL REPORT OF LICENSEES IN DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE)

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend FCC Form L (Annual Report of Licensees in Domestic Public Land Mobile Radio Service)[1] in place of that previously used, effective with respect to the reports for 1952. These reports must be filed not later than 90 days after the close of the calendar year.

3. Form L is prescribed by § 1.544 (a) (8), and is required to be filed under the provisions of § 43.21, of the Commission's rules and regulations. Authority for the issuance of the proposed amendment is contained in sections 4 (i) and 219 of the Communications Act of 1934, as amended.

4. The proposed amendment is intended to clarify certain portions of the report form and otherwise improve the usefulness of the report. In order that the Commission may consider the extent of utilization of the licenses granted, an additional requirement is proposed whereby those licensees who operate more than one system (base station plus associated mobile units) will be required to furnish separately, certain data applicable to each such system.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the manner proposed herein, may file with the Commission on or before January 16, 1953, a statement or brief setting forth his comments. At the same time, persons favoring the amendment as proposed may file statements in support thereof. Comments or briefs in reply to the original statements or briefs may be filed within ten days from the last day for filing the original statements. The Commission will consider all such comments before taking action in the matter and, if any comments are submitted which appear to warrant the holding of oral argument, notice of the time and place of such oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and fourteen copies of all statements or briefs filed, plus one extra copy for each party to the proceeding in the case of comments in reply to the original statements or briefs, shall be furnished to the Commission.

SALINE WATER CONVERSION PROGRAM

DECEMBER 15, 1952.

SECTION 1. *Authorizing legislation.* Public Law 448, 82d Congress, authorized a program, "To provide for research into and development of practical means for the economical production, from sea or other saline waters, of water suitable for agricultural, industrial, municipal, and other beneficial consumptive uses and for other purposes."

SEC. 2. *Departmental organization.* (a) A Secretary's Representative on the Saline Water Conversion Program, reporting directly to the Secretary, is established with full responsibility for organizing, coordinating, and carrying forward all phases of the program. This Representative, with his immediate staff assistants, will operate as a part of the Office of the Secretary and shall develop and execute the program with the cooperation of the Bureau of Mines, the Bureau of Reclamation, and the Geological Survey. To assure and assist in coordinating departmental participation, there is created a departmental Saline Water Conversion Committee composed of representatives of the Geological Survey, the Bureau of Mines, the Bureau of Reclamation, and the Division of Water and Power. This committee will assist in the development and review of the Saline Water Conversion Program and in the exchange of information and coordination of activities in connection with the program. In addition, representatives of industry, educational and research institutions, and the public will be invited to advise the Secretary on various aspects of the program.

(b) The designation on June 30, 1952, of Goodrich W. Lineweaver as the Secretary's Representative is hereby confirmed and his acts, consistent with the terms of this order, are accordingly ratified. He shall serve as chairman of the departmental Saline Water Conversion Committee and as liaison with the Secretary's advisers.

SEC. 3. *Program and reports.* The Secretary's Representative on the Saline Water Conversion Program shall recommend for the Secretary's approval a detailed program statement for carrying out the purposes of this legislation setting forth the objectives and the means and time schedule for meeting these objectives. Revisions in this program statement will be made as frequently as necessary to keep it current. At least thirty days before each regular session of Congress, the Secretary's Representative with the advice and assistance of the Saline Water Conversion Committee shall prepare a report outlining a departmental program, the actions taken or instituted by this Department under the provisions of this program, and recommendations for further legislation or administrative action that may be required. This report will be submitted to the Secretary for approval before the beginning of each regular session of Congress.

SEC. 4. *Delegation of authority.* The Secretary's Representative on the Saline Water Conversion Program may exercise any of the powers conferred upon the Secretary of the Interior by sections 2 and 4 of Public Law 448, 82d Congress and is directed to coordinate his activities with those of the Department of Defense as provided in section 3 thereof.

OGALLALA LIVESTOCK COMMISSION CO.

DEPOSTING OF STOCKYARD

It has been ascertained that the Ogallala Livestock Commission Company, Ogallala, Nebraska, originally posted on March 25, 1950, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under said act. The owner of such stockyard has ceased operating a public market at the place at Ogallala, Nebraska, originally posted and is now operating a public market at a new location at Ogallala, Nebraska. Therefore, notice is given to the owner of the stockyard and to the public that the stockyard, originally posted on March 25, 1950, is no longer subject to the provisions of said act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not deposting promptly a stockyard which no longer is within the definition of that term contained in said act.

The foregoing rule is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication thereof in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

LIFETIME INDUSTRIES, INC., ET AL.

MODIFICATION AND TERMINATION

The above-entitled matter having come on for hearing on December 10, 1952, before the Chief Hearing Commissioner, Walter H. Foster, National Production Authority, on a petition for modification and termination of Suspension Order No. 22, heretofore issued in the above-entitled matter on August 5, 1952, the National Production Authority appearing by Joseph Saunders, Esquire, and Jonathan B. Rintels, Esquire, and the petitioners (respondents) appearing by Joseph T. King, Esquire, has been duly heard on the evidence and submitted.

Upon due consideration of said petition and evidence, the Chief Hearing Commissioner having found that full recoupment of the amount of aluminum used by the petitioners (respondents) in violation of orders and regulations of the National Production Authority will have been had by December 31, 1952, and that by reason thereof said Suspension Order No. 22 should be terminated on and as of December 31, 1952;

It is accordingly ordered, That Suspension Order No. 22 be and the same is hereby terminated, such termination to be effective on and as of December 31, 1952.

[Suspension Order 30; Docket No. 29]

BROWN AND GRIST ET AL.

MODIFICATION

Under date of June 23, 1952, John G. Alexander, as General Counsel for the National Production Authority, transmitted to the Chief Hearing Commissioner, a statement of charges in support of an administrative adversary proceeding against Roy G. Brown, R. E. Cassidy, A. W. Grist, R. F. Flaxington, L. E. Wooldridge, and B. J. Utley, Sr., d/b/a Brown and Grist, of Newport News, Va.

The matter was assigned to Samuel H. Crosby, of Arlington, Va., Hearing Commissioner, National Production Authority, for disposition.

Hearing was had thereon July 30, 1952. The Government was represented by Joseph J. Saunders, Assistant General Counsel, National Production Authority, while the respondents appeared in their own behalf.

On September 12, 1952, the aforesaid commissioner handed down an order, accompanied by findings of fact and conclusions, that directed, commencing with October 1, 1952, all regular and unrestricted allotments of aluminum controlled materials made to the respondents by the National Production Authority be reduced by the withholding of 30,908 pounds per quarter for the fourth quarter of 1952 and the first and second calendar quarters of 1953, a total withholding of 92,724 pounds. A payback of 30,908 pounds has been made by said respondents, leaving a balance of 61,816 pounds for repayment by them, under the terms of said order, during the first and second calendar quarters of 1953.

The instant cause has to do with an application filed by the petitioners (respondents in the proceedings below) as of November 26, 1952, under the provisions of subdivision (c) of section 5 of NPA Rules of Practice, 17 F. R. 8156, by King, Noble and Sonosky, of Washington, D. C., counsel for the petitioners herein, the prayer of which is that the aforesaid order of September 12, 1952, be revoked to the extent that it requires repayment of the balance of 61,816 pounds.

Oral argument was heard December 11, 1952, on the above-identified application by Morris R. Bevington, Deputy Chief Hearing Commissioner, National Production Authority. Marion J. Sonosky, of the aforesaid law firm of King, Noble and Sonosky, appeared for the petitioners, while Joseph J. Saunders, Assistant General Counsel, appeared for the National Production Authority.

It appears from the record that the petitioners herein (the respondents in the proceedings below) initially applied for an allotment for use in the second quarter of 1952 under an erroneous assumption that part of their products were "A" products and not properly included in the application. It further appears that had the petitioners adduced evidence of the rated orders which it had on hand it could have obtained aluminum in addition to the amount allotted to it for the second quarter 1952 in an amount of approximately 38,000 pounds. No evidence respecting this credit was introduced in the initial proceeding. It is the opinion of the Commissioner that such amount should be considered as a credit against the amount of aluminum involved in the suspension order herein.

As disclosed by the record the figures used in the initial proceedings represented an arithmetical computation. Due allowance for this situation has been made by counsel for the Government who has recommended that any balance to be paid back by the petitioners be limited to twenty some thousand pounds. The Commissioner is in general accord with the foregoing recommendations and fixes such balance at an even 20,000 pounds.

Accordingly, the following terms of Suspension Order No. 30, Docket No. 29, issued September 12, 1952, to wit:

> In like manner 30,908 pounds shall be withheld from each of two succeeding quarterly allotments, to wit, during the first calendar quarter of 1953; and 30,908 pounds during the second calendar quarter of 1953. In any event, the effect of this order shall expire by limitation June 30, 1953.

are, under the provisions of the above cited subdivision (c) of NPA Rules of Practice, 17 F. R. 8156, hereby revoked, set aside and held for naught, and in lieu thereof it is provided that allotments of aluminum made or to be made to the petitioners (i. e., respondents in the matter of National Production Authority vs. Brown and Grist) for each of the quarters of 1953 be reduced by 5,000 pounds in each of said quarters.

This order of modification shall be effective immediately.

Dated: December 15, 1952.

By MORRIS R. BEVINGTON,
Deputy Chief Hearing Commissioner.

[Suspension Order 51; Docket No. 60]

CLARIN MANUFACTURING CO. ET AL.

SUSPENSION ORDER

A hearing was held in the above-entitled matter on November 26, 1952, at Chicago, Ill., before Bernard D. Meltzer, a hearing commissioner of the National Production Authority, on a statement of charges made by the General Counsel, National Production Authority in accordance with the National Production Authority's General Administrative Order 16–06, as amended (16 F. R. 8628), which has been redesignated as Rules of Practice 1, Revised (17 F. R. 8156).

The respondents, Clarin Manufacturing Co., a corporation organized under the laws of Illinois, and P. H. Early, had been duly apprised of the specific violations charged, had been duly informed of the rules and procedures which govern these proceedings and of the administrative action which might be taken, and had filed their answers to the charges herein.

The National Production Authority was represented by Berthold J. Harris, Esquire, regional attorney; and the respondents were represented by Jacob H. Jaffe, Esquire, and David H. Mendelsohn, Esquire.

The Charges: At the hearing, on the motion of the attorney for the National Production Authority, and with the consent of the attorneys for the respondents, Charge 2 was stricken; Charge 3 was amended to charge that the corporate respondent, in the calendar quarter beginning April 1, 1952, had placed authorized controlled material orders for a total of 688½ tons of carbon steel, which was 148½ tons in excess of the related allotment received by the corporate respondent; Charge 8 was amended to charge that in the calendar quarter beginning July 1, 1951, the corporate respondent had placed authorized controlled material orders for a total of 300 pounds of aluminum powder, for which it had received no allotment. The substance of the remaining unamended charges is indicated below under Findings of fact—Conclusions.

By stipulation between the attorney for the National Production Authority and the attorneys for the respondents, it was agreed that:

(1) In the calendar quarter beginning July 1, 1951, the corporate respondent placed authorized controlled material orders for a total of 242½ tons of carbon steel, which was 110½ tons in excess of the related allotment received by the corporate respondent;

(2) In the calendar quarter beginning April 1, 1952, the corporate respondent placed authorized controlled material orders for a total of 688½ tons of carbon steel, which was 148½ tons in excess of the related allotment received by the corporate respondent;

(3) In the calendar quarter beginning January 1, 1952, the corporate respondent placed authorized controlled material orders totalling 700 pounds of nickel-bearing stainless steel, for which it had received no allotment.

On the basis of the evidence submitted during the aforementioned hearing, it is hereby determined that:

Findings of fact—Conclusions: 1. During the calendar quarter beginning July 1, 1951, and during the calendar quarter beginning April 1, 1952, the corporate respondent placed authorized controlled material orders in excess of the total allotments received by it for said periods, by placing orders for a total of 931 tons of carbon steel although it was entitled to order only a total of 682 tons of carbon steel during both of the above-described calendar periods, thereby ordering 249 tons in excess of the related allotments received by it. By this action the corporate respondent, as specifically set forth in Charge 1 and Charge 3, as amended, of the charges herein, violated section 19 (f) of the CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860).

2. During the calendar quarter beginning January 1, 1952, the corporate respondent placed authorized controlled material orders for 700 pounds of nickel-bearing stainless steel, for which it had not received any allotment. By this action, the corporate respondent, as set forth in Charge 4 herein, violated sections 3 (c) and 19 (f) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860).

3. During the calendar quarter beginning January 1, 1952, the corporate respondent used the aforesaid nickel-bearing stainless steel in the manufacture of items of furniture. By this action the corporate respondent, as set forth in Charge 9 herein, violated section 2, and subheading A–I, of National Production Authority Order M–80, Schedule A, issued August 15, 1951 (16 F. R. 8171), reissued effective March 12, 1952 (17 F. R. 2178). The respondent's defense to this charge, viz, that this material was used for experimental work on furniture which was not resold, has no merit.

4. During the last two calendar quarters of 1951, the corporate respondent placed authorized controlled material orders for a total of 1,700 pounds of copper powder and 500 pounds of aluminum powder, for which it had not received any allotments. By this action the corporate respondent, as specifically set forth in Charges 5, 6, and 8, as amended, of the charges herein, violated sections 3 (c) and 19 (f) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860).

5. During the calendar quarter beginning January 1, 1952, the corporate respondent placed authorized controlled material orders in excess of the allotment received by it for said period, by placing orders for 500 pounds of copper powder, which was 152 pounds in excess of the related allotment received by it. By this action the corporate respondent, as set out in Charge 7 herein, violated section 19 (f) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860).

6. The corporate respondent failed to return unused allotments of carbon steel amounting to 33 3/10 tons within 10 days after the end of the first calendar quarter of 1952, or at any time prior thereto or thereafter; the corporate respondent failed to return unused allotments of 634 pounds of copper powder and 500 pounds of aluminum powder within 10 days after the end of the second calendar quarter of the year 1952, or at any time prior thereto or thereafter. By these omissions, the corporate respondent, as set out in Charges 10 and 11 herein, violated section 18 (b) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 11860).

7. The evidence failed to establish actual knowledge by the corporate respondent that it was violating the regulations governing orders for, and the use of, controlled materials. The evidence did, however, show a plain failure by the corporate respondent to take reasonable steps to insure compliance with the pertinent regulations.

8. The evidence failed to establish that P. H. Early, the individual respondent herein, during the relevant period, dominated, managed, or controlled the corporate respondent; nor did the evidence establish that P. H. Early directed, supervised, or participated in the violations found above. Accordingly, Charge 12, herein, alleging such control and participation, is dismissed.

In order to correct the unauthorized ordering and use of controlled materials found herein, *It is hereby ordered that:*

Order 1. All allotments and allocations of carbon steel to the corporate respondent and its successors or assigns, including all privileges of self-authorization, self-certification, and automatic allotment, shall be, and hereby are, reduced by 125 tons during the first calendar quarter of 1953, and by 124 tons during the second calendar quarter of 1953.

2. The corporate respondent and its successors or assigns, shall be, and hereby are, prohibited from using any nickel-bearing stainless steel during the first and second calendar quarters of 1953.

3. All allotments and allocations of copper powder to the corporate respondent and its successors and assigns, including all privileges of self-authorization, self-certification, and automatic allotment, shall be, and hereby are, reduced by 926 pounds during the first calendar quarter of 1953, and by the same amount during the second calendar quarter of 1953.

4. All allotments and allocations of aluminum powder to the corporate respondent and its successors or assigns, including all privileges of self-authorization, self-certification, and automatic allotment, shall be, and hereby are, reduced by 250 pounds during the first calendar quarter of 1953, and by the same amount during the second calendar quarter of 1953.

Issued at Chicago, Ill., this 10th day of December 1952.

NATIONAL PRODUCTION AUTHORITY,

Hearing Commissioner.

FEDERAL COMMUNICATIONS COMMISSION

CHIEF, COMMON CARRIER BUREAU

DELEGATION OF AUTHORITY TO DESIGNATE APPLICATIONS FILED BY TELEPHONE COMPANIES FOR HEARING AND TO GIVE APPROPRIATE NOTICE THEREOF

In the matter of amendment of the Commission's Statement of Delegation of Authority to provide authorization for the Chief of the Common Carrier Bureau to designate applications filed by telephone companies under section 221 (a) of the Communications Act of 1934, as amended, for public hearing, and to give appropriate notice as provided by that section.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of December 1952:

The Commission, having under consideration the matter of processing applications filed with it by domestic telephone companies for authority under section 221 (a) of the Communications Act of 1934, as amended, to consolidate their properties or a part thereof into a single company, or for authority for one or more such companies to acquire the whole or part of the property of another telephone company or other telephone companies or the control thereof by the purchase of securities, or by lease or in any other like manner; and the requirements of that section that the Commission shall fix a time and place for public hearing on such applications, and shall thereupon give reasonable notice in writing to the Governor of each of the States in which the physical property affected, or any part thereof, is situated, and to the State commission having jurisdiction over telephone companies, and to such other persons as it may deem advisable;

It appearing, that it would facilitate the prompt and orderly handling of the Commission's business to delegate to the Chief of the Common Carrier Bureau authority to designate such applications for public hearing, and to give appropriate notice as required under the provisions of section 221 (a) of the Communications Act;

It further appearing, that notice of proposed rule making and public rule making procedure may be omitted in accordance with section 4 (a) of the Administrative Procedure Act as being unnecessary since the rule herein relates to internal Commission organization and procedure and is not substantive in nature;

It further appearing, that authority for the proposed rule is contained in sections 4 (i) and 5 (d) (1) of the Communications Act of 1934, as amended;

It is ordered, That, effective December 10, 1952, authority is hereby delegated to the Chief, Common Carrier Bureau to fix a time and place for public hearings on applications filed by telephone companies under section 221 (a) of the Communications Act of 1934, as amended, and to give reasonable notice in writing to the Governor of each of the States in which the physical property affected, or any part thereof, is situated, to the State commission having jurisdiction over telephone companies, and to such other persons as he may deem advisable.

ALBUQUERQUE BROADCASTING CO. (KOB)

ORDER CONTINUING HEARING

In re application of Albuquerque Broadcasting Company (KOB), Albuquerque, New Mexico, Docket No. 10336, File No. BSSA-275; for extension of special service authorization.

The Commission having under consideration the motion of the applicant, filed November 25, 1952, that the hearing upon its application, which is presently scheduled for December 10, 1952, be continued to January 21, 1953;

It appearing, that comprehensive engineering studies are required in order to meet the issues governing the proceeding and that approximately six weeks beyond December 10, 1952, are necessary to enable the moving party to complete such studies;

It appearing further, that counsel for the Commission's Broadcast Bureau and for Westinghouse Radio Stations, Inc. (WBZ) consent to the continuance herein sought, and that American Broadcasting Company (WJZ), while insisting that the special service authorization involved should be terminated forthwith, agrees that since the Commission, over its protest, has directed a hearing upon the instant application for such authorization and has extended same, the moving party should be allowed additional time within which to prepare its case;

It is ordered, This 3d day of December 1952, that the motion under consideration is granted, and that the hearing upon the above-entitled application is continued to January 21, 1953.

LYMAN BROWN ENTERPRISES

ORDER SCHEDULING ORAL ARGUMENT

In re application of Lyman C. Brown tr/as Lyman Brown Enterprises, Brownwood, Texas., Docket No. 10069, File No. BP-8149; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of December 1952;

The Commission having under consideration the Initial Decision in the above-entitled proceeding, released July 1, 1952; the exceptions and request for oral argument by Radio and News, Inc. (KXOX), Sweetwater, Texas, a party respondent, filed August 6, 1952; motions to strike the KXOX exceptions by Lyman C. Brown, the applicant herein, and by the Chief of the Commission's Broadcast Bureau, filed August 15 and 18, 1952, respectively; and the opposition to the motions to strike by Radio and News, Inc. (KXOX) filed August 21, 1952; and

It appearing, that upon review of this proceeding and the issues raised in the foregoing pleadings, the Commission can best dispose of said issues after hearing oral argument thereon by the participants; and that therefore the proceeding should be scheduled for oral argument and the participants afforded an opportunity to address themselves not only to the Initial Decision and the exceptions thereto, but also to the issues raised in the foregoing pleadings;

It is ordered, That oral argument in this proceeding is scheduled for February 16, 1953, commencing at 10:00 a. m.; and that the participants herein are afforded an opportunity to address themselves not only to the Initial Decision and the exceptions filed thereto, but also to the issues raised by the foregoing pleadings.

CITIES SERVICE GAS CO.

ORDER FIXING DATE OF HEARING

On June 11, 1952, Cities Service Gas Company (Applicant), a Delaware corporation having its principal place of business in Oklahoma City, Oklahoma, filed an application and, on October 20 and November 17, 1952, supplements thereto, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural gas transmission facilities subject to the jurisdiction of the Commission, as described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Applicant having requested that its application be heard under under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on June 24, 1952 (17 F. R. 5681).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on January 7, 1953, at 9:45 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C., concerning the matters involved and the issues presented by such application as supplemented: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested state commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: December 16, 1952.

[Project No. 2110]

CONSOLIDATED WATER POWER CO.

NOTICE OF APPLICATION FOR LICENSE

DECEMBER 15, 1952.

Public notice is hereby given that Consolidated Water Power Company, of Wisconsin Rapids, Wisconsin, has made application for license under the provisions of the Federal Power Act (16 U. S. C. 791-825r) for constructed Project No. 2110, known as the Stevens Point project, on the Wisconsin River at Stevens Point, in Portage County, Wisconsin. The project consists of a dam across the river composed of a powerhouse section, a gated spillway section, and a nonoverflow section, flanked on the left bank by a concrete gravity wall about 1,022 feet long and an earthen embankment about 1,490 feet long, and on the right bank by an earthen embankment about 2,600 feet long; a concrete overflow weir across Rocky Run; a powerhouse containing six 1,140-horsepower turbines each connected to a 640-kilowatt generator; a transformer station; three 44-kv transmission lines extending to Wisconsin Rapids, Village of Whiting, and a substation in Stevens Point; and appurtenant facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before the 12th day of January 1953. The application is on file with the Commission for public inspection.

PACIFIC POWER & LIGHT CO.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

DECEMBER 15, 1952.

Public notice is hereby given that Pacific Power & Light Company, of Portland, Oregon, has made application for preliminary permit pursuant to the provisions of the Federal Power Act (16 U. S. C. 791-825r) for a proposed hydroelectric project, designated as Project No. 2112, on Lewis River, in Skomania County, Washington, affecting public lands and lands of the United States within the Gifford Pinchot National Forest. The proposed project, to be known as the Muddy Power Development, would consist of a spillway-equipped rockfill dam about 200 feet high creating a reservoir having usable storage of about 100,000 acre-feet; a power tunnel about 16,000 feet long; a surge tank and two penstocks; a powerhouse to house 2 vertical turbine-generator units each tentatively rated at 17,500 kw; and appurtenant facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accord-

ance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before the 23d day of January 1953. The application is on file with the Commission for public inspection.

SECRETARY OF DEFENSE

DELEGATION OF AUTHORITY TO ENFORCE COMPLIANCE WITH TERMS AND CONDITIONS OF CERTAIN TRANSFERS OF PROPERTY MADE FOR USE OF CIVILIAN COMPONENTS OF THE ARMED FORCES

1. Pursuant to the authority vested in me by section 205 (d) of the Federal Property and Administrative Services Act of 1949 (Pub. Law 152, 81st Cong.), as amended, hereinafter called the act, and subject to the disapproval of the Administrator of General Services within thirty days after notice to him of any action to be taken hereunder, authority is hereby delegated to the Secretary of Defense to exercise the following authority in the case of property transferred pursuant to said act to States, political subdivisions, and tax-supported instrumentalities thereof for use in the training and maintenance of civilian components of the armed forces:

a. To determine and enforce compliance with the terms, conditions, reservations, and restrictions contained in any instrument by which such transfer was made;

b. To reform, correct, or amend any such instrument by the execution of a corrective, reformative, or amendatory instrument where necessary to correct such instrument or to conform such transfer to the requirements of applicable law; and

c. To (1) grant releases from any of the terms, conditions, reservations, and restrictions contained in, and (2) convey, quitclaim, or release to the transferee or other eligible user any right or interest reserved to the United States by, any instrument by which such transfer was made, if he determines that the property so transferred no longer serves the purpose for which it was transferred, or that such release, conveyance, or quitclaim deed will not prevent accomplishment of the purpose for which such property was so transferred: *Provided*, That any such release, conveyance, or quitclaim deed may be granted on, or made subject to, such terms and conditions as he shall deem necessary to protect or advance the interests of the United States.

2. The Secretary of Defense is hereby authorized to redelegate any of the authority contained herein to any officer, official or employee of the Department of Defense.

3. This delegation of authority shall be effective as of July 1, 1949.

[File No. 70-2864]

COLUMBIA GAS SYSTEM, INC., AND KEYSTONE GAS COMPANY, INC.

ORDER AUTHORIZING ISSUANCE AND SALE OF INSTALLMENT PROMISSORY NOTES BY SUBSIDIARY AND ACQUISITION THEREOF BY PARENT COMPANY

DECEMBER 16, 1952.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and the Keystone Gas Company, Inc. ("Keystone"), a subsidiary company of Columbia, having filed a joint application with the Commission pursuant to sections 6 (b), 9 and 10 of the Public Utility Holding Company Act of 1935 with respect to the following proposed transactions:

Keystone proposes to issue and sell and Columbia proposes to acquire, at par, $100,000 principal amount of 3⅜ percent Installment Promissory Notes, the proceeds from which will be used by Keystone for the purpose of financing a part of its 1952 construction program estimated to cost $147,800.

In addition, it is proposed that Keystone's outstanding 2¾ percent open-account loans in the principal amount of $100,000, owing to Columbia be funded into long-term securities. Keystone proposes to issue and Columbia proposes to acquire, at par, $100,000 principal amount of 3⅜ percent Installment Promissory Notes as payment and liquidation of the aforementioned open-account loans.

Keystone represents that the said Notes would be registered and the principal amounts thereof would be payable in twenty-five equal annual installments on February 15 of each of the years 1954 to 1978, inclusive. Interest on the unpaid principal amount thereof, at the rate of 3⅜ percent per annum, would be payable semi-annually on February 15 and August 15.

The proposed transactions having been expressly authorized by the Public Service Commission of the State of New York by order dated November 17, 1952; and

Said application having been filed on May 5, 1952, an amendment thereto having been filed on December 10, 1952, notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said joint application, as amended, within the period specified, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said joint application, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application, as amended, be granted, effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said joint application, as amended, be, and the same hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

FIRST YORK CORP.

NOTICE OF APPLICATION

DECEMBER 16, 1952.

Notice is hereby given that the Equity Corporation (Equity), a Delaware corporation and a closed-end management company registered under the Investment Company Act of 1940, has filed for and on behalf of the First York Corporation (First York), a former Delaware corporation, presently registered under the act as a closed-end management company, an application pursuant to section 8 (f) of the act for an order declaring that First York has ceased to be an investment company within the meaning of the act.

It appears that the merger of First York into Equity was authorized by the stockholders of each such corporation representing two-thirds of its outstanding capital stock at special meetings held on October 31, 1952, and that the merger of First York with and into Equity, Equity surviving the merger, became effective under the General Corporation Law of Delaware on November 3, 1952, the separate existence of First York ceasing upon that date.

For a more detailed statement of the matters of fact and law asserted, all interested persons are referred to said application which is on file in the office of the Commission in Washington, D. C.

Notice is further given that an order granting the application upon such conditions as the Commission may deem necessary for the protection of investors may be issued by the Commission at any time on or after December 30, 1952, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than December 29, 1952, at 5:30 p. m., submit in writing to the Commission his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reason for such a request, and the issue of fact or law raised by the application which he desires to controvert.

COLUMBIA GAS SYSTEM, INC., AND BINGHAMTON GAS WORKS

ORDER AUTHORIZING AMENDMENT OF CERTIFICATE OF INCORPORATION OF SUBSIDIARY COMPANY AND ISSUANCE AND SALE OF COMMON STOCK BY SUBSIDIARY COMPANY AND ACQUISITION BY PARENT COMPANY

DECEMBER 16, 1952.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and Binghamton Gas Works ("Binghamton"), a subsidiary company of Columbia, having filed a joint application-declaration and an amendment thereto with the Commission pursuant to sections 6 (b), 9, 10, 12 (c) and 12 (d) of the Public Utility Holding Company Act of 1935 and Rules U-42 and U-44 promulgated thereunder with respect to the following transactions:

Binghamton proposes to amend its Certificate of Incorporation so as to (a) eliminate its 3,479 shares of authorized but unissued preferred stock, (b) reclassify its 45,000 shares of common stock without par value (Old Common Stock) now authorized and outstanding into 27,000 shares of common stock, par value $25 per share (New Common Stock), and (c) increase its total authorized capital stock to 80,000 shares of New Common Stock, par value $25 per share.

Binghamton further proposes to issue and sell and Columbia proposes to acquire for cash 24,000 shares of New Common Stock. The proceeds to be derived from the sale of such New Common Stock by Binghamton ($600,000) will be used to finance, in part, its 1952 construction program which is estimated to cost $1,014,450.

The proposed transactions having been expressly authorized by the Public Service Commission of the State of New York by order dated November 17, 1952; and

Said application-declaration having been filed on May 6, 1952, an amendment thereto having been filed on December 10, 1952, notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said joint application-declaration, as amended, within the period specified, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said joint application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application-declaration, as amended, be granted and permitted to become effective:

It is ordered, pursuant to Rule U-23 and the applicable provisions of the act, that said joint application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

SELECTED SECURITIES CORP.

NOTICE OF APPLICATION

DECEMBER 16, 1952.

Notice is hereby given that Selected Securities Corporation ("Applicant") has filed an application pursuant to section 8 (f) of the Investment Company Act of 1940 for an order of the Commission declaring that it has ceased to be an investment company within the meaning of the act.

It appears from the application that applicant's outstanding securities are beneficially owned by only 96 shareholders, and it is not making and does not presently propose to make a public offering of its securities. Section 3 (c) (1) of the act provides that any issuer whose outstanding securities are beneficially owned by not more than 100 persons and does not presently propose to make a public offering of its securities is not an investment company within the meaning of the act.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may see fit to impose, may be issued by the Commission at any time after December 31, 1952, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested persons may, not later than December 29, 1952, at 5:30 p. m., e. s. t., in writing submit to the Commission his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. (1) The motion pictures listed in said Exhibits A and B including, but not limited to, the exclusive right to exhibit same in whole or in part by any means within the United States, all rights to arrange, adapt, revise, translate, and duplicate said motion pictures in whole or in part, and every copyright, claim of copyright, right to copyright, and right to renew the copyright or copyrights in said motion pictures.

(2) The screen plays, scenarios, and shooting scripts upon which said motion pictures are based, including, but not limited to, all motion picture and television rights therein, and every copyright, claim of copyright, right to copyright, and right to renew the copyright or copyrights in said screen plays, scenarios, and shooting scripts.

(3) The rights to dramatize, perform, represent, and reproduce on motion picture film those portions of the published and unpublished works subject to copyright, other than the above mentioned screen plays, scenarios, and shooting scripts, which underlie or are embodied in said motion pictures and to exhibit such film by any means in the United States.

(4) All prints of the motion pictures (including any and all versions thereof) listed in said Exhibit A in the possession or under the control of Samuel Cummins and/or Jewel Productions, Inc., both of 165 West 46th Street, New York, New York, or the assigns of either or both of them.

(b) All right, title, interest, and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of the persons referred to in subparagraph 1 hereof and also of all other persons (including individuals, partnerships, associations, corporations or other business organizations) who were on or since December 11, 1941, and prior to January 1, 1947, citizens and residents of, or which were on or since December 11, 1941, and prior to January 1, 1947, organized under the laws of or had their principal places of business in Germany and are, and prior to January 1, 1947, were nationals of such designated enemy country, in, to and under the following:

(1) All prints in the United States of the motion pictures listed in said Exhibits A and B

(2) All arrangements, adaptations, revisions, dramatizations, translations, and versions of the motion pictures listed in said Exhibits A and B

(3) Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to the property described in subparagraphs 2 (a), 2 (b) (1) and 2 (b) (2) of this Vesting Order

(4) All monies and amounts, and all rights to receive monies and amounts, by way of damages, royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to the property described in subparagraphs 2 (a) and 2 (b), of this Vesting Order, and

(c) All causes of action accrued or to accrue at law or in equity with respect to the property described in subparagraphs 2 (a) and 2 (b) hereof, including but not limited to the rights to sue for and recover all damages and profits and to request and receive the benefits of all remedies provided by common law and by statute for the infringement of any copyright, for the violation of any right and for the breach of any obligation described in or affecting the aforesaid property

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the persons referred to in subparagraphs 1 and 2 (b) hereof, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the persons referred to in subparagraph 1 hereof be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described in subparagraph 2 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on November 26, 1952.

Any one singly or in combination with not more than four of the following fruits and fruits in Group I: [2]

Apple (type II only).
Apricot.
Cranberry.
Damson, damson plum.
Fig.
Gooseberry.
Greengage, greengage plum.
Guava.
Nectarine.
Peach (clingstone and freestone).
Pear.
Plum (other than greengage plum and damson plum).
Quince.
Red currant, currant (other than black currant).

(c) *Grades of fruit preserves (or jams).* (1) "U. S. Grade A" or "U. S. Fancy" is the quality of fruit preserves (or jams) that possess a good consistency; that possess a good color; that are practically free from defects; that possess a good flavor; and that score not less

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

[2] In accordance with the limits specified in the definitions and standards of identity for preserves, jams. (21 CFR, Cum. Supp. 29.3, as amended.)

than 85 points when scored in accordance with the scoring system outlined in this section.

(2) "U. S. Grade B" or "U. S. Choice" is the quality of fruit preserves (or jams) that possess a reasonably good consistency; that possess a reasonably good color; that are reasonably free from defects; that possess a fairly good flavor; and that score not less than 70 points when scored in accordance with the scoring system outlined in this section.

(3) "Substandard" is the quality of fruit preserves (or jams) that fail to meet the requirements of U. S. Grade B or U. S. Choice.

(d) *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that each container be filled with fruit preserves (or jams) as full as practicable without impairment of quality and that the product occupy not less than 90 percent of the volume of the container.

(e) *Ascertaining the grade.* (1) The grade of fruit preserves (or jams) is ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings for the factors of consistency, color, absence of defects, and flavor.

(2) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors:	Points
(i) Consistency	20
(ii) Color	20
(iii) Absence of defects	20
(iv) Flavor	40
Total score	100

(f) *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

(1) *Consistency.* The factor of consistency refers to the extent of the dispersion and size of the fruit or fruit particles throughout, and the gel-like properties of the product.

(i) Fruit preserves (or jams) that possess a good consistency may be given a score of 17 to 20 points. "Good consistency" means that the fruit or fruit particles are dispersed uniformly throughout the product; that the product is a tender gel or may possess no more than a very slight tendency to flow, except that a slightly less viscous consistency may be present when the fruit is chiefly in the form of whole or almost whole units; and that in the following kinds the product does not have a macerated or pureed appearance but in appearance and eating quality consists of whole units or pieces of fruit particles as indicated for the respective kinds, either singly or in combination with any other kind:

Apricot: Halves or pieces or combinations thereof.

Cherry: Whole or almost whole pitted cherries or combinations thereof.

Gooseberry: Whole or almost whole berries or combinations thereof.

Peach (clingstone and freestone): Slices or pieces or combinations thereof.

Pineapple: Crushed pieces or small pieces or combinations thereof.

Strawberry: Whole or almost whole berries or combinations thereof.

(ii) If the fruit preserves (or jams) possess a reasonably good consistency, a score of 14 to 16 points may be given. Fruit preserves (or jams) that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably good consistency" means that the fruit or fruit particles are dispersed reasonably uniformly throughout the product; and that the product may be firm but not rubbery or may be noticeably viscous but not excessively thin.

(iii) Fruit preserves (or jams) that fail to meet the requirements for subdivision (ii) of this subparagraph may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(2) *Color.* (i) Fruit preserves (or jams) that possess a good color may be given a score of 17 to 20 points. "Good color" means that the color is bright, practically uniform throughout, and characteristic of the variety or varieties of the fruit ingredients; and that the product is free from dullness of color due to any cause (including, but not being limited to, oxidation or improper processing or improper cooling).

(ii) If the fruit preserves (or jams) possess a reasonably good color, a score of 14 to 16 points may be given. Fruit preserves (or jams) that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the color is reasonably bright, reasonably uniform throughout, and characteristic of the variety or varieties of the fruit ingredients; however, the color may be slightly dull but may not be off color due to oxidation or improper processing or improper cooling or other causes.

(iii) Fruit preserves (or jams) that for any reason fail to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(3) *Absence of defects.* The factor of absence of defects refers to the degree of freedom, in the applicable kinds, from substances ordinarily removed in the preparation for the manufacture of fruit preserves (or jams) and includes, but is not limited to, caps, leaves, stems, seeds, pits, peel, or any portions thereof; from blemished units, underdeveloped units, or otherwise damaged units; and from any defects not specifically mentioned that affect the appearance or edibility of the product.

(i) A "cluster of cap stems" means three or more joined cap stems.

(ii) A "cap" means a loose or attached full cap or a portion of a cap to which at least one sepal-like bract or portion thereof is attached. A short stem that is attached to a cap is considered a part of that cap.

(iii) A "short stem" means a stem that is ⅛ inch or less in length and which may include the center portion of a cap to which no sepal-like bract or portion thereof is attached. A short stem that is attached to a cap is considered a part of that cap.

(iv) A "small stem" means a stem that is longer than ⅛ inch but not more than ¼ inch in length. A small stem that is attached to a cap is considered as a defect separate from that cap.

(v) A "medium stem" means a stem that is longer than ¼ inch but not more than ½ inch in length. A medium stem that is attached to a cap is considered as a defect separate from that cap.

(vi) A "long stem" means a stem that is longer than ½ inch in length. A long stem that is attached to a cap is considered as a defect separate from that cap.

(vii) A "woody base-stem" means any stem in grape preserves (or jams) with an enlarged woody base approximating 1/16 inch or more in diameter.

(viii) "Peel" means, with respect to these fruits, such as apples and peaches, that are commonly prepared for the manufacture of fruit preserves (or jams) by the removal of the skin or peel, any skin or peel whether or not it is attached.

(ix) "Seeds" means, with respect to these fruits, such as apples, grapes, and pears, that are prepared for the manufacture of fruit preserves (or jams) by the removal of the seeds, the seeds of such fruit. "Seeds" in fruit preserves (or jams) prepared from citrus fruits means any seed or any portion thereof, whether or not fully developed, that measures more than 3/16 inch in any dimension. Seeds are not considered as defects in

fruit preserves (or jams) prepared from such fruits as figs and tomatoes.

(x) "Pit" means, with respect to those fruits, such as apricots, cherries, plums, and peaches, that are prepared for the manufacture of fruit preserves (or jams) by the removal of the pits, a whole, intact pit. Portions of pits include:

(*a*) A "piece of pit" which means any portion of a pit that is more than ½ inch in any dimension;

(*b*) A "small piece of pit" which means any portion of a pit that is not less than ¼ inch nor more than ½ inch in any dimension;

(*c*) And a "pit fragment" which means any portion of a pit that is less than ¼ inch in any dimension.

(xi) "Blemished, underdeveloped, or otherwise damaged" means units of fruit in which the appearance or edible quality is damaged or blemished because of discolored skin, bruised spots, dark particles, insect or similar injury, hard areas, or units that are hard and shrivelled or damaged by mechanical, pathological, or other injury.

(xii) Fruit preserves (or jams) that are practically free from defects may be given a score of 17 to 20 points. "Practically free from defects" means with respect to:

(*a*) Type II and any kind or kinds with a macerated or pureed appearance (whether of Type I or II), that the defects do not materially affect the appearance or edibility of the product; and

(*b*) Type I, that the defects and defective units as applicable do not exceed the allowances for U. S. Grade A as specified in Tables I, II, III, or IV of this section and that any defects whether or not specifically mentioned in such tables do not materially affect the appearance or edibility of the product.

(xiii) If the fruit preserves (or jams) are reasonably free from defects, a score of 14 to 16 points may be given. Fruit preserves (or jams) that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means with respect to:

(*a*) Type II and any kind or kinds with a macerated or pureed appearance (whether of Type I or II), that the defects do not seriously affect the appearance or edibility of the product; and

(*b*) Type I, that the defects and defective units as applicable do not exceed the allowances for U. S. Grade B as specified in Tables I, II, III, or IV of this section and that any defects whether or not specifically mentioned in such tables do not seriously affect the appearance or edibility of the product.

(xiv) Fruit preserves (or jams) that fail to meet the requirements for subdivision (xiii) of this subparagraph may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product. (This is a limiting rule.)

(xv) Ascertaining compliance with, and explanation of, allowances in Tables I, II, III, and IV:

(*a*) The term "ounces" refers to "ounces of net weight" of any individual container, of the average net weight of all the containers, or of the aggregate net weight of all the containers comprising the sample as may be applicable. The allowances as stated may be interpolated into other equivalents for containers of other sizes or on an aggregate basis.

(*b*) When the unit of the allowance, such as "per 200 ounces", is greater than in individual containers, the net weight of all containers in the sample may be aggregated to arrive at the approximate quantity by which to determine compliance with the stated allowance. For example, in a lot consisting of approximate 8-oz. net weight containers and with defects permitted in "1 per 200 ounces", such defect would be permitted in a total of not less than twenty-five 8-oz. containers (approximately 200 ounces in the aggregate).

(*c*) An occasional defect may be permitted if all the containers in a sample in the aggregate constitute a net weight less than the unit of allowance, provided such defect, singly or in combination with other defects, no more than slightly affects the appearance or edibility of the product.

(4) *Flavor.* (i) Fruit preserves (or jams) that possess a good flavor may be given a score of 34 to 40 points. "Good flavor" means:

(*a*) that the product possesses a good and distinct flavor; and

(*b*) that the flavor is characteristic of the applicable kind of fruit ingredient or applicable kinds of fruit ingredient or applicable kinds of fruit ingredients.

(ii) If the fruit preserves (or jams) possess a fairly good flavor, a score of 28 to 33 points may be given. Fruit preserves (or jams) that fall into this classification shall not be graded above U. S. Grade B of U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Fairly good flavor" means:

(*a*) that the product possesses a flavor reasonably characteristic of the applicable kind of fruit ingredient or applicable kinds of fruit ingredients; and

(*b*) may possess a slightly caramelized flavor but is free from any bitter flavor or other objectionable flavor or off flavor of any kind.

(iii) Fruit preserves (or jams) that fail to meet the requirements of subdivision (ii) of this subparagraph may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

(*g*) *Tolerances for certification of officially drawn samples.* (1) When certifying samples that have been officially drawn and which represent a specific lot of fruit preserves (or jams), the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if:

(i) Not more than one-sixth of such containers fails to meet all the requirements of the grade indicated by the average of such total scores, and, with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, is within the range for the grade indicated;

(ii) None of the containers comprising the sample fall more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(iii) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.603 *Orange Regulation 227*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than December 29, 1952. Shipments of oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until December 29, 1952; the recommendation and supporting information for continued regulation subsequent to December 28 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on December 16; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., December 29, 1952, and ending at 12:01 a. m., e. s. t., January 12, 1953, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than $2^{10}/_{16}$ inches in diameter, measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges, smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Florida Oranges (§ 51.302 of this title; 17 F. R. 7879): *Provided*, That in determining the percentage of oranges in any lot which are smaller than $2^{10}/_{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size $2^{1}/_{16}$ inches in diameter and smaller.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the term "U. S. No. 1 Russet" shall have the same meaning as when used in the revised United States Standards for Florida Oranges (§ 51.302 of this title; 17 F. R. 7879).

(3) Shipments of Temple oranges, grown in the State of Florida, are subject to the provisions of Orange Regulation 225 (7 CFR 933.596; 17 F. R. 10438).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.604 *Grapefruit Regulation 172*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than December 29, 1952. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until December 29, 1952; the recommendation and supporting information for continued regulation subsequent to December 28 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on December 16; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., December 29, 1952, and ending at 12:01 a. m., e. s. t., January 12, 1953, no handler shall ship:

(i) Any grapefruit of any variety, grown in the State of Florida, which do not grade at least U. S. No. 2;

(ii) Any seeded grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(iii) Any pink seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iv) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," "variety," and "ship" shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 2," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Grapefruit (§ 51.193 of this title; 17 F. R. 7408).

PART 204—DANGER ZONE REGULATIONS

ATLANTIC OCEAN OFF DELAWARE COAST

Pursuant to the provisions of Chapter XIX of the Army Appropriations Act of July 9, 1918 (40 Stat. 892; 33 U. S. C. 3), § 204.25 (b) is hereby amended to prescribe the periods of use of Army antiaircraft artillery firing areas in the Atlantic Ocean off the Delaware coast beginning with 1953, effective on and after publication of this amendment in the FEDERAL REGISTER due to the urgent necessity for commencing operations in 1953 at the earliest possible time, as follows:

§ 204.25 *Atlantic Ocean off Delaware coast; antiaircraft artillery firing areas, Second Army.* • • •

(b) *The regulations.* (1) All firing during the months November to April, inclusive, will be conducted between 8:00 a. m. and 6:30 p. m., e. s. t. All firing during the months May to October, inclusive, will be conducted between 12:00 m. and 6:00 p. m., e. s. t. Such firings as are conducted prior to 12:00 m. during this latter period will be occasional individual rounds fired at fixed points for testing purposes in accordance with established Department of the Army Safety Regulations, and will involve no restrictions on navigation. No firing will be conducted during hours of darkness.

(2) Firing in the various areas will take place on certain days other than Saturdays, Sundays, and national holidays, as listed in public notices to be issued about January 1 of each year by the District Engineer, Corps of Engineers, Philadelphia, Pennsylvania.

NOTE: Firing in the various areas is scheduled to take place on the following days in 1953 (all dates inclusive):

January 5 to 9, 12 to 16, 19 to 23, 26 to 30.
February 2 to 6, 9 to 13, 16 to 20, 24 to 27.
March 2 to 6, 9 to 13, 16 to 20, 23 to 27, 30 to 31.
April 1 to 3, 6 to 10, 13 to 17, 20 to 24, 27 to 30.
May 1, 4 to 8, 11 to 15, 18 to 22, 25 to 29.
July 1 to 3, 6 to 10, 13 to 17, 20 to 24, 27 to 31.
August 3 to 7, 10 to 14, 17 to 21, 24 to 28, 31.
October 1, 2, 5 to 9, 12 to 16, 19 to 23, 26 to 30.
November 2 to 6, 9, 10, 12, 13, 16 to 20, 23 to 25, 27, 30.
December 1 to 4, 7 to 11, and 14 to 18.

(3) When it is determined that no firing will take place on any of the days for which firing is scheduled, the public will be so advised by radio and other practicable means as far in advance as possible.

(4) Except as provided in subparagraph (6) of this paragraph, no vessel shall enter or remain in the danger zones during the time of firing unless specific permission is granted in each case by one of the representatives of the enforcing agency policing the area in patrol boats.

(5) Prior to the conducting of each firing practice, the danger zones will be adequately patrolled to insure that no watercraft are within the danger zones and to warn any watercraft in a danger zone that firing practice is to take place. Any such watercraft shall, upon being so warned, immediately leave the area designated and shall remain outside the area until the conclusion of the firing practice.

(6) The regulations in this section shall not deny traverse of portions of the danger zones by regular cargo-carrying vessels, or commercial fishing vessels based at Lewes, Delaware. In case of the presence of any such vessel in a danger zone, the officer in charge of firing operations will cause the cessation or postponement of fire until the vessel has cleared the area. The vessel shall proceed on its normal course and shall not delay its progress.

(7) This section shall be enforced by the Commanding General, Second Army,

Fort George G. Meade, Maryland, and such agencies as he may designate.

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

[6th Gen. Rev. of Export Regs., Amdt. P. L. 20[1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodities are deleted from the Positive List:

Dept. of Commerce Schedule B No.	Commodity
	Metal manufactures, n.e.c., not specially fabricated for particular machines or equipment (see § 399.2 of this subchapter):
	Other metals, except precious (specify by name and type of metal):
619950	Anti-friction manufactures.[1]
619950	Antimony manufactures.[1]
619950	Babbitt metal manufactures.[1]
619950	Beryllium copper manufactures.[1]
619950	Other beryllium and beryllium alloy manufactures.[1]
619950	Bimetallic brake linings.[1]
619950	Bimetallic clutch facings.[1]
619950	Bimetallic friction material.[1]
619950	Brass or bronze bushings.[1]
619950	Copper manufactures.[1]
	Plain bearings, n. e. c. (specify by name):
769320	Brass and bronze bearings.
769320	Other nonferrous metal bearings.

[1] By this amendment, the last entry presently on the Positive List under Schedule B No. 619950 is revised to read as follows: "Manufactures of other metals, n. e. c., except: antifriction, antimony, babbitt metal, beryllium and beryllium alloy manufactures; bimetallic brake linings, clutch facings, and friction material; brass or bronze bushings; copper, selenium, and zinc manufactures (report iron and steel manufactures in 619210; precious metal manufactures in 692990–699710)."

This part of the amendment shall become effective as of 12:01 a. m., December 11, 1952.

2. The following revisions in commodity descriptions are made to conform with revisions in Schedule B Statistical Classification of Domestic and Foreign Commodities Exported from the United States, as announced in P. B. B–3, issued November 21, 1952, by the Bureau of the Census, and make no substantive change in export controls:

★The commodities described in this Positive List entry are excepted from the provisions of General In-Transit License *GIT*. See § 371.9 (c) of this subchapter.

[1] The above two entries are substituted for the single entry presently on the Positive List under Schedule B No. 619159. The effect of this revision is to list separately zinc powder other than zinc dust and to remove this commodity from the evidence of availability requirements (see § 373.16 of this subchapter). The effect of this revision is to list separately zinc powder other than zinc dust and to remove this commodity from the evidence of availability requirements (see § 373.16 of this subchapter). Zinc powder other than zinc dust was formerly included in the fifth entry presently on the Positive List under Schedule B No. 619159.

[2] The unit of quantity "pounds" is added.

[3] The above two entries are substituted for the two entries presently on the Positive List under Schedule B No. 619950. The effect of this revision is to extend the controls from R to RO for short wave diathermy units, under 500 megacycles, and specially fabricated parts, n. e. c. Schedule B No. 707613. The effects of this revision are to clarify the reporting requirements, to delete the unit of quantity for shipborne radio receivers, and to reduce the G.L.V. dollar-value limit from $100 to none and change the controls from R to RO for shipborne (maritime mobile) transmitters and transceivers (transmitter-receivers), and specially fabricated parts and accessories, n. e. c. The commodities included in the above entry are added to the commodities subject to the IC/DV procedure (see § 373.34 of this subchapter), effective Jan. 26, 1953, as indicated in the column headed "Commodity Lists."

[4] The above entry is substituted for the two entries presently on the Positive List under Schedule B No. 707560. The effects of this revision are to clarify the reporting requirements, to delete the unit of quantity "pounds" and to reduce the G.L.V. dollar-value limit from $200 to none for land-type radio receiver sets, effective Jan. 26, 1953, as indicated in the column headed "Commodity Lists."

[5] The above entry is substituted for the two entries presently on the Positive List under Schedule B No. 707612. The effect of this revision is to clarify the reporting requirements.

[6] The above entry is substituted for the entry presently on the Positive List under Schedule B No. 707615. The effect of this revision is to clarify the reporting requirements.

[7] The above entry is substituted for the entry presently on the Positive List under Schedule B No. 707810. The effect of this revision is to clarify the reporting requirements.

[8] The above entry is substituted for the entry presently on the Positive List under Schedule B No. 708100. The effect of this revision is to clarify the reporting requirements.

[9] The above two revised entries are substituted for the first entry presently on the Positive List under Schedule B No. 770600. The effects of this revision are (a) to remove the dollar-limit (DL) restrictions from centrifugal pumps other than those fabricated of, or lined with, any corrosion-resistant materials, and (b) effective January 10, 1953, to add to the commodities excepted from the provisions of General In-Transit License (GIT) centrifugal pumps which are wholly fabricated of, or lined with, corrosion-resistant materials as defined in the "General Notes to Appendix A", with both of the following characteristics: (a) designed to operate continuously at temperatures of 220° F. and over (indicate that pumps are not corrosion resistant and specify delivery pressure or operating temperature); (b) delivering liquids separately or in combination with solids and/or gases), not fabricated of, or lined with, any corrosion-resistant materials as defined in the "General Notes to Appendix A", with either of the following characteristics: (a) designed for delivery pressures at pump discharge of 25 to 500 pounds per square inch; or (b) designed to operate continuously at temperatures under 220° F. (indicate that pumps are not corrosion resistant and specify delivery pressure or operating temperature).[9]

[10] The above entry is substituted for the entry presently on the Positive List under Schedule B No. 770810. The effect of this revision is to clarify the reporting requirements.

[11] The above entry is substituted for the second entry presently on the Positive List under Schedule B No. 770960. The effect of this revision is to clarify the reporting requirements, to reduce the G.L.V. dollar-value limit from $100 to none, and to change the controls from R to RO.

[12] The above two revised entries are substituted for the first entry presently on the Positive List under Schedule B No. 770600. The effects of this revision are (a) to remove the dollar-limit (DL) restrictions from centrifugal pumps other than those fabricated of, or lined with, any corrosion-resistant materials, and (b) effective January 10, 1953, to add to the commodities excepted from the provisions of General In-Transit License (GIT) centrifugal pumps which are wholly fabricated of, or lined with, corrosion-resistant materials as defined in the "General Notes to Appendix A", with both of the following characteristics: (a) designed for delivery pressures at pump discharge of 25 to 500 pounds per square inch; or (b) designed to operate continuously at temperatures under 220° F. (indicate that pumps are not corrosion resistant and specify delivery pressure or operating temperature).[9] The above entries are subject to the IC/DV procedure (see § 373.34 of this subchapter).

[17] The above revised entry is substituted for the second entry presenty on the Positive List under Schedule B, No. 770900. The effect of this revision is to require the exporter to indicate that such pumps are not corrosion resistant and to specify the delivery pressure and operating temperature.

[18] The above revised entry is substituted for the second entry presently on the Positive List under Schedule B No. 770990. The effects of this revision are (a) to remove from the commodities excepted from the provisions of General In-Transit License GIT (see § 371.9 (c) of this subchapter) parts for centrifugal pumps fabricated of, or lined with, stainless steel; and (b) to remove the dollar-limit (DL) restrictions from parts specially fabricated for pumps classified under Schedule B Nos. 770900 through 770950, and 770980. The commodities covered by the above entry are subject to the IC/DV procedure (see § 373.34 of this subchapter).

[19] The above entry is substituted for the entry presently on the Positive List under Schedule B No. 915610. The effect of this revision is to remove from the Positive List autoclaves for operation at pressures 200 pounds and less per square inch and to reduce the GLV dollar-value limit from $100 to none.

This part of the amendment shall become effective as of 12:01 a. m., December 18, 1952.

4. The dollar value limit in the column headed "GLV dollar-value limits" set forth opposite the commodities listed below is amended to read as follows:

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5807]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

HATO CO., INC., AND CHARLES W. THOMAS

Subpart—*Advertising falsely or misleadingly:* § 3.170 *Qualities or properties of product or service.* In connection with the offering for sale, sale or distribution of Celparux, or any product of substantially similar composition, or possessing substantially similar properties, whether sold under the same or any other name, disseminating, etc., by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, the purchase in commerce, etc., of said drug preparation Celparux, any advertisements which represent, directly or through inference, that Celparux does or will control diabetes or does or will relieve or have any therapeutic value in the treatment of any symptoms, complication or condition of diabetes, including retinitis, retinopathy and increased capillary fragility; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Hato Company, Inc., et al., New Orleans, La., Docket 5807, October 6, 1952]

In the Matter of Hato Company, Inc., a Corporation, and Charles W. Thomas, Individually and as an Officer of the Hato Company, Inc.

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission on September 6, 1950, issued and subsequently served its complaint in this proceeding upon respondents Hato Company, Inc., a corporation, and Charles W. Thomas, individually and as an officer thereof, charging them with the use of unfair and deceptive acts and practices in commerce by disseminating false advertisements in violation of said act. After the issuance of said complaint and the filing on October 25, 1950, of respondents' answer thereto, hearings were held at which testimony and other evidence in support of and in opposition to the allegations of said complaint were introduced before a hearing examiner of the Commission theretofore duly designated by it, and said testimony and other evidence were duly recorded and filed in the office of the Commission. Thereafter, on April 9, 1951, the hearing examiner filed his initial decision, which was duly served upon the parties. Thereafter, counsel in support of the allegations of the complaint moved the Commission to order the proceeding reopened and remanded to the hearing examiner for the taking of additional evidence, which motion, though opposed by respondents, was granted by the Commission on August 23, 1951. Pursuant to such order, hearings were held for the receipt of additional evidence tendered by counsel in support of the complaint and for the receipt of evidence in opposition thereto tendered by respondents. Neither side having anything further to offer, the taking of evidence was closed by the hearing examiner on April 9, 1952. Thereafter, the proceeding regularly came on for final consideration by the hearing examiner upon the complaint, answer thereto, testimony and other evidence, before and since prior decision, and proposed findings of fact and conclusions presented by counsel for respondents; and said hearing examiner, on May 14, 1952, filed his initial decision therein.

Within the time permitted by its rules of practice, the Commission, having reason to believe that said initial decision did not constitute an adequate disposition of this proceeding, issued an order placing this case on its docket for review, and served on all parties its tentative order to cease and desist proposed in lieu of the order contained in the initial decision, together with an order granting respondents leave to file any objections they might have to the proposed changes in the initial decision as embodied in said tentative order. The Commission having denied respondents' objections to said tentative order, this proceeding regularly came on for final consideration by it upon the record herein; and the Commission, being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes this its findings as to the facts[1] and its conclusions[1] drawn therefrom and order based thereon, the same to be in lieu of the initial decision of the hearing examiner.

It is ordered, That respondents Hato Company, Inc., a corporation, its officers, representatives, agents, and employees, and Charles W. Thomas, individually and as an officer thereof, his representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of Celparux, or any product of substantially similar composition, or possessing substantially similar properties, whether sold under the same or any other name, do forthwith cease and desist from directly or indirectly—

1. Disseminating, or causing to be disseminated, by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement, which represents, directly or through inference, that Celparux does or will control diabetes or does or will relieve or have any therapeutic value in the treatment of any symptom, complication or condition of diabetes, including retinitis, retinopathy and increased capillary fragility.

2. Disseminating, or causing to be disseminated by any means, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of Celparux, any advertisement which contains any of the representations prohibited in Paragraph 1 of this order.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: October 6, 1952.

By the Commission.

Secretary.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 144—CERTIFICATION OF BATCHES OF DRUGS COMPOSED WHOLLY OF PARTLY OF INSULIN

FEES

By virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 506, 55 Stat. 851; 21 U. S. C. 356), the regulations for the certification of batches of drugs composed wholly or partly of insulin (21 CFR, 1951 Supp. Part 144; 17 F. R. 1822) are amended as set forth below:

Section 144.10 *Fees* is amended in the following respects:

1. Paragraph (a) is amended by numbering the first sentence as subparagraph (1), and by adding the following subparagraph:

(2) Whenever in the judgment of the Commissioner the ratio between fees collected (which are based upon experience and the best estimate of costs and the best estimate of earnings) and the costs of providing the service during an elapsed period of time, in the light of all circumstances and contingencies, warrants a refund from the fund collected during such period, he shall make ratable refunds to those persons to whom the services were rendered and charged, except for those services described under § 144.10 (b) (2) (ii), (b) (3) (ii), and (b) (5).

2. Paragraph (b) (7) is amended by changing "$8" to read "$10".

This order shall become effective thirty days following the date of its publication in the FEDERAL REGISTER.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since the fees set forth in this order are necessary in order to provide, equip, and maintain an adequate certification service as required by law, and the order authorizes the refund of any fees collected in excess of statutory requirements.

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for certification of antibiotic and antibiotic-containing drugs (21 CFR 1951 Supp., Part 146; 17 F. R. 1178, 2600, 3230, 4559) are amended as indicated below:

1. In § 146.30 *Penicillin troches* subparagraph (1) (iii) of paragraph (c) *Labeling* is amended by inserting the words "or 36 months" between the words "24 months" and the word "after".

2. In § 146.47 *Procaine penicillin for aqueous injection* subparagraph (1) (iii) of paragraph (c) *Labeling* is amended by deleting the semicolon at the end thereof and by adding the clause, "unless it is packaged to contain a single dose, in which case the blank may be filled in with the date which is 18 months after the month during which the batch was certified, provided the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for such period of time such drug as prepared by him complies with the standards prescribed by paragraph (a) of this section;".

3. In § 146.74 *Diethylaminoethyl ester penicillin G hydriodide* • • • subparagraph (3) of paragraph (c) *Labeling* is amended by changing the figure "12" to read "18".

4. In § 146.75 *Diethylaminoethyl ester penicillin G hydriodide for aqueous injection* • • • subparagraph (1) (iii) of paragraph (c) *Labeling* is amended by changing the figure "12" to read "18".

This order, which provides for an expiration date of 36 months for penicillin troches prepared from crystalline, *l*-ephenamine penicillin G, or crystalline penicillin O if the person who requests certification has proved his drug to be stable for such period of time; for an expiration date of 18 months for aqueous suspensions of procaine penicillin if the person who requests certification has proved his drug stable for such period of time; and for an expiration date of 18 months for the drugs diethylaminoethyl ester penicillin G hydriodide and diethylaminoethyl ester penicillin G hydriodide for aqueous injection, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public in-

terest to delay providing for the changes set forth above.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter IV—Salary and Wage Stabilization, Economic Stabilization Agency

Subchapter A—Salary Stabilization Board

[Interpretation 7, Amdt. 2]

INT. 7—STOCK OPTION AND STOCK PURCHASE PLANS

MISCELLANEOUS AMENDMENTS

The purpose of this amendment is to clarify the authority of employers of sales employees, who are compensated in whole or in part on a commission basis, to apply the fifteen (15) percent adjustment in 1950 commission earnings authorized by section 9 of General Salary Stabilization Regulation 5, as amended, as a chargeable increase in compensation for purposes of granting restricted stock options to such employees at less than 95 percent of the fair market value of the stock which is the subject of the option.

1. Paragraph 9 of Interpretation 7, as amended, is amended to read as follows:

9. Q. May sales employees, whose compensation is governed by General Salary Stabilization Regulation 5, as amended, be granted stock options under General Salary Stabilization Regulation 4, Revised, as amended?

A. Yes, to the extent indicated below.

If the stock option is being granted under section 3, at an option price of 95 percent or more of the fair market value of the stock at the time of the grant, a sales employee may be granted such option regardless of the method of his compensation to the same extent as other employees under the jurisdiction of the Salary Stabilization Board.

If a stock option is granted under section 4, a sales employee may be granted such option, provided he is entitled to receive a "chargeable increase in compensation" to cover the difference between the option price and 95 percent of the fair market value of the stock at the time of the granting of the option. If the sales employee is compensated in whole or in part on a salary basis, a "chargeable increase in compensation" with regard to his salary is an increase authorized under sections 22, 41 or 52 or 53 of General Salary Stabilization Regulation 1, Amended, as amended. If the sales employee is compensated in whole or in part on a commission basis, a "chargeable increase in compensation" with regard to his commission earnings is an increase authorized under section 9 of General Salary Stabilization Regulation 5, as amended.

Subchapter C—Railroad and Airline Wage Board

[Railroad and Airline Procedural Regulation 1, Amdt. 1]

RAILROAD AND AIRLINE PROCEDURAL REGULATION 1

ENFORCEMENT PROCEDURE

Pursuant to the Defense Production Act of 1950, as amended (P. L. 774, 81st Cong., P. L. 96, 82d Cong.), Executive Order 10161 (15 F. R. 6105), Executive Order 10233 (16 F. R. 3503), and General Orders No. 7—Rev., 15 and 18, Economic Stabilization Administrator this amendment to Railroad and Airline Procedural Regulation 1 is hereby issued.

STATEMENT OF CONSIDERATIONS

Economic Stabilization Agency General Order No. 15 (issued April 5, 1952, 17 F. R. 2994; amended November 6, 1952, 17 F. R. 9977) and General Order No. 18 (issued July 30, 1952, 17 F. R. 6925; amended November 6, 1952, 17 F. R. 9977) set forth the policy and procedure of the Economic Stabilization Agency with respect to disallowances for violations of Title IV of the Defense Production Act of 1950, as amended. These two General Orders provide for the establishment of a National Enforcement Commission within the Economic Stabilization Agency and assign to it functions which include the determination of whether any wage, salary, or other compensation has been paid or accrued, at any time, in violation or contravention of any provision of the Defense Production Act of 1950, as amended, or any regulation, order or directive promulgated under that act with respect to persons within the jurisdiction of the Railroad and Airline Wage Board; and, further, the transmittal of such determinations to appropriate governmental agencies for action in accordance therewith.

Such determinations are to be made by the National Enforcement Commission with respect to employees subject to the jurisdiction of the Railroad and Airline Wage Board only after the Railroad and Airline Wage Board has instituted an enforcement proceeding before the National Enforcement Commission or has submitted a settlement proposal to the National Enforcement Commission for its approval. The function of investigating alleged violations and the initial decision to institute enforcement proceedings with respect to employees subject to its jurisdiction resides in the Railroad and Airline Wage Board.

The purpose of this amendment to Railroad and Airline Procedural Regulation 1 is to add a section which sets forth the procedures to be followed by the Railroad and Airline Wage Board in instituting investigations and enforcement proceedings.

REGULATORY PROVISIONS

Railroad and Airline Procedural Regulation 1 is amended by the addition of section 7, which reads as follows:

SEC. 7. *Enforcement procedure.*—(a) *Investigations and subpoenas.* (1) The Chairman or such other person as may be designated by him may issue subpoenas and may make or cause to be made investigations, inspections or inquiries relating to the enforcement of the act and the regulations, orders or directives promulgated thereunder. No subpoena shall be issued or investigation, inspection or inquiry made until the scope and purpose thereof have been defined by the Chairman or other competent authority designted by him and until the Chairman or other competent authority designated by him has assured that no adequate and authoritative data are available from any Federal or other responsible agency.

(b) *Enforcement proceedings.* (1) Whenever the Chairman or other person designated by him has reason to believe that any wage, salary, or other compensation has been paid in contravention of the act or of any regulation, order or directive promulgated thereunder, and that enforcement proceedings are necessary in order to effectuate the purposes of the act, he shall institute proceedings to ascertain whether a contravention has occurred, and to determine the amount to be certified to and disregarded by the executive departments and other government agencies.

(2) Such enforcement proceedings may be instituted by the execution of a Consent Stipulation providing for the entry by the National Enforcement Commission of a Certificate of Disallowance, or by the issuance of a Complaint. Any Consent Stipulation for Certificate of Disallowance shall be in conformity with the disallowance policy set forth in section 5 of Economic Stabilization Agency General Order No. 15 and with the provisions of section 8.1 of National Enforcement Commission General Procedural Regulation 1, Revised (17 F. R. 7737). Any Complaint shall be issued in conformity with section 2.1 of National Enforcement Commission General Procedural Regulation 1, Revised.

(3) After the execution of a Consent Stipulation for Certificate of Disallowance or after the issuance of a Complaint, the applicable procedures set forth in National Enforcement Commission General Procedural Regulation 1, Revised, shall apply.

(4) No investigation or enforcement proceeding involving persons subject to the jurisdiction of the Railroad and Airline Wage Board shall be instituted by any person other than the Chairman or such other person as may be designated by him.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

M-16—DISTRIBUTION OF COPPER RAW MATERIALS

REPORTING REQUIREMENT CHANGE

This amendment to NPA Order M-16 as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950 as amended. In the formulation of this amendment, consultation with industry representatives has been impracticable because of the need for immediate action.

AMENDATORY PROVISIONS

Paragraph (f) of section 10 of NPA Order M-16 as amended November 20, 1952, is amended to eliminate the requirement that brokers file Form NPAF-125. Paragraph (f) of section 10 is hereby amended to read as follows:

(f) Any scrap dealer whose aggregate end-of-month inventory or aggregate monthly purchases or aggregate monthly sales of scrap averaged 60,000 pounds or more (metal weight) during the first 6 months of 1952, shall complete and return Form NPAF-125 not later than February 10, 1953, with regard to his operations during January 1953, and not later than the tenth day of each month thereafter with regard to his operations during each preceding month. All such forms shall be addressed to the Base Metals Branch, Bureau of Mines, Washington 25, D. C.

6. Participation in the program.

AUTHORITY: Sections 1 to 6 issued under sec. 704, 64 Stat. 816, as amended, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 303, 64 Stat. 801, as amended, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2093; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1951 Supp., E. O. 10281, Aug. 28, 1951, 16 F. R. 8789, 3 CFR, 1951 Supp.

SECTION 1. *Basis and purpose.* The purpose of this regulation is to encourage expansion in the production of nonferrous chrysotile asbestos in the State of Arizona by providing a uniform price scale and the establishment of a Government purchase depot for such commodity. This regulation is issued pursuant to Delegation of Authority from the Defense Materials Procurement Administrator [1] of even date herewith. In accordance with the purchase program described herein, as authorized by the Defense Production Administrator, the Administrator of General Services will buy nonferrous chrysotile asbestos produced in the State of Arizona in accordance with the terms and conditions set forth herein.

SEC. 2. *Specifications.* (a) Purchases under this program shall be restricted to the following grades and specifications:

1. Crude No. 1: Nonferrous chrysotile asbestos, soft and semisoft, basically composed of staple ¾ inch or longer; 85 percent of the fibre by weight shall be ¾ inch or longer.

2. Crude No. 2: Nonferrous chrysotile asbestos, soft and semisoft, basically composed of staple ⅜ inch or longer; 85 percent of the fibre by weight shall be ⅜ inch or longer.

3. Crude No. 3: Nonferrous chrysotile asbestos, soft, and semisoft, basically composed of staple ¼ inch or longer; 85 percent of the fibre by weight shall be ¼ inch or longer.

(b) Hygroscopic water shall not exceed 2 percent by weight.

(c) Foreign matter such as grit, particles of serpentine and other extraneous matter shall not exceed 5 percent by weight. Pieces of wood shall be cause for rejection.

[1] See F. R. Doc. 52-13545, Defense Materials Procurement Agency, in the Notices section, *infra*.

(d) All fibre shall have sufficient tensile strength to permit its use singly or in combination with other fibre in the production of asbestos tape, cloth, corded fibre or other textiles.

(e) Only soft or semisoft, nonferrous chrysotile asbestos produced in the State of Arizona shall be purchased under this program.

SEC. 3. *Deliveries.* (a) All purchases under this program shall be delivered by the seller f. o. b. Government purchase depot at Globe, Arizona.

(b) Crude No. 1 and Crude No. 2 shall be purchased separately or together in any ratio. Crude No. 3 shall be purchased only when offered with Crude No. 1 or Crude No. 2 or both, at a ratio of not in excess of 3 to 1.

(c) Deliveries shall be offered to the Government under this program in lots containing not less than 100 pounds of Crude No. 1 or Crude No. 2.

(d) All shipments found not to meet the specifications provided herein shall be rejected and shall be removed at the expense of the seller.

(e) All shipments shall be packed in packages of the type and size customarily used in the trade, and each package shall have legible markings showing (1) the words "Arizona asbestos," (2) designated grade and (3) name of mine from which the shipment was produced.

(f) Inspection of each shipment shall be made by a representative of the Government at the Government purchase depot or at such place as may be mutually agreeable to the shipper and the Government: *Provided, however,* That such inspection shall not be made beyond a 150-mile radius of the Government purchase depot.

(g) At least thirty (30) days prior to shipment, the seller shall inform the Regional Director, General Services Administration, 49 Fourth Street, San Francisco 3, California, of a delivery to be made to the purchase depot. Shipment shall be made only upon and in accordance with instructions issued to the seller by the said Regional Director.

SEC. 4. *Price.* Payment for deliveries accepted under this program shall be made pursuant to the following schedule:

Grade:	*Per short ton*
Crude No. 1	$1,500
Crude No. 2	900
Crude No. 3	400

SEC. 5. *Duration of the program.* This program shall terminate and be of no further force and effect three (3) years from the effective date of this regulation, or when deliveries under this program total in the aggregate 1,500 short tons of Crude No. 1 and/or Crude No. 2, whichever event first occurs.

SEC. 6. *Participation in the program.* Any person or firm wishing to participate in this program shall give notice to the Regional Director, General Services Administration, 49 Fourth Street, San Francisco 3, California. Such notice shall be in the form of a letter, postcard or telegram, postmarked or dated by the telegraph office not later than June 30, 1953, and shall state that participation in this program is desired; that non-

ferrous chrysotile asbestos produced in the State of Arizona will be offered to the Government under the terms and conditions of this program. The notice must be signed and a return address given. Receipt of notice will be acknowledged by the issuance of a certificate authorizing delivery of non-ferrous chrysotile asbestos conforming to the requirements of this regulation.

This regulation shall be effective as of October 1, 1952.

Dated: December 17, 1952.

JESS LARSON,
Administrator.

Chapter XVIII—National Shipping Authority, Maritime Administration, Department of Commerce

[NSA Order No. 47 (AGE-4, Amdt. 3)]

AGE-4—COMPENSATION PAYABLE TO AGENTS, GENERAL AGENTS AND BERTH AGENTS

COMPENSATION

Effective as of March 20, 1951, at 00:01 a. m., NSA Order No. 47 (AGE-4) published in the FEDERAL REGISTER issue of September 29, 1951 (16 F. R. 9983) as amended, is amended further as follows:

1. By deleting section 7 and inserting therefor the following:

SEC. 7. *Compensation of General Agents for liquidating the activities and business of vessels.* (a) In addition to the compensation otherwise provided in this order, each General Agent shall be paid for all services required to be performed by him after redelivery or total loss of a vessel, including the liquidation of activities and business of such vessels, assigned to such General Agent under the standard form of Service Agreement, GAA 3-19-51, as follows:

(1) For services rendered after each period of assignment during which a vessel made one or more voyages, $25 per day for each day of assignment not to exceed 60 days, and thereafter $10 per day for each day of assignment not to exceed an additional 120 days: *Provided*, That the amount paid shall not exceed $2,700.

(2) For services, if any, rendered after any period of assignment during which a vessel did not make a voyage, such fair and reasonable amount as the Director, National Shipping Authority, shall determine in each individual case, if application for such a fee is made by a General Agent, and if the Director finds that the evidence submitted by the General Agent in support of his application justifies the payment of such fee.

(3) For the purpose of this paragraph (a), "each period of assignment" shall mean the period commencing with the date of delivery of the vessel to the General Agent under the Service Agreement and ending with the date of redelivery of the vessel to National Shipping Authority or the date of total loss.

(b) The compensation authorized in paragraph (a) of this section shall be paid upon satisfactory completion of the services required by National Shipping Authority: *Provided however*, That payments on account may be made in advance to the extent that they are deemed to be earned by the Director, National Shipping Authority.

(c) If a General Agent who has redelivered all vessels assigned under his Service Agreement is required by the National Shipping Authority to retain custody of vouchers and records during any period in excess of six (6) months after satisfactory completion of services required by the National Shipping Authority, he shall be paid for the fair and reasonable cost of space occupied by such vouchers and records, as determined by the Director, National Shipping Authority.

2. By amending section 8. *Increases and reduction of compensation under certain circumstances* by adding at the end of said section the following paragraph:

(f) The provisions of this section shall not apply to the services required to be performed after redelivery or total loss of a vessel in liquidating the activities and business of the vessels, and no increase will be allowed in the compensation provided in section 7 of this order whether as a revision of such rates or in addition to such rates.

(Sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114)

Approved: December 12, 1952.

[SEAL] C. H. MCGUIRE,
Director,
National Shipping Authority.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

SERVICEMEN'S INDEMNITY

1. A new centerhead immediately following § 4.207 is added as follows: "Servicemen's Indemnity".

2. New §§ 4.300, 4.302, 4.304, 4.306, 4.308, 4.310, 4.312, 4.314, 4.316, 4.318, 4.320, and 4.322 are added as follows:

Sec.
4.300 Basic requirements of service and death.
4.302 Eligible beneficiaries.
4.304 Determination of eligible beneficiaries.
4.306 Evidence requirements.
4.308 Claim for indemnity.
4.310 Amount of indemnity payable.
4.312 Method of payment.
4.314 Commencing date of payments.
4.316 Forfeiture.
4.318 Assignments.
4.320 Attorneys' fees.
4.322 Taxation and exemption.

AUTHORITY: §§ 4.300 to 4.322 issued under sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707. Other statutory provisions interpreted or applied are cited to text in parenthesis.

§ 4.300 *Basic requirements of service and death.* (a) The servicemen's indemnity shall be payable based on active service rendered on or after June 27, 1950, where death occurred in active service or, where death occurred within 120 days after separation or release from active service, if the serviceman had been called to extended active duty, including a call to active duty for training purposes for a period exceeding 30 days. The character of separation or release from active service is not material. See, however, § 4.316. For the purposes of death in active service, the following service is included:

(1) Active service in the Army, Navy, Air Force, Marine Corps, and Coast Guard, or Active service, including active duty for training purposes, in the Reserve components thereof;

(2) National Guard when called to active duty or active training duty for 14 days or more;

(3) Cadets and midshipmen at the United States Military, Naval, and Coast Guard Academies;

(4) Commissioned officers of the Public Health Service, regular and reserve, while entitled to full military benefits, as provided in section 212 (a), Public Law 410, 78th Congress, as amended, i. e., (i) while detailed for duty with the Army, Air Force, Navy, Marine Corps, or Coast Guard, or (ii) while serving on active duty in time of war outside the continental limits of the United States, or in Alaska, or (iii) while serving on active duty in time of war and following the issuance of an Executive order declaring the entire Commissioned Corps of the Public Health Service a part of the military forces of the United States. (The Commissioned Corps of the Public Health Service, by virtue of Executive Order 9575, published June 29, 1945, was a part of the military forces of the United States on June 27, 1950, which status continued through July 3, 1952, by virtue of Executive Order 10349, dated April 26, 1952; Executive Order 10356, dated May 29, 1952; Executive Order 10362, dated June 14, 1952; and Executive Order 10367, dated June 30, 1952. Service on and after July 4, 1952, must meet the requirements of subdivision (i) of this subparagraph.)

(5) Commissioned officers of the Coast and Geodetic Survey, while assigned to duty during a period of war or an emergency as proclaimed by the President or the Congress on projects for the Army, Navy, or Air Force in areas outside the continental United States, or in Alaska, or in coastal areas of the United States determined by the Department of Defense to be of immediate military hazard.

(b) The servicemen's indemnity shall be payable where the serviceman is deemed to have been in active service at the time of his death, as follows:

(1) Persons who served on or after June 27, 1950, in the reserve components, including the National Guard, while engaged in aerial flights in Government-owned or leased aircraft for any period with or without pay as an incident to their military or naval training;

(2) Persons who have been or are provisionally accepted on or after June 27, 1950, and directed to report to a place for final acceptance or for entry upon active duty in the military or naval service, and who died or shall die as the result of disability incurred while en route to such place and within 120 days after the incurrence of such disability;

(3) Registrants under the Selective Service Act of 1948, as amended (designated as the "Universal Military Training and Service Act" by Public Law 51, 82d Congress), who on or after June 27, 1950, in response to an order to report for induction into the Armed Forces and who, after reporting to a local draft board, died or dies as the result of disability incurred while en route from such draft board to a designated induction station and within 120 days after the incurrence of such disability.

(Sec. 2, Part I, Pub. Law 23, 82d Cong.)

§ 4.302 *Eligible beneficiaries.* The indemnity shall be payable to the surviving spouse, child or children (including a stepchild, adopted child, or an illegitimate child, if the latter was designated as beneficiary by the serviceman), parent (including a stepparent, parent by adoption, or person who stood in loco parentis to the serviceman at any time prior to entry into the active service for a period of not less than 1 year), brother or sister of the serviceman (including those of the half blood and those through adoption). Unless designated otherwise by the serviceman, the term "parent" includes only the mother and father who last bore that relationship to the serviceman.

(Sec. 3, Part I, Pub. Law 23, 82d Cong.)

§ 4.304 *Determination of eligible beneficiaries.* The serviceman has the right to designate the beneficiary or beneficiaries of the indemnity within the classes designated in § 4.302; to designate the proportion of the principal amount to be paid to each; and to change the beneficiary or beneficiaries without the consent thereof but only within the classes designated. If the designated beneficiary or beneficiaries do not survive the serviceman, or if none has been designated, the indemnity will be paid to the first eligible class of beneficiaries according to the order set forth in § 4.302 and in equal shares if the class is composed of more than one person. Any installments of an indemnity not paid to a beneficiary during such beneficiary's lifetime shall be paid to the named contingent beneficiary, if any; otherwise, to the beneficiary or beneficiaries within the permitted class next entitled to priority. If no person within the permitted class survives to receive the indemnity or any part thereof, no payment of the unpaid installments shall be made. No payment shall be made to an heir, creditor, or legal representative as such of the deceased serviceman or of any deceased beneficiary.

(Sec. 3, Part I, Pub. Law 23, 82d Cong.)

§ 4.306 *Evidence requirements.* Proof of death of the serviceman shall be established by certification by the secretary of the department concerned, and relationship of the beneficiary shall be shown by evidence as outlined in §§ 3.46, 3.50, and 3.55 of this chapter. The relationship of a stepparent shall be established by proof of marriage of the natural parent and stepparent, in addition to proof of birth of the serviceman. The relationship of an adoptive parent shall be established by a certified copy of the court decree of adoption. The relationship of a brother or sister of the full blood or half blood shall be established by proof of birth as outlined in § 3.46 of this chapter, of both the serviceman and the claimant, showing that both the serviceman and the claimant had one or both parents in common; a brother or sister by adoption, by proof of birth of the natural child and a certified copy of the court decree of adoption of the other child by one or both of the natural child's parents; if both the serviceman and claimant are adopted by a common parent or parents, by certified copy of court decree of adoption of each by one or both of the serviceman's parents. Proof of marriage or remarriage of a beneficiary will not be required solely for the purpose of establishing a change of name.

§ 4.308 *Claim for indemnity.* A claim for indemnity should be filed on the form prescribed by the Administrator, but any writing disclosing an intention to file such a claim will be accepted. A claim for National Service life insurance or United States Government life insurance death benefits filed by a preferred beneficiary will be accepted as a claim for indemnity.

§ 4.310 *Amount of indemnity payable.* (a) If at the date of death the serviceman had no insurance in force, the indemnity will be paid in the principal amount of $10,000. If the serviceman had United States Government life insurance or National Service life insurance in force in an amount less than $10,000, the indemnity will be paid in the principal amount of $10,000 minus the face value of the insurance in force at the date of death. If insurance having a face value of $10,000 was in force at the date of death, the indemnity will not be payable.

(b) The amount of indemnity payable in cases in which either United States Government life insurance or National Service life insurance (1) is reduced because the insured understated his age, or (2) the original contract has been surrendered for paid-up insurance, will be the difference between the amount of insurance in force and $10,000.

(c) In cases in which the insurance is in force as extended insurance, the amount of indemnity payable will be the difference between the amount of extended insurance in force and $10,000.

(d) In cases in which there is indebtedness outstanding against the contract, the amount of indemnity payable will be the difference between the face value of the contract (the amount of insurance in force without deduction of indebtedness) and $10,000.

(Part I, Pub. Law 23, 82d Cong.)

§ 4.312 *Method of payment.* (a) The indemnity will be payable in 120 monthly installments at the rate of $9.29 per month per thousand.

(b) If there are two or more payees, and the equal or pro rata division of the monthly payment would normally require payments involving fractions of a cent, these fractions will be absorbed by reducing payment to one or more of the payees to the next lower cent and raising the payment to one or more of the payees to the next higher cent. If there is only one payee and payment of the monthly installment would otherwise involve a fraction of a cent, the amount will be increased to the next higher cent, if the fraction is one-half cent or more, and will be decreased to the next lower cent, if the fraction is less than one-half cent.

(Part I, Pub. Law 23, 82d Cong.)

§ 4.314 *Commencing date of payments.* Payment to the beneficiary or beneficiaries first receiving payment shall begin as of the date of the death of the serviceman. Payment to the beneficiary or beneficiaries receiving installments following the death of the first beneficiary or beneficiaries, or any subsequent beneficiary or beneficiaries, shall begin with the monthly payment date next following the death of the previous payee. To authorize any unpaid installments not paid to the previous payee, the following entry will be typed on the reverse side of the award card: "Award includes all or fractional share of unpaid installments due the previous payee,

_____"
(Name of previous payee)

(Part I, Pub. Law 23, 82d Cong.)

§ 4.316 *Forfeiture.* Any serviceman who is guilty of mutiny, treason, spying, or desertion, or who because of conscientious objections refuses to perform services in the land or naval forces of the United States, or refuses to wear the uniform of such force, forfeits all right to an indemnity under this act: *Provided,* That restoration to active duty after commission of any such offense restores all rights to the indemnity. No indemnity is payable for death inflicted as a lawful punishment for crime or for military or naval offense, except when inflicted by an enemy of the United States.

(Sec. 8, Part I, Pub. Law 23, 82d Cong.)

§ 4.318 *Assignments.* Assignments of all or any part of the beneficiary's interest may be made by a beneficiary to any other person or persons within the permitted class of beneficiaries as specified in § 4.302, if all other persons having contingent rights of equal or greater priority to those of the assignee join in the assignment. Such an assignment shall not affect any payments made prior to its receipt by the Veterans' Administration. Assignments may be made at any time subsequent to the death of the serviceman regardless of whether any installments have been paid. In the event of the death of the assignee prior to receiving all installments, the remaining installments will become payable to the person(s) surviving in the permitted class set forth in § 4.302 and in the order of preference named in that section. The privilege of assignment is available to persons whose title arises through devolution, as well as to persons who are designated beneficiaries.

(Sec. 9, Part I, Pub. Law 23, 82d Cong.)

§ 4.320 *Attorneys' fees.* The payment of an attorney's fee, as contemplated by section 201, Title II, Public No. 844, 74th Congress, shall not exceed $10 in any one claim, and in all cases fees shall be deducted from the indemnity allowed.

(Sec. 9, Part I, Pub. Law 23, 82d Cong.)

§ 4.322 *Taxation and exemption.* (a) Payments of the servicemen's indemnity as such are exempt from taxation, but such exemption does not extend to any property purchased in part or wholly out of such payments. Payments of indemnity to a beneficiary under the provisions of the Servicemen's Indemnity Act of 1951 are exempt from claims of creditors, and are not liable to attachment, levy, or seizure by or under any legal or equitable process whatever, either before or after receipt by the beneficiary.

(b) The exemption shall apply against the United States or any agency thereof: *Provided,* That the United States shall be entitled to collect by set-off or otherwise out of benefits payable to any beneficiary of the servicemen's indemnity, the amount of any indebtedness due the United States by such beneficiary because of overpayments or illegal payments made to such beneficiary under laws administered by the Veterans' Administration.

(Sec. 9, Part I, Pub. Law 23, 82d Cong.)

This regulation is effective December 23, 1952.

TITLE 45—PUBLIC WELFARE

Subtitle A—Federal Security Agency, General Administration

PART 35—TORT CLAIMS AGAINST THE GOVERNMENT

MISCELLANEOUS AMENDMENTS

1. Section 35.4 *Evidence to be submitted by claimant* is amended by adding the following paragraph:

(e) *Time limit.* All evidence required to be submitted by this section shall be furnished by the claimant within a reasonable time. Failure of a claimant to furnish evidence necessary to a determination of his claim within six months after a request therefor has been mailed to his last known address shall be deemed an abandonment of the claim. The claim shall thereupon be disallowed.

2. Section 35.3 is amended by striking out the words "Associate General Counsel, Federal Security Agency" and inserting in lieu thereof the words "Federal Security Agency Claims Officer".

3. Sections 35.6 and 35.8 are amended by inserting the words "Agency Claims" before the word "Officer".

4. Section 35.7 is amended by striking out the words "Federal Security".

5. Section 35.8 is amended by striking out the period after the word "Agency" and adding the words "or within six months after a request therefor pursuant to § 35.4 (e)."

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

OGALLALA LIVESTOCK COMMISSION COMPANY

POSTING OF STOCKYARD

The Secretary of Agriculture has information that the Ogallala Livestock Commission Company, Ogallala, Nebraska, is a stockyard as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of that act.

Therefore, notice is hereby given that the Secretary of Agriculture proposes to issue a rule designating the stockyard named above as a posted stockyard subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181, et seq.), as is provided in section 302 of that act. Any interested person who desires to do so may submit, within 15 days of the publication of this notice, any data, views or arguments, in writing, on the proposed rule to the Director, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 18th day of December 1952.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 61]

SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

SUPPLEMENTAL NOTICE OF PROPOSED RULE MAKING AND ORAL ARGUMENT

Draft Release No. 52-33 was circulated on December 2, 1952, and published as a supplemental notice of proposed rule making and oral argument in the FEDERAL REGISTER on December 6, 1952 (17 F. R. 11124) by the Civil Aeronautics Board giving notice that the Board desired to hear oral argument concerning, among other matters, the question whether it is necessary or desirable that the regulations specify a maximum period of time between air carrier checks of the competency of crew members and dispatchers. In the second paragraph of the discussion of the recurrent airman training requirements in proposed Part 40 of the Civil Air Regulations, the subject notice states that the Flight Engineers' International Association had recommended as follows: "The FEIA has recommended that this requirement specify that the 'interval' for checking crew members and dispatchers be not less than 6 months. The reason stated for this proposal is that unless a minimum period is specified the voluntary training program would not be carried out."

The attention of the Board has been directed to the fact that this statement of the recommendations of the FEIA is erroneous. In order that interested persons may have the advantage of a correct statement of the recommendations of FEIA on this issue, the second paragraph in the discussion of recurrent airman training in the subject notice of proposed rule making is changed to read as follows: "The FEIA has recommended that this requirement specify that the 'interval' for checking crew members and dispatchers be not more than six months. The reason stated for this proposal is that unless a maximum period is specified the voluntary training programs would not be carried out."

FINANCIAL RESPONSIBILITY REQUIREMENTS FOR AIR CARRIERS AND FOREIGN AIR CARRIERS

NOTICE OF PROPOSED RULE MAKING

DECEMBER 16, 1952.

Notice is hereby given that the Board has under consideration the promulgation of a new Part 271 of the Economic Regulations, as hereinafter set forth.

Interested persons may participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should be submitted, in triplicate, to the Civil Aeronautics Board, Washington 25, D. C. All communications received by January 16, 1953, will be considered by the Board before taking further action on the proposed rule. Copies of such communications will be available on and after January 19, 1953, for examination by interested persons at the Docket Section of the Board, Room 5412, Commerce Building. In addition, the Board will hear oral argument with respect to the matters described herein on January 29, 1953, at 10:00 a. m. Standard Time in Room 5042, Department of Commerce Building, Washington, D. C. Those desiring to be heard are requested to inform F. W. Brown, Chief Examiner, Civil Aeronautics Board, at least five days in advance of the argument. Each speaker will be limited to twenty minutes unless special permission is granted pursuant to written request submitted to Mr. Brown prior to January 16, 1953, stating the amount of time desired and the persons officially represented.

The basis and purpose of the proposed rules are set forth below in the draft preamble to the regulation and in the explanatory statement attached to the original Draft Release No. 51 of the proposed regulation published in the FEDERAL REGISTER on May 7, 1952 (17 F. R. 4220).

The proposed amendments are set forth in the proposed rule below.

These amendments are proposed under authority of Title IV of the Civil Aeronautics Act of 1938, as amended. The proposed rules when finally adopted by the Board may be changed in view of the comments received in response to this notice of proposed rule making.

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply sections 401, 402, 416, 52 Stat. 987, 991, 1004; 49 U. S. C. 481, 482, 496)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

Draft preamble. At the present time there is no requirement in the Board's regulations requiring proof of continued financial responsibility on the part of air carriers or foreign air carriers. It is the purpose of this regulation to establish minimum standards for such carriers of financial responsibility in respect of certain tort liabilities and to prescribe the methods whereby such financial responsibility may be established before the Board.

The several States of the United States have found it necessary in the interest of their own public to impose minimum standards of financial responsibility on the operators of automotive equipment coming within their respective jurisdictions, and at the present time most of the States have laws dealing with this subject matter. Similarly, the Federal Government has imposed in the Motor Carrier Act of 1935 certain obligations as to financial responsibility on interstate carriers by motor vehicle coming within that act.

In the Board's opinion the general public interest in the enactment of financial responsibility standards, heretofore found necessary in the automotive field, is even greater in the case of air carriers. The larger mass and far higher speed of present-day transport aircraft, as compared with automobiles, trucks, and buses, involves a property destructive potential much in excess of that of surface vehicles, with a correspondingly increased possibility of high judgments in the event of accident. Reparation of damage so caused should not be left to the personal fortunes of individual aircraft operators nor to corporations whose major assets may have been totally destroyed by crash.

The Civil Aeronautics Act, unlike the Motor Carrier Act, contains no express requirement that carriers coming within its terms must be financially responsible as a condition to the holding of a certificate or permit. However, under the provisions of section 401 (f) of the act, the Board is empowered to impose on the exercise of the privileges granted by a certificate of public convenience and necessity such reasonable terms, conditions, and limitations as the public interest may require. While the term "public interest" must be read in the light of section 2 of the act, that section does not restrict the meaning of the term to the items specified therein, and accordingly the Board may take cognizance of other items affecting the public interest in general. As hereinbefore set forth the Board is of the opinion that this public interest requires the imposition of a provision that all air carriers meet the minimum standards of financial responsibility hereinafter set forth.

In addition, the Board finds that the imposition of such standards will promote the public interest, as set forth in section 2 of the act, in that at least one person or organization of established responsibility will have a substantial financial interest in the safe conduct of every air carrier operation, thereby tending to assure the highest degree of safety in air transportation.

A third reason the Board considers requirements for financial responsibility to be in the public interest is the avoidance of the burdens on air transportation which differing and multiple state requirements of this nature would impose. The Board has already been advised by authorities in at least one state that if it takes no action on the financial responsibility of air carriers, the states would be forced to take independent action to protect their citizens.

Because of the foregoing considerations and on each of the above grounds separately, the Board finds that the imposition, at the present time, of the attached financial responsibility requirements is required by, and is necessary in, the public interest.

In the light of the foregoing findings, the Board considers that it has unquestionable authority to impose financial responsibility requirements as a term, condition or limitation of a certificate of public convenience and necessity under the provisions of section 401 (f) of the act, and similarly considers that it would have the power to amend all existing certificates of public convenience and necessity so as to include such requirements as a term, condition or limitation thereof under the authority of section 401 (h). Having such power over certificates of public convenience and necessity the Board would also have power to impose similar requirements as conditions for exemptions from the requirements of section 401 of the act. Similar authority exists with respect to foreign air carriers under section 402 (f). If the Board were to attempt to impose financial responsibility requirements by directly applying the provisions of sections 401 (f), 401 (h), 402 (f) or 402 (g), it would be necessary to hold hearings with respect to the individual operating authority of each air carrier and foreign air carrier concerned since each of those sections specifies that action can be taken thereunder only after notice and hearing. Similar action would be required for any change in the financial responsibility requirements, no matter how minor.

Under section 416 (a) of the act the Board is given power to establish "just and reasonable classifications or groups of air carriers * * *; and such just and reasonable rules, and regulations, pursuant to and consistent with the provisions of this title, to be observed by each such class or group as the Board finds necessary in the public interest." It has been contended that this provision gives the Board no power to impose requirements by regulation except as provided in the other sections of Title IV, and that where certain provisions of the title require notice and hearing, such procedures must be observed before the regulation can issue.

Such a construction would make that part of section 416 (a) which relates to regulations entirely redundant, for under section 205 (a) of the act the Board is given the general power "* * * to issue and amend such general or special rules, regulations, and procedure, pursuant to and consistent with the provisions of this act, as it shall deem necessary to carry out such provisions and to exercise and perform its powers and duties under this act." This provision alone obviously gives the Board full power to do everything which the proponents of the above-stated limited construction would permit the Board under section 416 (a). The Board believes that section 416 (a) has a wider significance than merely to reiterate the provisions of section 205 (a). It believes that where a proper classification of air carriers can be made, it may apply by general regulation to such class of air carriers the substantive requirements it could apply to individual carriers by a term, condition, or limitation in a certificate, provided that the regulation is reasonably related to the purposes of the classification. Such a construction is fully consistent with the basic protection afforded certificate holders under the act, since if there is any significant fact which makes the application of the rule unjust or inequitable as to any particular carrier, his remedy lies in challenging the propriety of the classification, or of his inclusion therein and as to such issues, he is entitled to a full adjudicatory hearing. The narrower construction of section 416 (a), referred to above, would tend to impede and thwart the public interest by requiring the application of full adjudi-

catory procedures, with attendant delays and expense to both carriers and government, where the only issue is one of policy which is uniform throughout the class of carriers concerned.

With the foregoing considerations in mind, the Board construes section 416 (a) of the act as giving it power to enact this regulation.

Substantively, the measure adopted hereby differs greatly from the one which was proposed in the original notice of proposed rule making. Modifications made have been to make the requirements more flexible and less burdensome on air carriers and foreign air carriers. Attention is particularly directed to the treatment of air carriers operating aircraft under 12,500 pounds. In the case of these operators, which numerically are far in excess of the operators of the larger equipment, the Board believes it would be unduly burdensome to require the filing with the Board of insurance certificates or other proof of financial responsibility, in the absence of concrete indication that such an operator is irresponsible. Because the weight of the aircraft they operate places them in a class comparable to operators of vehicles on the surface, the Board considers that regulations similar in nature to the financial responsibility laws in effect in certain states would be more appropriate to their case. Thus the Board is imposing no requirement of proof of financial responsibility on the part of any operator of aircraft under 12,500 pounds unless, after having become involved in an accident, such operator is not able to file an assurance with the Board that a final judgment against him will be met up to $25,000 per passenger and $100,000 for third party property and personal injury damage.

PART 271—FINANCIAL RESPONSIBILITY REQUIREMENTS FOR AIR CARRIERS AND FOREIGN AIR CARRIERS

§ 271.0 *Applicability of part.* This part shall apply to all air carriers and foreign air carriers which hold currently effective authority to provide services in air transportation, with the exception of air freight forwarders and international air freight forwarders as defined in Part 296 and Part 297 of this chapter, respectively.

§ 271.1 *Definitions.* As used in this part, terms shall be defined as follows:

(a) "Act" means the Civil Aeronautics Act of 1938, as amended.

(b) "Air transportation" means air transportation as defined in the act.

(c) "Insurer or Insurance Company" means any individual, copartnership, syndicate, corporation, association, or group, authorized to conduct an insurance business.

(d) "Maximum certificated take-off weight" means the maximum take-off weight authorized by the terms of the aircraft airworthiness certificate.

§ 271.2 *Requirements as to financial responsibility.* Air carriers shall not engage in air transportation and foreign air carriers shall not engage in air transportation within the United States unless, at all times while they are so engaged, the requirements of this part as to financial responsibility in respect of passenger liability, public liability for bodily injury and public liability for property damage, have been met in conformity with the requirements herein applicable.

§ 271.3 *Evidence of financial responsibility.* An air carrier shall not engage in air transportation with an aircraft of 12,500 pounds or more maximum certificated take-off weight unless there is on file with the Board either:

(a) A currently effective certificate or certificates of insurance in the form prescribed in § 271.4 approved by the Board covering all insurance required to be carried by this part and executed by a qualified insurance company.

§ 271.5 *Exclusionary clauses.* The following exclusion clauses but no others may be inserted in the policy:

(a) Any loss against which the named insured has other valid and collectible insurance;

(b) Any loss arising from the ownership, maintenance or use of any type of aircraft not declared to the insurance company;

(c) Liability assumed by the insured under any contract or agreement;

(d) Bodily injury, sickness, disease, mental anguish or death of any employee of the insured while engaged in the duties of his employment or any obligation for which the insured or any company as his insurer may be held liable under the Workmen's Compensation or occupational disease law;

(e) Damage to or destruction of property owned, rented, occupied or used by, or in the care, custody or control of the insured or carried in or on any aircraft with respect to which aircraft insurance is afforded by the policy;

(f) In respect to any aircraft while being operated, except while not in flight, by other than a pilot who has qualified for at least a commercial pilot's certificate;

(g) To any insured (if insured is a corporation or partnership then by or at the direction of an executive officer or partner other than one who is acting as pilot of the aircraft) who permits the operation of the aircraft in closed course racing, crop dusting, spraying, seeding, hunting, bird or fowl hunting;

(h) In respect to personal injury, or damage to or destruction of property (other than property in the care, custody or control of the insured), or other loss, if arising out of a happening elsewhere than in the continental United States and if caused or contributed to by the following risks: Hostile or warlike action, including action in hindering, combating, or defending against an actual, impending or expected attack by any government or sovereign power, de jure or de facto, or by any authority maintaining or using military, naval, or air forces, or by military, naval, or air forces, or by an agent of such government, power, authority, or forces; the discharge, explosion, existence or use of any weapon of war employing atomic fission or atomic fusion or radioactive materials; insurrection, rebellion, revolution, civil war or usurped power, including any action in hindering, combating, or defending against such occurrence; or confiscation by order of any government or public authority;

(i) In the case of policies covering public bodily injury liability or public property damage liability, or both, name as geographical exceptions only areas outside of the "United States," as defined in the act ("the several States, the District of Columbia, and the several Territories and possessions of the United States, including the Territorial waters and the overlying air space thereof") and those areas within the "United States" in which the operations of the Insured are covered by other insurance meeting the requirements of the rules and regulations of the Civil Aeronautics Board;

(j) In the case of policies covering passenger liability, name as geographical exceptions only those areas of the world in which air transportation operations of the Insured are covered by other insurance meeting the requirements of the rules and regulations of the Civil Aeronautics Board;

(k) In the case of policies covering a combination of passenger liability and one or both of the other forms of liability required by this part of CAB Economic Regulations to be covered, name geographical exceptions separately for passenger liability and the other form or forms of liability in line with the above instructions.

§ 271.6 *Filing of certificate of insurance.* All certificates of insurance shall be filed, in triplicate, with the Secretary of the Board at its Washington, D. C., office. Upon receipt and approval by the Board, one copy will be stamped "received and approved" and returned to the home office of the insuring Company.

§ 271.7 *Approvals of insurance certificate and revocation thereof.* The Board may, at any time, refuse approval, or revoke its approval, of an insurance certificate filed under this part if in its judgment the certificate is not in compliance with the provisions of this part or the insuring Company is not or has ceased to be a qualified insurance Company within the meaning of § 271.11.

§ 271.8 *Endorsement required to be part of each insurance policy.* An endorsement (on paper of such size, color and weight of paper as the insuring company may desire) containing the precise title, arrangement, form number and language as that prescribed in § 271.9, shall be attached to and made part of each insurance policy required under this part and shall be countersigned by an authorized representative of the insuring Company.

§ 271.9 *Form of endorsement.* The form of the endorsement shall be as follows:

resulting either from negligence in the operation, maintenance, or use of aircraft in air transportation or from such occurrences, acts or omissions in the course of operation, maintenance, or use of aircraft in air transportation as constitute a lawful basis for the judgment under applicable Federal, State, Territorial, or local statutes or laws. The Company further agrees that, in any instance in which a person has a cause of action against the insured which would, but for death of the insured and the effect of this upon the cause of action under applicable law, entitle him to recovery of a judgment against the insured of the kind above described, it will pay the provable damages up to the limits of liability hereinafter provided. It is further understood and agreed that, in the event that a final judgment has been recovered against the insured and such judgment has remained unpaid by or on behalf of the insured for a period of more than 30 days, the Company's obligations under this paragraph shall run directly to such judgment creditor or to a person in the situation outlined above and that, upon failure of the Company upon proper demand to discharge such obligation, such judgment creditor or such person may maintain an action in any court of competent jurisdiction against the Company to compel such payment.

The liability of the Company extends to the bodily injuries and deaths and losses and damages described above whether occurring on the route or in the territory which the insured is authorized by the Civil Aeronautics Board to serve or elsewhere, except as follows: (Here set forth, as desired, any one or more of the exclusionary clauses mentioned in § 271.5.)

Within the limits of liability hereinafter provided it is further understood and agreed that no condition, provision, stipulation, or limitation contained in the policy, or any other endorsement thereon or violation thereof, or of this endorsement, by the insured, shall relieve the Company from liability hereunder or from the payment of any such final judgment, irrespective of the financial responsibility or lack thereof or insolvency or bankruptcy of the insured.

The limits of the Company's liability for the amounts provided in this endorsement apply separately to each accident and any payment under the policy because of any one accident shall not operate to reduce the liability of the Company in connection with any other accident.

In all cases where liability of the insured is limited under provisions of applicable international treaties, conventions or agreements or under provisions of applicable Federal, State, Territorial, or local statutes or laws, the liability of the Company shall likewise be so limited. However, in all other cases, the provisions of this endorsement shall in no way affect liability of the Company for amounts in excess of those specified in the following schedule of minimum coverages:

SCHEDULE OF MINIMUM COVERAGES

	Type of aircraft	
	12,500 pounds or under [1]	Over 12,500 pounds [1]

TO CIVIL AERONAUTICS BOARD,
Washington, D. C.

This is to advise that, under the terms of Policy No. ---------- issued to ----------
(Name of air carrier)
of ----------
(Address of air carrier's principal place of business)
by ----------
(Name of issuing company)
of ----------
(Home office address of issuing company)

said policy, including any and all endorsements or certificates attached thereto or issued in connection therewith, is hereby cancelled, effective as of the -------- day of --------, 19----, 12:01 a. m., standard time, at the address of the Insured as stated in said policy or as of the same time on the thirty-first day following actual receipt of this notice by the Civil Aeronautics Board, whichever shall be later.

§ 271.12 *Establishment of financial responsibility otherwise than by insurance.* Any air carrier desirous of satisfying the requirements of this Part otherwise than by furnishing the insurance certificate provided for in § 271.4 shall file a petition in triplicate with the Board setting forth the evidence and other supporting data showing that the air carrier possesses the financial responsibility required by this part. The Board will by order approve any such petition unless it finds that the plan proposed is inadequate to meet such requirements. Any such approval may be subsequently rescinded upon a finding by the Board that the plan no longer meets such requirement.

§ 271.13 *Financial responsibility requirements for air carriers operating aircraft of less than 12,500 pounds.* An air carrier operating aircraft of less than 12,500 pounds maximum certificated take-off weight may with respect to such aircraft, but need not, comply with the provisions of this part relative to air carriers operating aircraft of 12,500 pounds or over. However, where an air carrier has not so complied and an aircraft operated by him becomes involved in an accident which may give rise to liability as covered by this part, such air carrier shall, within ten (10) days after such accident, either (1) post a bond with the Board or furnish the Board with other assurances satisfactory to it, that such liability will be met up to the limits specified in this part, or (2) file the insurance certificate provided for in § 271.4. Failure to comply with this requirement shall be grounds for immediate suspension by the Board of such carrier's operating authority.

§ 271.14 *Foreign air carriers.* Foreign air carriers may, but need not, comply with the provisions of this part applicable to air carriers operating aircraft of 12,500 pounds or over. In the event such compliance is not shown, the foreign air carrier shall submit to the Board for its approval a certificate from a financially responsible insurer showing that such foreign air carrier is covered by insurance in at least the amount specified in § 271.9 in respect of the risks required to be covered by § 271.2 within the United States. Such certificate shall also state that the exclusions in such insurance are no greater than those set forth in § 271.5 and that the insurer has designated an agent in the United States to accept service of process on behalf of such insurer in respect of risks covered by such insurance, together with the name and address of such agent. No insurer shall be deemed financially responsible hereunder who has failed, upon demand, to pay in United States currency a final judgment rendered in the United States against the insured, up to the limits specified in § 271.9, in favor of a person in respect of whom foreign air carriers are required to show financial responsibility under this part. Foreign air carriers desiring to show compliance with the requirements of this part otherwise than by the submission of an insurance certificate, or by a combination of insurance, self-insurance, surety bond, bank deposit, or government guarantee, may do so by complying with the procedures applicable to air carriers under § 271.12. The Board will approve any type of showing of financial responsibility by a foreign air carrier where it finds that there is no reasonable likelihood that liabilities of such foreign air carriers of the nature and in the amounts specified in this part, will not be met.

NOTICES

DEPARTMENT OF THE TREASURY

Bureau of Customs

[T. D. 53158]

BASKETS MANUFACTURED OF RATTAN

TARIFF CLASSIFICATION

Collectors of customs shall classify baskets manufactured of rattan under paragraph 411.

The United States Customs Court held in a decision published as Abstract 56881 that certain baskets manufactured of rattan, and measuring about 11 inches in length and 8 inches in width, with a hood effect at one end, were classifiable under the provision in paragraph 409 for "articles not specially provided for, wholly or partly manufactured of rattan," at the rate of 45 percent ad valorem. In so doing the court overruled the collector's classification of the merchandise as toys under paragraph 1513 at the rate of 70 percent ad valorem.

In T. D. 32171, the United States Court of Customs Appeals held baskets made of rattan to be classifiable under the provision in paragraph 214, Tariff Act of 1909, for baskets made of wood.

The baskets the subject of the decision in Abstract 56881 would therefore appear properly to be classifiable under the paragraph 411, Tariff Act of 1930, covering baskets wholly or in chief value of wood. Accordingly, the ruling in that decision shall be applied only to the merchandise which was the subject of that action, and merchandise of the kind in question covered by other importations shall be classified under paragraph 411.

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: December 15, 1952.

(8) Decisions, other than those enumerated heretofore in this subdivision (a), in matters arising under provisions of law administered in the Division of Drawbacks, Penalties, and Quotas.

(b) Chief, Division of Classification, Entry, and Value:

(1) Decisions relating to the classification, entry, or valuation of merchandise.

(2) Decisions relating to powers of attorney.

(3) Decisions relating to shortages of merchandise in cases arising under section 499 or any other provision of the Tariff Act of 1930, as amended.

(4) Decisions relating to liens in cases arising under section 564, Tariff Act of 1930.

(5) Decisions regarding bills of lading, carriers' certificates, or rights in respect of merchandise, in cases arising under section 483 or 484 (c), (h), or (i), Tariff Act of 1930.

(6) Decisions regarding owners' declarations in cases arising under section 485 (d), Tariff Act of 1930.

(7) Decisions regarding authorizations for reliquidations under section 515 or 520 (c) (2), Tariff Act of 1930, as amended.

(8) Decisions relating to the assessment and collection of duties on equipment or repairs of vessels or aircraft under section 466, Tariff Act of 1930, and decisions regarding the remission or refund of such duties.

(9) Decisions, other than those enumerated heretofore in this subdivision (b), in matters arising under provisions of law administered in the Division of Classification, Entry, and Value.

(c) Chief, Division of Marine Administration:

(1) Decisions as to the mitigation or remission of fines and penalties (including forfeitures) in amounts not exceeding $2,000 in the aggregate in any one case handled in his division.

(2) Decisions with respect to the registry (including provisional registry), enrollment, and licensing of vessels, including matters relating to builders' certificates, awards of official numbers, approval of home ports, assignment of signal letters, the preparation of all reports and publications in connection therewith, and endorsement of names of masters.

(3) Decisions with respect to the recording of instruments of legal or equitable title and of notices of claim of lien relating to vessels.

(4) Decisions with respect to the registration of rockets, lights, or other similar code signals, house flags, and funnel marks.

(5) Decisions with respect to certificates of protection, certificates of record, yacht commissions, and cruising licenses.

(6) Decisions with respect to the admeasurement of vessels.

(7) Decisions with respect to tonnage taxes (regular, special, and discriminatory), and light money.

(8) Decisions with respect to the collection of tolls.

(9) Decisions with respect to the entry and clearance of vessels and permits for them to proceed coastwise.

(10) Decisions with respect to the regulation of vessels in the coasting and fishing trades.

(11) Decisions with respect to the limitation of the use of foreign vessels in waters under the jurisdiction of the United States.

(12) Decisions with respect to salvage operations by vessels within the territorial waters of the United States.

(13) Decisions with respect to the protection of steerage passengers.

(14) Decisions with respect to publication of "Navigation Laws of the United States."

(15) Decisions, other than those enumerated heretofore in this subdivision (c), in matters arising under provisions of law administered in the Division of Marine Administration.

2. T. D.'s 52209, 52330, 52331, and 52394 (14 F. R. 2244, 6533, 6534, 15 F. R. 589) are hereby superseded.

3. Except as specified in paragraph 2, above, all delegations of authority to customs officers and employees, whether in the headquarters office of the Bureau of Customs in Washington or in the field, heretofore made in the Customs Regulations of 1943 or any other regulation, order, or instruction, are continued in effect, and all functions which immediately prior to the effective date of Reorganization Plan No. 26 of 1950 (15 F. R. 4935) were vested by law in customs officers other than the Commissioner of Customs (which have been performed by such officers since that time under Treasury Order No. 120, dated July 31, 1950 (15 F. R. 6521)), shall continue to be performed by such officers unless and until otherwise prescribed.

Office of the Secretary

[Treasury Department Order No. 165; T. D. 53160]

COMMISSIONER OF CUSTOMS, BUREAU OF CUSTOMS

DELEGATION OF GENERAL AUTHORITY OVER FUNCTIONS OF ALL OFFICERS, EMPLOYEES, AND AGENCIES

DECEMBER 15, 1952.

By virtue of the authority vested in me by section 3 of the act of March 3, 1927 (5 U. S. C. 281b), and Reorganization Plan No. 26 of 1950 (15 F. R. 4935), it is hereby ordered:

1. There are hereby transferred to the Commissioner of Customs the functions of all officers, employees, and agencies of the Bureau of Customs and, subject to the exceptions hereinafter specified, all the rights, privileges, powers, and duties vested in the Secretary of the Treasury by the Tariff Act of 1930, as amended, by the navigation laws administered by the Bureau of Customs, or by any other law to the extent that it is administered by the Bureau of Customs.

(a) Regulations shall be prescribed by the Commissioner of Customs, with the approval of the Secretary of the Treasury, except that regulations and instructions, not inconsistent with the general rules and regulations of the Treasury Department, which are effective only against persons in their capacity as officers, agents, or employees of the Customs Service, and which do not prescribe procedures which the public should know or follow in dealing with the Customs Service, may be prescribed by the Commissioner of Customs with-

out the approval of the Secretary of the Treasury.

(b) Requirements of regulations which may be waived in accordance with law may be waived by the Commissioner of Customs.

(c) Findings of dumping under section 201 (a), Antidumping Act, 1921, and the ascertainment, determination, or estimation, and declaration of bounties or grants under section 303, Tariff Act of 1930, shall be made by the Commissioner of Customs with the approval of the Secretary of the Treasury, except that, when the Commissioner, with the approval of the Secretary, has determined and declared a rule for calculating or estimating the net amount of any such bounty or grant, any customs officer authorized by the Commissioner of Customs may ascertain and determine, or estimate, the net amount of the bounty or grant paid or bestowed in respect of each particular lot of imported merchandise.

(d) Findings under section 307, Tariff Act of 1930, whether any class of goods, wares, articles, or merchandise is mined, produced, or manufactured wholly or in part in any foreign country by convict labor or/and forced labor or/and indentured labor under penal sanctions, and findings whether such goods, wares, articles, or merchandise so mined, produced, or manufactured are mined, produced, or manufactured in such quantities in the United States as to meet the consumptive demands of the United States, shall be made by the Commissioner of Customs with the approval of the Secretary of the Treasury.

(e) Any authority which may be vested in the Secretary of the Treasury by a proclamation of the President made pursuant to section 318, Tariff Act of 1930, shall be exercised by the Secretary of the Treasury.

(f) Any order under section 511, Tariff Act of 1930, prohibiting the importation of merchandise or instructing a collector to withhold delivery of merchandise shall be made by the Commissioner of Customs with the approval of the Secretary of the Treasury.

(g) No claim, fine or penalty (including forfeiture) in excess of $20,000 shall be compromised, mitigated, or remitted without the approval of the Secretary of the Treasury.

(h) An award of compensation to an informer under section 619, Tariff Act of 1930, shall be made by the Commissioner of Customs only with the approval of the Secretary of the Treasury when claimed in connection with any decision which has been acted upon or approved by the Secretary of the Treasury.

(i) The authority conferred by the President upon the Secretary of the Treasury by Executive Order 10289 (16 F. R. 9499) with respect to the organization of the Customs Service and to laws administered by the Bureau of Customs shall be exercised by the Secretary of the Treasury.

2. All functions, rights, privileges, powers, and duties transferred by this order may be delegated by the Commissioner of Customs to subordinates in the Bureau of Customs in such manner as he shall from time to time direct.

3. This order supersedes T. D. 52121 and all other orders and instructions heretofore issued to the extent that such orders or instructions are inconsistent herewith.

[SEAL] JOHN S. GRAHAM,
Acting Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[E-Group 282]

ARIZONA

NOTICE OF FILING OF PLAT OF SURVEY

DECEMBER 15, 1952.

Notice is given that the plat of survey of the following described lands, accepted October 13, 1952, will be officially filed in the Land and Survey Office, Phoenix, Arizona, effective at 10:30 a. m. on the 35th day after the date of this notice:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 2 S., R. 19 W.,
All Secs. 4 to 9 inclusive,
All Secs. 16 to 21 inclusive,
All Secs. 29, 30 and 31.

The area described aggregates 9,516.79 acres.

Director's memorandum of June 6, 1950, stated that all Sections 6, 7, 18 and 19, T. 2 S., R. 19 W., have been subjected to high explosive impact, and are, therefore, restricted to surface use only.

No application for any of the lands involved may be allowed under the homestead, small tract, desert land, or any other non-mineral public land laws, unless the land has already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

Available data indicates that the land is desert and mountainous in character.

At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Bureau of Land Management, Phoenix, Arizona.

THOS. F. BRITT,
Manager.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2957]

NORTH PENN GAS CO.

NOTICE OF FILING OF AMENDMENT REGARDING PROPOSED PRIVATE SALE OF PROMISSORY NOTES

DECEMBER 17, 1952.

On November 14, 1952, the Commission issued its notice of filing (Holding Company Act Release No. 11586) regarding a requested exception from the provisions of Rule U-50 and the proposed issuance and private sale of $2,300,000 face amount of 4¼ percent 20-year promissory notes by North Penn Gas Company ("North Penn"), a registered holding company, an operating gas utility company, and a direct subsidiary of Pennsylvania Gas & Electric Corporation ("Penn Corp"), also a registered holding company. Said notice of filing contained a summary of the terms of the promissory notes as then proposed, and the circumstances relating to their issuance and sale.

Notice is hereby given that North Penn has filed an amendment to its application-declaration in the above-mentioned matter, setting forth certain proposed changes with respect to the aforesaid financing. The application-declaration, as amended, provides that the proposed notes shall bear interest at 4⅜ percent instead of 4¼ percent and are to be sold to five insurance companies, namely, Connecticut Mutual Life Insurance Company, Connecticut General Life Insurance Company, Lincoln National Life Insurance Company, and Massachusetts Mutual Life Insurance Company, each of which will purchase $500,000 face amount of the notes, and Home Life Insurance Company which will purchase $300,000 face amount thereof. Negotiations for the sale of the notes were conducted through Eastman, Dillon & Co. as agent for North Penn.

The terms and provisions of the promissory notes are to be set forth in a Loan Agreement between North Penn and the purchasers and will provide, among other things, for a 5 percent annual sinking fund and for minimum annual provisions for depreciation amounting to 3 percent of the company's gross property, the funds represented by depreciation charges to be expended within two years for new construction and any portion not so used to be applied to the retirement of funded debt. The Loan Agreement will further provide that North Penn will undertake by December 31, 1953, to complete negotiations for the purchase of additional natural gas under firm 20-year contracts with long line suppliers in sufficient amounts to equal the combined domestic and commercial loads of North Penn and of Crystal City Gas Company, it being provided that if such contracts have not been concluded by the date specified, the purchasers will have the right to require an adjustment of the sinking fund payments.

The proceeds from the proposed sale together with treasury cash will be used to redeem North Penn's 5 percent debentures due 1971 presently outstanding in the aggregate principal amount of $2,619,000.

Fees and expenses, including a fee of $16,100 to Eastman, Dillon & Co. as finder and negotiator for North Penn, and $7,000 legal fees, of which $5,000 is for counsel to the purchasers, are estimated by North Penn at $27,167.

The filing states that the Pennsylvania Public Utility Commission has jurisdiction over the proposed transactions but that no other State or Federal Commission has jurisdiction in the matter.

The filing requests that the Commission's order herein become effective forthwith upon issuance.

Notice is further given that any interested person may, not later than January 2, 1953, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the

[File No. 812-815]

E. I. DU PONT DE NEMOURS AND CO.

NOTICE OF APPLICATION

DECEMBER 19, 1952.

Notice is hereby given that E. I. du Pont de Nemours and Company ("Applicant") of Wilmington, Delaware (an affiliated person of and presumptively controlled by Christiana Securities Company, a registered closed-end non-diversified management investment company, which is an affiliated person of and presumptively controlled by Delaware Realty and Investment Company, a registered closed-end non-diversified management investment company) has filed an application pursuant to section 17 (b) of the act for an order exempting from the provisions of section 17 (a) of the act a proposed transaction whereby applicant will surrender 99,990 common shares of Industries Quimicas Argentinas "Duperial," S. A., an Argentine corporation, to Duperial for redemption and cancellation in return for 661,039 shares of "Ducilo" S. A. Productora De Rayon, an Argentine corporation, and 4,000,000 Argentine pesos.

It appears from the application that applicant and Imperial Chemical Industries, Limited ("ICI"), incorporated under the laws of the United Kingdom, each own approximately 50 percent of the outstanding common shares of Duperial, and that 661,039 of the outstanding shares (72.25 percent) of Ducilo are owned by Duperial. It further appears that the transaction described above has been proposed pursuant to the final judgment in an action entitled "United States of America v. Imperial Chemical Industries, Limited, et al." (Civil Action 24-13), in the United States District Court for the Southern District of New York. Pursuant to said judgment, the joint interests of ICI and applicant in, and joint control of, Duperial and certain other jointly owned companies must be terminated.

For a more detailed statement of the matters of fact and law asserted, all interested persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application may be issued by the Commission at any time on or after December 29, 1952, unless prior thereto a hearing upon the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than December 26, 1952, at 5:30 p. m., in writing submit to the Commission his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

TITLE 7—AGRICULTURE

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 729—PEANUTS

COUNTY ACREAGE ALLOTMENTS FOR THE 1953 CROP; FLORIDA

Basis and purpose. Section 358 (e) of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1358 (e)), provides that the Secretary of Agriculture may, if the State Production and Marketing Administration Committee recommends such action and the Secretary determines that such action will facilitate the effective administration of the provisions of the act, provide for the apportionment of the State acreage allotment among the counties in the State on the basis of the past acreage of peanuts harvested for nuts (excluding acreage in excess of farm allotments) in the county during the five years immediately preceding the year in which such apportionment is made, with such adjustments as are deemed necessary for abnormal conditions affecting acreage, for trends in acreage, and for additional allotments for types of peanuts in short supply under the provisions of section 358 (e) of the act. The State Production and Marketing Administration Committee for the State of Florida has recommended that the 1953 State peanut acreage allotment heretofore established (17 F. R. 10537) be apportioned among the peanut-producing counties in the State pursuant to the provisions of section 358 (e) of the act. It is hereby determined that apportionment of the 1953 Florida peanut acreage allotment among the counties in the State will facilitate the effective administration of the provisions of the act, and the purpose of this document is to announce such apportionment.

The recommendation of the Florida State Production and Marketing Administration Committee to apportion the 1953 State peanut acreage allotment among the counties was made after due consideration of such data, views, and recommendations as were received pursuant to public notice (17 F. R. 9563) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003), and the determinations made herein were made on the basis of the latest available statistics of the Federal Government. Peanut farmers in Florida are now making plans for the production of peanuts in 1953. In order that the State and county Production and Marketing Administration committees may establish farm acreage allotments and issue notices thereof to farm operators at the earliest possible date, it is essential that the county acreage allotments contained herein be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date provision of the Administrative Procedure Act is impracticable and contrary to the public interest, and the county acreage allotments contained herein shall be effective upon filing of the document with the Director, Division of the Federal Register.

Section 729.404 of the proclamation of 1953 county peanut acreage allotments, issued December 10, 1952 (17 F. R. 11302) is amended by adding the following:

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 812]

PART 812—SUGAR REQUIREMENTS AND QUOTAS HAWAII AND PUERTO RICO

CALENDAR YEAR 1953

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, 65 Stat. 318; 7 U. S. C., Sup. 1100) and the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1001), these regulations are hereby made, prescribed, and published to be in force and effect for the calendar year 1953 or until amended or superseded by regulations hereafter made during the calendar year 1953.

Basis and purpose. The determinations and the sugar quotas set forth below have been made and established pursuant to section 203 of the Sugar Act of 1948, as amended, (hereinafter called the "act"). The act requires that the Secretary of Agriculture make such determinations and establish such quotas for the calendar year 1953 during December 1952. The determinations of the sugar requirements have been based, insofar as required by section 201 of the act, on official statistics of the Department of Agriculture and statistics published by other agencies of the Federal Government. The purpose of such determinations is to provide the amounts of sugar needed to meet the requirements of consumers in the Territory of Hawaii and in Puerto Rico for the calendar year 1953. The determinations provide the basis for the establishment of sugar quotas for such year for local consumption therein pursuant to section 203 of the act.

Prior to the issuance of these regulations, notice was given (17 F. R. 9564) that the Secretary of Agriculture was preparing, among other things, to determine the sugar requirements and quotas for the calendar year 1953 for local consumption in Hawaii and in Puerto Rico and that any interested person might present any data, views or arguments with respect thereto in writing not later than November 26, 1952. Due consideration has been given to the data, views and arguments submitted, in accordance with the Administrative Procedure Act (60 Stat. 237).

Since the act requires that the Secretary of Agriculture determine sugar requirements and establish quotas for local consumption in Hawaii and in Puerto Rico for the calendar year 1953 during December 1952, it is not possible to comply with the 30-day effective date requirement of the Administrative Procedure Act. Accordingly, these regulations shall be effective when published in the FEDERAL REGISTER.

§ 812.7 *Sugar requirements and quotas*—(a) *Sugar requirements.* It is hereby determined, pursuant to section 203 of the act, that the amount of sugar needed to meet the requirements of consumers in the Territory of Hawaii for the calendar year 1953 is 45,000 short tons of sugar, raw value, and that the amount of sugar needed to meet the requirements of consumers in Puerto Rico for the calendar year 1953 is 110,000 short tons, raw value.

(b) *Local consumption quotas.* There are hereby established, pursuant to section 203 of the act, for local consumption in the Territory of Hawaii and in Puerto Rico, for the calendar year 1953 the following quotas:

Area:	*Quotas in terms of short tons, raw value*
Hawaii	45,000
Puerto Rico	110,000

§ 812.8 *Restrictions on marketing.* For the calendar year 1953, all persons are hereby forbidden, pursuant to section 209 of the act, from marketing in the Territory of Hawaii or in Puerto Rico, for consumption therein, any sugar or liquid sugar after the quota for the area for the calendar year 1953 has been filled.

Statement of bases and considerations. Pursuant to section 203 of the act, it has been determined that those provisions of section 201 of the act which shall apply to the determination of the amounts of sugar needed to meet the requirements of consumers in Hawaii and in Puerto Rico relate to (1) the amounts of sugar distributed for local consumption in Hawaii and in Puerto Rico during the twelve-month period ending October 31, 1952, and (2) changes in consumption because of changes in population and demand conditions. The amounts of sugar distributed for consumption in Hawaii and Puerto Rico, including that which was lost in refining after charge to the local quota, during such twelve-month period were 36,000 short tons of sugar, raw value, and 107,000 short tons of sugar, raw value, respectively.

While no official estimates of population increases for either of these areas are available, it is believed that there will be increases in both areas comparable to those in previous years. In Hawaii, distribution of sugar for local consumption was reduced in the period cited above principally because of a drop in the pineapple pack. In the preceding twelve months the local distribution had totalled 42,000 short tons, raw value. In Puerto Rico, the 1952 local quota of 110,000 short tons, raw value, will result in more adequate "quota" stocks of refined sugar available for consumption in 1953, than were similarly available in 1952. The level of such stocks on December 31, 1952, still will be moderate.

Allowing for all changes in demand conditions, the quantities of 45,000 short tons for Hawaii and 110,000 short tons, raw value, for Puerto Rico should meet the requirements of larger populations.

(Sec. 403, 61 Stat. 932, 7 U. S. C. Sup., 1153. Interpret or apply secs. 201, 203, 209, 210, 61 Stat. 923, 925, 928; 7 U. S. C. Sup., 1111, 1113, 1119, 1120)

Subchapter H—Determination of Wage Rates

[Sugar Determination 866.5]

PART 866—SUGARCANE; HAWAII

WAGE RATES FOR CALENDAR YEAR 1953

Pursuant to the provisions of section 301 (c) (1) of the Sugar Act of 1948, as amended, (herein referred to as "act"), after investigation, and consideration of the evidence obtained at the public hearings held in Honolulu, and in Hilo, Territory of Hawaii, on October 22 and 24-25, 1952, respectively, the following determination is hereby issued:

§ 866.5 *Fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in Hawaii during the calendar year 1953*—(a) *Requirements.* The requirements of section 301 (c) (1) of the act shall be deemed to have been met with respect to the production, cultivation, or harvesting of sugarcane in Hawaii during the calendar year 1953, if the producer complies with the following:

(1) *Wage rates.* All persons employed on the farm shall have been paid in full for production, cultivation, or harvesting work and shall have been paid wages in cash therefor at rates as agreed upon between the producer and laborer.

(b) *Subterfuge.* The producer shall not reduce the wage rates to laborers below those determined in this section through any subterfuge or device whatsoever.

(c) *Claim for unpaid wages.* Any person who believes he has not been paid in accordance with this determination may file a wage claim with the Director of the Hawaiian Area Office, Production and Marketing Administration, U. S. Department of Agriculture, Honolulu 13, T. H., against the producer on whose farm the work was performed. Such claim must be filed within two years from the date the work with respect to which the claim is made was performed.

Detailed instructions and wage claim forms are available in the Area Office. Upon receipt of a wage claim, the Director of the Hawaiian Area Office shall thereupon notify the producer against whom the claim is made concerning the representation made by the laborer and, after making such investigation as he deems necessary, shall notify the producer and laborer in writing of his recommendation for settlement of the claim. If the recommendation of the Director of the Area Office is not acceptable, either party may file an appeal with the Director of the Sugar Branch, Production and Marketing Administration, U. S. Department of Agriculture, Washington 25, D. C. Such appeal shall be filed within 15 days after receipt of the recommended settlement from the Director of the Area Office; otherwise, such recommended settlement will be applied in making payments under the act. If a claim is appealed to the Director of the Sugar Branch, his decision shall be binding on all parties insofar as payments under the act are concerned.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination provides fair and reasonable wage rates which a producer must pay, as a minimum, for work performed by persons employed in the production, cultivation, or harvesting of sugarcane in Hawaii during the calendar year 1953, as one of the conditions for payment under the act.

(b) *Requirements of the act and standards employed.* In determining fair and reasonable wage rates, it is required under the act that a public hearing be held, that investigations be made, and that consideration be given to (1) the standards formerly established by the Secretary under the Agricultural Adjustment Act, as amended, and (2) the differences in conditions among the various sugar producing areas.

Public hearings were held in Honolulu and Hilo, Territory of Hawaii, on October 22 and 24–25, 1952, respectively, at which time interested persons presented testimony with respect to fair and reasonable wage rates for the calendar year 1953. In addition, investigations have been made of the conditions affecting such wage rates. In this determination, consideration has been given to testimony presented at the hearings and to information resulting from investigations. The primary factors which have been considered are: (1) Cost of living; (2) prices of sugar and by-products; (3) income from sugarcane; (4) cost of production; and (5) relationship of labor costs to total costs. Other economic influences also have been considered.

(c) *1953 wage determination.* The 1953 wage determination continues the provision of the 1952 wage determination which required the payment of wages at rates as agreed upon between the producer and the laborer.

At the public hearing, a representative of 27 sugarcane plantation companies recommended that the rates in the recent agreements between the plantation companies and the union be approved for 1953; that in the event individual plantation contracts are re-opened during 1953, the wage adjustment mutually agreed to between the company and the union be considered fair and reasonable; and that in the event, industry-wide reopening of collective agreements should result in a temporary absence of agreement between the parties, a minimum wage of 75 cents per hour be approved. A representative of the remaining plantation company, which does not have an agreement with a labor union, recommended that it be permitted to pay either a minimum rate of 93 cents per hour plus free perquisites to workers or the full cash wage rate in effect on the majority of plantations with no perquisites. A representative of the workers' union testified at the hearing but offered no specific recommendation with respect to this determination.

Consideration has been given to recommendations made by interested parties, to the collective agreements negotiated by plantation companies and the union, to data which reflect the returns, costs and profits of sugarcane producers, to the cost of living of workers and to other factors customarily considered in wage determinations. The level of wages indicated by the standards customarily considered does not exceed the level of wages in the collective bargaining agreements negotiated between representatives of producers and workers. Since the act requires that workers shall be paid "in full" for work performed, payment of "agreed upon" wage rates is required to meet this provision of the act.

The collective agreements establish a minimum wage of $1.02 per hour effective during most of 1953 on the majority of plantations, somewhat higher minimums at three plantations, and a somewhat lower wage scale for four plantations which includes, however, a wage-price escalator provision. The variation in minimum wage rates at the seven plantations was developed through collective bargaining and recognizes in a general way the economic status of those plantations. Wage rates provided in the collective agreements are sufficient to compensate for increases in the living costs of sugarcane workers which have occurred since mid-1950 and also provide for further improvement in the standard of living.

Collective agreements do not cover a small percentage of workers who are hired by independent growers or adherent planters for seasonal work on their small farming units or plots of land. However, agreements covering the majority of workers influence the general wage level and thereby provide wage protection to this minority of workers. It is recognized that the wage rates of the current collective bargaining agreements may be altered by agreement between the parties during the period for which this determination is effective. However, it is expected that any revision of wage rates will conform to significant economic changes. For this reason it also is deemed unnecessary to provide a specific minimum wage rate to be effective during any period when the wage provisions of the agreements would be suspended. The recommendation of one plantation which is not covered by a collective agreement is deemed to be met by the requirements of this determination which would permit the payment of wage rates as agreed upon either inclusive or exclusive of perquisites.

Accordingly, I hereby find and conclude that the foregoing wage determination will effectuate the wage provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 929; 7 U. S. C. Sup. 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. Sup. 1131)

Issued this 19th day of December 1952.

Secretary of Agriculture.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 21]

PART 4b—AIRPLANE AIRWORTHINESS; TRANSPORT CATEGORIES

OXYGEN BREATHING EQUIPMENT; UNITS AND SYSTEMS

This supplement establishes policies of the Civil Aeronautics Administration regarding the installation and operation of oxygen units and systems used for either supplemental or protective breathing purposes submitted for approval after the effective date of this supplement.

The following policies are adopted:

§ 4b.651–3 *Supplemental breathing equipment (CAA policies which apply to § 4b.651)*—(a) *Oxygen systems.* (1) Either a continuous flow type system which uses a rebreather type mask or a diluter-demand type system with the lever of the diluter-demand regulator set in the "NORMAL" (Automix "ON") position will satisfactorily provide the supplemental oxygen required for protection against anoxia. The continuous flow system may be of the type which controls the oxygen flow by means of a hand adjustment type regulator, or an automatic type regulator.

(2) A diluter-demand type system with the lever of the diluter-demand regulator set in the "100% OXYGEN" (Automix "OFF") position or a straight demand type system which uses a non-diluter-demand regulator may be used for supplementary breathing purposes as protection against anoxia. However, such use is not recommended due to the lack of oxygen economy of these systems when used to supply supplementary oxygen. As mentioned in § 4b.651–2, either of these closed demand systems is satisfactory for protection against toxic gases.

(b) *Operating instructions.* Operating instructions appropriate to the type of system and masks installed should be provided for the flight crew and other crew members concerned. These instructions should include a graph or a table which will show the duration of the oxygen supply for the various bottle pressures and pressure altitudes.

§ 4b.651–4 *Design considerations for fixed systems (CAA policies which apply to § 4b.651)*—(a) *Location of outlets and equipment for crew members.* Protective breathing equipment should be immediately available for use. It is also desirable that supplementary breathing equipment be available for immediate use; however, the supplemental masks may be stowed in any location in the airplane provided operational procedures require that supplemental masks are at each crew member location when needed. The oxygen outlet should be within reach; the oxygen mask should be stored in such a way that there will be a minimum delay in removing it and putting it into use. Provisions for keeping the masks sanitary and clean are desirable, but cumbersome wrapping or packaging of the mask which involve unnecessary effort and time to open should be avoided. The location of the oxygen outlet for a crew member and the length of tubing connecting the mask of the crew member and his oxygen outlet should be such that the visibility and the movement required of the crew member in the performance of his duties are not impaired or restricted in any way. It should not be necessary for the crew member to loosen or unfasten his seat belt in order for him to obtain his oxygen equipment and to put the system into use.

(b) *Location of outlets for passengers.* The operating regulations require that oxygen be furnished for certain percentages of the passengers at cabin pressure altitudes below 15,000 feet. The number of oxygen outlets need only be sufficient to administer oxygen to the percentage of passengers indicated by the operating rules; however, it is desirable in fixed systems to provide an outlet for each seat to enable a crew member to readily administer oxygen to any passenger requiring it. If this is not accomplished, it is recommended that provision be made by means of portable equipment, extension tubing, or otherwise, to reduce the probability of having to move any passenger who may require the administration of oxygen. At cabin pressure altitudes above 15,000 feet the operating regulations require that oxygen be furnished to all of the passengers, in which case an outlet should be provided for each seat. (See also § 4b.651–5 concerning portable walk-around units.)

(c) *Line supports.* In a fixed installation, the oxygen lines should be supported to prevent excessive vibration and should be kept clear of the airplane structure or any other lines as a protection against chafing. Supports approximately every 24 inches along the length of the line should be adequate.

(d) *Shut-off valves.* System shut-off valves should be accessible in flight and should be installed as close as practicable to the cylinders in order to minimize the possibility of oxygen escape due to leakage or damage of lines between cylinders and valves.

(e) *Cylinder supports.* The supporting brackets for all cylinders should be capable of withstanding the inertia forces stipulated under the emergency landing conditions. (See § 4b.260.)

§ 4b.651–5 *Portable walk-around oxygen units (CAA policies which apply to § 4b.651).* (a) Portable walk-around oxygen units of the continuous flow, diluter-demand and straight demand types may be used to satisfy part or all of crew or passenger breathing requirements.

(b) Each portable oxygen unit should be considered as a complete oxygen system and any regulations or pertinent interpretative material relative to oxygen systems should also be applicable to each portable unit.

(c) The supporting brackets for portable oxygen units should be capable of withstanding the inertia forces stipulated under the emergency landing conditions. (See § 4b.260.)

§ 4b.651–6 *Oxygen pressure gage (CAA policies which apply to § 4b.651 (a)).* At least one pressure gage, which can be observed by a flight crew member during flight, should be installed to indicate the pressure in each source of oxygen supply.

§ 4b.651–7 *Supply required for continuous flow supplementary breathing systems (CAA policies which apply to § 4b.651 (b)).* (a) (1) In computing the supply of oxygen required for a continuous flow system, the formula presented in the following paragraph may be used.

$$S = S_1 + S_2 + \cdots S_n$$

Where:

S = Total supply of oxygen required in cubic feet. S_1, S_2, $\cdots S_n$ = the supply of O_2 needed for each of the various cabin pressure altitudes which will be maintained during the flight.

(2) Each of the above supplies, namely, S_1, S_2, $\cdots S_n$, may be computed as follows:

$$S = N \times F \times T \times 2.12.$$

S = supply of oxygen required in cubic feet.
N = number of oxygen users.
F = the actual flow in LPM (STPD) delivered to each oxygen mask at the cabin altitude under consideration. (See § 4b.651–7 (b).)
T = time in hours at the cabin altitude under consideration.
2.12 = multiplying factor for converting the oxygen mass flow from liters per minute to cubic feet per hours.

NOTE: In computing the supply of oxygen for a given installation, those operating rules of the Civil Air Regulations which specify the amount of oxygen to be carried for operating at various altitudes should be considered.

(b) (1) The intent of § 4b.651 (b) is to insure that for each oxygen user, a partial pressure of 149 mm H_g of oxygen is maintained in the inspired air at a breathing rate of 15 lpm BTPD, at altitudes up to 25,000 feet. The rates of flow specified in Figure 4b–21 satisfy the intent of § 4b.651 (b) and constitute the values for "*F*" in the supply equation when there is no loss of bottle oxygen from the system (including the mask) when a 15 lpm BTPD breathing rate is maintained.

(2) The oxygen mask, since it constitutes part of the system, will influence the value of "*F*". Continuous flow masks with rebreather bags which are currently standard types for aviation usage are satisfactory with the flow rates indicated by Figure 4b–21. Where a receptacle or mask design differs from these, the manufacturer should be requested to supply information concerning the flow rates necessary to maintain the 149 mm H_g partial pressure at a 15 lpm BTPD breathing rate. If the actual mass flow is greater than the minimum required, then the higher flow rate should be used as the value for "*F*".

(3) It is possible that certain automatic continuous flow regulators will furnish oxygen flows in excess of the minimum required; in this case, the actual flow rates should be used as the values for "*F*".

NOTE: (1) BTPD signifies gas at 37° C. (body temperature), ambient pressure, dry. (2) STPD signifies gas at 0° C., 760 mm H_g, dry.

§ 4b.651–8 *Supply required for diluter-demand system (CAA policies which apply to § 4b.651).* (1) Tests conducted by the Armed Forces on currently available diluter-demand regulators indicate that they deliver more oxygen than is required by Fig. 4b–21. Consequently, in computing the supply required for a diluter-demand system, the flow characteristics at various altitudes should be obtained from the manufacturer of the regulator. Where this information is not available, the values listed in the following table may be used for Air Force-Navy approved diluter-demand regulators:

Altitude (in feet):	Flow per person in LPM (STPD)[1]
8,000	1.90
10,000	1.90
15,000	2.10
20,000	2.50
25,000	4.10

[1] Based on 15 LPM, BTPD respiratory minute volume.

(2) The formula outlined in § 4b.651–7 (a) may be used in computing the supply of oxygen for supplementary breathing purposes.

§ 4b.651–9 *Requirements for approval of oxygen systems (CAA policies which apply to § 4b.651 (b)).* Prior to the approval of an oxygen system, the system should be examined to determine that the flow of oxygen through each outlet is at least equal to the minimum required by § 4b.651 (b) at all altitudes for which the aircraft is certificated. This can be accomplished by one of the following methods or by any other satisfactory procedure:

(a) (1) In a continuous flow system when the calibration (inlet pressure vs. flow) of the orifices used at the plug-in outlets is known, the pressure in the low pressure distribution line can be measured at the point which is subject to the greatest pressure drop. This should be done with oxygen flowing from all outlets. The pressure thus measured should indicate a flow equal to or greater than the minimum flow required.

(2) In lieu of the above procedure, the flow of oxygen through the outlet which is subject to the greatest pressure drop may be measured. This should be accomplished with all other outlets open.

Gas meters, rotometers, or other suitable means may be used to measure flows.

(3) The measurement of oxygen flows in a continuous flow system which uses a manually adjusted regulator can be accomplished at sea level. However, in a continuous flow system which uses an automatic type regulator, it may be necessary to check the flows at the maximum altitude which will be encountered during the normal operation of the aircraft. The manufacturer of the particular continuous flow regulator being used should be able to furnish data on the operating characteristics of the regulator from which it can be determined whether flight tests are necessary.

(b) (1) The checking of the amount of oxygen flow through the various outlets in a diluter-demand or straight demand system is not necessary since the flow characteristics of the particular regulator being used may be obtained from the manufacturer of the regulator. However, in such systems the availability of oxygen to each regulator should be checked as follows:

(i) Turn the lever of the diluter-demand regulator to the "100% OXYGEN" position and inhale through the tube via the mask to determine whether the regulator valve and the flow indicator are operating. Deficient units should be replaced.

§ 4b.651–10 *Means for determining oxygen flow to crew members (CAA policies which apply to § 4b.651 (e))*—(a) *Supplementary breathing systems.* (1) Where continuous flow or diluter-demand systems are used for supplementary breathing purposes, each crew member as defined in paragraph (c) of this section should have an individual flow indicator for determining oxygen flow or the operator may establish a suitable procedure for determining oxygen flow and should include such procedures in the Airplane Flight Manual.

(2) If flow indicators are used, the indicator for any particular crew member should be located so as to be easily observed by him while he is at his crew station. Acceptable flow indicators are listed in § 4b.651–12.

(3) If a suitable procedure is to be used for determining oxygen flow in non-pressurized cabin aircraft, the procedure should include initial and periodic checking of the oxygen flow by each crew member by any acceptable method. Some of the acceptable methods are described under § 4b.651–11 (a) and (b). In pressurized cabin aircraft when supplementary oxygen is required immediately following cabin pressurization failure, positive means for determining flow under emergency conditions should be established which would not involve delay or activities which would interfere with a flight crew member's performance of his primary duties. Since utilizing one of the methods for determining oxygen flow permitted for supplementary breathing equipment described under § 4b.651–11 (a) and (b) involves some time delay a flight crew member could don his protective breathing equipment following a pressurization failure because with such equipment oxygen flow is immediately apparent. As soon as some degree of control of the emergency has been established and sufficient time is available to determine oxygen flow by one of the methods mentioned above, he could change over to his supplementary breathing equipment.

(b) *Protective breathing systems.* No flow indicators are required in protective breathing systems since with these systems the lack of oxygen flow would be immediately evidenced by the oxygen user's inability to inhale while wearing mask.

(c) *Crew members involved.* The crew members affected by this section include flight crew members and any other individual assigned by an air carrier for the performance of duty on the aircraft during flight.

§ 4b.651–11 *Means for determining oxygen flow to passengers (CAA policies which apply to § 4b.651 (c)).* Each passenger may be supplied with an individual flow indicator of a type specified in § 4b.651–12 or the operator involved may establish a suitable procedure for checking the oxygen flow to each oxygen user. Procedures which utilize the following means for checking oxygen flow to such user will be satisfactory.

(a) In the case where a continuous flow system is used, the means may be the observing of the rebreather bag on each continuous flow mask by a trained crew member. If oxygen flow is occurring the rebreather bag will continue to expand when the oxygen user periodically refrains from exhaling when the bag is empty or partially empty, or in cases where high oxygen flows are occurring, the rebreather bag may not empty completely during normal inhalation. Any alternate method of checking oxygen flow may be used providing positive indication of flow is given. For example, prior to giving a mask to a passenger, the crew member may find it expedient to feel the flow of oxygen at the oxygen outlet in the mask or to constrict the tubing and listen to audible sounds characteristic of gas flow. If a listening test is employed to determine the flow of oxygen, it should be demonstrated in flight that the test is satisfactory.

(b) In the case where a diluter-demand system is used, the procedure may be checking of the oxygen flow by a trained crew member by momentarily moving the regulator lever to "AUTO-MIX OFF" (100% OXYGEN) while the mask is being worn. Lack of oxygen flow will be immediately evidenced by the user's inability to inhale while wearing his mask.

(c) The oxygen flow to each passenger should be checked when the passenger is first given oxygen and at subsequent intervals if the circumstances prevailing at the time indicate such a check is desirable.

(d) Any crew member assigned by an air carrier for the performance of duty on the aircraft during flight may check the oxygen flow to the passengers if trained to do so.

§ 4b.651–12 *Types of flow indicators (CAA policies which apply to § 4b.651 (e)).* A pith ball flow indicator, vane, or wheel anemometer, lateral pressure indicator which fluctuates with changes in flow or any other satisfactory flow indicator may be used in a continuous flow type system. An Air Force–Navy flow indicator or equivalent may be used in a diluter-demand type system. Each flow indicator should give positive indication when oxygen flow is occurring.

These policies shall become effective January 31, 1953.

[Amdt. 23]

PART 610—MINIMUM EN ROUTE INSTRUMENT ALTITUDES

ALTERATIONS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Therefore, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable.

Part 610 is amended as follows:

1. Section 610.102 *Amber civil airway No. 2* is amended by adding:

From—	To—	Minimum altitude
Crystal, Nev. (FM).....	Las Vegas, Nev. (LFR) (southwest-bound only).	7,000

PART 3—DIGEST OF CEASE AND DESIST ORDERS

J. M. TROTTER ET AL.

Subpart—*Using, selling or supplying lottery devices:* § 3.2475 *Devices for lottery selling;* § 3.2480 *In merchandising.* I. Selling or distributing in commerce, push cards, punchboards, or other lottery devices which are to be used, or which, due to their design, are suitable for use in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise or lottery scheme; and II, in connection with the offering for sale, sale or distribution in commerce, of jewelry, watches, novelties or any other merchandise, (1) supplying to or placing in the hands of others push cards, punchboards, or other lottery devices, either with other merchandise or separately, which said push cards, punchboards or other lottery devices are to be used, or which, due to their design, are suitable for use in the sale or distribution of said merchandise to the public; (2) selling or distributing merchandise packed or assembled in such a manner as to provide the means of selling or distributing said merchandise to the public through the use of a game of chance, gift enterprise or lottery scheme; or, (3) selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise or lottery scheme; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, J. M. Trotter et al., d. b. a. T. & C. Sales Company, Jacksonville, Ill., Docket 5908, October 15, 1952]

In the Matter of J. M. Trotter and H. K. Cade, Copartners, Trading and Doing Business as T. & C. Sales Company

Pursuant to the provisions of the Federal Trade Commission Act, the Federal Trade Commission on July 23, 1951, issued and subsequently served its complaint in this proceeding upon the respondents named in the caption hereinabove charging them with the use of unfair acts and practices in commerce in violation of the provisions of that act. After the filing by respondents of their joint answer to the complaint, a hearing was held before a hearing examiner of the Commission, theretofore designated by it, at which a stipulation theretofore executed by counsel supporting the complaint and counsel for respondents was introduced into evidence, together with certain exhibits, and such stipulation and exhibits were duly recorded and filed in the office of the Commission. On April 14, 1952, the hearing examiner filed his initial decision.

The Commission, having reason to believe that the initial decision did not constitute an appropriate disposition of the proceeding, placed this case on the Commisison's own docket for review and, on July 24, 1952, it issued and thereafter served upon the parties its order affording the respondents an opportunity to show cause why the initial decision should not be altered in the manner and to the extent shown in the tentative decision attached to said order. Respondents not having appeared in response to the leave to show cause, this proceeding regularly came on for final consideration by the Commission upon the record herein on review; and the Commission, having duly considered the matter and being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes the following findings as to the facts,[1] conclusion drawn therefrom,[1] and order, the same to be in lieu of the initial decision of the hearing examiner.

It is ordered, That the respondents, J. M. Trotter and H. K. Cade, individually and as copartners trading as T. & C. Sales Company or trading under any other name, and their agents, representatives and employees, directly or through any corporate or other device, do forthwith cease and desist from: Selling or distributing in commerce, as "commerce" is defined in the Federal Trade Commission Act, push cards, punchboards, or other lottery devices which are to be used, or which, due to their design, are suitable for use in the sale or distribution of merchandise to the public by means of a game of chance, gift enterprise or lottery scheme.

It is further ordered, That said respondents and their agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of jewelry, watches, novelties or any other merchandise, do forthwith cease and desist from:

1. Supplying to or placing in the hands of others push cards, punchboards, or other lottery devices, either with other merchandise or separately, which said push cards, punchboards, or other lottery devices are to be used, or which, due to their design, are suitable for use in the sale or distribution of said merchandise to the public.

2. Selling or distributing merchandise packed or assembled in such a manner as to provide the means of selling or distributing said merchandise to the public through the use of a game of chance, gift enterprise or lottery scheme.

3. Selling or otherwise disposing of any merchandise by means of a game of chance, gift enterprise or lottery scheme.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: October 15, 1952.

By the Commission.

110.18 Crop and statistical report.
110.19 Cooperation between water users and project employees.
110.20 Complaints.
110.21 Disputes.

AUTHORITY: §§ 110.1 to 110.21 issued under sec. 11, 39 Stat. 142.

§ 110.1 *Organization.* The Fort Peck Indian Irrigation Project shall be in charge of the Superintendent of the Fort Peck Reservation acting through the Project Engineer who is authorized to administer, carry out and enforce the regulations in this part, either directly or through project employees designated by him, such as watermasters, ditchriders, foremen or other assistants. The Project Engineer or his representative is authorized to refuse or discontinue the delivery of water to any person who disregards the regulations in this part.

§ 110.2 *Irrigation season.* The irrigation season for the Fort Peck Irrigation Project covers the period from April 15th to September 30th. If unusual conditions in the spring cause delay in construction or maintenance work on canals or laterals, the Project Engineer is authorized to advance the beginning of the season's operations for a period not to exceed 25 days, and a corresponding change may be made in the date of closing the season: *Provided,* That it is in the best interests of the project or the farmers to do so. Water delivery schedules in the area served with pumped water shall be so regulated that the operation of the pumping plant will be limited to pumping periods during which actual delivery of water within the area so served aggregates forty per cent (40%) or more of the capacity of the pump or pumps being operated: *Provided,* That such limited operation will not, in the judgment of the Project Engineer, result in excessive damage to crops.

§ 110.3 *Domestic and stock use.* As the irrigation project is primarily built and maintained for the purpose of serving land with water for the irrigation of crops during the growing season, domestic and stock water shall not be supplied during the winter months or non-irrigation season.

§ 110.4 *Farm units.* For the purpose of the regulations in this part, a farm unit on the Fort Peck Irrigation Project shall consist of:

(a) 40 or more contiguous acres of land in single ownership, except that original Indian allotments containing less than 40 irrigable acres of the same subdivision of the public land survey, shall be considered as farm units.

(b) 40 or more contiguous acres of Indian owned land under a lease to the same party.

(c) A minimum of 40 contiguous acres in multiple ownership within the same 40 acre subdivision of the United States public land survey.

§ 110.5 *Delivery point.* The project will deliver water to one point on the upper boundary of each farm unit and the lateral system of the project shall be maintained on this basis. In cases where, from a cost or topographic standpoint, it is impracticable for the owner or lessee of the farm unit to irrigate the entire irrigable area of the unit from one delivery point, and the owner or lessee of the farm unit cannot at a reasonable expense to him provide for delivery of water to the farm unit by the construction of a suitable head ditch or ditches, the Project Engineer, or other official in charge is authorized to establish an additional delivery point or points.

§ 110.6 *Record of deliveries.* Water users who are entitled to the delivery of water shall file with the ditchrider, or other proper operational employee, 48 hours in advance of the time water delivery is desired, a signed water request card on the approved form, which shall show the time delivery of water is desired, the description and area of the subdivision to be irrigated and the turnouts to be used. Upon the completion of delivery the water user shall acknowledge the same by a proper notation upon the water request card. Ditchriders are specifically prohibited from making water delivery to any water user until they have received notice from the project office that all charges have been paid and proper water request cards have been filed by the water user. Water request cards for all completed and uncompleted deliveries, and statements of the estimated acreage irrigated under such requests, must be filed by the ditchriders in the project office at the end of each month during the irrigation season.

§ 110.7 *Duty of water.* Water shall be delivered on a demand basis so long as a sufficient quantity is available. In case of a shortage of water, in order to insure each water user his just proportionate share of the available water supply, the Project Engineer, or other official in charge of the project, is authorized to adopt a rotation system, either for the entire project or for individual units thereof.

§ 110.8 *Water users responsible for water after delivery.* Water shall be furnished for beneficial irrigation use only. It is the duty of the water user to assist in the prevention of waste, and to prevent damage to adjacent lands. Water users shall be held responsible for water after it is delivered to their land, and they shall be required to have their field ditches of such condition and capacity as to permit the use of economical heads.

§ 110.9 *Waste water.* Water users shall be required to construct and maintain in good order and repair upon their lands, such ditches as may be necessary to catch and conduct to some waste canal, ditch, or natural drainage channel, all waste water flowing upon or from their lands. No waste water shall be allowed to flow upon a road or highway right-of-way, and no waste water shall be allowed to collect within 20 feet of any canal or lateral belonging to the project. Waste water ditches shall not be constructed within 10 feet of any canal or lateral, except at points of intersection or crossing, and such crossings shall be located and constructed only under the direction of the proper project employee. Water delivery shall be refused any water user during such time as he fails or refuses to comply with the provisions of this section.

§ 110.10 *Structures.* (a) The necessary headgates, checks and measuring devices shall be installed by the project in canals, laterals and drainage ways operated and maintained by the project. Any person or corporation desiring to build a bridge or other structure over, under, in or across a project canal, lateral or drainage ditch operated and maintained by the project, shall first obtain from the Project Engineer, or other official in charge, a written permit to build such structure. The permit shall stipulate that it is granted, and accepted by the permittee, on the condition that the repair and maintenance of the structure shall be the duty of the permittee, or his successors, without cost to the project. The permit shall further provide that if any such structure be not regularly used for a period of one year or more, the person responsible for its maintenance may be requested to remove it within a period of 90 days; and that if the structure is not removed within the time allowed, it may thereafter be removed by the Project Engineer, the cost of such removal to be paid by the party responsible for the maintenance of the structure. All persons and corporations are warned against the violation of this provision.

(b) Wherever the project is extended to an area without existing roads, and the construction of roads, bridges, or culverts becomes necessary, the Project Engineer shall investigate the possibility of liquidating all or part of the cost of such construction by securing funds from any State or Federal agency providing funds for such purposes, and he is authorized to negotiate, subject to the approval of the Commissioner of Indian Affairs or his authorized representative, any necessary agreement with any such agency.

§ 110.11 *Head or service ditches.* The head or service ditches are those ditches to which delivery of water is made from canals or laterals operated and maintained by the project. Any such ditches as have been or may be placed upon the project right-of-way, as defined in § 110.12, shall be considered an encroachment. The water master and ditchriders or other authorized employees may refuse delivery of water to ditches that are not in proper condition to receive and convey it to the place of use with a minimum loss. Water must be used beneficially, notwithstanding the fact that it is measured at the point of delivery to ditches from canals and laterals operated and maintained by the project, and the loss would be to the detriment of the user.

§ 110.12 *Rights-of-way.* For use in connection with the necessary activities and emergencies incident to the operation and maintenance of the project, there is reserved a right-of-way along all canals and their embankments, laterals, sublaterals and drains, measured from the outside limits of the embankments or channel, a strip of land of sufficient width on each side of said canals, embankments, laterals, sublaterals and drains, to permit the operation of maintenance equipment, the making of repairs and improvements, and travel by the project ditchriders.

§ 110.13 *Obstructions; their removal.* No trees, buildings, hay or straw stacks, or other obstructions may be placed by any landowner upon the right-of-way reserved for the project. Any such obstruction may be ordered removed by the Project Engineer, and if not removed by the person or persons placing it thereon, may be removed under the supervision of the Project Engineer. The cost of such removal shall be added to the cost of operation and maintenance chargeable to the landowner responsible for the obstruction.

§ 110.14 *Fencing.* No fences shall be placed within the right-of-way except those crossing a canal, lateral, or drainage ditch and in such cases provision shall be made for a gate on each side of the canal or lateral of sufficient width to pass ditch cleaning equipment and to permit travel on the banks of the canal or lateral by the ditchrider. Such gates must be provided with some approved type of fastening which will permit the ditchrider to open and close them with a minimum loss of time. Any wire, timbers, or other materials used in fencing across a canal or lateral shall not be closer than 12 inches to the maximum high water surface.

§ 110.15 *Water users' ledgers.* Separate entries of individual water users' accounts shall be made in the water users' ledgers for each tract. Bills shall be issued to the record owner, and payments made thereon shall be credited to the proper ledger accounts.

§ 110.16 *Assessments.* The annual per acre charge for operation and maintenance of the project shall be levied against the entire irrigable area of each farm unit or allotment to which irrigation water can be delivered from present constructed works. Charges shall become due and payable in accordance with the annual public notice issued each

come due and payable in accordance with the annual public notice issued each

year, and the provisions of the annual public notice regarding refusal of delivery of water in case of delinquency shall be enforced.

§ 110.17 *Interference with project operation.* No persons other than those specifically designated by the Project Engineer may regulate project structures or interfere in any way with canals operated by the project or any other works appurtenant thereto, or the water flowing therein.

§ 110.18 *Crop and statistical report.* The ditchrider or other authorized employee of the project shall be responsible for collecting the information necessary to enable the Project Engineer to make to the Commissioner of Indian Affairs an annual crop and statistical report for the project. He shall record this information on forms furnished to him by the Project Engineer. The report of the Project Engineer shall show the number of acres devoted to each crop and the total yield and value of the crops for the entire project, and for each unit of the project.

§ 110.19 *Cooperation between water users and project employees.* As close cooperation between the project water users and the project management is desired, and will work to the advantage of the entire project, suggestions looking to better or more economical service shall be welcomed by the project management. Information as to damage or danger to canals or structures shall be immediately reported to the nearest project employee.

§ 110.20 *Complaints.* All complaints concerning the operation of the project must be made to the Project Engineer in writing.

§ 110.21 *Disputes.* In case of any dispute between a water user and the Project Engineer, concerning the application of these regulations, an appeal may be taken through the Superintendent of the Reservation to the Area Director. If the Area Director cannot satisfactorily adjust the dispute, he shall refer the same to the Commissioner of Indian Affairs.

OSCAR L. CHAPMAN,
Secretary of the Interior.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter V—Foreign Assets Control, Department of the Treasury

PART 500—FOREIGN ASSETS CONTROL REGULATIONS

IMPORTATIONS

The Foreign Assets Control Regulations, 31 CFR 500.101 to 500.808, are hereby amended by the addition of §§ 500.204, 500.536, 500.537 and 500.538, and by the revision of § 500.808.

The principal effect of this amendment is to incorporate specifically into the Regulations lists of merchandise in connection with the importation of which Foreign Assets Control licenses have been required for some time. A few changes have also been made in the lists. Prior to this amendment the Regulations specified that licenses were required in connection with goods of Communist Chinese or North Korean origin but lists of specific merchandise affected by the licensing requirement were disseminated through Bureau of Customs Circular Letters which, in addition to their ordinary circulation, were sent by the Foreign Assets Control to importers, banks, trade associations and other interested persons and organizations.

The import restrictions are a part of the Foreign Assets Control program for prohibiting trade and financial transactions with Communist China and North Korea. One of the major aspects of the program is to prevent those countries from obtaining foreign exchange through the sale of their products to this country directly or indirectly. The Treasury Department's original action in listing specific types of merchandise in connection with which import licenses are required was taken after observing that typically Chinese goods were beginning to enter the United States in significant volume under false descriptions of country of origin.

Attention is directed to the fact that there has been incorporated into § 500.204 some of the material which was in § 500.808 prior to this amendment.

§ 500.204 *Importation of and dealings in certain merchandise.* (a) Except as specifically authorized by the Secretary of the Treasury (or any person, agency, or instrumentality designated by him) by means of regulations, or rulings, instructions, licenses, or otherwise, no person subject to the jurisdiction of the United States may purchase, transport, import, or otherwise deal in or engage in any transaction with respect to any merchandise outside the United States if such merchandise is:

(1) Merchandise the country of origin of which is China (except Formosa) or North Korea.

(i) Articles which are the growth, produce, or manufacture of China (except Formosa) or North Korea shall be deemed for the purposes of this chapter to be merchandise whose country of origin is China (except Formosa) or North Korea notwithstanding that they may have been subjected to one or any combination of the following in another country:

(*a*) Grading; (*b*) testing; (*c*) checking; (*d*) shredding; (*e*) slicing; (*f*) peeling or splitting; (*g*) scraping; (*h*) cleaning; (*i*) washing; (*j*) soaking; (*k*) drying; (*l*) cooling, chilling, or refrigerating; (*m*) roasting; (*n*) steaming; (*o*) cooking; (*p*) curing; (*q*) combining of fur skins into plates; (*r*) blending; (*s*) flavoring; (*t*) preserving; (*u*) pickling; (*v*) smoking; (*w*) dressing; (*x*) salting; (*y*) dyeing; (*z*) bleaching; (*aa*) tanning; (*bb*) packing; (*cc*) canning; (*dd*) labeling; (*ee*) carding; (*ff*) combing; (*gg*) pressing; (*hh*) any process similar to any of the foregoing.

(ii) Any article wheresoever manufactured shall be deemed for the purposes of this chapter to be merchandise whose country of origin is China (except Formosa) or North Korea, if there shall have been added to such article any embroidery, needle point, petit point, lace, or any other article of adornment which is the product of China (except Formosa) or North Korea notwithstanding that such addition to the merchandise may have occurred in a country other than China (except Formosa) or North Korea.

(2) Merchandise specified in this subparagraph unless such merchandise is imported directly from a country named as excepted for that type of merchandise:

Type of merchandise	*Exceptions*

§ 500.536 *Customs transactions with respect to merchandise affected by § 500.204.* (a) With respect to merchandise the importation of which is prohibited by § 500.204, all Customs transactions are authorized except the following:

(1) Entry for consumption (including any appraisement entry or entry of goods imported in the mails, regardless of value, but excluding other informal entries);

(2) Entry for immediate exportation;

(3) Entry for transportation and exportation;

(4) Withdrawal from warehouse;

(5) Transfer or withdrawal from a foreign-trade zone; or

(6) Manipulation or manufacture in a warehouse or in a foreign-trade zone.

(b) This section is intended solely to allow certain restricted disposition of merchandise which is imported without proper authorization. This section does not authorize the purchase or importation of any merchandise.

§ 500.537 *Financing of merchandise affected by § 500.204.* (a) To the extent that the financing of merchandise is prohibited by § 500.204, such financing by any bank is authorized except as provided in paragraph (b) of this section.

(b) This section does not authorize the financing, including the opening, advising, or confirming of, or any transaction under, any letter of credit, in connection with:

(1) Any merchandise outside of the United States which is specified in § 500.204 (a) (1);

(2) The shipment of any merchandise to the United States; or

(3) The shipment of any merchandise from or through Hong Kong, Macao, or any country not in the authorized trade territory.

§ 500.538 *Transportation of merchandise affected by § 500.204.* (a) To the extent that the transportation of merchandise is prohibited by § 500.204, such transportation by carriers is authorized except as provided in paragraph (b) of this section.

(b) This section does not authorize the transportation to any place other than the United States of merchandise specified in § 500.204 (a) (1) nor the transportation to any place other than the United States of any merchandise specified in § 500.204 (a) (2) or (3) from or through Hong Kong, Macao, or any country not in the authorized trade territory.

§ 500.808 *Customs procedures; merchandise specified in § 500.204.* (a) With respect to merchandise specified in § 500.204, collectors of customs shall not accept or allow any:

(1) Entry for consumption (including any appraisement entry or entry of goods imported in the mails, regardless of value, but excluding other informal entries);

(2) Entry for immediate exportation;

(3) Entry for transportation and exportation;

(4) Withdrawal from warehouse;

(5) Transfer or withdrawal from a foreign-trade zone; or

(6) Manipulation or manufacture in a warehouse or in a foreign-trade zone,

until either

(i) A specific license pursuant to this chapter is presented, or

(ii) Instructions from the Foreign Assets Control, either directly or through the Federal Reserve Bank of New York, authorizing the transaction are received.

(b) Whenever a specific license is presented to a collector of customs in accordance with this section, two additional legible copies of the entry, withdrawal or other appropriate document with respect to the merchandise involved shall be filed with the collector of customs at the port where the transaction is to take place. Each copy of any such entry, withdrawal or other appropriate document, including the two additional copies, shall bear plainly on its face the number of the license pursuant to which it is filed. The original copy of the specific license shall be presented to the collector in respect of each such transaction and shall bear a notation in ink by the licensee or person presenting the license showing the description, quantity, and value of the merchandise to be entered, withdrawn or otherwise dealt with. This notation should be so placed and so written that there will exist no possibility of confusing it with anything placed on the license at the time of its issuance. If the license in fact authorizes the entry, withdrawal or other transaction with regard to the merchandise the collector, or other authorized customs employee, shall verify the notation by signing or initialing it after first assuring himself that it accurately describes the merchandise it purports to represent. The license shall thereafter be returned to the person presenting it and the two additional copies of the entry, withdrawal or other appropriate document shall be forwarded by the collector to the Federal Reserve Bank of New York.

(c) (1) The collector of customs at any port at which merchandise is to be entered or withdrawn pursuant to the terms of a specific license may waive the requirement of presentation of the original copy of such license: *Provided*, That:

(i) The person presenting the entry or withdrawal presents to the collector an affidavit stating:

(*a*) Facts indicating that it would be a hardship for him to present the original copy of the license, and

(*b*) That the entry or withdrawal is one of a large number which are to be made pursuant to the same license, and

(c) That all the entries or withdrawals are to be made at the same port; and

(ii) The collector receiving such an affidavit is satisfied that the circumstances in fact warrant the waiver; and

(iii) There is presented to the collector either a photostatic copy of the original license or a copy of the license signed by the officer who issued and signed the original.

(2) If such waiver is granted, the collector shall retain the copy of the license presented to him and shall note on it, or cause to be noted on it, the description, quantity, and value of all merchandise entered or withdrawn from time to time pursuant to the authority therein contained.

(3) When such waiver is granted and all the merchandise authorized to be entered or withdrawn under a specific license has been entered or withdrawn, the copy of the license on file with the collector shall be endorsed to indicate this fact and shall be forwarded to the Federal Reserve Bank of New York. When a license expires, unless it is renewed and the collector is advised of its renewal, any copy thereof which is on file with the collector shall be endorsed to show the expiration and shall be forwarded to the Federal Reserve Bank of New York.

(d) The requirement that two additional copies of each entry or withdrawal be filed in connection with every transaction under a specific license shall remain in effect notwithstanding any waiver of the requirement of presenting the original copy of the license.

(e) Whenever a person shall present an entry, withdrawal or other appropriate document affected by this section and shall assert that no Foreign Assets Control license is required in connection therewith, the collector of customs shall withhold action thereon and shall advise such person to communicate directly with the Federal Reserve Bank of New York to request that instructions be issued to the collector to authorize him to take action with regard thereto.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter X—Defense Solid Fuels Administration, Department of the Interior

[DSFA Order SFO-1, Amdt. 2]

SFO-1—COAL MINES, COKE PLANTS, AND COAL AND COKE PREPARATION AND PROCESSING PLANTS

INFORMATION REQUIRED

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to Defense Production Act of 1950. In the formulation of this order, consultation with industry representatives has been rendered impracticable due to the necessity for immediate action.

This amendment affects DSFA order SFO-1 as follows:

It amends section 3 of DSFA order SFO-1 to extend the final date for filing Form DSFA-1 with Defense Solid Fuels Administration from June 30, 1951, to June 30, 1953.

Section 3 of DSFA order SFO-1 is hereby amended to read as follows:

SEC. 3. *Information required.* On or before June 30, 1953, each producer shall file with DSFA on Form DSFA-1 the information asked for thereon with respect to each coal mine, coke plant, and coal or coke processing plant operated by him. Four copies of Form DSFA-1 shall be completely filled out and filed for each mine or plant: *Provided, however,* That coke producers who file monthly reports with the Bureau of Mines, either on Bureau of Mines Form 6-1365 or on Bureau of Mines Form 6-1366, need not complete Form DSFA-1, but need only indicate thereon the type of operation conducted. Additional copies of Form DSFA-1 may be obtained by writing to DSFA. The individual company information submitted on Form DSFA-1 is for use in connection with the defense mobilization program. Persons who have access to such individual company information are subject to penalties for unauthorized disclosure.

(Sec. 704, 64 Stat. 816; 50 U. S. C. App. Sup. 2154)

This order shall take effect on December 24, 1952.

DEFENSE SOLID FUELS ADMINISTRATION,
CHAS. W. CONNOR,
Defense Solid Fuels Administrator.

TITLE 42—PUBLIC HEALTH

Chapter I—Public Health Service, Federal Security Agency

PART 34—MEDICAL EXAMINATION OF ALIENS

Notice of proposed rule making, public rule-making proceedings and postponement of effective date have been found to be impracticable, unnecessary and contrary to the public interest in the adoption of the following amendment to this part. The regulations herein, which implement the provisions of the Immigration and Nationality Act (66 Stat. 163) regarding the medical examination of aliens, impose no duties on persons outside the Federal Security Agency and the persons otherwise affected are, with the exception of aliens who may apply for adjustment of status under the Immigration and Nationality Act, not yet admitted to the United States, and therefore unavailable for participation in rule making. The due and timely execution of the duties imposed by the Immigration and Nationality Act would, moreover, be impeded by delay in the issuance of this amendment.

Part 34 is amended to read as follows:

Sec.
34.1 Applicability.
34.2 Definitions.
34.3 Examinations: by whom made; female aliens.
34.4 Scope of examinations: general; applicants for visas; chest X-ray and blood test.
34.5 Aliens free of defect, disease or disability.
34.6 Aliens afflicted with defect, disease or disability.
34.7 Certificates and notifications: Class A.
34.8 Certificates and notifications: Class B.
34.9 Class A or Class B certificates; helpless aliens.
34.10 Certificates and notifications: Class C.
34.11 Detention and observation; adequacy of facilities.
34.12 Applicability of foreign quarantine regulations.
34.13 Medical and other care; death.
34.14 Reexamination; convening of boards; expert witnesses; reports.
34.15 Prior regulations.

AUTHORITY: §§ 34.1 to 34.15 issued under sec. 215, 58 Stat. 690, sec. 234, 66 Stat. 198; 42 U. S. C. 216. Interpret or apply secs. 322, 325, 58 Stat. 696, 697, secs. 212, 234, 237, 66 Stat. 182, 198, 202; 8 U. S. C. 249, 252.

§ 34.1 *Applicability.* The provisions of this part shall apply to (a) the medical examination, preexamination and reexamination of aliens presented or referred therefor to the Public Health Service upon application for a visa at a foreign consulate of the United States, or by the Immigration Service, and (b) the medical and other care, and burial, of aliens admitted to Public Health Service stations and hospitals at the request of the Immigration Service.

§ 34.2 *Definitions.* As used in this part, terms shall have the following meanings:

(a) *Immigration Service.* The Immigration and Naturalization Service of the Department of Justice.

(b) *Dangerous contagious disease.* Any of the following diseases:

1. Actinomycosis.
2. Amebiasis.
3. Blastomycosis.
4. Chancroid.
5. Favus.
6. Filariasis.
7. Gonorrhea.
8. Granuloma Inguinale.
9. Keratoconjunctivitis infections.
10. Leishmaniasis.
11. Lymphogranuloma venereum.
12. Mycetoma.
13. Paragonimiasis.
14. Ringworm of scalp.
15. Schistosomiasis.
16. Syphilis, infectious stage.
17. Trachoma.
18. Trypanosomiasis.
19. Yaws.

(c) *Medical certificate.* A document issued to the Immigration Service by a medical officer reporting the presence of any physical or mental defect, disease or disability, or the previous occurrence of one or more attacks of insanity, in an alien.

(d) *Medical notification.* A report made to a consular authority by a medical officer of the presence of any physical or mental defeat, disease, or disability, or the previous occurrence of one or more attacks of insanity, in an alien. Medical notification shall be made on the form prescribed for reporting the results of the medical examination of applicants for visas.

(e) *Medical officer.* A physician assigned or detailed by the Surgeon General of the Public Health Service to make mental and physical examinations of aliens.

(f) *Medical officer in charge.* A medical officer charged by the Surgeon General with responsibility for the conduct and supervision of all medical examinations made at a designated place or in a designated area.

§ 34.3 *Examinations; by whom made; female aliens.* Aliens presented to the Public Health Service for medical examination shall be examined by medical officers. Female aliens shall be examined only in the presence of a female nurse or other female employee of the Public Health Service, or by a female medical officer.

§ 34.4 *Scope of examinations; general, applicants for visas; chest X-ray and blood test.* (a) In performing examinations and reexaminations, medical officers shall give consideration to only those matters which relate to the physical or mental condition of the alien and shall issue certificates or notifications of a defect, disease or disability or previous occurrence of one or more attacks of insanity as hereinafter provided only if the presence of such defect, disease or disability or previous occurrence of one or more attacks of insanity has been clearly established.

(b) Except as provided in paragraph (d) of this section, examinations of applicants for immigrant visas, and of students and teachers applying for nonimmigrant visas and referred to medical officers by a consular authority, shall in all cases include a chest X-ray for tuberculosis and blood test for syphilis. Examinations of other applicants for nonimmigrant visas so referred shall include a chest X-ray for tuberculosis and blood test for syphilis when considered necessary by the medical officer. In the case of examinations conducted at American consulates where necessary X-ray and laboratory facilities for the making of such tests are not available to the examining medical officer, the applicant may be required to furnish a chest X-ray film, a reading thereof, and blood serology in order that the medical examination may be completed. However, if the alien has not presented proof of the required tests and the examination is made in a community where there are no facilities available for the making of such tests, the examining medical officer shall so state upon the medical examination form.

(c) The X-ray film and medical examination report, including X-ray reading and blood serology, shall be placed in a separate envelope, which shall be sealed and attached to the alien's immigrant visa or, in the case of a nonimmigrant, to the alien's nonimmigrant visa form in such a manner as to be readily detached for examination by medical officers at the United States ports of entry. If, at the time the determination of admissibility is to be made, no X-ray film, reading, blood serology, or medical examination report is presented by an immigrant, or by a nonimmigrant when required by paragraph (b) of this section, a medical hold shall be issued pending completion of the examination by such X-ray, blood test, or other procedures as may be required.

(d) The provisions of paragraph (b) of this section with respect to chest X-rays for tuberculosis shall not be applicable in the case of an applicant ten years of age or less unless the examining medical officer has reason to suspect that the applicant has tuberculosis, nor shall the provisions of such paragraph with respect to blood tests for syphilis be applicable in the case of an applicant fourteen years of age or less unless the examining medical officer has reason to suspect that the applicant has syphilis.

§ 34.5 *Aliens free of defect, disease or disability.* If an alien is found to have no physical or mental defect, disease or disability and no history of a previous attack of insanity, the medical officer shall so indicate to the presenting authority.

§ 34.6 *Aliens afflicted with defect, disease or disability.* If an alien is found to have any physical or mental defect, disease or disability or to have had one or more attacks of insanity, the medical officer shall report his findings to the Immigration Service by medical certificate or to the presenting consular authority by medical notification.

§ 34.7 *Certificates and notifications: Class A.* A Class A certificate or Class A notification shall be issued with respect to aliens who:

(a) Are feeble-minded;

(b) Are insane;

(c) Have had one or more attacks of insanity;

(d) Are afflicted with psychopathic personality, epilepsy, or a mental defect;

(e) Are narcotic drug addicts or chronic alcoholics;

(f) Are afflicted with tuberculosis in any form;

(g) Are afflicted with leprosy;

(h) Are afflicted with any dangerous contagious disease;

Provided, however, That a Class A certificate or Class A notification of a mental defect, disease or disability shall in no case be issued with respect to an alien having only mental shortcomings due to ignorance, or suffering only from a mental condition attributable to remediable physical causes, or from a psychosis of a temporary nature caused by a toxin, drug or disease.

§ 34.8 *Certificates and notifications: Class B.* A Class B certificate, or Class B notification, shall be issued with respect to an alien who has a physical defect, disease or disability serious in degree or permanent in nature amounting to a substantial departure from normal physical well-being. The certificate, or notification, shall state the nature and extent of the defect; the degree to which the alien is incapable of normal physical activity; and the extent to which the condition is remediable.

§ 34.9 *Class A or Class B certificates; helpless aliens.* If any alien with respect to whom a Class A or Class B certificate is issued is helpless from sickness or mental or physical disability or infancy, the medical officer shall so state in the certificate.

§ 34.10 *Certificates and notifications; Class C.* A Class C certificate, or Class C notification, shall be issued with respect to an alien who has a defect, disease, or disability other than those for which a Class A or Class B certificate (or notification) is required to be issued.

§ 34.11 *Detention and observation; adequacy of facilities.* (a) Whenever, upon an examination, it appears to the medical officer in charge that there is doubt about the physical or mental condition of an alien, the alien shall be held over for such observation and further examination as may be reasonably necessary to determine his physical or mental condition.

(b) When in the judgment of the medical officer in charge, a medical examination or reexamination cannot be satisfactorily completed at a station or place at which it is undertaken, such examination or reexamination shall be discontinued and such officer shall recommend to the presenting authority that the alien be removed to a place where the examination or reexamination may be satisfactorily completed.

and appropriate to promote the national defense and is issued pursuant to Decend of the cove in a southeasterly direc- by the Immigration Service, and (b) the presence of such defect, disease or migration Service by medical certificate the examination or reexamination may be satisfactorily completed.

§ 34.12 *Applicability of foreign quarantine regulations.* Aliens arriving at a port of the United States shall be subject to the applicable provisions of Part 71 of this chapter (Foreign Quarantine Regulations of the Public Health Service) with respect to examination and sanitary and quarantine measures.

§ 34.13 *Medical and other care; death.* (a) Upon request of the Immigration Service, an alien detained by it shall be admitted to a hospital or station of the Public Health Service and receive therein necessary medical, surgical, and dental care. An alien found, in the course of an examination or reexamination, to be in need of emergency care shall be given such care to the extent deemed practicable by the medical officer in charge, and if in need of further care, he shall be returned to the presenting authority with the medical officer's recommendations concerning such further care.

(b) In case of death of an alien the body shall be delivered to the presenting authority; but if such death occurs in the United States, or in a territory or possession thereof, public burial shall be provided upon request of the Immigration Service and subject to its agreement to pay the burial expenses. Autopsies shall not be performed unless approved by the Immigration Service.

§ 34.14 *Reexamination; convening of boards; expert witnesses; reports.* (a) The Surgeon General, or when authorized, the medical officer in charge, shall convene a board of medical officers to reexamine an alien

(1) Upon the request of the Immigration Service for a reexamination by such a board, or

(2) Upon an appeal by an alien who, having applied for admission to the United States or for adjustment of status under section 245 of the Immigration and Nationality Act (66 Stat. 163), has been referred by the Immigration Service for medical examination and has been certified for: feeble-mindedness; insanity; one or more previous attacks of insanity; psychopathic personality; epilepsy; mental defect; narcotic drug addiction; or chronic alcoholism.

(b) Such a board shall consist of three, when practicable, but in no case less than two, medical officers. If a board of two officers is unable to reach agreement, a new board shall be convened and shall reexamine the alien. In the event that a board consists of three medical officers, the decision of the majority thereof shall prevail.

(c) Reexamination shall include:

(1) A medical examination by the board. If the mental condition of the alien is in question and the board does not include at least one officer who has had special training in the diagnosis of mental defects, diseases and disabilities, the board shall designate a physician with such training who shall also examine the alien, and his report shall be included in the record.

(2) A review of all records submitted by the alien, other witnesses or the board.

(3) Use of any laboratory or diagnostic methods or tests deemed advisable.

(4) Consideration of statements regarding the alien's physical or mental condition made by a physician after his examination of the alien.

(d) An alien who is to be reexamined shall be notified of the time and place of his reexamination not less than five days prior thereto.

(e) The alien may introduce as witnesses before the board such physicians or medical experts as the board may in its discretion permit, at his own cost and expense: *Provided*, That the alien shall be permitted to introduce at least one expert medical witness. If any witnesses offered are not permitted by the board to testify, the record of the proceedings shall show the reason for the denial of permission.

(f) Witnesses before the board shall be given a reasonable opportunity to examine medical certificates and other records involved in the reexamination and to present all relevant and material evidence orally or in writing, until such time as the proceedings are declared by the board to be closed. During the course of the hearing the alien's attorney or representative shall be permitted to examine the alien and he, or the alien, shall be permitted to examine any witnesses offered in the alien's behalf and to cross-examine any witnesses called by the board. If the alien does not have an attorney or representative, the board shall assist the alien in the presentation of his case to the end that all of the material and relevant facts may be adduced.

(g) The findings and conclusions of the board shall be based on its medical examination of the alien and on the evidence presented and made a part of the record of its proceedings.

(h) The board shall report its findings and conclusions to the Immigration Service, and shall also give prompt notice thereof to the alien if the reexamination has been held upon his appeal. The board's report to the Immigration Service shall specifically affirm, modify, or reject the findings and conclusions of prior examining medical officers.

(i) If the board finds that an alien reexamined by it has a defect, disease, or disability, or has had one or more attacks of insanity, not previously certified, it shall issue its certificate in accordance with the applicable provisions of this part.

(j) After submission of its report, the board shall not be reconvened in the same case except upon the express authorization of the Surgeon General.

§ 34.15 *Prior regulations.* Regulations under this part, in effect on December 23, 1952, shall continue to be effective so far as may be applicable and necessary under section 405 of the Immigration and Nationality Act, 66 Stat. 163.

Effective date. This amendment shall be effective on December 24, 1952.

Dated: December 17, 1952.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter C—Carriers by Water

PART 324—UNIFORM SYSTEM OF ACCOUNTS FOR CARRIERS BY INLAND AND COASTAL WATERWAYS

MATURED LONG-TERM OBLIGATIONS; FUNDED DEBT UNMATURED

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 11th day of December A. D. 1952.

The matter of modifying the "Uniform System of Accounts for Carriers by Inland and Coastal Waterways," being under consideration pursuant to the provisions of section 20 of part I and section 313 of part III of the Interstate Commerce Act, as amended (54 Stat. 917 and 944, 49 U. S. C. 20 (3) and 313 (c)); and,

It appearing, that a notice dated November 4, 1952, was served on all carriers by inland and coastal waterways subject to provisions of the act, to the effect that certain modifications had been approved, such notice also being published in the FEDERAL REGISTER on November 18, 1952 (17 F. R. 10517) pursuant to provisions of section 4 of the Administrative Procedure Act; and.

It further appearing, that the notice provided for written views or arguments to be filed by any interested person on or before December 1, 1952, and consideration having been given to all representations so received: *It is ordered*, That:

(1) *Effective date.* The modifications which are set forth below and made a part hereof, relating to the subject matter of said notice, shall become effective January 31, 1953.

(2) *Notice.* A copy of this order including the modifications set forth below shall be served on every carrier by inland and coastal waterways subject to the act and on every trustee, receiver, executor, administrator, or assignee of any such carrier, and notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 961]

[Docket No. AO-160-A-14-RO1]

HANDLING OF MILK IN PHILADELPHIA, PENNSYLVANIA, MARKETING AREA

NOTICE OF REOPENING OF HEARING AND TETATIVE FINDINGS AND CONCLUSIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the reopening of the hearing held in Philadelphia, Pennsylvania, August 12 and 13, 1952, and the filing with the Hearing Clerk of the tentative findings and conclusions of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to amendments proposed at that hearing to the tentative markeing agreement and to the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area.

Additional proposals on these and other issues for consideration at the reopened hearing may be submitted, such proposals to be delivered in four copies to the Market Administrator, 1612 Market Street, Philadelphia 3, Pennsylvania, not later than January 12, 1953. The time and place for holding the reopened hearing, and such additional proposals as may be considered will be included in a further notice to be issued after that date.

The hearings, on the record of which the said findings and conclusions are based, were conducted at Philadelphia, Pennsylvania, on August 12–13, 1952, pursuant to notice thereof which was issued on July 18, 1952 (17 F. R. 6749), and on February 25–28, 1952, pursuant to notice issued February 14, 1952 (17 F. R. 1567). The record of the February hearing was used only in the case of findings and conclusions on issue No. 2.

The material issues of record related to:

1. Butterfat differentials to be used in calculating values of milk of differing butterfat content, as received from individual producers, and as disposed of in various uses by handlers.

2. Regulation of plants disposing of Class I milk in both the Philadelphia and New York marketing areas.

3. Prices applicable to producer milk sold outside the marketing area.

Tentative findings and conclusions. The following tentative findings and conclusions on the material issues are based upon evidence contained in the records of the hearings:

1. *Butterfat differentials.* The butterfat differential used to adjust the value of the individual producer's milk in accordance with the butterfat content, and the butterfat differential used in calculating the value of milk used by a handler in Class I should be 8 cents per one-tenth of a percent of butterfat for the current level of Class I price, and should be subject to automatic adjustments in relationship to the level of the Class I price. The basic test from which differential butterfat is reckoned should be changed from 4.0 percent to 3.7 percent.

Producers' organizations at the hearing requested that the butterfat differential used to adjust the value of individual producer's milk in accordance with butterfat content be increased. The amounts of the increases proposed would change the present 5-cent differential to a figure of from 7 to 15 cents per one-tenth of one percent of butterfat. Representatives of a large group of producers also recommended that the Class I butterfat differential should be increased to whatever level is made effective for the producer differential. In general, these higher butterfat differentials would be related to the level of the price paid for milk and would fluctuate accordingly.

Some of these proposals were based upon the findings and recommendations of a committee representing the colleges of agriculture in states supplying milk to the market. The report of this committee recommended increasing the present 5-cent producer and Class I butterfat differentials to 7 cents, with provisions for automatic increases depending on the level of the Class I price.

Since the production of milk by producers for this market is primarily to supply the fluid milk required by the market, the butterfat differential should be designed to encourage the production of milk with butterfat content about the same, or at least as high as the butterfat content of milk sold by handlers. Grade B milk is the larger portion of the volume of Class I sales by handlers, amounting to approximately 75 percent of total sales. The average test of Grade B milk sales is slightly less than 3.7 percent butterfat. The number of Grade B producers whose milk tested less than 3.7 percent increased from 41.6 percent of all Grade B producers in August 1943 to 51.5 percent in August 1951. Although the average test of all receipts of Grade B milk was 3.82 percent butterfat in 1950, and 3.75 percent in 1951, the test tends to be lower in the months of seasonally high production, and in some months of 1951 and 1952 was actually less than 3.7 percent. These average tests are for receipts including some Guernsey milk with a test of about 4.4 percent, which is sold as a special type of milk with high butterfat content. The record evidence indicates that low test producers are finding increasing difficulty in marketing their milk, and one handler has requested that in the near future each producer should deliver milk testing at least 3.5 percent butterfat.

The downward trend in the average butterfat content of the kind of milk most used in the market indicates the need for a producer butterfat differential somewhat higher than the current one. It is noted, furthermore, that the differential is considerably less in relationship to the level of the Class I price than is the case in most other Federal orders, and that the current 5-cent differential is a little more than half of the market value of butterfat for manufactured products. Also, since September 1945, when the 5-cent differential was made effective, the Class I price has increased about 54 percent.

The problem of establishing the producer butterfat differential is related to the problem of an appropriate charge for butterfat used in Class I. The producer butterfat differential represents a price for differential butterfat based upon supply and demand conditions in a fluid milk market, and accordingly, a cost to handlers for differential butterfat in Class I milk as high as the producer differential is consistent with market conditions. Also, since the Class I butterfat differential serves to establish the relationship between the value of butterfat and skim milk, a differential which may be used over the whole range of butterfat tests in Class I is desirable.

included in the record.

Much of the testimony in the record favored the use of a 7-cent butterfat differential for Grade B milk in the range of butterfat tests from 3 to 6 percent. For other Class I utilization the butterfat differential has been higher than for standard milk. It is concluded that for a butterfat differential applicable to all types of Class I disposition, 8 cents per tenth of one percent of butterfat would meet the requirements better than a lower figure. The ratio of this differential to the Class I price is within the range of the several ratios suggested in the study committee's report.

Handlers' objection to any change in the Class I butterfat differential appears based on the desire to avoid any increase in the cost of Class I milk. The change to an 8-cent butterfat differential can be made without increasing the average cost of Class I milk in the market if the price for the average test of Class I disposition is kept the same. The average butterfat test of all Class I disposition is about 3.7 percent. A price of $6.06 per hundredweight for milk testing 3.7 percent butterfat would give, as nearly as possible, the same average cost for all Class I milk as the current annual level price of $6.24 for 4.0 percent milk with the system of butterfat differentials now effective. Examination of the effect of such a price on the cost of milk for in-area sales during the 18 months ending with June 1952, using an 8-cent butterfat differential and with adjustment for seasonal changes in the Class I price and changes in the basic annual level of the price, shows that the average cost to handlers would not have been increased except by minor fractions of a cent in two months.

In the case of Grade A milk the order now provides a butterfat premium of 2 cents per tenth of a percent of butterfat over 3.7 percent. A butterfat premium in addition to the 8-cent differential would increase the cost of Grade A milk to an extent not consistent with market conditions. The record shows there is a relatively ample supply of Grade A milk compared to Grade A sales. An 8-cent butterfat differential will be one-cent higher than the new effective differential (including the premium) and will thus result in added incentive for the production of Grade A milk with a high butterfat content.

It was proposed that the Class I and producer butterfat differentials should change automatically with changes in the price received by producers. Some method of automatic adjustment in line with changing market conditions is desirable, and the relationship between the butterfat differential and the price received by producers for milk is important as to whether there is adequate incentive for producing milk of the required butterfat content. It is more practical to relate the butterfat differential to the Class I price than the uniform price, since the latter varies considerably among handlers. A butterfat differential which is a fixed percentage of the Class I price would maintain constant percentage relationships between the price for milk of standard test, on one hand, and skim milk products or special high test types of milk on the other hand. If the differential changed only in one-cent intervals, as proposed by producers, these relationships between the prices of various tests of milk would vary without relation to the actual values whenever a change in the Class I price was not sufficient to produce an accompanying one-cent change in the differential. It is concluded that a butterfat differential per one-tenth of one percent of butterfat which is a fixed percentage of the Class I price would be practical if the differential were calculated to the nearest tenth of a cent. Inasmuch as an 8-cent differential is reasonable for the price $6.06 per hundredweight for milk testing 3.7 percent butterfat, it is concluded that a suitable relationship could be maintain by calculating the butterfat differential as 1.32 percent of the Class I price. The resulting seasonal changes in the butterfat differential would maintain the same relationship between the butterfat and skim milk values in Class I milk.

For the purpose of uniformity, the Class II price should also be stated in terms of a price for milk testing 3.7 percent butterfat. This change may be accomplished by calculating the cream butterfat price component by dividing the average cream price by 33.48, multiplying by 3.7 and subtracting 24.5 cents. This calculation, along with the skim milk price component, results in a price for milk of 3.7 percent test equivalent to the current order price for milk of 4.0 percent test. Similar adjustment would be made in the case of the value of butterfat made into butter, and the calculation of the applicable butterfat differential would be adjusted to result in the same butterfat differential as under current order provisions. These changes would not result in any but minor changes in the value of Class II milk.

2. *Milk sold in the New York marketing area.* The price for milk sold as Class I in the New York metropolitan milk marketing area should be the New York order Class I–A price less such payment as may be required under the New York order on such milk.

During some months of 1950 and 1951, a few plants became producer milk plants by reason of having a small portion of their Class I utilization in the form of shipments to other producer milk plants, and at the same time sold the major portion of their milk in the New York metropolitan milk marketing area. Under the Philadelphia order the handler was required to pay producers the New York order Class I–A price for the milk sold in New York. No payment was made into the New York pool on this milk, for although the New York order provides for payments into the pool on milk from handlers under another Federal order, this is only at a rate equal to the difference in class prices, and there was no difference.

Producers under the New York order have complained that such operations exclude from the New York pool a value for a quantity of sales in the marketing area which should be paid to the regular producers for that market, and that the handlers in question had used the Philadelphia order as a device to avoid some of the pooling requirements under the New York order.

An amendment to the order effective April 17 through August 31, 1952, based on the record of a hearing held February 25 through 28, 1952 applied the Class II price to Class I milk sold by Philadelphia handlers in the New York market. This allowed the New York market administrator to collect on such milk for the producer settlement fund the difference between the New York order Class I–A price and the Philadelphia Class II price. The decision of the Acting Secretary in this matter issued May 27, 1952 stated that action in this matter for periods subsequent to August 1952 was reserved for a further decision on the record of the February hearing. The findings and conclusions on this issue contained herein are based upon the records of the hearings held February 25–28, 1952 and August 12 and 13, 1952.

The change in the Philadelphia order provisions recommended herein would establish a price for the milk in question at the New York order Class I–A price less the rate of payment required under the New York order to be made on such milk. Effectuation of this change in the pricing of such milk would require an amendment to the New York order setting forth a specific rate of payment to be made on such milk into the New York market-wide pool. The changes in the two orders would not change the cost of milk to the handler.

3. *Sales outside the area.* The price paid to producers for milk sold outside the marketing area, excepting other marketing areas where the handling of milk is regulated by a Federal order, should be the same as the Class I price for milk sold in the area.

Currently the order provides for adjustment of the Class I price in the case of milk sold outside the marketing area, on the basis of ascertainment by the market administrator of the price being paid to farmers in the market where such milk is disposed of.

Circumstances have led to a widening of the scope of application of this order provision. In this connection official notice is taken of the data on Class I sales published by the market administrator for July 1952 in Monthly News Letter No. 100 which show more than 19 percent of total Class I sales were outside the marketing area. This is a higher percentage than in any previous month.

Another recent factor in the special pricing of sales outside the marketing area has been the increased difference in prices for milk sold outside the area as compared with the regular Class I price. Handlers' testimony indicates that in operations outside the marketing area they encounter competition with milk which for Class I use costs as much as $1.00 less than the Philadelphia Class I price. Some of this milk from other sources is not subject to either Federal or State regulation of producer price.

The more general application of the special pricing provision for outside sales and the widening difference between these prices and the regular Class I price has resulted in some question as to whether this provision of the order is operating to the best interest of the market.

Relatively low producer prices for milk sold outside the marketing area, as in the case of some types of sales in recent months, would encourage handlers to carry additional supplies of milk to expand their operations in outside markets. In this way the order would become a device by which Philadelphia handlers could establish operations in outside markets at the expense of local dairy farmers supplying such markets. The general knowledge of the availability of large volumes of low-priced milk from Philadelphia plants would tend to have a depressing effect on prices in other markets. This situation would not be in the interest of orderly marketing.

The complexity of the market situations in some areas where the market administrator has been requested to ascertain prices, particularly in some cases where widely different prices are paid for milk in Class I use, and the larger volumes of milk involved, make it impractical to continue such ascertainments. It is apparent that under the current system of pricing that sales outside the marketing area have become a relatively large part of Class I disposition, and may expand further. Under these circumstances a two price system, or a multiple price system, for Class I disposition tends to pervert the price-making function of the order from the original purpose of securing an adequate supply for the marketing area.

The record evidence does not support the establishment by the order of a low producer price for sales outside the marketing area designed to meet the competition of unregulated prices. In this connection it is noted that some Philadelphia handlers operate nonproducer plants from which they sell milk in areas outside the marketing area.

Evidence in the record indicates that in some areas outside the marketing area Philadelphia handlers supply more than half of the milk for fluid sales. Inclusion of such areas in the marketing area is a possibility which might be considered by handlers if they wish to eliminate price differences in these areas.

It is concluded that the price applicable to Class I milk sold outside the marketing area should be the same as the price for Class I milk sold in the area, and the order should be so amended.

Some period of notice would be allowed for handlers to adjust their operations in connection with this change in pricing, inasmuch as they may wish to arrange to make sales outside the marketing area from nonproducer plants. A period of three months after issuance of the amending order would appear sufficient.

The following order amending the order, as amended, regulating the handling of milk in the Philadelphia marketing area, is tentatively recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out.

(1) *Butterfat.* Add all market quotations (using midpoint of any weekly range as one quotation) of prices for a 40-quart can of fresh sweet cream of bottling quality in the Philadelphia, Pennsylvania market reported for each week ending within the month by the United States Department of Agriculture (or such other agency as is authorized to perform this price reporting function), divide by the number of quotations, divide by 33.48, multiply by 3.7 and subtract 24.5 cents: *Provided,* That for butterfat established as used in butter, the price shall be 3.7 times 120 percent of the average of the daily wholesale selling prices for Grade A (92-score) butter at New York as reported by the United States Department of Agriculture for the month for which payment is to be made, less 17.6 cents, but in no event shall this butter value be greater than the butterfat value established otherwise by this subparagraph.

3. Delete § 961.41 and substitute the following:

§ 961.41 *Butterfat differential.* (a) The Class I price shall be subject to a butterfat differential, for each one-tenth of one percent variation above or below 3.7 percent, equal to the butterfat differential calculated pursuant to § 961.82.

(b) The Class II price shall be subject to a butterfat differential for each one-tenth of one percent variation above or below 3.7 percent, calculated as follows: divide the average of the cream quotations used in calculating the Class II price by 334.8, and subtract 0.67 cent; or in the case of butterfat in Class II to which the "butter-value" is applicable divide the butter value by 37.

4. Delete § 961.43 and substitute:

§ 961.43 *Class I milk disposed of in another Federal marketing area.* The price for Class I milk disposed of in an area where the handling of milk is regulated by another order of the Secretary shall be the price pursuant to such other order, except that for Class I milk disposed of in the New York metropolitan milk marketing area, the price shall be the Class I–A price pursuant to the New York order less such payment as is required on such milk pursuant to the New York order.

5. Delete § 961.70 and substitute:

§ 961.70 *Computation of value of milk for each handler.* For each month the market administrator shall compute, subject to the provisions of § 961.60, the value of milk of producers disposed of by each handler, exclusive of the value of premiums paid pursuant to § 961.85 to designated Grade A producers, by (a) multiplying the hundredweight of such milk in each class and price subdivision of each class, computed pursuant to §§ 961.30 through 961.35 by the prices applicable pursuant to § 961.40, plus or minus the applicable differentials in §§ 961.41 through 961.43, and adding 40 cents per hundredweight for milk sold as Grade A in excess of the milk received from designated Grade A producers, and (b) adding together the resulting values.

6. Delete § 961.82 and substitute the following:

§ 961.82 *Butterfat differential.* If a handler has received from a producer, during the month, milk having an average butterfat content other than 3.7 percent, such handler, in making payments pursuant to § 961.80, shall add to the uniform price for such producer for each one-tenth of one percent of average butterfat content in milk above 3.7 percent not less than, or shall deduct from the uniform price for such producer for each one-tenth of one percent of average butterfat content in milk below 3.7 percent, not more than a butterfat differential computed as follows: 1.32 percent of the Class I price.

7. Delete § 961.85 and substitute:

§ 961.85 *Premium for Grade A milk.* In addition to the uniform price and all other payments required pursuant to §§ 961.80 through 961.84, each handler shall pay for milk, which he has designated as qualified under the Commonwealth of Pennsylvania Department of Health or the New Jersey Department of Health requirements for sale as Grade A milk and which is delivered to a plant similarly qualified (so long as such requirements are in effect as a separate grade), the following amounts times the ratio of such milk sold under Grade A label to the total quantity of Grade A milk received from producers: 40 cents per hundredweight of Grade A milk received from producers of 10,000 bacteria or less per c. c. and 25 cents per hundredweight of Grade A milk received from producers of more than 10,000 but less than 25,000 bacteria.

HANDLING OF RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

APPROVAL OF BUDGET OF EXPENSES OF RAISIN ADMINISTRATIVE COMMITTEE AND FIXING RATE OF ASSESSMENT FOR 1952–53 CROP YEAR

Notice is hereby given that the Secretary of Agriculture is considering a proposed rule to approve a budget of expenses for the Raisin Administrative Committee for the 1952–53 crop year and fix a rate of assessment for such year, as hereinafter set forth, which were recommended by said committee in accordance with the provisions of Marketing Agreement No. 109 and Order No. 89 (17 F. R. 1255, 1555) regulating the handling of raisins produced from raisin variety grapes grown in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Consideration will be given to any data, views, or arguments pertaining thereto which are filed in triplicate with the Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., and received not later than the close of business on the eighth day after the date of publication of this notice in the FEDERAL REGISTER except that, if said eighth day after publication should fall on a legal holiday, Saturday, or Sunday, such submission will be received by the Director not later than the close of business on the next following business day.

It will, of course, be necessary that all salaries and wages paid by the Raisin Administrative Committee be in conformity with the provisions of the Defense Production Act of 1950, as amended, Executive Order No. 10161, and any supplementary order, directive, or regulation pursuant thereto.

The proposed rule is as follows:

§ 989.303 *Budget of expenses of the Raisin Administrative Committee and rate of assessment for the 1952–53 crop year*—(a) *Budget of expenses.* Expenses in the amount of $66,000 are reasonable and are likely to be incurred by the Raisin Administrative Committee for its maintenance and functioning and for the maintenance and functioning of the Raisin Advisory Board for the crop year beginning August 15, 1952.

(b) *Rate of assessment.* Each handler shall pay to the Raisin Administrative Committee, in accordance with the marketing agreement and order, an assessment rate of 40 cents for each ton of free tonnage raisins acquired by him, and for each ton of reserve tonnage raisins sold to him by the committee, during the crop year beginning August 15, 1952, which assessment rate is hereby fixed as each handler's pro rata share of the aforesaid expenses.

Issued at Washington, D. C., this 19th day of December 1952.

UNIFORM SYSTEM OF ACCOUNTS FOR STEAM ROADS

NOTICE OF PROPOSED RULE MAKING

DECEMBER 11, 1952.

Having under consideration the balance sheet classification of funds voluntarily placed in separate depositories or earmarked in treasury funds for special purposes, the Commission by Division 1 has approved modification of the texts of the following accounts to clarify the intent with respect to such funds, and to distinguish between them and cash available for current expenditures or on deposit for payment of specific current liabilities:

1. In § 10.704 *Capital and other reserve funds*, cancel the text of and notes to this account, and substitute the following for them:

§ 10.704 *Capital and other reserve funds.* (a) This account shall include cash and the ledger value of other assets held by trustees or by the accounting company's treasurer when segregated in distinct funds that have been (1) realized from the sale of equipment obligations or other long-term obligations and not yet applied toward the specific purposes for which the obligations were incurred, and (2) set aside in accordance with governmental, mortgage, or contractual requirements in connection with reorganizations or otherwise. This account shall also include funds deposited with trustees to be held until mortgaged property sold is replaced.

(b) An appropriate record shall be maintained for securities issued or assumed by the accounting company and held in the funds, identifying those that are nominally issued or nominally outstanding.

NOTE A: Funds specifically set aside for sinking fund purposes shall be included in account 703, "Sinking funds." If one purpose of a capital fund is to provide contributions to a sinking fund under specified conditions, the entire amount of the fund shall be included in this account until the contributions to the sinking fund are made, at which time the amounts thereof shall be transferred to account 703.

NOTE B: The ledger value of assets of the character indicated in paragraph (a) (2) of this section, shall be transferred to the appropriate current asset account when the assets are definitely assigned in advance of expenditure to the payment of interest or other current liabilities payable within one year.

NOTE C: Bank deposits subject to current withdrawal for specific purposes only, shall be included in account 711, "Special deposits." Deposits available for general company purposes shall be included in account 708, "Cash."

2. In § 10.711 *Special deposits*, cancel the text of this account and substitute the following text and note for it:

§ 10.711 *Special deposits.* This account shall include funds specifically deposited for the payment of dividends, interest, and other current liabilities; also other deposits subject to current withdrawal for specific purposes only.

NOTE: Deposits available for general company purposes shall be included in account 708, "Cash".

3. In § 10.721 *Insurance and other funds*, add the following note to the text of this account:

NOTE D: Bank deposits subject to current withdrawal for specific purposes only, shall be included in account 711, "Special deposits." Deposits available for general company purposes shall be included in account 708, "Cash".

Any interested person may on or before January 16, 1953, file with the Commission written views or arguments to be considered in this connection, and may request oral argument thereon. Unless otherwise decided after consideration of representations so received, an order will be entered making the said modifications effective March 1, 1953.

NOTICES

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[Order 2711]

DIRECTOR OF FISH AND WILDLIFE SERVICE

DELEGATION OF AUTHORITY WITH RESPECT TO EXAMINATION AND CONSIDERATION OF APPLICATIONS, AND ISSUANCE AND ADMINISTRATION OF PERMITS

The Director of the Fish and Wildlife Service may exercise all of the authority vested in the Secretary of the Interior by the act of July 17, 1952 (66 Stat. 755), with respect to the examination and consideration of applications therefor, and the issuance and administration of permits authorizing the entry, or withdrawal from warehouse, for consumption of skins bearing feathers of the species of wild birds designated by such act. In the exercise of the authority hereby delegated, the said Director shall be guided by the regulations in Part 10, Title 50, Code of Federal Regulations, prescribing standards for allocating quotas of such skins.

FEDERAL POWER COMMISSION

[Docket No. G–1951]

UNITED GAS PIPE LINE CO.

ORDER FIXING DATE FOR ORAL ARGUMENT

DECEMBER 11, 1952.

On November 20, 1952, the Presiding Examiner issued his decision in the above-entitled matter, wherein he concluded that the application herein should be denied. On December 8, 1952, exceptions to such decision and to certain of the findings and conclusions contained therein were filed by Applicant. With such exceptions, Applicant filed a motion pursuant to § 1.31 (d) (2) of the Commission's rules and regulations for oral argument concerning the matters and issues set forth in its exceptions to the Presiding Examiner's decision.

The Commission finds: Good cause exists and it is appropriate in carrying out the provisions of the Natural Gas Act that the request of Applicant for oral argument be granted.

The Commission orders:

(A) Oral argument before the Commission concerning the matters involved and the issues presented in the above-entitled proceeding be and the same is hereby set for January 28, 1953, at 10:00 a. m., e. s. t., in the Hearing Room, Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

(B) Applicant and Commission Staff counsel shall notify the Secretary of the Commission of the amount of time desired for oral argument on or before January 10, 1953.

Date of issuance: December 18, 1952.

By the Commission.

[Project No. 2111]

PACIFIC POWER & LIGHT CO.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

DECEMBER 18, 1952.

Public notice is hereby given that Pacific Power & Light Company, of Portland, Oregon, has made application for preliminary permit pursuant to the provisions of the Federal Power Act (16 U. S. C. 791–825r) for a proposed hydroelectric project, designated as Project No. 2111, on the Lewis River in Skamania and Clark Counties, Washington, affecting public lands and lands of the United States reserved as the Swift Creek Administrative Site for use by the Department of Agriculture. The proposed project, probably to be known as the Swift Power Development, would consist of a spillway-equipped rock-fill dam, about 225 feet high, creating a reservoir having usable storage of about 122,000 acre-feet; a power tunnel about 18,000 feet long; a surge tank and two penstocks; a powerhouse to house two vertical turbine-generator units, each tentatively rated at 25,000 kw; and appurtenant facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before the 26th day of January 1953. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-1400]

FOSTER AND KLEISER CO.

NOTICE OF APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

DECEMBER 18, 1952.

Foster and Kleiser Company, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to withdraw its Common Stock, $2.50 Par Value, from registration and listing on the Los Angeles Stock Exchange and on the San Francisco Stock Exchange.

The reason stated by the company in the application for withdrawing this security from registration and listing is that W. R. Grace & Co., a West Virginia corporation, has become the beneficial owner of more than 605,000 shares of the approximately 608,000 shares of the above security that are outstanding, with the result that there is not a sufficient number of shares now outstanding in the hands of the public with sufficient widespread distribution to warrant the continuance of a free auction market on an exchange for this security.

Upon receipt of a request, prior to January 21, 1953, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

VOLUME 17 NUMBER 251

Washington, Thursday, December 25, 1952

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 20—RETENTION PREFERENCE REGULATIONS FOR USE IN REDUCTIONS IN FORCE

Effective as to any reductions in force in which notices are issued on or after February 15, 1953, or within any agency at such prior date as may be determined by the head of the agency, Part 20 is revised and amended to read as follows:

Sec.
20.1 Extent of part.
20.2 Definitions.
20.3 Completion of employee records.
20.4 Order of selection.
20.5 Actions.
20.6 Notice to employees.
20.7 Reappointment priority.
20.8 Special regulations relating to consolidations and liquidations.
20.9 Appeals.

AUTHORITY: §§ 20.1 to 20.9 issued under secs. 11, 19, 58 Stat. 390, 391; 5 U. S. C. 860, 868. Interpret or apply sec. 12, 58 Stat. 390; 5 U. S. C. 861. Other statutory provisions interpreted or applied are cited to text in parentheses.

§ 20.1 *Extent of part.* The regulations in this part establish degrees of retention preference and uniform rules for reductions in force. They apply to all civilian employees in the executive branch of the Federal Government, and in the municipal government of the District of Columbia, except those whose appointments are required to be approved by the Senate, and those who are appointed by the President of the United States.

(Sec. 20, 58 Stat. 391; 5 U. S. C. 869)

§ 20.2 *Definitions.* For the purposes of the regulations in this part definitions are given for words, terms and phrases as follows:

(a) "Reduction in force" means the involuntary separation of an employee from a duty and pay status for more than 30 days, by furlough or by separation from the rolls, in order to reduce personnel. The term does not apply to termination of temporary appointments, retirement of employees, or separations for cause and other actions proposed for reasons which promote the efficiency of the service.

(b) "Furlough" in a reduction in force means retention on the rolls on leave without pay pending recall to duty.

(c) "Competing employees" for any position in a reduction in force means the position incumbent, if any, and employees who are qualified for the position.

(d) "Qualified" for a position means having the basic education and experience, and such special skills and aptitudes as are necessary, to take over the position in a reduction in force and render satisfactory service without undue interruption to the work program.

(e) "Competitive area" means that part of an agency, usually within a local commuting area, in which employees are shifted, transferred, reassigned, promoted and demoted under single administrative authority, and within which competitive levels are established in reductions in force. (It does not establish a limitation for placement during reductions in force.)

(f) "Competitive level" means all similar positions within a competitive area in which employees could be readily interchanged, without undue interruption to the work program. (Generally such positions will be in the same grade or occupational level, but this is not necessary if the other tests are met.)

(g) "Retention standing" means precise rank among competing employees for a continuing position, by retention group and subgroup, and by retention credits within each subgroup.

(h) "Retention credits" are credits given for length of government service and performance ratings.

(i) "Government service" means the total of all periods of civilian service in the executive, legislative and judicial branches of the Federal Government and in the District of Columbia Government, and of all active military service.

(j) "Performance rating" means the current official performance rating under a performance rating plan which has been approved by the Civil Service Commission.

(k) "Continuing position" in a reduction in force is a position which is expected to continue for at least three months after the effective date of the separation, furlough, or reduction in grade or salary of an employee qualified for such position.

(1) "Effective date" is the date an employee is separated, reduced in grade or pay, or furloughed, as the result of actions under the regulations in this part.

§ 20.3 *Completion of employee records.* (a) Each agency is responsible for maintaining current records of information necessary to determining relative retention preference of employees.

(b) If such records are incomplete, they may be supplemented by written statements from employees, each supported by a signed certificate that the information it contains is true, correct and complete according to the employee's knowledge and belief.

§ 20.4 *Order of selection*—(a) *Determination of competitive area.* (1) An agency may establish a general plan of competitive areas by obtaining prior approval from the Central Office of the Civil Service Commission. Subsequent clearance with the Commission will not be required concerning competitive areas conforming to the approved general plan unless there has been a material change in the agency's organizational structure or other facts on which the general plan was approved.

(2) In the absence of an approved general plan the normal competitive area shall be a bureau or equivalent part of an agency in the departmental service, or all of a field installation in a local commuting area, or any combination of these as may be determined by the agency.

(b) *Determination of competitive level.* Within the competitive area the agency will determine competitive levels of positions to be affected by a reduction in force.

(c) *Determination of tenure groups.* For the purpose of determining relative retention preference in reductions in force, competing employees with performance ratings of "Satisfactory" or better shall be classified according to tenure of employment and veteran preference in groups and subgroups as follows:

(1) *Group I—Career.* In the competitive service, this group consists of career employees who have completed probation and who are not "temporary" or "indefinite" as the result of promotion, transfer or reinstatement, except that career employees serving under conditional promotions shall be considered in this group with respect to positions at and below the grade in which they last served on a permanent basis. In positions excepted from the competitive service, this group includes all employees serving under appointments with no conditions or restrictions. Within this group, persons entitled to veteran preference are in subgroup "A" and others in subgroup "B".

(2) *Group II—Career-Conditional.* In the competitive service, this group includes career employees who are conditional because they are serving probationary periods, or are "temporary" or "indefinite" as the result of promotion, transfer or reinstatement, or are subject to some other limitation of a similar nature. In positions excepted from the competitive service, it includes employees who are conditional solely as the result of promotion or reinstatement. Within this group, persons entitled to veteran preference are in subgroup "A" and others in subgroup "B".

(3) *Group III—Indefinite.* This group includes persons serving under non-status non-temporary appointments in positions in the competitive service. It also includes employees in positions excepted from the competitive service serving under any condition or limitation other than a conditional promotion or reinstatement or a specific time limitation of one year or less. Within this group, persons entitled to veteran preference are in subgroup "A" and others in subgroup "B".

(d) *Retention register*—(1) *Compilation.* When two or more competing employees are in a competitive level which is to be affected by a reduction in force, the retention records of such employees shall be brought up to date on a current basis, and a retention register shall be compiled. All employees in positions in the particular competitive level, whether in duty, leave, or furlough status, excluding only those absent in the armed forces of the United States with reemployment rights, shall be entered on the register in the order of retention groups and subgroups, and according to retention credits in any subgroup when there are two or more. One retention credit shall be given for each full year of Federal Government service, and four retention credits shall be given for an "Outstanding" performance rating. If there are any temporary employees assigned to positions in the competitive level, their names and the expiration dates of their appointments shall be entered below the space provided for employees in retention groups on the register. Likewise, if there are any employees serving in positions in the competitive level under any kind of appointments, with current official performance ratings of "Unsatisfactory", their names shall be entered on the register below the names of temporary appointees.

(2) *Separation of registers.* Separate registers shall be compiled to show the distinctions between competitive levels representing positions in the competitive service; excepted from the competitive service; and those filled on a seasonal, when-actually-employed (WAE), or part-time basis.

(3) *Availability for inspection.* Employees notified of proposed adverse action in a reduction in force shall have an opportunity to examine retention registers and other records which have a bearing on the actions in their cases. All registers and records shall be open for inspection by representatives of the Civil Service Commission.

(e) *Sequence of selection.* With respect to each competitive level, action must be taken to remove all employees with official "Unsatisfactory" performance ratings, and all temporary employees, from positions affected by a reduction in force before any competing employee, in any retention group, is reached for action. Thereafter, selections for action must be made in order from the bottom to the top of the register. Half years of service will be used in breaking ties in retention standing, but any ties still remaining will be decided administratively.

§ 20.5 *Actions*—(a) *In general.* Employees who cannot be retained in their positions because of a reduction in force will be changed to continuing positions, separated, or furloughed.

(b) *Employees in positions in the competitive service.* (1) No employee may be separated, or furloughed for more than thirty days, or reduced in pay or grade in a reduction in force while a competing employee with lower retention standing is retained in the same competitive level.

(2) No employee in any subgroup of the career group or the career-conditional group who is willing to accept a reasonable change in position may be separated, furloughed for more than thirty days, or subjected to greater reduction in pay than necessary under such reasonable change in position, if he is qualified for a continuing position in another competitive level in his current commuting area in which an employee with lower subgroup standing is retained, or if he is qualified to go back to a continuing position from which he was promoted (or to an essentially identical position) in his present competitive area in which an employee with lower retention standing is retained.

(c) *Employees in positions excepted from the competitive service.* No employee in a position excepted from the competitive service may be separated, furloughed for more than thirty days, or reduced in grade or pay in a reduction in force if a competing employee with lower retention standing is retained in the same competitive level.

(d) *Reasonable change in position.* Any change in position under these regulations is reasonable if it is made without reduction in grade or pay. If a reduction in grade or pay cannot be avoided, any such change is reasonable if made with the least reduction required to conform with these regulations. Employees are not required to be given options as to alternative changes possible in any particular case. No agency shall be required to fill a vacant position, or to promote any employee, or to transfer any employee to a different duty station, and

no agency shall be prohibited from taking such administrative actions. No employee rendering satisfactory service in a position shall be required to be displaced by a competing employee who is not qualified for such position under the regulations in this part.

(e) *Furloughs.* Furloughs shall be given only when the reduction is temporary and contemplates the recall of employees to the positions from which furloughed. They may not extend more than one year from the date of notice, and shall provide that the employees report back for duty at the end of the furlough period if not recalled earlier.

(f) *Exceptions.* An exception to the regular order of selection or to the above provisions governing actions in a reduction in force may be made only when necessary to retain an employee engaged on necessary duties which cannot be taken over without undue interruption to the activity, by an employee with higher retention standing. In such cases, each employee affected adversely by the exception must be notified of the reasons and of his right to appeal to the Civil Service Commission for a review of such reasons.

§ 20.6 *Notice to employees*—(a) *Proposed action.* Each employee who is to be separated from the rolls, furloughed for more than thirty days, or reduced in grade or pay, in a reduction in force, under the regulations in this part, shall be given a notice in writing, stating specifically the action proposed in his case and the reasons therefor, at least thirty days, and not more than ninety days, except as provided in paragraph (e) of this section, in advance of the effective date of the action.

(b) *Status during notice period.* Wherever possible, the employee shall be retained on active duty during the notice period, but may be placed on annual leave with or without his consent, on leave without pay with his consent, or in an emergency when there is a lack of work or a lack of funds for all or part of the notice period, he may be placed in a non-pay leave status. The reasons for any time without pay during the notice period will be reviewed upon the request of the employee if he appeals to the Commission.

(c) *General and special notices.* When there is insufficient time to plan all changes in positions and other adjustments thirty days in advance of a reduction in force, general notices may be given at least thirty days in advance of the proposed actions, stating that action will probably be necessary, outlining the reasons for the probable actions, and informing the employees that they will receive specific notices in advance of the effective dates of the actions. In such cases the notice periods will begin on the dates the general notices were received by the employees, and the sufficiency of the contents will be determined on the basis of statements in both general and specific notices.

(d) *Contents of notice.* Notices to employees shall set forth the nature and effective date of the proposed actions, the place where they may inspect copies of the regulations in this part and the retention records which have a bearing on the action in their cases, specific reasons for any exceptions, appeal rights within the agency and to the Civil Service Commission, and all available information to aid the employee in securing other employment.

(e) *Employee with statutory retention rights.* Notices to employees in positions in which they have one-year statutory retention rights as the result of restoration after service with the armed forces, shall show effective dates on or after the expiration of such rights.

(f) *Invalidation of notices.* A general notice or other indefinite notice that is not followed by a definite notice, or renewed as an indefinite notice, within thirty days, is thereafter invalid as a notice of proposed action in a reduction in force. Any notice becomes invalid if it is not followed by action according to its terms, or as amended before action is due.

§ 20.7 *Reemployment priority*—(a) *Reemployment priority list.* Each agency shall establish and maintain a reemployment priority list for each competitive area from which career employees (and career-conditional employees, who have completed probation) have been separated in reductions in force, from competitive service positions on the basis of notices as provided in § 20.6. Each of these employees shall have his name entered on the reemployment priority list for all competitive service positions in the competitive area for which he is qualified and is available, and continued on such list for a period of one year from the date of such notice. His name may be deleted from such list upon his signed written request, upon his acceptance of a nontemporary position in any Federal agency, or if he declines reemployment to a position in the competitive service equivalent in grade and salary to the position from which separated by reduction in force.

(b) *Restriction in filling positions.* No position in the competitive service, for which there is a qualified person available on the reemployment priority list, may be filled by the transfer of an employee of a different agency, or by the new appointment of any person except a qualified 10-point preference eligible. Furthermore, no such position may be filled by the reemployment of a person who is not on the reemployment priority list, unless such person is a preference eligible. These restrictions shall not apply if all qualified persons on the reemployment priority list decline, or fail to respond to, offers of reemployment to the position. In selections for reemployment from such priority lists, qualified preference eligibles shall have preference. An exception to these provisions may be made only when necessary to obtain an employee for necessary duties which cannot be taken over without undue interruption to the activity, by any person on the reemployment priority list, or with greater preference on such list. In such cases, each person adversely affected by the exception must be notified of the reasons, and of his right to appeal to the Civil Service Commission for a review of such reasons.

(c) *Reemployments.* Any person listed, or entitled to be listed, on a reemployment priority list may be reemployed in the competitive service under this section within his period of reemployment priority, and when so reemployed shall have the same tenure as if he had been transferred from his last career appointment.

(d) *Appeals.* Any former employee who feels that there has been a violation of his reemployment priority benefits under the foregoing provisions may appeal to the Civil Service Commission by presenting factual information that he was improperly denied reemployment as the result of the employment of another person.

§ 20.8 *Special regulations relating to consolidation and liquidations.* (a) Before any reduction in force is made in connection with the transfer of any or all of the functions of an agency to another continuing agency, all competing employees in positions identified with such function or functions shall be transferred to such continuing agency, without change in tenure of appointment. Employees whose positions are transferred solely for the purpose of liquidation, and not identified with operating functions specifically authorized at the time of transfer to continue in operation more than sixty days, shall not be considered as competing employees for other positions in the receiving agency.

(b) Whenever it has been determined that all positions in the entire agency or an entire competitive area are to be abolished within a period of three months or less, actions may be taken with regard to individual employees in any retention sub-group at administrative discretion. Employees reached for separation under this paragraph shall be given individual notices in writing conforming generally to the notice requirements under § 20.6 but containing a statement of the authority which requires the liquidation, and the time period in which the liquidation is to be accomplished.

§ 20.9 *Appeals.* (a) Any employee notified of proposed action in a reduction in force who believes that the regulations in this part have not been correctly applied may appeal to the appropriate office of the Civil Service Commission, stating reasons for believing the proposed action to be improper, within ten days from the date he received notice of the proposed action (or supplementary notice specifying different adverse action), or within ten days after a decision by the agency on his answer to any notice giving him an opportunity to answer.

(b) Further appeals: An appeal may be made by the employee or the employing agency from the initial decision within the Commission, to the Commissioners, United States Civil Service Commission, Washington 25, D. C., within seven days of the date of receipt of notification of the initial decision.

(c) Finality of Commission recommendation: The agency is required to take corrective action without delay conforming to the Commission's recommendation, but action to comply with an initial decision may be stayed when a further appeal to the Commissioners is made in accordance with paragraph (b) of this section, until such time as the Commission's decision on the further appeal is made.

TITLE 7—AGRICULTURE

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 725—BURLEY AND FLUE-CURED TOBACCO

PROCLAMATION OF THE RESULTS OF MARKETING QUOTA REFERENDUM FOR MARKETING YEAR BEGINNING OCTOBER 1, 1953

§ 725.407 *Basis and purpose.* Sections 725.407 and 725.408 are issued to announce the results of the Burley tobacco marketing quota referendum for the marketing year beginning October 1, 1953, and for the three-year period beginning October 1, 1953. Under the provisions of the Agricultural Adjustment Act of 1938, as amended, the Secretary proclaimed a national marketing quota for Burley tobacco for the 1953-54 marketing year (17 F. R. 10134). The Secretary announced (17 F. R. 10148) that a referendum would be held on November 22, 1952, to determine whether Burley tobacco producers were in favor of or opposed to marketing quotas for the marketing year beginning October 1, 1953, and to determine whether Burley tobacco producers were in favor of or opposed to marketing quotas for the three-year period beginning October 1, 1953. Since the only purpose of this proclamation is to announce the results of the referendum, it is hereby found and determined that with respect to this proclamation, application of the notice and procedure provisions of the Administrative Procedure Act (5 U. S. C. 1003) is unnecessary.

§ 725.408 *Proclamation of the results of the Burley tobacco marketing quota referendum for the marketing year beginning October 1, 1953 and for the three-year period beginning October 1, 1953.* In a referendum of farmers engaged in the production of the 1952 crop of Burley tobacco held on November 22, 1952, 179,493 farmers voted. Of those voting, 174,014 or 97.0 percent, favored quotas for a period of three years beginning October 1, 1953; 2,344 or 1.3 percent favored quotas for only the one year beginning October 1, 1953; and 3,135 or 1.7 percent were opposed to quotas. Therefore, the national marketing quota of 546,000,000 pounds proclaimed November 5, 1952 (17 F. R. 10134) for Burley tobacco for the 1953-54 marketing year will be in effect for such year and marketing quotas on Burley tobacco will be in effect for three marketing years beginning October 1, 1953.

PART 8—AIRCRAFT AIRWORTHINESS; RESTRICTED CATEGORY

REPAIRS AND ALTERATIONS

The purpose of this amendment is to make minor editorial changes and corrections in references in the existing rules, interpretations and policies of the Civil Aeronautics Administration. Inasmuch as the changes do not impose any additional burden, notice and public procedure thereon are unnecessary and the following amendments are made effective without prior notice.

Section 8.20-3 as published on December 23, 1950, in 15 F. R. 9227, is amended as follows:

1. Delete the last sentence of the first paragraph of the introduction to that section.

2. Paragraph (b) (2) (i) thereof is amended to read:

(i) *Technical data.* The repair agency should prepare Form ACA-337 as specified in subdivision (ii) of this subparagraph. It is responsible for determining that the repair or alteration is airworthy in accordance with good aeronautical practices.

3. The first sentence of the second undesignated paragraph of paragraph (b) (2) (ii) thereof is amended to read:

The repair agency should insert under item 7 a narrative description of the repair and/or alteration. The first statement under item 7 should indicate that the repair or alteration has been made under the provisions of this part.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553)

This amendment shall become effective upon publication in the FEDERAL REGISTER.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for certification of antibiotic and antibiotic-containing drugs (21 CFR 1951 Supp., Part 146; 17 F. R. 150, 1178, 1419, 2471, 2600, 3230, 3632, 4559, 5812, 7043, 7885, 8036, 8533, 9662, 9663) are amended as indicated below:

1. Section 146.1 (s) is amended to read:

§ 146.1 *Definitions and interpretations.* • • •

(s) The term "manufacture" does not include the use of a drug as an ingredient in compounding any prescription issued by a practitioner licensed by law to administer such drug.

2. a. Section 146.4 (b) (2) (ii) is amended to read:

§ 146.4 *Conditions on the effectiveness of certificates.* • • •

(b) • • •

(2) • • •

(ii) If the drug is in a container packaged for dispensing and is used in compounding a prescription issued by a practitioner licensed by law to administer such drug, such certificate shall continue to be effective for a reasonable time to permit the delivery of the drug compounded on such prescription; or

b. Section 146.4 (b) (6) (i) is amended to read:

(i) By a practitioner licensed by law to administer such drug; or

3. a. In § 146.24 *Sodium penicillin* • • •, paragraph (c) *Labeling* is amended by renumbering subparagraphs (2) and (3) as (3) and (4), respectively, and by inserting the following new subparagraph (2) between subparagraph (1) and renumbered subparagraph (3):

(2) On the immediate container, the statement "Sterile solution may be kept in refrigerator for ------ days without significant loss of potency," the blank being filled in with the figure "3" if it is crystalline penicillin or with the figure "7" if it is not crystalline penicillin, unless such information is contained in the labeling within the package from which it is dispensed.

b. In § 146.24 (c), renumbered subparagraphs (3) and (4) are amended to read:

(3) On the outside wrapper or container:

(i) If it is not crystalline penicillin, the statement "Store in refrigerator not above 15° C. (59° F.)" or "Store below 15° C. (59° F.)."

(ii) The statement "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled.

(iii) If it is packaged for dispensing and it is intended for use by man, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however*, That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

(4) On the circular or other labeling within or attached to the package, if it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled, adequate directions and warnings for the veterinary use of such drug by the laity. Such circular or other labeling may also bear a statement that a brochure or other printed matter containing information for other veterinary uses of such drug by a veterinarian licensed by law to administer it will be sent to such veterinarian on request.

4. a. In § 146.25 *Penicillin in oil and wax* • • •, paragraph (c) *Labeling* is amended by renumbering subparagraph (2) as subparagraph (3) and by inserting the following new subparagraph (2) between subparagraph (1) and renumbered subparagraph (3):

(2) On the outside wrapper or container:

(i) The statement "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled.

(ii) If it is packaged for dispensing and it is intended for use by man, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however*, That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

b. In § 146.25 (c), renumbered subparagraph (3) is amended to read:

(3) On the circular or other labeling within or attached to the package, if it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled, adequate directions and warnings for the veterinary use of such drug by the laity. Such circular or other labeling may also bear a statement that a brochure or other printed matter containing information for other veterinary uses of such drug by a veterinarian licensed by law to administer it will be sent to such veterinarian on request.

5. Section 146.26 (c) (2) (ii) and (iii) are amended to read:

§ 146.26 *Penicillin ointment* • • •

(c) *Labeling.* • • •

(2) • • •

(ii) The statement "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled.

(iii) If it is packaged for dispensing and it is intended for use by man, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however*, That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

6. Section 146.27 (c) (2) and (4) are amended to read:

§ 146.27 *Penicillin tablets.* • • •

(c) *Labeling.* • • •

(2) On the outside wrapper or container:

(i) The statement "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled.

(ii) If it is packaged for dispensing and it is intended for use by man, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however*, That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

(3) On the immediate container of the aluminum hydroxide gel, the conditions under which the mixture should be stored, including a reference to its instability when stored under other conditions, and the statement "The mixture may be kept in refrigerator for 1 week without significant loss of potency," unless such information is contained in the circular or other labeling within or attached to the package.

b. In § 146.29 (c), renumbered subparagraphs (4) and (5) are amended to read:

(4) On the outside wrapper or container and the immediate container of the aluminum hydroxide gel:

(i) A statement giving the method for dissolving the penicillin in the aluminum hydroxide gel.

(ii) The potency per milliliter after the penicillin has been dissolved therein.

(5) On the outside wrapper or container:

(i) The statement "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled.

(ii) If it is not crystalline penicillin, the statement "Store in refrigerator not above 15° C. (59° F.)" or "Store below 15° C. (59° F.)."

(iii) If it is packaged for dispensing and it is intended for use by man, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however*, That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

c. Section 146.29 (c) is further amended by adding the following new subparagraph (6):

(6) On the circular or other labeling within or attached to the package, if it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled, adequate directions and warnings for the veterinary use of such drug by the laity. Such circular or other labeling may also bear a statement that a brochure or other printed matter containing information for other veterinary uses of such drug by a veterinarian licensed by law to administer it will be sent to such veterinarian on request.

8. Section 146.30 (c) (2) (ii) and (iii) are amended to read:

§ 146.30 *Penicillin troches* • • •

(c) *Labeling.* • • •

(2) • • •

(ii) The statement "Caution: Federal law prohibits dispensing without prescription";

(iii) If it is packaged for dispensing, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however*, That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

9. Section 146.31 (c) (2) and (4) are amended to read:

§ 146.31 *Penicillin dental cones* • • •

(c) *Labeling.* • • •

(2) On the outside wrapper or container:

(i) The statement "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled.

(ii) If it is packaged for dispensing and it is intended for use by man, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however*, That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

• • • • •

(4) On the circular or other labeling within or attached to the package, if it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled, adequate directions and warnings for the veterinary use of such drug by the laity.

10. Section 146.32 (c) (3) and (4) are amended to read:

§ 146.32 *Penicillin with vasoconstrictor* • • •

(c) *Labeling.* • • •

(3) On the outside wrapper or container:

(i) The statement "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled.

(ii) If it is packaged for dispensing and it is intended for use by man, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however*, That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

(4) On the circular or other labeling within or attached to the package, if it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled, adequate directions and warnings for the veterinary use of such drug by the laity. Such circular or other labeling may also bear a statement that a brochure or other printed matter containing information for other veterinary uses of such drug by a veterinarian licensed by law to administer it will be sent to such veterinarian on request.

11. a. In § 146.33 *Penicillin for surface application*, paragraph (c) *Labeling* is amended by renumbering subparagraphs (2) and (3) as subparagraphs (3) and (4), respectively, and by inserting the following new subparagraph (2) between subparagraph (1) and renumbered subparagraph (3):

(2) On the immediate container, the conditions under which solutions of penicillin for surface application should be stored, including a reference to their instability when stored under other conditions, and the statement "The mixture may be kept in refrigerator for 1 week without significant loss of potency," unless such information is contained in the circular or other labeling within or attached to the package.

b. In § 146.33 (c), renumbered subparagraphs (3) and (4) are amended to read:

(3) On the outside wrapper or container:

(i) The statement "Store in refrigerator not above 15° C. (59° F.)" or "Store below 15° C. (59° F.)."

(ii) If two or more immediate containers or foil or film enclosures are in such packages, the number of such containers or foil or film enclosures therein and the number of units in each.

(iii) The statment "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled.

(iv) If it is packaged for dispensing and it is intended for use by man, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however*, That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

(4) On the circular or other labeling within or attached to the package, if it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled, adequate directions and warnings for the veterinary use of such drug by the laity. Such circular or other labeling may also bear a statement that a brochure or other printed matter containing information for other veterinary uses of such drug by a veterinarian licensed by law to administer it will be sent to such veterinarian on request.

12. Section 146.34 (c) (2) (ii) and (iii) and (3) are amended to read:

§ 146.34 *Tablets aluminum penicillin.* * * *

(c) *Labeling.* * * *

(2) * * *

(ii) The statement "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and is intended solely for veterinary use and is conspicuously so labeled.

(iii) If it is packaged for dispensing and it is intended for use by man, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however*, That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

(3) On the circular or other labeling within or attached to the package, if it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled, adequate directions and warnings for the veterinary use of such drug by the laity. Such circular or other labeling may also bear a statement that a brochure or other printed matter containing information for other veterinary uses of such drug by a veterinarian licensed by law to administer it will be sent to such veterinarian on request.

13. Section 146.35 (c) is amended to read:

§ 146.35 *Penicillin sulfonamide powder* * * *

(c) *Labeling.* Each package of penicillin sulfonamide powder shall bear, on its label or labeling as hereinafter indicated, the following:

(1) On the outside wrapper or container and immediate container:

(i) The batch mark.

(ii) The number of units in each immediate container.

(iii) The statement "Expiration date ---------," the blank being filled in, if crystalline penicillin is used, with the date which is 18 months, or if crystalline penicillin is not used, with the date which is 9 months after the month during which the batch was certified.

(iv) If crystalline penicillin is not used, the statement "Store in refrigerator not above 15° C. (59° F.)" or "Store below 15° C. (59° F.)."

(2) On the outside wrapper or container:

(i) The statement "Caution: Federal law prohibits dispensing without prescription," unless it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled.

(ii) If it is packaged for dispensing and it is intended for use by man, a reference specifically identifying a readily available medical publication containing information (including contraindications and possible sensitization) adequate for the use of such drug by practitioners licensed by law to administer it; or a reference to a brochure or other printed matter containing such information, and a statement that such brochure or other printed matter will be sent on request: *Provided, however*, That this reference may be omitted if the information is contained in a circular or other labeling within or attached to the package.

(3) On the label and the labeling, after the name penicillin sulfonamide powder, wherever it appears, the words "with ----------" in juxtaposition with such name, the blank being filled in with the name of the sulfonamide used.

(4) On the circular or other labeling within or attached to the package, if it is packaged for dispensing and it is intended solely for veterinary use and is conspicuously so labeled, adequate directions and warnings for the veterinary use of such drug by the laity. Such circular or other labeling may also bear a statement that a brochure or other printed matter containing information for other veterinary uses of such drug by a veterinarian licensed by law to administer it will be sent to such veterinarian on request.

14. Section 146.36 (c) (2) (ii) and (iii) and (3) are amended to read:

§ 146.36 *Penicillin vaginal suppositories.* * * *

(c) *Labeling.* * * *

This order, which provides for changes in the labeling requirements for antibiotic and antibiotic-containing drugs, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Dated: December 19, 1952.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 34, Amdt. 13 to Supplementary Regulation 3]

CPR 34—SERVICES

SR 3—APPROVAL OF CERTAIN AUTOMOTIVE AND FARM TRACTOR REPAIR SERVICE FLAT RATE MANUALS

ADDITIONAL METHOD FOR ADOPTING APPROVED MANUALS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 13 to Supplementary Regulation 3 (16 F. R. 8828) to Ceiling Price Regulation 34, is hereby issued.

STATEMENT OF CONSIDERATIONS

Supplementary Regulation 3 to Ceiling Price Regulation 34, as amended, provides for the approval of new editions and supplements to flat rate manuals and labor schedules used in the automotive and farm implement repair service field. These manuals and labor schedules establish standard time allowances for various operations or combinations of operations involved in automobile and farm implement mechanical repair services based upon continuing time studies conducted by the manufacturers or publishers of manuals.

Most automotive and farm implement repair establishments use one or more of these flat rate manuals or labor schedules to determine the time allowances for mechanical repair services rendered. However, in some instances dealers supplying automotive repair services have, for a long period of time used flat rate manuals or labor schedules in which the time allowances have been altered and which deviate in important respects from the standard flat rate manuals published by the manufacturer of the equipment generally serviced by such dealers. Under the provisions of section 12 (g) of Ceiling Price Regulation 34, dealers using such altered manuals are required to continue to use the same manual that was used during the base period, December 19, 1950 to January 25, 1951, inclusive, or a subsequent edition of that manual approved by the Director of Price Stabilization. Since no subsequent editions of the altered manuals have been submitted to, or approved by, the Director, such dealers are now unable to determine time allowances for new operations or combinations of operations which have been approved in new editions or supplements to flat rate manuals covered by Supplementary Regulation 3 to Ceiling Price Regulation 34, as amended, particularly with respect to new models manufactured since the base period.

This amendment provides a method whereby individual dealers who were "frozen" with an altered manual under the provisions of Ceiling Price Regulation 34 may apply to the OPS District Office for permission to adopt the appropriate approved flat rate manuals or labor schedules and/or supplements to determine the time allowances for automotive and farm implement repair services. Since the users of such altered flat rate manuals or labor schedules have also charged customers' hourly rate adjusted to such altered time allowances, it is necessary to reestablish hourly rates to conform to the standard time allowances.

The modifications approved under this amendment will in general result in substantially the same prices to customers at attained under the previously established time allowances and hourly rates.

In the judgment of the Director, the provisions of this amendment are necessary and proper to effectuate the purposes of the Defense Production Act of 1950, as amended. The limited application of this amendment made it impracticable to consult formally with representatives of the industry including trade association representatives; however, informal consultation has been held with representatives of the industry and consideration has been given to their proposals.

AMENDATORY PROVISIONS

Suplementary Regulation 3, as amended, to Ceiling Price Regulation 34 is further amended as follows:

1. Paragraphs (c) and (d) of section 3 are redesignated paragraphs (d) and (e).

2. A new paragraph (c) is added to section 3 to read as follows:

(c) *Dealers who used an "altered" flat rate manual or labor schedule during the base period.* (1) If you are a dealer who used a flat rate manual or labor schedule during the base period in which the time allowances for mechanical repair services have been altered and are different from the time allowances contained in the flat rate manual or labor schedule issued by the manufacturer for whom you are a dealer, or the time allowances contained in a general flat rate manual or labor schedules approved by this supplementary regulation, you may file with your District Office of the Office of Price Stabilization in the District in which your place of business is located an application for permission to adopt and use the current approved edition of the flat rate manuals or labor schedules issued by the manufacturer for whom you are a dealer, and an approved general manual or labor schedule for use with respect to other makes of automobiles to determine time allowances for automotive repair services, and a modification of your established customers' hourly rate if such modification will in general result in substantially the same prices to customers as were attained under the previously allowed time allowance and hourly rate. Your application shall not include the charges for operations for which you have established a flat price under CPR 34. Your application shall contain the following information:

(i) Your name and address.

(ii) Name and description of altered manual and of the approved flat rate manual to be used.

(iii) A complete list of all repair orders or other records (excluding those for jobs for which a flat price is charged) for all mechanical labor performed during the last previous month of September and the last previous month of May, whether or not the job is specified in a flat rate manual, showing:

(*a*) The job ticket or repair order number.

(*b*) A description or identifying symbol of the job as used in the altered manual.

(*c*) The total hours specified for the job in your altered flat rate manual.

(*d*) The total hours for the same job in the approval flat rate manual.

For jobs for which actual times were used to determine the price (this includes mechanical repair operations not covered by the altered or approved manuals referred to above), the actual time charged at your established customers' hourly rate.

(iv) Your customers' hourly rate established under CPR 34 and used in connection with the altered manuals.

(2) Three or more dealers of the same manufacturer using the same altered manual and doing business within the same geographical area may apply as a group for permission to adopt the approved flat rate manual issued by that manufacturer and a modification of their customers' hourly rate. If the geographical area extends into two or more OPS Districts the application should be filed with the OPS District Office in the District in which the largest number of applicants are located.

(i) Such group application shall contain the following information:

(*a*) The name and address of each applicant.

(*b*) A statement from each applicant that he desires a group modification based upon data submitted by a representative number of the group.

(*c*) Each applicant's customers' hourly rate established under CPR 34 and used in connection with the altered manuals.

(*d*) Each applicant's repair service sales volume during his last complete annual accounting period.

(ii) Within ten days after the receipt of the application, OPS will designate, after discussion with representatives of the group, which firms on the list shall be acceptable as representative of the group.

(iii) The firms to be the representative number of the group shall, as a minimum, consist of two dealers and shall represent an annual sales volume for mechanical repair service of not less than 25 percent of the total mechanical repair service sales volume of the group.

(iv) The accepted firms shall then submit the data required in subparagraph (1) (ii) and (iii).

(3) If, for any reason, such as fire, remodeling operations, traffic diversion etc., either the last previous month of September or May is unrepresentative of your repair service business, you may, with the approval of the District Office substitute the next nearest month which will reflect the normal operation of your repair business. You may not, until your application is approved by OPS use the manuals for which you have requested permission to use, nor charge more than your established customers' hourly rate for automotive repair services.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 13 to Supplementary Regulation 3 to Ceiling Price Regulation 34 shall be effective on December 23, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Director of Price Stabilization.

[Ceiling Price Regulation 7, Amdt. 24]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

NEW SELLERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to Ceiling Price Regulation 7 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment revises the provisions of Ceiling Price Regulation 7 which affect a seller opening a new unit; a seller adding a category for which he cannot determine ceiling prices under other sections of the regulation; a seller adding articles not in any category he carried under the GCPR; and a seller selling sets to which certain services have been added or a new seller who repairs or reconditions the articles he sells.

Under the present regulation a seller entering business for the first time is limited to category markups set forth in Appendix E. A seller with past experience opening a unit or adding a category is in general faced with a dual limitation: that the category markups must be in line with those of competitors and not above the applicant's past experience. Experience with the regulation has demonstrated that the number of applications being processed under these provisions is not extraordinarily great. The markups in Appendix E represent a point slightly below the national median. In the interest of expedition their use for completely new sellers was desirable but they could result in markups that were either too high where local competition generally was selling at markups lower than are represented in the appendix or on the contrary too low where local competition was generally selling at higher markups. It became increasingly apparent that it would be simpler to in-line applicants with competition in the first instance than to invoke the necessary procedures to adjust markups downward where they were too high or to create a method of relief where the initial markups were too low. Experience also revealed that the limitation in the regulation that a seller could not be authorized to use markups higher than his past experience was unnecessarily stringent.

The principal changes therefore being effected by this amendment are the abandonment of the condition that a seller could not be authorized to use markups higher than his past experience and the adoption in general of the single standard of inlining new sellers directly with sellers whose operations are most nearly like those of the applicant. The procedure being adopted here is not expected to affect the general level of prices since it is anticipated that new applicants will be in-lined with low markup competitors as often as with high markup competitors.

By a prior amendment chain sellers were authorized to extend their operations to new units semi-automatically.

In the course of preparing this revision it was recognized that this right should be limited in one respect. Retail sellers in resort areas often apply larger markups than do retail sellers in non-resort areas. This amendment prevents the extension of resort area markups to non-resort areas.

The provision governing new sellers of repaired and reconditioned merchandise has been liberalized. In the past markups were permitted to be applied to acquisition costs only. Provision is now made for the application of the markup to the sum of the costs of the article plus the cost of repair or reconditioning with the limitation that the repairs or reconditioning costs may not exceed the amount necessary to raise the article to factory standard. This liberalization permits the same pricing method to new sellers of repaired or reconditioned articles that is permitted to be used by list date sellers. This change was determined to be necessary since, where the markup was applied to the cost of the article only, the resultant margin of profit where repairs were a significant amount was so shrunken as to discourage repairing or reconditioning with a consequent uneconomic waste of materials.

In the preparation and formulation of the provisions of this amendment there has been frequent informal consultation with industry representatives and their views and recommendations have been given careful consideration in the promulgation of this amendment.

AMENDATORY PROVISIONS

Ceiling Price Regulation 7 is amended in the following respects:

1. The following new section 39 is substituted for sections 39, 39a, 39b, 39c, 39d, 39e, 39f and 39g:

SEC. 39. *Ceiling prices for new sellers or for sellers who cannot price under other sections of the regulation.* (a) *Circumstances.* This paragraph explains under what circumstances you will use the various paragraphs of this section:

(1) If you are a new seller (not a transferee under section 42), that is, if you are now opening your first unit, you use paragraph (a).

(2) If you now have one or more units and you are opening a new unit for which you intend to determine prices centrally and uniformly with your existing units, you use paragraph (b).

(3) If you now have one or more units and you are opening a new unit (not a transferee under section 42) for which you wish to use the pricing chart, OPS order or authorization for an existing unit although you will not be determining prices centrally and uniformly for the two units, you use paragraph (c).

(4) If you are adding a category to a unit and are unable to determine ceiling prices for the added category under any other section of the regulation, you use paragraph (d).

(5) If you previously elected to remain under the General Ceiling Price Regulation pursuant to section 3 of this regulation and articles you are now taking on in a CPR 7 category do not fall into any category which you handled pursuant to the GCPR, you use paragraph (d).

(6) If prior to your list date you were in the business of assembling, packaging and selling sets to which you have added services the cost of which is more than 10 percent of the net cost of all the articles in the sets, you use paragraph (e) to establish a pricing method for your assembled sets.

(7) If you do not have a list date pricing chart and you are in or propose to enter the business of regularly buying (or taking in as trade-ins) used or imperfect articles for the purpose of reconditioning them and selling them as reconditioned, you use paragraph (f).

(8) You may elect to establish new ceiling prices under this section in place of those previously established pursuant to a report made by you or an order or authorization received from the OPS under section 39 prior to December 29, 1952. If you so elect, you use paragraph (g).

(*a*) *Opening a first unit.* If you are a new seller (not a transferee under section 42), that is, if you are now opening your first unit, you must file with your OPS office an application for markups in line with those of the three sellers whose operations are most nearly like that of your new unit. Your application must be signed by an owner, officer, or duly authorized agent.

(1) *Application.* The application must contain the following information:

(i) Your name and address and the name and address of the new unit;

(ii) The proposed date of opening of the new unit;

(iii) A list of the categories (identified by the appropriate Appendix B category numbers) to be handled in the new unit;

(iv) The type of operation which will be carried on in the new unit (for example, dry goods, furniture, men's furnishings, women's specialty shop, department store, etc.);

(v) The customer services which will be offered (i. e. installment selling, charge accounts, free delivery service, free alterations, etc.);

(vi) If the new unit is a leased department, the name and address of the prior lessee; if the department was operated by the lessor, this should be stated;

(vii) A statement of the type of supplier who will constitute the principal source of supply of merchandise for the new unit (for example, wholesalers, distributors, jobbers, manufacturers, etc.); and

(viii) The names and addresses of the three sellers whose operations are most nearly like that of the new unit.

(2) *Authorization.* You will receive a letter order from the OPS establishing a markup for each category to be used in the new unit in determining its ceiling prices. This markup will be in line with those of the three sellers whose operations are most nearly like that of your new unit.

(*b*) *Adding a new unit to a chain which determines prices centrally or uniformly or creating such a chain.* If you are a chain or group of stores which constitute a single seller under this regulation, and you are adding a new unit, or if you are a seller with a single unit opening another unit who wishes to determine prices centrally and uniformly for the two units and thus to create a centrally and uniformly pricing chain, you determine ceiling prices for sales from the new unit pursuant to the pricing chart, OPS order or authorization governing the determination of ceiling prices for the chain, group or existing unit after you file with your OPS office a notification containing the information and statements listed in subparagraph (1) and receive an acknowledgment from the OPS. This notification must be signed by an owner, officer or duly authorized agent.

(1) *Notification.* The notification must include the following information:

(i) The name of the chain or group, or the name of the single unit, and the address of the principal office;

(ii) The name and address of the new unit;

(iii) The date of opening of the new unit, and

(iv) A list of the categories to be carried indicating as to which categories the new unit is to maintain central and uniform pricing with your other existing units.

(v) A statement that the new unit will be the same type of operation; extend the same services; provide the same class of merchandise in the same general price ranges, and cater to the same class of purchaser as your other units, or unit;

(vi) If the new unit is located in an area which is not a resort area and all your other units (or unit) are located in the resort areas, list the names and addresses of the three sellers, the operations of which are most nearly like that of the new unit.

(2) *Authorization.* As soon as you receive from your OPS office acknowledgment of the receipt of your notification you may determine ceiling prices for the categories of the new unit described in your notification pursuant to the pricing chart, OPS order or authorization which governs the determination of ceiling prices for your other units. There is one exception to this, however. If the new unit is not in a resort area and your chain or your present unit is in a resort area, you may not determine ceiling prices for the new unit until you have received a letter order from your OPS office advising you what markups to use in the new unit. The OPS will authorize markups for the new unit in line with those of the three sellers the operations of which are most nearly like that of the new unit. To the extent that the pricing chart, OPS order or authorization which governs the determination of ceiling prices for your other units contains category markups in line with those of the three sellers the operations of which are most nearly like that of the new unit, use of that pricing chart, OPS order or authorization may be authorized in the letter order. You will be sent two copies of the acknowledgment of your notification or of the letter order fixing markups for your new unit. One copy is to be retained in the principal office of your chain; the other is to be kept in the new unit.

(c) *Adding a new unit to a chain which does not determine prices centrally or uniformly or creating such a chain.* If you are a chain or a group of stores which do not constitute a single seller under this regulation (that is, a chain which does not determine prices centrally and uniformly) and you are adding a new unit, or if you are a seller with a single unit opening another unit and you do not wish to determine ceiling prices for sales from the two units centrally and uniformly, you must apply to the OPS district office for the area in which the new unit is located for a letter order establishing markups for the new unit. If the new unit is to be the same type of operation as one of your other units you may apply for permission to use the latter unit's pricing chart, OPS order or authorization to determine ceiling prices for sales from the new unit. Markups authorized under this paragraph will be in line with those of the three sellers whose operations are most nearly like that of the new unit. Your application must be signed by an owner, officer or duly authorized agent.

(1) *Application.* The application must contain the following information:

(i) The name and address of your principal office of the chain or, where you previously had only one unit, the name and address of that unit;

(ii) The name and address of the new unit;

(iii) The date of opening of the new unit;

(iv) A list of the categories (identified by the appropriate Appendix B category numbers) to be handled in the new unit;

(v) A statement of the type of supplier who will constitute the principal source of supply of merchandise for the new unit (for example, wholesalers, distributors, jobbers, manufacturers, etc.);

(vi) The names and addresses of the three sellers whose operations are most nearly like that of the new unit;

(vii) If you wish to use for the new unit the pricing chart, OPS order or authorization of another of your units, the name and address of the latter unit, the address of the OPS office with which its pricing chart is on file, or from which the OPS order or authorization issued, and information that it and the new unit will be the same type of operation; extend the same services, provide the same class of merchandise in the same general price ranges, cater to the same class of purchasers, and be located in similar trading areas.

(2) *Authorization.* (i) The Office of Price Stabilization may authorize you by letter order to use the pricing chart, OPS order or authorization of an existing unit to establish prices for the new unit, if it appears that the new unit and the one whose chart or prior order or authorization you wish to use will be the same type of operation, extend the same services, provide the same class of merchandise in the same general price ranges, cater to the same class of purchaser and be located in similar trading areas.

(ii) If the applicant does not qualify under subdivision (i) of this subparagraph, the OPS, nevertheless, to the extent that such authorization results in category markups in line with or lower than those of the three sellers whose operations are most nearly like those of the new unit, may authorize the use of the pricing chart, OPS order or authorization sought to be used or of the pricing chart, OPS order or authorization of another unit in the chain.

(iii) If the new unit is to carry categories not on the pricing chart or OPS order or authorization sought to be used, or if any categories on the chart or OPS order or authorization sought to be used have category markups in excess of those of the three sellers the operations of which are most nearly like that of the new unit, then for such categories the OPS may authorize the use of the pricing chart, if any, for that particular category of some other unit in the chain which would result in markups in line with or lower than those of these three sellers. The OPS in such case will indicate the acceptable category average for each category and give you an opportunity to produce a chart for the particular categories having category markups no higher than those indicated. Thereafter, if no pricing chart for the particular category is produced, the OPS will authorize the use of a markup for the category in line with those of the three sellers whose operations are most nearly like that of the new unit.

(d) *Adding a category to an existing unit.* This paragraph applies in two situations. You will use this paragraph if you are adding a category to an existing unit or to a centrally and uniformly pricing chain and you are unable to determine your ceiling prices under any other section of this regulation. You will, also, use this paragraph if you previously elected to remain under the GCPR pursuant to section 3 of this regulation and you are now taking on articles which fall into a CPR 7 category but not into any category handler by you under the GCPR. In either case you must file with the OPS office having jurisdiction over the unit to which the category is to be added an application for an appropriate markup for the new category. The application must be signed by an owner, officer or duly authorized agent.

(1) *Application.* The application must include the following information:

(i) The name and address of the unit or an identification of the chain or group to which the category is being added;

(ii) A list of the categories (identified by the appropriate Appendix B category numbers) to be added;

(iii) A statement that the categories cannot be priced pursuant to any other section of the regulation; or, if you are a seller who had previously elected to remain under the GCPR, pursuant to section 3 (a) of this regulation a statement to that effect;

(iv) If you have another unit which handles the category and you wish to use that unit's chart, OPS order or authorization for the new category, the name and address of such unit;

(v) The names and addresses of the three sellers whose operations are most nearly like that of the chain or unit which is adding the new categories.

(2) *Authorization.* The OPS will, by letter order, grant category markups, or authorize the use of charts or prior orders or authorizations having category average markups, in line with those of the three sellers whose operations are most nearly like those of the unit, or units, adding the category.

(e) *Application by certain sellers who sell exclusively in sets (groups of articles) to which services have been added.* If prior to your list date, you have been engaged in the business of assembling, packaging, and selling sets (groups of articles) to which you have added services the cost of which is more than 10 percent of the net cost of all the constituent articles of the assembled sets, you may apply to your OPS office for a pricing method for the sale of your assembled sets. Your application must be signed by an owner, officer or duly authorized agent.

(1) *Application.* The application must contain the following information:

(i) Your name and address;

(ii) The date when you entered business;

(iii) A statement of the manner in which you conduct your business (indicating whether you are a department store, a leased department, a specialty store, or other; cash, installment or other terms; and class of merchandise you handle);

(iv) A list of all sets offered by you for sale on the list date, enumerating for each set the articles included, the cost of each article, the cost of services added by you on each set, and the selling price of each set on the list date; and

(v) Substantiating evidence such as advertisements, catalogs, or prospectuses that you sold or offered for sale the sets (listed under (iv)) on the list date.

(2) *Authorization.* Upon application made pursuant to subparagraph (1), the OPS may, by order, permit you to add to the net cost of all the constituent articles the cost of the services you provide (packaging, monogramming, etc.) and a markup in line with the level of prices established by this regulation.

(f) *Sellers who repair or recondition.* If you do not have a list date pricing chart and you are in, or propose to enter, the business of regularly buying (or taking in as trade-ins) used or imperfect articles for the purpose of reconditioning them and selling them as reconditioned or repaired, you may apply to your OPS office for a pricing method by which to establish ceiling prices for the sale of such reconditioned or repaired articles. The application must be signed by an owner, officer or duly authorized agent.

(1) *Application.* The application must contain the following information:

(i) Your name and address and the name and address of the unit;

(ii) The date of the opening of the unit;

(iii) A statement that you will regularly be buying used or imperfect articles (or taking them in as trade-ins) for the purpose of reconditioning them and selling them as reconditioned or repaired.

(2) *Authorization.* Upon application made pursuant to paragraph (1) the OPS may, by order, authorize you to determine a ceiling price for such articles by applying category markups to the sum of the net cost of the articles plus the actual net cost of reconditioning or repairing them. The category markups authorized will be in line with those of the three sellers whose operations are most nearly like yours. In no case will you be authorized to use as the actual net cost of reconditioning or repairing an article an amount greater than the cost required to restore the article to factory standard.

(g) *Sellers who filed reports or received orders under Section 39 prior to December 29, 1952.* If you are a seller who prior to December 29, 1952, filed a report or obtained an order under Section 39 which order or report authorizes you to use lower markups than you could receive by application filed under the present regulation, you may secure a revised order by following the provisions of this paragraph. You must file with your OPS office an application under the paragraph of this section 39 which would have been applicable had it been in the regulation when you filed your original report or application and you must plainly indicate at the beginning of the application that you are filing pursuant to the provisions of this section by labelling your application "Re-Application—Section 39 (g)" and note thereafter the date of your prior order and the name and address of the OPS office which issued it.

2. Section 59 is amended by inserting the following definition between the definition for "Records" and "Sale at retail":

"Resort area." A resort area is one in which, during the same limited period of each year (no less than two months nor more than five months) the bulk of the income of the area is usually realized; the population is increased two or more fold; the volume of sales is far greater and non-commercial rents are customarily much higher than in other periods of the year. The area must be one generally recognized as a vacation or resort area by the public.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective December 29, 1952.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Ceiling Price Regulation 7, Amdt. 25]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

TRANSFERS TO CERTAIN CHAINS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to Ceiling Price Regulation 7 is hereby issued.

STATEMENT OF CONSIDERATIONS

Under section 42 of Ceiling Price Regulation 7 a person who purchases or otherwise acquires a substantial part of the business, assets or stock in trade of any business selling CPR 7 articles is required to use the ceiling prices of the transferor for articles for which ceiling prices are determined under CPR 7.

Chains which determine prices centrally and uniformly have encountered considerable administrative difficulty because of this requirement. This amendment relieves them of the requirement and permits them to use the same ceiling prices as they have already established for their existing units. Central and uniform pricing by chains provides in general a method of operation which if extended can further the objectives of stabilization as well as keep down the costs of distribution.

This amendment permits chains determining prices uniformly and centrally to treat a unit acquired by transfer as if it were a new unit being opened by the chain.

Although in some cases the markups of the chain may exceed those of the transferor, the general level of prices would not be affected by the amendment.

This amendment also permits a seller with a single CPR 7 unit who acquires by transfer a business to extend his pricing method to the transferred unit and thereby to create a central and uniform pricing chain.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 7 is hereby amended in the following respects:

1. Section 42 is amended by inserting after the heading "Transfer of business" the following:

(a) *Transfers to a central and uniform pricing chain or to a seller with a single unit who wishes to create such a chain.* If you are a chain which is a single seller under this regulation or a seller with a single unit and you purchase or otherwise acquire another unit in which you wish to determine prices centrally and uniformly with the existing chain or unit, you must use section 39 (b), treating the transferred unit as a new unit.

2. Section 42 is further amended by substituting the following: "(b) *How other transferees fix their ceiling prices*" for the phrase *"How a transferee fixes his ceiling prices."*

3. Section 42 is further amended by substituting the paragraph designations "(c)" for "(b)" and "(d)" for "(c)" respectively and by substituting the reference "(d)" for "(c)" in the second sentence of subparagraph (a) (3).

Effective date. **This amendment is effective December 29, 1952.**

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Ceiling Price Regulation 161, Amdt. 3]

CPR 161—CONSUMER DURABLE GOODS REGULATION

REPORTS BY SMALL MANUFACTURERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to Ceiling Price Regulation 161 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to CPR 161 shifts the place of filing reports on new commodities from Washington to the nearest district office for all manufacturers whose gross sales in their last fiscal year did not exceed $1,000,000 and all new manufacturers who do not expect their gross sales to exceed $1,000,000 during their first year.

Before this amendment, only manufacturers whose gross sales in their last fiscal year did not exceed $250,000 filed their reports in the nearest district office. It has now become administratively feasible to enlarge the number of applications which may be processed in the district offices rather than in Washington. The district offices, located in or near virtually all manufacturing centers, can offer small manufacturers more direct help than can be offered by the national office. Difficulties can be more quickly straightened out by personal interviews and by telephone and will not require correspondence with Washington. Furthermore, the workload will be more evenly distributed within OPS, resulting in speedier action.

In view of the limited nature of this amendment special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Sections 3, 4, 5 and 6 of Ceiling Price Regulation 161 are hereby amended by substituting the figure "$1,000,000" for the figure "$250,000" wherever it appears.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective December 29, 1952.

JOSEPH H. FREEHILL,
Director of Price Stabilization.

Chapter VI—National Production Authority, Department of Commerce

[CMP Regulation No. 1, Direction 18 as Amended Dec. 24, 1952]

CMP Reg. 1—Basic Rules of the Controlled Materials Plan

DIR. 18—AUTOMATIC ALLOTMENT PROCEDURE FOR PRODUCERS OF CLASS B PRODUCTS

This direction as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

EXPLANATORY

This amendment affects Direction 18, as last amended October 29, 1952, to CMP Regulation No. 1 by amending section 3 (c) thereof.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Definitions.
3. Persons affected by automatic allotment procedure.
4. Use of allotment symbol to obtain controlled materials.
5. Use of rating to obtain production materials other than controlled materials.

Authority: Sections 1 to 6 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

Section 1. *What this direction does.* This direction relates only to producers of Class B products who received allotments pursuant to applications submitted on Form CMP–4B for the third calendar quarter of 1952. Such producers may calculate their own allotments and place purchase orders for delivery in any calendar quarter, beginning with the first calendar quarter of 1953, only if their allotments for the third quarter of 1952 did not exceed certain maximum amounts. A producer of a Class B product who received an allotment for such product pursuant to Form CMP–4B for the third quarter of 1952 which did not exceed such maximum amounts, but who desires quantities of controlled materials commencing with the first quarter of 1953 which exceed the automatic allotment quantities as calculated under this direction, must submit an application on Form CMP–4B. The provisions of Direction 1 to CMP Regulation No. 1 may be used only through the fourth quarter of 1952.

Sec. 2. *Definitions.* As used in this direction:

(a) "Product class" means a Product Class Code as shown in the Official CMP Class B Product List.

(b) "Total third-quarter allotment" means the total net allotments of a particular kind of controlled material (carbon steel, alloy steel, nickel-bearing stainless steel, all copper or aluminum) received by a producer of a Class B product for a particular product class for the third calendar quarter of 1952 pursuant to an allotment on Form CMP–4B or Form CMP–10, plus any quantity of such kind of controlled material for which such producer was entitled to self-authorize pursuant to Direction 1 to CMP Regulation No. 1 for the third calendar quarter of 1952 in such product class. Total net allotments shall be computed as of the close of business on August 29, 1952. In making such computation, the producer shall deduct any allotment decrease which he has received on Form CMP–11 and any portion of his third-quarter allotments which he has returned on Form CMP–12.

Sec. 3. *Persons affected by automatic allotment procedure.* (a) Subject to the limitations of paragraphs (b) and (c) of this section, a producer of any Class B product which is listed in the Official CMP Class B Product List may, without submitting an application on Form CMP–4B, calculate his own allotments and place purchase orders calling for delivery in any calendar quarter, beginning with the first calendar quarter of 1953, if his total third-quarter allotment of each kind of controlled material (including controlled material for Class A product components) for the production of that product and all other products in the same product class did not exceed the amounts specified below:

Carbon steel (including wrought iron).	500 tons.
Alloy steel (except nickel-bearing stainless steel).	90 tons.
Nickel-bearing stainless steel.	10,000 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.	40,000 pounds.
Aluminum	60,000 pounds.

Provided, however, That no such producer, unless specifically authorized by NPA, shall avail himself of the automatic allotment procedure provided by this direction if he has not received an allotment pursuant to application submitted on Form CMP–4B for the third calendar quarter of 1952, or if his total third-quarter allotment of any kind of controlled material exceeded the above amounts, for the manufacture of the same product and all other products in the same product class. Instead, a producer who has not received such third-quarter allotment, or whose total third-quarter allotment of any kind of controlled material exceeded the above amounts, shall obtain his controlled material requirements beginning with the first calendar quarter of 1953 either pursuant to Direction 17 to CMP Regulation No. 1 or pursuant to application submitted on Form CMP–4B, whichever is appropriate.

(b) Subject to the limitations of paragraph (a) of this section, a producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section, shall calculate as his allotment authority for the first calendar quarter of 1953 a quantity of each of the following kinds of controlled material equal to the specified percentage or percentages of his total third-quarter allotment of such material for the manufacture of the same product and all other products in the same product class:

Kinds of controlled material	Calculation of allotments on basis of total third quarter 1952 allotments
Carbon steel (including wrought iron).	100 percent of first 60 tons of total third quarter 1952 allotment, plus 60 percent of any excess between 60 tons and 500 tons.
Alloy steel (except nickel-bearing stainless steel).	100 percent of first 16 tons of total third quarter 1952 allotment, plus 80 percent of any excess between 16 tons and 90 tons.
Nickel-bearing stainless steel.	100 percent of first 500 pounds of total third quarter 1952 allotment, plus 80 percent of any excess between 500 pounds and 10,000 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.	100 percent of total third quarter 1952 allotment if it did not exceed 40,000 pounds.
Aluminum	100 percent of total third quarter 1952 allotment if it did not exceed 60,000 pounds.

(c) Subject to the limitations of paragraph (a) of this section, a producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section, shall calculate as his allotment authority for the second calendar quarter of 1953 and for each succeeding calendar quarter a quantity of each of the following kinds of controlled material equal to the specified percentage of his total third-quarter allotment of such material for the manufacture of the same product and all other products in the same product class:

Kinds of controlled material	Calculation of allotments on basis of total third quarter 1952 allotments
Carbon steel (including wrought iron).	110 percent of total third quarter 1952 allotment if it did not exceed 500 tons.
Alloy steel (except nickel-bearing stainless steel).	110 percent of total third quarter 1952 allotment if it did not exceed 90 tons.
Nickel-bearing stainless steel.	100 percent of total third quarter 1952 allotment if it did not exceed 10,000 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.	100 percent of total third quarter 1952 allotment if it did not exceed 40,000 pounds.
Aluminum	100 percent of total third quarter 1952 allotment if it did not exceed 60,000 pounds.

(d) Notwithstanding the provisions of paragraphs (b) or (c) of this section, a producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section need not during any calendar quarter reduce his allotment authority below the specified quantity of each of the following kinds of controlled material for the manufacture of the same product and all other products in the same product class:

Carbon steel (including wrought iron).	25 tons.
Alloy steel (except nickel-bearing stainless steel).	1 ton.
Nickel-bearing stainless steel.	500 pounds.
Copper and copper-base alloy brass mill products, copper wire mill products, copper and copper-base alloy foundry products and powder.	10,000 pounds.
Aluminum	20,000 pounds.

(e) A producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section, but who has already received allotments for the first or a succeeding calendar quarter of 1953 pursuant to application or applications previously submitted on Form CMP–4B for such Class B product and others in the same product class, and has placed orders for controlled materials pursuant to such allotments, must deduct the quantity of orders so placed from the quantity of his calculated allotment under this section for such quarter.

(f) A producer of any Class B product who may and desires to avail himself of the automatic allotment procedure under this section but who has already received allotments for the first or a succeeding calendar quarter of 1953 pursuant to application or applications previously submitted on Form CMP–4B for such Class B product and others in the same product class, which exceed his automatic allotment authority as calculated under this section with respect to any kind of controlled material, need not return such excess allotments, but his allotment authority shall be limited to the amounts calculated under this section for such quarter.

(g) A producer of any Class B product who need not submit an application on Form CMP–4B pursuant to this direction shall be subject to all applicable regulations and orders of NPA. For example, he shall make allotments of controlled material to a person producing Class A product components for him in the manner prescribed by CMP Regulation No. 1.

(h) Class A products which a producer has been authorized by NPA to treat as Class B products in accordance with section 24 (b) of CMP Regulation No. 1, and Class A products which are sold to a distributor or for use as maintenance, repair, or operating supplies in accordance with paragraph (b) or (c) of section 15 of CMP Regulation No. 1, shall be deemed Class B products for purposes of this direction. A producer may calculate his own allotments and place purchase orders without filing a Form CMP–4B for any calendar quarter, beginning with the first calendar quarter of 1953, in which his total requirements for delivery from suppliers of each kind of controlled material (including controlled material for Class A product components) for the production of all Class A products which are deemed Class B products for purposes of this direction do not exceed the quantities indicated in this section.

(i) Except as otherwise provided by NPA, a producer of a Class B product must obtain his requirements of all kinds of controlled materials in a particular calendar quarter for a particular product class pursuant to this direction or pursuant to Direction 17 to CMP Regulation No. 1 or pursuant to application submitted on Form CMP–4B, and may not use the automatic allotment procedure of this direction or the self-authorization procedure of Direction 17 for one or more kinds of controlled materials and submit a Form CMP–4B for one or more other kinds of controlled materials.

Sec. 4. *Use of allotment symbol to obtain controlled materials.* Any producer of Class B products who, pursuant to this direction, may calculate his own allotments and place purchase orders without filing a Form CMP–4B, is authorized to use the allotment symbol which identifies the allotment he has received for the same products pursuant to application submitted on Form CMP–4B for the third calendar quarter of 1952 (and not the allotment symbol SU), or such other allotment symbol as NPA may expressly authorize, on delivery orders for controlled materials within the limits set forth in section 3 of this direction. He may also append the suffix program identification B–5 to such allotment symbol in accordance with the provisions of section 11 (d) of CMP Regulation No. 1. An order so designated, when certified as provided in section 6 of this direction, shall constitute an authorized controlled material order. The quantity of such Class B products which may be produced with controlled materials obtained with the use of such allotment symbol, or with such other allotment symbol as NPA may expressly authorize, plus controlled materials properly contained in inventory, shall constitute an authorized production schedule for the purpose of all CMP regulations.

Sec. 5. *Use of rating to obtain production materials other than controlled materials.* Any producer of Class B products who, pursuant to this direction, may calculate his own allotments and place purchase orders without filing a Form CMP–4B, is authorized to use the DO rating which accompanies the allotment he has received for the same products pursuant to application submitted on Form CMP–4B for the third calendar quarter of 1952 (and not the rating DO–SU), or such other rating as NPA may expressly authorize, on delivery orders for production materials as defined in CMP Regulation No. 3 in accordance with the provisions of that regulation. He may also append the suffix program identification B–5 to such rating in accordance with the provisions of section 6 (f) of CMP Regulation No. 3.

Sec. 6. *Certification.* Every delivery order placed under the provisions hereof shall contain, in the case of an order for controlled materials, the certification required by section 19 of CMP Regulation No. 1, or, in the case of an order for production materials other than controlled materials, the certification required by section 6 of CMP Regulation No. 3.

This amended direction shall take effect December 24, 1952.

CMP Reg. 1—Basic Rules of the Controlled Materials Plan

AMENDMENT OF SCHEDULE I

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, there has been consultation with industry representatives and consideration has been given to their recommendations. However, consultation with representatives of all industries affected has been rendered impracticable because the amendment affects many different industries.

AMENDATORY PROVISIONS

This amendment affects CMP Regulation No. 1, as last amended November 18, 1952, as follows:

A new footnote reference numbered "17" shall be inserted after the subheading "(b) Sheet, strip (uncoated and coated)" which appears under the heading "CARBON STEEL (INCLUDING WROUGHT IRON)" in Schedule I to CMP Regulation No. 1, and a new footnote numbered "17" shall be added to such schedule to read as follows:

"17 Secondary tin mill products are not controlled materials, nor are they Class A or Class B products. For the purposes of this schedule, the term "secondary tin mill products" includes any one or more of the following listed products, but no others: Mill accumulation plate, unassorted temper tin plate, unmended menders, waste-waste, and other coated secondaries, each as defined in NPA Order M–24 as amended September 12, 1952; and black plate rejects, black plate wasters, and black plate waste-waste, each as defined in NPA Order M–25 as amended October 2, 1952.

(64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This amendment shall take effect December 24, 1952.

AMENDMENT OF TABLE III

This amendment to Revised CMP Regulation No. 6 is found necessary and appropriate to promote the national de-

fense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, there has been consultation with industry representatives and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

This amendment affects Revised CMP Regulation No. 6, as last amended by Amendment 1 of November 28, 1952, as follows:

A new footnote reference numbered "17" shall be inserted after the subheading "(b) Sheet, strip (uncoated and coated)" which appears under the heading "CARBON STEEL (INCLUDING WROUGHT IRON)" in Table III to Revised CMP Regulation No. 6, and a new footnote numbered "17" shall be added to such table to read as follows:

[17] Secondary tin mill products are not controlled materials, nor are they Class A or Class B products. For the purposes of this schedule, the term "secondary tin mill products" includes any one or more of the following listed products, but no others: Mill accumulation plate, unassorted temper tin plate, unmended menders, waste-waste, and other coated secondaries, each as defined in NPA Order M-24 as amended September 12, 1952; and black plate rejects, black plate wasters, and black plate waste-waste, each as defined in NPA Order M-25 as amended October 2, 1952.

SECONDARY TIN MILL PRODUCTS—DELETION OF ARMOR CASTINGS REPORT REQUIREMENT

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, there has been consultation with industry representatives and consideration has been given to their recommendations. However, consultation with representatives of all industries affected has been rendered impracticable because the amendment affects many different industries.

AMENDATORY PROVISIONS

This amendment affects NPA Order M-1 as last amended by Amendment 2 of October 23, 1952, as follows:

1. Paragraphs (j) through (s) of section 2 are redesignated as paragraphs (k) through (t), respectively.

2. A new paragraph designated (j), reading as follows, is added to section 2:

(j) "Secondary tin mill products" includes any one or more of the following listed products, but no others: Mill accumulation plate, unassorted temper tin plate, unmended menders, waste-waste, and other coated secondaries, each as defined in NPA Order M-24 as amended September 12, 1952; and black plate rejects, black plate wasters, and black plate waste-waste, each as defined in NPA Order M-25 as amended October 2, 1952.

3. Paragraph (b) of section 7 is deleted and the reference "(a)" appearing in the first paragraph of section 7 is also deleted, so that section 7 as hereby amended now reads as follows:

SEC. 7. *Steel castings.* Not later than the tenth day of each calendar month, each producer of steel castings is hereby required to file with NPA a report on Form NPAF-118 in the manner prescribed in that form.

4. A new footnote reference number "19," is inserted in Table I of the order and made applicable to the heading "Carbon" under column B of said table, and a new footnote numbered "19" is added to such table to read as follows:

[19] Does not include secondary tin mill products.

5. A new item is added in Part A–II of Table I under the heading "Other Steel Mill Products," reading as follows:

Secondary tin mill products.

O. 10281, Aug. 28, 1951, 16 F. R. 8789, 3 CFR, 1951 Supp.

SECTION 1. *What this regulation does.* The purpose of this regulation is to prevent the accumulation of excessive inventories of materials in short supply. It does this by limiting the quantities of such materials that can be ordered, received, or delivered.

SEC. 2. *Definitions.* As used in this regulation:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government.

(b) "Practicable minimum working inventory" means the smallest quantity of material from which a person can reasonably meet his deliveries or supply his services on the basis of his currently scheduled method and rate of operation. In the absence of unusual circumstances, a person's inventory will be considered more than a practicable minimum working inventory if the ratio of his inventory to his currently scheduled operations is substantially greater than the ratio which he normally maintained between his inventory and his operations during any reasonably representative period in the 6 months ending June 30, 1950.

SEC. 3. *Materials affected.* This regulation applies only (a) to those materials listed in Table IA or Table IB (as amended from time to time) appearing at the end of this regulation, in the shapes and forms therein specified, or if no particular shape or form of any such material is specified, then in all shapes and forms of such material, and (b) to such other materials as may be made subject to it by any other NPA regulation or order.

SEC. 4. *Persons affected.* This regulation applies to all persons buying for use or resale, including resale in export trade, except an ultimate consumer with respect to the buying of materials for his personal or household use.

SEC. 5. *Restrictions on receipts.* (a) Except as provided in paragraph (b) of this section, no person may receive or accept delivery of any material listed in Table IA of this regulation, if his inventory of such material is, or by reason of such receipt would become, more than a practicable minimum working inventory.

(b) No person buying for use in production or construction or for use as maintenance, repair, or operating supplies, may receive or accept delivery of any material listed in Table IB of this regulation, if his inventory of such material is, or by reason of such receipt would become, more than a practicable minimum working inventory, or more than the smallest quantity thereof reasonably required to meet his deliveries or supply his services on the basis of his currently scheduled method and rate of operation during the next succeeding number of calendar days listed for that material in column 2 of Table IB, whichever is less.

(c) In figuring his inventory a person must include all such material referred to in paragraphs (a) and (b) of this section, in his possession or held for his account by others, but not that held by him for the account of others. For the purpose of the restrictions in paragraphs (a) and (b) of this section, a material which is to be further processed is considered to be in inventory until actually put into process or actually installed or assembled. For the purpose of this regulation, processing does not include minor initial operations, such as painting, and does not include any shearing, cutting, trimming, or other operation, unless such initial operation is a part of a continuous fabricating or assembling operation; nor does it include operations such as inspection, testing, and aging, or segregation or earmarking for a specific job.

(d) Any person engaged in a seasonal business or industry who normally stocks inventory in advance of the season may, notwithstanding the restrictions in paragraphs (a) and (b) of this section, accept such advance delivery of his seasonal requirements provided that the deliveries accepted are no greater and no further in advance than those which he would normally accept in the ordinary course of his business to meet reasonably anticipated seasonal requirements.

SEC. 6. *Restriction on deliveries.* No person may deliver any material if he knows, or has reason to believe, that the person requesting delivery is forbidden to receive it by this regulation.

SEC. 7. *Restrictions on ordering.* (a) No person may place any order calling for delivery of any material earlier, or in larger amounts, than he would be permitted to receive under this regulation.

(b) No person may place separate orders with the same supplier, or with different suppliers, calling for delivery in the aggregate of any material in excess of the amount he is permitted to receive under this regulation even though he intends to cancel one or more of the orders before delivery.

SEC. 8. *Adjustment of orders.* (a) A person who, prior to the effective date of any amendment to this regulation, has placed any order for a material calling for delivery earlier, or in greater quantities, than he is permitted to receive under this regulation must promptly cancel, reduce, or defer delivery under, every such order to the extent necessary so that delivery will not result in his exceeding his practicable minimum working inventory of such material. Nothing in this section shall affect any obligation of, or liability incurred by, a person under this regulation prior to the effective date of any amendment of this regulation.

(b) A person whose requirements change because of an alteration in his operations, slowing or stoppage of his production, or delayed delivery by suppliers, or for any other reason, must promptly cancel, reduce, or defer delivery under, his outstanding orders to the extent necessary so that delivery will not result in his exceeding his practicable minimum working inventory.

SEC. 9. *Receipts permitted after adjustment of orders.* Where a person has promptly adjusted his outstanding orders as required by section 8 of this regulation, delivery of the material involved may be made and accepted, and the restrictions on receipts of materials provided in this regulation may be exceeded, in any of the following cases only:

(a) If the supplier has shipped the material or loaded it for shipment before receipt of the instruction to adjust the order.

(b) If the material is a special item which, before receipt of the instruction to adjust the order, the supplier had in stock, or in production, or for the production of which he had acquired special components or special materials. For the purpose of this section a "special item" is one which the supplier does not usually make, stock, or sell, and which cannot readily be disposed of to others.

(c) If the material had already been produced or was in production before receipt of the instruction to adjust the order and cannot be used to fill other orders on the producer's books.

SEC. 10. *Imported materials.* A person may import any material acquired prior to landing without regard to the inventory restrictions of this regulation. However, if his inventory of a material thereby becomes in excess of the amount permitted, he may not receive further deliveries of it from domestic sources until his inventory is reduced to permitted levels. The inventory restrictions of this regulation do apply to any deliveries of the imported material he makes, and to the amount of it that any person accepting delivery from him is permitted to receive.

SEC. 11. *Minimum production or sales quantities.* In the case of materials that are mass produced or are normally marketed only in minimum sales quantities, a person may order and receive from a producer a minimum production run of such a material, or from any other supplier a minimum sales quantity, provided it is not practicable for him to procure his needs from other suppliers in smaller quantities, even though his inventory of such material is thereby increased beyond a practicable minimum working inventory. He may not thereafter receive additional quantities of such material until his inventory thereof is reduced below a practicable minimum working inventory.

SEC. 12. *Excess inventory.* This regulation does not provide for disposal of excess inventory which may be on hand. Excess inventory may, however, be subject to requisition under certain circumstances, as provided in section 201 (a) of Title II of the Defense Producton Act of 1950, as amended.

SEC. 13. *Separate operating units.* A person who has or may hereafter have more than one operating unit in his business may elect on or after July 23, 1952, to maintain separate inventory records for any of such units. After such an election has been made it may not at any time thereafter be changed without the prior written approval of NPA. The provisions of this regulation shall apply independently to any unit for which separate inventory records are maintained pursuant to this section.

SEC. 14. *Relation to other NPA regulations and orders.* Other or additional inventory restrictions are included in certain NPA orders and other regulations presently in effect, and may be included in NPA orders and other regulations issued in the future. The inventory restrictions of any such order or other regulation shall govern to the extent that they modify this regulation. Table II at the end of this regulation includes a list of materials with respect to which quantitative inventory restrictions are provided in the orders and other regulations listed in that table, in effect on the date specified in that table. Even if an NPA order or other regulation containing inventory restrictions is not listed in Table II, a person must nevertheless comply with such restrictions. Upon revocation in any manner of the inventory restrictions of an order or regulation listed in Table II, covering a material listed in Table IA or Table IB of this regulation, all provisions of this regulation shall apply to such material.

SEC. 15. *Defense against claims for damages.* Persons complying with this regulation are entitled to the protection afforded by section 707 of the Defense Production Act of 1950, as amended, which provides in part that "No person shall be held liable for damages or penalties for any act or failure to act resulting directly or indirectly from his compliance with a rule, regulation, or order issued pursuant to this act, notwithstanding that any such rule, regulation, or order shall thereafter be declared by judicial or other competent authority to be invalid."

SEC. 16 *Request for adjustment or exception.* Any person affected by any provision of this regulation may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him

not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this regulation, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 17. *Records and reports.* (a) Each person participating in any transaction covered by this regulation shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this regulation. This regulation does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this regulation shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this regulation shall make such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 18. *Communications.* All communications concerning this regulation shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Reg. 1.

SEC. 19. *Violations.* Any person who wilfully violates any provision of this regulation, or any other regulation or order of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this regulation, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

NPA Reg. 1, as amended, shall take effect December 24, 1952.

Executive Secretary.

TABLE IA OF NPA REG. 1

(As amended December 24, 1952)

MATERIALS SUBJECT TO PRACTICABLE MINIMUM WORKING INVENTORY LIMITATION

(See section 5 (a))

CHEMICALS

Acetylene.
Alkyl and aromatic substituted phenolic resins.
Alkyl polysulfide polymers (Thiokol-polymers, trade name).
Alpha picoline.
Argon.
Butadiene.
Calcium carbide.
Cobalt salts and driers.
Cyclohexanol.
Freon 22.
Lithium chemicals.
Lithium metal.
Nickel chemicals.
Oxygen.
Paraphenylphenol.
Paratertiary butyl phenol.
Pyrethrum.
Pyridine.
Selenium compounds (as defined in NPA Order M-91).
Toluene.

FOREST PRODUCTS

Lumber as specified below (excluding inventories of producers or distributors, but including inventories of users).
Cedar: Port Orford.
Cypress.
Douglas fir, thick clears.
Eucalyptus: Ironbark.
Lignum vitae.
Teak.
Plywood, softwood AA grade, all thicknesses, exterior and interior; ½ inch, all grades, exterior (excluding inventories of producers or distributors but including inventories of users).

IRON AND STEEL

Pig iron.
Steel:
Forgings (rough as forged).
Iron and steel scrap.
Non-nickel-bearing stainless (i. e., containing less than 1 percent nickel).

METALS AND MINERALS

Aluminum scrap.
Asbestos, amosite.
Asbestos, chrysotile, spinning fibers.
Asbestos, Bolivian crocidolite.
Beryllium: Metal, oxides, master alloys, and compounds.
Chromium:
Chrome metal.
Ferro-chrome.
Cobalt: Cobalt metal, oxides, and hydrides.
Columbium: Pure metal and chemicals, ferro-columbium, ferro-columbium-tantalum (ferro-tantalum-columbium).
Copper:
Refined copper (fire-refined and electrolytic).
All copper and copper-base alloy scrap containing commercially recoverable copper.
All other copper raw materials—blister copper, copper-base alloy ingot, copper and copper-base alloy shot and waffle, brass mill castings, copper precipitates, and intermediate shapes as defined in NPA Order M-16.
Cryolite.
Diamonds, industrial.
Fluorspar, acid grade.
Magnesium:
Magnesium, primary and secondary ingots.
Semifabricated shapes.
All magnesium-base alloy scrap containing commercially recoverable magnesium.
Manganese: Manganese metal and ferro-manganese.
Mica, muscovite block and film, good stained and better.
Molybdenum:
Pure metal, powder, wire, rod, sheet.
Ferro-molybdenum, molybdenum oxide and molybdenum compounds.
Nickel:
Nickel, alloyed or unalloyed.
Imported nickel matte.
Nickel and nickel alloy, metal (cathode nickel, pigs, shot, and other primary forms).
Nickel and nickel alloy, secondary.
Nickel and nickel alloy, semifinished; bars, rods, tubes, sheet bar, ingot, blooms, billets, sheet strip, and similar mill products not further manufactured.
All nickel and nickel-base alloy scrap and nickel silver scrap containing commercially recoverable nickel.
Platinum.
Scrap, ferrous and nonferrous (except antimony, bismuth, cadmium, lead, and zinc scrap).
Selenium and selenium alloys.
Tantalum:
Pure metal and chemicals.
Ferrotantalum-columbium.
Tin:
Pig tin, primary or secondary.
All other materials and alloys containing 1.5 percent or more tin.
Titanium:
Sponge.
Semifabricated shapes.
Sheets, tubes, extrusions.
Titanium-bearing alloys.
Titanium-base alloy scrap.
Tungsten: Pure metal, powder, wire, rod, sheet, chemical compounds, ferrotungsten.
Vanadium: Ferrovanadium, vanadium oxide, ammonium meta-vanadate, and other vanadium-bearing products.
Zirconium: Zirconium metal, ferro-aluminum-zirconiumsilicon alloys, and all other metallic compositions used as sources of zirconium in the manufacture of any alloy products.

RUBBER MATERIALS

Natural rubber, dry.

TEXTILE MATERIALS

Silk, noils and waste.

MISCELLANEOUS

Bristles, pigs' and hogs'.

CONTAINERS AND PACKAGING MATERIALS

Collapsible tubes.
Metal cans.
Packaging closures made in whole or in part of controlled materials.[1]

[NPA Designation of Scarce Materials 1, as Amended December 24, 1952]

DSM-1—DESIGNATION OF SCARCE MATERIALS AND WITHDRAWAL OF PREVIOUS DESIGNATION

This amended designation is issued pursuant to section 102 of the Defense Production Act of 1950, as amended; Executive Orders 10161, 10200, and 10281; and Defense Production Administration Delegation 1, as amended (16 F. R. 738, 4594).

Designation of Scarce Materials 1, as last amended September 9, 1952, is amended by deleting certain items from the designation of scarce materials contained in List A; by listing in List B of this amended designation such deleted items withdrawn from their previous designation as scarce materials; and by revising section 8 to reflect such withdrawal.

Sec.
1. Purpose of this designation.
2. Definition of person.
3. Designation of scarce materials.
4. Receipts of imported materials.
5. Receipts of minimum production or sales quantities.
6. Receipts of materials after adjustment of orders.
7. Applicability of other provisions of law, regulation, and orders.
8. Withdrawal of designation of scarce materials.

AUTHORITY: Sections 1 to 8 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 102, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2072; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *Purpose of this designation.* Section 102 of the Defense Production Act of 1950, as amended, provides in part that, in order to prevent hoarding, no person shall accumulate (a) in excess of the reasonable demands of business, personal, or home consumption, or (b) for the purpose of resale at prices in excess of prevailing market prices, materials which have been designated as scarce materials or materials the supply of which would be threatened by such accumulation. This designation lists certain materials as scarce materials. It also prescribes in sections 4, 5, and 6, certain conditions under which a person may accumulate such materials in excess of the reasonable demands of business, personal, or home consumption. In addition it lists other materials which are withdrawn from their previous designation as scarce.

SEC. 2. *Definition of person.* As used in this designation, the word "person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

SEC. 3. *Designation of scarce materials.* Each material included in List A of this designation, in the shapes and forms therein described, or in all shapes and forms if no particular shape or form is therein described, is hereby designated, pursuant to section 102 of the Defense Production Act of 1950, as amended, a scarce material. Whenever "material" or "materials" is hereinafter used, it means any such designated material or materials.

SEC. 4. *Receipts of imported materials.* (a) Notwithstanding any provision of this designation, a person may import by land, sea, or air any material acquired by him prior to landing without regard to the reasonable demands of his business, personal, or home consumption. However, if his total quantity of a material accumulated thereby becomes in excess of the reasonable demands of his business, personal, or home consumption, he may not receive any additional amount of such material from any domestic source until his total quantity thereof has been reduced below an amount which is not in excess of the reasonable demands of his business, personal, or home consumption.

(b) Within the meaning of paragraph (a) of this section, importation by a person is not limited to the person who takes title to the material prior to landing or who pays the customs entry thereon, but includes a person who, prior to landing, purchases or contracts to purchase the material from or through an importing broker, wholesaler, or other importer, even though such broker, wholesaler, or other importer makes the customs entry in his own name, places the material on board the inland carrier for shipment to his customer, and retains title until such shipment is made. Within the meaning of paragraph (a) of this section, a material is not imported by a person who acquires such material from an importing broker, wholesaler, or other importer who took such material into his own stock or inventory.

SEC. 5. *Receipts of minimum production or sales quantities.* Notwithstanding any provision of this designation, in the case of materials that are mass-produced or are normally marketed only in minimum sales quantities, a person may order and receive from a producer a minimum production run of such material, or from any other supplier, a minimum sales quantity, provided it is not practicable for him to procure his needs from other suppliers in smaller quantities, even though his accumulation of such material thereby becomes in excess of the reasonable demands of his business, personal, or home consumption. After such receipt, however, he may not receive any additional amount of such material until his accumulation thereof has been reduced below an amount which is not in excess of the reasonable demands of his business, personal, or home consumption.

SEC. 6. *Receipts of materials after adjustment of orders.* Notwithstanding any provision of this designation, a person who has promptly instructed the supplier to reduce or defer delivery of a material under an order for such material previously placed by him with the

accordance with the Federal Reports Act of 1942.

Diamonds, industrial.
Fluorspar, acid grade.

of the particular size or type is less than practicable minimum working inventory.

supplier, to the extent necessary so that his accumulation of such material will not be in excess of the reasonable demands of his business, personal, or home consumption, may accept delivery of the material involved in any of the following cases only:

(a) If the supplier has shipped the material or loaded it for shipment before receipt of the instruction to adjust the order.

(b) If the material is a special item which, before receipt of the instruction to adjust the order, the supplier has in stock or in production, or for the production of which he has acquired special components or special materials. For the purpose of this section a "special item" is one which the supplier does not usually make, stock, or sell, and cannot readily dispose of to others.

(c) If the material has already been produced or was in production before receipt of the instruction to adjust the order and cannot be used to fill other orders on the books of the producer.

SEC. 7. *Applicability of other provisions of law, regulations, and orders.* Nothing in sections 4, 5, and 6 of this designation shall be deemed to modify in any respect, or relieve any person from complying with, any applicable regulation, order, or other provision of law.

SEC. 8. *Withdrawal of designation of scarce materials.* The materials included in List B of this designation, as amended, all of which were designated as scarce materials in List A of NPA Designation of Scarce Materials 1 as amended September 9, 1952, are hereby withdrawn from such designation.

Designation of Scarce Materials 1, as amended, shall take effect December 24, 1952.

Plywood, softwood AA grade, all thicknesses, exterior and interior; ½ inch, all grades, exterior.

IRON AND STEEL

Iron:
Pig iron.
Steel (carbon, including low alloy, high strength alloy, and stainless): Ingots and semifinished steel, including skelp; steel castings, rough and semifinished; structural shapes and piling; plates; rails and track accessories; wheels and axles; bars, hot-rolled, including light shapes and reinforcing; cold-finished bars; pipe; tubing; wire, wire rods, and drawn wire products; tin plate, terneplate, and tin mill black plate; hot-rolled sheet and strip; cold-rolled sheet and strip; other mill shapes and forms.
Forgings, rough as forged.
Non-nickel-bearing stainless (i. e., containing less than 1 percent nickel).
Iron and steel scrap.

METALS AND MINERALS

Aluminum:
Primary and secondary in crude form.
Semifabricated shapes, castings (including die); forgings, plate, sheet and strip; rolled structural shapes, rod, bar, and wire; extruded shapes, tube blooms, and tubing.
All aluminum and aluminum-base scrap containing commercially recoverable aluminum.
Aluminum castings (before machining).
Aluminum forgings, pressings, and impact extrusions (before machining).
Asbestos, amosite.
Asbestos, chrysotile, spinning fibers.
Asbestos, Bolivian crocidolite.
Beryllium: Metal oxides, master alloys, and compounds.
Chromium:
Chrome metal.
Ferro-chrome.
Cobalt: Cobalt metal, oxides, and hydrides.
Columbium: Pure metal and chemicals, ferro-columbium, ferro-columbium-tantalum (ferro-tantalum-columbium).
Copper:
Refined copper (fire-refined and electrolytic) including refinery shapes such as wire bars, slabs, cakes, billets, and ingots.
All other copper raw materials—blister copper, copper-base alloy ingot, copper and copper-base alloy shot and waffle, brass mill castings, copper precipitates, and intermediate shapes.
Copper and copper-base alloys: alloy plate, sheet, and strip; alloy rod, bar, and wire (including extruded shapes); alloy tube and pipe; unalloyed rod, bar, and wire (including extruded shapes); unalloyed plate, sheet, and strip; unalloyed tube and pipe; copper and copper-base alloy castings; copper powder mill products.
All copper and copper-base alloy scrap containing commercially recoverable copper.
Cryolite.
Diamond grinding wheels.
Diamonds, industrial.
Fluorspar, acid grade.
Magnesium:
Magnesium, primary and secondary ingots.
Semifabricated shapes.
All magnesium-base alloy scrap containing commercially recoverable magnesium.
Manganese: Manganese metal and ferro-manganese.
Mica, muscovite block and film, good stained and better.
Molybdenum:
Pure metal, powder, wire, rod, sheet.
Ferro-molybdenum, molybdenum oxide and molybdenum compounds.
Nickel:
Nickel, alloyed or unalloyed.
Imported nickel matte.
Nickel and nickel alloy, metal (cathode nickel, pigs, shot, and other primary forms).
Nickel—Continued
Nickel and nickel alloy, secondary.
Nickel and nickel alloy, semifinished; bars, rods, tubes, sheet bar, ingot, blooms, billets, sheet strip, and similar mill products not further manufactured.
All nickel and nickel-base alloy scrap and nickel silver scrap containing commercially recoverable nickel.
Platinum.
Scrap, ferrous and nonferrous (except antimony, bismuth, cadmium, lead and zinc scrap).
Selenium and selenium alloys.
Tantalum:
Pure metal and chemicals.
Ferrotantalum-columbium.
Tin:
Pig tin, primary or secondary.
All other materials and alloys containing 1.5 percent or more tin.

CHEMICALS

Bis-phenol.
Charcoal, granular.
Copper chemicals.
Methylene chloride.
Sulfur.

FOREST PRODUCTS

Pine: Southern, long leaf, upper grades.

IRON AND STEEL

Gray iron castings (excluding soil and pressure pipes and fittings), rough and semifinished.
Malleable iron castings, rough and semifinished.

METALS AND MINERALS

Aluminum foil.
Aluminum powder, flake and paste.
Asbestos, all crocidolite except Bolivian crocidolite.
Cerium:
Cerium metal, cerium alloys, such as ferro-cerium and cerium compounds in which cerium is a recognizable component.
All scrap and waste material containing commercially recoverable cerium of the above listed types.
Electrodes, carbon.
Fluorspar (ceramic grades only).
Graphite, artificial, electrodes and anodes.
Graphite, natural.
Crucible flake.
Ceylon lump, 97 percent and higher carbon.
Iridium.

TEXTILE MATERIALS

Nylon staple and nylon filament yarn.
Rayon yarn, high tenacity.
Twine, binder and baler.

MISCELLANEOUS

Components and parts for electric light bulbs and tubes.
Cylinders, gas.
New drums, steel, shipping.
Strapping metal.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular 1836]

PART 194—POTASSIUM PERMITS AND LEASES

LIMITATION ON HOLDINGS

Section 194.26 is hereby amended to read as follows:

§ 194.26 *Limitation on holdings.* (a) No person, association, or corporation will be granted, either directly, or indirectly, or by approval of assignments, in any one State, permits for an area which when added to the area already held under permits issued under the 1927 act exceeds in the aggregate 51,200 acres, and, except as hereinafter provided, leases for an area which when added to the area already held under leases issued under the 1927 act exceeds in the aggregate 15,360 acres.

(b) Any person, association, or corporation holding acreage approximating 15,360 acres of Federal land in a single mining unit and refining development, upon a showing that the leased deposits extend into adjoining Federal lands may, upon application to and approval of the Secretary, be granted a lease for an additional acreage of not to exceed 2,560 acres if the Secretary shall determine that such increase will result in conservation of natural resources and will provide for the most economical and efficient recovery as a single unit of a mineable deposit without waste.

(c) The Secretary may, upon a finding that the granting of such leases would be in the public interest, grant to any such lessee, leases for additional acreage not to exceed 10,240 acres in all as a separate mining unit, and may include in such additional leases a provision requiring the construction of additional refining facilities.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

[Ex Parte MC-40]

PART 193—PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

QUALIFICATIONS AND MAXIMUM HOURS OF SERVICE OF EMPLOYEES OF MOTOR CARRIERS AND SAFETY OF OPERATION AND EQUIPMENT

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 18th day of December A. D. 1952.

The matter of parts and accessories necessary for safe operation under the motor carrier safety regulations prescribed by order dated April 14, 1952, and effective July 1, 1952, being under consideration; and

It appearing, that further investigation has established facts which necessitate a postponement of the effective date of certain paragraphs of § 193.65 involving fuel tanks and containers; and good cause appearing therefor:

It is ordered, That § 193.65 (b), (e) (2) and (e) (3) be amended as follows:

1. In § 193.65 (b) substitute "June 30, 1953" where "December 31, 1952" now appears.

2. In § 193.65 (e) (2) substitute "June 30, 1953" in both instances where "December 31, 1952" now appears.

3. In § 193.65 (e) (3) substitute "June 30, 1953" in both instances where "December 31, 1952" now appears.

It is further ordered, That this order shall be effective on the date hereof and shall continue in effect until the further order of the Commission.

Notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy thereof with the Director, Division of the Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304)

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Parts 661, 662, 701, 704, 708]

PUERTO RICO: SPECIAL INDUSTRY COMMITTEE NO. 13

APPOINTMENT OF COMMITTEE TO INVESTIGATE CONDITIONS AND RECOMMEND MINIMUM WAGES FOR CERTAIN INDUSTRIES

1. Pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C., and Sup., 201 et seq.), I, Wm. R. McComb, Administrator of the Wage and Hour Division, United States Department of Labor, do hereby appoint and convene a special industry committee for Puerto Rico composed of the following representatives:

For the Public: Pedro Munoz-Amato, Rio Piedras, Puerto Rico; Willard Wirtz, San German, Puerto Rico. (Additional public member to be appointed.)

For the Employers: Ellsworth Green, Kansas City, Kansas; Enrique Campos del Toro, San Juan, Puerto Rico; Horatio Subira, San Juan, Puerto Rico.

For the Employees: Frank Fernback, Washington, D. C.; Armando Rivero, San Juan, Puerto Rico; Carlos J. Cintron, Ponce, Puerto Rico.

2. The special industry committee herein created, in accordance with the provisions of the Fair Labor Standards Act, as amended, and regulations promulgated thereunder (Title 29, Chapter V, Code of Federal Regulations, Part 511), shall meet beginning on January 27, 1953, at 10:00 a. m. in Room 412, New York Department Store Building, Stop 16½ Ponce de Leon Avenue, Santurce, San Juan, Puerto Rico, and shall proceed to investigate conditions in the industries in Puerto Rico hereinafter enumerated and recommend to the Administrator minimum wage rates for all employees in said industries in Puerto Rico, who within the meaning of said act are "engaged in commerce or in the production of goods for commerce" excepting employees exempted by virtue of the provisions of section 13 (a) and employees coming under the provisions of section 14. Minimum wage rates recommended by the committee shall be the highest rates (not in excess of 75 cents per hour) which it determines will not substantially curtail employment in such industries and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico.

Said special industry committee shall investigate conditions respecting, and recommend minimum wage rates for, the employees in the leather, leather goods, and related products industry, the banking, insurance, and finance industries, the cement industry, the straw, hair, and related products division of the rubber, straw, hair, and related products industry, the heavy products and industrial equipment division of the metal, plastics, machinery, instrument, transportation equipment, and allied industries.

3. For the purpose of this order these industries are defined as follows:

Leather, leather goods, and related products industry. The curing, tanning, or other processing of hides, skins,

Teak.
Plywood, softwood AA grade, all thicknesses, exterior and interior; ½ inch, all grades, exterior.

Nickel and nickel alloy, metal (cathode nickel, pigs, shot, and other primary forms).

Crucible flake.
Ceylon lump, 97 percent and higher carbon.
Iridium.

MINIMUM WAGE DETERMINATIONS

DETERMINATION OF PREVAILING MINIMUM WAGE FOR TEXTILE INDUSTRY; EXTENSION OF TIME FOR FILING EXCEPTIONS

On December 11, 1952, notice of a proposed amendment to the textile industry wage determination was published in the FEDERAL REGISTER (17 F. R. 11197) as corrected (17 F. R. 11668) which gave interested parties 15 days for filing exceptions to the proposed determination.

Petitions have been filed requesting additional time for submitting exceptions. It appears that an extension is reasonable and warranted under the circumstances presented by the petitioners.

Notice is hereby given that the time for submitting such exceptions is extended from the date of December 26, 1952, to January 10, 1953.

Signed at Washington, D. C., this 23d day of December 1952.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

SHORESPACE RESTORATION ORDER NO. 496 AND SMALL TRACT CLASSIFICATION NO. 68

DECEMBER 17, 1952.

1. By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059; 48 U. S. C. 372), and pursuant to Delegation of Authority contained in sections 2.21 and 2.22 (a) (3) of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior on August 20, 1951 (16 F. R. 8625), it is ordered as follows:

(a) Subject to valid existing rights, the 80-rod shorespace reserve which is now or may hereafter be created under the act of May 14, 1898 (30 Stat. 409; 48 U. S. C. 371), as amended, is hereby revoked as to the public lands hereinafter described, which are situated in the Anchorage Alaska Land District and which are hereby classified as chiefly valuable for leasing and sale under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended:

KETCHIKAN AREA

PENNOCK ISLAND UNIT NO. 1A

For Lease and Sale

For cabin sites:
U. S. Survey 2991: Lots 26, 27, 28, 29, and 30.
U. S. Survey 2992: Lot 38.

The above described areas comprise 6 tracts aggregating approximately 2.54 acres.

(b) The following described public lands, which are situated in the Anchorage Alaska Land District, are hereby classified as chiefly valuable for lease and sale under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended:

KETCHIKAN AREA

PENNOCK ISLAND UNIT NO. 1B

For Lease and Sale

For cabin sites:
U. S. Survey 2989: Lots 1, 2, and 3.
U. S. Survey 2992: Lots 32-35 inclusive, and Lots 36A, 36B, 36C, and Lot 37.

The above described areas comprise 11 tracts aggregating approximately 5.71 acres.

2. The lands are situated on Pennock Island, approximately five-eighths of a mile southwest of the main business district of Ketchikan. Pennock Island is accessible from Ketchikan only by boat, and the interior of the island is accessible only by foot. The vegetative cover of the lands in issue consists mainly of Sitka Spruce and Western Hemlock, with a predominant ground cover of Labrador tea and blueberry. Topographically the lands are composed mainly of sand, gravel and rocky beaches which grade into rocky uplands overlain by a thin mantle of soil. The climate of the area is a distinctive marine type, characterized by mild winters and cool summers, with heavy precipitation experienced throughout most of the year. Part of the lands are presently served by public utilities furnished via a marine cable from Ketchikan. Adequate water for domestic uses may be obtained from water systems supplied by shallow wells or by cisterns, and sewage disposal may be made through the use of cesspools and septic tanks. Commercial, school and church facilities are available at Ketchikan.

3. This classification order shall not become effective to change the status of any lands described herein or to permit the leasing of any such lands under the Small Tract Act of June 1, 1938, cited above, until 10:00 a. m. on January 7, 1953. At that time, the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application as follows:

(a) *Ninety-one day period for preference right filings.* For a period of 91 days from 10:00 a. m. on January 7, 1953, to close of business on April 7, 1953, inclusive, to (1) application under the Small Tract Act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. Secs. 279, 282), as amended, and by other qualified persons entitled to credit for service under the said act, subject to the requirements of applicable law, and (2) applications under any applicable public land laws, based on prior existing valid settlement and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by such veterans and by other persons entitled to credit for service shall be subject to claims of the classes described in subdivision (2).

(b) *Advance period for simultaneous preference right filings.* All applications by such veterans and persons claiming preference rights superior to those of such veterans filed on December 17, 1952, or thereafter, up to and including 10:00 a. m. on January 7, 1953, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public land laws.* Commencing at 10:00 a. m. on April 8, 1953, any of the land remaining unappropriated shall become subject to application under the Small Tract Act by the public generally.

(d) *Advance period for simultaneous non-preference right filings.* Applications under the Small Tract Act by the general public filed on March 18, 1953, or thereafter, up to and including 10:00 a. m. on April 8, 1953, shall be treated as simultaneously filed.

4. A veteran shall accompany his application with a complete photostatic, or other copy (both sides) of his certificate of honorable discharge, or of an official document of his branch of service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claim. Persons asserting preference rights, through settlement or otherwise, and those having equitable claim, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

5. All applications referred to in paragraphs 3 and 4, which shall be filed in the Land Office at Anchorage, Alaska, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

6. Lessees under the Small Tract Act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, in the circumstances, are presentable, substantial and appropriate for the use for which the lease is issued. Leases will be for a period of not more than three years, at an annual rental of $5.00, payable in advance for the entire lease period. Every lease will contain an option to purchase clause and every lessee may file an application to purchase at the sale price as provided in the lease.

7. All of the land will be leased in tracts varying in size from approximately 0.09 acre to approximately 1.18 acres, in accordance with the classification map on file in the Land Office, Anchorage, Alaska.

8. Lessees must locate any well, water supply system, or sewage disposal facility according to the laws and regulations of the Territory of Alaska.

9. The leases will be made subject to rights-of-way for road purposes and public utilities, of 33 feet in width, along tract boundaries, or as shown on the classification maps on file in the Land Office, Anchorage, Alaska. Such rights-of-way may be utilized by the Federal Government, or the State or Territory, county or municipality, or by any agency thereof. The rights-of-way may, in the discretion of the authorized officer of the Bureau of Land Management, be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

10. All inquiries relating to these lands shall be addressed to the Manager, Land Office, Anchorage, Alaska.

FRED J. WEILER,
Chief,
Division of Land Planning.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 32, Supplementary Regulation 2, Section 3, Special Order 41]

NORTH TEPETATE FIELD, ACADIA PARISH, LOUISIANA

CRUDE PETROLEUM CEILING PRICES ADJUSTED ON AN IN-LINE BASIS

Statement of considerations. This special order adjusts the ceiling price for the sale of crude petroleum produced from the North Tepetate Field, Acadia Parish, Louisiana.

The Office of Price Stabilization has been requested to eliminate the differentials heretofore imposed upon crude petroleum produced from the North Tepetate Field, Acadia Parish, Louisiana. During the base period there was a lack of competitive factors and curtailed production of condensate caused by a lack of outlets for natural gas and as a result, this crude condensate was sold at a lower price than that paid for crude condensate of comparable quality produced in this same general area. It appears that this condition has now been eliminated and these differentials should no longer be imposed.

From the information available to this Office, it appears that this requested ceiling price of $2.85 per barrel flat does not exceed the ceiling price of compa-

rable crude condensate produced in this same area.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to the provisions of Section 3 of Supplementary Regulation 2 to Ceiling Price Regulation 32, *It is ordered:*

1. That the ceiling price at the lease receiving tank for crude condensate produced from the North Tepetate Field, Acadia Parish, Louisiana shall be: $2.85 per barrel flat.

2. All provisions of Ceiling Price Regulation 32, except as inconsistent with the provisions of this order, shall remain in full force and effect as to the commodities covered by this order.

3. This order may be amended, modified or revoked by the Director of Price Stabilization at any time.

Effective date. This special order shall become effective on December 23, 1952.

JOSEPH H. FREEHILL,
Director of Price Stabilization.

DIRECTORS OF THE REGIONAL OFFICES

DELEGATION OF AUTHORITY TO ACT ON APPLICATIONS FOR CEILING PRICES OF NEW COMMODITIES BY MANUFACTURERS HAVING ANNUAL SALES OF LESS THAN $1,000,000 UNDER CPR 161

By virtue of the authority vested in the Director of Price Stabilization, pursuant to the Defense Production Act of 1950, as amended (64 Stat. 798, 803; 65 Stat. 131; 66 Stat. 296), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2, as amended (16 F. R. 738, 11626), this Amendment 1 to Delegation of Authority 75 is hereby issued.

Delegation of Authority 75 is amended to read as follows:

1. *Authority to act under sections 3, 4, 5, 6, 9 and 15 of CPR 161.* Authority is hereby delegated to the Directors of the Regional Offices of the Office of Price Stabilization to process in the respects indicated herein ceiling price reports or applications for new commodities filed under CPR 161, by manufacturers whose gross sales for their last complete fiscal year of commodities manufactured by them were less than $1,000,000, or by new manufacturers who do not expect their gross sales to exceed $1,000,000 during their first complete fiscal year.

(a) To approve, or disapprove proposed ceiling prices for new commodities under sections 3, 4 and 5 of CPR 161;

(b) To issue letter orders as provided in section 6 of CPR 161, establishing ceiling prices of new commodities for which a ceiling price cannot be calculated under sections 3, 4 and 5 of CPR 161;

(c) To issue letter orders disapproving or reducing ceiling prices reported or proposed as provided in section 9 of CPR 161;

(d) To request additional information, as provided in section 15 of CPR 161, where applicants submit proposed ceiling prices for new commodities under sections 3, 4, 5 and 6 of CPR 161.

2. *Redelegation of authority.* The authority hereby delegated may be redelegated to the Directors of the District Offices of the Office of Price Stabilization.

This Amendment 1 to Delegation of Authority 75 shall be effective on December 26, 1952.

[Docket No. G-2094]

PANHANDLE EASTERN PIPE LINE CO.

NOTICE OF APPLICATION

DECEMBER 19, 1952.

Take notice that Panhandle Eastern Pipe Line Company (Applicant), a Delaware corporation, address 1221 Baltimore Avenue, Kansas City 6, Missouri, filed on November 28, 1952, an application in the alternative for (1) a disclaimer of jurisdiction or (2) a certificate of public convenience and necessity authorizing service of natural gas on an interruptible basis to the soybean processing plant of Allied Mills, Inc., located near Taylorville, Illinois.

In connection with the service Applicant proposes to construct and operate a measuring and regulating station which Applicant states will be used exclusively for distribution purposes. The volume of gas Applicant proposes to sell to Allied Mills, Inc., is up to 2,000 Mcf per day. This gas is proposed to be used for the generation of steam which will be used in the processing of soybean oil and soybean oil meal.

The estimated cost of the facilities Applicant proposes to construct and operate is $9,100. Financing will be out of current funds on hand.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 8th day of January 1953. The application is on file with the Commission for public inspection.

[Docket No. G-2095]

TEXAS EASTERN TRANSMISSION CORP. AND TRANSCONTINENTAL GAS PIPE LINE CORP.

NOTICE OF APPLICATION

DECEMBER 19, 1952.

Take notice that on November 28, 1952, Texas Eastern Transmission Corporation (Texas Eastern) and Transcontinental Gas Pipe Line Corporation (Transcontinental), each a Delaware corporation with its principal place of business at Shreveport, Louisiana, and Houston, Texas, respectively, filed a joint application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing Transcontinental to transport and deliver certain quantities of gas to Public Service Electric and Gas Company (Public Service) for the account of Texas Eastern and authorizing Texas Eastern to make similar quantities of gas available to Transcontinental by means of exchange deliveries to the Philadelphia Gas Works Company and Philadelphia Electric Company for the account of Transcontinental.

On October 6, 1952, Public Service was issued a certificate of public convenience and necessity in Docket No. G-2021, authorizing it to construct and operate facilities to enable it to receive gas from Texas Eastern in quantities commencing at a maximum daily quantity of 28,800 Mcf. Applicants allege that Public Service needs such quantities of gas in advance of the date of completion of construction of facilities authorized in Docket No. G-2021. Under an agreement between Texas Eastern, Transcontinental, Public Service, the Philadelphia Gas Works, and Philadelphia Electric Company, Transcontinental would deliver to Public Service quantities of gas up to 30,000 Mcf per day through its existing facilities serving Public Service, and in return therefor, Texas Eastern would make gas available to the Philadelphia Gas Works, Inc., and Philadelphia Electric Company, through existing facilities, for the account of Transcontinental. No new facilities would be constructed. Texas Eastern and Transcontinental request that a temporary certificate authorizing such operations be issued.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Commission's rules and regulations, on or before the 8th day of January 1953. The application is on file with the Commission and open to public inspection.

ELECTRIC BOND AND SHARE CO.

ORDER CONTAINING RECITALS IN ACCORDANCE WITH SUPPLEMENT R OF THE INTERNAL REVENUE CODE

DECEMBER 18, 1952.

Electric Bond and Share Company ("Bond and Share") a registered holding company, being under commitment to dispose of all of its holdings of the common stock of the Washington Water Power Company, and having notified the Commission pursuant to Rule U-44 (c) of the rules and regulations promulgated under the Public Utility Holding Company Act of 1935, of its intention to sell to the Washington Water Power Company 11,500 shares of the common stock of that Company at the price of $26 per share, the closing price of that stock on the New York Stock Exchange on December 16, 1952, such sale to be without payment of any fees or commissions; and

Bond and Share having requested that the Commission issue an order containing findings and recitals in accordance with the meaning and requirements of the Internal Revenue Code, as amended, including section 1808 (f) and Supplement R thereof; and

The Commission having notified Bond and Share, pursuant to said Rule U-44 (c), that no declaration need be filed with respect to the proposed transaction:

It is ordered and recited, That the sale and transfer by Electric Bond and Share Company of 11,500 shares of common stock of the Washington Water Power Company to the Washington Water Power Company is necessary or appropriate to the integration of or simplification of the holding company system of which Electric Bond and Share Company is a member and is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, all in accordance with the meaning and requirements of the Internal Revenue Code and section 1808 (f) and Supplement R thereof.

AMERICAN GAS AND ELECTRIC CO.

ORDER REGARDING RECLASSIFICATION OF COMMON STOCK AND ISSUANCE OF SHARES AND STOCK DIVIDENDS

DECEMBER 19, 1952.

American Gas and Electric Company ("American Gas"), a registered holding company, having filed a declaration and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6 and 7 thereof, and Rule U-62 of the rules and regulations promulgated thereunder with respect to the following proposed transactions:

American Gas presently has outstanding 10,041,081 shares of $10 par value common stock. The declaration proposes (1) the reclassification of said shares into 20,082,162 shares of $5 par value common stock, and the issuance of two shares of the $5 par value common stock for each one share of the $10 par value common stock presently held; and (2) the issuance of a stock dividend which is summarized as follows:

On October 29, 1952, the board of directors of American Gas declared a stock dividend at the rate of one share of $10 par value common stock for each forty shares of such stock outstanding in the hands of the public, payable March 10, 1953, to holders of record on February 2, 1953. In the event that the stock reclassification heretofore described shall have become effective on or prior to March 10, 1953, the stock dividend will be at the rate of two shares of $5 par value common stock for each share of the $10 par value common stock which would have been distributable had such reclassification not become effective.

The proposed stock dividend will result in the issuance of 146,913 shares of $10 par value common stock. American Gas proposes to reflect this transaction by debiting earned surplus in the amount of $8,080,215 (an assigned value of $55 per share) and crediting the common stock account with $1,469,130 and premium on capital stock in the amount of $6,611,085. As of September 30, 1952, the earned surplus of American Gas was $71,551,606.

In connection with the stock dividend, the declaration, as amended, states that no fractional shares of the common stock of American Gas will be issued. In lieu thereof, American Gas will mail a letter on March 10, 1953, to each stockholder of record on February 2, 1953, who would otherwise be entitled to a fractional share, advising such holder that for a period of not less than twenty days the Guaranty Trust Company of New York, as depositary, will take the following course of action upon direction of the stockholder with respect to the fractional interests: (1) Consolidate such fractional interest into one full share of common stock upon payment by such holder to the depositary of the cost of the additional fractional interest required to make up one full share, or (2) sell such fractional interest on behalf of such holder. Stockholders will be advised in the letter of transmittal that if the depositary shall not have received instructions from the holder prior to the expiration of the period as to the course of action to be taken with respect to the fractional interest, then the depositary will sell such fractional interest for the account of such holder. The services of the depositary in effecting consolidation of fractional interests or disposing of fractional interests will be rendered without charge to the stockholders.

The declaration, as amended, further states that in the event the requests for consolidation of fractional interests require an aggregate number of shares of common stock of American Gas greater than that represented by all the fractional interests, the depositary will acquire such additional shares as may be necessary by purchase on the New York Stock Exchange, or otherwise. In the event that at the expiration of the period there shall remain any of the aggregate number of shares represented by fractional interests, then the depositary will sell the balance of such shares upon the New York Stock Exchange, or otherwise, and will remit the cash proceeds derived therefrom to the holders of shares of common stock of American Gas entitled thereto.

Said declaration having been filed on November 20, 1952, an amendment thereto having been filed on December 16, 1952, notice of said filing having been given in the form and manner required by Rule U-23 promulgated pursuant to said act, the Commission not having received a request for hearing within the time specified in said notice or otherwise, and the Commission not having ordered a hearing thereon; and

The Commission finding that the proposed transactions are in accordance with the applicable standards of the act, that no adverse findings are necessary thereunder, and that it is unnecessary to impose terms and conditions in connection therewith, other than that set forth below regarding submission of the material to be sent to stockholders in connection with stock dividend; the Commission also finding that the fees to be paid in connection with the proposed transactions, including the fee of Simpson Thacher & Bartlett, counsel to the Company, in the amount of $2,500, are not unreasonable, and the Commission deeming it appropriate to permit said declaration, as amended, to become effective:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions contained in Rule U-24 that said declaration, as amended, be, and the same hereby is, permitted to become effective forthwith, subject to the condition that the material to be sent to stockholders in connection with the stock dividend shall be submitted to the Commission prior to the mailing thereof, and the Commission shall have taken no adverse action in connection therewith.

By the Commission.

UNITED GAS CORP. AND UNION PRODUCING CO.

ORDER AUTHORIZING LOAN TO SUBSIDIARY

DECEMBER 19, 1952.

United Gas Corporation ("United"), a gas utility subsidiary of Electric Bond and Share Company, a registered holding company, and United's wholly owned subsidiary, Union Producing Company ("Union"), having filed an application-declaration pursuant to sections 6 (a), 7, 9 (a), 10 and 12 of the Public Utility Holding Company Act of 1935, with respect to the following transactions:

United proposes to lend to Union and the latter proposes to borrow from United not to exceed an aggregate amount of $4,000,000 during the period following the date of the entry of the Commission's order herein to the end of 1953, in such installments and at such times as funds may be required and requested by Union. The proceeds of the loan will be used by Union to increase its working capital and to finance in part its leasing, development and drilling program.

The proposed loan will be evidenced by unsecured promissory notes issued by Union to United or order, from time to time, payable on or before six years from the date of issuance and bearing interest at the rate of 5 percent per annum.

The application-declaration states that the promissory notes of Union acquired by United will be pledged under United's Mortgage and Deed of Trust securing its outstanding first mortgage and collateral trust bonds.

The applicants-declarants request that the Commission issue its order herein as promptly as may be practicable and that such order become effective forthwith upon the issuance thereof.

Due notice having been given of the filing of the application-declaration, and a hearing not having been requested nor ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied, and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration be granted and permitted to become effective, forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act that said application-declaration be, and hereby is, granted and permitted to become effective, forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

EBASCO SERVICES, INC.

ORDER CONCERNING ACQUISITION OF SUBSIDIARY OF SERVICE COMPANY TO PERFORM CERTAIN CONTRACTS IN WESTERN HEMISPHERE

DECEMBER 19, 1952.

Ebasco Services, Incorporated ("Ebasco"), a wholly owned service company subsidiary of Electric Bond and Share Company, a registered holding company, having filed an application pursuant to the Public Utility Holding Company Act of 1935, particularly sections 9 and 10 thereof, with respect to the following proposed transactions:

Ebasco has entered into a contract with Cerro de Pasco Copper Corporation of New York ("Cerro"), whereby Ebasco has undertaken to perform certain engineering and construction supervision services in connection with the erection by Cerro of a new hydroelectric development in the Republic of Peru, together with related transmission and other facilities, which construction, it is estimated, will cost over $21,000,000.

The application states that much of the engineering work on this project has already been completed by Ebasco and that construction work is now in progress. The application further states that inasmuch as most of the supervision work to be performed by Ebasco will be done in Peru, that it will be desirable that such work be carried out by a wholly owned subsidiary of Ebasco which may qualify as a Western Hemisphere Trade Corporation within the meaning of section 109 of the United States Internal Revenue Code. Ebasco therefore proposes to utilize a wholly owned Delaware corporation for this purpose.

This corporation, Meridian Engineering Company ("Meridian"), was organized in 1944 by Reid & Priest, counsel for Ebasco, primarily for the purpose of preserving in Delaware the name "Meridian Engineering Company". That company has remained inactive. Ebasco now proposes to pay Reid & Priest out-of-pocket costs incurred in connection with the formation of Meridian; to have the incorporators of Meridian elect as its directors certain persons who are presently officers of Ebasco; to change the name of Meridian to Ebasco Engineering Corporation ("Ebasco Engineering"); and to change the authorized capital stock from 100 shares of $10 par value common stock to 1,000 shares of $50 par value common stock, all of which shares are to be subscribed for by Ebasco for a total cash consideration of $50,000, which funds will provide Ebasco Engineering with working capital required for its operations. The contract with Cerro will be in part assigned to Ebasco Engineering.

The application states further that Ebasco Engineering may from time to time do other engineering work in the Western Hemisphere outside of the United States or, under appropriate circumstances not presently contemplated, either within the United States or elsewhere in the world. It is stated that Ebasco Engineering will not perform any services for any associated company except upon the same basis that would be applicable to such services if they were being performed directly by Ebasco, and Ebasco stipulates that the same conditions will apply to Ebasco Engineering as would apply to Ebasco under any present or future order of this Commission.

Said application having been filed on December 1, 1952, notice of said filing having been given in the form and manner required by Rule U-23 promulgated pursuant to said act, the Commission not having received a request for hearing within the time specified in said notice, or otherwise, and the Commission not having ordered a hearing thereon; and

The Commission finding that the proposed transactions are in accordance with the applicable standards of the act, that no adverse findings are necessary thereunder and that the proposed transaction do not have any of the adverse tendencies set forth in section 10, and the Commission deeming it appropriate to grant said application without the imposition of terms or conditions:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and conditions contained in rule U-24, that said application be, and the same hereby is, granted forthwith.

By the Commission.

[Lemon Reg. 467]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.574 *Lemon Regulation 467*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. PART 986—HOPS GROWN IN OREGON, CALIFORNIA, WASHINGTON, AND IDAHO, AND HOP PRODUCTS PRODUCED THEREFROM IN THESE STATES

ORDER TERMINATING PROVISIONS OF MARKETING AGREEMENT NO. 107, AS AMENDED, AND MARKETING ORDER NO. 86, AS AMENDED

It is provided in § 986.107 (b) (2) of Marketing Agreement No. 107, as amended, and of Marketing Order No. 86, as amended, regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States (17 F. R. 6626) that "the Secretary shall terminate the provisions of this subpart whenever he finds that such termination is favored by the majority of the growers of hops who, during such representative period as may be determined by the Secretary, have been engaged in the production of hops within said States for market: *Provided*, That such majority have, during such period, produced for market more than 50 percent of the total volume of hops produced for market in said area during such period. Such termination shall become and be effective on and after the first day of July subsequent to the announcement thereof by the Secretary."

A substantial number of growers petitioned the Secretary of Agriculture to hold a referendum to determine whether or not the majority of hop growers favored termination of said agreement, as amended, and order, as amended. Pursuant thereto an order was issued by the Secretary and published in the FEDERAL REGISTER of November 13, 1952 (17 F. R. 10387), directing that such a referendum be conducted among producers who during the period January 1, 1952 through November 26, 1952 (which was determined to be a representative period) were engaged in the States of Oregon, California, Washington, and Idaho, in the production of hops for market. The referendum was conducted during the period November 17-26, 1952, in accordance with the provisions of said referendum order.

Seventy-seven percent of the total eligible voters who produced 94 percent of the total quantity of hops produced in the representative period cast ballots tabulated in the referendum. The results of the referendum are considered to be representative of grower opinion. Termination was favored by 335 growers or 52 percent of those voting who produced about 33.5 million pounds or 58 percent of the quantity voted.

After consideration of all relevant information, including the results of the aforesaid referendum, it is hereby found and determined that termination of Marketing Agreement No. 107, as amended, and of Marketing Order No. 86, as amended, is favored by the majority of the growers of hops who, during the aforesaid representative period, were engaged in the production of hops within said States for market, and that such majority have during such period produced for market more than 50 percent of the total volume of hops produced for market during such period.

It is therefore ordered, That the provisions of Marketing Agreement No. 107, as amended, and of Marketing Order No. 86, as amended (17 F. R. 6626) regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States, and all regulations issued pursuant thereto be, and they hereby are, terminated effective at 12:01 a. m., P. s. t., July 1, 1953. The proceedings after termination shall be in accordance with the provisions of § 986.107 (c) of said agreement, as amended, and of said order, as amended, and in accordance with such supplementary instructions as may be issued by the Secretary prior to the effective time of termination.

(48 Stat. 31, as amended; 7 U. S. C. and Sup. 608c)

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

DECEMBER 23, 1952.

PART 997—HANDLING OF FILBERTS GROWN IN OREGON AND WASHINGTON

RECODIFICATION

In accordance with the revised Federal Register Regulations (1 CFR Part 1), the format of the order (Order No. 97; 7 CFR, 1951 Supp., Part 997) of the Secretary of Agriculture, regulating the handling of filberts grown in Oregon and Washington (including the requisite findings and determinations set forth therein) is recodified as hereinafter set forth. To facilitate cross reference between the aforesaid order and the marketing agreement and to obviate possible difficulties in future amendatory proceedings, the regulatory sections of Marketing Agreement No. 115 shall be renumbered and the section headings redesignated to conform to the recodified order. The supplementary provisions of the said marketing agreement shall be renumbered as follows: §§ 997.103 *Counterparts;* 997.104 *Additional parties;* 997.105 *Request for order;* 997.106 *Record of unshelled filberts handled;* 997.107 *Authorization to correct typographical errors.*

This recasting of the format and recodification is not intended, nor shall it be deemed, to make any substantive change in the provisions of the aforesaid order of the Secretary, and the aforesaid marketing agreement.

Issued at Washington, D. C., December 23, 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

AUTHORITY: §§ 997.0 to 997.102 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 997.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 63 Stat. 282), and in accordance with the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR 900.1 et seq.), a public hearing was held at Portland, Oregon, August 15 through 18, 1949, upon a proposed marketing agreement and a proposed marketing order regulating the handling of filberts grown in Oregon and Washington. Upon the basis of the evidence adduced at such hearing, and the record thereof, it is found that:

(1) This subpart, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) This subpart is applicable only to persons in the respective classes of industrial and commercial activities specified in the proposals upon which the hearing was held;

(3) There are no differences in the production and marketing of the said commodity in the production area covered by this subpart which make necessary different terms applicable to different parts of such area;

(4) The production area, as set forth in this subpart, is the smallest regional production area which is practicable consistently with carrying out the declared policy of the act;

(5) The handling of all unshelled filberts grown in Oregon and Washington is either in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce; and

(6) It is hereby found and proclaimed that the purchasing power of filberts during the August 1909–July 1914 base period specified in section 2 (1) of the act cannot be determined satisfactorily from available statistics of the United States Department of Agriculture; but that the purchasing power of filberts can be determined for the period August 1927 through July 1929, such being the only portion of the August 1919–July 1929 base period specified in section 2 of the act for which such determination can be made satisfactorily from available statistics of the United States Department of Agriculture, and the period last referred to (i. e., August 1927 through July 1929) is the base period to be used in connection with the determination of the purchasing power of filberts under this subpart.

(b) *Additional findings.* For the reasons which were set forth in the decision (14 F. R. 5654) issued by the Secretary of Agriculture on September 12, 1949, in connection with this program, and particularly in the discussion of issues (2) (14 F. R. 5654) and (4) (14 F. R. 5666) thereunder, showing the urgent necessity of making this program effective not later than October 1, 1949, it is hereby found and determined, in view of the facts and circumstances set forth in said decision, that it would be contrary to the public interest to delay the effective date of this subpart for 30 days after its publication in the FEDERAL REGISTER, or to any time later than October 1, 1949 (see section 4 (c) of the Administrative Procedure Act, 5 U. S. C. 1101 et seq.).

(3) *Determinations.* It is hereby determined that:

(1) A marketing agreement regulating the handling of filberts grown in Oregon and Washington, upon which the aforesaid public hearing was held, has been executed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping filberts covered by this subpart) who handled not less than 50 percent of the volume of such filberts covered by this subpart; and

(2) The issuance of this subpart is favored or approved by at least two-thirds of the producers who participated in a referendum on the question of its approval and who, during the determined representative period (August 1, 1948, through July 31, 1949), produced filberts in these States for market, such producers having also produced at least

two-thirds of the volume of filberts represented in such referendum.

Order relative to handling. It is, therefore, hereby ordered that the handling of filberts grown in Oregon and Washington shall, from the effective time of this subpart, be in conformity to, and in compliance with, the terms and provisions of this subpart:

DEFINITIONS

§ 997.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any other officer or employee of the United States Department of Agriculture who is, or who may be, authorized to perform the duties of the Secretary of Agriculture of the United States.

§ 997.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.; 63 Stat. 282).

§ 997.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 997.4 *Filberts.* "Filberts" means filberts or hazelnuts produced in the States of Oregon and Washington from trees of the genus Corylus.

§ 997.5 *Unshelled filberts.* "Unshelled filberts" means filberts the kernels of which are contained in the shell.

§ 997.6 *Merchantable filberts.* "Merchantable filberts" means all unshelled filberts meeting the pack specifications and minimum standards of quality prescribed pursuant to § 997.50.

§ 997.7 *Area of production.* "Area of production" means the States of Oregon and Washington.

§ 997.8 *Grower.* "Grower" is synonymous with "producer" and means any person engaged in a proprietary capacity, in the commercial production of filberts.

§ 997.9 *Handler.* "Handler" means any packer or distributor of unshelled filberts handling not less than 250 pounds of filberts during any fiscal year.

§ 997.10 *Packer.* "Packer" means any person who packs and handles unshelled filberts.

§ 997.11 *Distributor.* "Distributor" means any person other than a packer who handles unshelled filberts which have not been subjected, in the hands of a previous holder, to compliance with the surplus-control provisions hereinafter contained.

§ 997.12 *Cooperative handler.* "Cooperative handler" means any handler which is a cooperative marketing association regardless of where or under what laws it may be organized.

§ 997.13 *Sheller.* "Sheller" means any person engaged in the business of shelling filberts for any commercial purpose.

§ 997.14 *Pack.* "Pack" means a specific commercial classification according to size, internal quality, and external appearance and condition, of merchantable filberts, packed in accordance with the pack specifications prescribed pursuant to § 997.50.

§ 997.15 *To pack.* "To pack" means to bleach, clean, grade, or otherwise prepare filberts for market as unshelled filberts in any manner whatsoever.

§ 997.16 *To handle.* "To handle" means to sell, consign, transport or ship (except as a common carrier of filberts owned by another person), or in any other way to put into the channels of trade, either within the area of production or from such area to points outside thereof: *Provided*, That such sales or deliveries by growers to a packer for packing or a sheller for shelling or to a distributor within the production area, shall not be considered as handling.

§ 997.17 *Federal-State Inspection Service.* "Federal-State Inspection Service" means that inspection service on filberts which is performed within the States of Oregon and Washington by the United States Department of Agriculture or by said Department under a cooperative arrangement with either of such States pursuant to authority contained in any act of Congress.

§ 997.18 *Fiscal year.* "Fiscal year" means the 12 months from August 1 to the following July 31, both inclusive, except that the fiscal year ending July 31, 1950, shall begin on the effective date of this subpart (Oct. 1, 1949).

§ 997.19 *Handler carryover.* "Handler carryover" as of any given date means all merchantable filberts (except merchantable filberts held as surplus) wherever located, then held by handlers or for their accounts (whether or not sold) including the estimated quantity of merchantable filberts in ungraded lots then held by handlers and intended for packing as merchantable filberts.

§ 997.20 *Trade carryover.* "Trade carryover" means all merchantable filberts theretofore delivered by handlers and then remaining in the possession or control of the wholesale or chain store or supermarket trade, exclusive of filberts in retail outlets, as of any given date.

§ 997.21 *Trade demand.* "Trade demand" means the quantity of merchantable filberts which the wholesale, chain store and supermarket trade will acquire from all handlers during a fiscal year for distribution in the Continental United States, Alaska, Hawaii, Puerto Rico, and the Canal Zone; except that there may also be considered in the making of such computation such acquirements for distribution in Canada or Cuba, whenever the board is of the opinion that such distribution may be made to the particular country at prices to handlers approximating such prices on distribution in the Continental United States.

§ 997.22 *Control board.* "Control board" or "board" means the Filbert Control Board established pursuant to §§ 997.30 through 997.40.

FILBERT CONTROL BOARD

§ 997.30 *Establishment and membership.* A control board consisting of seven members, with an alternate member for each such member, is hereby established.

§ 997.31 *Selection and term of office.*—(a) *Original members.* The original members and their respective alternates, to hold office for a term ending with the first Monday in April 1950, and until their successors shall be selected and shall qualify, shall be selected by the Secretary: (1) From each of the six groups specified in paragraph (b) of this section, and (2) the seventh member and his alternate from persons who are not members of any of the groups described in paragraph (b) of this section. The nominating procedure prescribed in § 997.32 shall not be followed for the selection of the initial board.

(b) *Successor members.* The successors of the original members and their respective alternates shall be selected annually by the Secretary for a term of one year beginning with the first Tuesday after the first Monday in April, and shall serve until their respective successors shall be selected and shall qualify. One member and one alternate member shall be selected from nominees submitted by each of the following groups, or from among other qualified persons belonging to such groups:

(1) The cooperative handlers;

(2) All handlers, other than the cooperative handlers;

(3) The group of cooperative handlers or the group of other than cooperative handlers, whichever during the preceding fiscal year handled more than 50 percent of the merchantable filberts handled by all handlers;

(4) Those growers of filberts who market their filberts through cooperative handlers;

(5) All other growers of filberts;

(6) Those growers whose filberts were marketed during the preceding fiscal year through the handler group specified in subparagraph (3) of this paragraph.

The seventh member and his alternate shall be selected after the selection of the first six members as provided for in this paragraph and after opportunity for such six members to nominate a seventh member and his alternate, who shall not be members of any of the six groups described in this paragraph.

§ 997.32 *Nominations for successor members and alternates.* Each of the six groups specified in § 997.31 (b) may nominate one person as member and one person as alternate; and the six members first selected by the Secretary may nominate, by majority vote, one person as member and one person as alternate for that member. Nominations for each handler group shall be submitted on the basis of ballots to be mailed by the control board to all handlers in such group whose pack for the preceding fiscal year is on record with the control board. Nominations on behalf of growers who market their filberts through cooperative handlers shall be submitted on the basis of ballot cast by each such cooperative handler for its grower patrons. Nominations on behalf of growers who market their filberts through other than cooperative handlers shall be submitted after ballot by such growers pursuant to announcements by press releases through the United States Department of Agriculture to the principal newspapers in the filbert-producing areas in Oregon and Washington. Such releases shall provide pertinent information, including the names of incumbents and the location where ballots may be obtained. The ballots shall be accompanied by full instructions as to their marking and mailing. All votes cast by cooperative handlers, handlers other than cooperative handlers, or for cooperative growers, shall be weighted according to the tonnage of merchantable filberts (computed to the nearest whole ton in case of fractions) recorded by the control board as certified for handling by the handler or for the cooperative grower group during the preceding fiscal year, and if less than one ton is recorded for any such handler or grower group, its vote shall be weighted as one vote. All votes cast by individual growers shall be given equal weight. Nominations received in the foregoing manner by the control board shall be reported to the Secretary on or before March 20 of each fiscal year, together with a certificate of all necessary data and other information deemed by the board to be pertinent or requested by the Secretary. If such nominations of any group are not submitted as hereinbefore provided to the Secretary on or before that date, the Secretary may select the representatives of that group without nomination. If nominations for the seventh member or his alternate are not submitted on or before April 15 of any year, the Secretary may select such member or alternate without nomination.

§ 997.33 *Qualification.* Any person selected as a member or alternate of the control board shall qualify by filing a written acceptance of his appointment with the Secretary or his designated representative. Any member or alternate, who at the time of his selection, was a member of or employed by a member of the group which nominated him and who thereafter ceases to be such a member or employee shall thereupon become disqualified to serve further and his position on the control board shall be deemed vacant.

§ 997.34 *Alternates.* An alternate for a member of the control board shall act in the place and stead of such member (a) in his absence, or (b) in the event of his death, removal, resignation, or disqualification, until a successor for his unexpired term has been selected and has qualified.

§ 997.35 *Temporary substitutes.* In the event any member of the control board and his alternate are both unable to attend a meeting of the control board, any alternate for any other member nominated by the same group that nominated the absent member may serve in the place and stead of the absent member and his alternate, or in the event such other alternate cannot attend, or there is no such other alternate, such member or, in the event of his disability or a vacancy, his alternate may designate, subject to the disapproval of the Secretary, a temporary substitute to attend such meeting. At such meeting such temporary substitute may act in the place and stead of such member. For the purposes of this section a cooperative handler group and a cooperative grower group shall be considered the same group.

§ 997.36 *Vacancy.* To fill any vacancy occasioned by the death, removal, resignation, or disqualification of any member or alternate of the control board, a successor for his unexpired term shall be selected in the manner provided in § 997.32, so far as applicable, within 30 days after such vacancy occurs.

§ 997.37 *Expenses.* The members of the control board shall serve without compensation, but shall be allowed their necessary expenses.

§ 997.38 *Powers.* The control board shall have the following powers:

(a) To administer the provisions of this subpart in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violations of this subpart;

(d) To recommend to the Secretary amendments to this subpart.

§ 997.39 *Duties.* The duties of the control board shall be among other things as follows:

(a) To act as intermediary between the Secretary and any handler or grower;

(b) To keep minute books and records which will clearly reflect all of its acts and transactions, and such minute books and records shall at any time be subject to the examination of the Secretary;

(c) To furnish to the Secretary such available information as he may request;

(d) To appoint such employees as it may deem necessary and to determine the salaries, define the duties and fix the bonds of such employees;

(e) To cause the books of the control board to be audited by one or more competent public accountants at least once for each fiscal year and at such other times as the control board deems necessary or as the Secretary may request, and to file with the Secretary three copies of all audit reports made;

(f) To investigate the growing, shipping, and marketing conditions with respect to filberts and to assemble data in connection therewith.

§ 997.40 *Procedure.*—(a) *Organization and rules.* The members of the control board shall select a chairman from their membership and all communications from the Secretary may be addressed to the chairman at such address as may from time to time be filed with the Secretary. The board shall select such other officers and adopt such rules for the conduct of its business as it may deem advisable. The board shall give to the Secretary or his designated agent and representatives the same notice of meetings of the control board as is given to members of the board.

(b) *Quorum.* All decisions of the control board, except where otherwise specifically provided, shall be by a majority vote of the members present. The presence of five members shall be required to constitute a quorum.

(c) *Permissive method of voting.* The control board may vote by mail or telegram upon due notice to all members: *Provided*, That voting by mail or telegram shall not be permitted at any assembled meeting of the board. When any proposition is submitted for voting by such method, one dissenting vote shall prevent its adoption by that method.

(d) *Right of the Secretary.* The members of the control board (including successors, alternates, or other persons selected by the Secretary), and any agent or employee appointed or employed by the control board, shall be subject to removal or suspension by the Secretary, in his discretion, at any time. Each and every order, regulation, decision, determination, or other act of the control board shall be subject to the continuing right of the Secretary to disapprove of the same at any time, and, upon such disapproval, shall be deemed null and void except as to acts done in reliance thereon or in compliance therewith.

CONTROL OF DISTRIBUTION

§ 997.50 *Pack specifications and minimum standards.* In order to effectuate the declared policy of the act, and except as otherwise provided in § 997.53, no handler shall handle any unshelled filberts except those which have been certified by the control board as merchantable filberts. Unless and until modified by the Secretary, after consideration of the control board's recommendations, and other available pertinent data, unshelled filberts shall be deemed to be merchantable if they meet the following requirements: (a) As to pack specifications, such filberts shall be "U. S. No. 1, Jumbo," "U. S. No. 1, Large," "U. S. No. 1, Medium," as now defined in United States Standards for filberts in the shell (13 F. R. 4623), except that the portion of the tolerance provision in the U. S. No. 1 grade, for grade requirements, other than for type and size, reading "not more than five percent shall be allowed for blanks" shall not be applicable; and (b) as to minimum standards of quality, shall be U. S. No. 1 grade as defined in the aforementioned standards, with the aforesaid modified tolerance as to blanks, and the lower limit of medium size as defined in such United States Standards for filberts in the shell. The aforementioned pack specifications, including the minimum standards of quality for unshelled filberts may be amended, or modified, at any time that it appears that such action would tend to effectuate the declared policy of the act, in which event unshelled filberts desired to be certified must meet such amended or modified minimum standards in order to be considered as merchantable. The provisions of this subpart relating to minimum standards of quality and the grading and inspection requirements, within the meaning of section 2 (3) of the act, and any other provisions pertaining to the

administration and enforcement thereof, shall continue in effect irrespective of whether the estimated season average price for filberts is in excess of the parity level specified in section 2 (1) of the act.

§ 997.51 *Certification of merchantable filberts.* Every handler, at his own expense, shall obtain a certificate for each lot of merchantable filberts handled or to be handled by him and for each lot of surplus merchantable filberts. Said certificates shall be obtained from the Federal-State Inspection Service. All such certificates shall show, in addition to such other requirements as the control board may specify, the identity of the handler, if for export, the country of destination, the quantity and pack of merchantable filberts in such lot, markings, if any, on the containers including brands or labels, and that the filberts covered by such certificate conform to the pack specifications and minimum standards of quality prescribed pursuant to § 997.50. All lots so inspected and certified shall be identified by appropriate seals, stamps or tags to be affixed to the containers by the handler under the direction and supervision of the control board or of the Federal-State Inspection Service.

§ 997.52 *Copies of certificates.* The inspector shall furnish to the control board as many copies of each such certificates as it may request.

§ 997.53 *Filberts for packing and shelling.* Nothing contained herein shall be construed to prevent any person from selling or delivering, within the area of production, unshelled filberts, other than merchantable filberts, to any packer for packing or sheller for shelling.

SURPLUS CONTROL

§ 997.60 *Salable and surplus percentages.* The salable and surplus percentages of merchantable filberts for each fiscal year shall be fixed by the Secretary at such amounts as in his judgment will most effectively tend to accomplish the purposes of the act: *Provided*, That the initial salable percentage for the first fiscal year ending July 31, 1950, shall be 75 percent and the surplus percentage shall by 25 percent. In fixing subsequent salable and surplus percentages, the Secretary shall give consideration to the ratio of the estimated trade demand to the sum of the estimated production of merchantable filberts and the handler carryover (with appropriate adjustment for such handler carryover as may have theretofore contributed to surplus), the recommendations submitted to him by the control board, and such other pertinent data as he deems appropriate. The total of the salable and surplus percentages fixed each fiscal year shall equal 100 percent.

§ 997.61 *Increase of salable percentage.* At any time prior to February 15 of any fiscal year, the Secretary may, on request of the control board (or if the control board shall fail so to request, on request of two or more packers who have handled during the immediately preceding fiscal year at least ten percent of the total tonnage handled by all packers during such fiscal year) and after a finding of fact, based on such revised and current information as may be pertinent, that the merchantable filberts available for handling will not be sufficient to supply the trade demand, increase the salable percentage to conform to such new relation as may be found to exist between trade demand and available supply.

§ 997.62 *Estimated carryover, trade demand, and production.* To aid the Secretary in fixing the salable and surplus percentages, the board shall furnish to the Secretary, not later than August 15 of each fiscal year, the following estimates and recommendation, each of which shall be adopted by at least a majority vote of the entire control board:

(a) Its estimate of the quantity of merchantable filberts to be produced and packed during such year;

(b) Its estimate of handler carryover as of August 1;

(c) Its estimate of trade carryover as of August 1;

(d) Its estimate of the total trade demand (on the basis of prices not exceeding the maximum prices contemplated in section 2 of the act); in determining such trade demand consideration shall be given to the estimated trade carryover at the beginning and end of the fiscal year;

(e) Its recommendations as to the salable and surplus percentages to be fixed. The board shall also furnish to the Secretary a complete report of the proceedings of the board meeting at which the recommended salable and surplus percentages to be fixed by the Secretary were adopted.

§ 997.63 *Withholding percentage.* The withholding percentage shall be the ratio (measured as a percentage) of the surplus percentage to the salable percentage. Such percentage shall be announced by the Secretary and, in its computation, may be adjusted by the Secretary to the nearest whole number. The initial withholding percentage for the first fiscal year ending July 31, 1950, shall be 33 percent.

§ 997.64 *Withholding of surplus merchantable filberts.* No handler shall handle unshelled filberts unless prior to or upon the shipment thereof (except as otherwise provided in § 997.65) he shall have withheld from handling a quantity of merchantable filberts equal to the withholding percentage, by weight, of such quantity handled or certified for handling by him: *Provided*, That this provision shall not apply to any lot of filberts for which the surplus obligation has been met by a previous holder. The quantity of filberts hereby required to be withheld shall constitute, and may be referred to as, the "surplus" or "surplus obligation" of a handler. The merchantable filberts handled by any handler in accordance with the provisions of this subpart shall be deemed to be that handler's quota fixed by the Secretary within the meaning of section 8a (5) of the act.

§ 997.65 *Postponement of withholding surplus upon filing bond*—(a) *Privilege.* Compliance by any packer with the requirements of § 997.64 as to the time when surplus filberts shall be withheld shall be deferred to any date desired by the packer, but not later than December 31 of the fiscal year, upon the voluntary execution and delivery by such packer to the control board, before he handles any merchantable filberts of such fiscal year, of a written undertaking that on or prior to such date he will have fully satisfied his surplus obligation required by § 997.64.

(b) *Bonding requirement.* Such undertaking shall be secured by a bond or bonds to be filed with and acceptable to the control board, and with a surety or sureties acceptable to the control board, in the amount or amounts stated below conditioned upon full compliance with such undertaking. Such bond or bonds shall, at all times during their effective period, be in such amounts that the aggregate thereof shall be no less than the total bonding value of the packer's deferred surplus obligation. The bonding value shall be the deferred surplus obligation poundage bearing the lowest bonding rate or rates, which could have been selected from the packs handled or certified for handling, multiplied by the applicable bonding rate. The cost of such bond or bonds shall be borne by the packer filing same.

(c) *Bonding rate.* Said bonding rate for each pack shall be an amount per pound representing the season's domestic price for such packet net to packer f. o. b. shipping point which shall be computed at 95 percent of the opening price for such pack announced by the packer or packers who during the preceding fiscal year handled more than 50 percent of the merchantable filberts handled by all packers. Such packer or packers shall be selected in order of volume handled in the preceding fiscal year, using the minimum number of packers to represent a volume of more than 50 percent of the total volume handled. If such opening prices involve different prices announced by two or more packers for respective packs, the prices so announced shall be averaged on the basis of the quantity of such packs handled during the preceding fiscal year by each such packer.

§ 997.66 *Disposition of sums collected through default on bonds*—(a) *Filbert purchases.* Any sums collected through default of a packer on his bond shall be used by the control board to purchase, from packers, as provided in this paragraph, a quantity of merchantable filberts not to exceed the total quantity represented by the sums collected. Purchases shall be made from the salable percentages with respect to which the surplus obligation has been met and at the bonding rate for each pack. The control board shall at all times purchase the lowest priced packs offered and the purchases shall be made from the various packers as nearly as practicable in proportion to the quantity of their respective offerings of the pack or packs to be purchased.

(b) *Unexpended sums.* Any unexpended sums, which have been collected by the control board through default of a packer on his bond, remaining in possession of the control board at the end of a fiscal year shall be used to reimburse the board for its expenses including administrative and other costs incurred in the collection of such sums and in the purchase of merchantable filberts as provided in paragraph (a) of this section. Any balance remaining after reimbursement of such expenses shall be distributed among all handlers in proportion to the quantity of merchantable filberts handled or certified for handling by them during the fiscal year in which the default occurred.

(c) *Transfer of filbert purchases.* Filberts purchased as provided in this paragraph shall be turned over to those packers, who have defaulted on their bonds, for disposal by them as surplus. The quantity delivered to each packer shall be that quantity represented by the sums collected through default, and the different grades, if any, shall be apportioned among the various packers on the basis of the quantity of filberts to be delivered to each packer to the total quantity purchased by the control board with bonding funds.

§ 997.67 *Collection upon bonds.* Collection upon any bond or bonds filed pursuant to the provisions of § 997.65 shall be deemed a satisfaction of the surplus obligation represented by such collection: *Provided*, That the filberts purchased by the control board with funds collected under bonds and subsequently turned over to such packers are used only for the purposes provided in §§ 997.74 and 997.75.

§ 997.68 *Interhandler transfers for surplus.* For the purpose of meeting his surplus obligation, any handler may, upon notice to and under the supervision and direction of the control board, acquire from another handler merchantable filberts with respect to which the surplus has not been withheld and any surplus obligation with respect to any filberts so transferred shall be waived. If any such sales are made from filberts on which the surplus obligation has been met, the seller's surplus obligation shall be reduced accordingly upon proof satisfactory to the control board that the purchaser is withholding such filberts as surplus.

§ 997.69 *Assistance of control board in accounting for surplus.* The control board, on written request, may assist handlers in accounting for their surplus obligations and may aid any handler in acquiring merchantable filberts to meet any deficiency in a handler's surplus, or in accounting for and disposing of surplus filberts.

§ 997.70 *Application of salable, surplus and withholding percentages, and bonding rates, after end of fiscal year.* (a) The salable, surplus, and withholding percentages established for any fiscal year shall continue in effect with respect to all filberts, for which the surplus obligation has not been previously met, which are handled or certified for handling by any handler after the end of such fiscal year and before salable, surplus, and withholding percentages are established for the succeeding fiscal year. After such percentages are established for the new fiscal year, the withholding requirements for all such filberts theretofore handled or certified for handling during that fiscal year shall be adjusted to the newly established percentages.

(b) The bonding rates established for any fiscal year shall continue in effect with respect to any bond or bonds executed and delivered pursuant to § 997.65 before the bonding rates for the new fiscal year are established. After such bonding rates are established for the new fiscal year, the new rates shall be applicable and any bond or bonds theretofore given for that fiscal year shall be adjusted to the new rates.

§ 997.71 *Exchange of surplus filberts.* Any handler who has withheld surplus filberts pursuant to the requirements of § 997.64 and has had same certified as surplus filberts may exchange therefor an equal quantity, by weight, of other merchantable filberts. Any such exchange shall be made under the supervision and direction of the control board with appropriate inspection and certification of the filberts involved.

§ 997.72 *Adjustment upon increase of salable percentage.* Upon any increase in the salable percentage and corresponding decrease in the surplus and withholding percentages, the surplus obligation of each handler with respect to the filberts handled by him for the entire fiscal year shall be recomputed in accordance with such revised salable, surplus, and withholding percentages. From the surplus filberts still held by a handler and from such surplus filberts that may have been delivered by him to the control board pursuant to § 997.74, and still held by the control board, the handler shall be permitted to select, under the supervision and direction of the control board, the particular surplus filberts to be restored to his salable percentage.

§ 997.73 *Prohibition against handling of surplus.* Except as provided in §§ 997.74 and 997.75, or for any use other than for distribution as unshelled filberts in established trade channels, surplus filberts withheld pursuant to the requirements of § 997.64 shall not be handled by any person as unshelled filberts.

§ 997.74 *Disposition of surplus by export.* Sales of surplus filberts for shipment or export to destinations outside the Continental United States, Alaska, Hawaii, Puerto Rico, and the Canal Zone shall be made only by the control board. Any handler desiring to export any part or all of his surplus filberts shall deliver to the control board his surplus to be exported, but the control board shall be obligated to sell in export only such quantities for which it may be able to find satisfactory export outlets. Any filberts so delivered for export which the control board is unable to export shall be returned to the handler delivering them. Sales for export shall be made by the control board only on execution of an agreement to prevent reimportation into the United States; and in case of export to Canada or Mexico, such filberts shall be sold only on the basis of a delivered price, duty paid. A handler may be permitted to act as agent of the control board, upon such terms and conditions as the control board may specify, in negotiating export sales; and when so acting shall be entitled to receive a selling commission of five percent of the export sales price, f. o. b. area of production. The proceeds of all export sales, after deducting all expenses actually and necessarily incurred, shall be paid to the handler whose surplus filberts are so sold by the board.

§ 997.75 *Disposal of surplus for shelling.* Any handler may shell his surplus filberts or deliver them for shelling to an authorized sheller. Any person who desires to become an authorized sheller in any fiscal year may submit an application to the control board. Such application shall be granted only upon condition that the applicant agrees:

(a) To use such surplus filberts as he may receive for no purpose other than shelling;

(b) To dispose of or deliver such surplus filberts, as unshelled filberts, to no one other than another authorized sheller;

(c) To comply fully with all laws and regulations applicable to the shelling of filberts;

(d) To report to the control board, immediately upon receipt of any lot of surplus filberts, the quantity and pack of the filberts so received and the identity of the person from whom received, and within 15 days after the disposition of such filberts, to report their disposition to the control board. All such reports shall be certified to the control board and to the Secretary as to their correctness and accuracy.

The board, if it finds that such an application is made in good faith and if the applicant may be reasonably relied upon to fulfill and observe the conditions to which it has agreed, shall issue a letter of authority to such applicant to serve as an authorized sheller. Such letter of authority shall expire with the end of the fiscal year during which it is issued by the Board.

REPORTS

§ 997.80 *Reports of handler carryover.* Each handler, on or before August 5 and January 15 of each fiscal year, shall file with the control board a written report, under oath, of all merchantable filberts (except filberts held as surplus) including the estimated quantity of merchantable filberts in ungraded lots intended for packing as merchantable filberts, by him held on the first day of August and the first day of January, respectively, showing the pack (if merchantable), and location thereof and the quantities:

(a) Which theretofore have been certified for handling, and on which the surplus obligation has previously been met;

(b) Which have been packed as merchantable filberts, but have not been certified; and

(c) Which are estimated as merchantable but have not been packed as merchantable filberts and are intended for packing as merchantable filberts.

§ 997.81 *Reports of disposition of surplus.* (a) Each handler, before he disposes of any quantity of surplus filberts held by him, shall file with the control board a report of his intention to dispose

the total tonnage handled by all packers

Privilege. Compliance by any packer

a packer on his bond, remaining in

may be permitted to act as agent of the

board a report of his intention to dispose

of such quantity of surplus filberts. This report shall be filed not less than five days prior to the date on which the surplus filberts are disposed of unless the five-day period is expressly waived by the control board.

(b) Each handler, within 15 days after the disposition of any quantity of surplus filberts, shall file with the control board a report of the actual disposition of such quantity of surplus filberts. Such reports shall be certified to the control board and to the Secretary as to their correctness and accuracy.

(c) Each handler, from time to time, on demand of the control board, shall file with the board a report of his holdings of surplus filberts as of any date specified by the board. Such report, at the request of the control board, may be in the form of a confirmation of the records of the control board of such handler's holdings. Such report shall be certified to the control board and to the Secretary as to its correctness and accuracy.

(d) All reports required by this section shall show the quantity, pack, and location of the filberts covered by such reports and in the case of reports required by paragraphs (a) and (b) of this section, the applicable handler's storage lot and inspection certificate numbers, and the disposition of the surplus which is intended or which has been accomplished.

§ 997.82 *Other reports.* Upon request of the control board, made with the approval of the Secretary, every handler shall furnish to the board, in such manner and at such times as it prescribes (in addition to such other reports as are specifically provided for in this part), such other information as will enable the control board to perform its duties and to exercise its powers hereunder.

§ 997.83 *Verification of reports.* For the purpose of checking and verifying reports made by handlers to it, the control board through its duly authorized agents, shall have access to the handler's premises wherever filberts may be held by such handler and, at any time during reasonable business hours, shall be permitted to inspect any filberts so held by such handler and any and all records of the handler with respect to the holding or disposition of all filberts which may be held or which may have been disposed of by such handler. Every handler shall furnish all labor necessary to facilitate such inspections as the control board may make of such handler's holdings of any filberts. Every handler shall store surplus filberts in such manner as to facilitate inspection and shall maintain adequate storage records which will permit accurate identification with respect to control board certificates of respective lots of all such filberts held or theretofore disposed of.

§ 997.84 *Confidential information.* All reports and records furnished or submitted by handlers to the board which include data or information constituting a trade secret or disclosing of the trade position, financial condition, or business operations of the particular handler from whom received shall be received by, and at all times kept in the custody and under the control of one or more employees of the board, who shall disclose such information to no person except the Secretary. Notwithstanding the above provisions of this section, information may be disclosed to the board when reasonably necessary to enable the board to carry out its functions hereunder.

EXPENSES AND ASSESSMENTS

§ 997.90 *Expenses.* The control board is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred by it during each fiscal year, for the maintenance and functioning of the control board and for such purposes as the Secretary may, pursuant to the provisions of this subpart determine to be appropriate. The recommendation of the control board as to the expenses for each such fiscal year, together with all data supporting such recommendations, shall be submitted to the Secretary on or before August 15 of the fiscal year in connection with which such recommendation is made: *Provided*, That such submission for the first fiscal year shall be made within 15 days after the effective date hereof. The funds to cover such expenses shall be acquired by levying assessments as provided in § 997.91.

§ 997.91 *Assessments.* (a) Each handler shall pay to the control board on demand by the control board, from time to time, the sum of two-tenths of a cent for each pound of merchantable filberts certified for him, including those certified for handling and also those certified for surplus. At any time during or after a fiscal year, the Secretary may increase the rate of assessment to apply to all filberts certified for handling or surplus, during such fiscal year including those certified in said fiscal year prior to the date of such increase, to secure sufficient funds to cover the expenses authorized by § 997.90 or by any later finding by the Secretary relative to the expenses of the control board, and such additional assessments shall be paid by the handler on demand. At the end of any fiscal year for which the assessment rate may be increased by the Secretary, the rate shall revert to two-tenths of a cent a pound.

(b) Any money collected as assessments during any fiscal year and not expended in connection with the respective fiscal year's operations hereunder may be used and shall be refunded by the control board in accordance with the provisions hereof. Such excess funds may be used by the control board during the period of four months subsequent to such fiscal year in paying the expenses of the control board incurred in connection with the new fiscal year. The control Board shall, however, from funds on hand, including assessments collected during the new fiscal year, distribute or make available, within five months after the beginning of the new fiscal year, the aforesaid excess to each handler from whom an assessment was collected, as aforesaid, in the proportion that the amount of the assessment paid by the respective handler bears to the total amount of the assessments paid by all handlers during said fiscal year.

(c) Any money collected from assessments hereunder and remaining unexpended in the possession of the control board upon the termination of this subpart shall be distributed in such manner as the Secretary may direct.

MISCELLANEOUS PROVISIONS

§ 997.95 *Personal liability.* No member or alternate member of the control board, or any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or any other person for errors in judgment, mistakes, or other acts either of commission or omission, as such member, alternate member, agent, or employee, except for acts of dishonesty.

§ 997.96 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 997.97 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 997.98 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination hereof, except with respect to acts done under and during the existence hereof.

§ 997.99 *Agents.* The Secretary may, by a designation in writing, name any person, including any officer or employee of the United States Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 997.100 *Effective time, termination or suspension*—(a) *Effective time.* The provisions of this subpart, as well as any amendments hereto, shall become effective at such time as the Secretary may declare, and shall continue in force until terminated or suspended in one of the ways specified in this section.

(b) *Suspension or termination.* (1) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(2) The Secretary shall terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(3) The Secretary shall terminate the provisions of this subpart at the end of any fiscal year whenever he finds that such termination is favored by a majority of the producers of filberts who during the proceding fiscal year have been engaged in the production for market of filberts in the States of Oregon and Washington: *Provided*, That such majority have during such period produced for market more than 50 percent of the volume of such filberts produced for market within said States; but such termination shall be effected only if announced on or before July 1 of the then current fiscal year.

(4) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

(c) *Proceedings after termination.* (1) Upon the termination of the provisions of this subpart, the members of the control board then functioning shall continue as joint trustees for the purpose of liquidating the affairs of the control board, of all funds and property then in the possession or under the control of the board, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(2) Said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the control board and the joint trustees, to such person as the Secretary may direct; and shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the control board or the joint trustees pursuant hereto.

(3) Any person to whom funds, property, or claims have been transferred or delivered by the control board or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the said board and upon said joint trustees.

§ 997.101 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant hereto, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued hereunder, or (b) release or extinguish any violation of this subpart or of any regulation issued hereunder, or (c) affect or impair any right or remedies of the Secretary or of any other person, with respect to any such violation.

§ 997.102 *Amendments.* Amendments to this subpart may be proposed, from time to time, by any person or by the control board.

TITLE 8—ALIENS AND NATIONALITY

Chapter II—Office of Alien Property, Department of Justice

PART 501—GENERAL RULES OF PROCEDURE

MISCELLANEOUS AMENDMENTS

In the interest of clarity, the publication of certain sections in Part 501 is discontinued, and other sections are integrated. Since no additional requirements are imposed on the public, it is hereby found that notice, hearing, and suspension of applicability are unnecessary. The discontinuance of any reporting requirement does not relieve any person from furnishing such information upon request.

1. Section 501.1 (b) states that the official seal of the Office of Alien Property is in the custody of the Secretary of the Office and that both the Secretary and the Assistant Secretary for Records are authorized to affix the seal. The offices of Secretary and Assistant Secretary for Records have been terminated, and their functions in this regard are now vested in the Records Officer, the Assistant to the Records Officer, and the Manager, Philippine Office. Accordingly, § 501.1 (b) is amended to read as follows:

§ 501.1 *Seal of the Office of Alien Property, Department of Justice.* * * *

(b) The seal is in duplicate original; one in the custody of the Assistant to the Records Officer and one in the custody of the Manager, Philippine Office. The Records Officer and the Assistant to the Records Officer are severally authorized to authenticate, certify, and attest copies of books, records, papers, and documents in the official custody of the Office of Alien Property; to subscribe the name of the Director, the Deputy Director, or the Acting Director to such certificates, and to affix the seal of the Office of Alien Property. The Manager, Philippine Office, is authorized to authenticate, certify, and attest copies of books, records, papers, and documents in the official custody of the Office of Alien Property, as successor to the Philippine Alien Property Administration; to subscribe the name of the Director, the Deputy Director, or the Acting Director to such certificates, and to affix the seal of the Office of Alien Property.

2. Section 501.2 restates the time limitations for filing of claims set forth in and pursuant to sections 32 and 34 of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 32, 34), and various Bar orders issued by the Office of Alien Property pursuant to said section 34 and published in the FEDERAL REGISTER. Since the statutes and Bar orders fully set forth the information, continued publication of § 501.2 *Time for filing claims* is unnecesary and is hereby discontinued.

3. Section 501.3 *Filing of debt claims by depositors of Yokohama Specie Bank, Ltd., Honolulu Branch* is redesignated § 502.32.

4. Section 501.4 *Filing of claim as condition precedent to suit* is redesignated § 502.33.

5. Section 501.5 *Effect of disallowance of claim in determining period of limitations for filing suit* is redesignated § 502.34.

6. Sections 501.15 and 501.20 required service on the Office of Alien Property of process in court or administrative actions or proceedings where service of process was required on any person within Germany, Italy, Japan, Bulgaria, Hungary, or Rumania, or territory controlled by one or more of those countries. Sections 501.16 and 501.21 subsequently suspended these requirements with respect to persons within Bulgaria, Hungary, Italy, or Rumania, other than citizens or subjects of Germany or Japan. The continued requirement with respect to persons within Germany or Japan and citizens or subjects of Germany or Japan within Bulgaria, Hungary, Italy, or Rumania has been set forth in § 501.17. Paragraph (d) of § 501.17 authorizes service of process on nationals of Germany or Japan, as defined in § 501.17, by service on the Office of Alien Property with the consent of the Attorney General. Since the states of war with Germany and Japan have been terminated, such substituted service is unnecessary and consent will no longer be granted, and paragraph (d) of § 501.17 is no longer required. Attention is, however, invited to the continuing requirement of paragraphs (a), (b), and (c) of § 501.17 for furnishing copies of process to be served on nationals of Germany and Japan in certain cases. Therefore it is ordered as follows:

a. Section 501.15 *Service of process on persons within enemy territory* is discontinued.

b. Section 501.16 *Nonapplicability of § 501.15 to service of process or notice on persons within Bulgaria, Italy, Hungary, or Rumania*, is discontinued.

c. Paragraph (d) of § 501.17 *Copy of process required to be sent to the Office of Alien Property in certain cases* is discontinued.

d. Section 501.20 *Extension of application of § 501.15 to Territory of Hawaii* is discontinued.

e. Section 501.21 *Nonapplicability of § 501.20 to service of process on persons within Bulgaria, Hungary, Italy, or Rumania* is discontinued.

7. Section 501.25 *Regulations governing sales of property by the Office of Alien Property* prescribed regulations governing the sales of vested property by the Office of Alien Property and made certain delegations with respect thereto. Reorganization of the Office has made certain of the delegations unnecesary. Certain procedural changes are also made. In addition, certain of the findings on which the previous regulations were based are no longer appropriate. Accordingly, § 501.25 is amended to read as follows:

§ 501.25 *Uniform procedure for sales of vested property*—(a) *General sales.* Except as provided in paragraph (b) of this section, all sales of property vested in or transferred to the Attorney General under the Trading With the Enemy Act, as amended, shall be conducted according to the procedures set forth in this section, unless the Director, Office of

Alien Property, shall determine in any sale that the public interest will best be served if all or part of these regulations are not applied to that sale. No such property will be sold except pursuant to the order of the Attorney General or the Director. This section does not supersede the provisions of § 505.10 of this chapter concerning sale of certain vested stock.

(1) *Authorization to offer for sale.* No offering for sale shall be undertaken under this section except pursuant to an authorization executed by the Director. The authorization shall be available for inspection by persons properly and directly concerned, as specified in § 503.17 of this chapter.

(2) *Eligibility.* Unless the Director, Office of Alien Property, shall otherwise direct, no person or business organization shall be qualified to bid for or purchase property if he is not an American citizen or is not a business enterprise controlled by American citizens and organized under the laws of the United States or any state or territory thereof.

(3) *Advertising.* At least 15 days before opening of bids, each sale shall be advertised in a newspaper of general circulation in the locality where the property or the major portion thereof is located and it may also be advertised in such other publications as the Chief, Management and Liquidation Branch, Office of Alien Property, may deem appropriate.

(4) *Information and inspection.* A representative of the Office of Alien Property will be designated to be available at the time and place specified in the advertisement to furnish available information with respect to the property advertised, except that confidential information, matter which might benefit competitors and any information with respect to formulae, processes or trade secrets will be furnished only upon the approval of the Director, Office of Alien Property. Opportunity for inspection of the property advertised will be afforded.

(5) *Bids.* Bids shall be submitted as designated in the advertisement, in writing and sealed in plain envelopes marked to identify the sale for which they are submitted. Until the award is made or all bids are rejected, the bids shall constitute irrevocable offers to purchase, except that bids may be withdrawn by notice of withdrawal in writing delivered to the Director prior to the time at which the first bid is opened. Bids will be opened in public at the time and place advertised in the presence of such bidders as may desire to attend. Absence of any or all bidders will not prevent the making of an award.

(6) *Order of sale or rejection.* Within 30 days after the opening of bids or as may otherwise be specified in the terms and conditions of sale, the Director of the Office of Alien Property will make the award by executing an Order of Sale to the highest qualified bidder or will reject all bids by an Order of Rejection, stating the reasons therefor. When an award is made, the successful bidder will be notified in writing. The Order of Sale or Rejection shall be made a matter of record as provided in § 503.17 of this chapter.

(7) *Payment.* The sale price shall be paid by certified cashier's or banker's check made payable to the order of the Attorney General of the United States delivered to the duly authorized representative of the Director of the Office of Alien Property.

(8) *Execution of sale documents.* All papers and documents to consummate sales will be executed and delivered by the Director of the Office of Alien Property or his duly authorized representative.

(9) *Return of earnest money.* Where earnest money checks have been received, those received from unsuccessful bidders will be returned to them with notice of rejection of their bids.

(10) *Warranties.* No representatives of the Director, Office of Alien Property, is authorized to make any warranty or guaranty, express or implied, respecting or in any way concerning any property or enterprise being sold.

(11) *Withdrawal from sale.* The Director, Office of Alien Property, reserves the right to withdraw any property or enterprise from sale at any time or to reject any or all bids.

(b) *Special sales.* The following exceptions to paragraph (a) of this section are established for the sale of certain types of property:

(1) *Property valued at less than $10,000.* Property located in the United States in items, lots, or quantities which do not exceed $10,000 in value for each such item, lot, or quantity, may be sold at public or private sale, with or without advertisement, as the authorization to offer for sale shall specify.

(2) *Securities.* Any shares of stock, bonds, notes, or other securities which do not constitute either control or substantial ownership of the issuer, may be sold pursuant to an authorization by the Director upon any government regulated public exchange or in an over the counter market, without prior advertisement, to any individual, corporation, partnership, or association.

(3) *Philippine property under 2,000 pesos value.* The Manager, Philippine Office, is authorized to sell property located in the Philippines in items, lots, or quantities which do not exceed 2,000 pesos value as determined by the Manager, Philippine Office, for each such item, lot, or quantity, at public or private sale, with or without advertisement, to any individual, corporation, partnership, or association, other than nationals of Germany or Japan. The Manager, Philippine Office, may execute all documents necessary to effectuate the sale.

8. Section 501.26 delegated powers with respect to sales to certain officials of the Office of Alien Property. Section 501.25 now states the scope of sales authority. Therefore, § 501.26 *Delegation to designated officers of functions and powers under § 501.25* is discontinued.

9. Section 501.50 states that licensing activities are performed by the Operations Branch and the New York Office, at 120 Broadway, New York 5, New York, and that applications for licenses are to be filed on Treasury Department Form TFE–1. The Operations Branch has been superseded by the Intercustodial and Property Branch, the New York Office has been moved to 346 Broadway, New York 13, New York, and the application form is now Form OAP–200. In addition, paragraph (d) is amended to refer to notices of claim under section 9 (a) of the Trading with the Enemy Act. Accordingly, paragraphs (b) and (d) of § 501.50 are amended to read as follows:

§ 501.50 *Licensing.* • • •

(b) Transactions with respect to property over which jurisdiction has been transferred by Executive Order 9989 (3 CFR, 1948 Supp.), not authorized by general licenses or other public documents, may be effected only under specific licenses. Applications for specific licenses shall be filed in duplicate on Form OAP–200 with the Office of Alien Property, 346 Broadway, New York 13, New York, or Washington 25, D. C.

• • • • •

(d) In cases where the allowance of claim under Sections 9 (a), 32 or 34 of the Trading With the Enemy Act requires the granting of a license the notice of claim shall be deemed to include an application for such license and no separate application for such license need be filed.

10. The opening clause of § 501.80 states that forms for use by the public may be obtained from the Secretary, Office of Alien Property, which office has been terminated. Accordingly, the opening clause is amended to read as follows:

§ 501.80 *Forms.* The following forms have been authorized for use by the public and may be obtained upon request to the Office of Alien Property, Department of Justice, Washington 25, D. C.

• • • • •

11. Section 501.80 lists various forms now or formerly in use by the Office of Alien Property. The publication of the following forms, now obsolete, is discontinued:

Form APC–1B *Notice of Claim by Inventor under Section 32.*
Form APC–6 *Notice of Claim Arising from Supervisory Order.*
Form APC–13P *Report of Enemy (or Former Enemy) Interest in New Patent Application.*
Form APC–13T *Report of Enemy (or Former Enemy) Interest in New Trade-Mark Application.*
Form APC–14P *Report of Recording of Transfer of Interest in Patent.*
Form APC–14T *Report of Recording of Transfer of Interest in Trade-Mark.*
Form APC–15 *Attachment to Instrument Transferring Interest in Patent.*
Form APC–18 *Report of Foreign Interest in Copyright.*
Form APC–21 *Report of Recording of Transfer of Interest in Copyright.*
Form APC–22 *Attachment to Instrument Transferring Interest in Copyright.*
Form APC–23 *Report of Foreign Interest in Copyright Application.*
Form APC–31 *Report of Foreign Interest in Trade-Mark.*
Form APC–48 *Report of Property of Repatriates.*
Form APC–55 *Motion Picture Film License.*
Form APC–57 *Report of Assets of Patent Licenses.*

12. Form TFE–1 was prescribed for use in applying for a license to engage in any transaction concerning property blocked under Executive Order 8389, 3 CFR, 1943 Cum. Supp., as amended, not licensed by Part 511 of this chapter. The present form for this purpose is OAP–200 and § 501.80 is hereby amended as follows to include reference thereto:

Form OAP–200. *Application for license authorizing transactions involving blocked property.*

Purpose: For use by applicants desiring licenses for any transaction or transactions with respect to property blocked under Executive Order 8389, as amended (3 CFR, 1943 Cum Supp.), not authorized by Part 511 of this chapter.

Contents: Name, address, citizenship, and nationality of applicant; name, addresses, and nationalities of all parties to transactions; and detailed statement of nature and purpose of transactions.

(Sec. 301, 55 Stat. 839; 50 U. S. C. App. 616. E. O. 9193, July 6, 1942, 7 F. R. 5205; 3 CFR 1943 Cum. Supp., E. O. 9725, May 16, 1946, 11 F. R. 5381; 3 CFR 1946 Supp., E. O. 9788, Oct. 14, 1946, 11 F. R. 11981, 12123; 3 CFR 1946 Supp.)

PART 503—AVAILABILITY OF RECORDS

MISCELLANEOUS AMENDMENTS

The amendment of other parts of this chapter and reorganizations of the Office of Alien Property have made it necessary to amend Part 503 to reflect the changes made. Since no additional requirements are imposed on the public, it is hereby found that notice, hearing and suspension of applicability are unnecessary.

1. Section 503.1 (a) and (b) state that applications for copies or inspection of certain records of the Office of Alien Property are to be made to the Secretary. The office of Secretary has been terminated and applications are now to be made to the Records Officer. In addition, subparagraph (3) of § 503.1 (a) and subparagraph (2) of § 503.1 (b) refer to available determinations, opinions, and orders of the Hearing Examiners Branch and records made in that Branch. There is no longer a Hearing Examiners Branch but those documents are available as before. In addition, change of the regulations for sale of vested property necessitates the change of subparagraph (3) of § 503.1 (b) to conform. Accordingly the introductory text of § 503.1 (a), (a) (3), b, (b) (2) and (3) are amended to read as follows:

§ 503.1 *Official records available to public—(a) Records available for inspection and distribution.* The following documents are available for inspection and, insofar as supply permits, for distribution on application to Records Officer, Office of Alien Property, Washington 25, D. C.:

• • • • •

(3) Final determinations, opinions, and orders in cases heard or reviewed by the Vested Property Claims Committee, the Hearing Examiners, or the Director, Office of Alien Property.

• • • • •

(b) *Records available for inspection.* The following documents are available for inspection by persons properly and directly concerned on application to Records Officer, Office of Alien Property, Washington 25, D. C.:

• • • • •

(2) Records in cases heard or reviewed by the Vested Property Claims Committee, the Hearing Examiners, or the Director, Office of Alien Property.

(3) Authorizations to offer for sale, records of bids in public sales, orders of sale or rejection, and notifications of acceptance.

2. Section 503.17 declares the confidential status of records of the Office of Alien Property and provides that, among others, the Assistant to the Attorney General has discretionary authority to disclose such records. The title of that official has been changed to Deputy Attorney General. In addition, certain officials of the Office of Alien Property are granted authority to disclose in the conduct of affairs of their branches and offices. The group of officials now differs from those previously stated. Accordingly, § 503.17 is amended to read as follows:

§ 503.17 *General rule as to non-availability of records of the Office of Alien Property.* All official files, documents, records and information in the Office of Alien Property, or in the custody or control of any officer, employee, agent or delegate of the Office of Alien Property, are to be regarded as confidential. No officer, employee, agent or delegate may permit the disclosure or use of the same for any purpose other than for the performance of his official duties, except in the discretion of the Attorney General, the Deputy Attorney General, the Director, or the Deputy Director, of the Office of Alien Property: *Provided, however,* That each branch chief, the Chief, Legal and Legislative Section, the Manager, New York Office, the Manager, Hawaii Office, and the Manager, Philippine Office, are authorized to make available or disclose such official files, documents, records and information in the Office of Alien Property, other than classified security information, in the conduct of affairs of his branch, section, or office, unless otherwise instructed by the Director. Whenever a subpoena duces tecum is served to produce any such files, documents, records or information, the officer, or employee, or agent, or delegate on whom such subpoena is served, unless otherwise expressly directed by the Attorney General, will appear in court in answer thereto and respectfully decline to produce the records specified therein, on the ground that the disclosure of such records is prohibited by this section.

(Sec. 301, 55 Stat. 839; 50 U. S. C. App. 616. E. O. 9193, July 6, 1942, 7 F. R. 5205, 3 CFR 1943 Cum. Supp.)

Executed at Washington, D. C., on December 19, 1952.

PART 505—SPECIFIC PROHIBITIONS

ACTIVITIES OF EMPLOYEES AND FORMER EMPLOYEES OF PHILIPPINE ALIEN PROPERTY ADMINISTRATION

The designation of the Office of Alien Property as successor to the former Philippine Alien Property Administration requires the amendment of certain sections of this part to conform existing prohibitions on activities of employees and former employees respecting the functions and property of the former Philippine Alien Property Administration.

1. Section 505.50 (a) prohibits officers and employees of the Office of Alien Property from dealing with property vested in or transferred to the Alien Property Custodian or the Attorney General. Property vested in the Philippine Alien Property Administrator has been transferred to the Attorney General and § 505.50 (a) is therefore amended to make express reference to such property, as follows:

§ 505.50 *Prohibition of transactions by personnel of the Office of Alien Property.* (a) No person connected directly or indirectly with the Office of Alien Property shall effect or cause to be effected for personal benefit or profit any sale or purchase of, or other transaction in, or otherwise deal or participate in any property or interest therein concerning which the Alien Property Custodian, the Philippine Alien Property Administrator, or the Attorney General has acted, or may hereafter act under the provisions of the Trading With the Enemy Act of Otcober 6, 1917, as amended, or pursuant to the powers delegated to the Attorney General by the President under Executive Order 9788 of October 14, 1946, 3 CFR, 1946 Supp., Executive Order 9989 of August 20, 1948, 13 F. R. 4891, 3 CFR, 1948 Supp., and Executive Order 10254 of June 15, 1951, 16 F. R. 5829, 3 CFR, 1951 Supp.

2. Section 505.60 (a) and (b) presently prohibit former officers and employees of the Office of Alien Property, or of certain other agencies which dealt with alien property or foreign funds control matters, from representing claimants in connection with matters concerning which they gained personal knowledge while so employed or associating with others who gained such knowledge. The agencies mentioned should include the former Philippine Alien Property Administration, of which the Office of Alien Property is the successor. Section 505.60 as hereby amended is to include pub-

chapter.

lished reference to the Philippine Alien Property Administration, to omit reference to 41 U. S. C. 119 which was repealed by 62 Stat. 862, and to require affidavits from all former officers or employees of such agencies so as to ascertain that compliance with the prohibition is obtained. In addition, the regulation is clarified by making specific the requirement that the applicant state that he took no action concerning the matter in question. Therefore, § 505.60 is amended to read as follows:

§ 505.60 *Limitation on representative activities by former employees.* No former officer, clerk, or employee of the Office of Alien Property, or the Office of Alien Property Custodian, or the Philippine Alien Property Administration, nor any former officer, clerk, or employee of the Treasury Department or of any Federal Reserve Bank who performed duties in connection with Foreign Funds Control nor any former officer, clerk, or employee of the Department of Justice who performed duties in connection with Alien Property Custodian functions, may appear before the Office of Alien Property in a representative capacity unless he obtains the prior approval of the Director of the Office of Alien Property in each matter. To obtain such approval he must file with the Director an affidavit in duplicate stating:

(1) The department or agency in which employed and the dates of such employment;

(2) That while he was so employed the particular matter was not pending in such department or agency, or if it was so pending that he

(i) Took no personal action with respect to it;

(ii) Gave no personal consideration to it;

(iii) Gained no personal knowledge of its facts, and

(iv) Is not, and will not be, associated in the particular matter with any person who took personal action with respect to it, or personally considered it or gained personal knowledge of its facts while so employed.

NOTE: Attention is called to the provisions of R. S. 190 (5 U. S. C. 99) and 18 U. S. C. 281, 283, and 284.

3. Section 505.61 *Interpretation of § 505.60* is merely an informational reference to the presently applicable R. S. 190, 5 U. S. C. 99, and 41 U. S. C. 119, since repealed by 62 Stat. 862. Publication of this section is discontinued.

(Sec. 7, 40 Stat. 416, 50 U. S. C. App. 7; Sec. 301, 55 Stat. 839, 50 U. S. C. App. 5; E. O. 9193, July 6, 1942, 7 F. R. 5205, 3 CFR, 1943 Cum. Supp.; E. O. 9788, October 14, 1946, 11 F. R. 11981, 3 CFR, 1946 Supp.)

PART 506—PROPERTY IN PROCESS OF JUDICIALLY SUPERVISED ADMINISTRATION OR IN COURT OR ADMINISTRATIVE PROCEEDINGS

PAYMENT, TRANSFER, OR DISTRIBUTION OF PROPERTY OF CERTAIN COUNTRIES AND NATIONALS

This part, consisting of the two sections, states the scope of restrictions on transfers of judicially supervised property of nationals of certain foreign countries. By amending so as to restate the substance of the two sections (§ 506.1, § 506.2) in one, greater clarity will result. Since no additional requirements are imposed on the public, it is hereby found that notice, hearing, and suspension of applicability are unnecessary. Accordingly, § 506.2 is discontinued and § 506.1 is amended to read as follows:

§ 506.1 *Payment, transfer, or distribution of property of certain countries and nationals in the process of administration by any person acting under judicial supervision, or in court or administrative actions or proceedings.* (a) No designated person shall pay, transfer, or distribute, or cause to be paid, transferred, or distributed, any property of any nature whatsoever, as defined in paragraph (b) of this section unless:

(1) The Attorney General, or any agency, instrumentality, agent, delegate, or other personnel, appointed or designated by him, has

(i) Issued to the designated person a written consent to the payment, transfer, or distribution, or

(ii) Filed a written statement in the court or administrative action or proceeding in connection with which the payment, transfer, or distribution is proposed, that he has determined not to represent the designated national, or

(iii) Represented the designated national in such action or proceeding by the appearance therein of a representative on behalf of the designated national, and such representative has been served by the designated person with written notice of the proposed payment, transfer, or distribution, and ninety days have expired without the exercise of any other power or authority with respect to such property, and

(2) The payment, transfer, or distribution is licensed or otherwise authorized pursuant to the provisions of Part 511 of this chapter.

(b) For the purpose of this section, the terms:

(1) "Property" means:

(i) Property which on December 31, 1946, was located in the United States, or any territory or possession thereof, and income from such property accruing on and after December 31, 1946, in which on that date the Governments of Germany or Japan or any agent, instrumentality or representative of either government, or any person within Germany or Japan, or a citizen or subject of Germany or Japan within Italy, Bulgaria, Hungary, or Rumania had any interest, or

(ii) Property which on December 7, 1945, was located in the United States, or any territory or possession thereof, and income from such property accruing on and after December 7, 1945, in which on that date the Government of Italy, Bulgaria, Hungary, or Rumania, or any agent, instrumentality or representative of any such government, or any person (other than a citizen or subject of Germany or Japan) within Italy, Bulgaria, Hungary, or Rumania had any interest;

(2) "Designated person" shall mean a person or officer acting under judicial supervision, or in any court or administrative action or proceeding, or in partition, libel, condemnation or other similar proceedings, including, but not by way of limitation, (i) executor, (ii) administrator, (iii) guardian, (iv) committee, (v) curator, (vi) trustee under will, deed or settlement, (vii) receiver, (viii) trustee in bankruptcy, (ix) assignee for the benefit of creditors, (x) United States marshal, (xi) sheriff, (xii) commissioner, (xiii) person acting under trust agreement, and (xiv) all other persons or officers acting in a similar capacity.

(3) "Person" shall mean any individual, partnership, association, or corporation.

(4) "Income" shall include, without limitation, any interest, dividend, increment, proceeds, exchange, conversion, or other derivative, direct or indirect.

Section 506.2 *Consent to transfer of property acquired after specified dates* is discontinued.

PART 507—PATENTS, TRADE-MARKS AND COPYRIGHTS

SCOPE OF RESTRICTION COVERING PATENT AND TRADE-MARK PROPERTY OF FORMER ENEMY COUNTRIES AND NATIONALS

In order to restate in current but more concise form the scope of restriction covering patent and trade-mark property of former enemy countries and nationals thereof, and to effect a further release of restrictions with respect to some classes of such property, amendments as set forth below are prescribed. Since no additional requirements are imposed on the public, it is hereby found that notice, hearing, and suspension of applicability are unnecessary.

1. Section 507.1 generally authorized transactions with respect to patent and trade-mark property of foreign countries and nationals other than Germany, Japan, Bulgaria, Hungary and Rumania and nationals of those countries. Section 507.26 subsequently authorized transactions by the five named countries and nationals thereof with respect to

patent property coming into being after dates specified therein. Section 507.41 subsequently authorized transactions by the five named countries and nationals thereof with respect to trade-mark property coming into being after dates specified therein. For purposes of clarity, the scope of present prohibitions is stated in §§ 507.42, 507.46, and 507.50, hereby added, and, incident thereto, §§ 507.1, 507.26, and 507.41 are repealed. These amendments effect a termination of all prohibitions hitherto applicable to patent and trade-mark property of Japan and nationals thereof and a termination of all prohibitions hitherto applicable to trade-mark property of the Federal Republic of Germany and persons within that Republic. Existing prohibitions are continued with respect to trade-mark property of other areas of Germany and persons within those areas and of Bulgaria, Hungary and Rumania and nationals thereof. In addition, the existing prohibitions are continued with respect to patent property of Germany, Bulgaria, Hungary, Rumania and nationals thereof. These sections have no applicability to patent or trade-mark property which is owned or held by or registered in the name of the Attorney General, or which is owned or held by or registered in the name of any business enterprise controlled by the Attorney General. Prohibitions with respect to such property are set forth in § 505.1 of this chapter. Accordingly, the following sections are discontinued: § 507.1 *Licensing certain transactions respecting foreign-owned patents and trade-marks;* § 507.26 *Authorizing the filing and prosecution of patent applications and transactions relating thereto;* § 507.41 *Authorizing the filing, prosecution, and transactions respecting trade-mark applications;* and

The following new sections are added:

§ 507.42 *Patent property of foreign countries and nationals thereof.* (a) Any transaction, transfer or the exercise of any right, power or privilege by or on behalf of or pursuant to the direction of any foreign country specified in paragraph (b) of this section, or any nationals of any such country with respect to Letters Patent or Applications for Letters Patent of the United States based upon any invention made in the territory of any of the countries specified in paragraph (b) of this section or rights or interests therein or related thereto, is hereby prohibited unless authorized by or on behalf of the Attorney General of the United States.

(b) The following countries are specified:

(1) Germany.
(2) Rumania.
(3) Hungary.
(4) Bulgaria.

(c) Notwithstanding the provisions of paragraph (a) of this section and § 511.211a of this chapter there are hereby authorized:

(1) The filing in the United States Patent Office of the following applications:

(i) Applications for Letters Patent filed pursuant to the provisions of 61 Stat. 794 by, or on behalf of, or pursuant to the direction of, Germany, or any national of Germany which are based on inventions made after January 1, 1946; or

(ii) Applications for Letters Patent by or on behalf of, or pursuant to the direction of, Bulgaria, Rumania, or Hungary, or any national of any such country, which were received in the United States after May 15, 1946, or which are based on any blueprints, drawings, sketches, or other information received in the United States after May 15, 1946; and

(2) The prosecution in the United States Patent Office of applications specified in subparagraph (1) of this paragraph of this section, and the receipt of Letters Patent thereon; and

(3) The execution or recording of any instrument, agreement, or understanding affecting title to, or interest in, any application specified in subparagraph (1) of this paragraph, or any Letters Patent issued under subparagraph (2) of this paragraph: *Provided, however,* That any application filed pursuant to subdivision (i) of subparagraph (1) of this paragraph and any Letters Patent issued thereon pursuant to subparagraph (2) of this paragraph shall be subject to any conditions and limitations with respect to duration, revocation, utilization, assignment, or licensing which may be imposed by Congress, or by the President in accordance with the provisions of any treaty hereafter entered into with Germany and: *Provided further,* That nothing in this section is intended as a limitation upon the right of the Attorney General of the United States to exercise vesting powers under the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1–40), with respect to patent property.

(d) The term "national" shall have the meaning prescribed in section 5 of Executive Order No. 8389, 3 CFR, 1943 Cum. Supp., as amended, except that the following, for the purposes noted, shall be deemed not to be nationals of a foreign country specified in paragraph (b) of this section:

(1) For the purpose of any transaction prohibited by this section, any individual who is and has been a resident of the United States on and since December 7, 1941, and who is a national of such foreign country solely by reason of the fact that such individual has been domiciled in, or a subject, citizen, or resident, of such country at any time on or since the effective date of Executive Order No. 8389, as amended, and any partnership, association, corporation, or other organization which is a national of such foreign country specified in paragraph (b) of this section solely by reason of the interest therein of such person or persons; and

(2) For the purpose of receiving an assignment of a United States patent or patent application, or an undivided interest therein, any partnership, association, corporation, or other organization which is organized under the laws of the United States, or of any of them, or any resident of the United States.

(e) Notwithstanding the provisions of § 511.211a of this chapter all transactions with respect to the United States Letters Patent, applications therefor, and rights and interests therein or related thereto of foreign countries and nationals thereof not prohibited by this section are authorized under the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1–40).

§ 507.46 *Trade-mark property of Germany and nationals thereof.* (a) Any transaction, transfer or the exercise of any right, power or privilege by or on behalf of or pursuant to the direction of Germany, or nationals of Germany with respect to any trade-mark or trade-name, or rights or interests therein or related thereto, which was in or registered in the United States on December 31, 1946, is prohibited, unless authorized by or on behalf of the Attorney General or the Director, Office of Alien Property.

(b) Notwithstanding the provisions of paragraph (a) of this section and § 511.211a of this chapter there are hereby authorized all transactions relating to trade-marks used on goods produced solely by German manufacturers in the Federal Republic of Germany or in the United States, United Kingdom, or French Sectors of Berlin, including the payment or receipt of funds or credits with respect to such transactions by, or on behalf of, the Federal Republic of Germany, or any national of Germany who, at the time of performance of any transaction authorized by this section is domiciled in the Federal Republic of Germany or the United States, United Kingdom, or French Sectors of Berlin.

(c) The term "national" shall have the meanings prescribed in Section 5 of Executive Order No. 8389, 3 CFR, 1943 Cum. Supp., as amended, except that any individual who is and has been a resident of the United States on and since December 7, 1941, and who is a national of Germany solely by reason of the fact that such individual has been domiciled in, or a subject, citizen, or resident of, such country at any time on or since the effective date of Executive Order No. 8389, 3 CFR, 1943 Cum. Supp., as amended, and any partnership, association, corporation, or other organization which is a national of Germany solely by reason of the interest therein of such person or persons shall not be deemed nationals within the meanings so prescribed.

(d) Nothing contained in this section shall apply to trade-marks or trade-names or rights related thereto which are owned or held by, or registered in the name of, the Attorney General of the United States or are owned or held by, or registered in the name of any business enterprise which is supervised or controlled by the Attorney General. Prohibitions with respect thereto are set forth in § 505.1 of this chapter.

§ 507.50 *Trade-mark property of Rumania, Hungary, Bulgaria or nationals thereof.* (a) Any transaction, transfer or the exercise of any right, power or privilege by or on behalf of or pursuant to the direction of any foreign country

specified in paragraph (b) of this section, or any nationals of any such country with respect to any trade-mark or trade-name or rights or interests therein or related thereto, which was in or registered in the United States on May 15, 1946, is prohibited, unless authorized by or on behalf of the Attorney General of the United States.

(b) The following countries are specified:

(1) Rumania.
(2) Hungary.
(3) Bulgaria.

(c) Notwithstanding the provisions of paragraph (a) of this section, the following transactions are authorized by or on behalf of, or pursuant to the direction of any foreign country specified in paragraph (b) of this section, or any nationals of any such country:

(1) The filing in the United States Patent Office of applications for registration of trade-marks not adopted or used in any country prior to May 15, 1946; and

(2) The prosecution in the United States Patent Office of applications specified under subparagraph (1) of this paragraph, and the receipt of trade-mark registration certificates thereon; and

(3) The execution or recording of any instrument, agreement, or understanding affecting title to, or interest in, any trade-mark registered pursuant to paragraph (b) of this section.

(d) The term "national" shall have the meanings prescribed in section 5 of Executive Order No. 8389, 3 CFR, 1943 Cum. Supp., as amended, except any individual who is and has been a resident of the United States on and since December 7, 1941, and who is a national of such foreign country solely by reason of the fact that such individual has been domiciled in, or a subject, citizen, or resident of, such country at any time on or since the effective date of Executive Order No. 8389, 3 CFR, 1943 Cum. Supp., as amended, and any partnership, association, corporation, or other organization which is a national of such foreign country specified in paragraph (b) of this section solely by reason of the interest therein of such person or persons shall not be deemed nationals within the meanings so prescribed.

(e) Nothing contained in this section shall apply to trade-marks or trade-names or rights related thereto which are owned or held by, or registered in the name of, the Attorney General of the United States or are owned or held by, or registered in the name of any business enterprise which is supervised or controlled by the Attorney General. Prohibitions with respect thereto are set forth in § 505.1 of this chapter.

§ 507.52 *License and authorization with respect to trade-mark property.* Notwithstanding § 511.211a of this chapter all transactions with respect to trade-marks in the United States, registrations thereof and rights and interests therein or related thereto of foreign countries or nationals thereof not prohibited by §§ 507.46 or 507.50 are authorized under the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1–40): *Provided*, That nothing in this part is intended as a limitation upon the right of the Attorney General to exercise vesting power under the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1–40) with respect to trade-mark property.

(Sec. 301, 55 Stat. 839; 50 U. S. C. App. 616. E. O. 9193, July 6, 1942, 7 F. R. 5205; 3 CFR 1943 Cum. Supp.; E. O. 9989, Aug. 20, 1948, 13 F. R. 4891; 3 CFR 1948 Supp.)

PART 509—FOREIGN EXCHANGE

REVOCATION OF PART

Part 509 consisting of § 509.1 *Value of rates of exchange of monetary units of enemy countries*, which specified rates of exchange to be applied in certain instances of enemy currency obligations owed the Office of Alien Property, is revoked. Since no additional requirements are imposed upon the public, it is hereby found that notice, hearing, and suspension of applicability are unnecessary. Revocation of this part does not relieve or excuse any person from any obligation heretofore accrued pursuant to the terms of this part.

(Sec. 301, 55 Stat. 839, 50 U. S. C. App. 616. E. O. 9193, July 6, 1942, 7 F. R. 5205, 3 CFR, 1943 Cum. Supp.)

Executed at Washington, D. C., on December 19, 1952.

PART 510—REPORTS

MISCELLANEOUS AMENDMENTS

This part specifies certain requirements for reports with respect to foreign property and interests in the United States. Certain sections of this part previously specified general report requirements which by other sections were modified or suspended. The purpose of these amendments is to integrate certain sections and to discontinue publication of certain others which no longer require publication. Since no additional requirements are imposed upon the public, it is hereby found that notice, hearing, and suspension of applicability are unnecessary.

1. Sections 510.1 and 510.3 required reports with respect to property or interests of the six former enemy countries or nationals thereof in court or administrative proceedings in the United States and in its territories and possessions. Sections 510.2 and 510.9 subsequently suspended those requirements with respect to four of the former enemy countries and nationals thereof other than German or Japanese citizens within the four countries. Section 510.1 is amended to restate the presently limited scope of reporting requirements under these sections, and §§ 510.2, 510.8 and 510.9 are revoked.

§ 510.1 *Reports with respect to property or interests of Germany, Japan, nationals thereof and citizens or subjects of either country within Italy, Bulgaria, Hungary, or Rumania.* (a) All designated persons shall file a report of any property or interest which there is reasonable cause to believe is in any of the following categories:

(1) Property which on December 31, 1946, was located in the United States, or any territory or possession thereof, and in which on that date any of the following had any interest:

(i) The Government of Germany or Japan, or any agent, instrumentality, or representative of either government;

(ii) A person within Germany or Japan, or a citizen or subject of either country within Italy, Bulgaria, Hungary, or Rumania;

(2) Income from the property described in subparagraph (1) of this paragraph accruing on or after December 31, 1946.

(b) For the purpose of this section:

(1) "Designated persons" means persons or officers acting under judicial supervision, or in any court or administrative action or proceeding, or in partition, libel, condemnation or other similar proceedings, including, but not by way of limitation, (i) executors, (ii) administrators, (iii) guardians, (iv) committees, (v) curators, (vi) trustees under wills, deeds or settlements, (vii) receivers, (viii) trustees in bankruptcy, (ix) assignees for the benefit of creditors, (x) United States marshals, (xi) sheriffs, (xii) commissioners, (xiii) persons acting under trust agreements, and (xiv) all other persons or officers acting in a similar capacity;

(2) "Report" means a report on Form APC–3, prescribed in § 501.80 of this chapter;

(3) "File a report" means filing a report on Form APC–3 with the Office of Alien Property, Department of Justice, Washington 25, D. C.;

(4) "Person" means any individual, partnership, association, or corporation;

(5) "Income" shall include, without limitation, any interest, dividend, increment, proceeds, exchange, conversion, or other derivative, direct or indirect.

2. Section 510.10 *Reports concerning patents and patent applications in which there is an enemy or foreign national interest*, which required the filing of reports by August 15, 1942 on Form APC–2 by those claiming interests in or licenses or other rights respecting patents or patent applications in which foreign nationals had any interest after January 1, 1939, has expired by its own terms. Publication is discontinued but expiration does not relieve or excuse any person from previous failure to report as required.

3. Section 510.12 *Report of unfiled patent applications and disclosures of enemy nationals*, which required the reporting by December 31, 1942 (1) of patent and trade-mark application data received from certain foreign nationals, and (2) on Forms APC–13P and APC–13T of patent and trade-mark licenses or assignments to which certain foreign nationals were parties, has expired by its own terms. Publication is discontinued but expiration does not relieve or excuse any person from previous failure to report as required.

4. Section 510.13 *Exemption from the requirements of § 510.12:* Publication is discontinued.

5. Section 510.14 *Exemption from the requirements of § 510.12 and § 510.40:* Publication is discontinued.

6. Section 510.40 *Report regarding interests of foreign nationals in trade-marks and commercial prints and labels*, which required reports by February 1, 1944, on Form APC–31 of rights or interests acquired from certain foreign nationals with respect to trade-marks in which such nationals had interests after January 1, 1939, has expired by its own terms. Publication is discontinued but expiration does not relieve or excuse any person from previous failure to report as required.

7. Section 510.60 *Report of interest of designated foreign nationals in copyrights*, which required reports by January 15, 1943, on Form APC–18 with respect to rights or interests in works subject to copyright acquired from certain foreign nationals, has expired by its own terms. Publication is discontinued but expiration does not relieve or excuse any person from previous failure to report as required.

8. Paragraph (b) of § 510.70 refers to certain definitions heretofore set forth in § 510.60 which has been discontinued. Section 510.70 (b) is amended to read as follows:

§ 510.70 *Report of royalties due and payable under vested interests in works subject to copyright.* • • •

(b) For the purposes of this section:

(1) "Person" shall mean any individual, partnership, association or corporation.

(2) "Interest" in a work subject to copyright shall mean: Ownership, part ownership, or claim of ownership, in whole or in part, of any subsisting copyright or claim of copyright, and any right, license, privilege, or property in or to or with respect to such work; and any right, title or interest in, to or under any contract or other instrument, and any royalty, share of profits, license fees, or other emolument or compensation reserved with respect thereto. Such interest shall also include, but not by way of limitation, any interest as described in this subparagraph which is held or claimed as trustee, agent, representative or nominal proprietor.

(3) "Work subject to copyright" shall mean: All the writings of an author within the meaning of the Copyright Act, including, but not by way of limitation, literary, artistic, dramatic, musical and dramatico-musical compositions, and any and all versions, adaptations, arrangements, transcriptions, translations, and recordings thereof, whether or not copyright has been obtained thereon in the United States: *Provided, however*, That such term shall not include commercial prints and labels.

(4) "Royalties" shall be deemed to include, but not by way of limitation, fees, serial or other payments, shares of profits, and any and all other emoluments or compensation.

9. Section 510.85 *Reports of property owned by persons to be repatriated:* This section, which required reports on Form APC–48 by intended repatriates to enemy countries of their property within the United States, is hereby revoked.

10. Section 510.90 calls for reports on Form APC–56 with respect to property of Germany or Japan or nationals thereof. A proviso excepts from the scope of reportable property those categories previously reportable pursuant to §§ 510.1, 510.10, 510.12, 510.40 and 510.60. In view of the discontinuance of publication of all those sections other than § 510.1, continued reference thereto would be inapposite and paragraph (a) is amended to omit reference to them.

§ 510.90 *Reports of property of Germany and Japan and any national thereof.* (a) Every person in the United States who, on or after December 31, 1945, has any interest in or legal title to or custody or control or possession of any property or interest of any nature whatsoever within the United States, and believes or has cause to believe that such property or interest is or may be directly or indirectly owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or claimed by, or is evidence of ownership or control of property or interest by, Germany or Japan or any national thereof, shall file with the Office of Alien Property on or before March 31, 1946, a report on Alien Property Custodian Form APC–56, containing the information called for and in conformity with instructions, whether or not a report with respect to any such property or interest shall have been filed previously with any Government agency: *Provided*, That if such belief or cause to believe is acquired after March 31, 1946, such reports shall be filed within 60 days after such belief or cause to believe; *And provided further*, That no report on Form APC–56 need be filed with respect to the following: (1) Interests in or relating to patents, reportable pursuant to § 510.30; (2) interests in or relating to copyrights, reportable pursuant to § 510.70; (3) interests in or relating to trade-marks, commercial prints, and labels, reportable pursuant to § 510.46; and (4) any property being administered under judicial supervision, or which is in partition, libel, condemnation or other such proceedings, reportable pursuant to § 510.1. For the purpose of this paragraph, safe deposit boxes shall be deemed to be in the "custody" not only of all lessees thereof and all persons having access thereto, but also of the lessors of such boxes, whether or not such lessors have access thereto.

11. Section 510.91 *Extension of time for filing reports required by § 510.90:* This section extended the general reporting date of § 510.90 from February 28, 1946, to March 31, 1946. This extension has been embodied in the amendment herein of paragraph (a) of § 510.90 and § 510.91 is, therefore, revoked.

(Sec. 301, 55 Stat. 839, 50 U. S. C. App. 616. E. O. 9193, July 6, 1942, 7 F. R. 5205; 3 CFR, 1943 Cum. Supp.)

PART 511—BLOCKED ASSETS

SUBPART D—PUBLIC CIRCULARS

Public Circular No. 37 (§ 511.337) required reports on or before July 15, 1948, concerning blocked property in the United States on June 1, 1948. This reporting requirement was superseded by Public Circular No. 39 (formerly § 512.339, since discontinued as a published regulation). Since the requirement of Public Circular No. 37 has expired by its own terms, continued publication is unnecessary. It is hereby found that amending this part by discontinuing publication of § 511.337 imposes no additional requirement on the public and that notice, hearing, and suspension of applicability are unnecessary.

Section 511.337 *Public Circular No. 37*, which required reports, on Form TFR–600, of property blocked under Executive Order 8389, 3 CFR, 1943 Cum. Supp., as amended, on or before July 15, 1948, is discontinued.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

[B. A. I. Order 380, Amdt. 4]

PART 72—TEXAS (SPLENETIC) FEVER IN CATTLE

PREVENTION OF SPREAD OF SPLENETIC OR TICK FEVER IN CATTLE

Pursuant to the authority conferred by sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123 and

125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111 and 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), the regulations for the prevention of the spread of splenetic or tick fever in cattle (9 CFR and 1951 Supp., Part 72) are hereby amended as follows:

1. Section 72.2 is amended to read as follows:

§ 72.2 *Splenetic or tick fever in cattle in described area in Texas, Puerto Rico, and the Virgin Islands of the United States; restrictions on movement of cattle.* Notice is hereby given that the contagious, infectious, and communicable disease known as splenetic or tick fever exists in cattle in portions of the State of Texas and in the Territories of Puerto Rico and the Virgin Islands of the United States. Therefore, those portions of the State of Texas and the Territories of Puerto Rico and the Virgin Islands of the United States described in §§ 72.3, 72.4, and 72.5 are hereby quarantined, and the movement of cattle therefrom into any other State or Territory or the District of Columbia shall be made only in accordance with the provisions of this part and Part 71 of this chapter.

2. A new section is added, designated as § 72.3 and reading as follows:

§ 72.3 *Area quarantined in the Virgin Islands of the United States.* The entire Territory of the Virgin Islands of the Unted States is quarantined.

The purpose of these amendments is to quarantine the Virgin Islands of the United States because of the existence therein of splenetic or tick fever in cattle, a contagious, infectious, and communicable disease of livestock, and of cattle fever ticks in considerable numbers, and to restrict the movement of cattle therefrom. Protection of the livestock industry of the United States requires that these amendments be made effective as soon as possible in order to prevent the spread of such disease and fever ticks. Accordingly, pursuant to the provisions of section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing amendments are impracticable and contrary to the public interest and good cause is found for making the amendments effective less than 30 days after publication hereof in the FEDERAL REGISTER. Such notice and hearing are not required by any other statute.

The foregoing amendments shall become effective upon issuance hereof.

(Sec. 2, 32 Stat. 792, ch. 30, 45 Stat. 59; 21 U. S. C. 111. Interpret or apply sec. 3, 33 Stat. 1265; 21 U. S. C. 125)

Done at Washington, D. C., this 23d day of December 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Subchapter A—Civil Air Regulations

[Supp. 16]

PART 3—AIRPLANE AIRWORTHINESS; NORMAL, UTILITY, AND ACROBATIC CATEGORIES

DESIGN CRITERIA

Section 3.171 (c) provides that simplified structural design criteria shall be acceptable if the Administrator finds that they result in design loads not less than those prescribed in §§ 3.181 through 3.265. This supplement refers to design criteria found by the Administrator to meet the prescribed design loads.

The following policies are hereby adopted:

§ 3.171-1 *Design criteria (CAA policies which apply to § 3.171 (c)).* The Administrator finds that the simplified structural design criteria contained in Appendix A [1] to Civil Aeronautics Manual 3, result in design loads not less than those prescribed in §§ 3.181 through 3.265.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies sec. 603, 52 Stat. 1009; 49 U. S. C. 553)

These policies shall become effective January 31, 1953.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

AUTHORITY: §§ 50.4–50.21 issued under sec. 104, 66 Stat. 174. Statutory provisions interpreted or applied are cited to text.

FORMAL RENUNCIATION OF NATIONALITY

§ 50.4 *Renunciation procedure.* Persons desiring to renounce their United States nationality under section 349 (a) (6) of the Immigration and Nationality Act (66 Stat. 268) may do so by appearing before a diplomatic or consular officer of the United States and taking an oath of renunciation of nationality of the United States in the form proscribed by the Secretary of State.

§ 50.5 *Execution and disposition of oath of renunciation.* The form shall be executed in quadruplicate. The original and one copy shall be sent to the Department, and two copies retained in the files of the office in which it was executed. After the Department of State has approved the form, it will so advise the appropriate officer of the Foreign Service, who will thereafter make a notation on the two copies retained by him that the form has been approved by the Department and showing the day of approval. A copy of such form may be furnished to the person to whom it relates upon request therefor. When submitting the form of renunciation of American nationality, it must be accompanied by the certificate of loss of American nationality. The approval of the certificate of loss of nationality will

be by rubber stamp thereon which may also be taken to cover approval of the form of renunciation of nationality.

OATH OF ALLEGIANCE TAKEN BY DUAL NATIONAL TO AVOID DIVESTITURE OF UNITED STATES NATIONALITY

§ 50.6 *Dual nationals voluntarily seeking or claiming benefits of foreign nationality.* A person who acquired at birth the nationality of the United States and of a foreign state and who has voluntarily sought or claimed benefits of the nationality of any foreign states, as, for example, by applying for a foreign passport or identity card, or by applying for registration as a national of a foreign country, or by any other similar act, regardless of whether he is a national of such state, shall be deemed to be within the scope of section 350 (1) of the Immigration and Nationality Act (66 Stat. 269). The section is not considered applicable to a person who has sought or claimed benefits of the nationality of any foreign state in a manner which has caused loss of American nationality.

§ 50.7 *Procedure for taking oath.* A person who desires to take an oath of allegiance to the United States before a United States diplomatic or consular officer for the purpose of avoiding the loss of American nationality under section 350 (1) of the Immigration and Nationality Act (66 Stat. 269) shall execute an application for a passport or registration as an American citizen, which application shall contain an oath of allegiance in the form prescribed by the Secretary of State.

§ 50.8 *Effect of taking oath.* The oath of allegiance, when taken before a United States diplomatic or consular officer, shall be deemed sufficient to fulfill the requirement of section 350 (1) of the Immigration and Nationality Act (66 Stat. 269), provided that the person has passed the age of 22 years and has not thereafter resided continuously for three years in the foreign state of which he is a national by birth, and provided also that the oath shall not be required of such a person if his foreign residence begins after he has attained the age of 60 years and he shall have had his residence in the United States for 25 years after having attained the age of 18 years.

ASSERTION BY MINOR OF CLAIM TO UNITED STATES NATIONALITY

§ 50.9 *Procedure for asserting claim.* A national of the United States, who, while under eighteen years of age, has expatriated himself under the provisions of section 349 (a) (2), (4), (5), or (6) of the Immigration and Nationality Act (66 Stat. 267–268) may assert his claim to United States nationality under section 351 (b) of the Immigration and Nationality Act (66 Stat. 269) within six months after attaining the age of 18 years on the form prescribed for this purpose by the Secretary of State.

§ 50.10 *Execution and disposition of form.* The form for asserting the claim to the nationality of the United States shall be executed in triplicate. The original shall be forwarded to the Department of State, a copy shall be retained in the office in which it was executed, and a copy shall be furnished to the person asserting the claim.

CRITERIA FOR DETERMINING WHETHER NATURALIZED NATIONAL COMES WITHIN SCOPE OF SECTION 354 (2)

§ 50.11 *Carrying on a commercial enterprise.* Under section 354 (2) (A) of the Immigration and Nationality Act (66 Stat. 271), a naturalized American national residing abroad temporarily for the purpose of engaging in a commercial enterprise which substantially and directly benefits American trade or commerce shall not lose his nationality by having a continuous residence for five years in any foreign state or states covered by section 352 (a) (2) of the Immigration and Nationality Act (66 Stat. 269). It must appear that the national has no substantial or controlling reason for residing abroad other than to engage in the commercial enterprise and that his foreign residence is temporary. Further, the character of the commercial enterprise must be such that its effect is to increase directly and substantially production, sales, inventory, or profits, or to facilitate the acquisition of raw materials, distribution of products or the extension of services of or for an American financial, commercial, or business organization having its principal place of business in the United States.

§ 50.12 *Carrying on scientific research.* (a) Under section 354 (2) (B) of the Immigration and Nationality Act (66 Stat. 271), a naturalized American national, who is temporarily residing abroad for the purpose of carrying on scientific research on behalf of a bona fide educational, research, experimental, or other institution, which institution shall be specifically accredited by the Secretary of State, and the purpose of which research is to discover, develop, or test scientific knowledge, principles, theory, apparatus, etc., for practical uses or applications which would directly and substantially benefit the interests of the United States, shall not be deemed to have lost his American nationality by having a continuous residence for five years in any foreign state or states covered by section 352 (a) (2) of the Immigration and Nationality Act (66 Stat. 269).

(b) The term "an institution accredited by the Secretary of State" means an institution which has established by evidence satisfactory to the Secretary of State that it is engaged in research which is directly and substantially beneficial to the United States. The evidence to show that the institution in which the naturalized American citizen is employed is such an organization, may be submitted when the naturalized citizen first applies for further passport facilities or for registration as an American citizen. Initially, there shall be submitted an affidavit by two principal officers of the institution setting forth complete information concerning the institution and its activities. In the affidavit, the name of the institution, the location of its principal office and place, or places, of business and the type of organization, i. e., whether it is a sole proprietorship, partnership, or corporation, should be stated; the owners and officers should be fully identified and their nationalities stated; the names, locations, and activities of organizations and firms of which the institution is a branch, subsidiary, or affiliate, or in which there is a community of ownership, should be stated. The Secretary of State may require such additional evidence as may be deemed necessary for a determination as to whether the institution shall be accredited.

(c) After an institution has been once accredited by the Secretary of State, it will be necessary only to submit evidence to show that its character and operations have not changed in the interim from the date of such accrediting and the time at which a person may subsequently seek to claim the benefits of section 354 (2) (B) of the Immigration and Nationality Act (66 Stat. 271).

(d) Where more than one person is engaged simultaneously in essentially similar scientific research for the same institution, it will be necessary to submit the required evidence concerning the character and operations of the institution only in the case of one person. However, evidence must be submitted in each individual case to show that the person concerned is doing scientific research of the type specified in this paragraph for the accredited institution.

(e) Each case and each organization must be considered on its merits, and, on the basis thereof as submitted, officers of the Foreign Service will be advised from time to time by the Department of State of the names of the scientific research institutions which have been accredited.

§ 50.13 *Work or activities under unique or unusual circumstances.* (a) Under section 354 (2) (C) of the Immigration and Nationality Act (66 Stat. 271), a naturalized American citizen residing abroad temporarily, who under unique or unusual circumstances engages in work or activities which directly and substantially benefit the interests of the United States, shall not be deemed to have lost his nationality under section 352 (a) (2) of the Immigration and Nationality Act (66 Stat. 269).

(b) Section 354 (2) (C) would apply to a person who, with or without compensation, motivated by devotion to the United States and with intention to benefit the United States engages in work or activities of a continuing nature which enhance in a direct and substantial way the material or cultural wealth, prestige or security of the United States.

(c) It may apply to a person who apparently is abroad for a reason or purpose which ordinarily would not be of direct or substantial benefit to the United States, but who by reason of his employment, position, standing, prestige, influence or associations, is able to contribute in a direct and substantial way to the wealth, prestige or security of the United States.

(d) Each case of this character must be submitted to the Department of State and will be considered on its own merits.

CERTIFICATION OF LOSS OF UNITED STATES NATIONALITY

§ 50.14 *Certification by diplomatic or consular officer.* Whenever a diplomatic or consular officer of the United States has reason to believe that a person, while in a foreign country, has lost his American nationality under any provision of Chapter 3 of Title III of the Immigration and Nationality Act (66 Stat. 267), or under any provision of Chapter IV of the Nationality Act of 1940 (54 Stat. 1168), as amended, he shall certify the facts upon which such belief is based to the Department of State in writing.

§ 50.15 *Cases in which a certificate should be prepared.* The certificate should be prepared in the case of any person coming within the scope of any of the provisions of Chapter IV of the Nationality Act of 1940. The certificate should also be prepared in the case of any person coming within the scope of the provisions of Chapter 3, Title III of the Immigration and Nationality Act, except that, in the case of a national who has performed any of the acts specified in paragraphs (2), (4), (5), and (6) of section 349 (a), Chapter 3, Title III of the Immigration and Nationality Act, such certificate shall not be prepared and submitted until after he shall have attained the age of 18 years and 6 months and shall have failed to assert his claim to United States nationality within 6 months after attaining the age of 18 years in the manner prescribed by the Secretary of State.

§ 50.16 *Affidavit of expatriated person.* When obtainable, an affidavit executed in quadruplicate by the expatriated person shall be attached to each copy of the certificate of the officer. This affidavit shall contain in substance:

(a) That the affiant has voluntarily expatriated himself by the performance of one of the acts or the fulfillment of the conditions specified in Chapter 3, Title III of the Immigration and Nationality Act (66 Stat. 267), or Chapter IV of the Nationality Act of 1940 (54 Stat. 1168);

(b) That his permanent residence in the United States, if he ever had one, has been voluntarily abandoned and that the expatriated person neither intends nor desires to resume residence in the United States in the immediate or near future;

(c) If naturalized in the United States, that the naturalization certificate is or has been surrendered voluntarily because of his expatriation; and

(d) That the affiant neither intends nor desires to preserve his allegiance to the United States but intends and desires to preserve his new allegiance, if one has been acquired.

§ 50.17 *Reference in certificate to other documents.* (a) When documents, communications, or excerpts therefrom, from competent offices or officials of foreign governments, and statements or affidavits by the persons concerned are referred to in that portion of the certificate having reference to the nature of the evidence adduced which is believed to have caused expatriation, verified copies of the documents, communications, statements, affidavits, or excerpts therefrom, shall be attached to and made a part of the certificate.

(b) When reference is made to passports or applications for passports, registration, repatriation, and similar documents, or to affidavits forming a part of an application, or to departmental communications, copies thereof shall not be attached to and made a part of the certificate unless specifically authorized by the Department of State, but the pertinent statement or statements shall be quoted in the certificate. The quotation shall be limited to the admission of the act of expatriation and no extraneous or explanatory matter should be included.

§ 50.18 *Amplification of certificate.* When preparing a certificate of expatriation, the certificate shall be amplified in appropriate cases by adding a paragraph thereto setting forth the names, places and dates of birth, and present addresses of the spouse and children, if any, of the individual concerned and whether any such person is considered to have acquired foreign nationality. The certificate, however, is not to be regarded as a certificate of expatriation of the spouse or children of any person in whose case a certificate is prepared.

§ 50.19 *Execution and distribution of certificate.* The certificate shall be executed in quadruplicate. The original and two copies shall be sent to the Department and one copy retained in the files of the office in which it was executed. After the Department of State has approved the certificate, one copy shall then be returned to the appropriate diplomatic or consular officer, who shall thereafter make a notation on the copy retained by him to the effect that the certificate has been approved by the Department under the date which appears on the approved copy returned to him by the Department. He shall thereafter forward a copy of such certificate to the person to whom it relates.

ISSUANCE OF CERTIFICATE OF NATIONALITY

§ 50.20 *Application for certificate.* (a) Any person who acquired the nationality of the United States at birth and who is involved in any manner in judicial or administrative proceedings in a foreign state in connection with which the establishment of his nationality in the United States is pertinent, may apply for a certificate of American nationality in the form prescribed by the Secretary of State. (Sec. 359, 66 Stat. 273.)

(b) In the United States, including Alaska and Hawaii, the application must be executed before a clerk of a Federal or State court authorized by section 310 (a) of the Immigration and Nationality Act (66 Stat. 239) to naturalize aliens within the jurisdiction in which the applicant resides, or before an agent of the Department of State. In an insular possession of the United States the application must be executed before a person in the office of the Chief Executive who has authority to administer oaths. In a foreign country the application must be executed before a diplomatic or consular officer of the United States. When an application is executed before a diplomatic or consular officer it shall be in duplicate.

(c) There shall be submitted with the application documentary evidence establishing that the applicant is involved in judicial or administrative proceedings pending in a foreign country in connection with which the establishment of his nationality of the United States is pertinent. There shall be affixed to each application, including the duplicate application when required, a photograph of the applicant not more than 3 by 3 inches and not less than 2½ by 2½ inches in size, unmounted, printed on thin paper showing the full front view of the features of the applicant, and taken within six months of the date when submitted. A separate photograph, which must be identical to that affixed to the application, shall be submitted, in order that it may be affixed to the certificate of nationality if and when issued. The original copy of the application shall in all cases be submitted to the Department of State.

§ 50.21 *Evidence of nationality required.* Each application for a certificate of nationality must be accompanied by evidence of nationality of the character which is required by the Rules Governing the Granting and Issuing of Passports in the United States issued by the President on March 31, 1938, or any rules which may subsequently be issued by him (see 22 CFR §§ 51.51 to 51.73). If the applicant has previously submitted satisfactory evidence of American citizenship in connection with an application for a passport or registration, it will not be necessary for him to duplicate such evidence. It will, however, be necessary for the applicant to satisfy the Secretary of State that he has not expatriated himself under the Immigration and Nationality Act or any prior act.

§ 50.22 *Issuance of certificate.* Upon the approval of the application a certificate of nationality for use in a judicial or administrative proceeding in a foreign state shall be issued.

§ 50.23 *Transmission of certificate to foreign state.* When a certificate of nationality is issued, it shall be transmitted through official channels to the judicial or administrative officer of the foreign state in which it is to be used.

This amendment shall become effective at 12:01 a. m., eastern standard time, December 24, 1952.

Issued: December 19, 1952.

For the Secretary of State.

CARLISLE H. HUMELSINE,
Deputy Under Secretary.

CERTIFICATE OF IDENTITY FOR TRAVEL TO THE UNITED STATES TO APPLY FOR ADMISSION

§ 50.24 *Contents of application.* The application for a certificate of identity shall show:

(a) The full and true name of the applicant;

(b) The period(s) and place(s) of his residence outside the United States;

(c) That he has been physically present in the United States or that he is under sixteen years of age and was born abroad of a citizen parent;

(d) That he claims to be a national of the United States, and the basis of such claim and evidence submitted in support thereof;

(e) That such claim is made in good faith and upon a substantial basis;

(f) That he claims a right or privilege as a national of the United States, and specifically the nature of such claim;

(g) That such right or privilege has been denied him by a specified department or agency or official of the United States on the ground that the applicant is not a national of the United States, and the date and place of such denial;

(h) That he desires to proceed to a port of entry in the United States and there to apply for admission;

(i) That he understands that he may apply for admission into the United States at any port of entry and that he shall be subject to all the provisions of the Immigration and Nationality Act relating to the conduct of proceedings involving aliens seeking admission into the United States;

(j) Such other facts and proofs, with respect to the foregoing, as may be required by the application form or by the diplomatic or consular officer before whom the application for a certificate of identity is executed.

§ 50.25 *Affidavit of supporting witness.* The application for a certificate of identity shall be supported by the affidavit of a credible witness, but this requirement may be waived in the discretion of the diplomatic or consular officer before whom the application is executed.

§ 50.26 *Supporting evidence.* (a) The application for a certificate of identity shall be supported by evidence of the official decision of the specified department, independent agency, or official thereof denying the applicant a right or privilege upon the ground that he is not a national of the United States and evidence that he has exhausted his administrative remedies with such department, agency, or official.

(b) The applicant shall submit with his application for a certificate of identity a statement setting forth in detail the reasons why he considers the final decision of the department, independent agency, or official thereof to be erroneous.

(c) The applicant shall submit a statement that he fully and truthfully disclosed all pertinent facts to the department, independent agency, or official thereof and that he had no additional evidence to submit at that time. The diplomatic or consular officer may require such other evidence of identity and citizenship as may appear to him to be available.

§ 50.27 *Form and execution of application.* (a) The application for a certificate of identity shall be made in quadruplicate on Form FS–343 (revised) and shall be signed and sworn to (or affirmed) by the applicant in person before a diplomatic or consular officer of the United States.

(b) The affidavit of the witness, if not waived, shall also be made before a diplomatic or consular officer of the United States.

(c) The application shall be accompanied by nine identical photographs of the applicant taken within thirty days of the date on which the application is filed. The photographs shall be two by two inches in size, unmounted, printed on thin paper, have a light background, and clearly show a full front view of the features of the applicant) with head bare, unless the applicant is a member of a religious order wearing a headdress), with the distance from the top of head to point of chin approximately one and one fourth inches. Snapshot, group, or full-length pictures will not be accepted.

(d) The applicant, except in the case of a person physically or otherwise incapable of signing his name, shall sign each copy of the photograph with his full, true name in such manner as not to obscure the features. The signature shall be by mark if the applicant is unable to write.

(e) One photograph shall be glued to the original application and one to each copy thereof and impressed with the legend machine so as not to cover the features.

(f) The remaining five photographs shall be affixed in like manner to the certificate of identity and copies thereof in the event that document is issued to the applicant.

(g) Officers not having a legend machine will use the impression seal. The consular impression seal should invariably be used in completing the application.

(h) Fingerprints of the applicant shall be required and attached to the application and each copy thereof, as in the case of a visa.

§ 50.28 *Independent investigation.* When an application for a certificate of identity is executed before a diplomatic or consular officer, an independent investigation of the facts in the case should be made, as far as practicable, by such officer, even though the application and proof submitted therewith may, on their face, appear to justify the issuance of a certificate of identity. Such investigation should include an investigation of all the facts and circumstances which would result in loss of American nationality.

§ 50.29 *New or additional evidence.* At any time during the processing of an application for a certificate of identity, when new or additional evidence which casts doubt on the validity of the original decision that the applicant was not a citizen of the United States comes to the attention of a diplomatic or consular officer, he shall forward the evidence, together with his comments regarding its credibility, to the Department of State. Pending the receipt of that Department's decision in the matter, the diplomatic or consular officer shall take no further action on the application for the certificate of identity.

§ 50.30 *Meaning of good faith.* Good faith means an honest belief of the applicant that he is a national of the United States, and is to be determined by the diplomatic or consular officer of the United States in the light of the facts and circumstances of each case. For example, where it appears that United States nationality has been lost by naturalization of the person upon his own application in a foreign state, good faith would appear to be lacking in the absence of a satisfactory showing to the contrary. Good faith may be considered as lacking when false statements have been made or false documentary evidence has been submitted to the Department, independent agency, or official thereof. Also, special care should be taken in the examination of the case of an applicant who, while in a foreign state, has exercised any rights or performed any duties for which only nationals of such state are eligible, or where the facts of the case indicate that he may have expatriated himself in some manner. Good faith will not be considered as established unless the applicant is able to present evidence to show that he is in fact the individual he claims to be.

§ 50.31 *Meaning of substantial basis.* A substantial basis of a claim of United States nationality means one which satisfies the diplomatic or consular officer of the United States that the claim of the applicant that he is a national of the United States is, notwithstanding any previous ruling of a department, agency, or executive official of the United States, sufficiently meritorious to justify a determination of the question by the Attorney General in connection with an application for admission into the United States. A substantial basis may not be deemed to exist where a court of the United States has held that the person concerned is not an American national.

§ 50.32 *Denial of a right or privilege as a national of the United States.* Denial by a department or agency or official of the United States of a right or privilege as a national of the United States may occur in the administration of various laws. It should appear that the right or privilege denied was one to which the person would otherwise have been entitled but for the fact that he was deemed not to have been a national of the United States. For example, such denial may occur where a person has applied as a national of the United States for a passport or for registration at an American consulate or for nonquota status of an alien wife or minor child, and the application is denied on the ground that the applicant is not a national of the United States. The denial of a right or privilege on the ground that the person has not established his identity is not a denial of any right or privilege as a national of the United States within the meaning of section 360 (b) of the Immigration and Nationality Act (66 Stat. 273).

§ 50.33 *In case of doubt as to issuance of certificate of identity.* Where it appears that the presence of the applicant in the United States would endanger the public safety or where the diplomatic or consular officer believes that the applicant is a national of the United States and entitled to a passport as such or where the diplomatic or consular officer has any doubt with respect to the action he should take upon the application for a certificate of identity, the officer should suspend action and consult the Department of State.

§ 50.34 *Sixty days' notice prior to issuance of certificate of identity.* If the diplomatic or consular officer decides that the issue of a certificate of identity is warranted, he shall give the Department of State by cable sixty days' notice of his intention to issue a certificate of identity and of the travel plans and port of arrival of the applicant. At the same time, he shall forward to the Department by mail three copies of the application for a certificate of identity, a report in triplicate of the result of the independent investigation conducted by him, and the original documentary evidence which was submitted in support of the application. Upon the receipt of the copies of the application and evidence, the Department of State will forward to the District Director of the Immigration and Naturalization Service for the port of arrival full details concerning the case.

§ 50.35 *Form and execution of certificate of identity.* The certificate of identity shall be prepared in quintuplicate on Form FS–343a. It shall be signed and sealed by the diplomatic or consular officer, who shall state on the original and each copy thereof the date and place of issuance. The original shall be delivered to the applicant. The four copies shall be marked "copy". One copy shall be retained in the files of the issuing office, one copy shall be sent to the District Director of the Immigration and Naturalization Service for the port of arrival, and two copies shall be sent to the Department of State.

§ 50.36 *Period of validity of certificate of identity.* A certificate of identity shall be issued only after the applicant has completed his travel plans. The certificate shall expire two months from the date of its issuance and shall be extended only upon the recommendation of the Immigration and Naturalization Service.

§ 50.37 *Denial of certificate of identity.* In case the certificate of identity is denied by a diplomatic or consular officer, a notation to that effect shall be made by him in the space provided therefor at the end of the original application and on each copy thereof. The notation shall set forth definitely the factual and/or legal grounds for the denial. The original application shall be retained in the files of the office to which the application was submitted, one copy shall be returned to the applicant, and two copies shall be sent to the Department of State together with all original documentary evidence submitted by the applicant.

§ 50.38 *Appeal by applicant.* (a) When an applicant is denied a certificate of identity, he may appeal by a written statement to the Secretary of State, setting forth fully the pertinent facts and the grounds upon which United States nationality is claimed and his reasons for considering that the denial of his application by the diplomatic or consular officer is not justified.

(b) The statement shall be executed in quadruplicate and submitted to the diplomatic or consular office in which the denial was made. If the statement contains facts not set forth in the application, it shall be sworn to (or affirmed) by the applicant before a diplomatic or consular officer of the United States and an investigation shall be made by the diplomatic or consular officer of the new or additional facts alleged. A report of this investigation shall accompany the applicant's statement to the Department of State. The original statement and one copy shall be forwarded by the diplomatic or consular officer to the Department of State. One copy of the statement shall be retained in the files of the diplomatic or consular office in which the denial was made and a copy returned to the applicant.

(c) If it is not practicable for the statement to be sworn to or affirmed by the applicant in the diplomatic or consular office in which the denial was made, it may be sworn to or affirmed in any other diplomatic or consular office of the United States. In such case, the original and two copies of the statement shall be forwarded by that office to the diplomatic or consular office in which the application was denied, but, if that is not practicable, they shall be sent directly to the Department of State. One copy shall be returned to the applicant by the taking office. The office in which the application was denied shall retain one copy and forward the original and the other copy to the Department of State.

§ 50.39 *Direct appeal to the Secretary of State by attorney in the United States.* When a certificate of identity has been refused by a diplomatic or consular officer abroad, the applicant may appeal directly to the Secretary of State through his attorney in the United States. The appeal shall be directed to the Passport Office of the Department of State. No special form is prescribed for such appeal. The evidence to be furnished in the appeal through the attorney, in the United States shall be as prescribed in § 50.38 of this part. The Passport Office will process the appeal in due course in accordance with the facts in each individual case.

§ 50.40 *Certificate of identity obtained by fraud or other illegality.* Whenever a certificate of identity is found by a diplomatic or consular officer of the United States to have been obtained by fraud or other illegality, or to be in the possession of a person other than the rightful holder, such officer shall, if practicable, obtain possession of the certificate and send it, together with a report on the matter, directly to the Department of State.

This amendment shall become effective at 12:01 a. m., eastern standard time, December 24, 1952.

Issued: December 22, 1952.

Deputy Under Secretary for Administration.

PART 50—NATIONALITY PROCEDURES UNDER THE IMMIGRATION AND NATIONALITY ACT

NATURALIZATION OF CERTAIN FORMER UNITED STATES CITIZENS UNDER ACT OF AUGUST 16, 1951, AS AMENDED BY SECTION 402 (J) OF THE IMMIGRATION AND NATIONALITY ACT

Part 50, Title 22 of the Code of Federal Regulations, is hereby amended by the addition of the following sections:

Sec.
50.41 Persons affected by the act of August 16, 1951, as amended.
50.42 Period during which act is in effect.
50.43 Procedure for complying with the provisions of the act.
50.44 Illegal or fraudulent naturalization.

AUTHORITY: §§ 50.41 to 50.44 issued under sec. 104, 66 Stat. 174. Interpret or apply sec. 1, 65 Stat. 191, as amended by sec. 402, 66 Stat. 278.

NATURALIZATION OF CERTAIN FORMER UNITED STATES CITIZENS UNDER ACT OF AUGUST 16, 1951, AS AMENDED BY SECTION 402 (J) OF THE IMMIGRATION AND NATIONALITY ACT

§ 50.41 *Persons affected by the act of August 16, 1951, as amended.* The act of August 16, 1951, as amended by section 402 (j) of the Immigration and Nationality Act, applies to any person who, while a citizen of the United States, lost such citizenship under section 401 (e)

of the Nationality Act of 1940 solely by voting in a political election or plebiscite held in Italy between January 1, 1946, and April 18, 1948, inclusive, and who has not, subsequent to such voting, committed any act which, had he remained a citizen, would have expatriated him. The amended provisions of the act have no application to a person who, while a national but not a citizen of the United States, has lost such nationality by voting as indicated.

§ 50.42 *Period during which act is in effect.* The provisions of the act of August 16, 1951, as amended, become effective on the effective date of the Immigration and Nationality Act, that is, at 12:01 a. m., eastern standard time, December 24, 1952. These provisions terminate two years from the enactment of the act of August 16, 1951. Accordingly, a person whose case comes within the scope of the amended provisions of the act of August 16, 1951, may be naturalized by taking the prescribed oath on or after December 24, 1952, and prior to August 16, 1953.

§ 50.43 *Procedure for complying with the provisions of the act*—(a) *Form of oath.* The oath shall be taken on Form FS–346, amended as directed by the Secretary of State. This form is available at American Foreign Service offices.

(b) *Execution and disposition of form.* The form shall be executed in quadruplicate. The original copy of the form shall be retained in the office in which it was executed. The duplicate and triplicate copies shall be forwarded to the Department of State. Upon his request, the applicant may be furnished the quadruplicate copy certified under the seal of the office. The applicant's photograph shall be affixed to each copy under the impression seal of the office in which the application was executed.

(c) *Fees for taking oath.* No fee shall be charged for administering the oath or for issuing a copy of the form to the applicant.

(d) *Evidence required.* Before administering the oath prescribed by section 337 of the Immigration and Nationality Act (66 Stat. 258), the officer of the Foreign Service should satisfy himself regarding the identity of the applicant and require the submission of evidence that he was a citizen of the United States at the time of voting in the political election in Italy. Such evidence should be in the nature of that required in an application for registration as a citizen of the United States. If there is doubt whether the applicant was a citizen of the United States at the time he voted, the officer of the Foreign Service should, before administering the oath, present the facts and the pertinent evidence to the Department for a determination of eligibility to take the oath.

§ 50.44 *Illegal or fraudulent naturalization.* Naturalization procured by illegal or fraudulent means under the amended act of August 16, 1951, shall be subject to cancellation in the same manner as provided in section 340 of the Immigration and Nationality Act (66 Stat. 260).

This amendment shall become effective at 12:01 a. m., eastern standard time, December 24, 1952.

Issued: December 22, 1952.

For the Secretary of State.

PART 68—EXCHANGE—VISITOR PROGRAM

Part 68, Chapter I, Title 22 of the Code of Federal Regulations is amended to read as follows:

Sec.
68.1 Definitions.
68.2 Application.
68.3 Action on application.
68.4 Notification to exchange visitor.

AUTHORITY: §§ 68.1 to 68.4 issued under sec. 4, 63 Stat. 111; 5 U. S. C. Supp. 151c. Interpret or apply secs. 201, 1005, 1009, 62 Stat. 7, 14; 22 U. S. C. Sup., 1446, 1437, 1440).

CROSS REFERENCES: For consular procedure see 22 CFR Part 41, particularly § 41.41.

For immigration procedure with respect to entry, see 8 CFR Part 214j, particularly §§ 214j 1 to 214j 6.

§ 68.1 *Definitions.* (a) As used in this part the term "act" refers to the United States Information and Educational Exchange Act of 1948, as amended.

(b) As used in this part the term "sponsor" means any existing reputable United States agency or institution, which makes application as hereinafter prescribed, to the Secretary of State for designation of a program under its sponsorship as an "Exchange-Visitor Program."

(c) As used in this part, the term "Exchange-Visitor Program" means a program of a sponsor designed to promote the objectives of the act which has been designated as such by the Secretary of State, and which is concerned with one or more of the categories of exchange visitors defined in paragraph (e) of this section.

(d) As used in this part, the term "Secretary of State" means either the Secretary of State or an officer duly designated by him.

(e) As used in this part, the term "exchange visitor" means any alien who has been selected by a sponsor to participate in an Exchange-Visitor Program and who is seeking to enter the United States temporarily in one of the following categories:

(1) A "student", for the purpose of study or to perform research, or both, at or in connection with an established institution of learning, or

(2) A "trainee", for the purpose of obtaining practical training in public administration, industry, medicine, agriculture, or some other specialized field of knowledge or skill, or

(3) A "teacher", for the purpose of teaching in established primary or secondary schools, or established schools offering specialized instruction at the primary or secondary level, or

(4) A "guest instructor", for the purpose of imparting knowledge through lectures or special instruction, or

(5) A "leader in a field of specialized knowledge or skill", for the purpose of observation, advanced research, consultation, or the sharing of such specialized knowledge or skill.

§ 68.2 *Application.* (a) Any sponsor may apply to the Secretary of State for designation of a program under its sponsorship as an "Exchange-Visitor Program". Such application shall be made on Form DSP–37, "Exchange-Visitor Program application". The application shall be completed by the sponsor in all details and shall be submitted to the Secretary of State. The sponsor shall assume, inter alia, in the application the obligation that:

(1) If any exchange visitor ceases to pursue the activity for which he was admitted to the United States, the sponsor shall immediately notify the officer in charge of the Immigration and Naturalization Service having administrative jurisdiction over the exchange visitor's place of temporary residence in the United States, giving the name and present address of the alien, nationality, date of admission, and facts as to present activities of the alien.

(2) When any exchange visitor has completed the purpose of his visit, the sponsor shall notify the officer in charge of the Immigration and Naturalization Service having administrative jurisdiction over the exchange visitor's place of temporary residence in the United States, giving the name and present address of the alien, nationality, date of admission, and facts as to the scheduled departure of the alien.

(3) If any exchange visitor fails to maintain in any respect the nonimmigrant status under which he was admitted, the sponsor shall promptly notify the Department, giving the name and present address of the alien, nationality, date of admission, and other pertinent information in order that the Department may determine whether the facts warrant referral of the case to the Immigration and Naturalization Service for appropriate action.

(4) When any exchange visitor requires a temporary extension of his stay, the sponsor shall instruct the alien to apply to the Immigration and Naturalization Service at least 30 days before the expiration of the alien's stay in the United States and shall provide the alien with written evidence showing the period and terms of the extension desired.

§ 68.3 *Action on application*—(a) *Evidence.* Whenever an application on Form DSP–37 is submitted to the Secretary of State, it shall be examined to ascertain the adequacy of the information furnished. If sufficient information has not been furnished, the sponsor shall be requested to supply information in which the application is deficient. In addition to the information furnished on Form DSP–37, the Secretary of State may require a sponsor to present any evidence of a documentary nature, e. g., program reports, institutional catalogs, which he may consider necessary in making his determination of the program's eligibility to be designated an Exchange-Visitor Program.

(b) *Decision by the Secretary of State.* Upon receipt and consideration of the application on Form DSP–37, including any required additional evidence, the Secretary of State may in his discretion designate the sponsor's program as an Exchange-Visitor Program. The Secretary of State will notify the sponsor in writing of his decision. If such designation is made a serial number will be assigned to the Program and the sponsor will thereafter refer to such serial number in any correspondence with the Secretary of State, consular officer, or the Immigration and Naturalization Service concerning the Exchange-Visitor Program or any individual included in such program. The Secretary of State may in his discretion revoke the designation for any sufficient cause.

(c) *Notification to consuls and the Immigration and Naturalization Service.* When a program has been designated as an Exchange-Visitor Program, the American consular officers concerned and the Commissioner of Immigration and Naturalization shall be notified by the Department of State of the title, serial number, sponsor, and nature and purpose of such Program.

§ 68.4 *Notification to exchange visitor.* A sponsor whose program has been designated as an Exchange-Visitor Program shall notify each exchange visitor in writing of his selection to participate in the particular Exchange-Visitor Program. Such notification shall include the serial number of the Program, instructions concerning the procedure to be followed in applying for a passport visa, including the presentation to the Consul of the sponsor's notification to the selected exchange visitor. The notification shall also include information that the exchange visitor will be subject to all pertinent provisions of the immigration laws and regulations and that he will be required in connection with the issuance of a visa to sign a statement acknowledging and affirming his understanding of the limitations placed on the entry and stay of exchange visitors in the United States. Additionally, the notification shall inform the selected participant that if he is granted a visa the sponsor's notification and a copy of the signed statement shall be presented by the participant to the immigration inspector and other appropriate authorities at the port of entry into the United States.

This regulation shall become effective immediately upon its publication in the FEDERAL REGISTER.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[Regs. 111; T. D. 5965]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

STANDARD DEDUCTION

On October 29, 1952, notice of proposed rule making, regarding amendments to the income tax regulations made necessary by section 308 of the Revenue Act of 1951, approved October 20, 1951, was published in the FEDERAL REGISTER (17 F. R. 9744). No objection to the rules proposed having been received, the amendments to Regulations 111 (26 CFR, Part 29) set forth below are hereby adopted:

PARAGRAPH 1. There is inserted immediately preceding § 29.23 (aa)–1 the following:

SEC. 308. STANDARD DEDUCTION (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Method of election.* Subparagraphs (A) and (B) of section 23 (aa) (3) (relating to optional standard deduction for individuals) are hereby amended by striking out the word "only"; and subparagraph (C) of section 23 (aa) (3) is hereby amended to read as follows:

(C) If the taxpayer upon making his return fails to signify, in the manner provided by subparagraph (A) or (B), his election to take the standard deduction, such failure shall be considered his election not to take the standard deduction.

(b) *Change of election.* Section 23 (aa) is hereby amended by adding at the end thereof the following new paragraph:

(7) *Change of election.* Under regulations prescribed by the Secretary, a change of an election to take, or not to take, the standard deduction for any taxable year may be made after the filing of the return for such year. If the spouse of the taxpayer filed a separate return for any taxable year corresponding, for the purposes of paragraph (4), to the taxable year of the taxpayer, the change shall not be allowed unless, in accordance with such regulations—

(A) The spouse makes a change of election with respect to the standard deduction for the taxable year covered in such separate return, consistent with the change of election sought by the taxpayer, and

(B) The taxpayer and his spouse consent in writing to the assessment, within such period as may be agreed upon with the Secretary, of any deficiency, to the extent attributable to such change of election, even though at the time of the filing of such consent the assessment of such deficiency would otherwise be prevented by the operation of any law or rule of law.

This paragraph shall not apply if the tax liability of the taxpayer's spouse, for the taxable year corresponding (for the purposes of paragraph (4)) to the taxable year of the taxpayer, has been compromised under the provisions of section 3761.

(c) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1949.

PAR. 2. Section 29.23 (aa)–1, as amended by Treasury Decision 5687, approved February 16, 1949, is hereby amended as follows:

(A) By striking out the word "only" in the first sentence of paragraph (b) (1) thereof.

(B) By striking out the fourth sentence of paragraph (b) (1) thereof.

(C) By striking out the word "irrevocable" in paragraph (b) (1) (i) thereof.

(D) By striking out the word "irrevocably" in paragraph (b) (1) (ii) thereof.

(E) By striking out the word "only" in the first sentence of paragraph (b) (2) thereof.

(F) By adding at the end thereof the following paragraph (d):

(d) *Change of election to take, or not to take, the standard deduction.* (1) With respect to taxable years beginning before January 1, 1950, the election to take, or not to take, the standard deduction for any taxable year shall be irrevocable after the time prescribed for filing the return for the taxable year. With respect to taxable years beginning after December 31, 1949, a change of the election to take, or not to take, the standard deduction for any taxable year may be made before or after the time prescribed for filing the return for the taxable year. However, the period of time prescribed in section 322 within which claim for credit or refund of tax must be made is not extended by the right to effect a change of election. (See § 29.322–7.)

(2) If the spouse of the taxpayer filed a separate return for any taxable year that corresponds, for the purpose of section 23 (aa) (4) (see paragraph (c) of this section), to the taxable year of the taxpayer, a change of election may not be made by the taxpayer unless (i) the spouse makes a change of election in such separate return with respect to the standard deduction consistent with the change of election sought by the taxpayer, and (ii) the taxpayer and his

spouse file a consent in writing to the assessment, within such period of time as may be agreed upon, of any deficiency of either to the extent attributable to such change of election even though at the time of the filing of such consent the assessment of such deficiency would otherwise be prevented by the operation of any law or rule of law.

(3) A change of election for any taxable year shall not be permitted if the tax liability of the taxpayer for the taxable year, or of the taxpayer's spouse for the taxable year corresponding, for the purpose of section 23 (aa) (4) (see paragraph (c) of this section), to the taxable year of the taxpayer, has been compromised under the provisions of section 3761.

PAR. 3. Section 29.402–1, as amended by Treasury Decision 5687, approved February 16, 1949, is hereby amended by changing the second paragraph (b) thereof to read as follows:

With respect to taxable years beginning before January 1, 1950, an election under Supplement T once made for the taxable year may not be revoked by an amended return or otherwise, but a new election is allowed for each subsequent taxable year; and, if for any taxable year the taxpayer makes a return without regard to Supplement T, he may not thereafter elect to have his tax computed under such supplement for that taxable year. With respect to taxable years beginning after December 31, 1949, an election under Supplement T, or the making of a return without regard to Supplement T, for any taxable year may be changed under the same circumstances that an election to take, or not to take, the standard deduction may be changed (see § 29.23 (aa)–1 (d)).

PART 40—EXCESS PROFITS TAX; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

BASE PERIOD CATASTROPHE

On November 6, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 9988) to conform Regulations 130 (26 CFR, Part 40) to section 517 of the Revenue Act of 1951, approved October 20, 1951. No objections to the rules proposed having been received within the thirty days following such publication, such regulations are amended by inserting immediately after § 40.458–8 the following:

SEC. 517. BASE PERIOD CATASTROPHE (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Section 459, as added by section 516 of this Act, is hereby amended by adding after subsection (a) thereof the following new subsection:

(b) *Base period catastrophe*—(1) *Eligibility requirements.* A taxpayer shall be entitled to the benefits of this subsection only if it was engaged throughout its base period primarily in manufacturing and if—

(A) The taxpayer suffered during the last thirty-six months of its base period a catastrophe by fire, storm, explosion, or other casualty which destroyed or rendered inoperative a production facility constituting a complete plant or plants having in the hands of the taxpayer immediately prior to the catastrophe an adjusted basis equal to 15 per centum or more of the adjusted basis of all the taxpayer's production facilities at such time;

(B) As a result of such catastrophe the taxpayer's normal production or operation was substantially interrupted for a period of more than twelve consecutive months; and

(C) The taxpayer, prior to the end of its base period, replaced such production facility with a production facility which at the end of its base period had in its hands an adjusted basis not less than the adjusted basis immediately prior to the catastrophe of the production facility destroyed or rendered inoperative.

(2) *Computation.* The taxpayer's base period net income determined under this subsection shall be the amount computed under subparagraph (A) or the amount computed under subparagraph (B), whichever results in the lesser tax under this subchapter for the taxable year for which the tax is being computed:

(A) The amount computed under section 435 (d) by substituting for the excess profits net income for each month in the taxable year in which the catastrophe described in paragraph (1) occurred an amount equal to the aggregate, divided by the number of months in the base period preceding such taxable year, of the excess profits net income for each month (computed under section 435 (d) (1)) in the base period preceding such taxable year. The average base period net income computed under this subparagraph shall, for the purpose of section 435 (a) (1) (B), be considered an average base period net income determined under section 435 (d).

(B) The amount computed under section 435 (e) (2) (G) (i) and (ii).

SEC. 523. EFFECTIVE DATE OF TITLE V (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Except as otherwise provided in section 506 (d), the amendments made by this title (including sec. 517) shall be applicable only with respect to taxable years ending after June 30, 1950.

§ 40.459 (b)–1 *Base period catastrophe*—(a) *In general.* A corporation which was engaged throughout its base period primarily in manufacturing, which suffered a catastrophe by fire, storm, explosion, or other casualty during the last 36 months of its base period, and which satisfies all the requirements provided in subparagraphs (A), (B), and (C) of section 459 (b) (1) may compute its average base period net income, for the purpose of computing its excess profits tax for any taxable year ending after June 30, 1950, under the provisions of section 459 (b) (2) and of paragraph (b) of this section instead of under any other applicable provisions of the Code and regulations.

(b) *Computation of average base period net income under section 459 (b).* If a taxpayer may compute its average base period net income under section 459 (b), its average base period net income as computed under section 459 (b) (2) shall be whichever of the following two amounts results in the lesser excess profits tax for the taxable year for which such tax is being computed:

(1) The amount computed under section 435 (d) and § 40.435–1 (d) determined by substituting for the excess profits net income for each month in the taxable year in which the catastrophe described in section 459 (b) (1) occurred an amount equal to the aggregate of the excess profits net income for each month (computed under section 435 (d) (1) and § 40.435–1 (d) (1)) in the base period preceding such taxable year divided by the number of months in the base period preceding such taxable year.

(2) The amount computed under section 435 (e) (2) (G) (i) and (ii) and under § 40.435–5 (a) (7) (i) and (ii) and (b).

An average base period net income computed under section 459 (b) (2) (A) and under subparagraph (1) of this paragraph shall be considered, for the purpose of section 435 (a) (1) (B), to be an average base period net income determined under section 435 (d). If the average base period net income is computed under section 459 (b) (2) (A) and under subparagraph (1) of this paragraph for the purpose of determining the excess profits tax for any taxable year, the base period capital addition, provided in section 435 (f), will be allowed in computing the excess profits tax for such taxable year. If, in determining the excess profits tax for any taxable year, the average base period net income is computed under section 459 (b) (2) (B) and under subparagraph (2) of this paragraph, however, the base period capital addition will not be allowed in computing the excess profits tax for such taxable year since such average base period net income is not considered to be an average base period net income computed under either section 435 (d) or under section 442. The amount computed under section 459 (b) (2) (A) and subparagraph (1) of this paragraph or the amount computed under section 459 (b) (2) (B) and subparagraph (2) of this paragraph, depending on which results in the lesser excess profits tax for the taxable year, is to be the average base period net income computed under section 459 (b).

SUBPART A—SCOPE OF REGULATIONS

§ 199.1 *Removal of alcoholic liquors and other articles to foreign-trade zones.* Pursuant to the provisions of an act to amend section 3 of the act of June 18, 1934, relating to the establishment of foreign-trade zones (Public Law 566—81st Congress), liquors and other articles of domestic manufacture, as defined in this part, may be removed to foreign-trade zones for the sole purpose of exportation, destruction (except destruction of distilled spirits, wines, and fermented liquors), or storage pending exportation. This part, "Regulations 31, Removals of Alcoholic Liquors, Tobacco Products, and Other Articles of Domestic Manufacture to Foreign-Trade Zones", contains the procedural and substantive requirements governing the removal to and deposit in foreign-trade zones of articles for such purposes. In addition to the permit required by this part for the transportation of an article to a zone, Customs Regulations (19 CFR Part 30) require the exporter to obtain from the proper Collector of Customs authorization on Zone Form D for the entry of articles so transferred into a zone. When any person desires to remove to a foreign-trade zone, for exportation, destruction or storage pending exportation, any article of domestic manufacture not defined in this part, which is subject to an excise tax administered by the Bureau of Internal Revenue, the applicable procedural and substantive requirements of the regulations governing the exportation of such article shall govern its removal to a foreign-trade zone.

§ 199.2 *Export status.* Liquors and other articles of domestic manufacture deposited in a foreign-trade zone under this part shall be considered to be exported for the purpose of the statutes and bonds exacted for the payment of drawback, refund, or exemption from liability for internal revenue taxes and for the purposes of the internal revenue laws generally and the regulations thereunder. Export status is not acquired until application on Zone Form D for admission of the liquors or other articles into the zone has been approved by the Collector of Customs and he has certified on Form 550–F, 1582, 1582–A, 1610, 1629, 1690 or 1701, as the case may be, to the deposit of the articles in the zone.

SUBPART B—DEFINITIONS

§ 199.5 *Meaning of terms.* As used in this part, unless the context otherwise requires, terms shall have the meanings ascribed in this subpart.

§ 199.6 *Alcohol.* "Alcohol" shall mean spirits produced at industrial alcohol plants established and operated under sections 3100 to 3124 of the Internal Revenue Code (26 U. S. C. 3100–3124).

§ 199.7 *Articles.* "Articles" shall include liquors as defined in this subpart; flavoring extracts, medicinal or toilet preparations made with taxpaid alcohol; stills, worms and condensers; tobacco and tobacco products; and playing cards.

§ 199.8 *Assistant District Commissioner.* "Assistant District Commissioner" shall mean the Assistant District Commissioner, Alcohol and Tobacco Tax.[1]

§ 199.9 *Collector of Customs.* "Collector of Customs" shall mean the Collector of Customs of the district in which the foreign-trade zone is located.

§ 199.10 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 199.11 *Director.* "Director" shall mean the Director of Internal Revenue.[2]

§ 199.12 *Distilled spirits or spirits.* "Distilled spirits" or "spirits" shall mean that substance produced by the distillation of fermented grain, molasses, fruit, or other materials, commonly known as spirits, whisky, brandy, rum, gin, etc., but shall not include alcohol.

[1] Pursuant to Reorganization Plan No. 1 of 1952 (17 F. R. 2243) the office of District Supervisor has been abolished and the office of Assistant District Commissioner, Alcohol and Tobacco Tax, created in place thereof.

[2] Pursuant to Reorganization Plan No. 1 of 1952 (17 F. R. 2243) the office of Collector of Internal Revenue has been abolished and the office of Director of Internal Revenue created in place thereof.

§ 199.13 *District Commissioner.* "District Commissioner" shall mean the District Commissioner of Internal Revenue.

§ 199.14 *Fermented liquor or beer.* "Fermented liquor" or "beer" shall mean all kinds and types of liquors produced by the fermentation of malt, wholly or in part, or from any substitute therefor.

§ 199.15 *Foreign-trade zone or zone.* "Foreign-trade zone" or "zone" shall mean a foreign-trade zone established and operated pursuant to the act of June 18, 1934, as amended by Public Law 566, 81st Congress.

(48 Stat. 998–1003, as amended; 19 U. S. C. 81a–81u)

§ 199.16 *Gallon.* "Gallon" or "wine gallon" shall mean a United States gallon of liquid measure equivalent to the volume of 231 cubic inches.

§ 199.17 *Including.* The word "including" shall not be deemed to exclude things other than those enumerated which are in the same general class.

§ 199.18 *Inclusive language.* Words in the plural shall include the singular, and vice versa, and words in the masculine gender shall include females, associations, copartnerships, and corporations.

§ 199.19 *I. R. C.* "I. R. C." shall mean the Internal Revenue Code.

§ 199.20 *Liquor.* "Liquor" shall mean alcohol, specially denatured alcohol or specially denatured rum, distilled spirits, fermented liquor, and wine: *Provided*, That for the purposes of bonds, Forms 1702 and 1703, "Liquor" shall mean alcohol, distilled spirits, fermented liquors and wines.

§ 199.21 *Person, proprietor, or warehouseman.* "Person," "proprietor," or "warehouseman" shall include natural persons, associations, copartnerships, and corporations.

§ 199.22 *Proof.* "Proof" shall mean the ethyl alcohol content of a liquid at 60 degrees Fahrenheit, stated as twice the percent of ethyl alcohol by volume.

§ 199.23 *Proof gallon.* "Proof gallon" shall mean the alcoholic equivalent of a United States gallon at 60 degrees Fahrenheit, containing 50 percent of ethyl alcohol by volume.

§ 199.24 *Regulations.* "Regulations" shall mean the regulations issued by U. S. Treasury Department, Bureau of Internal Revenue, except as otherwise specified in this part.

§ 199.25 *Specially denatured alcohol.* "Specially denatured alcohol" shall mean alcohol denatured in accordance with the formulas prescribed in the Appendix to Regulations 3 (Part 182 of this chapter).

§ 199.26 *Specially denatured rum.* "Specially denatured rum" shall mean rum denatured in accordance with the provisions of Regulations 16 (Part 187 of this chapter).

§ 199.27 *U. S. C.* "U. S. C." shall mean the United States Code.

§ 199.28 *Wine.* "Wine" when used without qualification, includes all still wines, champagne and other sparkling wines, artifically carbonated wine, retsina wine, and vermouth or other aperitif wines produced on bonded winery premises.

§ 199.29 *Zone Operator.* "Zone Operator" shall mean the person to which the privilege of establishing, operating and maintaining a foreign-trade zone has been granted by the Foreign-Trade Zones Board created by the Act of June 18, 1934, as amended by Public Law 566, 81st Congress.

(48 Stat. 998–1003, as amended; 19 U. S. C. 81a–81u)

SUBPART C—WITHDRAWAL OF ALCOHOL, SPECIALLY DENATURED ALCOHOL AND SPECIALLY DENATURED RUM FOR DEPOSIT IN AND SUBSEQUENT EXPORTATION FROM A FOREIGN-TRADE ZONE

UNDENATURED ETHYL ALCOHOL

§ 199.35 *General.* Alcohol may be withdrawn, without payment of tax, from an industrial alcohol plant or bonded warehouse established and operated under the provisions of Regulations 3 (Part 182 of this chapter), for transportation to and deposit in a foreign-trade zone for exportation or for storage therein pending exportation, in accordance with the fourth proviso to section 3 of the act of June 18, 1934, as amended.[1] Such withdrawals may be made from industrial alcohol plants or bonded warehouses in drums or barrels of any desired capacity; in tin, glass, or similar containers, completely encased in wood, fiber board, or other approved material; in metal containers of not less than 24 gauge, or of similar strength, having a capacity of not more than 10 gallons; in railroad tank cars; and in tank trucks. Alcohol may also be withdrawn from bonded warehouses in bottles or cases of any desired size. The withdrawal, transportation to and deposit in the foreign-trade zone and the accounting for any losses in transit shall be in accordance with this subpart and Subpart J. Except as otherwise provided in this subpart, the packaging, bottling, casing, marking, stamping, and reporting of alcohol prior to withdrawal shall be in accordance with the applicable provisions of Regulations 3, governing the exportation of alcohol.

(53 Stat. 336, 358; 26 U. S. C. 2885, 3105)

§ 199.36 *Application and entry.* Whenever an exporter desires to remove alcohol from an industrial alcohol plant or bonded warehouse for transportation to and deposit in a foreign-trade zone for exportation, he shall make application on Form 1701, in quintuplicate, to the Assistant District Commissioner of the district in which such plant or warehouse is located. Where the exporter is a person other than the proprietor of the premises from which the withdrawal is to be made, Form 1701 shall be delivered to the proprietor, for transmittal to such Assistant District Commissioner. Each application on Form 1701 will be given a serial number by the applicant, beginning with "1" for the first day of January of each year and running consecutively thereafter to December 31, inclusive. All of the information called for by the headings of the various columns and lines on the form and the instructions printed thereon or issued in respect thereto, and as required by this part, shall be furnished. The method of conveyance and the name of the carrier or carriers shall be shown whenever possible. If the alcohol is shipped on a through bill of lading and all the carriers handling the alcohol while in transit are not known, the name of the carrier to whom the alcohol is to be delivered at the shippling plant or warehouse must be shown. Where Form 1701 is signed by an agent, proper power of attorney on Form 1534, authorizing the agent to execute the form for the exporter, must be filed in triplicate with the Assistant District Commissioner.

(53 Stat. 336, 358; 26 U. S. C. 2885, 3105)

§ 199.37 *Transportation bonds.* The exporter shall file a bond with the Assistant District Commissioner of the district in which the industrial alcohol plant or bonded warehouse is located, to cover the transportation of the alcohol from the industrial alcohol plant or bonded warehouse to the foreign-trade zone. If a bond is given only for a specific lot of alcohol to be withdrawn, the bond shall be executed on Form 1702, in triplicate. The penal sum of such bond shall be not less than the tax at the distilled spirits rate on the quantity of alcohol to be withdrawn: *Provided*, That the maximum penal sum of such bond shall not exceed $200,000. If alcohol is to be withdrawn from time to time for transfer to a foreign-trade zone, a continuing bond on Form 1703 may be executed, in triplicate: *Provided*, That if the exporter has on file a bond on Form 1495 or Form 1496, as the case may be, he may file a consent of surety on Form 1533 extending the terms of such bond to cover the tax on all alcohol withdrawn for transportation to and deposit in a zone. The penal sum of the bond on Form 1703 or on the bond Form 1495 or 1496, as the case may be, on which the consent has been filed, shall be sufficient to cover the tax at the distilled spirits rate on the maximum quantity of alcohol to be withdrawn and that may remain unaccounted for at any time: *Provided*, That the penal sum of such bonds shall not exceed $200,000, but in no case shall be less than $1,000. Bonds and consents of surety shall be executed and approved in accordance with Subpart J and the instructions printed on the form.

(53 Stat. 336, 358, 359; 26 U. S. C. 2885, 3105, 3108)

§ 199.38 *Gauging of alcohol.* The proprietor, after determining the exact quantity in each container to be transferred and deposited in the foreign-trade zone, shall prepare Form 1440, in quintuplicate. One copy of Form 1440 will be attached to each copy of Form 1701.

(53 Stat. 307, 358; 26 U. S. C. 2808, 3105)

§ 199.39 *Approval of application and issuance of permit.* The proprietor of the industrial alcohol plant or bonded warehouse shall forward to the Assistant District Commissioner all copies of Form 1701, with Form 1440 attached. If the bond, Form 1702 or Form 1703, has been approved and is in a sufficient penal sum, or if a consent of surety, Form 1533, extending the terms of a bond on Form 1495 or Form 1496, in sufficient penal sum, has been approved, and if the exporter has complied with the law and the regulations in this part in all respects, the Assistant District Commissioner will issue permit on all copies of Form 1701 for removal and transportation of the alcohol to the zone and will return Form 1701, with Form 1440 attached, to the proprietor: *Provided*, That if the exporter is not the proprietor, the Assistant District Commissioner will issue the permit only where he finds that the exporter is entitled to a permit under section 3114, I. R. C., and the provisions of Regulations 3 (Part 182 of this chapter).

(53 Stat. 336, 358, 359, 373, as amended; 26 U. S. C. 2885, 3105, 3108, 3170)

§ 199.40 *Export stamps.* Every package of alcohol, including tank cars, tank trucks, and cases of bottled alcohol, intended for transfer to a foreign-trade zone must have an export stamp affixed thereto at the time of its removal from the industrial alcohol plant or bonded warehouse. Upon receipt of the Assistant District Commissioner's permit for removal and transportation executed on Form 1701 with attached Form 1440, the proprietor will forward all copies together with remittance for the necessary number of export stamps to the Director of Internal Revenue. The Director will issue the export stamps, enter the kind and serial numbers of the stamps on all copies of Form 1440, retain one copy of each form and return the remaining four copies of each form with the export stamps to the proprietor. The proprietor will deliver the export stamps and Forms 1701, with the attached Forms 1440, to the storekeeper-gauger, who will verify the data on the stamps and affix his signature, or facsimile thereof, enter

[1] * * * *Provided further*, That under the rules and regulations of the controlling Federal agencies, articles which have been taken into a zone from customs territory for the sole purpose of exportation, destruction (except destruction of distilled spirits, wines, and fermented malt liquors), or storage shall be considered to be exported for the purpose of—

(a) The draw-back, warehousing, and bonding, or any other provisions of the Tariff Act of 1930, as amended, and the regulations thereunder; and

(b) The statutes and bonds exacted for the payment of draw-back, refund, or exemption from liability for internal revenue taxes and for the purposes of the internal revenue laws generally and the regulations thereunder.

Such a transfer may also be considered an exportation for the purposes of other Federal laws insofar as Federal agencies charged with the enforcement of those laws deem it advisable. Such articles may not be returned to customs territory for domestic consumption except where the Foreign-Trade Zones Board deems such return to be in the public interest, in which event the articles shall be subject to the provisions of paragraph 1615 (f) of the Tariff Act of 1930, as amended: * * *. (Sec. 1, Pub. Law No. 566, 81st Cong.)

the serial numbers of the stamps on Forms 1701, and return the stamps to the proprietor.

(53 Stat. 336, 358; 26 U. S. C. 2885, 3105)

§ 199.41 *Marking and stamping containers.* The containers will be marked and stamped in accordance with the provisions of Regulations 3 (Part 182 of this chapter) for containers of alcohol withdrawn for exportation, except that the words, "For Export" will be followed by "via F. T. Z. No. ------," in lieu of the names of the ports and the export permit number.

(53 Stat. 336, 358; 26 U. S. C. 2885, 3105)

§ 199.42 *Release of alcohol.* After the containers have been properly marked and stamped and, in the case of tank cars or tank trucks, sealed with Government cap seals, the storekeeper-gauger will, after the proprietor has noted the serial numbers of the cap seals, if any, on Form 1440, approve the proprietor's application on such form to withdraw the containers and will release the alcohol for shipment to the foreign-trade zone named in the application, Form 1701. Upon removal of the alcohol the storekeeper-gauger will execute the report of removal on Form 1701.

§ 199.43 *Delivery to zone.* Alcohol may be delivered directly to a zone by the exporter in vehicles owned or controlled by him, or to a carrier holding permit under Regulations 3 (Part 182 of this chapter) to transport tax-free alcohol, for transportation to a zone. Where delivery is made to a carrier for transportation to a zone, the proprietor shall procure a copy of the bill of lading, if any, covering such transportation and deliver it to the storekeeper-gauger.

(53 Stat. 336, 358, 360; 26 U. S. C. 2885, 3105, 3114)

§ 199.44 *Disposition of forms.* When the alcohol has been withdrawn, the storekeeper-gauger will forward immediately one copy of the Form 1701, with Form 1440 attached, and a copy of the bill of lading, if any, to the Assistant District Commissioner of the district in which the plant or warehouse is located. He will mail two copies of the forms to the customs officer in charge at the foreign-trade zone, except that in the case of transfers in tank trucks, he will mail one copy of each form to such customs officer and enclose the other copies in a sealed envelope addressed to such customs officer and give the same to the driver of the tank truck for delivery to him. The storekeeper-gauger will deliver the remaining copies of the forms to the proprietor for filing.

(53 Stat. 336, 358; 26 U. S. C. 2885, 3105)

§ 199.45 *Deposit in foreign-trade zone.* Upon receipt at the foreign-trade zone, the containers of alcohol shall be inspected by a customs officer for evidence of loss or tampering. Packages of alcohol, including metal cans enclosed in wooden packages, must be gauged and a report of the gauge made on Form 696, in duplicate. If seals on tank cars or tank trucks are intact and bear the serial numbers shown on Form 1440 to have been affixed at the time of removal, and if there is no evidence of loss or tampering, no gauge of the tank car or tank truck need be made. However, if the seals are not intact or if the original seals (listed on Form 1440) have been replaced, the officer will open the car or truck, gauge the alcohol, and make a report of his gauge on Form 696, in duplicate. Containers bearing evidence of loss may be deposited in the zone, unless the circumstances indicate fraud, as distinguished from losses by leakage, minor pilferage or theft in transit, in which event the Collector of Customs will detain the alcohol and report the facts immediately to the Assistant District Commissioner of the district in which the zone is located, who will cause immediate investigation to be made and will take such action as the facts may warrant. Where alcohol is so detained, it shall be deemed not to have been deposited in the zone, and customs officers will hold in abeyance the processing of Forms 1701 and Zone Form D until the detained alcohol will have been released in accordance with § 199.51. Where the inspection or gauge discloses no loss, or where a loss is disclosed by such inspection or gauge and there is no evidence to indicate fraud, the officer shall execute his certificate of inspection on Form 1701, reporting thereon any discrepancy found, giving the serial numbers of the packages or cases, or the railroad tank car number, or the tank truck number and the State license number of the tank truck (if the tank truck is of the trailer type, the license number of the trailer will be shown), the original contents in proof gallons, and the nature and extent of any losses or discrepancies. The officer shall cut out that portion of each of the export stamps extending from the top to the bottom and embracing the entire width between the borders thereof and attach them, together with a copy of Form 696, if any, to one copy of the Form 1701. The officer shall attach the remaining copy of Form 696, if any, to the remaining copy of Form 1701 and shall then forward both copies of Form 1701 with attachments to the Collector of Customs. The Collector of Customs will execute his certificate of deposit on Form 1701 and forward one copy of the form with Forms 1440 and 696, if any, and the cut-out portions of the stamps to the Assistant District Commissioner who approved the permit. The remaining copy of the Form 1701, with attachments, if any, will be retained by the Collector of Customs.

(53 Stat. 336, 358; 26 U. S. C. 2885, 3105)

§ 199.46 *Loss of alcohol in transit.* The tax on alcohol lost by leakage, casualty, or unavoidable cause during shipment or transfer from an industrial alcohol plant or bonded warehouse to a foreign-trade zone may be remitted if satisfactory evidence establishes that such alcohol has not been diverted to any illegal use by the exporter or carrier or other person having legal custody or control thereof or with connivance, collusion, fraud, or negligence on the part of the exporter or carrier or such other person or the employees of any of them: *Provided*, That such allowance shall not be granted if the person claiming same is indemnified against such loss by a valid claim of insurance.

(53 Stat. 336, 358, 360; 26 U. S. C. 2885, 3105, 3113)

§ 199.47 *Notice to exporter.* If, upon examination of Form 1701, and Form 696, if any, received from the Collector of Customs, the Assistant District Commissioner is of the opinion that alcohol reported lost had been diverted to any illegal use, he will advise the exporter by letter (a) of the identity of the containers; (b) of the amount of the loss; (c) of the circumstances indicating diversion; and (d) that filing of proof of loss and claim for remission of tax is required.

(53 Stat. 336, 358, 360; 26 U. S. C. 2885, 3105, 3113)

§ 199.48 *Filing of claims.* When the exporter has received a notice of loss from the Assistant District Commissioner and that the filing of a claim is required, he shall, within 30 days from the date of the notification, submit a claim for remission of the tax on the alcohol lost. Such claim shall be made on letter-size paper, in duplicate, showing the name, address, and capacity of the claimant and setting forth, under oath, the following information:

(a) The serial numbers of the packages or cases, or the railroad tank car number, or the tank truck number and the State license number of the tank truck (if the tank truck is of the trailer type, the license number of the trailer will be shown);

(b) The quantity of alcohol lost from each container and the total quantity of alcohol covered by the claim;

(c) The total amount of tax for which the claim is filed;

(d) The date, penal sum, and form number of the bond under which withdrawal and shipment were made;

(e) The name, registry number and location of the industrial alcohol plant or warehouse from which the alcohol was withdrawn;

(f) The date of the loss, if known, and the cause and nature thereof, together with all of the known facts related thereto;

(g) Whether the alleged loss occurred without any fraud or negligence on the part of the exporter, owner, carrier, or their agents or employees, and whether claim has been made or is contemplated against such persons on account of such loss; and

(h) Whether the alcohol lost is covered by valid claim of insurance in excess of the market value thereof, exclusive of the tax.

If the alcohol is insured, the statement will show the market value of the alcohol per proof gallon, the amount and date of each and every policy of insurance, the name and location of the company by which each and every policy was issued, the name and address of the bona fide owner of the alcohol and, to the best of the affiant's knowledge, whether any other person or party is indemnified against the payment of the tax sought to be remitted. The Assistant District Commissioner or the Commissioner may require such further evidence as is deemed necessary.

(53 Stat. 336, 358, 360; 26 U. S. C. 2885, 3105, 3113)

§ 199.49 *Action by Assistant District Commissioner.* Where large losses in transit are reported, the Assistant District Commissioner will cause immediate investigation to be made. When a claim for remission of tax is received, the Assistant District Commissioner will carefully examine it to see that the required information has been furnished and will cause such investigation to be made or require such additional evidence to be submitted as he may deem necessary. Upon completion of the claim investigation, the Assistant District Commissioner will forward one copy of the claim and related papers to the Commissioner with his recommendation as to the merits of the claim. In the event the exporter does not file proof of loss and claim for remission of tax, as provided in this subpart, the Assistant District Commissioner will report the tax for assessment in accordance with the prescribed procedure. Assistant District Commissioners will keep an account with each bond in accordance with Subpart J.

(53 Stat. 336, 358, 360, 360; 26 U. S. C. 2885, 3105, 3112, 3113)

§ 199.50 *Action by Commissioner.* If the Commissioner finds that there has been a diversion of alcohol to any illegal use by the exporter or carrier or other person having legal custody or control thereof, or with connivance, collusion, fraud, or negligence on the part of the exporter or carrier or such other person or the employees of any of them, the tax on the alcohol diverted will be assessed or liability asserted against the bond covering the shipment, as the case may be, and the remainder, if any, of the alcohol will be subject to seizure and forfeiture.

(53 Stat. 336, 358, 360, 360; 26 U. S. C. 2885, 3105, 3112, 3113)

§ 199.51 *Release of detained alcohol.* When alcohol has been detained at a foreign-trade zone pending investigation and determination of fraud in accordance with § 199.45, the Collector of Customs shall not release such alcohol for deposit until he is advised so to do by the Assistant District Commissioner.

(53 Stat. 336, 358; 26 U. S. C. 2885, 3105)

SPECIALLY DENATURED ALCOHOL

§ 199.52 *General.* Specially denatured alcohol may be withdrawn, free of tax, from denaturing plants and premises of bonded dealers established and operated under the provisions of Regulations 3 (Part 182 of this chapter) for transportation to and deposit in a foreign-trade zone for exporation or for storage therein pending exportation, in accordance with the fourth proviso to section 3 of the act of June 18, 1934, as amended.[1] Such withdrawals may be made in the containers specified in § 199.35. The withdrawal, transportation to and deposit in the foreign-trade zone, and the accounting for any losses, shall be in accordance with this subpart and Subpart J. Except as otherwise provided in this subpart, the packaging, marking and reporting of specially denatured alcohol prior to withdrawal, shall be in accordance with the applicable provisions of Regulations 3 governing the exportation of specially denatured alcohol.

(53 Stat. 359; 26 U. S. C. 3109)

§ 199.53 *Application and entry.* Whenever a denaturer or bonded dealer desires to withdraw specially denatured alcohol for transportation to and deposit in a foreign-trade zone for exportation, he shall make application on Form 1701 to the Assistant District Commissioner of the district in which the denaturing plant or bonded dealer is located, in accordance with the applicable provisions of § 199.36 covering the withdrawal of alcohol, except that an original and three copies will be prepared instead of an original and four copies.

(53 Stat. 359; 26 U. S. C. 3109)

§ 199.54 *Consent of surety.* The denaturer or bonded dealer must file a consent of surety, Form 1533, in triplicate, extending the terms of his bond, Form 1432–A or Form 1475, as the case may be, which consent shall contain the undertaking that—

The obligors hereby agree to extend the terms of said bond to cover all liability that may be incurred by the principal on all specially denatured alcohol withdrawn by him for transportation to and deposit in a foreign-trade zone for which satisfactory evidence of deposit therein is not submitted to the Assistant District Commissioner.

Consents of surety shall be executed and approved in accordance with Subpart J and the instructions printed on the form.

(53 Stat. 359; 26 U. S. C. 3109)

§ 199.55 *Approval of application and issuance of permit.* The denaturer or bonded dealer shall forward all copies of Form 1701 to the Assistant District Commissioner. If the consent of surety, Form 1533, extending the terms of the bond, Form 1432–A or Form 1475, has been approved and the bond is in a sufficient penal sum, the Assistant District Commissioner, shall issue permit on Form 1701 for removal and transportation of the specially denatured alcohol to the zone, and shall return all copies of Form 1701 to the applicant.

(53 Stat. 359; 26 U. S. C. 3109)

§ 199.56 *Marking of containers.* The containers will be marked in accordance with the provisions of Regulations 3 (Part 182 of this chapter) for containers of specially denatured alcohol withdrawn for exportation, except that the words "For Export" will be followed by "via F. T. Z. No. ------" in lieu of the names of the ports and the export permit number.

(53 Stat. 307, 359; 26 U. S. C. 2808, 3109)

§ 199.57 *Shipment from a denaturing plant.* After the containers have been properly marked and, in the case of tank cars or tank trucks, sealed with Government cap seals, the storekeeper-gauger will, after the proprietor has noted the serial numbers of the cap seals, if any, on Form 1701, release the specially denatured alcohol for shipment to the foreign-trade zone named in the application. Upon removal of the specially denatured alcohol, the storekeeper-gauger will execute the report of removal on Form 1701.

(53 Stat. 307, 359; 26 U. S. C. 2808, 3109)

§ 199.58 *Shipment from a bonded dealer's premises.* Upon removal of specially denatured alcohol, the dealer, after marking the containers thereof and sealing openings in the case of tank cars or tank trucks, shall execute the report of removal on all copies of Form 1701. Railroad or other appropriate seals, dissimilar in marking from cap seals used by the Bureau of Internal Revenue, for securing openings in tank cars or tank trucks, shall be furnished and affixed by the carrier or the dealer. The serial numbers of seals so used shall be noted on Form 1701.

(53 Stat. 307, 359; 26 U. S. C. 2808, 3109)

§ 199.59 *Delivery to zone.* Specially denatured alcohol may be delivered directly to a zone by the denaturer or bonded dealer in vehicles owned or controlled by him, or to a carrier, holding permit under Regulations 3 (Part 182 of this chapter) to transport specially denatured alcohol, for transportation to a zone. Where delivery is made to a carrier for transportation to a zone, a copy of the bill of lading, if any, covering such transportation shall be procured by the shipper for attachment to the copy of Form 1701 to be transmitted to the Assistant District Commissioner.

(53 Stat. 359, 360; 26 U. S. C. 3109, 3114)

§ 199.60 *Disposition of forms.* When the specially denatured alcohol has been withdrawn and a copy of the bill of lading, if any, has been furnished the storekeeper-gauger at the denaturing plant, or procured by the bonded dealer, as the case may be, the storekeeper-gauger or the bonded dealer will forward immediately one copy of the Form 1701, and the bill of lading, if any, to the Assistant District Commissioner of the district in which the denaturing plant or bonded dealer is located. He will mail two copies of Form 1701 to the customs officer in charge at the foreign-trade zone, except that in the case of transfers in tank trucks, he will mail one copy to such customs officer and enclose the other copy in a sealed envelope addressed to such customs officer and give the same to the driver of the tank truck for delivery to him. The denaturer or bonded dealer, as the case may be, will retain the remaining copy of Form 1701.

(53 Stat. 359; 26 U. S. C. 3109)

§ 199.61 *Deposit in foreign-trade zone.* Upon receipt at the zone, the specially denatured alcohol shall be inspected by a customs officer, who will determine if it agrees in all respects with the description thereof on Form 1701. The officer will carefully examine the contents of any containers which are broken or tampered with and will report on both copies of Form 1701 any shortage and the apparent cause thereof. If

[1] See footnote on p. 11799.

the inspection discloses evidence of fraud, as distinguished from losses by leakage, minor pilferage or theft in transit, the Collector of Customs will detain the specially denatured alcohol and report the facts immediately to the Assistant District Commissioner of the district in which the zone is located, who will cause immediate investigation to be made and will take such action as the facts may warrant. Where specially denatured alcohol is so detained, it shall be deemed not to have been deposited in the zone, and customs officers will hold in abeyance the processing of Form 1701 and Zone Form D pertaining to such specially denatured alcohol, until the detained specially denatured alcohol will have been released in accordance with the provisions of § 199.62. Where the inspection discloses no shortage, or where a shortage is disclosed but there is no evidence to indicate fraud, the customs officer will execute his certificate of inspection on Form 1701 and forward both copies thereof to the Collector of Customs, who will execute his certificate of deposit on Form 1701, retain one copy, and forward one copy to the Assistant District Commissioner who approved the permit.

(53 Stat. 359; 26 U. S. C. 3109)

§ 199.62 *Loss of specially denatured alcohol in transit.* Losses of specially denatured alcohol by leakage, casualty, or unavoidable cause during shipment or transfer from a denaturing plant or premises of a bonded dealer to a foreign-trade zone may be allowed, if satisfactory evidence establishes that such specially denatured alcohol has not been diverted to any illegal use by the exporter or carrier or other person having legal custody or control thereof or with connivance, collusion, fraud, or negligence on the part of the exporter or carrier or such other person or the employees of any of them. The investigation of losses, notice to exporter, procedure for filing claims, action by the Assistant District Commissioner, action by the Commissioner, and release of detained specially denatured alcohol shall be in accordance with the procedure prescribed in §§ 199.47 to 199.51, insofar as applicable, governing losses of alcohol.

(53 Stat. 358, 359, 360; 26 U. S. C. 3109, 3111, 3113)

SPECIALLY DENATURED RUM

§ 199.63 *General.* Specially denatured rum may be withdrawn, without payment of tax, from distillery denaturing bonded warehouses established and operated under the provisions of Regulations 16 (Part 187 of this chapter) for deposit in foreign-trade zones for exportation or storage therein pending exportation, in accordance with the fourth proviso to section 3 of the act of June 18, 1934, as amended.[1] Such withdrawals may be made in packages of any desired size, including tank cars. The withdrawal, transportation to and deposit in a foreign-trade zone, and the accounting for any losses, shall be in accordance with this subpart and Subpart J. Except as otherwise provided in this subpart, the packaging, marking, and reporting of specially denatured rum prior to withdrawal, shall be in accordance with the applicable provisions of Regulations 16 governing the exportation of specially denatured rum.

(53 Stat. 355; 26 U. S. C. 3070)

§ 199.64 *Application and entry.* Where the proprietor of a denaturing bonded warehouse desires to withdraw specially denatured rum for transportation to and deposit in a foreign-trade zone for exportation, he shall make application on Form 1701 to the Assistant District Commissioner of the district in which the denaturing bonded warehouse is located, in accordance with the applicable provisions of § 199.36 covering the withdrawal of alcohol, except that an original and three copies will be prepared instead of an original and four copies.

(53 Stat. 355; 26 U. S. C. 3070)

§ 199.65 *Consent of surety.* The proprietor of the denaturing bonded warehouse must file a consent of surety, Form 1533, in triplicate, extending the terms of his bond, Form 572, which consent shall contain the undertaking that—

> The obligors hereby agree to extend the terms of said bond to cover all liability that may be incurred by the principal on all specially denatured rum withdrawn by him for transportation to and deposit in a foreign-trade zone for which satisfactory evidence of deposit therein is not submitted to the Assistant District Commissioner.

Consents of surety shall be executed and approved in accordance with Subpart J and the instructions printed on the form.

(53 Stat. 355; 26 U. S. C. 3070)

§ 199.66 *Approval of application and issuance of permit.* The proprietor shall forward all copies of Form 1701 to the Assistant District Commissioner. If the consent of surety, Form 1533, extending the terms of the bond, Form 572, has been approved and the bond is in a sufficient penal sum, the Assistant District Commissioner shall issue permit on Form 1701 for removal and transportation of the specially denatured rum to the zone, and shall return all copies of Form 1701 to the applicant.

(53 Stat. 355; 26 U. S. C. 3070)

§ 199.67 *Marking of containers.* The containers will be marked in accordance with the provisions of Regulation 16 (Part 187 of this chapter) for containers of specially denatured rum withdrawn for exportation, except that the words "For Export" will be followed by "via F. T. Z. No. _____."

(53 Stat. 307, 355; 26 U. S. C. 2808, 3070)

§ 199.68 *Release of specially denatured rum.* The openings of tank cars used for the transportation of specially denatured rum shall be sealed by the storekeeper-gauger with Government cap seals as soon as such cars are filled. The storekeeper-gauger also shall note the serial numbers of the seals so used on Form 1701. After the containers have been properly marked, and sealed in the case of tank cars, the storekeeper-gauger will release the specially denatured rum for shipment to the foreign-trade zone named in the application. Upon removal of the specially denatured rum, the storekeeper-gauger will execute the report of removal on Form 1701.

(53 Stat. 307, 355; 26 U. S. C. 2808, 3070)

§ 199.69 *Delivery to zone.* Specially denatured rum may be delivered directly to a zone by the proprietor in vehicles owned or controlled by him, or to a carrier holding permit under Regulations 3 (Part 182 of this chapter) to transport specially denatured or tax-free alcohol, for transportation to a zone. Where delivery is made to a carrier for transportation to a zone, he shall procure a copy of the bill of lading, if any, covering such transportation.

(53 Stat. 355; 26 U. S. C. 3070)

§ 199.70 *Disposition of forms.* When the specially denatured rum has been withdrawn and a copy of the bill of lading, if any, has been furnished to the storekeeper-gauger at the denaturing bonded warehouse, the storekeeper-gauger will forward immediately one copy of the Form 1701 and bill of lading, if any, to the Assistant District Commissioner of the district in which the premises are located, and two copies of Form 1701 to the customs officer in charge at the foreign-trade zone. The proprietor will retain the remaining copy of Form 1701 for filing.

(53 Stat. 355; 26 U. S. C. 3070)

§ 199.71 *Deposit in foreign-trade zone.* Upon receipt at the zone, the specially denatured rum shall be inspected by a customs officer who will determine whether it agrees in all respects with the description thereof on Form 1701. The officer will carefully examine the contents of any containers which are broken or tampered with and will report on both copies of Form 1701 any shortage and the apparent cause thereof. If the inspection discloses evidence of fraud, as distinguished from losses by leakage, minor pilferage or theft in transit, the Collector of Customs will detain the specially denatured rum and report the facts immediately to the Assistant District Commissioner of the district in which the zone is located, who will cause immediate investigation to be made and will take such action as the facts may warrant. Where specially denatured rum is so detained, it shall be deemed not to have been deposited in the zone, and customs officers will hold in abeyance the processing of Form 1701 and Zone Form D pertaining to such specially denatured rum, until the detained specially denatured rum will have been released in accordance with the provisions of § 199.72. Where the inspection discloses no shortage, or where a shortage is disclosed but there is no evidence to indicate fraud, the customs officer will execute his certificate of inspection on Form 1701 and forward both copies thereof to the Collector of Customs who will execute his certificate of deposit on Form 1701, retain one copy, and forward one copy to the Assistant District Commissioner who approved the permit.

(53 Stat. 355; 26 U. S. C. 3070)

[1] See footnote on p. 11799.

§ 199.72 *Loss of specially denatured rum in transit.* Losses of specially denatured rum by leakage, casualty, or unavoidable cause during shipment or transfer from a denaturing bonded warehouse to a foreign-trade zone may be allowed, if satisfactory evidence establishes that such specially denatured rum has not been diverted to any illegal use by the exporter or carrier or other person having legal custody or control thereof or with connivance, collusion, fraud, or negligence on the part of the exporter or carrier or such other person or the employees of any of them. The investigation of losses, notice to exporter, procedure for filing claims, action by Assistant District Commissioner, action by Commissioner, and release of detained specially denatured rum shall be in accordance with the procedure prescribed in §§ 199.47 to 199.51, insofar as applicable, governing losses of alcohol.

SUBPART D—WITHDRAWAL OF DISTILLED SPIRITS FOR DEPOSIT IN AND SUBSEQUENT EXPORTATION FROM A FOREIGN-TRADE ZONE

§ 199.100 *General.* Distilled spirits may be withdrawn, without payment of tax, from a registered distillery, fruit distillery, or an internal revenue bonded warehouse established and operated under the provisions of Regulations 4 (Part 183 of this chapter), Regulations 5 (Part 184 of this chapter), or Regulations 10 (Part 185 of this chapter), respectively, for transportation to and deposit in a foreign-trade zone for exportation or storage therein pending exportation, in accordance with the fourth proviso to section 3 of the act of June 18, 1934, as amended.[1] Distilled spirits may be removed in:

(a) Distiller's original packages including those the contents of which have been reduced in proof to not less than 90°;

(b) New packages filled from distiller's original packages;

(c) Cases containing spirits bottled in bond for export;

(d) Wooden packages each containing two or more metallic cans of a capacity of not less than five gallons each;

(e) Tank cars in the case of spirits of not less than 180° of proof;

(f) Tank cars and tank trucks in the case of distilled spirits of 160° or more of proof, during the effective period (November 7, 1951 to July 10, 1956) of Treasury Decision 5864 (16 F. R. 11295); and

(g) Packages containing brandies blended under the provisions of Regulations 10.

The withdrawal, transportation to and deposit in the foreign-trade zone, and the accounting for any losses in transit shall be in accordance with this subpart and Subpart J. Except as otherwise provided in this subpart, the gauging, packaging, bottling, casing, marking, stamping, and reporting of distilled spirits prior to withdrawal shall be in accordance with the applicable provisions of Regulations 4, 5, and 10 governing the exportation of distilled spirits.

(53 Stat. 333, 336, 339, 344; 26 U. S. C. 2878, 2885, 2888, 2905)

§ 199.101 *Application and entry.* Whenever an exporter desires to remove distilled spirits from a registered distillery, fruit distillery, or an internal revenue bonded warehouse, for transportation to and deposit in a foreign-trade zone for exportation, he shall make application on Form 1701 to the Assistant District Commissioner of the district in which such distillery or warehouse is located, in accordance with the requirements of § 199.36 covering withdrawal of alcohol, except that an original and five copies will be prepared instead of an original and four copies.

(52 Stat. 333, 336, 339, 344; 26 U. S. C. 2878, 2885, 2888, 2905)

§ 199.102 *Transportation bonds.* The exporter shall file a bond with the Assistant District Commissioner of the district in which the registered distillery, fruit distillery, or internal revenue bonded warehouse is located, to cover the transportation of the distilled spirits from such distillery or warehouse to the foreign-trade zone. If a bond is given only for a specific lot of distilled spirits to be withdrawn, the bond shall be executed on Form 1702, in triplicate. The penal sum of such bond shall be not less than the tax at the distilled spirits rate on the quantity of spirits to be withdrawn, and in no case shall be less than $1,000. If distilled spirits are to be withdrawn from time to time for transfer to a foreign-trade zone, a continuing bond on Form 1703 shall be executed, in triplicate: *Provided*, That if the exporter has on file a bond on Form 657 or Form 658, he may file a consent of surety on Form 1533 extending the terms of such bond to cover the tax on all distilled spirits withdrawn for transportation to and deposit in a zone. The penal sum of the bond on Form 1703, or of the bond on Form 657 or Form 658 on which the consent has been filed, shall be sufficient to cover the tax at the distilled spirits rate on the maximum quantity of spirits to be withdrawn and that may remain unaccounted for at any one time, and in no case shall be less than $1,000. Bonds and consents of surety shall be executed and approved in accordance with Subpart J and the instructions printed on the form.

(53 Stat. 336, 339, 344; 26 U. S. C. 2885, 2888, 2905)

§ 199.103 *Tank cars and tank trucks of distilled spirits.* Except as otherwise provided in this subpart, where it is desired to withdraw distilled spirits of not less than 180 degrees of proof in tank cars, or to withdraw distilled spirits of 160 degrees or more of proof in tank cars or tank trucks during the effective period of Treasury Decision 5864 (16 F. R. 11295), for deposit in a foreign-trade zone, the filling, sealing, marking, and stamping of such tank cars and tank trucks shall be in accordance with the provisions of Regulations 4 (Part 183 of this chapter), 5 (Part 184 of this chapter), or 10 (Part 185 of this chapter) governing the removal of spirits in tank cars for exportation. The storekeeper-gauger shall prepare an original and five copies of the Form 1520 covering the gauge and removal of the spirits. After the tank cars or tank trucks have been filled, the storekeeper-gauger shall execute his report of gauge on all copies of the Form 1701, attach a copy of the Form 1520 to each copy of the Form 1701, deliver the original and four copies to the proprietor, and retain the remaining copy of each form.

(53 Stat. 339; 26 U. S. C. 2888)

§ 199.104 *Distiller's original packages and packages filled from distiller's original packages.* Except as otherwise provided in this subpart, where it is desired to withdraw distilled spirits in distiller's original packages and packages filled from distiller's original packages, the gauging, reduction in proof, recasking, and the marking of packages shall be in accordance with the provisions of Regulations 10 (Part 185 of this chapter) governing the exportation of distilled spirits. The proprietor shall prepare an original and five copies of Form 1520, in the manner provided in Regulations 10, covering the packages listed in the application, execute his request for gauge on Form 1701, and deliver all copies of the Forms 1520 and 1701 to the storekeeper-gauger at the warehouse. If the spirits are to be reduced to not less than 90 degrees of proof, or if the spirits are to be transferred from distiller's original packages to new packages, the proprietor shall make request so to do at the time he executes his request for gauge. If spirits in original packages are reduced in proof or are transferred to new packages, the storekeeper-gauger will prepare an original and five copies of Form 1520, covering the gauge after reduction or the gauge of the new packages, as the case may be. The storekeeper-gauger shall then execute his report of gauge on Form 1701 and attach to each copy of the form a copy of the Form 1520 covering the first gauge (if any) of the spirits, and a copy of the Form 1520 covering the reduction in proof or the transfer to new packages. Where distilled spirits are reduced in proof or are transferred to new packages, the loss to be reported on Form 1701 at the time of withdrawal will represent the difference between the quantity reported withdrawn and the quantity (original gauge) shown in the application. The storekeeper-gauger will retain one copy of Form 1701 with Form 1520 attached, and deliver the remaining five copies of each form to the proprietor of the warehouse.

(53 Stat. 336; 26 U. S. C. 2885)

§ 199.105 *Wooden packages containing metallic cans.* Except as otherwise provided in this subpart, where it is desired to withdraw distilled spirits in wooden packages containing metallic cans, the marking, stamping, and removal of such wooden packages shall be in accordance with the provisions of Regulations 10 (Part 185 of this chapter) governing the exportation of wooden packages containing metallic cans. The procedure prescribed in this subpart for the withdrawal of distiller's original

[1] See footnote on p. 11799.

packages shall be followed, insofar as applicable, except that the request for gauge shall not be executed.

(53 Stat. 333; 26 U. S. C. 2878)

§ 199.106 *Bottled spirits.* Except as otherwise provided in this subpart, where it is desired to withdraw distilled spirits bottled in bond for export for transportation to and deposit in a foreign-trade zone, the bottling, casing, marking, and removal of such distilled spirits shall be in accordance with the provisions of Regulations 10 (Part 185 of this chapter) governing the exportation of distilled spirits bottled in bond.

(53 Stat. 344; 26 U. S. C. 2905)

§ 199.107 *Approval of application and issuance of permit.* The proprietor of the distillery or bonded warehouse shall forward to the Assistant District Commissioner all copies of the Form 1701, with Forms 1520, if any, attached. If the bond, Form 1702 or Form 1703, has been approved and is in a sufficient penal sum, or if a consent of surety, Form 1533, extending the terms of a bond on Form 657 or Form 658, has been approved and such bond is in a sufficient penal sum, the Assistant District Commissioner, shall issue permit on Form 1701 for transportation and deposit of spirits in the zone, and shall return all copies of the Form 1701, with Forms 1520, if any, attached, to the proprietor.

(53 Stat. 336, 339, 344; 26 U. S. C. 2885, 2888, 2905)

§ 199.108 *Export stamps.* Every container of distilled spirits, except cases of bottled spirits, intended for transfer to a foreign-trade zone must have an export stamp affixed thereto at the time of its removal from the distillery or warehouse. Upon receipt of the Assistant District Commissioner's permit for removal and transportation executed on Form 1701 with attached Form 1520, the proprietor will forward all copies together with the remittance for the necessary number of export stamps to the Director of Internal Revenue. The Director will issue the export stamps, enter the kind and serial numbers of the stamps on all copies of Form 1520, retain one copy of each form, and return the remaining four copies of each form, with the export stamps, to the proprietor. The proprietor will deliver the export stamps and Form 1701 with the attached Forms 1520 to the storekeeper-gauger, who will verify the data on the stamps and affix his signature, or facsimile thereof, enter the serial numbers of the stamps on Form 1701 and his retained copy of Form 1520, and return the stamps to the proprietor.

(53 Stat. 333, 336, 339; 26 U. S. C. 2878, 2885, 2888)

§ 199.109 *Marking and stamping containers.* The containers, except cases of bottled spirits, will be marked and stamped in accordance with the provisions of Regulations 10 (Part 185 of this chapter) for containers of distilled spirits withdrawn for exportation, except that the words "For Export via F. T. Z. No. _____" will be shown in lieu of the names of ports. Cases of bottled spirits will be marked in accordance with the provisions of Regulations 10 for cases of bottled spirits withdrawn for exportation, except that the words "For Export" will be followed by "via F. T. Z. No. ____." in lieu of the words "From U. S. A." and the names of the ports.

(53 Stat. 333, 336, 339, 344; 26 U. S. C. 2878, 2885, 2888, 2905)

§ 199.110 *Release of spirits.* After the containers have been properly marked, and except in the case of bottled spirits, stamped, the storekeeper-gauger will release the spirits for shipment to the foreign-trade zone named in the application, Form 1701. Upon removal of the spirits from the premises, the storekeeper-gauger will execute the report of removal on Form 1701.

(53 Stat. 333, 336, 339, 344; 26 U. S. C. 2878, 2885, 2888, 2905)

§ 199.111 *Delivery to zone.* Distilled spirits may be delivered directly to a zone by the exporter or to a carrier for transportation to a zone. Where delivery is made to a carrier for transportation to a zone, the proprietor shall procure a copy of the bill of lading, if any, covering such transportation and deliver it to the storekeeper-gauger.

(53 Stat. 336, 339, 344; 26 U. S. C. 2885, 2888, 2905)

§ 199.112 *Disposition of forms.* When the distilled spirits have been withdrawn, the storekeeper-gauger will forward immediately one copy of the Form 1701, with Form 1520, if any, attached, and a copy of the bill of lading, if any, to the Assistant District Commissioner of the district in which the distillery or warehouse is located. He will mail two copies of the forms to the customs officer in charge at the foreign-trade zone, except that in the case of transfers in tank trucks, he will mail one copy of each form to such customs officer and enclose the other copies in a sealed envelope addressed to such customs officer and give the same to the driver of the tank truck for delivery to him. The storekeeper-gauger will deliver one copy of the forms to the proprietor, and retain the remaining copy of the forms.

(53 Stat. 336, 339, 344; 26 U. S. C. 2885, 2888, 2905)

§ 199.113 *Deposit in foreign-trade zone.* Upon receipt at the zone, the containers of distilled spirits shall be inspected by a customs officer for evidence of loss or tampering. Packages of distilled spirits, including metal cans enclosed in wooden packages, must be gauged and a report of the gauge made on Form 696, in duplicate. If seals on tank cars or tank trucks are intact and bear the serial numbers shown on Form 1520 to have been affixed at the time of removal, and if there is no evidence of loss or tampering, no gauge of the tank cars or tank trucks need be made. However, if the seals are not intact or if the original seals (listed on Form 1520) have been replaced, the officer will open the car or truck, gauge the spirits, and make a report of his gauge on Form 696, in duplicate. Containers bearing evidence of loss may be deposited in the zone, unless the circumstances indicate fraud, as distinguished from losses by leakage, minor pilferage or theft in transit, in which event the Collector of Customs will detain the distilled spirits and report the facts immediately to the Assistant District Commissioner of the district in which the zone is located, who will cause immediate investigation to be made and will take such action as the facts may warrant. Where distilled spirits are so detained, they shall be deemed not to have been deposited in the zone, and customs officers will hold in abeyance the processing of Forms 1701 and Zone Form D until the detained distilled spirits will have been released in accordance with § 199.120. Where the inspection or gauge discloses no loss, or where a loss is disclosed by such inspection or gauge and there is no evidence to indicate fraud, the officer shall execute his certificate of inspection on Form 1701, reporting thereon any discrepancy found, giving the serial numbers of the packages or cases, or the railroad tank car number, or the tank truck number and the State license number of the tank truck (if the tank truck is of the trailer type, the license number of the trailer will be shown), the original contents in proof gallons, and the nature and extent of any losses or discrepancies. The officer shall cut out that portion of each of the export stamps, if any, extending from the top to the bottom and embracing the entire width between the borders thereof, and attach them, together with a copy of Form 696, if any, to one copy of the Form 1701. The officer shall attach the remaining copy of Form 696, if any, to the remaining copy of Form 1701 and shall then forward both copies of Form 1701 with attachments to the Collector of Customs. The Collector of Customs will execute his certificate on Form 1701 and forward one copy of the form with Forms 1520 and 696, if any, and the cut-out portions of the stamps, if any, to the Assistant District Commissioner who approved the permit. The remaining copy of the Form 1701, with attachments, if any, will be retained by the Collector of Customs.

(53 Stat. 336, 339, 344; 26 U. S. C. 2885, 2888, 2905)

LOSSES OF DISTILLED SPIRITS IN TRANSIT

§ 199.114 *Taxable losses.* No tax shall be collected in respect of distilled spirits lost or destroyed while in bond, except that such tax shall be collected:

(a) *Theft.* In the case of loss by theft unless the Commissioner shall find that the theft occurred without connivance, collusion, fraud, or negligence on the part of the distiller, warehouseman, owner, consignor, consignee, bailee, or carrier, or the employees of any of them; and

(b) *Voluntary destruction.* In the case of voluntary destruction unless the distilled spirits were unfit for use for beverage purposes and the warehouseman, or other person responsible for the tax, obtained the written permission of the Assistant District Commissioner for such destruction in each case.

(53 Stat. 340, as amended; 26 U. S. C. 2901)

§ 199.115 *Insurance coverage.* The remission of the tax on distilled spirits lost by theft while in bond may be allowed only to the extent that the claimant is not indemnified against or recompensed for such tax.

(53 Stat. 340, as amended; 26 U. S. C. 2901)

§ 199.116 *Notice to exporter.* If, upon examination of Form 1701, and Form 696, if any, received from the Collector of Customs, the Assistant District Commissioner is of the opinion that a reported loss resulted from theft, or unauthorized voluntary destruction, he will advise the principal on the bond by letter (a) of the identity of the containers; (b) of the amount of the loss; (c) of the circumstances indicating loss by theft or unauthorized voluntary destruction; and (d) that filing of proof of loss and claim for remission of tax is required.

(53 Stat. 340, as amended; 26 U. S. C. 2901)

§ 199.117 *Filing of claims.* When the exporter has received a notice of loss and a request from the Assistant District Commissioner for the filing of a claim, he shall, within 30 days from the date of the notification, submit a claim for remission of the tax on the spirits lost. Such claims shall be made on letter-size paper, in duplicate, showing the name, address, and capacity of the claimant and setting forth, under oath, the following information:

(a) The name of the distiller who produced the spirits, and the registry number and location of the distillery;

(b) The serial numbers of the packages or cases, or the railroad tank car number, or the tank truck number and the State license number of the tank truck (if the tank truck is of the trailer type, the license number of the trailer will be shown);

(c) The quantity of spirits lost from each package or other container, and the total quantity of spirits covered by the claim;

(d) The total amount of tax for which the claim is filed;

(e) The date of the loss, or, if such date is not known, the date on which the loss was discovered and the cause and nature thereof, together with all the facts surrounding the loss;

(f) The name of the carrier, if any;

(g) If lost by theft, the facts establishing whether the loss occurred as the result of any negligence, connivance, collusion, or fraud on the part of the distiller, owner, warehouseman, consignor, consignee, bailee, or carrier, or the employees of any of them;

(h) If lost by theft, whether the claimant is indemnified or recompensed for the loss, and, if so, the amount and nature of such indemnity or recompense. The actual value of the spirits, less the tax, must be stated explicitly and, where required, certified copies of all policies of insurance or other documents of indemnity covering the spirits must be furnished.

(53 Stat. 340, as amended; 26 U. S. C. 2901)

§ 199.118 *Action by Assistant District Commissioner.* Where large losses in transit are reported, the Assistant District Commissioner will cause immediate investigation to be made. When a claim for remission of tax is received, the Assistant District Commissioner will carefully examine it to see that the required information has been furnished and will cause such investigation to be made or require such additional evidence to be submitted as he may deem necessary. Upon completion of the claim investigation, the Assistant District Commissioner will forward one copy of the claim and related papers to the Commissioner with his recommendation as to the merits of the claim. In the event the exporter does not file proof of loss and claim for remission of tax as provided in this subpart, the Assistant District Commissioner will report the tax for assessment in accordance with the prescribed procedure. The Assistant District Commissioner will keep an account with each bond in accordance with Subpart J.

(53 Stat. 340, as amended; 26 U. S. C. 2901)

§ 199.119 *Action by Commissioner.* If the Commissioner finds that a loss of distilled spirits from a container resulted (a) from unauthorized voluntary destruction, or (b) from theft and the proprietor or other person responsible for the tax fails to establish that the theft did not occur as a result of connivance, collusion, fraud, or negligence on the part of the distiller, warehouseman, owner, consignor, consignee, bailee, or carrier, or the employees of any of them, the tax will be assessed.

(53 Stat. 340, as amended; 26 U. S. C. 2901)

§ 199.120 *Release of detained spirits.* When spirits have been detained at a foreign-trade zone pending the Assistant District Commissioner's investigation and determination of fraud in accordance with § 199.113, the Collector of Customs shall not release the spirits for deposit until he is advised so to do by the Assistant District Commissioner.

SUBPART E—WITHDRAWAL OF WINES FOR DEPOSIT IN AND SUBSEQUENT EXPORTATION FROM A FOREIGN-TRADE ZONE

§ 199.150 *General.* Wines may be withdrawn, free of tax, from bonded wineries and bonded storerooms established and operated under the provisions of Regulations 7 (Part 178 of this chapter), for transportation to and deposit in foreign-trade zones for exportation or storage therein pending exportation, in accordance with the fourth proviso to section 3 of the act of June 18, 1934, as amended.[1] Such withdrawals may be made in casks, barrels, kegs, tanks, tank cars, tank trucks and in bottles encased in wood, fiberboard or other suitable material. The withdrawal, transportation to and deposit in the foreign-trade zone and the accounting for any losses shall be in accordance with this subpart and Subpart J. Except as otherwise provided in this subpart, the packaging, bottling, casing, marking, and reporting of wines prior to withdrawal shall be in accordance with the applicable provisions of Regulations 7 governing the exportation of wine.

(53 Stat. 353; 26 U. S. C. 3037)

§ 199.151 *Application and entry.* Whenever an exporter desires to remove wines from a bonded winery or storeroom for transportation to and deposit in a foreign-trade zone, he shall make application on Form 1701 to the Assistant District Commissioner of the district in which such winery or storeroom is located, in accordance with the requirements of § 199.36 covering withdrawal of alcohol, except that an original and three copies will be prepared instead of an original and four copies.

(53 Stat. 353; 26 U. S. C. 3037)

§ 199.152 *Transportation bonds.* The exporter shall file a bond with the Assistant District Commissioner of the district in which the bonded winery or bonded storeroom is located, to cover the transportation of the wine from such bonded winery or storeroom to the foreign-trade zone. If a bond is given only for a specific lot of wine to be withdrawn, the bond shall be executed on Form 1702, in triplicate. The penal sum of such bond shall be not less than the tax on the quantity to be withdrawn, and in no case shall be less than $500. If wines are to be withdrawn from time to time for transfer to a foreign-trade zone, a continuing bond on Form 1703 shall be executed in triplicate: *Provided*, That if the exporter has on file a bond on Form 186, he may file a consent of surety on Form 1533 extending the terms of such bond to cover the tax on all wines withdrawn for transportation to and deposit in a zone. The penal sum of the bond on Form 1703, or of the bond on Form 186 on which the consent has been filed, shall be sufficient to cover the tax on the maximum quantity of any wines to be withdrawn and that may remain unaccounted for at any one time, and in no case shall be less than $500. Bonds and consents of surety shall be executed and approved in accordance with Subpart J and the instructions printed on the form.

(53 Stat. 353; 26 U. S. C. 3037)

§ 199.153 *Approval of application and issuance of permit.* The proprietor of the bonded winery or storeroom shall forward to the Assistant District Commissioner all copies of the Form 1701. If the bond, Form 1702 or Form 1703, has been approved and is in a sufficient penal sum, or if a consent of surety, Form 1533, extending the terms of a bond on Form 186, has been approved and such bond is in a sufficient penal sum, the Assistant District Commissioner will issue permit on Form 1701 for removal and transportation of the wines to the zone, and shall return all copies of the Form 1701 to the proprietor.

(53 Stat. 353; 26 U. S. C. 3037)

§ 199.154 *Marking containers.* The containers will be marked in accordance with the provisions of Regulations 7 (Part 178 of this chapter) for containers of wine withdrawn for exportation, except that the words "For Export" will be followed by "via F. T. Z. No. _____."

(53 Stat. 353, 354; 26 U. S. C. 3037, 3040)

§ 199.155 *Delivery to zone.* Wine may be delivered directly to a zone by the exporter or to a carrier for transportation to a zone. Where delivery is made to a carrier for transportation to a zone,

[1] See footnote on p. 11799.

the proprietor shall procure a copy of the bill of lading, if any, covering such transportation. When the wine is withdrawn from the bonded winery or storeroom, the proprietor shall execute his report of removal on Form 1701 and forward immediately one copy, to which shall be attached the copy of the bill of lading, if any, to the Assistant District Commissioner of the district in which the bonded winery or storeroom is located. He will mail two copies to the customs officer in charge at the foreign-trade zone except that in the case of transfers in tank trucks, he will mail one copy of such forms to such customs officer and enclose the other copy in a sealed envelope addressed to such customs officer and give the same to the driver of the tank truck for delivery to him. The proprietor will retain the remaining copy.

(53 Stat. 353; 26 U. S. C. 3037)

§ 199.156 *Deposit in foreign-trade zone.* Upon receipt at the zone, the wine shall be inspected by a customs officer, who will determine whether it agrees in all respects with the description thereof on Form 1701. The officer will carefully examine the contents of any containers which are found broken or tampered with and will report on both copies of Form 1701 any shortage and the apparent cause thereof, as provided therein. If the inspection discloses evidence of fraud, as distinguished from losses by leakage, minor pilferage or theft in transit, the Collector of Customs will detain the wines and report the facts immediately to the Assistant District Commissioner of the district in which the zone is located, who will cause immediate investigation to be made and will take such action as the facts may warrant. Where wines are so detained, they shall be deemed not to have been deposited in the zone, and customs officers will hold in abeyance the processing of Forms 1701 and Zone Form D pertaining to such wines, until the detained wines will have been released in accordance with the provisions of § 199.158. Where the inspection discloses no shortage, or where a shortage is disclosed but there is no evidence to indicate fraud, the customs officer will execute his certificate of inspection on Form 1701, reporting thereon any discrepancy found, giving the serial numbers of the packages, cases, tanks, railroad tank car or tank truck, and, in addition, in the case of railroad tank cars, the railroad car number and, in the case of tank trucks, the State license number of the tank truck (if the tank truck is of the trailer type, the license number of the trailer), the original contents in gallons, and the nature and extent of any losses or discrepancies. The officer shall then forward both copies of Form 1701 to the Collector of Customs, who will execute his certificate of deposit on Form 1701, retain one copy, and forward one copy to the Assistant District Commissioner who approved the permit.

(53 Stat. 353; 26 U. S. C. 3037)

§ 199.157 *Action by Assistant District Commissioner.* No provision is made in the law for remission of tax on wines lost in transit to foreign-trade zones. Where large losses in transit are reported, the Assistant District Commissioner will cause immediate investigation to be made. If the investigation does not disclose evidence of fraud, the Assistant District Commissioner will notify the exporter in writing of his liability under his bond for the tax upon such losses of wine and request that the tax thereon be tendered in the proper form immediately. In the case of fraud the tax on the wine diverted will be assessed, and the remainder will be subject to seizure and forfeiture.

(53 Stat. 347 as amended, 353; 26 U. S. C. 3030, 3037)

§ 199.158 *Release of detained wines.* When wine has been detained at a foreign-trade zone pending the Assistant District Commissioner's investigation and determination of fraud in accordance with § 199.156, the Collector of Customs shall not release the wine for deposit until he is advised so to do by the Assistant District Commissioner.

(53 Stat. 347 as amended, 353; 26 U. S. C. 3030, 3037)

SUBPART F—REMOVAL OF FERMENTED LIQUOR FOR DEPOSIT IN AND SUBSEQUENT EXPORTATION FROM A FOREIGN-TRADE ZONE

§ 199.175 *General.* Fermented liquor may be removed, without payment of tax, from the place of manufacture or storage established and operated under the provisions of Regulations 18 (Part 192 of this chapter), for transportation to and deposit in foreign-trade zones for exportation or storage therein pending exportation, in accordance with the fourth proviso to section 3 of the act of June 18, 1934, as amended.[2] Such removals may be made in kegs, barrels, bottles or cans. The removal, transportation to and deposit in the foreign-trade zone and the accounting for any losses in transit shall be in accordance with this subpart and Subpart J. Except as otherwise provided in this subpart, the packaging, bottling, casing, marking, and reporting of fermented liquor prior to removal shall be in accordance with the applicable provisions of Regulations 18.

(53 Stat. 367 as amended; 26 U. S. C. 3153)

§ 199.176 *Application and entry.* Whenever an exporter desires to remove fermented liquor for transportation to and deposit in a foreign-trade zone, he shall make application on Form 1701 to the Assistant District Commissioner of the district in which the place of manufacture or storage is located, in accordance with the requirements of § 199.36 covering the withdrawal of alcohol, except that an original and three copies will be prepared instead of an original and four.

(53 Stat. 367 as amended; 26 U. S. C. 3153)

§ 199.177 *Transportation bonds.* The exporter shall file a bond with the Assistant District Commissioner of the district in which the place of manufacture or storage is located, to cover the transportation of the fermented liquor from such place of manufacture or storage to the foreign-trade zone. If the bond is given only for a specific lot of fermented liquor to be removed, the bond shall be executed on Form 1702, in triplicate. The penal sum of such bond shall be not less than the tax on the quantity to be removed, but shall not exceed $25,000 nor be less than $1,000. If fermented liquor is to be removed from time to time for transfer to a foreign-trade zone, a continuing bond on Form 1703 shall be executed in triplicate: *Provided*, That if the brewer has on file a bond on Form 263, he may file a consent of surety on Form 1533 extending the terms of such bond to cover the tax on all fermented liquor removed for transportation to and deposit in a zone. The penal sum of the bond on Form 1703, or of the bond on Form 263 on which the consent has been filed, shall be sufficient to cover the tax on the maximum quantity of any fermented liquor to be withdrawn and that may remain unaccounted for at any time: *Provided*, That the penal sum of any such bond shall not exceed $25,000 nor be less than $1,000. Bonds and consents of surety shall be executed and approved in accordance with Subpart J and the instruction printed on the form.

(53 Stat. 367 as amended; 26 U. S. C. 3153)

§ 199.178 *Approval of application and issuance of permit.* The brewer shall forward to the Assistant District Commissioner all copies of Form 1701. If the bond, Form 1702 or 1703, has been approved and is in a sufficient penal sum, or if the consent of surety, Form 1533, extending the terms of a bond on Form 263 has been approved and such bond is in a sufficient penal sum, the Assistant District Commissioner shall issue a permit on Form 1701 for removal and transportation of the fermented liquor to the zone, and shall return all copies of Form 1701 to the brewer.

(53 Stat. 367 as amended; 26 U. S. C. 3153)

§ 199.179 *Marking containers.* The containers will be marked in accordance with the provisions of Regulations 18 (26 CFR Part 192) for containers removed for exportation, except that the words "Fermented Liquor for Export via F. T. Z. No. ------ Lot No. ------" will be shown in lieu of "Fermented Liquor for Export—Lot No. ------." The lot number shall correspond with the serial number of the Form 1701.

(53 Stat. 367 as amended; 26 U. S. C. 3153)

§ 199.180 *Delivery to zone.* Fermented liquor may be delivered directly to a zone by the brewer or to a carrier for transportation to a zone. Where delivery is made to a carrier for transportation to a zone, the brewer shall procure a copy of the bill of lading, if any, covering such transportation. When the fermented liquor is removed, the brewer shall execute his report of removal on Form 1701, and forward immediately one copy, to which shall be attached one copy of the bill of lading, if any, to the Assistant District Commissioner of the district in which the place of manufacture or storage is located. He will send two copies to the customs officer in charge of the foreign-trade zone and retain the remaining copy.

(53 Stat. 367 as amended; 26 U. S. C. 3153)

§ 199.181 *Deposit in foreign-trade zone.* Upon receipt at the zone, the fermented liquor shall be inspected by a customs officer who will determine whether the fermented liquor agrees in all respects with the description thereof on Form 1701. The officer will carefully examine the contents of any containers which are broken or tampered with and will report on both copies of Form 1701 any shortage and the apparent cause thereof. If the inspection discloses the shipment not to be as described on Form 1701 and there is evidence indicative of fraud, as distinguished from losses by leakage, minor pilferage or theft in transit, the Collector of Customs will detain the fermented liquor and report the facts to the Assistant District Commissioner of the district in which the zone is located, who will cause immediate investigation to be made and will take such action as the facts may warrant. Where fermented liquor is so detained, it shall be deemed not to have been deposited in the zone, and customs officers will hold in abeyance the processing of Forms 1701 and Zone Form D pertaining to such fermented liquor until the detained liquor will have been released in accordance with the provisions of § 199.183. Where the inspection discloses no shortage, or where a shortage is disclosed but there is no evidence to indicate fraud, the customs officer shall execute his certificate of inspection on Form 1701, reporting thereon any discrepancy found and the nature and extent of any losses or discrepancies. The officer shall then forward both copies of Form 1701 to the Collector of Customs, who will execute his certificate of deposit on Form 1701, retain one copy, and forward one copy to the Assistant District Commissioner who approved the permit.

(53 Stat. 367 as amended; 26 U. S. C. 3153)

§ 199.182 *Losses in transit.* Where large losses in transit are reported, the Assistant District Commissioner will cause immediate investigation to be made. If it is found that losses in transit have occurred by casualty, leakage, or spillage, the losses will be allowed as provided in § 199.319. Unless immediate detention or seizure of the fermented liquor is deemed necessary in the event the investigation discloses evidence indicating that the losses resulted from fraud, the Assistant District Commissioner will afford the exporter opportunity to submit written explanation with respect to the causes of such losses before the matter is reported to the Commissioner.

(53 Stat. 365 as amended, 367 as amended; 26 U. S. C. 3150, 3153)

§ 199.183 *Release of detained fermented liquor.* When fermented liquor has been detained at a foreign-trade zone pending the Assistant District Commissioner's investigation and determination of fraud in accordance with § 199.181, the Collector of Customs shall not release the liquor for deposit until he is advised so to do by the Assistant District Commissioner.

(53 Stat. 367 as amended; 26 U. S. C. 3153)

SUBPART G—WITHDRAWAL OF LIQUORS AND ARTICLES WITH BENEFIT OF DRAWBACK FOR DEPOSIT IN AND SUBSEQUENT EXPORTATION FROM A FOREIGN-TRADE ZONE

ARTICLES MANUFACTURED IN PART FROM TAXPAID DOMESTIC ALCOHOL

§ 199.200 *General.* The deposit for exportation or storage pending exportation in a foreign-trade zone of flavoring extracts and medicinal or toilet preparations (including perfumery), manufactured or produced in the United States in part from domestic taxpaid alcohol, shall be considered an exportation of such articles for the purpose of drawback of the internal revenue tax on the alcohol contained in such articles.

(46 Stat. 691, as amended; 19 U. S. C. 1311)

§ 199.201 *Regulations made applicable.* The provisions of Regulations 28 (Part 176 of this chapter) relating to drawback on the alcohol contained in such articles, when exported, shall apply to the same extent to such articles when deposited in foreign-trade zones for exportation or storage therein pending exportation. In lieu of stating the port of destination and the date of clearance of such articles on customs Form 4539, as specified in Regulations 28, the Collector of Customs shall, prior to transmittal of the form to the Commissioner of Internal Revenue, state on such form the number and location of the foreign-trade zone.

BOTTLED OR PACKAGED DISTILLED SPIRITS AND WINES

§ 199.202 *General.* Taxpaid distilled spirits and wines, bottled or packaged especially for export with benefit of drawback, may be removed from export storage rooms established under the provisions of Regulations 10, 11, or 15 (Parts 185, 189, 190 of this chapter), and deposited with benefit of drawback of the internal revenue tax paid thereon, in foreign-trade zones for exportation or storage therein pending exportation, in accordance with the fourth proviso to section 3 of the act of June 18, 1934, as amended.[2] Such removals may be made in packages (casks, barrels, drums, or other approved containers) containing 5 gallons or more, or in bottles containing less than 5 gallons. The removal and the deposit in the foreign-trade zone shall be in accordance with this subpart. Except as otherwise provided in this subpart, the provisions of Regulations 28 (Part 176 of this chapter), relating to the drawback on distilled spirits and wines bottled or packaged especially for export, shall apply, to the extent applicable, to the rectification, if any, bottling and packaging, casing of bottles, marking of cases and packages, the transfer and storage pending transfer of such liquors to a zone, and transfer to a zone: *Provided*, That no bond will be required respecting such removals.

(46 Stat. 690 as amended, 53 Stat. 377, as amended; 19 U. S. C. 1309, 26 U. S. C. 3179)

§ 199.203 *Claim and entry.* Whenever an exporter desires to remove distilled spirits or wine, bottled or packaged especially for export with benefit of drawback, for transportation to and deposit in a foreign-trade zone for exportation, he shall make application, in quadruplicate, on Form 1582 for distilled spirits, or on Form 1582–A for wines, to the Assistant District Commissioner of the district in which the export storage room (in which the distilled spirits or wines are stored) is located, to remove such spirits or wines and to obtain drawback thereon. All of the information called for by the headings of the various columns and lines on the forms and the instructions printed thereon, or issued in respect thereto, and as required by this subpart shall be furnished: *Provided*, That the exporter shall modify the claim and entry on Form 1582 or Form 1582–A to the extent necessary to indicate that the distilled spirits or wines are to be deposited in a foreign-trade zone for exportation or storage therein pending exportation. The number and location of the foreign-trade zone shall be stated in lieu of the foreign port. Form 1582 and Form 1582–A must be verified under oath by the exporter or his authorized agent: *Provided*, That if the forms officially prescribe for such use contain therein a provision for vertification by a written declaration that such claims are made under penalties of perjury, such claims shall be verified by the execution of such declaration, and such declaration so executed shall be in lieu of the oath required herein for verification. Where Form 1582 or Form 1582–A is signed by an agent, proper power of attorney on Form 1534 authorizing the agent to execute the form for the exporter must be filed in triplicate with the Assistant District Commissioner of the district in which the export storage room is located.

(46 Stat. 690 as amended, 53 Stat. 377 as amended, 63 Stat. 667; 19 U. S. C. 1309, 26 U. S. C. 3179, 3809)

§ 199.204 *Marking of containers.* Each case or package shall be marked in accordance with the provisions of Regulations 28 (Part 176 of this chapter) for containers withdrawn for export, except that the words "via F. T. Z. No. ------" will be shown in addition to and immediately following the words "For Export from U. S. A."

(46 Stat. 690 as amended, 53 Stat. 377 as amended, 19 U. S. C. 1309, 26 U. S. C. 3179)

§ 199.205 *Approval of application and release of liquors.* The exporter shall forward all copies of Form 1582 or Form 1582–A to the Assistant District Commissioner. If the Assistant District Commissioner finds that the claim and entry are properly executed and that the spirits or wines described in the entry have, according to the records of his office, been bottled or packaged especially for export with benefit of drawback, he shall execute his order on Form 1582 or Form 1582–A, as the case may be, to the storekeeper-gauger to release the liquors for shipment and return all copies of the form to such storekeeper-gauger. After the containers have been marked by the exporter, the storekeeper-gauger will in-

exporter, the storekeeper-gauger will in-

spect the containers and release the spirits for delivery to the zone. After the spirits have been released, the storekeeper-gauger shall execute his report on Form 1582 or Form 1582–A, as the case may be, and will forward one copy of the form to the Assistant District Commissioner and deliver the original and two copies to the exporter, who will transmit such copies to the customs officer in charge at the foreign-trade zone.

(46 Stat. 690 as amended, 53 Stat. 377 as amended; 19 U. S. C. 1309, 26 U. S. C. 3179)

§ 199.206 *Deposit in zone.* Upon receipt at the zone, the customs officer shall follow the procedure prescribed in Regulations 28 (Part 176 of this chapter) governing the inspection and gauge, and the detention in the case of evidence of fraud, of the spirits and wines. Where the distilled spirits or wines are detained, they shall be deemed not to have been deposited in the zone, and customs officers will hold in abeyance the processing of Forms 1582 or 1582–A and Zone Form D pertaining to such liquors, until the Assistant District Commissioner has advised the Collector of Customs that the liquors may be released and deposited in the zone. The customs officer shall modify his certificate on Form 1582 or Form 1582–A to indicate that it is a certificate of inspection and receipt and to show that the liquors were received under his supervision in the zone named by the exporter. Upon execution of his certificate, the customs officer will forward all copies of Form 1582 or Form 1582–A with attachments, if any, to the Collector of Customs. The Collector of Customs will execute his certificate on Form 1582 or Form 1582–A, which shall be properly modified to show deposit of the liquors in the zone specified in the entry, forward the original and one copy, together with attachments, if any, to the Assistant District Commissioner who authorized the shipment, and retain the remaining copy.

(46 Stat. 690 as amended, 53 Stat. 377 as amended; 19 U. S. C. 1309, 26 U. S. C. 3179)

§ 199.207 *Action on claim.* The Assistant District Commissioner and the Commissioner of Internal Revenue will complete and dispose of the claim in the manner prescribed by Regulations 28 (Part 176 of this chapter). If the claim is disallowed, the Commissioner will so notify the claimant and state the reasons therefor.

(46 Stat. 690 as amended, 53 Stat. 377 as amended; 19 U. S. C. 1309, 26 U. S. C. 3179)

DISTILLERS' ORIGINAL PACKAGES

§ 199.208 *General.* Taxpaid distilled spirits in distillers' original packages to which taxpaid stamps are affixed, containing not less than 20 wine gallons each, may be deposited, with the privilege of drawback of the internal revenue tax, in a foreign-trade zone for exportation or storage therein pending exportation, in accordance with the fourth proviso to section 3 of the act of June 18, 1934, as amended.[3] Except as otherwise provided in this subpart, the provisions of Regulations 28 (Part 176 of this chapter) relating to drawback on distilled spirits contained in distillers' original packages, upon exportation thereof, shall apply, to the extent applicable, to such distilled spirits when deposited in a foreign-trade zone for exportation or storage therein pending exportation: *Provided*, That bond, Form 1628, will not be required respecting such deposits.

(53 Stat. 338 as amended; 26 U. S. C. 2887)

§ 199.209 *Application and entry.* Whenever an exporter desires to deposit distilled spirits in distillers' original packages in a foreign-trade zone for exportation or for storage therein pending exportation, with privilege of drawback, he shall execute his application on Form 1629, in triplicate, and deliver it to the Collector of Customs of the district in which the foreign-trade zone is located. All of the information called for by the headings of the various columns and lines on the form and the instructions printed thereon, or issued in respect thereto, and as required by this subpart, shall be furnished: *Provided*, That the application shall be modified to the extent necessary to indicate that the spirits are to be deposited in a foreign-trade zone for exportation or storage therein pending exportation. The number and location of the foreign-trade zone shall be shown in lieu of the foreign port. Upon certification by the customs officer that the spirits have been received in the zone, as provided in § 199.210, the Collector of Customs shall return Form 1629 to the exporter for execution of his entry for internal revenue drawback on spirits in distillers' original packages, which entry shall be modified to the extent necessary to show that the spirits have been deposited in the foreign-trade zone named in the application. The exporter shall return all copies of Form 1629 to the Collector of Customs. The entry on Form 1629 must be verified under oath by the exporter or his authorized agent: *Provided*, That if the forms officially prescribed for such use contain therein a provision for verification by a written declaration that such entry is made under penalties of perjury, such entry shall be verified by the execution of such declaration, and such declaration so executed shall be in lieu of the oath required herein for verification. Where Form 1629 is signed by an agent, proper power of attorney on Form 1534 authorizing the agent to execute the form for the exporter must be filed in triplicate with the Commissioner of Internal Revenue.

(53 Stat. 338 as amended, 63 Stat. 667; 26 U. S. C. 2887, 3809)

§ 199.210 *Deposit in zone.* Upon receipt at the zone, the spirits will be inspected, gauged, and marked by a customs officer in accordance with the provisions of Regulations 28 (Part 176 of this chapter), except that the words "via F. T. Z. No. ------" will be shown in addition to and immediately following the words "For Export from U. S. A." on the packages of such spirits. The officer performing the inspection and gauge shall modify his certificate on Form 1629 to the extent necessary to show that the spirits have been received in the foreign-trade zone named in the application. Upon execution of his certificate, the customs officer shall deliver all copies of Form 1629 to the Collector of Customs. The order and certificate of inspection and shipment on Form 1629 need not be executed by customs officers. After the exporter's execution of the entry for internal revenue drawback on spirits in distillers' original packages, as provided in § 199.209, the Collector of Customs shall execute his certificate on all copies of Form 1629, which shall be modified to the extent necessary to show that the spirits have been deposited in the foreign-trade zone specified in the application. Form 1629 shall be disposed of in accordance with the provisions of Regulations 28 and the instructions printed on the form.

(53 Stat. 338 as amended; 26 U. S. C 2887)

§ 199.211 *Action on claim.* The Commissioner of Internal Revenue will, upon receipt of the claim and entry, Form 1629, complete and dispose of the claim in accordance with the provisions of Regulations 28 (26 CFR Part 176). If the claim is disallowed, the Commissioner will so notify the claimant and state the reasons therefor.

(53 Stat. 338 as amended; 26 U. S. C. 2887)

SUBPART H—VOLUNTARY DESTRUCTION OF UNTAXPAID DISTILLED SPIRITS, WINES OR FERMENTED MALT LIQUORS AFTER RECEIPT IN A FOREIGN-TRADE ZONE

§ 199.225 *General.* Domestic distilled spirits (including alcohol), wines, and fermented malt liquors may not be taken into a foreign-trade zone for destruction. However, untaxpaid liquors, which have become spoiled or unfit for beverage purposes subsequent to withdrawal for transportation to and deposit in a foreign-trade zone for exportation or for storage pending exportation, may be destroyed under the supervision of the Collector of Customs, where it is shown to the satisfaction of the Commissioner that the liquors became spoiled or unfit due to natural causes and in the absence of any intent, act, fault, or negligence upon the part of the exporter, carrier, zone operator, or any of their agents or employees.

§ 199.226 *Application.* Application, addressed to the Commissioner and filed as hereinafter provided, for authority to destroy domestic distilled spirits (including alcohol), wines, or fermented malt liquors on storage in a foreign-trade zone shall be made by the exporter on letter-size paper, in triplicate, showing the name, address and capacity of the claimant and setting forth, under oath the following information:

(a) The kind and quantity of the liquor, the serial numbers, if any, of the containers thereof, and identification of the trade zone in which the liquor is stored;

(b) The name and address of the producer of the liquor, and the name, registry number, if any, and location of the plant, warehouse or other establishment from which such liquors were withdrawn for transportation to and deposit in the foreign-trade zone;

[3] See footnote on p. 11799.

(c) The date of spoilage or unfitness of the liquor, if known, and the cause and nature thereof, together with all of the known facts relating thereto;

(d) Whether the alleged spoilage or unfitness of the liquor occurred without intent, act, fault, or negligence on the part of the exporter, carrier, zone operator or their agents or employees and whether claim has been made or is contemplated against such persons on account of such spoilage or unfitness; and

(e) Whether the spoiled or unfit liquor is covered by valid insurance in excess of the market value thereof, exclusive of tax. If the liquor is insured, the application will show its market value, the amount and date of each and every policy of insurance, the name and location of the company by which each and every policy was issued, the name and address of the bona fide owner of the liquor and, to the best of the affiant's knowledge, whether any other person or party is indemnified against the loss of the liquor by reason of its spoilage or destruction.

The Assistant District Commissioner or the Commissioner may require any further evidence as is deemed necessary. The operator of the foreign-trade zone shall countersign the application or otherwise indicate thereon his knowledge of and concurrence in the application to destroy the liquor. The exporter shall file the application with the Collector of Customs in whose district the foreign-trade zone is located; at the same time the exporter shall likewise file Zone Form E in accordance with Customs Regulations (19 CFR Part 30).

§ 199.227 *Procurement of samples.* Upon receipt of the application, the Collector of Customs will determine the correctness thereof and procure a representative sample, or samples, of the liquor for analysis to determine whether it is spoiled or unfit for beverage purposes. Each sample will consist of not less than one pint, or of not less than one quart in the case of barrels and tanks. The samples will be labeled in such a manner as will readily identify the liquor and will be forwarded at the applicant's expense to the Assistant District Commissioner of the district in which the foreign-trade zone is located. The Collector of Customs will endorse upon the application, or append thereto, a statement that he has procured and forwarded representative samples of the liquor described in the application to the Assistant District Commissioner, and shall report any facts relating to the condition of the liquor, or the cause thereof, of which he may have knowledge. The original and one copy of the application will be forwarded to the Assistant District Commissioner of the district in which the foreign-trade zone is located and the Collector shall retain the remaining copy for his files. The Collector will retain all copies of Zone Form E pending notification by the Commissioner as to his decision with respect to the alleged spoiled or unfit liquor.

§ 199.228 *Analysis of samples.* The district chemist will analyze the samples of the liquor and furnish a report of such analysis to the Assistant District Commissioner. The analysis will be for the purpose of determining whether the product is spoiled or otherwise unfit for beverage purposes, and the cause therefor if spoilage or unfitness is determined.

§ 199.229 *Action by Assistant District Commissioner.* The Assistant District Commissioner will carefully examine the application to see that all of the required information has been furnished and will cause such investigation to be made or require such additional evidence to be submitted as he may deem necessary. Upon the completion of his examination and investigation, if any, the Assistant District Commissioner will forward the original copy of the application and accompanying papers, together with any pertinent reports and documentary evidence, to the Commissioner with his recommendation in respect to the merits of the application. The Assistant District Commissioner will retain a copy of the application for his files.

§ 199.230 *Action by Commissioner.* If the Commissioner finds that the domestic distilled spirits (including alcohol), wines, or fermented malt liquors were withdrawn for transportation to and deposit in a foreign-trade zone in good faith for the purpose of exportation or storage pending exportation, and that such liquors subsequently spoiled or became unfit for beverage use through no act, intent, fault, or negligence on the part of the exporter, carrier, or zone operator, or the agents or employees of any of them, he may approve the application and authorize the destruction of the liquor described therein under the supervision of the Collector of Customs. Upon his approval or disapproval of the application, the Commissioner will advise the Collector of Customs of his action. The Commissioner will furnish a copy of his letter to the Assistant District Commissioner for the completion of his files.

§ 199.231 *Action by Collector of Customs.* Upon receipt of the Commissioner's authorization for destruction of the liquor, or his disapproval of the application for destruction, the Collector of Customs will act upon the exporter's application on Zone Form E and dispose of it in accordance with the applicable provisions of Customs Regulations (19 CFR Part 30). Where the Commissioner has authorized the destruction of the liquor, such destruction shall be accomplished under the immediate supervision of an officer assigned for the purpose at the Collector's convenience.

SUBPART I—REMOVAL OF STILLS OR DISTILLING APPARATUS FOR DEPOSIT IN A FOREIGN-TRADE ZONE FOR EXPORTATION, DESTRUCTION, OR STORAGE PENDING EXPORTATION

REMOVALS FREE OF TAX

§ 199.250 *General.* Stills and worms or condensers, to be used for purposes other than distilling as defined by § 199.251, may be withdrawn from the premises of the manufacturer or vendor, free of tax, for deposit in a foreign-trade zone for exportation, destruction, or storage therein pending exportation, in accordance with the fourth proviso to section 3 of the act of June 18, 1934, as amended.[3]

§ 199.251 *"Distilling" defined.* The term "distilling" used in section 199.250 shall mean the distillation of spirits or alcohol as defined by sections 2809 [4] and 3124 [5], I. R. C. Such distillation shall include: (a) The original manufacture of distilled spirits from mash, wort, or wash, or any material suitable for the production of spirits; (b) the redistillation of spirits in the course of original manufacture; (c) the redistillation of spirits, or products containing spirits within the provisions of section 3254 (g) [6], I. R. C.; (d) the distillation, redistillation, or recovery of ethyl alcohol or of completely or specially denatured alcohol, or of articles containing ethyl alcohol or completely or specially denatured alcohol; and (e) the redistillation or recovery of taxfree alcohol.

§ 199.252 *Application and entry.* When it is desired to remove stills, worms or condensers, free of tax, for deposit in a foreign-trade zone, for exportation, destruction, or storage therein pending exportation, the exporter will file with the Director of Internal Revenue an application and entry on Form 1690, in quadruplicate, properly modified to show deposit in a foreign-trade zone. Each application, Form 1690, must be numbered serially commencing with number "1" for the first day of January of each year and running consecutively thereafter to December 31, inclusive. A statement by the person who intends to use the distilling apparatus must be filed by the exporter in support of the application when the still is to be exported or stored pending exportation. The statement must show the purchaser's name and address, the purpose for which the distilling apparatus will be used, the manufacturer's name and address and

[3] See footnote on p. 11799.

[4] * * *. Distilled spirits, spirits, alcohol, and alcoholic spirits, within the true intent and meaning of this chapter, is that substance known as ethyl alcohol, hydrated oxide of ethyl, or spirit of wine, which is commonly produced by the fermentation of grain, starch, molasses, or sugar, including all dilutions and mixtures of this substance. * * *. (53 Stat. 307; 26 U. S. C. 2809)

[5] * * *. The term "alcohol" means that substance known as ethyl alcohol, hydrated oxide of ethyl, or spirit of wine, from whatever source or whatever processes produced. * * *. (53 Stat. 364; 26 U. S. C. 3124)

[6] * * *. Every person who rectifies, purifies, or refines distilled spirits or wines by any process other than by original and continuous distillation from mash, wort, or wash, through continuous closed vessels and pipes, until the manufacture thereof is complete, and every wholesale or retail liquor dealer who has in his possession any still or leach tub, or who keeps any other apparatus for the purpose of refining in any manner distilled spirits, and every person who, without rectifying, purifying, or refining distilled spirits, shall, by mixing such spirits, wine, or other liquor with any material, manufacture any spurious, imitation, or compound liquors for sale, under the name of whisky, brandy, gin, rum, wine, spirits, cordials, or wine bitters, or any other name, shall be regarded as a rectifier, and as being engaged in the busines of rectifying: * * *. (53 Stat. 391; 26 U. S. C. 3254 (g))

serial number of the apparatus. The serial number and the manufacturer's name and address may be entered on the statement by the exporter. If all required information has been furnished by the exporter and the Director finds the purpose for which the distilling apparatus will be used is other than distilling spirits or alcohol, as defined in § 199.251, or if the still is to be deposited in the zone for destruction, the Director will approve each copy of the application and entry, retain the original and return the remaining three copies to the exporter. The purchaser's statement will be retained by the Director. Upon receipt of the approved copies of the application and entry, the exporter may remove the distilling apparatus described therein for deposit in the zone. If evidence of deposit of the distilling apparatus in a zone is not received by the Director in due course, an appropriate inquiry will be made.

§ 199.253 *Marking of stills, worms or condensers.* Stills, worms or condensers intended for deposit in a foreign-trade zone pending exportation shall have branded or stamped thereon, in a conspicuous place, the words "For Export," followed by the serial number of the article and the manufacturer's name. Where such articles are manufactured from metal plates, the words "For Export," with the serial number of the article and the manufacturer's name directly thereunder, will be stamped (in letters and figures which must, in no case, be less than one-half inch in height) thereon with a suitable die, or otherwise permanently affixed to each article. Where the article is constructed of wood, the words "For Export," the serial number of the article and the manufacturer's name will be branded thereon. If the article is to be exported in a shipping container, the foregoing marks must also be shown on such container in a manner which will enable ready identification by customs officers.

§ 199.254 *Delivery to and deposit in zone.* The exporter, upon receipt of the approved copies of the application and entry, will execute his request for customs inspection on such form. The exporter will then deliver the still, worm or condenser directly to the zone, or to a carrier for delivery to the zone, for customs inspection. Two copies of the Form 1690 will be transmitted to the customs officer in charge at the foreign-trade zone. Upon receipt at the zone, the distilling apparatus will be inspected by a customs officer, and he will, if he finds it to be otherwise than described, make a special report on the Form 1690. In the event the distilling apparatus is to be destroyed after its deposit in the zone, the exporter must file application for such destruction on Zone Form E with the Collector of Customs in accordance with the provisions of Customs Regulations (19 CFR Part 30). After the distilling apparatus has been inspected, and destroyed if deposited in the zone for that purpose, the customs officer will modify and sign his certificate on Form 1690 indicating receipt, and, where applicable, the destruction under his supervision, of the apparatus.

§ 199.255 *Disposition of Form 1690.* After executing his certificate, the customs officer will forward the forms to the Collector of Customs who will modify and sign his certificate, showing deposit, and where applicable the destruction, of the distilling apparatus in the foreign-trade zone, on each copy of the entry, Form 1690. The Collector of Customs will retain one copy for his entry record and transmit the remaining copy of the Form 1690 to the Director who approved the form.

REMOVALS WITH BENEFIT OF DRAWBACK

§ 199.256 *General.* Stills manufactured especially for export, upon which the excise (commodity) tax has been paid, may be removed with benefit of drawback from the premises of the manufacturer for deposit in a foreign-trade zone for exportation, destruction, or storage therein pending exportation, in accordance with the fourth proviso to section 3 of the Act of June 18, 1934, as amended.[3] Under the law, the allowance of drawback is restricted to the tax paid on stills manufactured for export. No drawback can be allowed on worms or condensers.

(53 Stat. 388, as amended; 26 U. S. C. 3250)

§ 199.257 *Regulations made applicable.* The provisions of Regulations 23 (Part 181 of this chapter) relating to exportation of stills with benefit of drawback shall apply, to the extent applicable, to the removal of such stills for deposit, with benefit of drawback, in foreign-trade zones for exportation, destruction, or storage therein pending exportation. Form 1610 prescribed by Regulations 23 shall be modified to the extent necessary to indicate that the stills are to be removed for deposit in a foreign-trade zone and that they have been so deposited. In the event the distilling apparatus is to be destroyed after its deposit in the zone, the exporter must file application for such destruction on Zone Form E with the Collector of Customs in accordance with the provisions of Customs Regulations (19 CFR Part 30). After the distilling apparatus has been inspected, and destroyed if deposited in the zone for that purpose, the customs officer will modify and sign his certificate on Form 1610 indicating receipt, and where applicable the destruction under his supervision, of the apparatus. In lieu of showing the port of exportation and the date of clearance there shall be shown the number and location of the foreign-trade zone and the date of deposit, and where applicable the destruction, of the still.

SUBPART J—BONDS AND CONSENTS OF SURETY

§ 199.300 *General.* Every person required by Subparts C through I of this part to file a bond or consent of surety shall prepare and execute it on the prescribed form, in triplicate. Bonds shall be given with surety or collateral security. Surety may be individual or corporate. A surety may not have any interest, either direct or indirect, in the business of the principal on the bond. Assistant District Commissioners are authorized to approve or disapprove all bonds and consents of surety required by Subparts C through I of this part.

§ 199.301 *Corporate surety.* Bonds may be given with corporate surety authorized by the Secretary of the Treasury to become surety on Federal bonds, subject to the limitations prescribed by the Secretary in Treasury Department Form 356, Commissioner of Accounts, Section of Surety Bonds, which is issued semiannually, and subject to such amendatory circulars as may be issued from time to time. A bond executed by two or more corporate sureties shall be the joint and several liability of the principal and the sureties: *Provided*, That each corporate surety may limit its liability in terms upon the face of the bond in a definite, specified amount, which amount shall not exceed the limitations prescribed for such corporate surety by the Secretary, as set forth in Treasury Department Form 356. When the sureties so limit their liability, the aggregate of such limited liabilities must equal the required penal sum of the bond.

§ 199.302 *Powers of attorney.* Powers of attorney and other evidence of appointment of agents and officers to execute bonds on behalf of corporate sureties are required to be filed with, and passed upon by, the Commissioner of Accounts and Deposits, Section of Surety Bonds, Treasury Department. Such powers and other evidence of appointment need not be filed with, or submitted to, Assistant District Commissioners. Powers of attorney or other evidence of appointment of agents and officers to execute bonds on behalf of the principal, must be filed on Form 1534, in triplicate, with the Assistant District Commissioner with whom the bond is filed.

§ 199.303 *Individual sureties.* Bonds may be given with individual sureties of which there must be not less than two, each of whom must qualify by executing Form 33 (ATU), in triplicate. Individual sureties must be citizens of the United States and reside in the State in which the business of the principal is to be conducted. No person will be accepted as an individual surety in a State in which he is not authorized to become a surety.

§ 199.304 *Ownership of real property.* Each individual surety must own unencumbered real property, in fee simple, the appraised value of which, over and above any exemptions from execution allowed by the laws of the State, is equal to the penal sum of the bond. Such real property must be located within the State where the business of the principal is to be conducted. The real property must be described in the surety's affidavit, Form 33 (ATU), with all of the formalities required in conveyances of real estate by the laws of the State in which it is situated.

§ 199.305 *Execution of Form 33 (ATU).* The surety's affidavit on Form 33 (ATU) shall contain all of the information required by this subpart and the instructions printed on the form. The form shall be subscribed and sworn to before an officer duly authorized to administer oaths, and one copy thereof shall be attached to each copy of the bond to which it relates.

§ 199.306 *Certificate of title.* There must be submitted with the surety's affidavit, Form 33 (ATU), a certificate of title, in triplicate, showing that the surety has a fee simple title free of encumbrances to the realty described in the form: *Provided*, That where recognized by the laws of the State in which the realty is located, there may be submitted, in lieu of a certificate of title, a document of comparable validity, such as a certified copy of a title insurance policy or a certificate of search and finding executed by an authorized attorney.

§ 199.307 *Appraisal.* There will also be submitted with Form 33 (ATU) an appraisal, in triplicate, by two or more competent persons, designated by the Assistant District Commissioner for the purpose, showing separately the value of the land and buildings, and a full and clear statement of the method employed by them in determining their valuation. The appraisal shall be at the expense of the principal on the bond, unless it is made by Government officers.

§ 199.308 *Investigation.* The Assistant District Commissioner must cause an investigation to be made of all the facts stated in the surety's affidavit on Form 33 (ATU) and supporting documents, and shall forward one copy of the report of such investigation to the Commissioner with the bond and accompanying Form 33 (ATU).

§ 199.309 *Requalification.* The Commissioner or Assistant District Commissioner may at any time, in his discretion require the requalification of individual sureties on Form 33 (ATU).

§ 199.310 *Deposit of collateral.* Except as provided in this section, bonds or notes of the United States, or other obligations which are unconditionally guaranteed as to both interest and principal by the United States, may be pledged and deposited by principals as collateral security in lieu of individual or corporate sureties. Assistant District Commissioners on receiving such bonds or notes, or other obligations, pledged and deposited by principals as collateral security in lieu of surety, shall deposit such securities as required by Department Circular No. 154, revised (31 CFR Part 225). United States Savings, Defense Savings, and War Savings Bonds issued under the authority of section 22 of the Second Liberty Bond Act, as amended, and other bonds and notes of the United States, which are nontransferable or the hypothecation of which will not be recognized by the Treasury Department, may not be pledged and deposited as security in lieu of corporate or individual sureties.

(Sec. 1126, 44 Stat. 122, as amended, sec. 7, 49 Stat. 22; 6 U. S. C. 15)

§ 199.311 *Consents of surety.* Consents of surety to a change in the terms of a bond must be executed on Form 1533, in as many copies as are required of the bond which they affect, by the principal and all sureties with the same formality and proof of authority to execute as are required for the execution of bonds. Form 1533 will be used by obligors on collateral bonds as well as those on surety bonds. The Form 1533 must properly identify the bond affected thereby and state specifically and precisely what is covered by the extended terms thereof. If the surety is a corporation, the consent may be executed by an agent or attorney in fact duly authorized so to do by power of attorney filed by the surety with the appropriate Assistant District Commissioner, or the consent may be executed by the home office officials of such corporate surety; except that, in cases where the saving of time is an element, the consent may be executed by an agent or attorney in fact where the home office officials, by specific direction, order its execution. A copy of such specific direction should be attached to each copy of such consent.

§ 199.312 *Approval required.* No person intending to withdraw liquors or other articles under the provisions of Subparts C through I of this part for transportation to and deposit in a foreign-trade zone shall make any such withdrawal until all bonds required by law and Subparts C through I of this part have been approved by the Assistant District Commissioner.

§ 199.313 *Additional or strengthening bonds.* In all cases where the penal sum of a bond on file and in effect is not sufficient, computed as prescribed by law and Subparts C through I of this part, the principal may give an additional or strengthening bond in a sufficient penal sum, provided the surety thereon is the same as on the bond already on file and in effect; otherwise a new bond covering the entire liability will be required. Such additional or strengthening bonds, being filed to increase the bond liability of the principal and the surety, shall not be construed in any sense to be substitute bonds, and the Assistant District Commissioner will refuse to approve any additional or strengthening bond where any notation is made thereon which may be construed as a release of any former bond or as limiting the amount of either bond to less than its full penal sum. Additional or strengthening bonds must show the current date of execution and the effective date in the blank spaces provided therefor. Such bonds must have marked thereon, by the obligors at the time of execution, "Additional Bond," or "Strengthening Bond."

§ 199.314 *New or superseding bonds.* The principal on any bond filed pursuant to Subparts C through I of this part may, at any time, substitute a new bond therefor. Executors, administrators, assignees, receivers, trustees, or other persons acting in a fiduciary capacity, continuing or liquidating the business of the principal, must execute and file a new bond or obtain the consent of the surety or sureties on the existing bond or bonds. When, in the opinion of the Commissioner or the Assistant District Commissioner, the interests of the Government demand it or in any case where the security of the bond becomes impaired in whole or in part for any reason whatever, the principal will be required to give a new bond. A new bond shall be required immediately in case of death, removal from the State, or insolvency of an individual surety, or the insolvency of a corporate surety. Where a bond is found to be not acceptable or for any reason becomes invalid or of no effect, the principal shall be required to file immediately a new and satisfactory bond, or discontinue operations thereunder forthwith. Superseding bonds must show the current date of execution and the date they are to be effective, and each such bond shall have marked thereon, by the obligors at the time of execution, "Superseding Bond." Where a new bond is submitted by the principal to supersede a bond or bonds then in effect, and such superseding bond has been approved, the superseded bond shall be released as to transactions occurring wholly subsequent to the effective date of the superseding bond and notice of termination of the superseded bond may be issued as provided in § 199.324.

ASSISTANT DISTRICT COMMISSIONER'S ACCOUNTS WITH BONDS

§ 199.315 *Alcohol and specially denatured rum.* The Assistant District Commissioner will keep an account with each bond, Form 1702 and Form 1703. Where a consent of surety, Form 1533, is filed, specifically extending the terms of the exporter's continuing direct export bond (Form 1495), or continuing transportation for export bond (Form 1496), or the distiller's denaturing warehouse bond (Form 572), to cover withdrawals for deposit in a foreign-trade zone, the account shall be kept with such bond. Only one account covering all transactions under each bond need be kept. The principal will be charged with the internal revenue tax, or an amount equal thereto, on each lot of alcohol or specially denatured rum withdrawn under a bond for transfer to a foreign-trade zone. Alcohol or specially denatured rum so withdrawn shall remain unaccounted for until the certificate of the Collector of Customs showing the deposit of the alcohol or specially denatured rum in the foreign-trade zone has been received by the Assistant District Commissioner, or, where a loss is reported (a) until satisfactory evidence establishes that the alcohol or specially denatured rum has not been diverted to any illegal use by the exporter or carrier or other person having legal custody or control thereof, and that such loss occurred without connivance, collusion, fraud, or negligence on the part of the exporter or carrier or other such person, or the employees of any of them, or (b) until the tax on the loss has been paid or remitted.

(53 Stat. 336, 355, 358; 26 U. S. C. 2885, 3105, 3070)

§ 199.316 *Specially denatured alcohol.* The Assistant District Commissioner will keep an account with each bond covering transportation to foreign-trade zones of specially denatured alcohol in accordance with the procedure prescribed in § 199.315 for keeping accounts with bonds covering transportation of alcohol and specially denatured rum: *Provided*, That the principal will be

[3] See footnote on p. 11799.

plicable, the destruction under his supervision, of the apparatus.

[2] See footnote on p. 11799.

charged with an amount equal to the internal revenue tax at double the distilled spirits rate of tax on each wine gallon of specially denatured alcohol withdrawn under an outstanding bond for transportation to a zone.

(53 Stat. 358, 359, 359, 360, 364; 26 U. S. C. 3105, 3109, 3111, 3112, 3124)

§ 199.317 *Distilled spirits.* The Assistant District Commissioner will keep an account with each bond, Form 1702 and Form 1703. Where a consent of surety, Form 1533, is filed, specifically extending the terms of the exporter's continuing direct export bond (Form 657), or continuing transportation for export bond (Form 658), to cover withdrawals for deposit in a foreign-trade zone, the account shall be kept with such bond. Only one account covering all transactions under each bond need be kept. The principal will be charged with the internal revenue tax on each lot of distilled spirits withdrawn under a bond for transfer to a foreign-trade zone. Spirits so withdrawn shall remain unaccounted for until the certificate of the Collector of Customs showing the deposit of the spirits in the foreign-trade zone has been received by the Assistant District Commissioner, or, where a loss is reported (a) until satisfactory evidence establishes that the loss did not result from unauthorized voluntary destruction or, if from theft, that the theft occurred without connivance, collusion, fraud, or negligence on the part of the distiller, warehouseman, owner, consignor, consignee, bailee, or carrier, or the employees of any of them, or (b) until the tax on the loss has been paid or remitted.

(53 Stat. 336, 339, 344; 26 U. S. C. 2885, 2888, 2905)

§ 199.318 *Wines.* The Assistant District Commissioner will keep an account with each bond covering transportation of wines to foreign-trade zones. Where an approved consent of surety, Form 1533, which specifically extends the terms of the exporter's continuing export bond (Form 186) to cover withdrawals for deposit in a foreign-trade zone is on file, only one account covering all transactions under such bond need be kept. The principal will be charged with the internal revenue tax on each lot of wine removed under an outstanding bond for deposit in a foreign-trade zone and will be given credit for the tax on each lot concerning which satisfactory proof of deposit in the zone is received. In case a shortage is reported from any shipment, credit will be entered for the actual quantity deposited in the zone. Credit will not be entered for the loss until the tax has been paid thereon. Wine withdrawn for deposit in a zone will be carried as unaccounted for until the certificate of the Collector of Customs showing the deposit of the wine in the foreign-trade zone has been received by the Assistant District Commissioner, and until the tax has been paid on any wine lost in transit to the zone.

(53 Stat. 347 as amended, 353; 26 U. S. C. 3030, 3037)

§ 199.319 *Fermented liquors.* The Assistant District Commissioner will keep an account with each bond governing transportation of fermented liquors to foreign-trade zones. Where an approved consent of surety, Form 1533, which specifically extends the terms of the brewer's continuing export bond (Form 263) to cover withdrawals for deposit in a foreign-trade zone is on file, only one account covering all transactions under such bond need be kept. The principal will be charged with the internal revenue tax at the rate imposed on fermented malt liquors on each lot of fermented liquors removed under an outstanding bond for transportation to a zone. Credit will be given on fermented liquors for which proof of deposit in a foreign-trade zone is filed with the Assistant District Commissioner and for losses of fermented liquors in transit where there is no evidence that such losses resulted from theft or pilferage or from fraud by the exporter.

(53 Stat. 365 as amended, 367; 26 U. S. C. 3150, 3153)

TERMINATION OF TRANSPORTATION BONDS

§ 199.320 *General.* Bonds on Form 1702, covering a specific lot of liquors withdrawn for deposit in a zone, will be terminated by the Assistant District Commissioner immediately upon receipt from the Collector of Customs of a certification that the liquors had been deposited in the zone to which consigned: *Provided,* That where there is a deficiency reported by the Collector of Customs, the bond will not be terminated by the Assistant District Commissioner until liability for the deficiency has been cleared. Upon termination, the Assistant District Commissioner will mark the bond "Canceled" followed by the date of cancellation, and will issue a notice of release, Form 1491, as provided in § 199.324. Continuing bonds on Form 1703 will be terminated by the Assistant District Commissioner as to liability for liquors consigned to a foreign-trade zone after a specified future date (a) pursuant to a notice by the surety, as provided in § 199.321, (b) following approval of a superseding bond, as provided in § 199.314, or (c) following notification by the principal of the discontinuance of the business covered by the bond. Upon termination, the Assistant District Commissioner will mark the bond "Canceled" followed by the date of cancellation, and will issue a notice of termination, Form 1490, or a notice of release, Form 1491, as provided in § 199.324.

§ 199.321 *Application of surety for release from bond.* A surety on any bond required by Subparts C through I of this part may at any time, in writing, notify the Assistant District Commissioner in whose office the bond is on file, and the principal, that he desires to be relieved of liability under the bond at a date not less than 60 days after the date of the notification. One copy of the notice must be delivered to the principal and two copies shall be delivered to the Assistant District Commissioner. If the notice is given by an agent of the surety it must be accompanied by a power of attorney authorizing the agent to give such notice, or by a verified statement that such power of attorney is on file with the Treasury Department. The surety must also file with the Assistant District Commissioner an acknowledgment or other proof of service of such notice on the principal.

§ 199.322 *Extent of release of surety from liability under bond.* If the notice required by § 199.321 is not withdrawn thereafter in writing, the rights of the principal as supported by the said bond shall be terminated on the date named in the notice, and the surety will be relieved from liability for liquors withdrawn wholly subsequent to the date named. Liability under a bond on Form 1703 for liquors removed prior to the date named in the surety's notice will continue until such liquors are properly accounted for according to law and this part. Where the principal files a valid superseding bond, the surety on the bond superseded will be relieved from liability for liquors withdrawn wholly subsequent to the effective date of the superseding bond.

§ 199.323 *Action by Assistant District Commissioner.* When an application by the surety for release as to future liability from a transportation bond required by Subparts C through I of this part is filed with the Assistant District Commissioner, or when a superseding bond has been approved, or when the principal has discontinued business, the Assistant District Commissioner will make a complete examination of records to determine whether there is any liability then due and payable outstanding against the bond. He shall also ascertain from the Director of Internal Revenue whether there are any outstanding unpaid assessments against the principal on liquors removed under the bond. If it is found that violations of law and regulations occurred during the period covered by the bond or that liabilities chargeable against the bond have not been paid or otherwise settled, no further action will be taken until all such liabilities have been settled. If the Assistant District Commissioner finds that the bond may be properly terminated, he will issue notice of termination in accordance with the provisions of § 199.324.

§ 199.324 *Notice of termination.* Upon determining that a transportation bond filed pursuant to Subparts C through I of this part may be terminated, the Assistant District Commissioner will execute a notice of termination, Form 1490, where a superseding bond has been approved, or a notice of release, Form 1491, where the principal has discontinued the business covered by the bond, or where the surety has made application for release from bond as provided in § 199.321. The notice of termination or the notice of release shall be prepared in quadruplicate where there is but one surety, and in quintuplicate where there are two sureties. The Assistant District Commissioner will forward the original of the notice to the Commissioner, together with a copy of the surety's application, if any, furnish one copy to each obligor, and retain one copy of the notice and the surety's application, if any, on file with the bond to which it relates.

§ 199.325 *Release of collateral.* The release of collateral pledged and deposited to support bonds required by Subparts C through I of this part will be in accordance with the provisions of Department Circular No. 154, revised (31 CFR Part 225), subject to the conditions governing issuance of notices on Forms 1490 and 1491 of the termination of such bonds. When the Assistant District Commissioner determines that there is no outstanding liability against the bond, and has satisfied himself that the interests of the Government will not be jeopardized, the security may be released and returned to the principal.

(44 Stat. 122 as amended; 6 U. S. C. 15)

SUBPART K—INSTRUMENTS AND PAPERS

§ 199.350 *Part of regulations.* The terms, conditions, and instructions contained in instruments and papers required to be furnished by law or this part are hereby made a part of these regulations as fully and to the same extent as if incorporated herein.

SUBPART L—TOBACCO PRODUCTS

§ 199.375 *General.* The following regulations in this subpart shall govern the withdrawal of tobacco products, including chewing and smoking tobacco, snuff, cigars, and cigarettes, without payment of tax, from bonded domestic internal revenue factories and from bonded internal revenue tobacco export and sea stores warehouses for delivery to foreign-trade zones.

§ 199.376 *Withdrawals of tobacco products to be covered by bond.* No additional or special bonds will be required to cover withdrawals of nontaxpaid tobacco products from domestic internal revenue factories where produced, or withdrawals of such articles from internal revenue tobacco export and sea stores warehouses, for delivery to foreign-trade zones under these regulations. Liability to tax on such withdrawals shall be charged against the bonds under which the factories and tobacco export or sea stores warehouses are operated. However, a tobacco products manufacturer, or proprietor of a bonded internal revenue tobacco export or sea stores warehouse, who desires to make withdrawals of nontaxpaid tobacco products from his factory or warehouse for delivery to foreign-trade zones must furnish to the Assistant District Commissioner, of the district in which his factory or warehouse is located, consent of the surety on his factory or warehouse bond to cover such withdrawals.

§ 199.377 *Requirements as to packing, marking or branding.* Tobacco, snuff, cigars and cigarettes may be put up in packages of any desired size or description for delivery to a foreign-trade zone. Any label, seal or closure appearing on a package of tobacco products which is shipped to a foreign-trade zone must be readily distinguishable from an internal revenue stamp.

§ 199.378 *Shipping containers.* Each shipping case, crate, or other package, containing nontaxpaid tobacco products, to be delivered to a foreign-trade zone under these regulations must be numbered.

§ 199.379 *Application for withdrawal.* For each intended withdrawal of nontaxpaid tobacco products from his factory, or withdrawal of nontaxpaid tobacco products from his bonded internal revenue tobacco export warehouse under these regulations, the manufacturer or warehouse proprietor shall file with the Assistant District Commissioner of the district in which the factory or warehouse is located an application for withdrawal, Form 550–F, in triplicate, while for each intended withdrawal of such articles from a bonded internal revenue sea stores warehouse under the regulations in this part the proprietor shall file with his Assistant District Commissioner an application, Form 550–F, in quadruplicate. The front or face of each copy of the application, Form 550–F, shall be completely and legibly filled in and be given a serial number by the manufacturer or warehouse proprietor. All of the copies of the application shall show the same information, including the serial number. Upon receipt of the properly executed application, the Assistant District Commissioner will sign each copy indicating his approval of the withdrawal of the shipment described on the application. If the shipment is to be withdrawn from a domestic factory, or from a bonded internal revenue tobacco export warehouse, inspection by an internal revenue officer prior to withdrawal will not be necessary or required. However, if the shipment is to be withdrawn from a bonded internal revenue sea stores warehouse, inspection by the officer in charge of the warehouse prior to withdrawal is required.

§ 199.380 *Disposition of copies of Form 550–F.* After the Assistant District Commissioner has signed each copy of the application, Form 550–F, indicating his approval of the withdrawal of the shipment described on the form, he shall retain one copy for immediate transmittal to the Commissioner. If the shipment is to be withdrawn from a domestic factory or bonded internal revenue tobacco export warehouse, the Assistant District Commissioner must return the other two approved copies of the Form 550–F to the manufacturer or warehouse proprietor concerned. If the shipment is to be withdrawn from a bonded internal revenue tobacco sea stores warehouse, the Assistant District Commissioner must forward the other three approved copies of the Form 550–F to the officer in charge of the warehouse who shall permit withdrawal of the shipment described on the form. When the shipment has been removed from the factory or tobacco export warehouse, the manufacturer or warehouse proprietor shall execute the appropriate certificate on the back of both copies of the Form 550–F and forward these two copies to the customs officer in charge of the foreign-trade zone to which the shipment described on the form will be delivered. When the shipment from the tobacco sea stores warehouse has been withdrawn under the supervision of the officer in charge, that officer should execute the proper certificate on the back of each of the copies of the Form 550–F, retain one copy to be submitted with his report at the close of the month on Form 550–D to the Assistant District Commissioner of the district in which the sea stores warehouse is located, and forward the other two copies of the Form 550–F to the customs officer in charge of the foreign-trade zone involved.

§ 199.381 *Receipt of shipment into foreign-trade zone.* When a shipment of nontaxpaid tobacco products is received at the foreign-trade zone, the customs officers at the zone shall inspect the shipment to satisfy themselves that it agrees with that described on the copies of the related Form 550–F received from the manufacturer, proprietor of the tobacco export warehouse, or officer in charge of the tobacco sea stores warehouse from which the shipment originated. The customs officers at the foreign-trade zone should not permit receipt into the zone of tobacco products other than those described on the related Form 550–F. After permitting receipt of the shipment into the zone, the officer in charge shall properly execute the certificate of receipt on the back of each of the two copies of the related Form 550–F, retain one copy for the records of his office, and transmit the other completed copy of the form to the Commissioner of Internal Revenue.

§ 199.382 *Delay in removal; cancellation of shipment.* In case the shipment of tobacco products is not removed from the factory, or internal revenue tobacco export or sea stores warehouse, within ten days after the date of approval of the related Form 550–F by the Assistant District Commissioner, the manufacturer or warehouse proprietor must advise the Assistant District Commissioner as to the probable date of removal. If the order for the shipment has been canceled, the manufacturer or warehouse proprietor should so state and request permission to cancel his application and retain the merchandise in stock in his factory or warehouse.

§ 199.383 *Return of shipment to factory or warehouse.* If, after removal from his factory, or internal revenue warehouse, and prior to delivery to and receipt in a foreign-trade zone, the manufacturer, or the proprietor of the internal revenue tobacco export or sea stores warehouse, desires to return a shipment of tobacco products to the premises of his factory, or into his warehouse, he must make application to the Commissioner of Internal Revenue for permission so to do. The manufacturer or warehouse proprietor must identify the shipment set forth in such application, where it has been since it left his factory or warehouse, where it is held and in whose custody it is at the time of making application, and the reason for its return. Permission and appropriate instructions must be received by the manufacturer or warehouse proprietor from the Commissioner before the merchandise is returned to the premises of the factory or warehouse.

§ 199.384 *Tax liability.* Responsibility for the proper delivery of nontaxpaid

tobacco products withdrawn from the factory, or tobacco export or sea stores warehouse, under these regulations shall rest upon the manufacturer or warehouse proprietor making the withdrawal and he will be liable for the internal revenue tax on such articles shipped or delivered otherwise than in accordance with these regulations, or for such articles shipped for this purpose where satisfactory evidence of delivery is not received by the Commissioner.

§ 199.385 *Credit for shipment.* Upon receipt by the Commissioner of Internal Revenue of a copy of the application, Form 550–F, on which the officer in charge of the foreign-trade zone has executed the certificate of receipt, or other satisfactory evidence, credit will be allowed the shipper for the merchandise actually received into the foreign-trade zone as indicated by the officer in charge of the zone. In case a shortage is reported, the shipper will be required to pay the amount of tax due on the shortage.

§ 199.386 *Penalties.* Sections 2160 and 2173 of the Internal Revenue Code impose severe penalties for the illegal possession, use or dealing in, within the United States (including the Territories of Alaska and Hawaii), of manufactured tobacco, snuff, cigars and cigarettes upon which the tax has not been paid. These provisions of law apply to tobacco products removed without payment of tax under these regulations from a factory or internal revenue tobacco export or sea stores warehouse and, accordingly, any person possessing, using or dealing in such products otherwise than as authorized by these regulations may be subject to the penalties prescribed in such provisions of law.

SUBPART M—PLAYING CARDS

§ 199.425 *General.* The regulations in this subpart shall govern the withdrawal of playing cards, without payment of tax, from factories, for delivery to foreign-trade zones.

§ 199.426 *Bond for withdrawals of playing cards.* A manufacturer intending to withdraw playing cards, without the payment of tax, for transportation to and deposit in a foreign-trade zone shall, either before, or at the time of, filing his first application for withdrawal for delivery to foreign-trade zone on Form 550–F, furnish to the Director of Internal Revenue of the district in which the place of manufacture is located, an export bond, in duplicate, on Form 549, with surety satisfactory to the Director. If an export bond on Form 549 has already been furnished by the manufacturer, it will not be necessary that a new bond be filed, since liability to tax on such a withdrawal will be charged against the existing export bond, Form 549; however, in such case, if a playing card manufacturer makes a withdrawal of tax-free playing cards from his factory for delivery to a foreign-trade zone, he must furnish to the Director of the district in which the factory is located, consent of the surety on the export bond to cover such withdrawal.

§ 199.427 *Requirements as to packing, marking or branding.* Playing cards must be put up in packs the same as for domestic use. Any label used to seal a package of playing cards which is shipped to a foreign-trade zone must be readily distinguishable from an internal revenue stamp.

§ 199.428 *Shipping containers.* Each shipping case, crate, or other package, containing nontaxpaid playing cards, to be delivered to a foreign-trade zone under these regulations must be numbered.

§ 199.429 *Application for withdrawal.* For each intended withdrawal of nontaxpaid playing cards from his factory under the regulations in this part, the manufacturer shall file with the Director of Internal Revenue of the district in which the factory is located an application for withdrawal, Form 550–F, in triplicate. The front or face of each copy of the application, Form 550–F, shall be completely and legibly filled in and be given a serial number by the manufacturer. All of the copies of the application shall show the same information, including the serial number. Upon receipt of the properly executed application, the Director will sign his permit on each copy indicating his approval of the withdrawal of the shipment described on the application. Inspection of the shipment by an internal revenue officer prior to withdrawal from the factory will not be necessary or required.

§ 199.430 *Disposition of copies of Form 550–F.* After the Director has signed his permit on each copy of the application, Form 550–F, indicating his approval of the withdrawal of the shipment described on the form, he should retain one copy for transmittal to the Commissioner in accordance with the provisions of A & C Mimeograph Coll. No. 6280, dated June 29, 1948. The Director should return the other two approved copies of the Form 550–F to the manufacturer concerned. When the shipment has been removed from the factory the manufacturer shall execute the appropriate certificate on the back of each copy of the Form 550–F and forward both copies to the customs officer in charge of the foreign-trade zone to which the shipment described on the form will be delivered.

§ 199.431 *Receipt of shipment into foreign-trade zone.* When a shipment of playing cards is received at the foreign-trade zone, the customs officers at the zone shall inspect the shipment to satisfy themselves that it agrees with that described on the copies of the related Form 550–F received from the manufacturer. The customs officers at the foreign-trade zone should not permit receipt into the zone of playing cards other than those described on the related Form 550–F. After permitting receipt of the shipment into the zone, the officer in charge shall properly execute the certificate of receipt on the back of each of the two copies of the related Form 550–F, retain one copy for the records of his office, and transmit the other completed copy of the form to the Commissioner of Internal Revenue.

§ 199.432 *Delay in removal; cancellation of shipment.* In case a shipment is not removed from the factory within ten days after the date of approval of the related Form 550–F by the Director of Internal Revenue, the manufacturer must advise the Director as to the probable date of removal. If the order for the shipment has been canceled, the manufacturer must so state and request permission to cancel his application and retain the merchandise in stock in his factory.

§ 199.433 *Return of shipment to factory.* If, after removal from his factory, and prior to delivery to and receipt in a foreign-trade zone, the manufacturer desires to return a shipment of playing cards to the premises of his factory, he must make application to the Commissioner of Internal Revenue for permission so to do. The manufacturer must identify the shipment set forth in such application, where it has been since it left his factory, where it is held and in whose custody it is at the time of making application, and the reason for its return. Permission and appropriate instructions must be received by the manufacturer from the Commissioner before the merchandise is returned to the premises of the factory.

§ 199.434 *Tax liability.* Responsibility for the proper delivery of nontaxpaid playing cards withdrawn from his factory under these regulations shall rest upon the manufacturer making the withdrawal and he will be liable for the internal revenue tax on such articles shipped or delivered otherwise than in accordance with the regulations in this part, or for such articles shipped for this purpose where satisfactory evidence of delivery is not received by the Commissioner.

§ 199.435 *Credit for shipment.* Upon receipt by the Commissioner of a copy of the application, Form 550–F, on which the officer in charge of the foreign-trade zone has executed the certificate of receipt, or other satisfactory evidence, credit will be allowed the shipper for the playing cards actually received into the foreign-trade zone as indicated by the officer in charge of the zone. In case a shortage is reported, the shipper will be required to pay the amount of tax due on the shortage.

§ 199.436 *Penalties.* Sections 1820 (b) and 3320 (a) of the Internal Revenue Code impose severe penalties for dealing in, within the United States, playing cards upon which the tax properly due has not been paid, or for possessing playing cards with design to avoid payment of the tax thereon. These sections apply to playing cards removed without payment of tax under the regulations in this part, and accordingly, any person possessing, using, or dealing in, such playing cards otherwise than as authorized by these regulations may be subject to penalties prescribed therein.

2. These regulations will be effective on the 31st day after the date of their publication in the FEDERAL REGISTER.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 98, Amdt. 8]

CPR 98—RESELLERS OF IRON AND STEEL PRODUCTS

WAREHOUSE MARKUPS FOR TOOL STEEL

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 8 to Ceiling Price Regulation 98 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment increases the dollars and cents warehouse extra for resellers of tool steel to reflect increases in costs due to freight rate increases.

Warehouse resellers of industrial steel products, in keeping with their customary business practice, are generally permitted under CPR 98 to pass on to their customers any increase in their incoming freight costs. Warehouse resellers of tool steel, however, in lieu of computing their resale price by the use of a transportation factor plus a markup, have added only a geographically uniform dollars and cents warehouse extra which included the transportation costs. This customary business practice was recognized in Amendment 1 to CPR 98 which deleted the "transportation factor" clause for tool steel. Thus warehouse resellers of tool steel, were required to absorb increases in freight rates which put them at a disadvantage as compared to warehouse resellers of other products. This amendment remedies that situation by increasing the tool steel markup to amounts which take into account the recent freight increases.

In addition, a correction has been made in the language of the tool steel markup provision to remove an ambiguity in the regulation. Tool steel has historically been sold on a delivered basis and it is the area in which the customer is located which has determined the amount of the applicable markup rather than the area in which the warehouse is situated. The language of the tool steel markup provision has been clarified accordingly.

In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended, and conform in all respects to the applicable provisions of that act.

So far as practicable, the Director has given due consideration to the national effort to achieve maximum production in the furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant factors of general applicability.

In the formulation of this amendment there has been consultation with industry representatives, including trade associations to the extent practicable, and consideration has been given to their recommendations.

AMENDMENT PROVISIONS

Section 13 (f) is amended to read as follows:

(f) *Tool steel bars and drill rods.* You determine your ceiling warehouse price for tool steel bars and drill rods, delivered, by adding the following markups to the current mill net price charged to consumers, f. o. b. point of production:

1. $4.00 per 100 pounds for shipments to points situated on, or east of the Mississippi River.

2. $6.00 per 100 pounds for shipments to points situated west of the Mississippi River.

Effective date. This amendment is effective January 5, 1953.

[Ceiling Price Regulation 162, Amdt. 2]

CPR 162—BEET PULP PRODUCTS

WET BEET PULP; LONG TERM CONTRACTS PROVIDING SPECIAL SERVICES OR FACILITIES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to Ceiling Price Regulation 162 is hereby issued.

STATEMENT OF CONSIDERATIONS

The application of the ceiling price provisions for wet beet pulp under CPR 162 has had the effect of cutting across certain long term contracts between beet pulp processors and livestock feeders. In some instances, this will result in seriously disrupting the soundly planned livestock programs underlying such contracts and in windfall benefits or in substantially increased costs for feeders. The essential features of the contracts affected are related to the desirability of long term feeding programs. Generally speaking, the contracts run for at least two years, provide for payments to the processors which are based upon the market price for livestock and provide other benefits, services and savings to the feeder. In some instances, for example, the processor, in addition to furnishing the wet beet pulp, also provides feed lot facilities adjacent to the processing plant at low or nominal rentals. As a consequence of such feed lot arrangements, the substantial cost normally incidental to the transportation of the pulp from the plant are eliminated, and this together with low or nominal rentals for the feed lot result in substantial savings for the feeder. Where these contracts have been entered into before the effective date of this regulation, it is consistent with the objectives of sound price control if processors and feeders are permitted to perform them without being subject to the dollar-and-cent ceiling price restrictions of CPR 162.

Accordingly, it is now provided that wet beet pulp processors, upon application and after approval by the Director of Price Stabilization, may receive payments for the performance of such contracts without reference to certain ceiling price restrictions of CPR 162.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that act.

AMENDATORY PROVISION

Ceiling Price Regulation 162 is amended by adding a new section, section 20, to read as follows:

SEC. 20. *Long term contracts.* (a) If you are a processor and you sell wet beet pulp to a feeder under a contract entered into prior to the issuance of this regulation which provides for sales of such beet pulp to such feeder over a period of at least two years, and such contract provides for furnishing facilities or services to the feeder in addition to those normally incidental to the sale of wet beet pulp, and if the price for wet beet pulp provided for in the contract is governed by a market price for livestock or a livestock product, you may apply to the Director of OPS for permission to continue to fulfill the terms of such contract notwithstanding the fact that the total payments the feeder makes under the contract exceed the ceiling price per ton of wet beet pulp established under this regulation.

(b) Such application should be addressed to the Director of Price Stabilization, Office of Price Stabilization, attention Grains and Related Products Branch, Food and Restaurant Division, Washington 25, D. C., and should be accompanied by a certified copy of each such contract, together with a detailed description of the types of facilities and services you furnish to the feeder.

(c) You may not apply any provisions of the contract providing for payments

by a feeder in excess of the ceiling price per ton of beet pulp provided for in this regulation unless the Director of Price Stabilization notifies you in writing that you are permitted to do so.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective January 5, 1953.

[General Ceiling Price Regulation, Supplementary Regulation 63, Amdt. 2 to Area Milk Price Regulation 16]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 16—KENOSHA MILK MARKETING AREA, STATE OF WISCONSIN

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), Economic Stabilization Agency General Order No. 2 (16 F. R. 738), Delegation of Authority No. 41 (16 F. R. 12679), this Amendment 2 to Area Milk Price Regulation 16 pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 955) is hereby issued:

STATEMENT OF CONSIDERATIONS

The milk processors supplying the Kenosha, Wisconsin, milk marketing area filed, on October 28, 1952, an application under Section 4 of SR 63 to the GCPR for an increase in the ceiling prices determined by AMPR 16.

On November 1, 1952, the milk processors in the Kenosha area put into effect a new labor contract approved by the Wage Stabilization Board. This contract increased labor costs by providing, among other things, for a reduction in the workweek without a corresponding reduction in wages. This necessitates the employment of additional personnel. In their application, the processors estimated the additional cost to them by recomputing their August 1952 labor cost on the basis of the new contract. This projection has been compared with the actual November experience and found to be accurate. On the basis of the information submitted and otherwise available to this office, it appears that an increase of 1¢ per sales point is warranted by the criteria of the regulation.

In the judgment of the Regional Director, the provisions of this Amendment 2 to Area Milk Price Regulation 16 in Region VII are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950 as amended by the Defense Production Act amendments of 1951.

The Regional Director has given due consideration to the national effort to achieve the maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950 to June 24, 1950, inclusive; and to all relevant factors of general applicability. The Director has consulted the industry involved to the fullest extent practicable and has given due consideration to its recommendation.

AMENDATORY PROVISIONS

Area Milk Price Regulation 16, issued pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation, is amended in the following respects:

1. Section 4 (a) is amended by changing Table A to read as follows:

[General Overriding Regulation 8, Amdt. 7]

GOR 8—PAPER, PAPERBOARD, CONVERTED PAPER AND PAPERBOARD PRODUCTS, ALLIED PRODUCTS AND SERVICES

CLARIFYING THE EXEMPTION OF SMALL PRINTERS AND SALES OF MIXED NEW UNDERWEAR CUTTINGS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 7 to General Overriding Regulation 8 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment changes subparagraph (3) of section 1 (a) of General Overriding Regulation 8 to make it conform to the original intent as expressed in the Statement of Considerations to Amendment 1 to GOR 8. The stated intent was to exempt all small printing firms whose total gross sales of printed papers, paper products and printing services in the calendar year 1950 did not exceed $50,000. However, the amendatory language of Amendment 1 did not effectuate this objective because any small printer who is selling the pure service of printing, typesetting, plate making, or allied services in a manner which is not related to the sale by him of any paper or paper product not absolutely exempted under subparagraph (2) of GOR 8 was not exempted by subparagraph (3) with respect to such sales of services. This amendment definitely extends the exemption to any printer whose total gross sales do not exceed $50,000 per annum irrespective of whether all or part of such sales consist merely of services rendered on paper or paper products which are owned by other persons. Therefore, this amendment makes it clear that Ceiling Price Regulation 121, Printing, Printed Products, Allied Products and Certain Paper Products, does not apply to these small printing establishments with respect to the sales of such services.

This amendment also clarifies the scope of exemptions created by section 1 (a) 1 of GOR 8 by re-defining the terms "consumer" and "new cotton, linen and underwear cuttings". The question has been presented as to whether a manufacturer who acquires new cuttings for the purpose of further processing them into other commodities is a "consumer" as defined in the regulation. This amendment makes it clear that any person who acquires these commodities for this purpose is a consumer within the meaning of the regulation. GOR 8 was intended to exempt from price controls sales of unsorted or mixed new cuttings of both synthetic and non-synthetic fibers to persons other than a consumer. Issued simultaneously therewith, CPR 28 was designed to cover sales of new cuttings of certain non-synthetic fiber not exempted by GOR 8. Due to this relationship between the two regulations, plus the fact that CPR 28 coverage was limited to new cuttings of non-synthetic fiber, there has been some uncertainty as to whether or not GOR 8 was applicable to sales of unsorted and mixed new cuttings of synthetic fiber. As re-defined, the term specifically includes new cuttings of both synthetic and non-synthetic fibers. In order to eliminate future uncertainty or confusion, it should be noted that the sales of new cuttings of synthetic fiber not exempted by GOR 8 are subject to the appropriate provisions of the General Ceiling Price Regulation, and usual cuttings not exempt are subject to Ceiling Price Regulation 141.

In the formulation of this amendment, there has been consultation with members of the Industry Advisory Committee, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 8 is amended in the following respects:

1. Subparagraph (3) of section 1 (a) of General Overriding Regulation 8 is amended to read as follows:

(3) Sales of all printed papers, printed paper products and printing services when sold by persons engaged primarily in the business of publishing, printing, typesetting, plate making, binding, or rendering related services, whose total gross sales in the calendar year 1950 of printed papers, printed paper products or printing services, or any combination thereof, did not exceed $50,000. This exemption applies in any subsequent year when such total gross sales in the preceding calendar year did not exceed $50,000: *Provided*, That records of such total gross sales for 1950 and any subsequent year of printed paper products and printing services be maintained and preserved for inspection by the Office of Price Stabilization for the life of the Defense Production Act of 1950 and for two years thereafter.

2. The headnote in section 2 (a) is amended to read as follows:

SEC. 2. *Definitions.* (a) The terms in this General Overriding Regulation shall be construed in the following manner unless otherwise clearly required by the context.

3. Subparagraph (1) of paragraph (a) of section 2 is amended to read as follows:

(1) "Consumer" as used in section 1 (a) (1), means a person who acquires new cotton, linen, or underwear cuttings for the purpose of further processing them into some other commodity.

4. Subparagraph (2) of paragraph (a) of section 2 is amended to read as follows:

(2) "New cotton, linen and underwear cuttings" as used in section 1 (a) (1) means all kinds and grades of new cotton cuttings, linen cuttings, underwear cuttings of both synthetic and non-synthetic fiber, including but not limited to cuttings of wool, silk, nylon and rayon, and new linen thread waste, regardless of the use for which they are sold, excepting however, pound goods and similar materials when sold for re-use as new textiles and excepting also cotton hooked rug materials and mill rags.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup 2154)

Effective date. This Amendment 7 to General Overriding Regulation 8 shall become effective January 5, 1953.

GOR 32—ADJUSTMENT OF CEILING PRICES FOR MATERIALS TO THE MINIMUM PRICES FIXED BY STATE LAWS

SO 4—RETAIL AND WHOLESALE GROCERS IN MONTANA

ADDITIONAL COMMODITIES AND GROUP 3 CHAIN STORES

Statement of considerations. This amendment adds certain food commodities to Special Order 4 to General Overriding Regulation 32. Special Order 4 was issued in response to a petition by the Montana Trade Commission and raised the ceiling prices of Montana retail and wholesale grocers where necessary to conform with the minimum prices established by the Montana Unfair Trade Practices Act. It appears, however, that through an oversight some of the commodities for which an adjustment was requested by the Montana Trade Commission were not included in the Special Order. Moreover, the Order failed to provide a special markup for retailers who are classified as Group 3 retailers under CPR 15 and who perform what is called under Montana law a "wholesale function".

Since these adjustments were included in the original petition of the Montana Trade Commission and since the Commission has shown that such adjustments are required under GOR 32, it is ordered that Special Order 4 to General Overriding Regulation 32 be amended as follows:

1. Section 2, paragraph C is revised to read as follows:

C. Ceiling prices for retailers who are classified as Group 3 retailers under CPR 15 may be computed by multiplying the lower of their most recent invoice cost or their replacement cost by 1.10 for sales for which they do not perform the "wholesale function" or by 1.155 for sales for which they perform the "wholesale function" in addition to the retail function, for the following food commodities: canned milk and shortening (hydrogenated).

2. Section 2, paragraph D is revised by adding to the list of food commodities coffee concentrates and flour.

A copy of this amendment has been filed with the Recording Secretary of the Office of Price Stabilization at Washington, D. C., where it may be examined by the public.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective December 30, 1952.

CMP REG. 3—PREFERENCE STATUS OF DELIVERY ORDERS UNDER THE CONTROLLED MATERIALS PLAN

DIR. 4—SPECIAL PREFERENCE STATUS OF CERTAIN DO RATED ORDERS

This amended direction under CMP Regulation No. 3 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction as amended, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the direction affects many different industries.

EXPLANATORY

Direction 4, as last amended August 20, 1952, to CMP Regulation No. 3, is further amended by changing the date which appears in sections 1 and 2 from December 31, 1952, to June 30, 1953.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Status of certain DO rated orders.
3. Applicability of other regulations and orders.

AUTHORITY: Sections 1 to 3 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* The purpose of this direction is to channel into defense programs, so far as practicable, Class A and B products containing steel. This will be accomplished by according special preference status to DO rated orders for such products, calling for delivery on or before June 30, 1953, placed in support of military, atomic energy, and machine tool programs.

SEC. 2. *Status of certain DO rated orders.* Any DO rated order for a Class A product containing steel or a Class B product containing steel, bearing a program identification A, B, C, or E, and a digit (including the suffix B-5), or Z-2, calling for delivery on or before June 30, 1953, must be accepted and filled in preference to all other DO rated orders for Class A products containing steel or Class B products containing steel, previously or subsequently received, but which do not bear a program identification A, B, C, or E, and a digit (including the suffix B-5), or Z-2: *Provided, however,*

That such a DO rated order need not be accepted if filling it would stop or interrupt the supplier's operations during the next 15 days in a way which would cause a substantial loss of total production or a substantial delay in operations. All DO rated orders (including those previously placed) for Class A products containing steel or Class B products containing steel, which bear a program identification A, B, C, or E, and a digit (including the suffix B–5), or Z–2, shall have equal preferential status.

SEC. 3. *Applicability of other regulations and orders.* The provisions of CMP Regulation No. 3, NPA Reg. 2, including the directions and amendments thereto, and of any other NPA regulation and order heretofore issued, are superseded to the extent to which they are inconsistent with the provisions of this direction, but in all other respects the provisions of such regulations and orders shall remain in full force and effect. This direction shall not be construed, however, to apply to any product subject to NPA Order M–41, M–43, M–44, or M–95, or to electron tubes subject to NPA Order M–17.

This direction, as amended, shall take effect December 24, 1952.

M–50—ELECTRIC UTILITIES

DIR. 3—AUTOMATIC REVALIDATION OF ALLOTMENTS FOR MAJOR PLANT ADDITIONS

This direction to NPA Order M–50 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Automatic revalidation of certain allotments and orders for major plant additions.

AUTHORITY: Sections 1 and 2 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789, 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* This direction provides for the automatic revalidation of allotments for major plant additions by permitting placement of authorized controlled material orders calling for deliveries of controlled materials in the calendar quarter next succeeding the quarter for which the allotment is made.

SEC. 2. *Automatic revalidation of certain allotments and orders for major plant additions.* (a) Any electric utility which has received an authorized construction schedule and related allotment for a major plant addition pursuant to section 32 of NPA Order M–50, may itself revalidate such allotment, placing authorized controlled material orders calling for delivery in the quarter next succeeding the quarter for which the allotment was made without making application to DEPA for authority to take such action.

(b) (1) To revalidate an allotment pursuant hereto, an electric utility need only indicate on its purchase order that it desires delivery in the calendar quarter next succeeding the quarter provided for in the allotment. (For example, if it has received an allotment valid for the fourth calendar quarter of 1952, and if it desires, for any reason, to receive delivery in the first quarter of 1953 instead of in the fourth quarter of 1952, in placing its purchase order, the utility shall identify such order by the allotment number and the designation of the appropriate calendar quarter in which it desires delivery, i. e., in the instance of this example 1Q53.)

(2) If a purchase order has already been placed pursuant to an allotment valid in any particular calendar quarter and if the utility desires, for any reason, to receive delivery in the calendar quarter next succeeding the quarter for which the allotment is valid, it may revalidate such allotment and purchase order, and request delivery in the next succeeding quarter, either by furnishing a revised copy of the purchase order to the supplier, or by furnishing the supplier written information clearly identifying the original purchase order and specifying the quarter in which delivery is requested.

(3) All purchase orders placed pursuant to this direction shall be certified and signed in the manner provided in section 23 of NPA Order M–50.

This direction shall take effect December 24, 1952.

[NPA Order M–47B, as Amended December 29, 1952]

M–47B—USE OF CONTROLLED MATERIALS IN CERTAIN CONSUMER DURABLE GOODS

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended order, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the order affects many different trades and industries.

EXPLANATORY

This order, as amended, affects NPA Order M–47B, as last amended November 6, 1952, as follows: Schedule I is deleted and a new Schedule I is substituted in its place.

REGULATORY PROVISIONS

Sec.
1. Purpose.
2. Definitions.
3. Application of this order.
4. Authority to use allotments of controlled material to produce other products, repair and replacement parts, and authority to provide flexibility in the production of repair and replacement parts.
5. Prohibited use of copper and aluminum (Deleted August 4, 1952).
6. Request for adjustment or exception.
7. Records and reports.
8. Communications.
9. Violations.

AUTHORITY: Sections 1 to 9 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *Purpose.* The purpose of this order is to provide for a degree of flexibility in the production of certain consumer durable goods, by permitting a CMP allotment received for the production of one product to be used, subject to certain limitations, in the production of a different product.

SEC. 2. *Definitions.* The following terms shall have the same meanings as given for such terms in section 2 of CMP Regulation No. 1.

(1) Person.
(2) Controlled material.
(3) Industry division.
(4) Prime consumer.
(5) Allotment.
(6) Class A product.
(7) Class B product.

SEC. 3. *Application of this order.* This order applies to any producer of any Class B product in Schedule I of this order, including any prime consumer who obtains any controlled material as provided by Directions 1, 17, or 18 to CMP Regulation No. 1 or by allotment from an industry division. This order does not apply to the production of controlled materials.

SEC. 4. *Authority to use allotments of controlled material to produce other products, repair and replacement parts, and authority to provide flexibility in the production of repair and replacement parts.* (a) Notwithstanding the provisions of any CMP regulation, any prime consumer, who has received from an industry division an allotment of any iron and steel, copper, or aluminum in the controlled material forms and shapes listed in Schedule I to CMP Regulation No. 1 for the production, during any calendar quarter, of any Class B product in Schedule I of this order, may, during such quarter, use all or part of such allotment, and the rating authorized for use in connection therewith, for the production of any other Class B product or

products included in Schedule I if each of the other Class B products which the allotment is used to produce is either (1) one for which he also received an allotment for such quarter from an industry division, or (2) one which he has produced, for purpose of sale, on or after July 1, 1949. In all other respects, the provisions of CMP regulations shall apply to such production.

(b) Nothing in this section shall be deemed to increase or to serve as a basis for increasing the amount of any controlled material allotted to any person for production of all products in Schedule I of this order, or for all production.

(c) Any prime consumer, who obtains in the manner set forth in section 3 of this order any iron and steel, copper, or aluminum in the controlled material forms and shapes listed in Schedule I to CMP Regulation No. 1 for the production during any calendar quarter of any Class B product included in Schedule I of this order may, subject, however, to the same restrictions as are contained in paragraph (a) of this section, use all or a part of such CMP allotment in the production of repair or replacement parts of any product listed in Schedule I of this order.

(d) Any prime consumer, who obtains in the manner set forth in section 3 of this order any iron and steel, copper, or aluminum in the controlled material forms and shapes listed in Schedule I to CMP Regulation No. 1 for the production during any calendar quarter, of repair or replacement parts of any Class B product listed in Schedule I of this order may, subject, however, to the same restrictions as are contained in paragraph (a) of this section, use all or a part of such CMP allotment in the production of repair or replacement parts of a different product listed in Schedule I of this order.

(e) Nothing in paragraphs (c) and (d) of this section permits the use for production of any Class B product listed in Schedule I of this order, of any CMP allotment received for the production of repair or replacement parts of any such product, or authorizes any action contrary to Direction 1 to this order, as amended.

(f) Controlled material obtained by any prime consumer under the authorizations provided by Directions 1, 17, or 18 of CMP Regulation No. 1 for the production of any new product designated in Schedule I of this order, or for repair or replacement parts for any such new product shall be subject to the provisions of Direction 1 to this order, as amended. For the purpose of this paragraph, the term "new product" shall have the meaning defined in section 2 (a) of Direction 1 to this order, as amended.

SEC. 5. *Prohibited use of copper and aluminum* (Deleted August 4, 1952).

SEC. 6. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 7. *Records and reports.* (a) Each person participating in any transaction covered by this order, or who relies on section 4 of this order, shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 8. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M–47B.

SEC. 9. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

NPA Order M–47B, as so amended, shall take effect December 29, 1952.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 6—UNITED STATES GOVERMENT LIFE INSURANCE

PART 8—NATIONAL SERVICE LIFE INSURANCE

MISCELLANEOUS AMENDMENTS

1. In Part 6, the introduction and paragraph (a) of § 6.78 are amended to read as follows:

§ 6.78 *Provision for reinstatement.* Subject to the provisions of the World War Veterans' Act, 1924, as amended, and Veterans' Administration Regulations issued thereunder, United States Government life insurance which has lapsed, or may hereafter lapse, may be reinstated upon evidence of the insurability of the applicant satisfactory to the Administrator of Veterans Affairs and under the conditions stated in §§ 6.79, 6.80, 6.81, 6.90, and 6.92.

(a) The policy, if it has not been surrendered for a cash value, may be reinstated at any time after lapse upon evidence of the insurability of the insured satisfactory to the Administrator of Veterans Affairs, payment of all premiums in arrears, and, except as hereinafter provided in this paragraph, with interest from their several due dates at the rate of 5 per centum per annum, compounded annually, to the first monthly premium due date after July 31, 1946, and thereafter at the rate of 4 per centum per annum, compounded annually: *Provided,* That the payment or reinstatement of any indebtedness which existed at the time of such default must be made, with interest and if such indebtedness with interest would exceed the reserve of the policy at the time of application for reinstatement of said policy, then the amount of such excess shall, except as provided in § 6.81, be paid by the insured as a condition of the reinstatement of the indebtedness and of the policy: *Provided further,* That no interest on premiums in arrears will be required if reinstatement is effected within 3 months from the due date of the premium in default. The provisions of the "reinstatement" clause in United States Government life insurance policies are hereby amended accordingly.

* * * * *

2. Section 6.81 is revised to read as follows:

§ 6.81 *Indebtedness at time of reinstatement.* The United States Government life insurance shall not be deemed to be reinstated until satisfactory evidence of good health has been furnished and approved as required, and, except as provided in § 6.176, until all premiums in arrears have been paid with the required interest, and any indebtedness existing at the time of default has been paid or reinstated as set forth in the policy: *Provided,* That any indebtedness on account of unpaid service premiums and premiums waived under authority of section 306 of the World War Veterans' Act, 1924, as amended, may be reinstated, even though the amount of such indebtedness exceeds the reserve of the policy; and such indebtedness unless otherwise paid shall be deducted from the proceeds of insurance in any settlement thereof, or from the cash value when such value is taken in cash or used for the purpose of purchasing paid-up or extended insurance or making a loan: *Provided further,* That the amount of such unpaid premiums with interest shall not be considered an indebtedness as is set forth in paragraph 5 (D) of the contract of Government life insurance to cause the policy to cease and become void if the amount (premiums with interest) is greater than the cash surrender value of an insurance without indebtedness, so long as current premiums are being paid by the insured when due or the payment on the due date thereof is being waived as provided by Veterans' Administration Regulations.

3. Section 6.83 *Reinstatement while applicant is in the active military or naval service* is revoked.

4. In § 6.85, paragraph (a) is amended to read as follows:

§ 6.85 *Reinstatement of policies in force under extended insurance.* (a) A lapsed United States Government life insurance policy which is in force under extended term insurance may be reinstated without health statement or other medical evidence, if application and tender of premiums with the required interest are made not less than 5 years prior to the date such extended insurance would expire: *Provided,* That in any case in which the extended insurance under an endowment policy provides protection to the end of the endowment period, such policy may be reinstated upon application and payment of the premiums with the required interest, and health statement or other medical evidence will not be required.

* * * * *

5. In § 6.164, the 10th paragraph of the Total Disability Provision beginning "This provision may be canceled by the insured * * *" is amended to read as follows:

§ 6.164 *Total disability provision for United States Government life insurance authorized by section 311 of the World War Veterans' Act, 1924, as amended July 3, 1930.* * * *

This provision may be canceled by the insured at any time upon written request to the Veterans' Administration accompanied by the policy and this provision for endorsement. This provision shall terminate and be of no further force and effect if any premium on the policy or on this provision be not paid when due or within the grace period of 31 days thereafter. If a premium be not paid as stipulated, then this provision shall cease and terminate but may be reinstated upon evidence of good health satisfactory to the Administrator of Veterans Affairs, and upon the payment of the required premiums. The premium requirement to reinstate this provision, if attached to a permanent plan policy of insurance, is the payment of all premiums in arrears with interest at the rate of 5 percent per annum, compounded annually, to the first monthly premium due date after July 31, 1946, and thereafter at the rate of 4 percent per annum, compounded annually: *Provided,* That no interest on premiums in arrears will be required if reinstatement is effected within 3 months from the due date of the premium in default. The premium requirement to reinstate this provision, if attached to a 5-year level premium term policy, is the payment of 2 monthly premiums, one for the month of lapse, the other for the month of reinstatement. If the application and the required premiums are submitted within 3 months after the due date of the premium in default, reinstatement may be effected upon evidence satisfactory to the Administrator showing the applicant to be in as good health as he was on the due date of the premium in default.

6. In § 8.22, paragraph (a) is amended to read as follows:

§ 8.22 *Reinstatement of National Service life insurance*—(a) *Reinstatement of National Service life insurance except insurance reinstated pursuant to section 5 of the Servicemen's Indemnity Act of 1951.* Subject to the provisions of the National Service Life Insurance Act, as amended, and Veterans' Administration Regulations issued thereunder, any insurance which has lapsed or may hereafter lapse and which has not been surrendered for a cash value or for paid-up insurance, may be reinstated upon written application signed by the applicant, and, except as hereinafter provided in this paragraph, upon payment of all premiums in arrears, with interest from their several due dates, provided such applicant at the time of application and tender of premiums is in the required state of health as shown in § 8.23 (a) or (b), whichever is applicable, and submits evidence thereof at the time of application and tender of premiums as may be satisfactory to the Administrator of Veterans' Affairs: *Provided,* That interest on premiums in arrears shall be at the rate of 5 per centum per annum, compounded annually, to the first monthly premium due date after July 31, 1946, and thereafter at the rate of 4 per centum per annum, compounded annually: *Provided further,* That no interest on premiums in arrears will be required if reinstatement is effected within 3 months from the due date of the premium in default: *Provided further,* That the payment or reinstatement of any indebtedness against any policy must be made, and if such indebtedness with interest exceeds the reserve of the policy at the time of application for reinstatement thereof, then the amount of such excess shall be paid by the applicant as a condition of the reinstatement of the indebtedness and of the policy: *Provided further,* That a lapsed National Service life insurance policy which is in force under extended term insurance may be reinstated without health statement or other medical evidence, if application and tender of premiums with the required interest are made not less than 5 years prior to the date such extended insurance would expire: *Provided further,* That in any case in which the extended insurance under an endowment policy provides protection to the end of the endowment period such policy may be reinstated upon application and payment of the premiums with the required interest and health statement or other medical evidence will not be required: *And provided further,* That National Service life insurance on the level premium term plan may be reinstated by written application of the insured accompanied by evidence of insurability and tender of 2 monthly premiums, one for the month of lapse, the other for the premium month in which reinstatement is effected; but such insurance when reinstated without payment of all premiums in arrears with interest shall have no reserve value. Except as provided in § 8.84, application for reinstatement of level premium term insurance accompanied by evidence of insurability and tender of premiums must be submitted prior to the expiration of the 5-year term period. The provisions of the "reinstatement" clause in National Service life insurance policies are hereby amended accordingly.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 35—PROVISIONS APPLICABLE TO THE SEVERAL CLASSES OF MAIL MATTER

PART 50—CITY DELIVERY

PART 52—RURAL DELIVERY

MISCELLANEOUS AMENDMENTS

1. In Part 35 insert between § 35.21 and § 35.22 new § 35.21a, to read as follows:

§ 35.21a *Bare root nursery stock.* (a) The roots of bare root nursery stock consisting of, but not limited to, the following: Trees, shrubs, vines, and ground covers, berry plants, perennials, roses, evergreens, must be packed in a wettable, moisture-retaining material. Sphagnum moss is probably the most satisfactory material, but shingle tow (fine shavings from shingles cut across the grain), peat moss, and other like material may be used as a mixture or alone. This packing material must be wet enough and of sufficient bulk at shipping point to maintain a moist condition about the roots throughout the period the shipment is in transit.

(b) The wettable packing material and the roots or butts of the plants must be wrapped or boxed in a waterproof material heavy enough to withstand safe transmission in the mails without leakage or loss of packing material. The term "waterproof material" means a tar-centered paper or kraft paper waxed on one side or a kraft paper with a waxed or tarred paper liner or plastic wrap. If a box is used, it must have a waxed or similar lining to prevent leakage or loss of contents and to insure retaining a moisture content for the roots of the plants without weakening the box.

(c) The tops of all bundles must be wrapped with a covering of paper, straw or similar material to protect the plant from injury and drying out and if the plant has thorns or other pointed projections, the wrapper shall be puncture-proof to avoid injury to postal employees handling such bundles.

(d) All bundles, boxes or similar containers must be either tied, stapled, sealed with tape or a glue or tar in such a manner as to prevent loss or exposure of contents in transit.

(e) Mailings must be confined to offices which the stock may reasonably be expected to reach in good condition and with the roots in a moist condition. These mailings should be made at such times as will avoid week-end delay in delivery at destination. This matter is not classed as perishable under the defi-

nition of perishable matter given in § 35.19 and must not be labeled perishable.

NOTE: For regulations relating to plant quarantine see §§ 35.27, 35.28.

2. In § 35.27 *Plant quarantine* amend paragraph (b) by adding the following note thereto:

NOTE: For packing requirements of certain bare root nursery stock see § 35.21a.

3. In § 50.23 *Private mail receptacles* amend paragraph (b) by striking out the words "Appendix C of the Manual of Instructions for Postal Personnel" and insert in lieu thereof the words "articles 39 to 51, inclusive, Ch. IX, of the Post Office Manual."

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

3. In § 52.80 *Manufacture and sale of boxes* amend paragraph (c) by deleting the following name from the list shown therein:

Rex Tool & Die Co., 430 Island Avenue, McKees Rocks, Pa.

Chapter I—Federal Communications Commission

PART 16—LAND TRANSPORTATION RADIO SERVICES

RELAY STATIONS

In the matter of amendment of § 16.355 of the Commission's rules and regulations to effect certain editorial changes therein.

The Commission having under consideration the desirability of making certain editorial changes in § 16.355 of its rules and regulations; and

It appearing, that the amendments adopted herein are editorial in nature, and, therefore, prior publication of notice of proposed rule making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing, that the amendments adopted herein are issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and paragraph F-6 of the Commission's Order Defining the Functions and Establishing the Organizational Structure of the Office of the Secretary, dated February 14, 1952, as amended;

It is ordered, This 22d day of December 1952, that, effective immediately, § 16.355 of the Commission's rules and regulations is revised as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 5, 303, 48 Stat. 1068, 1082, as amended; 47 U. S. C. 155, 303)

Released: December 22, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

Section 16.355 is revised to read as follows:

§ 16.355 *Relay stations*—(a) *General.* Relay stations are used to extend the range of communication between another radio station and the point with which it is desired to communicate. For the purposes of the rules in this part, there are two types of relay stations: Mobile relay stations and fixed relay stations. For definitions, see § 16.6.

(b) *Mobile relay stations.* The policies governing authorization and operation of this type of relay station are as follows:

(1) Each application for a new mobile relay station authorization shall be accompanied by a satisfactory showing that the applicant has a substantial requirement for prompt mobile-to-mobile communication over ranges greater than can be realized consistently by direct communication on the frequency presently assigned, or in the case of a proposed new radio system, on any available frequency. (Except for radio systems in railroad yard or terminal areas, range measurements obtained by use of low-power transmitters of the hand-carried or pack-carried type will not be accepted in satisfaction of the requirements of this subparagraph.)

(2) A mobile relay station may be authorized to operate on any mobile service frequency available for assignment to base stations.

(3) Each mobile relay station shall be so designed and installed that it normally will be activated only by means of a coded signal or signals or such other means as will effectively prevent its activation by undesired signals: *Provided, however*, That this requirement may be waived when both of the following conditions are met:

(i) The radio system is shown to be so designed that the mobile relay station normally is capable of activation only by signals received on frequencies above 50 Mc; and

(ii) The applicant for a mobile relay station authorization either verifies that no person having equal rights to the frequency in question is operating on the mobile relay station frequency within a radius of seventy-five miles of the proposed mobile relay station location or, alternatively, obtains and submits with the application the written consent of each such person to installation of the proposed mobile relay station and its operation on a regular basis for a trial period of one year from the date a station license is granted by the Commission.

In any event a waiver granted under the provisions of this subparagraph may be cancelled after ninety days notice by the Commission if it develops that the mobile relay station is, in fact, consistently activated by undesired signals and thereby causes harmful interference to other licensees.

(4) Each mobile relay station shall be so designed and installed that it will be deactivated automatically when its associated receiver or receivers are not receiving a signal on the frequency or frequencies which normally activate it.

(5) Each mobile relay station required by the terms of subparagraph (3) of this paragraph to be activated by a coded signal shall be so designed and installed that it will be deactivated upon receipt or cessation of a coded signal or signals, and, in addition, shall be provided with an automatic time-delay or clock device which will deactivate the station not more than three minutes after its activation.

(6) A mobile station associated with one or more mobile relay stations may be authorized to operate on any available mobile service frequency.

(7) An operational fixed (control) station associated with one or more mobile relay stations may be assigned any frequency available for assignment to operational fixed stations or, at the option of the applicant, the mobile service frequency assigned to the associated mobile station. Use of the mobile service frequency by such operational fixed (control) stations is subject to the condition that harmful interference shall not be caused to stations of other licensees operating in the mobile service in accordance with the table of frequency allocations as set forth in Part 2 of this chapter.

(8) In any radio system which employs more than one mobile relay station, where there is a requirement that stations in the vicinity of one mobile relay station be able to communicate automatically with stations in the vicinity of other mobile relay stations, any necessary circuits for interconnection of the mobile relay stations shall be provided by means of wire lines or radio stations operating on fixed service frequencies.

(9) A base station which is used intermittently as an operational fixed (control) station for one or more associated mobile relay stations of the same licensee will be authorized to operate only on the mobile service frequencies assigned to the associated mobile relay station and/or mobile station. Special authority for such dual station classification and use must be shown in the instrument of station authorization.

(c) *Fixed relay stations.* Fixed relay stations will be authorized to operate only on frequencies available for use by operational fixed stations.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter E—Alaska Wildlife Protection

PART 46—TAKING OF ANIMALS, BIRDS, AND GAME FISHES

Basis and purpose. As a result of fur management investigations it has been determined that an increased number of beaver can be taken within the boundaries of the Koyukuk Fur Management Area in Alaska without endangering the future supply of such animals.

Since the following amendatory regulation is a relaxation of existing regulations applicable to the Koyukuk Fur Management Area, notice and public procedure thereon are unnecessary (60 Stat. 237, 238; 5 U. S. C. 1003).

Effective immediately upon publication in the FEDERAL REGISTER the last sentence in each of the two paragraphs under § 46.131 of the regulations under the Alaska Game Law (57 Stat. 301, 48 U. S. C. 192-211) pertaining to the taking of beaver in Fur Districts 6 and 7 is amended to read as follows: "Limit, 10 a season, except that on the Koyukuk Fur Management Area described in § 164.1 the limit shall be 15 a season."

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 155]

NORTHWEST ATLANTIC COMMERCIAL FISHERIES

HADDOCK PROVISIONS

At its meeting held in St. Andrews, New Brunswick, Canada, June 30–July 9, 1952, the International Commission for the Northwest Atlantic Fisheries, a body created pursuant to Article II of the International Convention for the Northwest Atlantic Fisheries signed at Washington under date of February 8, 1949, adopted a proposal recommending that the Contracting Governments, in the interest of permitting an adequate escapement of immature haddock, take appropriate action to prohibit the taking of haddock in Sub-area 5 of the Convention waters with a trawl net having a mesh size of less than four and one-half inches. The proposal recommended further the adoption of a specific method of measuring mesh size and the exemption of vessels taking haddock for purposes of scientific investigation from the proposed mesh restrictions. In its letter of July 15, 1952, which submitted the proposal to the Contracting Governments pursuant to Article VIII of the Convention, the Commission drew attention to the experimental nature of the proposed mesh size regulation and outlined a suggested research program to determine the effectiveness of the regulation following its adoption.

In accordance with section 4 (a) of the Administrative Procedure Act of June 11, 1946 (60 Stat. 237), notice is hereby given that in order to give effect to the Commission's proposal, the Secretary of the Interior intends to adopt on or about March 15, 1953, the regulations set out below affecting the taking of haddock in the Northwest Atlantic Ocean. These regulations are to be adopted under the authority contained in section 7 (a) of the Northwest Atlantic Fisheries Act of 1950 (64 Stat. 1067, 16 U. S. C., 1946 ed., Supp. V, 981) and it is proposed that such regulations shall be effective during the calendar year 1953 only. In accordance with section 4 (a) of the Northwest Atlantic Fisheries Act of 1950 the proposed regulations were submitted to the Advisory Committee to the United States Commissioners of the International Commission for the Northwest Atlantic Fisheries on December 2, 1952, at which time the proposed regulations received the unanimous approval of the members of the Advisory Committee in attendance.

The proposed regulations, to constitute new Subchapter I—Northwest Atlantic Commercial Fisheries, Part 155—Haddock Provisions, are as follows:

DEFINITIONS

Sec.
155.1 Meaning of terms.
155.2 Vessel.
155.3 Haddock.
155.4 Haddock fishing.
155.5 Trawl net.
155.7 Period of application.
155.9 Restriction on fishing gear.
155.10 Measurement of mesh size.
155.11 Employment of devices to reduce mesh size prohibited.
155.15 Illegal possession of haddock.
155.16 Certain vessels exempted.

DEFINITIONS

§ 155.1 *Meaning of terms.* When used in the regulations in this part, unless the content otherwise requires, terms shall have the meanings ascribed hereinafter in this part.

§ 155.2 *Vessel.* The word "vessel" denotes every kind, type, or description of watercraft, aircraft, or other contrivance, subject to the jurisdiction of the United States, used, or capable of being used, as a means of transportation on water.

§ 155.3 *Haddock.* The word "haddock" denotes any fish of the species Melanogrammus aeglefinus.

§ 155.4 *Haddock fishing.* The words "haddock fishing" mean the catching, taking, or fishing for, or the attempted catching, taking, or fishing for any fish of the species Melanogrammus aeglefinus.

§ 155.5 *Trawl net.* The words "trawl net" mean any large bag net dragged in the sea by a vessel or vessels for the purpose of taking fish.

§ 155.7 *Period of application.* The regulations in this part shall cease to have effect at midnight, December 31, 1953.

§ 155.9 *Restriction on fishing gear.* The use, for the purpose of taking haddock in the northwest Atlantic Ocean north of 39°00' north latitude and west of 42°00' west longitude, of a trawl net or nets, parts of nets or netting having in any part thereof a mesh size less than four and one-half inches is prohibited.

§ 155.10 *Measurement of mesh size.* For the purpose of § 155.9 mesh size shall be deemed to be the average of any ten consecutive meshes of the trawl net selected at the discretion of the enforcement officer and measured individually stretched diagonally while wet, with a flat wedge-shaped gauge having a taper of two inches in nine inches and a thickness of three thirty-seconds of an inch, inserted into the mesh under a pressure of twelve pounds.

§ 155.11 *Employment of devices to reduce mesh size prohibited.* The use from any vessel engaged in haddock fishing in the area described in § 155.9 of any device or method which will obstruct the meshes of the trawl net or which will otherwise, in effect, diminish the size of said meshes is prohibited: *Provided*, That a protective covering may be attached to the underside only of the cod end alone of the net to reduce and prevent damage thereto.

§ 155.15 *Illegal possession of haddock.* The possession or transportation on any vessel at any one time of both a trawl net or nets, parts of nets or netting, the use of which is prohibited by § 155.9, and haddock in amounts in excess of five thousand pounds or ten percent of all the fish on board such vessel, whichever is larger, is prohibited.

§ 155.16 *Certain vessels exempted.* Nothing contained in the regulations in this part shall apply to:

(a) Any vessel having in possession haddock in amount less than five thousand pounds or ten percent of all the fish on board such vessel, whichever is larger, taken incidentally to fishing for other species of fish.

(b) Any vessel duly authorized by the Director of the Fish and Wildlife Service to engage in haddock fishing for scientific purposes.

(c) Any vessel documented as a common carrier by the Government of the United States for the carriage of freight.

All persons who desire to submit written data, views or arguments in connec-

tion with the proposed regulations may do so by filing them with Albert M. Day, Director, Fish and Wildlife Service, Department of the Interior, Washington 25, D. C., not later than 60 days from the publication of this notice in the FEDERAL REGISTER.

Dated: December 20, 1952.

OSCAR L. CHAPMAN,
Secretary of the Interior.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket 10356]

RADIO BROADCAST SERVICES

ALLOCATION OF TELEVISION CHANNELS TO U. S. METROPOLITAN DISTRICTS

In the matter of amendment of § 3.606, *Table of assignments*, rules governing television broadcast stations; Docket No. 10356.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission has this day adopted an order amending § 3.606, *Table of assignments*, rules governing television broadcast stations, to delete the assignment of Channel 13 from Macon, Georgia. The reasons for this action have been set out in detail in a Report and Order (FCC 52-1581).

3. Southeastern Broadcasting Company, Macon, Georgia, on December 8, 1952, filed a petition requesting the assignment of Channel 13 to Warner Robins, Georgia. This community is not listed in the table of assignments and is not within 15 miles of a listed city; therefore, an assignment may be made to this community under an express exception to the one-year waiting period prescribed by § 3.609 of the rules.

4. The Commission is of the view that in light of the deletion of Channel 13 from Macon, it would be in the public interest to assign this channel to Warner Robins, Georgia. Warner Robins is a community of approximately 8,000 (1950 United States Census of Population). The assignment of Channel 13 to Warner Robins would be fully consistent with the standards and policies set forth in the Sixth Report and Order issued in the recent television proceedings and with the Commission's rules and regulations.

5. In light of the above, the Commission proposes to amend the table of assignments contained in § 3.606 of the Commission's rules to read as follows:

City	*Channel No.*
GEORGIA	
Warner Robins	13+

6. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f) and (r) and 307 (b) of the Communications Act of 1934, as amended.

7. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before January 5, 1953, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. However, it should be kept in mind that only those comments that may be considered by the Commission under the provisions of § 3.609 (one-year rule) will be accepted in this proceeding. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

8. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: December 10, 1952.

Released: December 11, 1952.

NOTICES

DEPARTMENT OF STATE

[Public Notice 119; Delegation of Authority 64]

DIRECTORS AND ACTING DIRECTORS OF TECHNICAL COOPERATION

DELEGATION OF AUTHORITY TO EXECUTE CONTRACTS AND OTHER DOCUMENTS UNDER PROGRAMS ADMINISTERED BY THE TECHNICAL COOPERATION ADMINISTRATION

By virtue of the authority vested in me by Public Notice 113, United States Department of State, dated July 29, 1952 (17 F. R. 7188), I hereby delegate to the Director of Technical Cooperation in each country, and to the Acting Director of Technical Cooperation in each country during the absence or incapacity of the Director of Technical Cooperation, the authority to enter into contracts on behalf of the Government of the United States of America to implement approved programs of the Technical Cooperation Administration for the country to which such official is assigned. The authority so delegated shall include the authority to issue Requests for the Issuance of Letters of Credit, Purchase Authorities, Procurement Authorizations, and other documents authorizing the procurement of supplies, equipment, and services authorized for such programs.

The authority delegated in the foregoing paragraph is subject to all applicable provisions of law, and shall be exercised in conformity with all restrictions, regulations, and directives which are now in effect or which may be issued hereafter governing the operations of such programs.

I hereby find and determine that the accomplishment of the objectives of Technical Cooperation Administration programs and the effective and efficient conduct of its business requires that authority be delegated to the officials named above to enter into contracts without advertising, and to provide for advance payments, under circumstances other than those specified in the Federal Property and Administrative Services Act of 1949 (Pub. Law 152, 81st Cong.), as amended. In each case in which such authority is exercised, the official exercising such authority shall prepare a written finding of fact showing the reasons that such deviation from the provisions of the Federal Property and Administrative Services Act of 1949 (Pub. Law 152, 81st Cong), as amended, is required, the original of which shall promptly be submitted to the Technical Cooperation Administration in Washington, together with the original or a signed duplicate of the contract.

This delegation of authority shall be effective when published in the FEDERAL REGISTER.

Federal Maritime Board

READING CO. ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

(1) Agreement No. 7848-2, between Reading Company and Waterman Steamship Corporation, modifies the basic agreement (7848) which provides for the granting to Waterman the preferential right to use Piers "A" and "C" at Port Richmond Terminal, Philadelphia, Pa. The modification provides for the widening of the north bulkhead shed of Pier "C" by Reading and for the increasing of the monthly minimum dockage charge to be paid by Waterman.

(2) Agreement No. 7820-1, between the member lines of the Great Lakes-London and Bordeaux-Hamburg Range Eastbound Conference, modifies the basic agreement of that conference (No. 7820) to remove the port of London from the geographical scope thereof and to clarify the brokerage provision. As presently in effect agreement 7820 covers the trade from ports of the Great Lakes of the United States and Canada, the St. Lawrence River, Nova Scotia, New Brunswick and Newfoundland to Continental ports of Europe within the Bordeaux-Hamburg Range and the port of London.

(3) Agreement No. 7830-1, between the member lines of the Great Lakes-London and Bordeaux-Hamburg Range Westbound Conference, modifies the basic agreement of that conference (No. 7830) to remove the port of London from the geographical scope thereof. As presently in effect agreement 7830 covers the trade from Continental ports of Europe within the Bordeaux-Hamburg range and the port of London to ports of the Great Lakes of the United States and Canada, the St. Lawrence River, Nova Scotia, Newfoundland and New Brunswick.

(4) Agreement No. 8130, between Maatschappij "Zeetransport" N. V. (Oranje Line) and the carriers comprising the Fjell Line Joint Service, provides for the creation of a conference to be known as the Great Lakes-United Kingdom Eastbound Conference for the establishment and maintenance of agreed rates, charges and practices for or in connection with the transportation of cargo in the trade from ports of the Great Lakes of the United States and Canada, the St. Lawrence River, Nova Scotia, New Brunswick and Newfoundland to United Kingdom ports.

(5) Agreement No. 8140, between Maatschappij "Zeetransport" N. V. (Oranje Line) and the carriers comprising the Fjell Line Joint Service, provides for the creation of a conference to be known as the Great Lakes-United Kingdom Westbound Conference for the establishment and maintenance of agreed rates, charges and practices for or in connection with the transportation of cargo in the trade from ports in the United Kingdom to ports of the Great Lakes of the United States and Canada, the St. Lawrence River, Nova Scotia, New Brunswick and Newfoundland.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: December 22, 1952.

By order of the Federal Maritime Board.

holding company, having heretofore

filed jointly with Bond and Share a plan and amendments thereto for compliance with section 11 (b) of the Public Utility Holding Company Act of 1935, pursuant to section 11 (e) of the act, and the Commission having entered its findings and opinion and order approving said plan, as amended, (Holding Company Act Releases Nos. 9359–A and 9389, dated September 22, 1949 and October 4, 1949, respectively), and said plan, as amended, having provided that American would pay such fees and expenses incurred in connection with said plan or proceedings with respect to said plan as the Commission should approve, and said plan having since been consummated and carried out in accordance with its terms; and

The Commission having, by said order of October 4, 1949, reserved jurisdiction to determine the reasonableness and appropriate allocation of all fees, expenses and other remuneration incurred in connection with said plan, as amended; and

The Commission having, by findings, opinion and order entered October 1, 1952 (Holding Company Act Release No. 11517), approved the payment by American of fees and expenses of various applicants in said proceedings, in the amounts set forth in said findings, opinion and order, including certain fees and expenses of Root, Ballantine, Harlan, Bushby & Palmer covering the period up to June 1, 1950; and

Root, Ballantine, Harlan, Bushby & Palmer having filed a Supplemental Application seeking approval of fees and expenses of that firm for the period subsequent to June 1, 1950, in connection with these proceedings, which application requests compensation for services in the amount of $19,775, together with disbursements of $1,665.35; and

The Commission having considered the Supplemental Application of American, together with an affidavit filed in support thereof, in the light of the record in this proceeding, and finding that the supplemental fees proposed to be paid to Root, Ballantine, Harlan, Bushby & Palmer, together with the disbursements requested, are not unreasonable, and that a supplemental order should be entered approving such fees and disbursements:

It is ordered, That American be, and hereby is, authorized to pay to Root, Ballantine, Harlan, Bushby & Palmer, as compensation for services rendered subsequent to June 1, 1950, the sum of $19,775 for fees, together with $1,665.35 in reimbursement of disbursements.

AMERICAN POWER & LIGHT CO.

ORDER RELEASING JURISDICTION OVER CERTAIN FEES AND EXPENSES

DECEMBER 22, 1952.

The Commission having by order entered June 6, 1952, approved a plan filed by American Power & Light Company ("American"), a registered holding company, under section 11 (e) of the Public Utility Holding Company Act of 1935, providing, among other things, for the distribution of the common stock of The Washington Water Power Company by American to its stockholders, which order reserved jurisdiction to determine the reasonableness and appropriate allocation of all fees and expenses and other renumeration incurred in connection with such plan, and the transactions incident thereto; and

Said plan having subsequently been approved by the United States District Court for the District of Maine, and having been consummated on August 21, 1952; and

Root, Ballantine, Harlan, Bushby & Palmer, counsel for American, having filed an application requesting a release of the jurisdiction reserved in said order so as to permit American to pay to that firm a fee of $8,750, of which $5,000 has already been advanced by American subject to approval of the Commission, together with $516.98 for expenses; and

Counsel for American having filed an affidavit describing the services performed, and stating that American proposes to pay no other fees or expenses in connection with the plan other than routine expenses such as printing, advertising, mailing and traveling expenses of officers and employees of American; and

The Commission having considered the application, the affidavit in support thereof, and the entire record of this proceeding, and finding that the fees and expenses proposed to be paid to Root, Ballantine, Harlan, Bushby & Palmer, and the other expenses of American, are not unreasonable, and finding it appropriate to release the jurisdiction heretofore reserved over all fees and expenses incurred by American in carrying out the provisions of said plan:

It is ordered, That the jurisdiction reserved in the Commission's order dated June 6, 1952, over the payment by American of fees and expenses, incurred in connection with its plan filed in these proceedings be, and the same hereby is, released.

HEVI DUTY ELECTRIC CO.

ORDER PERMITTING EXTENSION OF BANK LOAN NOTE

DECEMBER 22, 1952.

Hevi Duty Electric Company, a nonutility company which is a subsidiary of the North American Company, a registered holding company, having filed an application pursuant to sections 6 (b) and 7 of the act with respect to the following proposed transaction:

By order dated June 16, 1952, (Holding Company Act Release No. 11358) this Commission entered its order permitting Hevi Duty to borrow from the Chemical Bank & Trust Company of New York the sum of $300,000 at an interest rate of 3 percent per annum, such borrowing to be evidenced by an unsecured promissory note to extend for a period of six months with the privilege on the part of the company to renew such loan for an additional six-month period. The present application states that said bank loan becomes due January 2, 1953, and because the company's need for working funds has further increased since the original loan was made, it is now proposed that such bank loan be renewed in the same principal amount at the same interest rate for a further period of six months. No fees, commissions or other remuneration are to be paid to any third person in connection with the proposed transaction.

The company states that no regulatory commission other than this Commission has jurisdiction over the proposed transaction.

The applicant has requested that the Commission's order herein become effective upon issuance.

Due notice having been given of the filing of the application, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied, and deeming it appropriate in the public interest and the interest of investors and consumers that said application be granted forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application be, and it hereby is, granted forthwith, subject to the terms and conditions prescribed in Rule U-24.

CENTRAL PUBLIC UTILITY CORP. AND PORTO RICO GAS & COKE CO.

NOTICE OF FILING REGARDING REPURCHASE BY A SUBSIDIARY COMPANY OF SHARES OF PREFERRED STOCK OF SUBSIDIARY COMPANY

DECEMBER 22, 1952.

Notice is hereby given that a joint declaration has been filed with this Commission by Central Public Utility Corporation ("Central Public"), a registered holding company, and its public utility subsidiary, Porto Rico Gas & Coke Company ("Porto Rico"). The declarants have designated sections 12 (c) (d) and (f) and Rules U-42, U-43 and U-44 promulgated thereunder as applicable to the proposed transactions which are summarized as follows:

Porto Rico proposes to repurchase, and Central Public proposes to sell, 1,000 shares of the 6 percent Cumulative Preferred Stock, $100 par value, of Porto Rico at a price of $100 per share, or an aggregate cash consideration of $100,000. Porto Rico represents that it will cancel and extinguish these shares of preferred stock upon acquisition. The declaration states that Central Public will use the proceeds of the sale for general corporate purposes.

The outstanding securities of Porto Rico consist of $709,000 principal amount of 4½ percent First Mortgage Bonds due 1965, 2,445 shares of $100 par value 6 percent Cumulative Preferred Stock, and 10,000 shares of $25 par value Common Stock. All the outstanding securities of Porto Rico, except its mortgage bonds, are owned by Central Public.

It is represented that no State Commission or any other Federal Commission has jurisdiction over the proposed transactions.

Central Public estimates that the expenses to be incurred in connection with the proposed transactions will not exceed $100 and it requests that the Commission's order herein become effective upon issuance.

Notice is further given that any interested person may, not later than January 2, 1953, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after such date the declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[File No. 70–2976]

WEST PENN ELECTRIC CO. AND MONONGAHELA POWER CO.

NOTICE OF FILING WITH RESPECT TO ISSUANCE AND SALE BY PARENT OF SHARES OF ADDITIONAL COMMON STOCK BY RIGHTS OFFERING AND WITH RESPECT TO SALE BY SUBSIDIARY AND ACQUISITION BY PARENT OF ADDITIONAL COMMON STOCK OF SUBSIDIARY

DECEMBER 22, 1952.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 (the "act") by the West Penn Electric Company ("West Penn Electric"), a registered holding company, and its subsidiary, Monongahela Power Company ("Monongahela"), an exempt holding company and a public utility company. The filing has designated sections 6, 7, 9, 10, and 12 (c) of the act and Rules U-42, U-43, and U-50 promulgated thereunder as being applicable to the transactions therein proposed.

All interested persons are referred to said application-declaration which is on file in the office of this Commission for a statement of the transactions which are summarized as follows:

West Penn Electric proposes to issue 264,000 additional shares of its common stock, without par value. The shares of common stock are to be offered to the holders of the presently outstanding common stock of the company for subscription in the ratio of 1 share of additional common stock for each 15 shares of common stock now held. The rights to subscribe are to be evidenced by transferable subscription warrants to be issued on the basis of one right for each share of common stock owned. No fractional shares are to be issued in exchange for warrants. The warrants provide that persons subscribing for stock may direct the subscription agent to purchase additional warrants required to complete a full share subscription or to sell warrants in excess of full share subscriptions. In each case, the purchase or sale may not exceed 14 warrants for any single stockholder.

The above described offering is to be underwritten and West Penn Electric proposes to select the purchasers of any unsubscribed stock at competitive bidding pursuant to Rule U-50. At least 42 hours prior to the time for the submission and opening of bids, West Penn Electric will advise the prospective bidders of the subscription price per share for the shares of new common stock, which will also be the price per share at which unsubscribed shares will be sold to the successful bidder. Prospective bidders are to be required to specify an aggregate amount of compensation to be paid by the company for their commitments. Under the terms of the bidding the prospective purchasers must agree that, in the event any shares purchased by them from the company shall be sold by them prior to 30 days following the expiration period for a price in excess of the subscription price plus $1.50 per share, the purchasers shall pay to West Penn Electric 50 percent of such excess.

West Penn Electric also proposes, if considered necessary or desirable, to stabilize the price of the common stock of the company for the purpose of facilitating the offering and distribution of the new common stock. In connection therewith, the company may, prior to the acceptance of a bid, purchase shares of its common stock, but not in excess of 26,400 shares, on the New York Stock Exchange or otherwise. Such purchases are to be made through brokers with the payment of regular stock exchange commissions. The prospective bidders will be asked to bid not only for the purchase of the unsubscribed stock but also for the purchase of any shares within the above limitation acquired by the company through such stabilizing transactions.

Monongahela proposes to sell and West Penn Electric proposes to buy 769,300 additional shares of common stock of Monongahela, par value $6.50 per share, for a cash consideration of $5,000,450. Such funds will be used in carrying out the construction program of Monongahela.

According to the filing it is the present intention of West Penn Electric to use a portion of the net proceeds from the sale of the new common stock to make the aforesaid purchase of common stock of Monongahela. The remainder of the net proceeds is to be added to the general funds of West Penn Electric and will be available for general corporate purposes, including investments in its subsidiaries and in the common stock of Ohio Valley Electric Corporation, a new corporation formed by various public utility and holding companies to provide the Atomic Energy Commission with its electric energy requirements for its proposed plant near Portsmouth, Ohio.

The filing indicates that the issuance and sale of common stock by West Penn Electric and its acquisition of the common stock of Monongahela are subject to authorization by the Public Service Commission of Maryland.

It is requested that the Commission's order herein become effective upon issuance.

Notice is further given that any interested person may, not later than January 5, 1953, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. At any time after said date, the joint application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C.

By the Commission.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the Constitution of the United States provides that the President "shall have power to grant reprieves and pardons for offenses against the United States, except in cases of impeachment"; and

WHEREAS there have entered, enrolled in, or been inducted into the armed forces of the United States persons who had prior to their entry, enrollment, or induction been convicted of offenses against the laws of the United States, other than the laws for the government of the armed forces of the United States; and

WHEREAS it appears that such convicted persons who have been or shall hereafter be honorably discharged or separated from the armed forces, or separated with honor from active service therein, after serving in active status for not less than one year subsequent to June 25, 1950 ought to be pardoned:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby grant a full pardon to all persons convicted of violation of any law of the United States, except the laws for the government of the armed forces of the United States, who prior to the date hereof entered, enrolled in, or were inducted into the armed forces of the United States and who after serving in active status for not less than one year subsequent to June 25, 1950 have been or shall hereafter be honorably discharged or separated therefrom, or separated under honorable conditions from active service therein: *Provided, however*, that such pardon shall not be construed to include the pardon of such persons for any offenses for which conviction has been obtained after the date of such entry, enrollment, or induction.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 24th day of December, in the year of our Lord nineteen hundred and [SEAL] fifty-two, and of the Independence of the United States of America the one hundred and seventy-seventh.

HARRY S. TRUMAN

By the President:

DEAN ACHESON,
Secretary of State.

PROCLAMATION 3001

GRANTING AMNESTY AND PARDON TO CERTAIN PERSONS CONVICTED BY COURT-MARTIAL OF DESERTION FROM THE ARMED FORCES OF THE UNITED STATES

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS section 2 of Article II of the Constitution of the United States of America provides that the President "shall have power to grant reprieves and pardons for offenses against the United States, except in cases of impeachment"; and

WHEREAS section 306 of the Nationality Act of 1940 (54 Stat. 1141) provides in part that a person who at any time during which the United States is at war deserts the military or naval forces of the United States shall upon conviction thereof by a court-martial be ineligible to become a citizen of the United States, and that such deserters shall be forever incapable of holding any office of trust or of profit under the United States, or of exercising any rights as citizens thereof; and

WHEREAS section 401 (a) (g) of the said Act, as amended by section 1 of the act of January 20, 1944, 58 Stat. 4, provides in part that any person who is a national of the United States, whether by birth or naturalization, shall lose his nationality by deserting the military or naval forces of the United States in time

RULES AND REGULATIONS

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 8—PROMOTION, DEMOTION, REASSIGNMENT, AND TRANSFER OF PERMANENT EMPLOYEES

MISCELLANEOUS AMENDMENTS

Effective upon publication in the FEDERAL REGISTER, subparagraphs (1) and (3) of § 8.108 (a) and subparagraph (1) of § 8.204 (a) are amended to read as set out below. As amended, §§ 8.108 and 8.204 will read as follows:

§ 8.108 *Agency authority for promotion, demotion, reassignment, or transfer without reemployment rights.* (a) The Commission hereby delegates authority to agencies:

(1) To promote, demote, or reassign (i) any permanent employee having a competitive status and serving in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service), and (ii) any employee serving under an excepted appointment which he received (without a break in service of a full work day) after service in a position with a competitive status, provided he had completed at least six months of the probationary period before receiving the excepted appointment.

(2) To promote, demote, or reassign on an indefinite basis any status quo employee.

(3) To transfer without reemployment rights (i) any permanent employee having a competitive status and serving in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service), and (ii) any employee serving under an excepted appointment which he received (without a break in service of a full work day) after service in a position with a competitive status, provided he had completed at least six months of the probationary period before receiving the excepted appointment: *Provided*, That this authority shall not be used in the case of any transfer from a nondefense to a defense activity which can be effected with reemployment rights under § 8.204. Such actions shall be taken in accordance with the standards of the Commission.

(b) The indefinite appointment without reemployment rights of any permanent employee having a competitive status and serving in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service) which was made on or after November 1, 1951, under former § 7.105 (a) (2) of this chapter, without a break in service of one work day, is hereby converted to a transfer without reemployment rights under this section.

(c) The Commission may disapprove any promotion, demotion, reassignment, or transfer, or suspend or withdraw this authority whenever, after post-audit, it finds that the regulations in this subpart have not been followed.

* * * * * *

§ 8.204 *Agency authority and general requirements for transfer or appointment with reemployment rights*—(a) *Filling competitive positions.* The Commission hereby delegates authority to agencies, whenever the conditions of § 8.203 are met, to employ with reemployment rights permanent employees of another agency as follows:

(1) By transfer, (i) any permanent employee having a competitive status and serving in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service), and (ii) any employee serving under an excepted appointment which he received (without a break in service of a full work day) after service in a position with a competitive status, provided he had completed at least six months of the probationary period before receiving the excepted appointment. The indefinite appointment with reemployment rights of any permanent employee having a competitive status and serving in a competitive position (or in an excepted position to which he was appointed in accordance with the Commission's regulations for the competitive service) which was made on or after November 1, 1951, under former § 8.115 (a) without a break in service of one work day, is hereby converted to a transfer with reemployment rights under this section.

(2) By indefinite appointment, any permanent employee without competitive status serving in an excepted position, and any status quo employee.

(b) *Filling excepted positions.* In the discretion of the agency, any position excepted from the competitive service may be filled by appropriate excepted appointment, or by transfer or appointment in accordance with the Commission's regulations for the competitive service. Any permanent employee who is so transferred or appointed in an excepted position without a break in service of one work day shall be entitled to reemployment rights in his original agency when such appointment or transfer meets the conditions of § 8.203 for granting reemployment rights.

(c) *Standards and promotion restrictions.* All transfers and appointments under this section to competitive positions shall be made in accordance with the standards of the Commission and shall be subject to the restrictions of § 8.109.

(d) *Post-audit.* The Commission may disapprove any such transfer or appointment to a competitive position or suspend or withdraw this authority whenever, after post-audit, it finds that the regulations in this subpart have not been followed.

(e) *Probationary or trial period.* Persons transferred or appointed under this section to competitive positions shall not be required to serve a new probationary or trial period. However, the transfer of any employee during his probationary period shall be subject to completion of such period.

(f) *Within-grade salary steps.* Persons serving under such transfers or indefinite appointments are eligible for within-grade salary-step increases in the same manner as provided in § 2.115 (c) of this chapter.

PART 502—RULES OF PROCEDURE FOR CLAIMS

Part 502 specifies the rules of procedure for claims before the Office under sections 9 (a), 32, and 34 of the Trading With the Enemy Act, as amended. It is being amended to delegate to the Hearing Examiners authority to hear claims under section 9 (a); to clarify the pre-hearing conference procedure; to specify what evidence may be admissible to authorize the Hearing Examiners to correct clerical and ministerial errors in their decisions; to permit summary dismissal of claims where there is no objection by the claimant. In other cases the language has been revised to remove ambiguities and duplication. Since these rules relate solely to procedure, notice and hearing on the amendments are unnecessary.

§ 502.2 *Definitions.* As used in this part, unless the context otherwise requires:

(a) The term "act" means the Trading With the Enemy Act, as amended. The term "section" refers to a section of the act.

(b) The term "Office" means the Office of Alien Property.

(c) The term "rules" means the rules of the Office set forth in this part.

(d) The term "Director" means the Director, Office of Alien Property, or other person duly authorized to perform his functions.

(e) The term "title claim" means a claim under sections 9 (a) or 32.

(f) The term "debt claim" means a claim under section 34.

(g) The term "claim" refers to a title claim or a debt claim and shall include the Notice of Claim form, any amendment thereto, and such other material as may have been filed by the claimant with respect to the claim.

(h) The term "claimant" means the person in whose behalf a claim is filed.

(i) The term "claim proceeding" means the administrative processing of a claim and includes the claim.

(j) The term "parties" includes the claimant and the Chief of the Claims Branch.

(k) The term "vested property" means any property or interest vested in or transferred to the Attorney General of the United States pursuant to the act (other than any property or interest so acquired by the United States prior to December 18, 1941), or the net proceeds thereof.

(l) The term "filing" means receipt by the Office or appropriate officer or employee thereof.

(m) The term "Chief Hearing Examiner" refers to the hearing examiner designated as such by the Director.

(n) The term "docketed claim" means a claim which has been referred by the Director or the Chief of the Claims Branch to the Chief Hearing Examiner for hearing and has been given a docket number.

(o) The term "hearing" means the proceedings upon a docketed claim.

§ 502.3 *Indispensable party.* The Chief of the Claims Branch shall be a necessary party in all claim proceedings.

§ 502.4 *Appearance.*[1] (a) A claimant may appear in a claim proceeding in person or may be represented by an agent, attorney in fact or at law. A member of a partnership may represent the partnership; an officer of a corporation, trust or association may represent the corporation, trust or association, and an officer or employee of a federal, state or territorial agency, office or department may represent the agency, office or department.

(b) Any person appearing in a claim proceeding in a representative capacity may be required to file a power of attorney showing his authority to act in such capacity.

§ 502.5 *Intervention.* Any person who claims to have a substantial interest in a docketed claim proceeding may file a specification of such interest in writing with the Hearing Examiner after serving a copy thereof upon the parties. Upon a finding by the Hearing Examiner that the petitioner has a substantial interest which may be adversely affected by the proceeding he may authorize the petitioner to participate in the proceeding upon such conditions as may be imposed.

§ 502.6 *Forms.* (a) Claims shall be filed on forms authorized or prescribed by the rules of this Office.

(b) Subject to the provisions of sections 33 and 34 (b) of the act, the Director or the Chief of the Claims Branch may expressly waive the requirement of paragraph (a) of this section.

NOTE: Section 501.80 of this chapter prescribes forms for use in filing claims. Section 501.50 (d) of this chapter provides that when allowance of a claim under the act is dependent on issuance of a license under Executive Order 8389, 3 CFR, 1943 Cum. Supp., as amended, the filing of a claim is deemed to include an application for a requisite license.

§ 502.7 *Amendment and withdrawal of claim.* (a) Subject to the provisions of sections 33 and 34 (b) of the act, the claimant may amend his claim prior to hearing, or after the opening of a hearing in a claim proceeding, by consent of the Chief of the Claims Branch or as allowed by the Hearing Examiner or the Director.

(b) The claimant may at any time withdraw his claim by notice in writing to that effect.

§ 502.8 *Order for hearing.* The Director, or the Hearing Examiner in any docketed claim proceeding, may issue an order for hearing. In fixing the time for hearing, due regard shall be given to the status of the claim proceeding and the convenience of the parties. The order shall specify the time, place, and nature of the hearing. The order shall be served on all parties a reasonable time, but not less than ten (10) days, in advance of the hearing, unless the parties shall agree to a shorter time.

§ 502.9 *Designation of Hearing Examiner.* Prior to hearing, a Hearing Examiner shall be designated by the Chief Hearing Examiner.

§ 502.10 *Removal of a claim proceeding and hearing by the Director.* The Director may personally conduct a hearing and may exercise the other functions appropriate to the Hearing Examiner. The Director, at any stage of a claim proceeding before a Hearing Examiner, may remove the claim proceeding from the Hearing Examiner. Decisions of the Director under this section shall first be issued in tentative form.

§ 502.11 *Pre-hearing conferences.* (a) At any time after a claim has been docketed with the Chief Hearing Examiner and prior to hearing, the Hearing Examiner may arrange for the parties to appear before him at a designated time and place for the purpose of determining the issues between the parties and obtaining admissions or stipulations with respect to any matters, records, or documents which will be relied upon by any party at the hearing.

[1] CROSS REFERENCE: For limitations on representative activities, see § 505.60 of this chapter. For powers of attorney, see § 505.1 (d) of this chapter.

(b) At the conclusion of the conference, the Hearing Examiner shall prepare an order setting forth the issue or issues to be determined at the hearing and describing the matters, records, or documents which the parties have admitted or stipulated. Such order shall be presented to each of the parties for their approval and when approved by them shall be made a part of the record in the claim proceeding and shall be conclusive as to the action embodied therein.

§ 502.12 *Consolidation of claims.* The Director, the Chief Hearing Examiner, or the designated Hearing Examiner, may, where such action will expedite the disposition of claims and further the ends of justice, consolidate docketed claims.

§ 502.13 *Hearings.* (a) All hearings, except hearings before the Director, shall be conducted by a Hearing Examiner. At any time prior to hearing, a Hearing Examiner may be designated to take the place of the Hearing Examiner previously designated to conduct the hearing. In the case of the death, illness, disqualification or unavailability of the Hearing Examiner presiding in any claim proceeding, another Hearing Examiner may be designated to take his place. Hearing Examiners shall, so far as practicable, be assigned to cases in rotation.

(b) The Hearing Examiner may withdraw from a case when he deems himself disqualified or he may be withdrawn by the Director after affidavits alleging personal bias or other disqualifications have been filed with the Director and the matter has been considered by the Director or by a Hearing Examiner upon referral by the Director.

(c) Hearings shall be open to the public unless otherwise ordered by the Director or the Hearing Examiner.

(d) Except as provided by the rules of this Office, including this part, Hearing Examiners presiding at hearings shall have the hearing powers set forth in section 7 (b) of the Administrative Procedure Act.

(e) Hearing Examiners shall act independently in the performance of their duties as examiners and perform no duties inconsistent with their duties and responsibilities as examiners. Save to the extent required for the disposition of ex parte matters, no Hearing Examiner shall consult any person or party as to any fact in issue unless upon notice and opportunity for all parties to participate.

(f) The claimant shall be the moving party and shall have the burden of proof on all the issues involved in the claim proceeding. The claimant shall proceed first at the hearing.

(g) A presumption of the accuracy and the validity of the findings in a vesting order as to ownership of the property immediately prior to vesting shall be operative in all claims. Such findings shall be deemed accurate and valid unless contested or put in issue by a party, in which event such party shall have the burden of proving his allegations as to ownership of the property involved immediately prior to vesting.

(h) Any party and the Hearing Examiner shall have the right and power to call, examine and cross-examine witnesses, and to introduce into the record documentary or other evidence.

(i) In a claim proceeding, the rules of evidence prevailing in courts of law and equity shall not be controlling. However, it shall be the policy to exclude irrelevant, immaterial or unduly repetitious evidence.

(j) Any record, document or other writing, or any portion thereof, from the files of any foreign industrial, business or commercial enterprise, or from the official files of a foreign government, or any subdivision or agency thereof, shall, if otherwise relevant, be admissible in evidence in a claim proceeding as competent evidence of the matters therein contained, when authenticated by a certificate of an investigator of this Office or any other agency of the United States, or by a duly designated representative of the allied military or civilian authority of occupation, stating that such record, document or other writing came from the files of such enterprise, or from the official files of such foreign government. All circumstances in the making of such record, document or writing, as well as the lack of opportunity for cross-examination, shall be considered by the Director or the Hearing Examiner in determining its weight, but shall not affect its admissibility. A copy of such record, document or writing shall be equally admissible as the original when accompanied by a certificate of any of the persons hereinabove designated, stating that it conforms to the original. The methods of authentication provided for in this rule shall be in addition to, and not exclusive of, other methods of authentication.

(k) All investigative reports, affidavits, or other written statements of persons that reside at a distance of more than 100 miles from the place of a hearing or are otherwise unavailable as witnesses, when signed by an investigator of this Office or any other agency of the United States, or by the person making such affidavit or statement, shall be accepted as evidence and made a part of the record in a claim proceeding. All circumstances in the making of such investigative report, affidavit, or other written statement, as well as the lack of opportunity for cross-examination, shall be considered by the Director or the Hearing Examiner in determining its weight, but shall not affect its admissibility. A copy of any investigative report shall be equally admissible as the original when accompanied by a statement of an official of this Office or other agency of the United States that it is a copy of such report.

(l) In the discretion of the Hearing Examiner, the hearing may be adjourned from day to day or adjourned to a later date or to a different place by announcement thereof at the hearing by the Hearing Examiner or by appropriate notice.

(m) In the discretion of the Hearing Examiner, any witness may be excluded until he is called upon to testify. Contemptuous conduct at any hearing before a Hearing Examiner shall be ground for exclusion from the hearing. Failure or refusal of a witness to appear at any such hearing or to answer any question which has been ruled to be proper may be ground for the striking out of all testimony which may have been previously given by such witness on related matters.

(n) Hearings shall be stenographically reported by a reporter designated by the Director or Chief Hearing Examiner and a transcript of such report shall be a part of the record and the sole official transcript of the proceeding. Such transcript shall include a verbatim report of the hearings. Nothing shall be omitted therefrom except as directed on the record by the Director or the Hearing Examiner. Corrections in the official transcript may be made with the consent of the Hearing Examiner to make it conform to the evidence presented at the hearing. Parties desiring copies of the transcript may obtain such copies from the official reporter upon payment of the fees fixed therefor.

(o) Hearings may be waived by the parties and the claim submitted to the Hearing Examiner, or to the Director, with his consent, on a stipulated record or an agreed statement of facts.

§ 502.14 *Witnesses.* (a) Witnesses shall be examined orally under oath or affirmation, except that for good cause testimony may be taken by deposition.

(b) Witnesses summoned before the Director or the Hearing Examiner shall be paid the same fees and mileage which are paid witnesses in the Courts of the United States. Witness fees and mileage shall be paid by the party at whose instance the witnesses appear.

§ 502.15 *Subpoenas.* (a) The Director, or in the case of any docketed claim the Chief Hearing Examiner or the Hearing Examiner, shall upon application by any party, and upon a showing of general relevance and reasonable scope of the evidence sought, issue subpoenas requiring the attendance and testimony of witnesses and the production of evidence under oath, including books, records, correspondence or documents. Application for the issuance of subpoenas duces tecum shall specify the books, records, correspondence or other documents sought.

(b) The Director, Chief Hearing Examiner or the Hearing Examiner, before issuing any subpoena, may require a deposit of an amount adequate to cover the fees and mileage involved.

§ 502.16 *Depositions.* (a) Any party desiring to take a deposition shall make application therefor in writing, setting forth the reasons why such deposition should be taken, the name and residence of the witness, the matters concerning which it is expected the witness will testify, and the time and place proposed for the taking of the deposition. Thereupon, the Director, or in the case of a docketed claim the Chief Hearing Examiner or the Hearing Examiner, may, in his discretion, issue an order which will name the witness whose deposition is to be taken, state the scope of the testimony to be taken and specify the

time when, the place where, and the officer before whom the witness is to testify. Such order shall be served upon all parties by the Director, the Chief Hearing Examiner, or the Hearing Examiner, as the case may be, a reasonable time in advance of the time fixed for taking testimony.

(b) The testimony shall be taken under oath or affirmation and shall be reduced to writing by the officer or under his direction, after which the deposition shall be subscribed by the witness and certified by the officer.

(c) Depositions may also be taken and submitted on written interrogatories in substantially the same manner as depositions taken by oral examination. When a deposition is taken upon written interrogatories and cross-interrogatories, none of the parties shall be present or represented, and no person, other than the witness, a stenographic reporter, and the officer shall be present at the examination of the witness, which fact shall be certified by the officer, who shall propound the interrogatories and cross-interrogatories to the witness in their order and reduce the testimony to writing in the witness' own words.

(d) Where the deposition is taken in a foreign country and the officer designated in the authorization is unavailable, it may be taken before a secretary of an embassy or legation, consul general, consul, vice consul, or consular agent of the United States, or before such person as may be agreed upon by the parties stipulating in writing.

(e) A witness whose deposition is taken pursuant to the rules in this part and the officer taking the deposition, unless he be employed by the Office, shall be entitled to the same fee and mileage paid for like service in the Courts of the United States, which fee shall be paid by the party at whose instance the deposition is taken, who may be required to deposit in advance an amount adequate to cover the fees and mileage involved.

§ 502.17 *Documents in a foreign language.* Every document, exhibit or paper written in a language other than English, which is filed in any claim proceeding, shall be accompanied by complete English translation thereof duly verified to be a true and accurate translation. Each copy of every such document, exhibit or paper filed shall be accompanied by a separate copy of the translation. For good cause verification may be waived. If a document, exhibit or paper in a foreign language is offered in evidence at a hearing any dispute as to the accuracy of the translation thereof shall be determined as is any other issue of fact.

§ 502.18 *Motions.* (a) All motions and requests for rulings addressed to the Director, Chief Hearing Examiner or the Hearing Examiner shall state the purpose of and the relief sought, together with the reasons in support thereof.

(b) All motions and requests for rulings made during a hearing in a claim proceeding may be stated orally and shall be made a part of the transcript.

(c) Motions and requests which relate to the introduction or striking of evidence, or which relate to procedure during the course of a hearing, or to any other matters within the authority of the Hearing Examiner, may be stated orally and shall be ruled on by the Hearing Examiner. No exception need be taken to any ruling in order to entitle a party thereafter in the claim proceeding to assign the ruling as error.

§ 502.19 *Withdrawal of papers.* (a) No paper, document or claim officially filed shall be returned unless the Director shall allow such return. The granting of a request to dismiss a claim or withdraw a paper, document or claim does not authorize the removal of the paper, document or claim from the records of the Office.

(b) Where the original of a record, document or other paper is offered in evidence at a hearing a photostatic or conformed copy thereof may be substituted during the course of the hearing with the approval of the Hearing Examiner.

§ 502.20 *Oral argument.* The Director or the Hearing Examiner, as the case may be, may grant to any party at the close of a hearing a reasonable period for oral argument and such argument may, with the consent of the hearing officer, be included in the stenographic report of the hearing.

§ 502.21 *Proposed findings and conclusions.* (a) At the close of the reception of evidence before the Hearing Examiner or within a reasonable time thereafter, to be fixed by the Hearing Examiner, any party may, and if directed by the Hearing Examiner shall, submit to the Hearing Examiner proposed findings and conclusions together with a brief in support thereof. Such proposals shall be in writing and shall contain appropriate references to the record. Copies thereof shall be served on all parties. Reply briefs may be filed with the permission of the Hearing Examiner within a reasonable time, to be fixed by him. As far as practicable, the procedure shall be followed of having claimant's brief filed first, followed by the brief of the Chief of the Claims Branch, with any reply briefs filed in the same order.

(b) The decision shall be made by the Hearing Examiner who presided at the hearing except in the case of the death, illness, disqualification, or unavailability of the Hearing Examiner who presided at the hearing. In such case the decision shall be made by the Director or by another Hearing Examiner designated by the Director. When the decision is made by the Director, it shall first be issued in tentative form.

§ 502.22 *Hearing Examiner's decision.* (a) The Hearing Examiner, as soon as practicable after receipt of the complete transcript, all exhibits and briefs, shall make a decision which shall become a part of the record and include a statement of: (1) Findings and conclusions as well as the reasons or basis therefor upon all the material issues of fact, law, or discretion presented on the record; (2) an appropriate order.

(b) At any time prior to the filing of his decision, the Hearing Examiner may, for good cause, re-open the case for the reception of further evidence.

(c) A copy of the Hearing Examiner's decision shall be served upon each party.

(d) Unless review has been undertaken in accordance with § 502.23 or unless an objection has been filed pursuant to § 502.202 (d), the decision of the Hearing Examiner shall be final and shall be the decision of this Office. For purposes of judicial review under the act, no order of a Hearing Examiner shall be considered a final decision of the Office unless the claimant has undertaken review thereof pursuant to § 502.23.

(e) At any time prior to the filing of a petition for review or appeal from an order of a Hearing Examiner and if the time for filing such petition or appeal has not expired pursuant to § 502.23, the Hearing Examiner shall have authority to amend, modify, or vacate orders issued by him, to the extent that such amendment, modification, or vacation may be desirable to correct typographical or procedural errors or to make purely ministerial changes therein, but not otherwise.

§ 502.23 *Review of the Hearing Examiner's decision*—(a) *In title claims proceedings.* Within thirty (30) days after service of a copy of the Hearing Examiner's decision, any party seeking review thereof shall petition the Director to review such decision. Such petition shall state the objections to the decision of the Hearing Examiner and the reasons in support of such objections. Within thirty (30) days after the filing of such petition, any party opposing the petition for review may file a memorandum to such effect. If the petition for review is granted, briefs may be filed within a time fixed by the Director, and the Director, within his discretion, may permit oral argument.

(b) *In debt claims proceedings and in proceedings concerning fees under section 20.* Within thirty (30) days after service of a copy of the Hearing Examiner's decision, any party seeking appeal thereof shall file such appeal with the Director. The Director shall fix a time for the filing of briefs and may within his discretion permit oral argument.

The provisions of this section shall apply to decisions of the Hearing Examiner upon motions to dismiss under § 502.25.

§ 502.24 *Waiver by the Director.* The Director may, with the consent of the parties, waive any of the requirements of this part when, in his opinion, the ends of justice would thereby be served.

§ 502.25 *Motion to dismiss.* (a) Motion to dismiss any claim may be made by the Chief of the Claims Branch, which motion shall be in writing and shall state the reasons in support thereof and may be accompanied by supporting documents. The Chief of the Claims Branch shall obtain from the Chief Hearing Examiner a date and place of hearing. Thereupon the Chief of the Claims Branch shall serve a copy of the motion, together with a notice of the date and place of hearing, upon all

parties, and shall docket the motion and statement of service with the Chief Hearing Examiner.

(b) Hearing on the motion shall be held at the time and place specified in the notice, or at such other time and place as may be fixed by the Hearing Examiner.

(c) The claimant shall file any affidavits, papers or documents in opposition to the motion with the Hearing Examiner, after service upon the Chief of the Claims Branch, not later than five (5) days prior to the date of hearing.

(d) Briefs may be submitted within the time fixed by the Hearing Examiner.

(e) Hearing before a Hearing Examiner may be waived by the parties and, with the consent of the Director, the matter submitted to him for decision.

(f) Motion to dismiss a claim shall be granted when it appears that there is no genuine issue as to any material fact and the claim cannot be allowed as a matter of law or when the claim has been abandoned.

(g) A claim shall be deemed abandoned when after request to do so the claimant has not furnished relevant information in support of his claim, or where by virtue of his failure to respond to inquiries regarding the claim it appears that he does not wish to pursue it further. The Hearing Examiner may on his own motion dismiss a docketed claim as abandoned when the claimant fails to produce any information or document ordered so produced by the Hearing Examiner.

(h) Unless review has been undertaken in accordance with § 502.23, the decision of the Hearing Examiner upon the motion shall be final and shall be the decision of this Office.

(i) Notwithstanding the provisions of this section, the Chief of the Claims Branch may serve a notice upon the claimant that he will apply to the Director for an order dismissing the claim unless objection is filed within the time specified in the notice, which time shall not be less than thirty (30) days. If no such objection is filed, the Director may enter an order dismissing the claim.

§ 502.26 *Service—(a) By the Chief Hearing Examiner.* Decisions, notices of hearing, and final orders shall be served by the Chief Hearing Examiner by registering and mailing a copy thereof to the parties, addressed to the claimant, his agent or attorney. Notices of all other actions may be served by ordinary mail, except where other methods are specifically required by the rules of this part. When service is not made by registered mail, it may be made by anyone duly authorized by the Chief Hearing Examiner by delivering a copy thereof at the principal place of business of the party to be served within reasonable office hours. The return of the person making service shall be proof of such service.

(b) *By the Chief of the Claims Branch.* Service by the Chief of the Claims Branch of a notice of the date and place of hearing of a motion or of a notice pursuant to § 502.25 (i) shall be by registered mail.

(c) *By the Director.* Any action taken by the Director in a claim proceeding shall be served by the Director in the manner provided in paragraph (a) of this section.

(d) *By parties.* Motions, briefs, proposed findings and conclusions, notices and all other papers filed in a claim proceeding, when filed with the Director or Hearing Examiner, shall show service thereof upon the parties to the claim proceeding. Such service shall be made by delivering in person or by mailing except as otherwise provided by the rules of this part.

(e) *Service upon attorneys or agents.* When any party has appeared by attorney or agent, service upon the attorney or agent shall be deemed service upon the party.

(f) *Date of service.* The date of service shall be the day when the matter is deposited in the United States mail or delivered in person, as the case may be.

§ 502.27 *Computation of time.* In computing any period of time prescribed or allowed by this part, the last day of the period so computed is to be included, unless it is a Saturday, Sunday or legal holiday, in which event the period runs until the end of the last day which is neither a Saturday, Sunday nor legal holiday.

§ 502.28 *Continuances and extensions.* Continuance with respect to any claim proceeding or hearing and extension of time for filing, or performing any act required or allowed to be done within a specified time, may be granted by the Director, Chief Hearing Examiner or the Hearing Examiner upon motion, for good cause shown, except where time for performance or filing is limited by the act.

§ 502.29 *Fees.* The fee determination required by section 20 of the act shall be made by the Director upon recommendation of the Chief of the Claims Branch except that the Chief of the Claims Branch may docket any issue as to a fee determination for hearing by a Hearing Examiner. If the Director shall disagree with the recommendation of the Chief of the Claims Branch, the matter shall be remanded to the Chief of the Claims Branch for hearing or such other action as may be appropriate. At any such hearing the parties and their counsel shall have the right to offer evidence and oral and written argument. The review provisions of § 502.23 (b) shall be applicable to the decision of the Hearing Examiner with respect to fees.

§ 502.30 *Filing of debt claims by depositors of Yokohama Specie Bank, Ltd., Honolulu Branch.* Notices of Claim for Return of Property heretofore filed by depositors of the Yokohama Specie Bank, Ltd., Honolulu Branch, in respect of principal and interest accruing to the date of the closing of said bank on December 7, 1941, shall be considered as including Notices of Claim for Payment of Debt under section 34 of the act covering interest accruing subsequent to the closing of said bank. Releases and receipts executed by such claimants on account of return orders issued in connection with their Notices of Claim for Return of Property shall not be a bar to the allowance of their debt claims for post-closing interest in the event the Director subsequently determines that such post-closing interest is payable. The foregoing shall not be construed as a present determination by the Director as to the validity of such debt claims. (E. O. 9567, June 8, 1945, 10 F. R. 6917; 3 CFR, 1945 Supp.).

§ 502.31 *Filing of claim as condition precedent to suit.* The filing, heretofore or hereafter, of a claim under section 32 of the act shall constitute the filing of notice required by section 9 of the act as a condition precedent to the filing of a suit in equity for the return of property vested in or transferred to the Attorney General of the United States pursuant to the act.

§ 502.32 *Effect of disallowance of claim in determining period of limitations for filing suit.* The final disallowance under the rules of this part of any claim for the return of property filed under the act shall constitute a disallowance for the purpose of determining the period of limitations, prescribed in section 33 of the act, within which a suit pursuant to section 9 of the act may be instituted.

SUBPART B—TITLE CLAIMS

§ 502.100 *Definitions.* As used in §§ 502.100 to 502.110, applicable solely to title claims, unless the context otherwise requires:

(a) The term "taxes" refers to taxes as defined under section 36 (d) of the act.

(b) The term "national interest" means the interest of the United States under section 32 (a) (5) of the act.

(c) The term "conservatory expenses" means expenses expended or incurred in the conservation, preservation or maintenance of vested property.

§ 502.101 *Order of processing.* Except in cases where hardship or other special circumstances exist, claims shall be processed, as nearly as practicable, in the order of their filing.

§ 502.102 *Procedure for allowance without hearing.* (a) The Chief of the Claims Branch may initiate a proceeding for allowance of a claim, or a separable part thereof, which he deems entitled to allowance without the necessity of a hearing thereon, by submitting to the Director a recommendation for allowance.

(b) The record in a claim proceeding under this procedure shall include the Notice of Claim, the evidence with respect thereto, and the recommendation for allowance.

(c) The Director shall consider the record and may allow the claim.

(d) If the Director shall disagree with the recommendation of the Chief of the Claims Branch, the claim shall be remanded to the Chief of the Claims Branch for hearing or such other action as may be appropriate.

(e) A claim under this procedure may be allowed notwithstanding the fact that the Chief of the Claims Branch makes no recommendation with respect to taxes or conservatory expenses. However, no return will be made prior to a determination of such matters and adequate provision made therefor.

§ 502.103 *Requirement for hearing.* No claim shall be allowed or disallowed except after hearing, unless the claim has been determined pursuant to § 502.25 (i), §502.102 or §502.105.

§ 502.104 *Hearing calendar.* The Chief Hearing Examiner shall maintain a hearing calendar and docket of all docketed claim proceedings.

§ 502.105 *National interest.* (a) Whenever it appears to the satisfaction of the Director that a return of vested property is not in the national interest pursuant to section 32 (a) (5) of the act, he may (1) by order disallow the claim by citation of this section or (2) by order suspend, for a fixed or indefinite time, further action by the Office in the claim proceeding by citation of this section.

(b) The Director may direct with respect to any question of fact relating to national interest, that a hearing be held before himself, a Hearing Examiner or such other person or persons as he may designate. In such a hearing the hearing officer or officers shall prepare recommended findings of fact only, which shall be submitted to the Director with a transcript of the hearing.

§ 502.106 *Publication of notice of intention to return vested property.* In compliance with section 32 (f) of the act, prior to the return of vested property, the Director will issue and file for publication with the FEDERAL REGISTER a notice of intention to return vested property, except that no such notice need be published where the return is to be made to a resident of the United States or a corporation organized under the laws of the United States, or any State, Territory, or possession thereof, or the District of Columbia.

§ 502.107 *Revocation of notice of intention to return vested property.* (a) The notice of intention to return vested property may be revoked by the Director at any time prior to return.

(b) Notice of such revocation shall be served on the parties and filed for publication with the FEDERAL REGISTER.

§ 502.108 *Return order.* Where no notice of intention to return vested property has been issued, an order directing return will issue at the time the claim is allowed or as soon thereafter as practicable. Where notice of intention to return vested property has been issued, an order directing return will issue as soon as practicable after the expiration of thirty (30) days following the publication of the notice, except where the notice has been revoked in accordance with § 502.107.

§ 502.109 *Final audit.* Prior to making full and final return of property pursuant to a return order, a final audit with respect to the property involved will be made. Any transactions occurring in the administration of such property shall be given effect in determining the actual amount of cash and other property to be returned pursuant to the return order.

§ 502.110 *Return of vested property.* After issuance of the return order, completion of the final audit and final administrative determination with respect to taxes, fees and conservatory expenses, appropriate instruments and papers will issue returning the property claimed. The claimant receiving such property shall execute papers in such form as the Director shall determine, acknowledging receipt of the property returned.

SUBPART C—DEBT CLAIMS

§ 502.200 *Definitions.* As used in §§ 502.200 to 502.205 applicable solely to debt claims, unless the context otherwise requires:

(a) The term "vested property of a debtor" means property of a debtor which he owned immediately prior to its becoming vested property.

(b) The term "money available for payment of claims" means such money included in, or received as net proceeds from the sale, use, or other disposition of vested property of a debtor as shall remain after deduction of expenses and taxes.

(c) The term "expenses" means the amount of the expenses of the Office of Alien Property, the former Office of Alien Property Custodian, and the former Philippine Alien Property Administration, including both expenses in connection with vested property of the debtor involved and such portion as the Director shall fix of the other expenses of these agencies, and such amount, if any, as the Director may establish as a cash reserve for the future payment of such expenses.

(d) The term "taxes" means taxes as defined in section 36 (d) of the act, and includes taxes paid by the Director in respect of vested property of the debtor involved and such amount, if any, as the Director may establish as a cash reserve for the future payment of such taxes.

(e) The term "debtor's solvent estate" means money available for payment of claims which money at the time of computation exceeds the aggregate of claims filed against a particular debtor.

(f) The term "debtor's insolvent estate" means money available for payment of claims which money at the time of computation is less than the aggregate of claims filed against a particular debtor.

(g) The term "proposed payment" refers to payment proposed to be made to claimants whose claims against a debtor's insolvent estate have been allowed in whole or in part.

§ 502.201 *Procedure for allowance and payment without hearing of claims against debtors' solvent estates.* (a) With respect to claims against debtors' solvent estates, the Chief of the Claims Branch may initiate a proceeding for allowance of a claim, or a separable part thereof, which he deems entitled to allowance, without the necessity of a hearing thereon, by submitting to the Director a recommendation for allowance.

(b) The record in a claim proceeding under this procedure shall include the Notice of Claim, the evidence with respect thereto and the recommendation for allowance.

(c) The Director shall consider the record and may allow the claim.

(d) If the Director shall disagree with the recommendation of the Chief of the Claims Branch, the claim shall be remanded to the Chief of the Claims Branch for hearing or such other action as may be appropriate.

§ 502.202 *Claims against debtors' insolvent estates.* (a) Notices of claims filed with this Office against a particular debtor's insolvent estate shall be available for inspection by all claimants in respect of such estate in accordance with the provisions of § 503.1 (b) of this chapter.

(b) With respect to claims against a particular debtor's insolvent estate, the Chief of the Claims Branch may submit to the Director a recommendation for allowance of any claim, or a separable part thereof, which he deems entitled to allowance. The record shall include the Notice of Claim, the evidence with respect thereto and the recommendation for allowance. The Director shall consider the record and may allow the claim. If the Director shall disagree with the recommendation of the Chief of the Claims Branch, the claim shall be remanded to the Chief of the Claims Branch for hearing or such other action as may be appropriate.

(c) Where the Chief of the Claims Branch concludes for any reason that he cannot recommend allowance of a claim against a particular debtor's insolvent estate, the claim may be docketed for hearing. At such hearing, any other claimant against the particular debtor's insolvent estate may file an application to be heard in accordance with the provisions of § 502.5. The decision of a Hearing Examiner with respect to the claim is subject to appeal in accordance with the provisions of § 502.23.

(d) The Director shall consider the recommendations for allowance submitted by the Chief of the Claims Branch and any appeals from decisions of a Hearing Examiner in respect of a claim against a particular debtor's insolvent estate and may issue a tentative schedule showing all debt claims proposed to be allowed by him with the priorities assigned thereto and the payment to be made to each claimant. Notice of the issuance of the tentative schedule shall in the manner provided by § 502.26 be served on all claimants in respect of the particular debtor's estate, whose claims are then pending, together with notice that objections to such tentative schedule may be filed within the period prescribed in the notice, which period shall not be less than thirty (30) days. The tentative schedule shall be made available for inspection at the Office of Alien Property, Washington, D. C. With the consent of all claimants, the tentative schedule may be omitted.

(e) The Director shall consider any objection to the tentative schedule that may have been timely filed, and may (1) modify or affirm the tentative schedule, (2) remand any claims listed therein to the Chief Hearing Examiner for rehearing, or (3) take such other action as may be appropriate. As soon thereafter as appropriate, the Director shall as re-

by the Director in a claim proceeding to the allowance of their debt claims vision made therefor.

quired by section 34 (f) of the act prepare and serve by registered mail on all claimants in respect of a particular debtor's insolvent estate, a final schedule of the debt claims allowed, with the priorities assigned thereto, and the proposed payment to each claimant.

(f) The Director may issue a tentative schedule and a final schedule limited to claims, payment of which, in accordance with the priorities assigned thereto by the Director pursuant to the provisions of section 34 (g) of the act, would not adversely affect the payment of any other claim in respect of the particular debtor's insolvent estate.

§ 502.203 *Requirement for hearing.* No claim shall be allowed or disallowed except after hearing, unless the claim has been determined pursuant to § 502.25 (i), § 502.201 or § 502.202.

§ 502.204 *Payment of allowed claims.* As soon as practicable after the allowance of a claim, in whole or in part, the claim will be paid to the extent allowed: *Provided, however, That* with respect to claims against a debtor's insolvent estate, pending determination of any complaint for review filed under section 34 (f) of the act, payment may be made only to an extent, if any, consistent with the contentions of all claimants for review.

§ 502.205 *Future payments.* If additional monies become available for the payment of claims after the first payment on allowed claims in respect of a debtor's insolvent estate, the Director shall order further payments in accordance with the final schedule theretofore issued by him, or as modified on review under section 34 (f) of the act.

SUBPART D—GENERAL CLAIMS

§ 502.300 *General claims.* All claims against the Attorney General of the United States relating to the Office of Alien Property or against his predecessors, the Alien Property Custodian and the Philippine Alien Property Administrator, other than title and debt claims as defined in § 502.2 (e) and (f) and claims arising out of the seizure by or transfer to the Alien Property Custodian of property prior to December 18, 1941, shall be known as "general claims" under this part. Unless forms have been prescribed or authorized for the filing or assertion thereof, general claims may be filed or asserted by letter addressed to the Director of the Office of Alien Property containing a statement of the details of the claim.

Executed at Washington, D. C., on December 24, 1952.

PART 507—PATENTS, TRADE-MARKS AND COPYRIGHTS

MISCELLANEOUS AMENDMENTS

In order to restate in more current form the scope of restrictions covering copyright property of former enemy countries and nationals thereof, and to effect a further release of present restrictions with respect to some classes of such property, there are prescribed certain amendments as set forth below. Since no additional requirements are imposed on the public, it is hereby found that notice, hearing and suspension of applicability are unnecessary.

1. Sections 507.51, 507.56 and 507.60 of this chapter contain various prohibitions and conditions with respect to copyright property of Germany, Japan, and nationals thereof. These sections are now to be revoked and in lieu thereof new sections, designated §§ 507.70 and 507.71, are prescribed, which continue prohibitions and conditions only with respect to copyright property of Germany or nationals thereof. Copyright property of the Federal Republic of Germany and residents of Western Germany produced on or after January 1, 1947, and copyright property of all other foreign countries and nationals thereof, including Japan and nationals of Japan, is no longer subject to any prohibitions or conditions, regardless when produced. These sections have no applicability to copyright property title to which is in the Attorney General. Prohibitions with respect to such property are set forth in § 505.1 (a) of this chapter. Accordingly, §§ 507.51, 507.56 and 507.60 are revoked, §§ 507.70 and 507.71 are added to read as follows:

§ 507.70 *Works subject to copyright of Germany and nationals thereof.* (a) The execution of, or the recording of, any assignment, grant, encumbrance, license, or other agreement affecting any interest with respect to any work, or rights or interests therein or related thereto, owned by Germany or any national thereof is prohibited, unless authorized by or on behalf of the Attorney General or the Director, Office of Alien Property.

(b) Notwithstanding the provisions of paragraph (a) of this section there are hereby authorized:

(1) The execution of, or the recording of, any application for copyright or renewal thereof under the copyright laws of the United States by Germany or any national thereof with respect to any such work; and

(2) All transactions, including the payment or receipt of funds or credits with respect to such transactions, relating to works first published after December 31, 1946, and owned by the Federal Republic of Germany or by any national of Germany who at the time of any transaction authorized by this section is domiciled in the Federal Republic of Germany or in the United States, United Kingdom, or French Sectors of Berlin.

(c) For the purpose of this section:

(1) The term "national" shall have the meanings prescribed in section 5 of Executive Order No. 8389, 3 CFR, 1943 Cum. Supp., as amended, except that any individual who is and has been a resident of the United States on and since December 7, 1941, and who is a national of Germany solely by reason of the fact that such individual has been domiciled in, or a subject, citizen, or resident of, such country at any time on or since the effective date of Executive Order No. 8389, 3 CFR, 1943 Cum. Supp., as amended, and any partnership, association, corporation, or other organization which is a national of Germany solely by reason of the interest therein of such person or persons shall not be deemed nationals within the meanings so prescribed.

(2) The term "work" shall include literary and artistic creations copyrighted or copyrightable under the statutory law of the United States or in which there are literary or artistic property rights under the common law of the several states of the United States, and all rights arising under the statutory and common law of the United States and the several states thereof in any such literary or artistic creations, such as, for example, but not by way of limitation, rights to translate, to make any version, to dramatize, to convert into a novel or other non-dramatic version, to arrange or adapt, to deliver or authorize delivery in public, to perform or authorize performance in public, to transmit or exhibit by radio, television, motion picture, or other means, to make any transcription or record in any manner or by any method, to print, reprint, publish, copy or vend, and to obtain statutory copyrights or renewals in all forms and versions of the literary and artistic creation.

(3) The term "interest" in a work shall mean ownership, part ownership, or claim of ownership, in whole or in part, of the work, and any right, license, privilege, or property in or to or with respect to such work; and any right, title, or interest in, to or under any contract or other instrument pertaining to a work; and any royalty, share of profits, license fees, or other emolument or compensation reserved with respect thereto. "Interest" shall also include, but not by way of limitation, any interest as hereinbefore described which is held or claimed as trustee, agent, representative or nominal proprietor.

(4) A work shall be deemed to be "published" (i) if copies or records thereof of any kind have made for sale, distribution or presentation to the public, or (ii) if its contents have been made known by any method or means to the public anywhere, or (iii) in the case of a motion picture, when the original negative is made. Where only a part of the work subject to the prohibitions or licenses of this part was published prior to January 1, 1947, that part and the remaining part shall be considered as separate works.

§ 507.71 *Authorizing certain transactions respecting foreign-owned interests in works subject to copyright.* (a) Notwithstanding § 511.211a of this chapter all transactions which relate to interests in works owned by foreign countries or nationals thereof not prohibited by § 507.70 are authorized under the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40): *Provided,* That nothing in this section or in § 507.70 is intended as a limitation upon the right of the Attorney General to exercise any power under the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40), including the power to vest: *And provided further,* That neither this section nor § 507.70 licenses the payment or receipt of any funds or credits with respect to works to, by or on behalf of any designated foreign country or nationals thereof, other than Japan and nationals thereof, except to the extent licensed by Part 511 of this chapter.

(b) The terms "work," "interest" in a work, "national" of Germany, and "published" shall have the meanings prescribed in § 507.70. The term "designated foreign country" shall mean a country designated in Executive Order 8389, 3 CFR, 1943 Cum. Supp., as amended, and the term "national" shall have the meanings prescribed in section 5 of Executive Order 8389, 3 CFR, 1943 Cum. Supp., as amended.

2. Paragraph (c) of § 507.99 of this chapter refers to certain special accounts heretofore established with respect to copyright property of foreign nationals. Those special accounts have been liquidated and paragraph (c) of § 507.99 is revoked.

(Sec. 7, 40 Stat. 416, 50 U. S. C. App. 7; sec. 301, 55 Stat. 839, 50 U. S. C. App. 5; E. O. 9193, July 6, 1942, 7 F. R. 5205, 3 CFR, 1943 Cum. Supp.; E. O. 9788, October 14, 1946, 11 F. R. 11981, 3 CFR, 1946 Supp.)

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Amdt. 4]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

CHANGES IN AREAS QUARANTINED BECAUSE OF VESICULAR EXANTHEMA

Pursuant to the authority conferred by sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123 and 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111 and 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.26 in Part 76 of Title 9, Code of Federal Regulations, containing a notice of the existence in certain areas of the swine disease known as vesicular exanthema and establishing a quarantine because of such disease, is hereby amended to read as follows:

§ 76.26 *Notice and quarantine.* (a) Notice is hereby given that the contagious, infectious and communicable disease of swine known as vesicular exanthema exists in the following areas:

The State of California, except Modoc and Siskiyou Counties;

Bristol and Middlesex Counties, in Massachusetts;

Cooper Township, in Kalamazoo County, in Michigan.

Burlington, Camden, Gloucester, Hudson, Morris, and Ocean Counties, in New Jersey;

Albany and New York Counties and Clarkstown Township, in Rockland County, in New York;

Council Grove, Mustang, Oklahoma and Greeley Townships, in Oklahoma County, in Oklahoma;

Bucks, Delaware, Lehigh and York Counties, in Pennsylvania; the State of Rhode Island;

Shelby County, and that part of Fayette County lying west of State Highways 59 and 76, in Tennessee.

(b) The Secretary of Agriculture, having determined that swine in the States named in paragraph (a) of this section are affected with the contagious, infectious and communicable disease known as vesicular exanthema and that it is necessary to quarantine the areas specified in paragraph (a) of this section and the following additional areas in such States in order to prevent the spread of said disease from such States, hereby quarantines the areas specified in paragraph (a) of this section and in addition:

Bergen, Essex, and Union Counties, in New Jersey;

Montgomery County, in Pennsylvania.

Effective date. This amendment shall become effective upon issuance. This amendment includes within the areas in which vesicular exanthema has been found to exist, and in which a quarantine has been established:

Cooper Township, in Kalamazoo County, in Michigan;

Shelby County, and that part of Fayette County lying west of State Highways 59 and 76, in Tennessee.

Hereafter, all of the restrictions of the quarantine and regulations in 9 CFR Part 76, Subpart B, as amended (17 F. R. 10538, as amended) apply with respect to shipments of swine and carcasses, parts and offal of swine from these areas.

This amendment excludes from the areas in which vesicular exanthema has been found to exist, and in which a quarantine has been established:

Hartford County, in Connecticut;

St. Clair County, in Illinois;

Middlebury Heights Township, in Cuyahoga County, in Ohio.

Hereafter, none of the restrictions of the quarantine and regulations in 9 CFR Part 76, Subpart B, as amended (17 F. R. 10538, as amended) apply with respect to shipments of swine and carcasses, parts and offal of swine from these areas.

The foregoing amendment in part relieves restrictions presently imposed and must be made effective immediately to be of maximum benefit to persons subject to such restrictions. In part the amendment imposes further restrictions necessary to prevent the spread of vesicular exanthema, a communicable disease of swine, and to this extent it must be made effective immediately to accomplish its purpose in the public interest. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) it is found upon good cause that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest and good cause is found for making the amendment effective less than 30 days after publication hereof in the FEDERAL REGISTER.

(Secs. 4, 5, 23 Stat. 32, as amended, sec. 2, 32 Stat. 792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 120, 111, 123, 125. Interprets or applies sec. 7, 23 Stat. 32, as amended; 21 U. S. C. 117)

Done at Washington, D. C., this 23d day of December 1952.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Serial No. SR-390]

PART 4b—AIRPLANE AIRWORTHINESS; TRANSPORT CATEGORIES

SPECIAL CIVIL AIR REGULATION; POSITION LIGHT SYSTEM

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of December 1952.

The provisions of Special Civil Air Regulation SR-361, authorizing for a temporary period, subject to the approval of the Administrator, variations from the conventional position light systems and the use, in particular, of flash rates with frequencies of 80, plus or minus 10, cycles per minute in the present systems, terminate January 1, 1953. The Civil Aeronautics Board now has under consideration a proposed new Special Civil Air Regulation which would permit experimentation projects on a limited number of airplanes for the purpose of improving position light and anti-collision light systems. However, action on this proposed new Special Civil Air Regulation may be delayed beyond the termination date of SR-361. Therefore, in order to allow a continuance of experimentation, it is necessary that the authorization currently provided in SR-361 be extended until July 1, 1953, or such earlier date as the proposed new Special Civil Air Regulation may become effective.

Since the purpose of this regulation is to permit operation in accordance with current provisions in the regulations during the interim period from January 1, 1953, until the adoption of new provisions can be considered and since it will not impose additional burdens on any person, the Board finds that notice and public procedure hereon are impracticable and contrary to the public interest and that good cause exists for making the regulation effective on less than 30 days' notice.

In consideration of the foregoing the Civil Aeronautics Board makes and promulgates the following Special Civil Air Regulation effective January 1, 1953:

Contrary provisions of the Civil Air Regulations notwithstanding, any air carrier may, subject to the approval of the Administrator, (1) utilize, while operating the present position light system as established in Part 4b of the Civil Air Regulations, a flashing sequence which provides flashing rates of 80, plus or minus 10, cycles per minute for each for-

ward position and fuselage light and flashing rates of 40, plus or minus 5, cycles per minute for each rear position light; and (2) engage, while operating aircraft in scheduled or other service, in similar projects which are designed to improve the present position light system and which are not likely to cause confusion in air navigation. The Administrator shall prescribe such conditions and limitations as may be necessary to assure safety and avoid confusion in air navigation and shall require each carrier to disclose publicly its deviations from the requirements of Part 4b at times and in a manner which he deems consistent with the best interests of safety.

This regulation supersedes Special Civil Air Regulation SR–361, and shall terminate July 1, 1953, unless sooner superseded or rescinded.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009; 49 U. S. C. 551, 553)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required.

Part 600 is amended as follows:

1. Section 600.237 *Red civil airway No. 37 (Tyler, Tex., to Gordonsville, Va.)* is amended by changing the first portion to read: "From the Tyler, Tex., radio range station to the intersection of the north course of the Tyler, Tex., radio range and the west course of the Shreveport, La., radio range."

2. Section 600.284 is amended by changing caption to read: *"Red civil airway No. 84 (Meridian, Miss., to Atlanta, Ga.)"* and by revoking that portion which reads: "From the Lafayette, La., non-directional radio beacon via the intersection of a bearing of 113° True from the Lafayette, La., non-directional radio beacon with a bearing of 277° True from a point 20 miles south of the New Orleans, La., radio range station on the south course of the New Orleans, La., radio range to a point 20 miles south of the New Orleans, La., radio range station on the south course of the New Orleans, La., radio range."

3. Section 600.670 is amended to read:

§ 600.670 *Blue civil airway No. 70 (Waco, Tex., to Tulsa, Okla.).* From the intersection of the northwest course of the Waco, Tex., radio range and the south course of the Fort Worth, Tex., radio range via the intersection of the northwest course of the Waco, Tex., radio range and the west course of the Dallas, Tex., radio range; Mineral Wells, Tex., non-directional radio beacon; Ardmore, Okla., non-directional radio beacon to the Tulsa, Okla., radio range station.

4. Section 600.6017 *VOR civil airway No. 17 (Laredo, Tex., to Goodland, Kans.)* is amended between Waco, Tex., omnirange station and Ardmore, Okla., omnirange station to read: "Waco, Tex., omnirange station, including an east alternate; Fort Worth, Tex., omnirange station, including a west alternate via the intersection of the Waco omnirange 330° True and the Fort Worth omnirange 187° True radials; Ardmore, Okla., omnirange station:".

5. Section 600.6061 is amended to read:

§ 600.6061 *VOR civil airway No. 61 (Fort Worth, Tex., to Lawton, Okla.).* From the Fort Worth, Tex., omnirange station via the Wichita Falls, Tex., omnirange station, including a west alternate, to the Lawton, Okla., omnirange station.

6. Section 600.6117 is added to read:

§ 600.6117 *VOR civil airway No. 117 (Waco, Tex., to Ardmore, Okla.).* From the Waco, Tex., omnirange station via the Mineral Wells, Tex., omnirange station to the Ardmore, Okla., omnirange station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001, e. s. t., January 8, 1953.

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.284 is amended to read:

§ 601.284 *Red civil airway No. 84 control areas (Meridian, Miss., to Atlanta, Ga.).* All of Red civil airway No. 84.

2. Section 601.670 is amended to read:

§ 601.670 *Blue civil airway No. 70 control areas (Waco, Tex., to Tulsa, Okla.).* All of Blue civil airway No. 70.

3. Section 601.1005 is amended to read:

§ 601.1005 *Control area extension (Jacksonville, Fla.).* Within 5 miles either side of the Jacksonville ILS localizer course extending from the localizer to a point 10½ miles southwest of the outer marker excluding that portion which lies south of Latitude 30°16'45", and within 5 miles either side of the 64° True radial of the Jacksonville omnirange extending from the omnirange station to a point 20 miles northeast.

4. Section 601.1108 is amended to read:

§ 601.1108 *Control area extension (Salina, Kans.).* That airspace north of Salina, Kansas, within a 30-mile radius of a point at Latitude 38°52'39", Longitude 97°38'54", bounded on the south by VOR civil airway No. 4, and the airspace southeast of the Salina omnirange station bounded on the north by VOR civil airway No. 4 and on the west by VOR civil airway No. 73 within a 25-mile radius of the omnirange station.

5. Section 601.1011 is amended to read:

§ 601.1011 *Control area extension (Daytona Beach, Fla.).* Within 5 miles either side of the west course of the Daytona Beach radio range extending from the radio range station to a point 20 miles west, and within 5 miles either side of the 244° True radial of the Daytona Beach omnirange extending from the omnirange station to a point 20 miles southwest.

6. Section 601.1020 *Control area extension (Smithville, Tenn.)* is revoked.

7. Section 601.1020 is added to read:

§ 601.1020 *Control area extension (Macon, Ga.).* Within 5 miles either side of the 47° True and 227° True courses of the Macon ILS localizer extending from the localizer to a point 25 miles northeast and to a point 30 miles southwest.

8. Section 601.1028 is amended to read:

§ 601.1028 *Control area extension (Monroe, La.).* Within 5 miles either side of the northeast and southwest courses of the Monroe radio range extending from the radio range station to a point 25 miles northeast and to a point 20 miles southwest, and within 5 miles either side of the 41° True and 221° True radials of the Monroe omnirange extending from the omnirange station to points 20 miles northeast and southwest.

9. Section 601.1199 is amended to read:

§ 601.1199 *Control area extension (Greensboro, N. C.).* Within 5 miles either side of the southeast course of the Greensboro radio range extending from the radio range station to a point 25 miles southeast including the area between the Greensboro control area extension and the Winston-Salem control area extension and within 5 miles either side of the 204° True radial of the Greensboro omnirange extending from the omnirange station to a point 20 miles southwest.

10. Section 601.1206 *Control area extension (Midland, Tex.)* is amended by adding the following portion to present control area extension: "and the area within 5 miles either side of the Midland ILS localizer southwest course extending from the localizer to Lat. 31°30'00"."

11. Section 601.1222 *Control area extension (Pine Bluff, Ark.)* is amended by adding the following portion to present control area extension: "and within 5 miles either side of the 7° True and 187° True radials of the Pine Bluff omnirange extending from the omnirange station to points 20 miles north and south."

12. Section 601.1239 is amended to read:

§ 601.1239 *Control area extension (Lubbock, Tex.).* All that airspace within a 25-mile radius of the Lubbock radio range station in the southwest, northwest, and northeast quadrants of the radio range and within a 40-mile radius of the radio range station in the southeast quadrant of the radio range.

13. Section 601.1320 is added to read:

§ 601.1320 *Control area extension (Cross City, Fla.).* Within 5 miles either side of the 118° True radial of the Cross City omnirange extending from the omnirange station to a point 20 miles southeast.

14. Section 601.1321 is added to read:

§ 601.1321 *Control area extension (Brunswick, Ga.).* Within 5 miles either side of the 293° True radial of the Brunswick omnirange extending from the omnirange station to a point 20 miles northwest.

15. Section 601.2034 is amended to read:

§ 601.2034 *Monroe, La., control zone.* Within a 5-mile radius of Selman Field, within 2 miles either side of the southwest course of the Monroe radio range extending from the radio range station to a point 4 miles southwest, and within 2 miles either side of the 41° True and 221° True radials of the Monroe omnirange extending from the control zone to a point 10 miles southwest of the omnirange station.

16. Section 601.2139 is amended to read:

§ 601.2139 *Cross City, Fla., control zone.* Within a 5-mile radius of the Cross City Airport, within 2 miles either side of the southeast course of the Cross City radio range extending from the radio range station to a point 10 miles southeast, and within 2 miles either side of the 118° True radial of the Cross City omnirange extending from the omnirange station to a point 10 miles southeast.

17. Section 601.2140 is amended to read:

§ 601.2140 *Daytona Beach, Fla., control zone.* Within a 5-mile radius of the Daytona Beach Airport, within 2 miles either side of the west course of the Daytona Beach radio range extending from the radio range station to a point 10 miles west, and within 2 miles either side of the 64° True and 244° True radials of the Daytona Beach omnirange extending from the 5-mile radius control zone to a point 10 miles southwest of the omnirange station.

18. Section 601.2144 is amended to read:

§ 601.2144 *Greensboro, N. C., control zone.* Within a 5-mile radius of the Greensboro High Point Airport, within 2 miles either side of the northeast course of the Greensboro radio range extending from the radio range station to a point 10 miles northeast, and within 2 miles either side of the 204° True radial of the Greensboro omnirange extending from the omnirange station to a point 10 miles southwest excluding the portion which overlaps the Smith-Reynolds Airport, Winston-Salem, N. C., control zone.

19. Section 601.2149 is amended to read:

§ 601.2149 *Jacksonville, Fla., control zone.* Within a 5-mile radius of Imeson Airport, within 2 miles either side of the east course of the Jacksonville radio range extending from the radio range station to the Fort George Island fan marker, and within 2 miles either side of the 64° True radial of the Jacksonville omnirange extending from the omnirange station to a point 10 miles northeast.

20. Section 601.2213 *Salina, Kans., control zone* is amended by adding the following portion to present control zone: "including that airspace lying between the 10° True and 322° True radials of the Salina omnirange within a 10 mile radius of the Salina omnirange station."

21. Section 601.2230 is amended to read:

§ 601.2230 *Brunswick, Ga., control zone.* Within a 5-mile radius of McKinnon Airport, within 2 miles either side of the north course of the Jacksonville, Fla., radio range extending from McKinnon Airport to a point 10 miles north, and within 2 miles either side of the 293° True radial of the Brunswick, Ga., omnirange extending from the omnirange station to a point 10 miles northwest.

22. Section 601.2309 is amended to read:

§ 601.2309 *Valdosta, Ga., control zone.* All that area within a 5-mile radius of the Valdosta Municipal Airport, excluding that portion which overlaps the Moody AFB control zone, and within 2 miles either side of the 4° True and 184° True radials of the Valdosta omnirange extending from the 5-mile radius control zone to a point 10 miles southwest of the omnirange station.

23. Section 601.4209 is amended to read:

§ 601.4209 *Red civil airway No. 9 (San Diego, Calif., to Winslow, Ariz.).* El Centro, Calif., radio range station; Yuma, Ariz., radio range station; Gila Bend, Ariz., radio range station.

24. Section 601.4266 is amended to read:

§ 601.4266 *Red civil airway No. 66 (Santa Barbara, Calif., to Los Angeles, Calif.).* The intersection of the east course of the Santa Barbara, Calif., radio range and the northeast course of the Camarillo, Calif., radio range.

25. Section 601.4284 is amended to read:

§ 601.4284 *Red civil airway No. 84 (Meridian, Miss., to Atlanta, Ga.).* Craig AFB radio range station, Selma, Ala.

26. Section 601.4644 is amended to read:

§ 601.4644 *Blue civil airway No. 44 (Advance, Mo., to United States-Canadian Border).* The intersection of the northeast course of the Fort Wayne, Ind., radio range and the east course of the Goshen, Ind., radio range.

27. Section 601.4670 is amended to read:

§ 601.4670 *Blue civil airway No. 70 (Waco, Tex., to Tulsa, Okla.).* Ardmore, Okla., non-directional radio beacon.

28. Section 601.5001 *Other reporting points*, is amended by adding the following reporting point:

Anchorage-Sandspit route. The Middleton Island, Alaska, non-directional radio beacon.

29. Section 601.6061 is amended to read:

§ 601.6061 *VOR civil airway No. 61 control areas (Fort Worth, Tex., to Lawton, Okla.).* All of VOR civil airway No. 61 including a west alternate.

30. Section 601.6117 is added to read:

§ 601.6117 *VOR civil airway No. 117 control areas (Waco, Tex., to Ardmore, Okla.).* All of VOR civil airway No. 117.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001, e. s. t., January 8, 1953.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess-Profits Taxes

[T. D. 5967; Regulations 111]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

ADJUSTMENT OF BASIS OF PROPERTY FOR DEPRECIATION, OBSOLESCENCE, AMORTIZATION, AND DEPLETION

On November 26, 1952, notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 10740) conforming Regulations 111 (26 CFR Part 29) to Public Law 539 (82d Congress), approved July 14, 1952, which amends section 113 (b) (1) (B) of the Internal Revenue Code, relating to the adjustment of the basis of property for depreciation, obsolescence, amortization, and depletion. After consideration of all such relevant matter as was presented by interested persons relating to the rules proposed, the amendments to Regulations 111, set forth below, are hereby adopted.

PARAGRAPH 1. There is inserted immediately preceding § 29.113 (b) (1)–1 the following:

PUBLIC LAW 539 (82D CONGRESS) [APPROVED JULY 14, 1952]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That so much of section 113 (b) (1) (B) of the Internal Revenue Code (relating to adjustments to basis of property for depreciation, etc.) as precedes the word "Where" is hereby amended to read as follows:

(B) In respect to any period since February 28, 1913, for exhaustion, wear and tear, obsolescence, amortization, and depletion, to the extent of the amount—

(i) Allowed as deductions in computing net income under this chapter or prior income tax laws, and

(ii) Resulting (by reason of the deductions so allowed) in a reduction for any taxable year of the taxpayer's taxes under this chapter (other than subchapter E), subchapter E of chapter 2, or prior income, war-profits, or excess-profits tax laws,

but not less than the amount allowable under this chapter or prior income tax laws. Clause (ii) of this subparagraph shall not apply in respect of any period since February 28, 1913, and before January 1, 1952, unless an election has been made under subsection (d).

* * * * *

SEC. 3. The amendments made by this Act shall apply in respect of taxable years beginning after December 31, 1938. Provisions having the effect of such amendments shall be deemed to have been included in the revenue laws respectively applicable to taxable years ending after December 31, 1931, and beginning before January 1, 1939.

PAR. 2. Section 29.113 (b) (1)–1 as amended by Treasury Decision 5873, approved December 7, 1951, is amended as follows:

(A) By inserting immediately preceding the paragraph (a) thereof the following headnote: "(a) *Items properly chargeable to capital account*," and by redesignating paragraphs (b) and (c) as subparagraphs (1) and (2).

(B) By striking paragraph (d) of such section, which paragraph begins with the words "The cost or other basis * * *", and paragraph (e) thereof, which paragraph begins with the words "The depreciation allowed * * *", and inserting in lieu thereof the following:

(b) *Exhaustion, wear and tear, obsolescence, amortization, and depletion for periods since February 28, 1913*—(1) *In general.* (i) The cost or other basis must also be decreased, to the extent provided in subparagraphs (2), (3), and (4) of this paragraph, by the amount of the deductions for exhaustion, wear and tear, obsolescence, amortization, and depletion. The adjustment required for any taxable year or period is the amount allowed (or the portion thereof referred to in subparagraph (2) (i) or subparagraph (4) (i) of this paragraph, as the case may be) or the amount allowable for such year or period under the law applicable thereto, whichever is the greater amount. A taxpayer is not permitted to take advantage in a later year of his prior failure to take any depreciation allowance or of his action in taking an allowance plainly inadequate under the known facts in prior years. The determination of the amount properly allowable shall, however, be made on the basis of facts reasonably known to exist at the end of such year or period. The aggregate sum of the greater of such annual amounts is the amount by which the cost or other basis of the property shall be adjusted.

(ii) The deductions by which the cost or other basis is to be decreased shall include deductions allowed under section 114 (b) (2), (3), and (4) of the Revenue Act of 1932, the Revenue Act of 1934, the Revenue Act of 1936, the Revenue Act of 1938, and the Internal Revenue Code, for the taxable year 1932 and subsequent taxable years, but the amount of the diminution in respect of depletion for taxable years prior to 1932 shall not exceed a depletion deduction computed without reference to discovery value in the case of mines, or without reference to discovery value or a percentage of income in the case of oil and gas wells.

(2) *Adjustment for periods beginning on or after January 1, 1952.* The decrease required by subparagraph (1) of this paragraph for deductions in respect of any period beginning on or after January 1, 1952, shall be whichever is the greater of the following amounts:

(i) The amount allowed as deductions in computing net income under chapter 1 and resulting (by reason of the deductions so allowed) in a reduction for any taxable year of the taxpayer's taxes under chapter 1 (other than subchapter E, relating to the tax on self-employment income);

(ii) The amount properly allowable as deductions in computing net income under Chapter 1 (whether or not the amount properly allowable would have caused a reduction for any taxable year of the taxpayer's taxes).

(3) *Adjustment for periods since February 28, 1913, and before January 1, 1952, where no election made.* Except where an election has been properly made under section 113 (d) (see subparagraph (4) of this paragraph, the decrease required by paragraph (1) for deductions in respect of any period since February 28, 1913, and before January 1, 1952, shall be whichever of the following amounts is the greater:

(i) The amount allowed as deductions in computing net income under chapter 1 or prior income tax laws;

(ii) The amount properly allowable in computing net income under chapter 1 or prior income tax laws.

For the purpose of determining the decrease required by this paragraph it is immaterial whether or not the amount under subdivision (i) of this subparagraph or the amount under subdivision (ii) of this subparagraph would have resulted in a reduction for any taxable year of the taxpayer's taxes.

(4) *Adjustment for period since February 28, 1913, and before January 1, 1952, where election made under section 113 (d).* If an election has been properly made under section 113 (d) (see § 29.113 (d)–1), the decrease required by subparagraph (1) of this paragraph for deductions in respect of any period since February 28, 1913, and before January 1, 1952, shall be whichever is the greater of the following amounts:

(i) The amount allowed as deductions in computing net income under chapter 1 or prior income tax laws and resulting (by reason of the deductions so allowed) in a reduction for any taxable year of the taxpayer's taxes under chapter 1 (other than subchapter E, relating to the tax on self-employment income), subchapter E of chapter 2, or prior income, war-profits, or excess-profits tax laws;

(ii) The amount properly allowable as deductions in computing net income under chapter 1 or prior income tax laws (whether or not the amount properly allowable would have caused a reduction for any taxable year of the taxpayer's taxes).

(5) *Determination of amount allowed which reduced taxpayer's taxes.* (i) For the purpose of determining whether the amount allowed which resulted in a reduction for any taxable year of the taxpayer's taxes under chapter 1 of the Internal Revenue Code (other than subchapter E), subchapter E of chapter 2, or prior income, war-profits, or excess-profits tax laws, which amount is hereinafter referred to as the "tax-benefit amount allowed", exceeded the amount allowable, a determination must be made of that portion of the excess of the amount allowed over the amount allowable which, if disallowed, would not have resulted in an increase in any such tax previously determined. If the entire excess of the amount allowed over the amount allowable could be disallowed without any such increase in tax, the tax-benefit amount allowed shall be considered to exceed the amount allowable to the extent of the remainder of such excess.

(ii) For this purpose, the tax previously determined shall be determined under the principles of section 3801 (d), and the only adjustments to be made in determining whether there would be an increase in tax shall be those resulting from the disallowance of the amount allowed. The taxable years for which the determination is made shall be the taxable year for which the deduction was allowed and any other taxable year which would be affected by the disallowance of such deduction. Examples of such other taxable years are taxable years to which there was a carry-over or carry-back of a net operating loss or an unused excess-profits credit from the taxable year for which the deduction for depreciation, etc., was allowed, and taxable years for which a computation under section 22 (b) (12) or section 127 was made by reference to the taxable year for which the deduction was allowed. In determining whether the disallowance of any part of the deduction for depreciation, etc., would not have resulted in an increase in any tax previously determined, proper adjustment must be made for previous determinations under sections 452, 734, or 3801, and for any previous application of section 113 (b) (1) (B) (ii).

(iii) If a determination under section 113 (b) (1) (B) (ii) must be made with respect to several properties for each of which the amount allowed for the taxable year exceeded the amount allowable, the tax-benefit amount allowed with respect to each of such properties shall be an allocated portion of the tax-benefit amount allowed determined by reference to the sum of the amounts allowed and the sum of the amounts allowable with respect to such several properties.

(iv) In the case of property held by a partnership or trust, the computation of the tax-benefit amount allowed shall take into account the tax benefit of the partners or beneficiaries, as the case may be, from the deduction by the partnership or trust of the amount allowed to the partnership or the trust. For this purpose, the determination of the amount allowed which resulted in a tax benefit to the partners or beneficiaries shall be made in the same manner as that provided above with respect to the taxes of the person holding the property.

(v) A taxpayer seeking to limit the adjustment to basis to the tax-benefit amount allowed for any period, in lieu of the amount allowed, must establish the tax-benefit amount allowed. A failure of adequate proof as to the tax-benefit amount allowed with respect to one period does not preclude the taxpayer from limiting the adjustment to basis to the tax-benefit amount allowed with respect to another period for which adequate proof is available. For example, a corporate tranferee may have available adequate records with respect to the tax effect of the deduction for the taxable years 1946 and 1947 of erroneous depreciation, but may not have available adequate records with respect to the deduction of excessive depreciation for a prior period during which the property was held by its transferor. In such case, assuming a proper election is made under section 113 (d), the corporate transferee shall not be denied the right to apply this section with respect to the erroneous depreciation for the period for which adequate proof is available.

(6) *Determination of amount allowable in prior taxable years.* Under section 113 (b) (1) (B), one of the factors involved in determining the adjustment to basis as of any date is the amount allowable for periods prior to such date. The amount allowable for such prior periods is determined under the law applicable to such prior periods; all adjustments required by the law applicable to such periods are made in determining the adjusted basis of the property for the purpose of determining the amount allowable. Since provisions corresponding to the amendment to section 113 (b) (1) (B) made by Public Law 539 (82d Congress) are deemed included in all revenue laws applicable to taxable years ending after December 31, 1931, the amount allowable for any such taxable year must be computed with the application of such provisions. For example, if the adjusted basis of property is determined as of January 1, 1952, if an election was properly made under section 113 (d), and if the property was held since January 1, 1930, then the amount allowable which is taken into account in computing the adjusted basis as of January 1, 1952, shall be determined for all taxable years ending after December 31, 1931, with the application to each such taxable year of the provisions of section 113 (b) (1) (B) as amended by Public Law 539. Public Law 539 made no change in the law applicable in determining the amount allowable for taxable years ending before January 1, 1932. In any case in which, prior to the enactment of Public Law 539 (July 14, 1952) there was a final decision of a court determining the amount allowable for a particular taxable year, such determination (but only for the purpose of determining the adjustment under section 113 (b) (1) (B) by reference to such allowable amount) must be adjusted to the extent necessary to reflect the amendment made by Public Law 539 to the law applicable to the taxable year for which the amount was allowable.

Although Public Law 539 amends the law applicable to all taxable years ending after December 31, 1931, the amendment does not open for refund, credit, or assessment of a deficiency any taxable year for which such refund, credit, or assessment is barred by any law or rule of law.

(7) *Property with transferred basis.* The following rules apply in the determination of the adjustments to basis of property in the hands of a transferee, donee, or grantee which are required by section 113 (b) (2) with respect to the period the property was held by the transferor, donor or grantor:

(i) An election under section 113 (d) by a transferor, donor, or grantor made after the date of the transfer, gift, or grant of the property shall not affect the basis of such property in the hands of the transferee, donee, or grantee. Such an election made before the date of the transfer must be taken into account in determining under section 113 (b) (2) the adjustments to basis as of the date of the transfer, gift, or grant, whether or not an election under section 113 (d) was made by the transferee, donee, or grantee.

(ii) An election by the transferee, donee, or grantee shall be applicable in determining the adjustments to basis for the period during which the property was held by the transferor, donor, or grantor, whether or not the transferor, donor, or grantor had made an election: *Provided*, That the property was held by the transferee, donee, or grantee at any time on or before the date on which his election was made.

Example (1). The case of Corporation A discloses the following facts:

(1) Year	(2) Amount allowed	(3) Amount allowed which reduced taxpayer's taxes	(4) Amount allowable	(5) Amount allowable but not less than amount allowed	(6) Amount allowable but not less than amount allowed which reduced taxpayer's taxes
1949	$6,000	$5,500	$5,000	$6,000	$5,500
1950	7,000	7,000	6,500	7,000	7,000
1951	5,000	4,000	6,500	6,500	6,500
Total, 1949–51				19,500	19,000
1952	6,500	6,500	6,000		6,500
1953	5,000	4,000	4,000		4,000
1954	4,500	4,500	6,000		6,000
Total, 1952–54					16,500

The cost or other basis is to be adjusted by $16,500 with respect to the years 1952–1954, that is, by the amount allowable but not less than the amount allowed which reduced the taxpayer's taxes. An adjustment must also be made with respect to the years 1949–1951, the amount of such adjustment depending upon whether an election was properly made under section 113 (d). If no such election was made, the amount of the adjustment with respect to the years 1949–1951 is $19,500, that is, the amount allowed but not less than the amount allowable. If an election was properly made, the amount of the adjustment with respect to the years 1949–1951 is $19,000, that is, the amount allowable but not less than the amount allowed which reduced the taxpayer's taxes.

Example (2). Corporation A purchased a building on January 1, 1950, at a cost of $100,000. On the basis of the facts reasonably known to exist at the end of 1950, a period of 50 years should have been used as the correct useful life of the building; nevertheless, depreciation was computed by Corporation A on the basis of a useful life of 25 years, and was allowed for 1950 through 1953 as a deduction in an annual amount of $4,000. The building was sold on January 1, 1954. Corporation A did not make an election under section 113 (d). No part of the amount allowed Corporation A for any of the

years 1950 through 1953 resulted in a reduction of Corporation A's taxes. The adjusted basis of the building as of January 1, 1954, is $88,166, computed as follows:

Year	Adjustments to basis as of beginning of taxable year	Adjusted basis	Remaining life	Depreciation allowable	Depreciation allowed
1950		$100,000	50	$2,000	$4,000
1951	$4,000	96,000	49	1,959	4,000
1952	8,000	92,000	48	1,917	4,000
1953	9,917	90,083	47	1,917	4,000
1954	11,834	88,166			

Example (3). The facts are the same as in Example (2), except that Corporation A made a proper election under section 113 (d). In such case, the adjusted basis of the building as of January 1, 1954, is $92,000, computed as follows:

Year	Adjustments to basis as of beginning of taxable year	Adjusted basis	Remaining life	Depreciation allowable	Depreciation allowed
1950		$100,000	50	$2,000	$4,000
1951	$2,000	98,000	49	2,000	4,000
1952	4,000	96,000	48	2,000	4,000
1953	6,000	94,000	47	2,000	4,000
1954	8,000	92,000			

Example (4). If it is assumed that in Example (2), or in Example (3), all of the deduction allowed Corporation A for 1953 had resulted in a reduction of A's taxes, the adjustment to the basis of the building for depreciation for 1953 would reflect the entire $4,000 deduction. In such case, the adjusted basis of the building as of January 1, 1954, would be $86,083 in Example (2), and $90,000 in Example (3).

Example (5). The facts are the same as in Example (2) except that for the year 1950 all of the $4,000 amount allowed Corporation A as a deduction for depreciation for that year resulted in a reduction of A's taxes. In such case, the adjustments to the basis of the building remain the same as those set forth in Example (2).

Example (6). The facts are the same as in Example (3) except that for the year 1950 all of the $4,000 amount allowed Corporation A as a deduction for depreciation resulted in a reduction of A's taxes. In such case, the adjusted basis of the building as of January 1, 1954, is $90,123, computed as follows:

Year	Adjustments to basis as of beginning of taxable year	Adjusted basis	Remaining life	Depreciation allowable	Depreciation allowed
1950		$100,000	50	$2,000	$4,000
1951	$4,000	98,000	49	1,959	4,000
1952	5,959	94,041	48	1,959	4,000
1953	7,918	92,082	47	1,959	4,000
1954	9,877	90,123			

(C) By redesignating present paragraph (f) thereof beginning with the words "The cost or other basis shall also be decreased * * *" as paragraph (c) and by adding the following headnote: "(c) *Exhaustion, wear and tear, obsolescence, amortization, and depletion—periods prior to March 1, 1913.*"

(D) By redesignating present paragraph (g) thereof, which paragraph begins with the words "In the case of stock, * * *" as paragraph (d) and by adding the following headnote: "(d) *Certain stock distributions.*"

(E) By redesignating present paragraph (h) thereof, which paragraph begins with the words "In the case of stock of United States shareholders * * *", as paragraph (e) and by adding the following headnote: "(e) *Stock of United States shareholders of a foreign personal holding company.*"

(F) By redesignating present paragraph (i) thereof, which paragraph begins with the words "Adjustments must always be made * * *", as paragraph (f) and by adding the following headnote: "(f) *Other applicable rules.*".

(G) By removing the designation (j) from paragraph (j) so that the paragraph stands undesignated.

PAR. 3. There is inserted immediately after § 29.113 (c)–1 the following:

PUBLIC LAW 539 (82D CONGRESS)
[APPROVED JULY 14, 1952]

* * * * *

SEC. 2. Section 113 of the Internal Revenue Code (relating to basis of property) is hereby amended by adding at the end thereof the following new subsection:

(d) *Election in respect of depreciation, etc., allowed before 1952.* Any person may elect to have clause (ii) of subsection (b) (1) (B) apply in respect of periods since February 28, 1913, and before January 1, 1952. Such an election shall be made in such manner as the Secretary may by regulations prescribe, shall be irrevocable, and shall apply in respect of all property held by the person making the election at any time on or before the date on which the election was made and in respect of all periods since February 28, 1913, and before January 1, 1952, during which such person held such property or for which adjustments must be made under subsection (b) (2). An election by a transferor, donor, or grantor made after the date of the transfer, gift, or grant of property shall not affect the basis of such property in the hands of the transferee, donee, or grantee. No such election may be made after December 31, 1952.

SEC. 3. The amendments made by this Act shall apply in respect of taxable years beginning after December 31, 1938. Provisions having the effect of such amendments shall be deemed to have been included in the revenue laws respectively applicable to taxable years ending after December 31, 1931, and beginning before January 1, 1939.

§ 29.113 (d)–1 *Election as to amounts allowed in respect of depreciation, etc., before 1952*—(a) *In general.* (1) Any person may elect to have the adjustments to the cost or other basis of property under section 113 (b) (1) (B) determined in accordance with clause (ii) of such section, by filing with the director or collector of internal revenue, on or before December 31, 1952, the written statement of election provided in paragraph (b) of this section. The statement must be filed with the collector or director with whom the return must be filed (determined under section 53 (b) as of December 31, 1952). Such election shall be irrevocable after December 31, 1952, and shall apply with respect to all periods since February 28, 1913, and before January 1, 1952. The election shall apply to all properties held by the person making the election at any time on or before the date of such election.

(2) A taxpayer may include in an election filed before December 31, 1952, a statement that the election shall take effect when filed, and in such case the election shall be irrevocable on the date filed, and shall not apply to any property acquired by the taxpayer after such date. If an election is made before December 31, 1952, and does not contain such statement, the election may be revoked by filing on or before December 31, 1952, in the same office in which the election was filed, a statement of revocation executed in the same manner as the election. Such an election made before December 31, 1952, and not revoked on or before that date, shall be deemed made on December 31, 1952, and shall apply to all property held by the taxpayer at any time on or before such date.

(3) A copy of the written statement of election must be filed with the first income tax return, amended return, or claim for refund filed on or after the date on which the election is made.

(4) An election by a partner is not an election by the partnership of which he is a member, but a separate election must be made by the partnership. Similarly, an election by the partnership applies only with respect to the partnership, and is not applicable to the separate property of the partners. A similar rule applies with respect to elections by trusts and beneficiaries of such trusts.

(5) An election which conforms in substance to the provisions of this section shall not be deemed invalid solely because it was filed prior to the date on which the regulations in this section were promulgated.

(b) *Rules applicable to making of election.* The following rules are applicable to the making of an election under section 113 (d):

(1) *Form of election.* The election shall be in the form of a statement in writing addressed to the collector or director of internal revenue with whom filed, shall state the name and address of the taxpayer making the election, and shall contain a statement that such taxpayer elects to have the provisions of section 113 (b) (1) (B) (ii) apply in respect of all periods since February 28, 1913, and before January 1, 1952.

(2) *Signature.* The statement shall be signed by the taxpayer making the election, if an individual, or, if the taxpayer making the election is not an individual, the statement shall be executed in the same manner as is required in the case of the income tax return of such taxpayer.

(3) *Filing.* The written statement must be filed in the office of the collector or director of internal revenue on or before December 31, 1952. An election shall be considered as timely filed if it is placed in the mail on or before midnight of December 31, 1952, as shown by the postmark on the envelope containing the written statement of election or as shown by other available evidence of the mailing date.

The amendments to § 29.113 (b) (1)–1 of Regulations 111, covering taxable years beginning after December 31, 1941, set forth in this Treasury decision, are hereby made applicable to taxable years begining after December 31, 1931, and before January 1, 1942 (such years being covered by Regulations 77, 86, 94, 101, and 103).

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

WAR LOSSES

On November 22, 1952, notice of proposed rule making with respect to amendments to conform Regulations 111 to section 341 of the Revenue Act of 1951 (Pub. Law 183, 82d Cong., 1st Sess.), approved October 20, 1951, relating to war losses, was published in the FEDERAL REGISTER (17 F. R. 10649). After consideration of such relevant suggestions as were presented by interested persons regarding the proposals, the amendments to Regulations 111 (26 CFR, Part 29) set forth below are hereby adopted:

PARAGRAPH 1. There is inserted immediately preceding § 29.127 (c)–1 the following:

SEC. 341. WAR LOSSES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Tax upon war loss recovery.* Section 127 (c) (relating to recoveries included in gross income) is hereby amended to read as follows:

(c) *Recoveries*—(1) *General rule.* Upon the recovery in the taxable year of any money or property in respect of property considered under subsection (a) as destroyed or seized in any prior taxable year, the amount of such recovery shall be included in gross income to the extent provided in paragraph (2), unless the provisions of paragraph (3) are applicable to the taxable year pursuant to an election made by the taxpayer under the provisions of paragraph (5).

(2) *Inclusion in gross income*—(A) *Amount of recovery.* The amount of the recovery of any money or property in respect of property considered under subsection (a) as destroyed or seized in any prior taxable year shall be an amount equal to the aggregate of such money and the fair market value of such property, determined as of the date of the recovery.

(B) *Amount of gain includible.* To the extent that the amount of the recovery plus the aggregate of the amounts of previous such recoveries do not exceed that part of the aggregate of the allowable deductions in prior taxable years on account of the destruction or seizure of property described in subsection (a) which did not result in a reduction of any tax of the taxpayer under this chapter or chapter 2, such amount shall not be includible in gross income and shall not be deemed gain upon the involuntary conversion of property as a result of its destruction or seizure. To the extent that such amount plus the aggregate of the amounts of previous such recoveries exceed that part of the aggregate of such deductions, which did not result in a reduction of any tax of the taxpayer under this chapter or chapter 2 and do not exceed that part of the aggregate of such deductions which did result in a reduction of any tax of the taxpayer under this chapter or chapter 2, such amount shall be included in gross income but shall not be deemed a gain upon the involuntary conversion of property as a result of its destruction or seizure. To the extent that such amount plus the aggregate of the amounts of previous such recoveries exceed the aggregate of the allowable deductions in prior taxable years on account of the destruction or seizure of property described in subsection (a), such amount shall be considered a gain upon the involuntary conversion of property as a result of its destruction or seizure and shall be recognized or not recognized as provided in section 112 (f). If for any previous taxable year the taxpayer chooses under subsection (b) to treat any obligations and liabilities as discharged or satisfied out of the property or interest described in subsection (a), and if such obligations and liabilities were not so discharged or satisfied, the amount of such obligations and liabilities treated as discharged or satisfied under subsection (b) shall be considered for the purposes of this section as a deduction by reason of this section which did not result in a reduction of any tax of the taxpayer under this chapter or chapter 2. For the purposes of this paragraph an allowable deduction for any taxable year on account of the destruction or seizure of property described in subsection (a) shall, to the extent not allowed in computing the tax of the taxpayer for such taxable year, be considered an allowable deduction which did not result in a reduction of any tax for the taxpayer under this chapter or chapter 2.

(3) Tax adjustment measured by prior benefits. If the provisions of this paragraph are applicable to the taxable year pursuant to an election made by the taxpayer under the provisions of paragraph (5)—

(A) *Amount of recovery.* The amount of the recovery in the taxable year of any money or property in respect of property considered under subsection (a) as destroyed or seized in any prior taxable year shall be an amount equal to the aggregate of such money and the fair market value of such property, determined as of the date of the recovery. For the purpose of this paragraph, in the case of the recovery of the same property or interest considered under subsection (a) as destroyed or seized, the fair market value of such property or interest shall, at the option of the taxpayer, be considered an amount equal to the adjusted basis (for determining loss) of such property or interest in the hands of the taxpayer on the date such property or interest was considered under subsection (a) as destroyed or seized. The amount of the recovery determined under this subparagraph shall be reduced for the purposes of subparagraphs (B) and (C) by the amount of the obligations or liabilities with respect to the property considered under subsection (a) as destroyed or seized in respect of which the recovery was received, if the taxpayer for any previous taxable year chose under subsection (b) (2) to treat such obligations or liabilities as discharged or satisfied out of such property, and such obligations or liabilities were not so discharged or satisfied prior to the date of the recovery.

(B) Adjustment for Prior Tax Benefits.—That part of the amount of the recovery, in respect of any property considered under subsection (a) as destroyed or seized, which is not in excess of the allowable deductions in prior taxable years on account of such destruction or seizure of the property (the amount of such allowable deductions being first reduced by the aggregate amount of any prior recoveries in respect of the same property) shall be excluded from gross income for the taxable year of the recovery for the purpose of computing the tax under this chapter and chapter 2; but there shall be added to, and assessed and collected as a part of, the tax under this chapter for the taxable year of the recovery the total increase in the tax under this chapter and chapter 2 for all taxable years which would result by decreasing, in an amount equal to such part of the recovery so excluded, such deductions allowable in the prior taxable years with respect to the destruction or seizure of the property. Such increase in the tax for each such year so resulting shall be computed in accordance with regulations prescribed by the Secretary. Such regulations shall give effect to previous recoveries of any kind (including recoveries described in section 22 (b) (12)) with respect to any prior year, and shall provide for the case where there was no tax for the prior year, but shall otherwise treat the tax previously determined for any year in accordance with the principles set forth in section 3801 (d). All credits allowable against the tax for any year and all carry-overs and carry-backs affected by so decreasing the allowable deductions shall be taken into account in computing the increase in the tax, except that the computation of the excess profits credit under chapter 2E for any taxable year shall not be affected.

(C) *Gain upon recovery.* The amount of any recovery or part thereof, in respect of property considered under subsection (a) as destroyed or seized, which is not excluded from gross income under the provisions of subparagraph (B) shall be considered for the taxable year of the recovery as gain on the involuntary conversion of property as a result of its destruction or seizure and shall be recognized or not recognized as provided in section 112 (f).

(D) *Recoveries treated as gross income for certain purposes.* For the purposes of sections 51, 52, and 3801 (b) the recovery in the taxable year of any money or property in respect of property considered under subsection (a) as destroyed or seized in any prior taxable year shall be deemed to be an item includible in gross income for the taxable year in which the recovery is made.

(4) *Restoration of value of investments referable to destroyed or seized property.* For the purpose of this subsection the restoration in whole or in part of the value of any interest described in subsection (a) (3) by reason of any recovery of money or property in respect of property to which such interest related and which was considered under subsection (a) (1) or (2) as destroyed or seized shall be deemed a recovery of property in respect of property considered under subsection (a) as destroyed or seized. In applying paragraph (3) of this subsection such restoration shall be treated as the recovery of the same interest considered under subsection (a) as destroyed or seized.

(5) *Election by taxpayer for application of paragraph* (3). If the taxpayer elects to have the provisions of paragraph (3) applicable to any taxable year in which he recovered any money or property in respect of property considered under subsection (a) as destroyed or seized, the provisions of paragraph (3) shall be applicable to all taxable years of the taxpayer beginning after December 31, 1941, and such election, once made, shall be irrevocable. The election shall be made in such manner and at such time as the Secretary may by regulations prescribe, except that no election under this paragraph may be made after December 31, 1952, unless the taxpayer recovers money or property (in respect of property considered under subsection (a) as destroyed or seized) during a taxable year ending after the date of the enactment of the Revenue Act of 1951. If pursuant to such election the provisions of paragraph (3) are applicable to any taxable year—

(A) the period of limitations provided in sections 275 and 276 on the making of assessments and the beginning of distraint or a proceeding in court for collection shall not, with respect to—

(1) The amount to be added to the tax for such taxable year under the provisions of paragraph (3), and

(II) Any deficiency for such taxable year or for any other taxable year, to the extent attributable to the basis of the recovered property being determined under the provisions of subsection (d) (2),

expire prior to the expiration of two years following the date of the making of such election, and such amount and such deficiency may be assessed at any time prior to the expiration of such period notwithstanding any law or rule of law which would otherwise prevent such assessment and collection, and

(B) In case refund or credit of any overpayment resulting from the application of the provisions of paragraph (3) to such taxable year is prevented on the date of the making of such election, or within one year from such date, by the operation of any law or rule of law (other than section 3761, relating to compromises), refund or credit of such overpayment may, nevertheless, be made or allowed if claim therefor is filed within one year from such date.

In the case of any taxable year ending before the date of the making by the taxpayer of an election under this paragraph, no interest shall be paid on any overpayment resulting from the application of the provisions of paragraph (3) to such taxable year, and no interest shall be assessed or collected with respect to any amount or any deficiency specified in clause (A), for any period prior to the expiration of six months following the date of the making of such election by the taxpayer.

* * * * *

(d) *Effective dates.* The amendments made by this section shall be applicable to taxable years beginning after December 31, 1941.

PAR. 2. Section 29.127 (c)–1, as amended by Treasury Decision 5454, approved May 10, 1945, is further amended to read as follows:

§ 29.127 (c)–1 *Recoveries in respect of war losses*—(a) *General.* (1) Upon the recovery by the taxpayer in the taxable year of any money or property in respect of property considered under section 127 (a) as destroyed or seized in any prior taxable year, the amount of such recovery must be included in gross income to the extent provided in section 127 (c) (2), unless pursuant to the taxpayer's election the provisions of section 127 (c) (3) are applicable to such recovery. For the treatment of war loss recoveries under such provisions, and the manner of making such election, see paragraphs (c) and (d) hereof.

(2) Except as provided in section 127 (c) (3) (A) and in this paragraph, the amount of the recovery in respect of a war loss in a previous taxable year is determined in the same manner for the purpose of section 127 (c) (2) or (3). The amount of the recovery of any money or property in respect of any war loss is the aggregate of the amount of such money and of the fair market value of such property, both determined as of the date of the recovery. If pursuant to the taxpayer's election under section 127 (c) (5) the provisions of section 127 (c) (3) are applicable to any taxable year in which he recovers the same property or interest considered under section 127 (a) as destroyed or seized in a previous taxable year, the fair market value of such property or interest shall, at the option of the taxpayer, be considered an amount equal to the adjusted basis (for determining loss) of such property or interest in the hands of the taxpayer on the date such property or interest was considered as destroyed or seized. This option is exercisable by the taxpayer with respect to each separate property or interest considered under section 127 (a) as destroyed or seized in a previous taxable year. Also, if the provisions of section 127 (c) (3) are applicable pursuant to the taxpayer's election, the amount of the recovery of any money or property in respect of property considered under section 127 (a) as destroyed or seized in any prior taxable year shall be reduced for the purpose of section 127 (c) (3) (B) and (C) by the amount of the obligations or liabilities with respect to such property, if the taxpayer for any previous taxable year chose under section 127 (b) (2) to treat such obligations or liabilities as discharged or satisfied out of such property, and such obligations or liabilities were not so discharged or satisfied prior to the date of the recovery. See § 29.127 (b)–1. The recoveries in respect of any war loss include the recovery of the property or interest treated as destroyed or seized under section 127 and the recovery of any money or property in lieu of such property or interest or on account of the destruction or seizure of such property or interest. For example, there is a recovery upon the return to the taxpayer after the termination of the war of his property which was treated as resulting in a war loss because it was located in a country at war with the United States. An award by a government on account of the seizure of the taxpayer's property by an enemy country is a recovery under section 127 (c). The amount obtained upon the sale or other transfer by the taxpayer of his right to any property treated as resulting in a war loss is also a recovery for the purpose of section 127 (c). Similarly, if a taxpayer who sustained a war loss under section 127 (c) upon the liquidation of a corporation has received the rights to any property of the corporation which was treated as destroyed or seized under section 127 (a) (1) or (2), any recovery by the taxpayer with respect to such rights is a recovery by him for the purposes of section 127 (c). Furthermore, if any interest of the taxpayer in or with respect to property was determined to be worthless and was treated as a war loss under section 127 (a) (3) (see § 29.127 (a)–4), or if the taxpayer retained an interest in a corporation with respect to which he sustained a war loss under section 127 (e), and if the interest in the hands of the taxpayer is restored in value, in whole or in part, by reason of a recovery with respect to the underlying assets treated as destroyed or seized under section 127, then such restoration in value is a recovery by the taxpayer for the purposes of section 127 (c). In the application of section 127 (c) (3) such restoration shall be treated as a recovery of the same interest considered as destroyed or seized. Property considered as destroyed or seized under section 127 (a) is considered as not being in existence from the date of the loss to the date of its recovery.

(3) For the purpose of section 127 (c), the recoveries considered are only those with respect to war losses sustained in prior taxable years. Similarly, the only deductions considered are those allowable for prior taxable years, and any allowable deductions for the year of the recovery are ignored for the purposes of applying such section to the recovery. If property is treated as destroyed or seized under section 127, and if in the same taxable year there is also a recovery with respect to such property, such recovery is not within the provisions of section 127 (c) but is taken into account under section 127 (b) in determining the amount of the loss, if any, on the destruction or seizure. See section 127 (b)–1. An allowable deduction with respect to a war loss is any deduction to which the taxpayer is entitled on account of any property or interest being treated as destroyed or seized under section 127, regardless of whether or not such deduction was claimed by the taxpayer or otherwise allowed in computing his tax. If a deduction was claimed by a taxpayer in computing his tax for any taxable year, and if such deduction was disallowed, such deduction will not be considered an allowable deduction for such taxable year since the previous determination will not be reconsidered.

(b) *General rule; inclusion of recovery in gross income.* (1) A taxpayer who has sustained a war loss described in section 127 and who has not elected to have the provisions of section 127 (c) (3) apply to any taxable year in which he recovered any money or property in respect of a war loss in any previous taxable year must include in his gross income for each taxable year, to the extent provided in section 127 (c) (2), the amount of his recoveries of money and property for such taxable year in respect of any war loss in a previous taxable year. Section 127 (c) (2) provides that such recoveries for any taxable year are not includible in income until the taxpayer has recovered an amount equal to his allowable deductions in prior taxable years on account of such war losses which did not result in a reduction of any tax under chapter 1 of the Internal Revenue Code, that is, of any income tax of the taxpayer, or chapter 2, including the excess profits tax imposed by subchapter E thereof. War loss recoveries are considered as made first on account of war losses allowable but not actually allowed as a deduction, and second on account of war losses allowed as a deduction but which did not result in a reduction of tax under chapter 1 or chapter 2. If there were deductions allowed on account of war losses for two or more taxable years which did not result in a reduction of any tax under chapter 1 or chapter 2, a recovery on account of such losses is considered as made on account of such losses in the order of the taxable years for which they were allowed, beginning with the latest. See § 29.127 (f)–1 for the determination of the amount of such deductions. Recoveries in excess

of such amount are treated as ordinary income until such excess equals the amount of the taxpayer's allowable deductions in prior taxable years on account of war losses which did result in a reduction of any such tax under chapter 1 or chapter 2. Any further recoveries in excess of all the taxpayer's allowable deductions in prior taxable years for war losses are treated as gain on an involuntary conversion of property as a result of its destruction or seizure, and such gain is recognized or not recognized under the provisions of section 112 (f). See § 29.112 (f)–1. Such gain, if recognized, is included in gross income as ordinary income unless section 117 (j) applies to cause such gain to be treated as gain from the sale or exchange of a capital asset held for more than six months. See § 29.117–7.

(2) The determination as to whether and to what extent any recoveries are to be included in gross income is made upon the basis of the amount of all the recoveries for each day upon which there are any such recoveries, as follows:

(i) The amount of the recoveries for any day is not included in gross income, and is not considered gain on an involuntary conversion, to the extent, if any, that the aggregate of the allowable deductions in prior taxable years on account of war losses which did not result in a reduction of any tax of the taxpayer under chapter 1 or chapter 2 of the Internal Revenue Code, as determined under § 29.127 (f)–1, exceeds the amount of all previous recoveries in the same and prior taxable years.

(ii) The amount of the recoveries for any day which is not excluded from gross income under (i) is included in gross income as ordinary income, and is not considered gain on an involuntary conversion, to the extent, if any, that the aggregate of all the allowable deductions in prior taxable years on account of war losses (both those which resulted in a reduction of a tax of the taxpayer and those which did not) exceeds the sum of the amount of all previous recoveries in the same and prior taxable years and of that portion, if any, of the amount of the recoveries for such day which is not included in gross income under (i).

(iii) The amount of the recoveries for any day which is not excluded from gross income under subdivision (i) of this subparagraph and is not included in gross income as ordinary income under subdivision (ii) of this subparagraph is considered gain on an involuntary conversion of property as a result of its destruction or seizure. The following provisions then apply to this gain:

(a) Such gain is recognized or not recognized under the provisions of section 112 (f), relating to gain upon such conversion of property. For the purpose of applying section 112 (f), such gain for any day is deemed to be expended in the manner provided in section 112 (f) to the extent the recovery for such day is so expended.

(b) If such gain is recognized it is included in gross income as ordinary income or, if the provisions of section 117 (j) apply and require such treatment, as gain on the sale or exchange of a capital asset held for more than six months. For the purpose of applying section 117 (j), such recognized gain for any day is deemed to be derived from property described in that section to the extent of the recovery for such day with respect to such property, except such portion of such recovery as is attributable to the nonrecognized gain for such day.

(c) Section 127 (d) provides that in determining the unadjusted basis of recovered property, the total gain and the recognized gain with respect to such property must be determined. For such purpose, the recognized gain deemed to be derived from properties described in section 117 (j) may be allocated among such properties in the proportion of the recoveries with respect to such properties, reduced for each property by the portion of the recovery attributable to the nonrecognized gain for such day, and the recoveries with respect to properties not described in section 117 (j) may be similarly allocated. The total gain derived from any recovered property is the sum of the nonrecognized gain attributable to the recovery of such property and of the recognized gain allocable to such property.

(3) The foregoing provisions may be illustrated by the following examples:

Example (1). The taxpayer sustained war losses of $3,000 on account of properties A, B, C, and D. Of this amount, $1,000 did not result in a reduction of any income tax of the taxpayer, as determined under the provisions of § 29.127 (f)–1. In a subsequent taxable year, he received an award of $800 from the Government on account of property A. This is not included in income since it is less than the amount by which his allowable deductions for prior taxable years on account of war losses which did not result in any tax benefit, $1,000, exceed $0, the sum of all his previous recoveries. On a later date the taxpayer recovers property B, which is worth $1,500 on the date of recovery. This recovery is not included in gross income to the extent of $200, the amount by which the allowable deductions for prior taxable years on account of war losses which did not result in any tax benefit, of $1,000, exceed the sum of all previous recoveries, or $800. All of the remaining $1,300 of the recovery is included in gross income as ordinary income, and is not considered gain on the involuntary conversion of property, since it is less than the amount by which the aggregate of all the allowable deductions in prior taxable years on account of war losses, or $3,000, exceeds $1,000, the sum of the $800 of previous recoveries and of the $200 portion of the recovery with respect to B which is not included in gross income. On a still later date the taxpayer sells for $2,500 his rights to recover C. Since the allowable deductions for prior taxable years on account of war losses which did not result in any tax benefit ($1,000) do not exceed the previous recoveries by the taxpayer ($800 and $1,500, or $2,300), none of the recovery on account of C is excluded from gross income. This recovery is included in gross income as ordinary income, and is not considered gain on the involuntary conversion of property, to the extent of $700, the amount by which the aggregate of all the allowable deductions for prior taxable years on account of war losses ($3,000) exceeds $2,300, the sum of the $2,300 of previous recoveries and of the $0 portion of the recovery on account of C which is not included in gross income. The remaining $1,800 of the recovery is considered gain on an involuntary conversion of property on account of its destruction or seizure, and is not recognized if forthwith expended in the manner provided in section 112 (f). Thus, it is not recognized if it is forthwith expended for the acquisition of property relating in service or use to C. On a later date the taxpayer recovers D, which has a fair market value of $400 at the time of the recovery. Since the aggregate of all the allowable deductions for prior taxable years on account of war losses ($3,000) does not exceed the previous recoveries by the taxpayer ($800 + $1,500 + $2,500, or $4,800), all of the recovery with respect to D is considered gain on an involuntary conversion of property as a result of its destruction or seizure. Under the provisions of section 112 (f), this gain is not recognized if D is used for the same purposes for which it was used before it was deemed destroyed or seized under section 127.

Example (2). The taxpayer on one day recovers $3,000 for property A and $7,000 for property B, both of which were treated under section 127 as destroyed or seized in a prior taxable year, and $8,000 of such $10,000 recoveries is considered gain on the involuntary conversion of property as a result of its destruction or seizure. The taxpayer forthwith expends $5,000 in the acquisition of property similar in use to B. Therefore, $5,000 of the $8,000 gain is not recognized under section 112 (f), leaving $3,000 of recognized gain. Property B is within the provisions of section 117 (j), relating to gains and losses on the involuntary conversion of certain described property, but property A is not. Therefore, the provisions of section 117 (j) apply to $2,000 of the $3,000 gain, that is, the amount of the recovery with respect to B which is not attributable to the nonrecognized gain for such day ($7,000 minus $5,000). If the taxpayer forthwith expended $8,000 or more for the acquisition of property similar in use to B, none of the gain would be recognized. If the taxpayer forthwith expended the $5,000 to acquire property related in use to A, the $3,000 recognized gain would be considered derived from B to the extent of the recovery with respect to B ($7,000), not reduced by any nonrecognized gain since none of such recovery is attributable to such nonrecognized gain, and therefore all of the $3,000 recognized gain would be subject to the provisions of section 117 (j).

(c) *Elective method; tax adjustment measured by prior benefits.* (1) If the taxpayer elects pursuant to section 127 (c) (5) and in accordance with the provisions of these regulations to have the provisions of section 127 (c) (3) apply to any taxable year in which he recovers any money or property in respect of property considered under section 127 (a) as destroyed or seized in any previous taxable year, the amount of the recovery in respect of such property for any taxable year shall not be included in income until the taxpayer has recovered an amount equal to his allowable deductions in prior taxable years on account of the destruction or seizure of such property, whether or not such allowable deductions resulted in a reduction of any tax under chapter 1 or chapter 2 of the Internal Revenue Code. However, for the purposes of section 51, relating to the requirement of individual returns, section 52, relating to the requirement of corporation returns, and section 3801 (b), relating to the mitigation of the effect of the statute of limitations, the entire amount of the recovery shall be deemed to be an item includible in gross income for the taxable year in which the recovery is made. In lieu of including such amount in gross income, there shall be added to, and assessed and collected as a part of, the

able year, the fair market value of such

seized. Property considered as destroyed

asset held for more than six months. struction or seizure, and is not recognized if

assessed and collected as a part of, the

tax imposed under chapter 1 for the taxable year of the recovery and adjustment on account of any tax benefits in all prior taxable years resulting directly or indirectly from the fact that the loss from the destruction or seizure of such property was an allowable deduction. The amount of such adjustment shall be the total increase in the tax under chapter 1 of the Code, that is, any income tax of the taxpayer, and under chapter 2 including the excess profits tax imposed by subchapter E thereof, for all taxable years which would result by decreasing such allowable deductions with respect to the destruction or seizure of such property by an amount equal to that portion of the amount of the recovery which is not included in gross income for the taxable year of the recovery. The portion of the amount of the recovery which is in excess of such allowable deductions is included in gross income for the taxable year of the recovery as gain on the involuntary conversion of property as a result of its destruction or seizure and is recognized or not recognized as provided in section 112 (f). See § 29.112 (f)-1. Such gain, if recognized, is included in gross income as ordinary income unless section 117 (j) applies to cause such gain to be treated as gain on the sale or exchange of capital assets held for more than six months. See § 29.117-7.

(2) The determination as to whether and to what extent the amount of the recovery is to be excluded from gross income is to be made upon the basis of the total amount of the recoveries in each taxable year in respect of the same property considered under section 127 (a) as destroyed or seized in any previous taxable year, as follows:

(i) The amount of the recovery in any taxable year is excluded from the gross income of such year and is not considered gain on an involuntary conversion to the extent that such amount does not exceed the aggregate of the allowable deductions in prior taxable years on account of the destruction or seizure of such property (whether or not such deductions resulted in a reduction of a tax of the taxpayer) reduced by the aggregate amount of any recoveries in intervening taxable years in respect of the same property.

(ii) The amount of the recovery in any taxable year which is not excluded from gross income under (i) is included in gross income and is considered gain on an involuntary conversion of property as a result of its destruction or seizure. The following provisions apply to this gain:

(*a*) Such gain is recognized or not recognized under the provisions of section 112 (f) relating to gain upon such conversion of property. For the purpose of applying section 112 (f), such gain for any taxable year is deemed to be expended in the manner provided in section 112 (f) to the extent the recovery in such taxable year is so expended.

(*b*) If such gain is recognized it is included in gross income as ordinary income or, if the provisions of section 117 (j) apply and require such treatment, as gain on the sale or exchange of a capital asset held for more than six months. In the case of the recovery of the same property or interest considered under section 127 (a) as destroyed or seized, any gain will not be deemed to be recognized under the provisions of section 112 (f) if such property is used for the same purpose for which it was used before it was deemed destroyed or seized under section 127 (a).

(3) The determination of the total increase in the tax under chapters 1 and 2 of the Code for all taxable years which would result by decreasing the deductions allowable in any prior taxable years with respect to the destruction or seizure of the property in respect of which the taxpayer has made a recovery by an amount equal to the part of such recovery not included in gross income for the taxable year of such recovery shall be made as provided in this subparagraph. Such total increase shall include the increases described in subdivisions (i), (ii), (iii), and (iv) of this subparagraph, and shall be added to, and assessed and collected as a part of, the tax under chapter 1 for the taxable year of the recovery. Proper adjustment of such increases shall be made on account of the application of the provisions of this subparagraph to intervening taxable years. Proper adjustment shall also be made in the determination of such increases in the case of a taxpayer who has made a valid election under section 113 (d), relating to the adjustment of basis of property for depreciation, obsolescence, amortization and depletion. The term "tax previously determined" as used in this subparagraph shall have the same meaning as used in section 3801 (d) of the Code and shall include any tax under chapter 1 or chapter 2 of the Code. In computing the amount of the increase in the tax previously determined under chapter 1 or chapter 2 for any taxable year, the principles of section 3801 (d) shall be applicable. See § 29.3801 (d)-1. However, the computation of the excess profits credit under chapter 2E for any taxable year shall not be affected by the adjustment provided in this subparagraph. All credits allowable against the tax for any year shall be taken into account in computing the increase in the tax previously determined. The increases referred to in this subparagraph include the following:

(i) The increase, if any, in the tax previously determined for each prior taxable year in which a deduction was allowable on account of the destruction or seizure of the property in respect of which there is a recovery in the taxable year. After the tax previously determined has been ascertained, such tax shall be recomputed by disregarding such allowable deduction (to the extent that it does not exceed the sum of the amount of such recovery not included in gross income for the taxable year of such recovery, plus the aggregate amount of any recoveries in intervening taxable years in respect of the same property) and any other deductions allowable on account of other war losses or any other losses, expenditures or accruals in such prior taxable year in respect of which, and to the extent that, recoveries in intervening taxable years have been excluded from gross income under section 127 (c) (3), section 22 (b) (12), or otherwise. The difference between the tax previously determined and the tax as recomputed will be the increase in the tax previously determined for the taxable year.

(ii) The increase, if any, in the tax previously determined for any taxable year (including the taxable year of the recovery) in which a net operating loss deduction was allowable, if all or a part of such deduction was attributable to the carry-over or carry-back to such taxable year of a net operating loss from another taxable year in which a deduction was allowable on account of the destruction or seizure of the property in respect of which there is a recovery in the taxable year to which such increase is to be added. After the tax previously determined has been ascertained, such tax shall be recomputed by redetermining such net operating loss deduction. In the determination of such net operating loss deduction the net operation loss shall be recomputed by disregarding the deduction allowable on account of the war loss in respect of which there is a recovery in the taxable year to which such increase is to be added (to the extent that such deduction does not exceed the sum of the amount of such recovery not included in gross income for the taxable year of such recovery, plus the aggregate amount of any recoveries in intervening taxable years in respect of the same property) and by disregarding any other deductions allowable on account of other war losses or any other losses, expenditures, or accruals in the taxable year in respect of which, and to the extent that, recoveries in intervening taxable years have been excluded from gross income under section 127 (c) (3), section 22 (b) (12), or otherwise. The difference between the tax previously determined and the tax as recomputed will be the increase in the tax previously determined for the taxable year.

(iii) The increase, if any, in the tax previously determined for any taxable year (including the taxable year of recovery) in which an unused excess profits credit was availed of in computing the unused excess profits credit adjustment for such taxable year, if all or a part of such adjustment was attributable to the carry-over or carry-back to such taxable year of an unused excess profits credit from another taxable year in which a deduction was allowable on account of the destruction or seizure of the property in respect of which there is a recovery in the taxable year to which such increase is to be added. After the tax previously determined has been ascertained, such tax shall be recomputed by redetermining such unused excess profits credit carry-over or carry-back. In the recomputation such carry-over or carry-back shall be redetermined by disregarding such allowable war loss deduction (to the extent such deduction does not exceed the sum of the amount of the recovery not included in gross income for the taxable year of such recovery, plus the aggregate amount of any recoveries in intervening taxable years in respect of the same property) and by disregarding any other deductions allowable on account of other war losses or any other losses, expenditures, or accruals in the taxable year in respect of which, and to the extent that, recoveries in intervening taxable years have been excluded from gross income under section 127 (c) (3), section 22 (b) (12), or otherwise. The difference between the tax previously determined and the tax as recomputed shall be the amount of the increase which shall be added to the tax for the taxable year of the recovery. In case there is an increase in the excess profits tax under chapter 2E for the taxable year in which an unused excess profits credit was availed of in computing the unused excess profits credit adjustment, and a decrease in the income tax under chapter 1 for such taxable year, the increase in the tax previously determined shall be considered to be an amount equal to the excess of the increase in the excess profits tax over the decrease in the income tax.

(iv) The increase, if any, in the tax previously determined for any taxable year (including the taxable year of the recovery) in which an unused excess profits credit was availed of in computing the unused excess profits credit adjustment for such taxable year, if all or a part of such adjustment was attributable to the carry-over or carry-back to such taxable year of an unused excess profits credit from another taxable year in which there was allowable a net operating loss deduction attributable to the carry-over or carry-back to such other taxable year of a net operating loss, and such net operating loss resulted in whole or in part from the deduction allowable on account of the destruction or seizure of the property in respect of which there is a recovery in the taxable year to which such increase is to be added. After the tax previously determined has been ascertained, such tax shall be recomputed by redetermining such net operating loss deduction and such unused excess profits credit carry-over or carry-back. In the redetermination of such net operating loss deduction the net operating loss carry-over or carry-back shall be recomputed by disregarding such allowable war loss deduction (to the extent that such deduction does not exceed the sum of the amount of such recovery not included in gross income for the taxable year of such recovery, plus the aggregate amount of any recoveries in intervening taxable years in respect of the same property) and by disregarding any other deductions allowable on account of other war losses or any other losses, expenditures, or accruals in the taxable year in respect of which, and to the extent that, recoveries in intervening taxable years have been excluded from gross income under section 127 (c) (3), section 22 (b) (12), or otherwise. The difference between the tax previously determined and the tax as recomputed shall be the amount of the increase which shall be added to the tax for the taxable year of the recovery. In case there is an increase in the excess profits tax under chapter 2E for the taxable year in which an unused excess profits credit was availed of in computing the unused excess profits credit adjustment, and a decrease in the income tax under chapter 1 for such taxable year, the increase in the tax previously determined shall be considered to be an amount equal to the excess of the increase in the excess profits tax over the decrease in the income tax.

(d) *Elective method; time and manner of making election and effect thereof.* (1) If the taxpayer elects to have the provisions of section 127 (c) (3) applicable to any taxable year in which any money or property is recovered in respect of property considered under section 127 (a) as destroyed or seized, section 127 (c) (3) will be applicable by virtue of that election to all taxable years of the taxpayer beginning after December 31, 1941. Thus, the taxpayer need not make an election with respect to each separate taxable year in which he had a recovery. An election for any taxable year in which the taxpayer had a recovery in respect of a prior war loss is sufficient to make the provisions of section 127 (c) (3) applicable not only to war loss recoveries received by the taxpayer in any past taxable year beginning after December 31, 1941, but to any recoveries which may be received by the taxpayer in any future taxable year. Such election once made shall be irrevocable.

(2) The election of the taxpayer to have the provisions of section 127 (c) (3) applicable to any taxable year in which any money or property is recovered in respect of property considered under section 127 (a) as destroyed or seized must be made not later than December 31, 1952, unless the taxpayer recovers money or property (in respect of a prior war loss) during a taxable year ending after the date of the enactment of the Revenue Act of 1951 (October 20, 1951). If the taxpayer has a recovery during any taxable year ending after the date of the enactment of the Revenue Act of 1951, unless such taxable year is a taxable year ending on or before March 31, 1953, such election must be made by the taxpayer not later than the expiration of six months from the last day prescribed by law for the filing of his income tax return for such taxable year. However, if the taxpayer recovers any money or property (in respect of a prior war loss) during a taxable year ending after the date of the enactment of the Revenue Act of 1951 and on or before March 31, 1953, such election must be made not later than December 31, 1953. In all cases the election shall be made by a written statement that the taxpayer elects to have the provisions of section 127 (c) (3) apply to any taxable year in which any money or property is recovered in respect of property considered under section 127 (a) as destroyed or seized, which statement shall be made in (or attached to)—

(i) The return or amended return filed for such taxable year;

(ii) A claim for refund or credit filed for such taxable year for an overpayment resulting from the application of such provisions;

(iii) A timely petition or amended petition to The Tax Court of the United States for a redetermination of any deficiency for such taxable year;

(iv) A letter addressed to the director of internal revenue for the district in which the return for such taxable year was required to be filed;

If the written statement of election is made in a letter, it shall be signed by the taxpayer making the election if an individual or, if the taxpayer is not an individual, the letter must be executed in the same manner as required in the case of the income tax return of such taxpayer. The date of the making of the election shall be the date the return, amended return, claim for refund or credit, petition or amended petition, the letter or other form of notice approved by the Commissioner is filed in the office of the director of internal revenue. In case the election is made in a return filed before the last day prescribed by law for the filing thereof (including any extension of time for such filing), such election shall not be considered made until such last day. In case the election is made in a letter addressed to the director of internal revenue, such election will be considered as timely filed if it is placed in the mail on or before midnight of the last day prescribed by this paragraph for the making of the election, as shown by the postmark on the envelope containing the letter or as shown by other available evidence of the mailing date.

(3) If the provisions of section 127 (c) (3) are applicable to any taxable year pursuant to an election made by the taxpayer in accordance with the provisions of subparagraph (1) of this paragraph, the period of limitations provided in sections 275 and 276 of the Code on the making of assessments and the beginning of distraint or a proceeding in court for collection with respect to (i) the amount to be added to the tax for such taxable year under the provisions of section 127 (c) (3) and (ii) any deficiency for such taxable year or for any other taxable year to the extent attributable to the basis of the recovered property being determined under the provisions of section 127 (d) (2), shall not expire prior to the expiration of two years following the date of the making of such election. Such amount or such deficiency may be assessed at any time prior to the expiration of such period, notwithstanding any law or rule of law which would otherwise prevent such assessment and collection. No interest shall be assessed or collected with respect to any such amount or any such deficiency for any period prior to the expiration of six months following the

gain on the sale or exchange of a capital taxable years have been excluded from disregarding any other deductions allow-

date of the making of the election by the taxpayer.

(4) If the provisions of section 127 (c) (3) are applicable to any taxable year pursuant to an election made by the taxpayer in accordance with the provisions of subparagraph (1) of this paragraph and refund or credit of any overpayment resulting from the application of such provisions to such taxable year is prevented on the date of the making of such election, or within one year from such date, by the operation of any law or rule of law (other than section 3761 relating to compromises), refund or credit of such overpayment may nevertheless be made or allowed, provided claim therefor is filed within one year from such date. Thus, the amount of such overpayment which may be refunded or credited is not subject to the limitations contained in section 322 (b) or (d). No interest shall be paid on any overpayment resulting from the application of the provisions of section 127 (c) (3) to any taxable year ending before the date of the making of the election by the taxpayer.

(b) *Basis of recovered property.* Section 127 (d) (relating to basis of recovered property) is hereby amended to read as follows:

(d) *Basis of recovered property*—(1) *In general.* The unadjusted basis of property recovered in respect of property considered as destroyed or seized under subsection (a) shall be determined under this subsection. Such basis shall be an amount equal to the fair market value of such property, determined as of the date of the recovery, reduced by an amount equal to the excess of the aggregate of such fair market value and the amounts of previous recoveries of money or property in respect of property considered under subsection (a) as destroyed or seized over the aggregate of the allowable deductions in prior taxable years on account of the destruction or seizure of property described in subsection (a), and increased by that portion of the amount of the recovery which under subsection (c) is treated as a recognized gain from the involuntary conversion of property. Upon application of the taxpayer, the aggregate of the bases (determined under the preceding sentence) of any properties recovered in respect of properties considered under subsection (a) as destroyed or seized may be allocated among the properties so recovered in such manner as the Secretary may determine under regulations prescribed by him, and the amounts so allocated to any such property so recovered shall be the unadjusted basis of such property in lieu of the unadjusted basis of such property determined under the preceding sentence.

(2) *Property recovered in taxable year to which subsection (c) (3) is applicable.* In the case of a taxpayer who has made an election under the provisions of subsection (c) (5), the basis of property recovered shall be an amount equal to the value at which such property is included in the amount of the recovery under subsection (c) (3) (A) (determined without regard to the last sentence thereof), reduced by such part of the gain under subsection (c) (3) (C) which is not recognized as provided in section 112 (f).

* * * * * * *

(d) *Effective dates.* The amendments made by this section shall be applicable to taxable years beginning after December 31, 1941.

PAR. 4. Section 29.127 (d)–1 is amended as follows:

(A) By inserting immediately preceding the first sentence thereof the following: "(a) *General rule.*"

(B) By striking "section 127 (d)" in each place where such term appears therein and inserting in lieu thereof in each place the following: "section 127 (d) (1)".

(C) By striking "§ 29.127 (c)–1" in each place where such term appears therein and inserting in lieu thereof the following: "§ 29.127 (c)–1 (b)".

(D) By redesignating paragraphs (b), (c), (d), (e) and (f) as subparagraphs (3), (4), (5), (6) and (7) of paragraph (a) and by adding at the end thereof the following new paragraph (b):

(b) *Property recovered in taxable year to which section 127 (c) (3) is applicable.* If, pursuant to an election made by the taxpayer under section 127 (c) (5) and § 29.127 (c)–1 (d) of these regulations, the provisions of section 127 (c) (3) are applicable to any taxable year in which the taxpayer recovered property in respect of a war loss under section 127, the unadjusted basis of such property shall be the fair market value of such property determined as of the date of the recovery, reduced by the amount of nonrecognized gain attributable to such recovery under the provisions of § 29.127 (c)–1 (c). However, if the property recovered is the same property or interest considered under section 127 (a) as destroyed or seized, and if the taxpayer under section 127 (c) (3) (A) includes such property or interest in the amount of the recovery at its adjusted basis (for determining loss) in his hands on the date such property or interest was considered under section 127 (a) as destroyed or seized, the unadjusted basis of such property shall be such adjusted basis, reduced by the amount of nonrecognized gain attributable to such recovery under the provisions of § 29.127 (c)–1 (c). The fair market value of any property recovered, or the adjusted basis (for determining loss) of such property or interest if the same property or interest treated as a war loss under section 127 is recovered, shall not be reduced in determining the unadjusted basis of such property or interest by the amount of the obligations or liabilities with respect to the property treated as a war loss under section 127 in respect of which the recovery was received, if the taxpayer for any previous taxable year chose under section 127 (b) (2) to treat such obligations or liabilities as discharged or satisfied out of such property but such obligations or liabilities were not so discharged or satisfied prior to the date of the recovery.

PAR. 5. Section 29.127 (f)–1, as amended by Treasury Decision 5454, approved May 10, 1945, is further amended as follows:

(A) By inserting immediately after the term "chapter 1" in each place where such term appears therein the following: "or chapter 2".

(B) By inserting immediately after the words "or of any tax imposed in lieu of such taxes" in the first sentence of paragraph (a) thereof the following: "or of any tax imposed by chapter 2 of the Internal Revenue Code."

PAR. 6. There is inserted immediately preceding § 29.131–1 the following:

SEC. 341. WAR LOSSES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * * *

(c) *Credit for foreign taxes.* Section 131 (a) (relating to allowance of credit for taxes of foreign countries and possessions of the United States) is hereby amended by inserting after "section 102" the following: "and except the additional tax imposed for the taxable year under the provisions of section 127 (c) (3).

(d) *Effective dates.* The amendments made by this section shall be applicable to taxable years beginning after December 31, 1941.

PAR. 7. Section 29.131–1, as amended by Treasury Decision 5893, approved April 4, 1952, is further amended by striking paragraph (e) thereof and inserting in lieu thereof the following:

(e) For taxable years beginning before January 1, 1943, no credit for taxes shall be allowed against the tax imposed under section 102, relating to surtax on corporations improperly accumulating surplus, and for taxable years beginning after December 31, 1942, no credit for taxes shall be allowed against the tax imposed under section 102, relating to surtax on corporations improperly accumulating surplus, against the additional tax imposed under the provisions of section 127 (c) (3), relating to war loss recoveries, or against the victory tax imposed under section 450. No credit for taxes shall be allowed against the tax on self-employment income imposed by section 480.

PAR. 8. Section 29.275–1, as amended by Treasury Decision 5942, approved October 24, 1952, is further amended by adding at the end thereof the following undesignated paragraph:

For the period of limitation for assessing amounts determined under section 127 (c) (3) (relating to war loss recoveries) or any deficiency attributable to the basis of recovered property being determined under section 127 (d) (2), see section 127 (c) (5) and the regulations thereunder.

PAR. 9. Section 29.322–7, as amended by Treasury Decision 5942, approved October 24, 1952, is further amended as follows:

(A) By adding at the end of paragraph (a) thereof the following undesignated subparagraph:

For special provisions in the case of an overpayment resulting from the application of section 127 (c) (3) (relating to war loss recoveries), see section 127 (c) (5) and the regulations thereunder.

(B) By adding at the end of paragraph (d) thereof the following undesignated subparagraph:

For special provisions in the case of an overpayment resulting from the application of section 127 (c) (3) (relating to war loss recoveries), see section 127 (c) (5) and the regulations thereunder.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 183]

CPR 183—NORTHEASTERN HARDWOOD LUMBER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 183 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes specific dollars-and-cents ceiling prices at the manufacturing level for green and air-dried hardwood lumber produced in the Northeastern Hardwood Lumber Region, consisting of the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, and all of the State of Maryland except the counties of Garrett, Allegany, Washington, and Frederick. The hardwood lumber covered by this regulation is produced from deciduous trees, the most important of which are the Red and White Oaks, Hard Maple, Birch, Beech, Cherry, and Basswood.

The Northeastern hardwood lumber industry consists of some 5,400 mills, most of which are small operations producing less than one million board feet per year. A substantial part of the total production is from a relatively few integrated companies which turn out rough and surfaced lumber and various lumber products. The total output of the hardwood industry in this area, according to the Census of Manufacturers in 1947, was 871 million board feet, which was about 11.7 percent of the total hardwood lumber production in the United States. The Northeastern Hardwood Lumber Region normally produces less hardwood lumber than is consumed by its wood-using industries and by construction users within the region.

Ceiling prices are set at the mill level on an f. o. b. mill basis. The regulation also provides for sales on a delivered basis, in which case established air-dried and green weights set forth in this regulation must be applied in computing transportation additions. A table of percentages is given for use in computing the weights of kiln-dried, surfaced, and resawn lumber.

The regulation requires that lumber covered be graded in accordance with the 1952 "Rules for the Measurement and Inspection of Hardwood Lumber, Cypress, Veneers and Thin Lumber," published by the National Hardwood Lumber Association.

Pending the issuance of an applicable service regulation, lumber sold surfaced, resawn, or kiln-dried may include a charge not to exceed the highest amount added for such services in a sale to a purchaser of the same class made during the period of January 25, 1951, through February 24, 1951.

Lumber sold on specifications for special widths or lengths may include a charge not to exceed the highest amount added for such special sizes in a sale to a purchaser of the same class made during the period of January 25, 1951, through February 24, 1951.

The ceiling price of items covered by the regulation for which dollars-and-cents ceiling prices are not shown is the highest price charged to a purchaser of the same class during the period of January 25, 1951, through February 24, 1951.

In recognition of their historic function in this industry, provision is made for allowing commission men, through whom a sale may be made, an addition to the mill ceiling price.

Provision is made for additions to ceiling prices for retail-type sales, mixed carload or mixed truck-load shipments, bundling, stenciling, and antistain treatment. These additions are included in this tailored regulation in order to insure continuation under price stabilization of standard industry practices.

By establishing dollars-and-cents ceilings for the various species, grades, and sizes of green and air-dried hardwood lumber at the prevailing level of the GCPR ceilings, this regulation eliminates the distorted pattern frozen under the GCPR. The ceilings set by this regulation are approximately at the level of prices prevailing during the period January 25, 1951, through February 24, 1951.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization, the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable, the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objective of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24 to June 24, 1950, inclusive; to prices prevailing from January 25 to February 24, 1951, inclusive; to prices prevailing just before the issuance of this regulation; and to relevant factors of general applicability.

In the formulation of this regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. This consultation included two meetings with the Northeastern Hardwood Lumber Industry Advisory Committee, and one meeting with a subcommittee thereof.

Every effort has been made to conform this regulation to business practices existing in the Northeastern Hardwood Lumber Region with respect to the production, sale, and distribution of hardwood lumber produced in that area. Insofar as any provisions of this regulation may operate to compel changes in these business practices, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

ARTICLE I—COVERAGE

SECTION 1.1 *What this regulation does.* This regulation establishes manufacturers' dollars-and-cents ceiling prices for most standard grades and items of air-dried and green rough hardwood lumber produced in the Northeastern Hardwood Lumber Region (as defined in section 1.3 (c). The regulation also provides ceiling prices for special items.

SEC. 1.2 *Which regulation is superseded.* Except as otherwise provided in section 6.4 (a), the General Ceiling Price Regulation is superseded in respect to all transactions covered by this regulation.

SEC. 1.3 *Items, species, and area of production covered.* (a) This regulation covers all hardwood lumber produced in the Northeastern Hardwood Lumber Region. It does not cover items fabricated from lumber such as flooring, hand rails, mouldings, step treads and thresholds, and sawn timbers such as cross ties, mine ties, switch ties, mine material, navy oak ship stock, and small dimension stock.

(b) The term "hardwood lumber" refers to all lumber produced from broad-leaved deciduous trees, and specifically includes all species in the following genera: Ash (Fraxinus), Basswood (Tilia), Beech (Fagus), Cherry (Prunus), Soft Elm (Ulmus), Hickory (Carya), Soft Maple (Acer), and Oak (Quercus); and the following species: Butternut (Juglans cinerea), Chestnut (Castanea dentata), Hard Maple (Acer saccharum), Poplar (Liriodendron tulipifera), and Birch (Betula lutea).

(c) The term "Northeastern Hardwood Lumber Region" refers to an area which includes the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, and all of the state of Maryland except the counties of Garrett, Allegany, Washington, and Frederick.

SEC. 1.4 *Sellers and transactions covered.* (a) This regulation applies to every sale by manufacturers of the lumber covered by this regulation, whether effected directly, or through lumber commission salesmen, and whether the sale is made to a wholesaler, retailer, industrial user, or to any other consumer or reseller. Section 3.1 of this regulation provides an addition to cover the services of a lumber commission salesman. Supplementary Regulation 87 to the General Ceiling Price Regulation establishes a formula for determining wholesalers' and other resellers' markups which may be added to manufacturers' selling prices. The ceiling prices for export sales are covered by Ceiling Price Regulation 61, except as otherwise set forth in section 4.1 (a) (3) of this regulation.

(b) The term "manufacturer" includes sawmills, planing mills, and concentration yards. Sawmills are establishments producing rough lumber from logs by sawing. Planing mills are establishments surfacing lumber by planing. Concentration yards are establishments which receive rough lumber chiefly in green condition from several manufacturers; prepare it for commercial shipment by grading, resorting, drying, planing, resawing, or other processing; and sell their lumber chiefly to large industrial users, resellers, or building contractors.

The term "lumber commission salesman" is defined in section 3.1.

SEC. 1.5 *Geographical applicability.* Every manufacturer's sale for delivery (f. o. b. mill or on a delivered basis) in the forty-eight states of the United States and the District of Columbia, is subject to this regulation, whether or not the sale of the lumber is made in the United States.

SEC. 1.6 *How to determine your ceiling prices.* (a) This section furnishes a general guide as to how to determine your ceiling prices under this regulation. It also shows how ceiling price provisions of this regulation are related to each other.

(b) The basic ceiling prices established in Article II of this regulation are f. o. b. mill ceiling prices. Additions to these ceiling prices may be made under the circumstances shown in the table below:

Additions	*Where shown in regulation*
Shipments in straight or mixed cars of the better grades	Section 2.1
Special widths and lengths	Section 2.2
Sales through lumber commission salesmen	Section 3.1
Retail-type sales	Section 3.2
Special services required	Article IV
Sales on a delivered basis	Section 5.2
Mixed car shipments	Section 5.3

(c) The ceiling prices for various standard grades and items of lumber subject to this regulation are shown in section 2.1; for Bending Oak and other listed grades, in section 2.3; for Tie Siding, in section 2.4; for residue lumber, in section 2.5; for ungraded hardwood lumber, in section 2.6; and for lumber that is kiln-dried, resawn, and surfaced, in section 2.7. Note that under certain circumstances described in section 5.5, you must allow a discount for cash.

ARTICLE II—CEILING PRICES

SEC. 2.1 *Graded rough hardwood lumber.* The ceiling prices, f. o. b. mill, and the established air-dried and green weights for standard grades of rough hardwood lumber in random widths and lengths produced in the Northeastern Hardwood Lumber Region are as follows: (All prices shown are per thousand feet.)

(1) FIRM TO TOUGH ASH

(Air-dried or green)

Thickness (inch)	Established air-dried or green weight (pounds per 1,000 feet)	FAS	FAS 1 Face	No. 1 Common	No. 2 Common	No. 3 Common
4/4	3,000	$165	$155	$110	$66	$33
5/4	3,500	175	165	123	78	39

When an order includes no grades lower than FAS 1 Face in a specified thickness of Hard Maple, you may add not more than $25.00 per thousand feet to the applicable ceilings listed above for the specified thickness of Hard Maple. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

For No. 1 White Hard Maple, compute your ceiling prices by adding $25.00 per thousand feet to the applicable ceiling prices listed above for Hard Maple in all grades.

For No. 1 and No. 2 White Hard Maple, when shipped together but loaded separately, compute your ceiling prices by adding $20.00 per thousand feet to the applicable ceiling prices listed above for Hard Maple in all grades.

For No. 2 White Hard Maple, compute your ceiling prices by adding $15.00 per thousand feet to the applicable ceiling prices listed above for Hard Maple in all grades.

For No. 1 Common and Better Straight Grain Hard Maple, Grain Slope not over 1" in 12", compute your ceiling prices by adding $20.00 to the applicable ceiling prices listed above for Hard Maple of grades No. 1 Common, FAS 1 Face, and FAS.

For Curly and Birdseye Hard Maple No. 1 Common and Better, compute your ceiling prices by adding $50.00 per thousand feet to the applicable ceiling prices listed above for Hard Maple of grades No. 1 Common, FAS 1 Face, and FAS.

For No. 1 Common and Better Hard Maple Heel Stock of 6/4" through 10/4" thicknesses, compute your ceiling prices by adding $15.00 per thousand feet to the applicable ceiling prices listed above for Hard Maple of grades No. 1 Common, FAS 1 Face, and FAS in 6/4", 8/4", 9/4", and 10/4" thicknesses.

When an order includes no grades lower than FAS 1 Face in a specified thickness of Soft Maple, you may add not more than $25.00 per thousand feet to the applicable ceilings listed above for the specified thickness of Soft Maple. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

For No. 1 White Soft Maple, compute your ceiling prices by adding $25 per thousand feet to the applicable ceiling prices listed above for Soft Maple in all grades.

For No. 1 and No. 2 White Soft Maple, when shipped together but loaded separately, compute your ceiling prices by adding $20 per thousand feet to the applicable ceiling prices listed above for Soft Maple in all grades.

For No. 2 White Soft Maple, compute your ceiling prices by adding $15.00 per thousand feet to the applicable ceiling prices listed above for Soft Maple in all grades.

For No. 1 Common and Better Soft Maple Heel Stock of 6/4" through 10/4" thicknesses, compute your ceiling prices by adding $15.00 per thousand feet to the applicable ceiling prices listed above for Soft Maple in grades No. 1 Common, FAS 1 Face, and FAS in 6/4", 8/4", 9/4" and 10/4" thicknesses.

When an order includes no grades lower than FAS 1 Face in a specified thickness of Plain Red Oak, you may add not more than $25.00 per thousand feet to the applicable ceilings listed above for the specified thickness of Plain Red Oak. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

For quarter sawn Red Oak in all grades and thicknesses, compute your ceiling prices by adding $30 per thousand feet to the applicable ceiling prices listed above for Plain Red Oak of the same grades.

For rift sawn Red Oak in all grades and thicknesses 4" and wider, compute your ceiling prices by adding $40 per thousand feet to the applicable ceiling prices listed above for Plain Red Oak in all grades.

For FAS Plain Red Oak Step Plank, compute your ceiling prices by adding $45 per thousand feet to the applicable ceiling prices listed above for Plain Red Oak of FAS grade.

For No. 1 Common Plain Red Oak Step Plank, compute your ceiling prices by adding $35.00 per thousand feet to the applicable ceiling prices listed above for Plain Red Oak of No. 1 Common grade.

For FAS Plain Red Oak Sill Stock, compute your ceiling prices by adding $35.00 per thousand feet to the applicable ceiling prices listed above for FAS Plain Red Oak of FAS grade.

For No. 1 Common Plain Red Oak Sill Stock, compute your ceiling prices by adding $25.00 per thousand feet to the applicable ceiling prices listed above for Plain Red Oak of No. 1 Common grade.

When mixed Plain Red Oak and Plain White Oak are shipped, you must use the Plain Red Oak ceiling prices unless the species are loaded separately in the shipment.

When an order includes no grades lower than FAS 1 Face in a specified thickness of Poplar, you may not add more than $25.00 per thousand feet to the applicable ceilings listed above for the specified thickness of Poplar. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

SEC. 2.2 *Special widths and lengths.* Your ceiling price f. o. b. mill when not specifically stated elsewhere in this regulation, for lumber covered by this regulation of special width and/or length, is determined as follows:

(a) Take the f. o. b. mill ceiling price of the standard item of the same species, grade, and thickness for which a dollars-and-cents ceiling price is set forth in this regulation, and add thereto the highest amount or amounts which you added for such special width and/or length to the price of the same standard item in your f. o. b. sales or contracts to sell to a purchaser of the same class during the period January 25, 1951, through February 24, 1951.

(b) If you did not sell or contract to sell lumber of the same species, grade, and thickness with the special width and/or length during the period January 25, 1951, through February 24, 1951, take the f. o. b. mill ceiling price of the standard item of the same species, grade, and thickness for which a dollars-and-cents ceiling price is set forth in this regulation, and add thereto the highest amount or amounts which you added for such special width and/or length to the price of the most nearly comparable standard item in your f. o. b. sales or contracts to sell to a purchaser of the same class during the period January 25, 1951, through February 24, 1951.

SEC. 2.3 *Bending Oak and other listed grades.* Your ceiling price f. o. b. mill for any item of lumber covered by this regulation within any of the grades or combinations of grades listed below, when not specifically stated elsewhere in this regulation, is the highest f. o. b. mill price at which you sold or contracted to sell such item to a purchaser of the same class during the period January 25, 1951, through February 24, 1951:

Bending Oak.
Bridge Plank and Crossing Plank.
Common Dimension.
Freight Car Stock.
Milpak.
Mine Car Lumber.
Select Car Stock.
Select Dimension.
Sound Square Edge.
Timbers.

SEC. 2.4 *Rough tie siding.* Ceiling prices f. o. b. mill for rough tie siding sold on grade are $5.00 per thousand feet lower than the ceiling prices for the same grade and species of standard lumber in regular widths and lengths as shown in the price tables in section 2.1.

SEC. 2.5 *Residue sales.* The ceiling price for residue ungraded lumber is $30.00 per thousand feet f. o. b. mill. The term "residue ungraded lumber" is the below-grade lumber commonly called "culls" or "scoots."

SEC. 2.6 *Ungraded hardwood lumber.* When lumber covered by this regulation is not separately graded or is sold ungraded as Log Run, Mill Run, No. 1 Common and Better, or any other combination of grades, the ceiling price for the entire shipment shall be the ceiling price for the lowest price species and grade included in the shipment. If any of the lumber so sold is shipped green, the ceiling price of all lumber in the shipment shall be the ceiling price for green lumber of the lowest priced species and grade included in the shipment.

SEC. 2.7 *Kiln-dried, resawn, and surfaced lumber.* If you sell lumber subject to this regulation which is kiln-

dried, resawn, and/or surfaced in accordance with the purchaser's specification, compute your f. o. b. mill ceiling prices for such lumber by taking the applicable f. o. b. mill ceiling prices for air-dried rough lumber set forth in this regulation, and adding thereto the highest amount or amounts which you added for such kiln-drying, resawing, and/or surfacing in your f. o. b. mill sales or contracts to sell to a purchaser of the same class during the period January 25, 1951, through February 24, 1951. The provisions of this paragraph are to apply until such time as specific additions for kiln drying, resawing, and/or surfacing are made uniformly applicable to manufacturers covered by this regulation.

SEC. 2.8 *How to calculate weights for shipping kiln-dried, surfaced, and resawn lumber.* This section provides a procedure for determining the weights of kiln-dried, surfaced, and resawn lumber. These weights are authorized for use in determining transportation charges in the calculation of ceiling delivered prices as provided in section 5.2.

(a) *Kiln-dried.* The established shipping weight for kiln-dried lumber is 10 percent less than the applicable air-dried weight shown in the tables of section 2.1, rounded to the nearest 50 pounds. For example, the kiln-dried shipping weight for rough 4/4" Plain Red Oak is 3,800 pounds. (4,200 less 10 percent (420) = 3,780, which is rounded to 3,800.)

(b) *Surfaced lumber.* To determine shipping weight for surfaced lumber, consult the table in this paragraph. Find the percentage shown for the nominal thickness under the appropriate heading describing the surfacing done, and apply this percentage to the rough weight of the item as shown in section 2.1, or as determined under this section.

Example 1. To calculate the weight for random width 4/4" Plain Red Oak lumber surfaced two sides to 13/16": In price table (12), the air-dried weight of the rough lumber is shown as 4,200 pounds. In the table given below, column (1) shows the 4/4" nominal thickness; column (2), the 13/16" finished thickness; and from column (3), applicable to "surfaced two sides", the percentage figure of 78 is obtained. The surfaced weight is therefore 78 percent of 4,200, or 3,276, which is then rounded to 3,300 pounds.

Example 2. To calculate the weight of 4/4" Plain Red Oak lumber 8" stock width surfaced four sides to 13/16" x 7½": The procedure is the same as in Example 1, except that instead of using the 78 percent shown in column (3), you use the 73 percent figure shown in column (7) for 8" lumber surfaced four sides to 7½" wide. (Columns (4) through (9) are applicable to both finished thicknesses and finished widths.) The surfaced weight is 73 percent of 4,200 or 3,066 pounds, which is rounded to 3,050 pounds.

	3 5/8	90	73	81	84	84	85	86

(c) *Resawn lumber.* The weight for rough lumber resawn is the weight of the rough lumber as shown in the tables of section 2.1 less 5 percent for each saw kerf. The weight for lumber surfaced and then resawn is the weight of the surfaced lumber (as calculated in accordance with paragraph (b) of this section) less 5 percent of the rough lumber weight for each saw kerf.

SEC. 2.9 *Ceiling prices for special specifications.* (a) *Application.* If you cannot ascertain your ceiling price for lumber covered by this regulation under any other provision of this regulation, as for example, should you wish to sell lumber of a hardwood species, for which ceiling prices are not set forth, or lumber with special workings, grades, sizes, services or other extras not specifically mentioned in this regulation, you must apply by registered mail, return receipt requested, to the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., for the establishment of a ceiling price. You may file on OPS Public Form No. 132, which is obtainable from any Regional or District Office of the Office of Price Stabilization. Your application must set forth the following:

(1) As complete a description as possible of the item which is the subject of your application.

(2) A statement explaining why you are unable to determine your ceiling price under other provisions of this regulation.

(3) Your proposed ceiling price, which you must determine upon the first of the following bases that you are able to use:

(i) The ceiling price for the most closely comparable item for which a dollars-and-cents ceiling price is established by this regulation, adjusted by the addition or subtraction of the differential between the highest price at which the item that is the subject of your application was sold to a purchaser of the same class on the date nearest to the effective date of this regulation and the highest price at which the most closely comparable item was sold to a purchaser of the same class on the date nearest thereto.

(ii) The price at which you sold to a purchaser of the same class the item that is the subject of your application in your last sale before the effective date of this regulation.

(iii) The ceiling price of your most closely competitive seller to a purchaser of the same class for the item that is the subject of your application. ("Your most closely competitive seller" is the seller of lumber subject to this regulation, selling the item which is the subject of your application, with whom you are in most direct competition on sales of most items.)

(iv) A price which you believe is in line with the level of ceiling prices established by this regulation. You must state why you believe your proposed ceiling price is in line with the level of ceiling prices established by this regulation.

In determining your proposed ceiling prices, you must first use the basis indicated in subdivision (i); if you cannot use subdivision (i), then use subdivision (ii); if you cannot use subdivision (ii), then use subdivision (iii); or if you cannot use subdivision (iii), then use subdivision (iv).

If you use subdivisions (ii), (iii), or (iv), you must state in your application why you could not use the basis provided in each of the preceding subdivisions. You must also state how your proposed ceiling price conforms to the basis employed and furnish supporting details.

(b) *Quotation of proposed ceiling prices.* You may quote a proposed ceiling price determined under the provisions of paragraph (a), and you may sell at that proposed ceiling price, provided that you file an application for approval of that ceiling price within five days after selling at that proposed ceiling price, and provided further that you agree to refund, and later refund, to the buyer, the amount, if any, by which your proposed ceiling price exceeds the ceiling price established by the Director of Price Stabilization.

(c) *Action by the Director of Price Stabilization.* (1) After receipt of an application made under this section, the Director of Price Stabilization will approve or disapprove your proposed ceiling price, will request additional information about it, or will establish a different ceiling price for the item that is the subject of your application.

(2) If the Director does not notify you to the contrary or request additional information from you within 30 days after the receipt of your application, or within 15 days after the receipt of requested additional information, your proposed ceiling price shall be deemed to have been approved, subject to nonretroactive disapproval or modification at a later date.

(3) No application will be approved under this section unless it is found that the proposed ceiling price is in line with the level of ceiling prices otherwise established by this regulation.

(d) *Effect on other transactions.* A special ceiling price approved pursuant to application made under this section shall be your ceiling price for all future sales of the same item unless a specific ceiling price for the item shall subsequently be established by changes in this regulation, or unless the approval is subsequently revoked or modified by the Director of Price Stabilization.

ARTICLE III—COMMISSION-TYPE SALES AND RETAIL-TYPE DIRECT-MAIL SALES

SEC. 3.1 *Commission-type sales*—(a) *Addition allowed.* When a sale of your lumber is brought about by the efforts of a lumber commission salesman, your ceiling price is the otherwise applicable ceiling price on the lumber sold plus 4 percent of the f. o. b. mill ceiling price. However, the amount which you may charge to the buyer, pursuant to this section, over and above the otherwise applicable ceiling price, may not exceed the actual commission which you pay to the lumber commission salesman.

(b) *Lumber commission salesman.* The term "lumber commission salesman" means a person who customarily sells lumber in carload quantities for two or more manufacturers, who does not take title to the lumber, assumes no credit risk, receives his compensation from the manufacturer in the form of commissions based on the amount of lumber sold, and operates independently of both buyers and sellers.

SEC. 3.2 *Retail-type sales*—(a) *Increased f. o. b. mill ceiling prices.* Except as indicated in paragraphs (b) and (c) of this section, your f. o. b. mill ceiling prices in retail-type sales for all lumber covered by this regulation are 15 percent higher than the f. o. b. mill ceiling prices established by this regulation. The increase applies whether the lumber is green, air-dried, or kiln-dried; whether rough or surfaced; and whether or not it is resawn or otherwise worked.

(b) *Exceptions to the application of the increase.* You may not apply the increase authorized by paragraph (a):

(1) To your ceiling prices determined under the provisions of sections 2.3 and 2.9; or

(2) To your ceiling additions for special width and/or lengths or to your ceiling additions for kiln-drying, surfacing, and/or resawing allowable under the provisions of sections 2.2 and 2.7, respectively, when the additions involved are derived from a retail-type sale.

(c) *Charges which you must exclude.* A ceiling price determined under paragraph (a) may not be increased by any charges for commissions paid to a lumber commission salesman as authorized in section 3.1, or by any charges for special services as authorized in section 4.1.

(d) *Delivery charges.* You may add an appropriate delivery charge, computed in the manner authorized in section 5.2, provided that you deliver the lumber by truck.

(e) *Definition.* As used in this section, a retail-type sale is a direct-mill sale of not more than 10,000 feet to a purchaser who takes delivery at the mill, or who accepts delivery made by truck at a point not more than 100 miles from the mill. It must be a sale of lumber to a contractor or to a consumer for use in construction, remodeling, repair, or maintenance; it is not a sale for use in manufacturing or for resale in substantially the same form.

ARTICLE IV—CEILING PRICE ADDITIONS

SEC. 4.1 *Ceiling price additions.* (a) You may add not more than the amounts indicated below to the ceiling prices as set forth in this regulation for the following special services:

(1) Anti-stain treatment: $1.00 per thousand feet.

(2) Stenciling or grade-marking on the face of each piece in a manner which will permit identification and segregation: $1.00 per thousand feet. (This addition cannot be made for stenciling a trademark.)

(3) Bundling for export: $3.00 per thousand feet.

(4) Packaging in sling loads or otherwise whereby the load is divided into individual parcels to facilitate mechanical unloading and reloading: $3.00 per thousand feet (covering all materials and labor).

NOTE: If lumber is both bundled for export and packaged in sling loads or otherwise, only one charge of $3.00 per thousand feet may be made.

(5) Marking on each piece the surface measure and/or the width and length sizes: $1.00 per thousand feet.

(6) Inspection and issuance of an inspection certificate by the National Hardwood Lumber Association: an amount which does not exceed the inspection fees and expenses charged to the seller by the Association.

(7) Staking, wiring, and separating lumber in open top cars: $25.00 per car (covering all materials and labor).

(8) Erecting on open top cars bulkheads made in conformity with the specifications of the Mechanical Division of the Association of American Railroads: $10.00 per bulkhead (covering all materials and labor).

(b) Except for anti-stain treatment, the additions provided in paragraph (a) of this section may be made only when the special services are specifically requested by the buyer.

ARTICLE V—OTHER CEILING PRICE PROVISIONS

SEC. 5.1 *Grade terms and grading.* (a) *Terms.* All grade terms used in this regulation have the meanings set forth in the "Rules for the Measurement and Inspection of Hardwood Lumber, Cypress, Veneers, and Thin Lumber," effective January 1, 1952, published by the National Hardwood Lumber Association.

(b) *Grading.* Lumber bought and sold under this regulation must be graded in accordance with the "Rules for the Measurement and Inspection of Hardwood Lumber, Cypress, Veneers, and Thin Lumber," effective January 1, 1952, published by the National Hardwood Lumber Association.

SEC. 5.2 *Delivered ceiling prices.* You are permitted to sell lumber covered by this regulation on a delivered price basis. The delivered ceiling prices are the ceiling prices f. o. b. mill plus an addition for delivery to the purchaser computed as follows (the transportation addition may be rounded to the nearest half-dollar: *Provided*, That you round the transportation addition on all deliveries):

(a) *Common or contract carrier.* When shipment is made by common or contract carrier, the transportation addition is computed by multiplying the appropriate established weight by the applicable freight rate in effect at the time of shipment.

The term "appropriate established weight" means: the applicable weight as shown in the schedules in section 2.1; or, where no applicable weight is shown in the schedules, the applicable weight as set forth in the "Rules for the Measurement and Inspection of Hardwood Lumber, Cypress, Veneers, and Thin Lumber," effective January 1, 1952, published by the National Hardwood Lumber Association; or, where an applicable weight is not shown in the tables in section 2.1 or is not set forth in such "Rules", the applicable weight as authorized by the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., pursuant to application by letter. Your letter must set forth a description (including thickness and species) of the item which is the subject of your application.

(b) *Private trucking.* When shipment is by truck owned or controlled by the seller, you may add $2.00 per thousand feet; or an addition computed in the manner set forth in paragraph (a) of this section, using applicable carload rates; or an amount equal to the applicable common carrier motor freight charges.

(c) *Trucking to railhead.* You may not charge any additional amount for a truck haul preceding rail shipment.

(d) *Truck delivery after rail haul.* For truck delivery following a rail haul, you may add as much as the actual costs per thousand feet incurred.

SEC. 5.3 *Mixed carload or mixed truckload shipments.* In a sale of a mixed carload or mixed truckload shipment to one or more purchasers in which each item is loaded separately in the quantity specified in the order or orders, the following additions per thousand feet applicable to the specified quantity may be made to the f. o. b. mill ceiling prices of each item in the shipment:

Quantity of each item ordered:	*Additions per M feet for that quantity*
4,000 to 5,000 feet	$2.00
3,000 to 3,999 feet	3.00
2,000 to 2,999 feet	4.00
1,000 to 1,999 feet	5.00
999 feet and less	6.00

As used in this section, the term "mixed carload or mixed truckload shipment" refers to a carload or truckload shipment containing two or more items.

SEC. 5.4 *Green lumber.* (a) Ceiling prices for green lumber are established separately in the tables. In every case, except for Ash, in which lumber is sold which weighs more than 15 percent above the applicable air-dried weights shown in this regulation, it must be sold at not more than the ceiling prices applicable to green lumber.

(b) (1) You may obtain authorization from the Director of Price Stabilization, at his discretion, to apply not more than the ceiling prices for dry lumber to a particular sale of green lumber when the purchaser certifies that the nature of his operations requires the lumber involved in the particular sale to be in green condition. The certification must set forth the reason why the purchaser requires the lumber to be green. Application for such authorization must be by letter sent to the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., and should contain a statement as to the kind of lumber required, and also a copy of the purchaser's certification covering the lumber involved in the sale.

(2) Approval must be obtained from the Director of Price Stabilization before you may sell, under the provisions of this paragraph, green lumber at prices higher than the ceiling prices otherwise provided in this regulation.

SEC. 5.5 *Discount for cash.* If the buyer pays cash, your ceiling prices determined under other provisions of this regulation are reduced by the amount of the discount which, during the period from January 25, 1951, through February 24, 1951, you allowed a purchaser of the same class for the payment of cash within the same period of time. If you were not in business between January 25, 1951 and February 24, 1951, your ceiling prices determined under other provisions of this regulation are reduced by 2 percent for cash payment within 10 days from date of invoice or date of bill of lading, whichever is later.

ARTICLE VI—MISCELLANEOUS PROVISIONS

SEC. 6.1 *Modification of proposed ceiling prices by the Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or reduce ceiling prices determined under this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 6.2 *Petition for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revision 2.

SEC. 6.3 *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell at (a) the ceiling price in effect at the time of delivery, or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver at a price to be adjusted upward in accordance with any increase in ceiling prices after delivery.

SEC. 6.4 *Records.*—(a) *Existing records.* On and after the effective date of this regulation, for so long as the Defense Production Act of 1950, as amended, shall remain in effect and for two years thereafter, you shall preserve all your existing records relating to the prices which you received or charged for the items, and for the basic, comparison, or standard items and differentials, referred to in sections 2.2, 2.3, 2.7, and 2.9, which you sold or contracted to sell during the period January 25, 1951 through February 24, 1951; and you shall continue to preserve, for the applicable periods specified in section 16 of the General Ceiling Price Regulation, all other existing records that you were required to keep under the provisions of section 16 of the General Ceiling Price Regulation.

(b) *Current records.* Every person who sells and every person who in the regular course of trade or business buys lumber covered by this regulation totaling $500 or more in any one month, shall make and keep for inspection by the Director of Price Stabilization for a period of two years, accurate records of each sale or purchase made in such month. The records must show the following:

(1) Date of purchase or sale;

(2) Name and address of buyer and seller;

(3) The price or prices of the covered items, including discounts paid or received, and all other direct or indirect considerations given or received, and rebates made or taken;

(4) A description of each item of lumber sold, showing the species, grade, sizes, condition (green, air-dried or kiln-dried), workings, specifications or other extras, which affect the ceiling price, together with the quantity thereof;

(5) Origin of shipment; and when sold on a delivered basis, destination of shipment;

(6) Means of transportation used.

The retention by a purchaser of an invoice furnished by a seller, or the retention by a seller of a settlement sheet furnished by a buyer, which includes the factual information required to be made a matter of record by this section, shall be considered as compliance with the provisions of this section by the purchaser or seller retaining such invoice or settlement sheet.

(c) *Other records.* If you apply for approval of a proposed ceiling price for special specifications under section 2.9 of this regulation, you shall preserve or make and you shall keep for inspection by the Director of Price Stabilization for so long as the Defense Production Act of 1950, as amended, shall remain in effect and for two years thereafter, accurate records from which you obtained the data you submit in connection with your application for such ceiling price.

SEC. 6.5 *Invoices.* (a) On all sales of lumber covered by this regulation, except those for which you receive a settlement sheet from the buyer, you must submit an invoice to the buyer which includes a description (species, grades, and sizes) and the quantity of each item of lumber involved. Any working, condition (green, air-dried, or kiln-dried), specification, extra, or service for which a charge is made, or which otherwise has a bearing upon the ceiling price, must be separately set forth in the invoice, but the invoice need not show separately the charges for such items.

(b) For sales made on an f. o. b. basis, in addition to the information required by paragraph (a), your invoice must show the f. o. b. price.

(c) For sales made on a delivered basis, in addition to the information required by paragraph (a), your invoice must show:

(1) The delivered price;

(2) The destination of the shipment; and

(3) The applicable rail, truck, or water freight rate; or the transportation charged.

SEC. 6.6 *Interpretations.* If you want an official interpretation of this regulation, you should write to the District Counsel of your local OPS District Office. Any action taken by you in reliance upon, and in conformity with, a written official interpretation will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation 1, Revision 2.

SEC. 6.7 *Prohibitions and violations.* (a) You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically, but not in limitation of the above, you shall not, regardless of any contract or other obligation, sell and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling prices established by this regulation, and you and buyers from you shall keep, make, and preserve true and accurate records and reports required by this regulation. Prices lower than the ceiling prices may be charged, paid, or offered.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement actions, and actions for damages.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of his ceiling price, or if any person subject to this regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 6.8 *Evasions.* Any means or devices which result in obtaining directly or indirectly a higher price than is permitted by this regulation, or in concealing or falsely representing information in records which this regulation requires to be kept, is a violation of this regulation. This prohibition includes, but is not limited to, means or devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading, tie-in agreements, and trade understandings, as well as the omission from records of true data and the inclusion in records of false data.

SEC. 6.9 *Definitions.* (a) As used in this regulation, the terms below have the following meanings:

(1) *Appropriate established weight.* This term is defined in section 5.2 (a).

(2) *Director of Price Stabilization.* This term extends to any official (including officials of regional or district offices) to whom the Director of Price Stabilization, by order, delegates a function, power, or authority referred to in this regulation.

(3) *Feet.* This terms means board feet for all lumber 4/4'' and thicker, and means surface feet for all lumber thinner than 4/4''.

(4) *F. o. b. mill.* This term means loaded on cars at mill railhead or siding; loaded on scow or barge alongside a mill dock; or, where the only means of conveyance used is a truck, other motor vehicle, or wagon, loaded on such vehicles at the mill site.

(5) *Kiln-dried lumber.* This term refers to green or air-dried lumber that is dried in a kiln to a specified moisture content.

(6) *Lumber commission salesman.* This term is defined in section 3.1.

(7) *Manufacturer, sawmill, planing mill, and concentration yard.* These terms are defined in Section 1.4 (b). Note particularly that the term "mill" as used throughout the regulation includes sawmills, planing mills, and concentration yards.

(8) *Most closely competitive seller.* This term is defined in section 2.9 (a) (3) (iii).

(9) *Northeastern hardwood lumber.* This term is defined in section 1.3 (b).

(10) *Northeastern Hardwood Region.* This term is defined in section 1.3 (c).

(11) *Person.* This term includes any individual, partnership, corporation, association, or any other organized group of persons; their legal successors or representatives; and the United States or any other government or their political subdivisions or agencies.

(12) *Purchaser of the same class.* The meaning of this term is determined by reference to your own practice of setting different prices for sales to different purchasers or groups of purchasers. The practice may, but need not, be based on the characteristics or distributive level of the buyer; for instance, manufacturer, wholesaler, individual retail store, retail chain, mail order house, government agency, or public institution. It may, but need not, be based on the location of the purchaser or the quantity or kinds of lumber purchased by him. It may, but need not, be based on differing terms or conditions of sale or delivery. If you have followed the practice of giving an individual customer a price differing from that charged others, that customer is a separate class of purchaser.

(13) *Records.* This term includes books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, settlement sheets, and other papers and documents.

(14) *Residue and ungraded lumber.* These terms are defined in sections 2.5 and 2.6, respectively.

(15) *Retail-type sale.* This term is defined in section 3.2.

(16) *Sell.* This term includes sell, supply, dispose, barter, trade, exchange, lease, transfer, deliver, and contracts and offers to do any of the foregoing. The terms "buy" and "purchase" shall be construed accordingly.

(17) *Special grading terms.* The special grading terms used in this regulation are enumerated and defined in section 5.1.

(18) *Surfaced lumber.* "Surfaced lumber", also known as "worked" or "dressed" lumber, is lumber planed to a smooth finish, generally surfaced to a specified thickness. The process of producing surfaced lumber is known as "surfacing", "dressing", or "planing".

(19) *You.* The pronoun "you" indicates any manufacturer who sells lumber subject to this regulation. The term "your" should be construed accordingly.

Effective date. This regulation is effective December 30, 1952.

NOTE: The reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[General Overriding Regulation 35, Amdt. 5]

GOR 35—PASS-THROUGH FOR CERTAIN PRODUCTS CONTAINING PRIMARY COPPER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to General Overriding Regulation 35 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 35 permits manufacturers who use products which contain primary copper and the ceiling prices of which are covered by the General Ceiling Price Regulation, to pass through the increased cost of these products resulting from Supplementary Regulation 125 to the General Ceiling Price Regulation.

On May 21, 1952, the Acting Director of Defense Mobilization directed the Office of Price Stabilization to increase the ceiling prices of brass mill products and wire mill products in order to meet the situation which had arisen when the Chilean Government terminated its agreement to sell copper to the United States at 27½ cents per pound. He also directed that comparable treatment be given to other users of primary copper.

Amendment 1 to CPR 68 and Amendment 1 to CPR 110 permitted an increase in the ceiling prices of the products covered by those regulations because of the increased cost of foreign copper. General Overriding Regulation 35, as originally issued, permitted manufacturers who use these products, to pass through this increased cost. Supplementary Regulation 125 to the General Ceiling Price Regulation, issued November 18, 1952, permitted an adjustment in the ceiling prices of certain products covered by the General Ceiling Price Regulation which contain primary copper. The adjustment permitted was determined on the same basis as those permitted in CPR 68 and CPR 110. This amendment to General Overriding Regulation 35 permits manufacturers who have had the cost of materials they buy, increased as a result of SR 125 to the GCPR, to pass on this increased cost.

In the formulation of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

1. The second paragraph of Section 1 is amended to read as follows:

Primary processors calculate their adjustments on the basis of the increases authorized for steel mill products by Revision 1 of SR 100 to the GCPR, and by parallel action for steel producers under the voluntary agreement; for aluminum-mill products by SR 113 to the GCPR; for pig iron by SR 116 to the GCPR; for products covered by the GCPR which contain primary copper by SR 125 to the GCPR; for brass mill products by Amendment 1 to CPR 68; and for copper wire-mill products by Amendment 1 to CPR 110. These ceiling price increases are listed in Appendix A.

2. Appendix A of General Overriding Regulation 35 is amended by adding the following section:

K. Products covered by the GCPR which contain primary copper	*3.84

3. Appendix A is amended by adding the following footnote:

*Cents per pound of primary copper contained.

Effective date. This amendment is effective January 5, 1953.

[General Overriding Regulation 41, Correction]

GOR 41—Adjustments Under the Industry Earnings Standard for Consumer Goods

CORRECTION

Due to a clerical error, GOR 41, issued December 5, 1952, contains a misprint in the fourth paragraph of the Statement of Considerations. The word "above" was erroneously inserted where the word "of" was intended. As a result of this misprint it would appear that ceiling prices were intended to be established at 107 percent and 108.5 percent above the industries' highest selling prices since July 1, 1952. Actually, the intention was to state that ceiling prices were being established at 107 percent and 108.5 percent of the industries' highest selling prices since July 1, 1952.

Therefore, the following correction is made:

In the fourth paragraph of the Statement of Considerations, the fifth sentence is corrected to read as follows:

Based upon this data, the Director of Price Stabilization has determined that in order for the dollar profits of each industry to meet the industry earnings standard, ceiling prices for the sheet and cast aluminum household cooking utensil industries will have to be established at 107 percent and 108.5 percent, respectively, of the industries' highest selling prices since July 1, 1952.

[Ceiling Price Regulation 31, Amdt. 16]

CPR 31—Imports

SUSPENSIONS AND EXEMPTIONS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 16 to Ceiling Price Regulation 31 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Ceiling Price Regulation (CPR) 31 adds a new section to the regulation to clarify the applicability of a General Overriding Regulation (GOR) to imported commodities. Consistent with prior interpretations this section provides that: Unless language appears in a General Overriding Regulation which limits the applicability of that regulation to domestic sales only, the General Overriding Regulation cuts across CPR 31. Thus, if sales of a commodity are suspended or exempted from price control generally by a General Overriding Regulation, such suspension or exemption includes sales of imported commodities.

FINDINGS OF THE DIRECTOR

In view of the nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives impracticable. In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 31 is amended by adding the following new section:

SEC. 22. *Suspensions and Exemptions.* When a General Overriding Regulation is issued by the Office of Price Stabilization exempting or suspending controls on certain commodities, unless language appears in the General Overriding Regulation which limits the applicability of that regulation to domestic sales only, the General Overriding Regulation is applicable to all sales of such commodities otherwise under this regulation.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective January 5, 1953.

[Ceiling Price Regulation 177, Corr.]

CPR 177—Alfalfa Products

CORRECTION

Through inadvertence, two clerical errors appear in Table I of Ceiling Price Regulation 177 in the listed ceiling prices for processors of dehydrated alfalfa meal. Accordingly, the following corrections are made in Table I of section 2:

1. The ceiling price for the month of February for 13 percent but less than 15 percent protein meal in Area I is corrected to read $63.50.

2. The ceiling price for the month of February for 13 percent but less than 15 percent protein meal in Area II is corrected to read $57.50.

Chapter IV—Salary and Wage Stabilization, Economic Stabilization Agency

Subchapter A—Salary Stabilization Board

[Interpretation 19]

INT. 19—Effect of Corporate Consolidations or Mergers and of the Acquisition of Corporate Stock by a Corporation on the Compensation of Employees

This interpretation deals with the wages, salaries and other compensation (including adjustments therein) paid to employees of corporations involved in a consolidation or merger or which have acquired or acquire a status as parent or subsidiary corporation. The interpretation deals with the consequences of such changes of identity of corporate business enterprises in the field of employee compensation in two parts: (1) The effect of such changes on the salary structure of the corporations affected, and (2) the effect on arrangements for the payment of compensation in other forms than salary.

I. Effect of Changes in Corporate Identity on the Salary Structure of the Affected Corporations

A. CONSOLIDATION AND MERGER

1. Q. Subsequent to January 25, 1951, the stockholders of X corporation and Y corporation vote to consolidate their respective corporations and form Z corporation. On this date, both X corporation and Y corporation were engaged in the manufacture of paper products, and each had an established salary plan, schedule of rates or compensation arrangement in effect. Under the consolidation, Z corporation will continue to manufacture paper products and the plant facilities of X and Y corporations will be used. What effect will the consolidation have upon the salaries of the former employees of X and Y corporations who are continued in the employ of Z corporation?

A. (a) The salary of an employee of the former X or Y corporations who continues to perform the same duties and to discharge the same responsibilities for Z corporation as he performed and discharged prior to the consolidation will not be affected by the consolidation.

(b) Salaries for new or changed positions of officers and other employees in the new Z corporation having company-wide duties and responsibilities may be established in accordance with the provisions of section 63 of General Salary Stabilization Regulation 1, Amended, by using the previously established salary structures of either the former X or Y corporation.

(c) Salaries for new or changed positions in the new Z corporation not involving company-wide duties or responsibilities may be established in accordance with the provisions of section 63 of General Salary Stabilization Regulation 1, Amended; but only the previously established salary structure of the plant in which the position is created or changed (X or Y corporation, as the case may be) may be used in establishing the salary for each new or changed position.

2. Q. Assume that as a result of the consolidation the new Z corporation decides to discontinue use of the facilities of Y corporation, and that some of the employees of the former Y corporation are given employment in comparable positions at the plant of the former X corporation, where the salaries paid for such positions are lower than the salaries previously paid to these employees by the former Y corporation. How are their salaries as employees of Z corporation determined?

A. Such employees may be transferred to comparable positions at the salaries which they received from the former Y corporation, even though salaries for these positions at the plant of the former X corporation, where they are employed by the new Z corporation, are lower. In other words, a reduction of salary for such employees is not required, but any inequities thus created may not be used as a basis for subsequent applications for adjustments in the salary or other compensation of employees of the former X corporation.

3. Q. In the circumstances described, is it material that the plant facilities of X and Y corporations are located in the same or in a different local labor market area?

A. No.

4. Q. Would it be material under the circumstances outlined if, prior to consolidation, X corporation and Y corporation were engaged in the manufacture of different products requiring the use of different manufacturing methods and techniques?

A. No.

5. Q. Would the answers in paragraphs 1 to 4 be changed if Y corporation is merged into X corporation (which retains its legal identity) rather than consolidated with Y corporation into a new corporation?

A. No, except in the following situation: In determining the salaries of employees with company-wide responsibilities under section 63 of General Salary Stabilization Regulation 1, Amended, only the salary structure of X corporation can be used as the basis of determination. Since the salary structure of the merged Y corporation ceased to exist as of the date of the merger, it cannot be used after the merger for such purposes.

6. Q. As a result of the merger of Y corporation into X corporation all of the manufacturing operations carried on by the former Y corporation are transferred to the plant of the former X corporation and the former Y corporation plant is converted to the manufacture of an entirely different product, such as small arms ammunition. How would the salaries of the employees at the converted plant of the former Y corporation be determined?

A. Under Article VIII of General Salary Stabilization Regulation 1, Amended. The converted plant on January 25, 1951, had not commenced the production of the materials or services to which it is converted and is a "new plant" within the meaning of section 81 of General Salary Stabilization Regulation 1, Amended. In consequence, the salaries of its employees must be determined in accordance with the criteria for establishing salary rate schedules in new plants as required by section 82 of General Salary Stabilization Regulation 1, Amended.

7. Q. On July 1, 1951, X corporation, engaged in the manufacture of paper products, purchased the entire capital stock of Y corporation which is engaged in the same business. As a result of the stock acquisition, Y corporation becomes a wholly owned subsidiary of X corporation, though it retains its legal identity as a corporation. X corporation and Y corporation are located in different local labor market areas and X corporation's salary levels are somewhat higher than those of Y corporation. May the salaries of the employees of Y corporation be increased to the same levels as those of X corporation?

A. Only if Y corporation has monies available for salary increases under sections 22, 41, 52, or 53 of General Salary Stabilization Regulation 1, Amended, or with the prior approval of the Office of Salary Stabilization.

Although Y corporation became a wholly owned subsidiary of X corporation upon the latter's acquisition of its stock and the acquisition resulted in a change in the legal relationship between the two corporations, the manufacturing operations of the two corporations, upon which their salary structures are based, were not affected by such changes. Therefore, if Y corporation does not have monies available for salary increases, the salaries of the employees of Y corporation cannot be adjusted on a self-administering basis to bring them into line with the salary levels of X corporation.

8. Q. If the plant of Y corporation were located in the same labor market area as the plant of X corporation, would the answer to question 7 be different?

A. No.

9. Q. Could X corporation use any monies which it has available for increases in salaries or other compensation to grant such increases to employees of Y corporation?

A. No. Y corporation notwithstanding its acquisition by X corporation remains a separate employer. Since the corporations did not have unified practices on January 25, 1951, with respect to the payment of salaries, X corporation must receive the approval of the Office of Salary Stabilization before it may treat itself and Y corporation as a single employer.

10. Q. On July 1, 1951, X corporation, in the course of its expansion, decides to construct an additional plant at a new location in a new labor market area and, for business reasons, creates Y corporation, a wholly owned subsidiary, to be the legal owner of the plant. The plant of Y corporation will manufacture the same product as is manufactured in the plant of X corporation.

A. Inasmuch as Y corporation had not commenced operations on or prior to January 25, 1951, it would be a "new plant" within the meaning of section 81 of General Salary Stabilization Regulation 1, Amended, and its initial salary schedules would be determined in accordance with the provisions of section 82 (b) of General Salary Stabilization Regulation 1, Amended.

11. Q. If the additional plant were located in the same local labor market area as the plant of X corporation, how would the initial salary schedules of the employees of Y corporation be determined?

A. In accordance with the provisions of section 82 (a) of General Salary Stabilization Regulation 1, Amended.

12. Q. If the additional plant were located in the same local labor market area as the plant of X corporation, but manufactured a different product, requiring different manufacturing techniques, how would the initial salary schedules of the employees of Y corporation be determined?

A. In accordance with the provisions of section 82 (b) of General Salary Stabilization Regulation 1, Amended.

13. Q. Prior to January 25, 1951, X corporation marketed its product to retailers through its Distribution Division. On July 1, 1951, Y corporation, a wholly owned subsidiary corporation, is formed to take over the functions of the Distribution Division. How are the salaries of the officers and other employees of Y corporation with company-wide responsibilities initially determined?

A. The salaries for the positions occupied by the corporate officers will be initially determined in accordance with the provisions of section 63 of General Salary Stabilization Regulation 1, Amended, and may be based either upon the salaries paid to the highest ranking supervisors in the Distribution Division or upon the salary or salaries paid to the officers of X corporation who had the principal or exclusive responsibility for administering the dissolved Distribution Division. To the extent that any other new or changed positions, including positions with company-wide responsibilities, are established, the initial salaries for these positions will be determined in accordance with the provisions of section 63 of General Salary Stabilization Regulation 1, Amended, but only the salary levels of the Distribution Division may be used as the basis for making the determination.

II. Effect on Arrangements for Payment of Other Compensation

A. BONUSES AUTHORIZED UNDER GENERAL SALARY STABILIZATION REGULATION 2, AS AMENDED

14. Q. On July 1, 1952, the stockholders of X corporation and the stockholders of Y corporation, both engaged in the manufacture of paper products, vote to merge Y corporation into X corporation thereby terminating the legal existence of Y corporation. The operations carried on in the plant of Y corporation are to continue as in the past. Prior to the merger, both X corporation and Y corporation had paid bonuses of the type authorized under General Salary Stabilization Regulation 2, as amended. May the pre-merger base period bonus funds of X corporation and of Y corporation be combined and treated as a single base period bonus fund of X corporation subsequent to the merger?

A. No.

If both corporations had bonus plans within the meaning of section 4 of General Salary Stabilization Regulation 2, as amended, each plan would continue in effect and cover employees in the same plant as in the past, and the separate pre-merger base period bonus funds of either corporation would not be affected by the merger.

If X corporation had a bonus plan within the meaning of section 4 of General Salary Stabilization Regulation 2, as amended, and Y corporation in the past had paid discretionary bonuses of the

type specified in section 5, the pre-merger base period bonus funds for the employees at each of the plants constitute separate bonus funds which likewise would not be affected by the merger.

If both corporations in the past had paid discretionary bonuses within the meaning of section 5 of General Salary Stabilization Regulation 2, as amended, the pre-merger base period bonus funds of both corporations would be retained as separate funds.

15. Q. Assuming the same facts as in paragraph 14, how would the bonuses authorized under General Salary Stabilization Regulation 2, as amended, be distributed?

A. On a plant-wide basis (and not on a post-merger corporation-wide basis), in accordance with limitations applicable to bonus distributions either under section 4 (b) and (c) or under section 5 of General Salary Stabilization Regulation 2, as amended. Adjustments for changes in the appropriate bonus group may be made in either case under section 6 of that regulation.

16. Q. On July 1, 1951, Y corporation was merged into X corporation and the plant of Y corporation was disposed of as a result of the merger. Both corporations had paid discretionary bonuses to their employees in the past and had established base period bonus funds under General Salary Stabilization Regulation 2, as amended. After the disposal of the plant of the former Y corporation, all employees eligible to receive bonuses from the former Y corporation were given employment at the plant of X corporation. May the base period bonus funds be consolidated into a single fund for purposes of determining the authorized amount of bonus payments which may be distributed by X corporation under section 5 of General Salary Stabilization Regulation 2, as amended?

A. Yes. However, if less than the total number of employees of the former Y corporation eligible to receive bonuses are transferred to X corporation, adjustments in base period bonus funds and allocations to bonus groups are required and may only be made with the prior approval of the Office of Salary Stabilization.

17. Q. Assuming the same facts in paragraph 16 except that Y corporation did not have a base period bonus fund, to what extent may employees of the former Y corporation be paid bonuses by Y corporation and to what extent may the bonus fund of X corporation be increased because of the addition of such employees?

A. If, by the transfer of the employees of the former Y corporation, new employees are added to existing bonus groups of X corporation, they may participate in bonus distributions as members of their respective bonus groups, and the bonus fund of X corporation may be increased to the extent authorized in section 6 of General Salary Stabilization Regulation 2, as amended. If all employees of X corporation under the jurisdiction of the Salary Stabilization Board form a single bonus group, all employees transferred from the former Y corporation will be eligible to receive bonuses.

B. OTHER FORMS OF SUPPLEMENTAL COMPENSATION (EXCLUDING BONUSES)

18. Q. On July 1, 1952 the stockholders of X corporation and Y corporation, both engaged in the manufacture of paper products, vote to merger Y corporation into X corporation. The operations carried on in the plant of the former Y corporation are to continue as in the past. Y corporation, prior to its merger with X corporation, legally had in effect certain arrangements for the payment of other forms of supplemental compensation (pension plan, health and welfare plan, system of shift differentials, etc.) which were not in effect at the plant of X corporation. Both corporations have exhausted the monies available for increases in compensation under sections 22 and 41 of General Salary Stabilization Regulation 1, Amended. May these arrangements with respect to employees at the plant of the former Y corporation be continued subsequent to the merger without the approval of the Office of Salary Stabilization?

A. Yes. Inasmuch as these practices were legally in effect at the time of the merger it would not affect the continuance of such practices for the employees at the plant of the former Y corporation.

An employer who has several plants in operation may have different arrangements in effect at the several plants for the payment of other forms of supplemental compensation, provided such arrangements were in effect on or before January 25, 1951, or subsequently authorized by General Salary Stabilization Regulations or Orders, or approved by the Office of Salary Stabilization or (prior to May 10, 1951) by the Wage Stabilization Board. Regardless of the technical method of accomplishing the change in ownership (e. g. consolidation, merger, or the creation of a parent-subsidiary relationship), a change in ownership, which does not affect the operations of plant facilities, does not present any peculiar problems with regard to continuing arrangements for the payment of other forms of supplemental compensation in effect at the plant of the former owner.

Changes which X corporation may desire to make as a result of the merger may only be put into effect in accordance with applicable self-administering provisions of salary stabilization regulations or orders, or upon prior approval of the Office of Salary Stabilization.

19. Q. Assume the same basic facts as in paragraph 18, except that prior to the merger X corporation had in effect arrangements for the payment of other forms of supplemental compensation which were not in effect at the plant of the former Y corporation. Could X corporation, subsequent to the merger, put such supplemental compensation arrangements into effect at the plant of the former Y corporation without the approval of the Office of Salary Stabilization?

A. Only to the extent specifically authorized by general salary stabilization regulations or orders.

For example, section 1 (d) of General Salary Stabilization Regulation 8, Revised, authorizes the extension of an existing health and welfare plan governing a group of employees in one geographical unit of a multi-plant employer to a similar group of employees in another geographical unit of the same employer. For purposes of this regulatory provision, the plant of the former Y corporation would be considered another geographical unit of X corporation.

On the other hand, the system of shift differentials in effect at the original plant of X corporation could not be put into effect at the plant of the former Y corporation without prior approval by the Office of Salary Stabilization.

20. Q. Assume the same basic facts as in paragraphs 18 and 19 except that the change in ownership of Y corporation was effected through the consolidation of X corporation and Y corporation into Z corporation or through Y corporation becoming a wholly owned subsidiary of X corporation. Would there be any change in the answers in paragraphs 18 and 19?

A. No.

Chapter XVI—Production and Marketing Administration, Department of Agriculture

[Defense Food Order 3, Amdt. 7]

DFO-3—AGRICULTURAL IMPORTS

MISCELLANEOUS AMENDMENTS

Pursuant to the authority conferred by section 704 of the Defense Production Act of 1950, as amended (64 Stat. 798; 65 Stat. 131; Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2061 et seq.), and having determined that the following amendment of Defense Food Order 3, as amended (17 F. R. 6088, 8546), is necessary or appropriate to carry out the provisions of said act and the revised determination made by the Secretary of Agriculture under section 104 of the act, said Defense Food Order 3, as amended, is further amended as hereinafter set forth. Defense Food Order No. 3, as hereby amended, imposes over the commodities covered by such determinations the import controls contemplated by the act and, to effectuate such determinations, must be made effective as soon as possible. The amendment relieves certain restrictions currently imposed by the order and must be made effective promptly if it is to be of maximum benefit to the persons affected. The order affects numerous segments of the economy but consultation has been held, to the extent practicable within the time available, with all such segments, including industry representatives.

SUMMARY OF AMENDMENT

Section 6 of Defense Food Order 3, as amended, provides that the Administrator will from time to time add commodities to or remove commodities from the list in Appendix A thereof in accordance with determinations by the Secretary of Agriculture under section 104 of the act. In order to implement the Secretary's revised determination, this amendment deletes "casein or lactarene, and mixtures in chief value thereof, n. s. p. f. (B)" from Appendix A and adds the following thereto: "dried whole milk," "dried buttermilk," and "dried cream." Also deleted from the Appendix are varieties of cheese containing, or processed in whole or in part from, Edam or Gouda cheese.

REGULATORY PROVISIONS

Appendix A of Defense Food Order 3, as amended (17 F. R. 6088, 8546), is hereby amended in the following respects:

1. Delete the listing "casein or lactarene, and mixtures in chief value thereof, n. s. p. f. (B)," the applicable Commerce Import Class No., and the governing date thereof and insert, in lieu thereof, the following in the manner indicated:

Commodity	Commerce Import Class No.	Governing date
Dried whole milk (B)	0041.060	Dec. 30, 1952
Dried buttermilk (B)	0041.260	Do.
Dried cream (B)	0041.300	Do.

2. Delete from the column entitled "Commodity" the listing "Varieties of cheese (this term includes substitutes for cheese) containing, or processed in whole or in part from, Cheddar, Blue Mold, Edam, or Gouda (B)" and insert, in lieu thereof, the following:

Varieties of cheese (this term includes substitutes for cheese) containing, or processed in whole or in part from, Cheddar or Blue Mold.

This amendment shall become effective at 12:01 a. m., e. s. t., December 30, 1952. With respect to violations, rights accrued, liabilities incurred, or appeals taken concerning Defense Food Order 3, as amended, prior to the effective date hereof, all the provisions of said Defense Food Order 3, as amended, in effect at the time when such violations occurred, rights accrued, liabilities were incurred, or appeals were taken shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

[Defense Food Order 3, Sub-Order 3, Amdt. 3]

DFO-3—AGRICULTURAL IMPORTS

SO 3—STATEMENT OF POLICIES AND PROCEDURES RE IMPORT AUTHORIZATIONS FOR CERTAIN COMMODITIES

Sub-Order 3, as amended (17 F. R. 6269, 8548, 10449), containing a statement of the policies and procedures relating to import authorizations for certain commodities under Defense Food Order 3, as amended (17 F. R. 6088, 8546), was issued pursuant to the authority vested by said amended Defense Food Order 3, under sections 101, 104, and 704 of the Defense Production Act of 1950, as amended (64 Stat. 798; 65 Stat. 131; Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2061 et seq.). This amendment to Sub-Order 3, as amended, should be issued promptly in order to make the benefits therefrom with respect to in-transit shipments of dried whole milk, dried buttermilk, and dried cream available immediately, and to inform affected persons concerning the policies and procedures relating to authorizations with respect to other importations of dried whole milk, dried buttermilk, and dried cream. This amendment affects several segments of the economy but consultation has been held, to the extent practicable within the time available, with all such segments, including industry representatives.

SUMMARY OF AMENDMENT

The policies and procedures stated in Sub-Order 3 to Defense Food Order 3, as amended, with respect to the issuance of authorizations for the importation of controlled commodities are augmented to include the policies and procedures regarding the importation of dried whole milk, dried buttermilk, and dried cream, whether or not in transit to the United States prior to the effective date hereof. Since varieties of cheese containing, or processed in whole or in part from, Edam or Gouda cheese are no longer subject to control, all references thereto are deleted from Sub-Order 3, as amended. Further, since casein or lactarene, and mixtures in chief value thereof, are no longer subject to control, all references thereto are also deleted from Sub-Order 3, as amended.

REGULATORY PROVISIONS

Defense Food Order 3, Sub-Order 3, as amended (17 F. R. 6269, 8548, 10449), is hereby amended in the following respects:

1. Delete section 1 (b) *Casein or lactarene, and mixtures in chief value thereof, n. s. p. f.* and insert, in lieu thereof, the following:

(b) *Dried whole milk, dried buttermilk, and dried cream.* Import authorizations will be issued for dried whole milk, dried buttermilk, and dried cream as follows:

(1) Any importer who is desirous of securing import authorization for any such product, and who imported such product during the base period July 1, 1951, through December 31, 1952, must submit documentary evidence satisfactory to the Director showing imports of the product through the United States Bureau of Customs, made in his own name as the importer of record during the specified base period. The total quota for such product, except as otherwise provided in subparagraph (2) of this paragraph, will be apportioned among individual importers on the basis of the proportion of total imports of such product which was imported in the base period by each importer and such other factors as must be considered to avoid inequities. Authorizations issued to any applicant in accordance with this subparagraph will specify the quantities of such product which may be imported from each particular country of origin; and such quantities will be based upon the proportionate quantities imported by the applicant from such country during the said base period.

(2) Any quantity of such product which was in transit to the United States prior to the effective date of this amendment to Sub-Order 3, as amended (17 F. R. 6269, 8548, 10449), may be imported into the United States on or after such effective date, but prior to April 1, 1953, when approved by the Director. An application for any such importation shall be submitted to the Director with documentary evidence establishing the in-transit status of the product. The amount of any such importation by an importer shall not be charged against the quantity of such product authorized for importation pursuant to subparagraph (1) of this paragraph by such importer.

(3) Authorizations totaling not in excess of 50,000 pounds for dried whole milk, dried buttermilk, and dried cream in the aggregate will be granted for the importation of these products prior to April 1, 1953, to small independent enterprises which are in the business of importing dairy products other than cheese and which have not received any import authorization under subparagraph (1) of this paragraph. The amount authorized for any applicant under this subparagraph will not exceed 1,000 pounds. Applications for authorization under this subparagraph must state the product to be imported, the country from which the applicant intends to import the product, and the size and nature of the applicant's business enterprise.

2. Delete the classification in section 1 (c) (3) "Varieties (this term includes substitutes for cheese) containing, or processed in whole or in part from, Cheddar, Blue Mold, Edam, or Gouda," and insert in lieu thereof, the following: "Varieties of cheese (this term includes substitutes for cheese) containing, or processed in whole or in part from, Cheddar or Blue Mold."

3. Delete from the first sentence of section 2 (b) (1) the words: "for casein or lactarene, and mixtures in chief value thereof," and insert, in lieu thereof, the following: "for dried whole milk, dried buttermilk, and dried cream."

4. Delete from section 2 (b) the following words: "for casein or lactarene and mixtures in chief value thereof, n. s. p. f."

This amendment shall become effective December 30, 1952.

(Sec. 704, 64 Stat. 816; 65 Stat. 139; Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

[Import Determination re DFO-3, Revision 3]

DETERMINATION RELATING TO IMPORTS UNDER DEFENSE PRODUCTION ACT

On September 23, 1952 (17 F. R. 8547), the Secretary of Agriculture made a determination, pursuant to the authority vested in him by section 104 of the Defense Production Act of 1950, as amended (64 Stat. 798, 65 Stat. 132; Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2074), relating to certain imports (other than by the Government of the United States), during the period from July 1, 1952, through June 30, 1953, into the commerce of the United States. Such determination was made upon the basis of facts then available and, as stated therein, is subject to revision whenever it is determined that such action is necessary or appropriate in effectuating the purposes of the act. Upon the basis of facts available at present, it is hereby determined that the revision, as hereinafter set forth, of the determination of September 23, 1952, is necessary or appropriate in effectuating the purposes of the act.

The Import Determination re DFO-3, Revision 2 (17 F. R. 8547), is hereby revised to read as follows:

Pursuant to the authority vested in me by section 104 of the Defense Production Act of 1950, as amended (64 Stat. 798, 65 Stat. 132; Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2074), it is hereby found and determined that imports (other than by the Government of the United States), during the period from July 1, 1952, through June 30, 1953, into the commerce of the United States of the commodities and products hereinafter listed, except as herein specified, would with respect to each such commodity or product or type or variety thereof listed (a) impair or reduce the domestic production of a commodity or product specified in said section 104 below present production levels, (b) interfere with the orderly domestic storing and marketing of a commodity or product specified in said section 104, or (c) result in an unnecessary burden or expenditure under a Government price support program.

SECTION 1. This determination applies to all types and varieties of the following listed commodities and products except as otherwise specified:

Butter.[1]
Butter oil.[2]
The following types and varieties of cheese:
Italian type cheese of the following varieties:[3]
Romano in original loaves made from cow's milk.
Reggiano in original loaves.
Parmesano in original loaves.
Provoloni in original loaves.
Provolette in original loaves.
Sbrinz in original loaves.
Cheddar.[4]
Blue Mold,[5] except Stilton.
Edam and Gouda.[6]
Varieties (this term includes substitutes for cheese) containing, or processed in whole or in part from, Cheddar or Blue Mold.[7]
Flaxseed (linseed).[8]
Linseed oil, and combinations and mixtures, in chief value of such oil.[9]
Malted milk and compounds, or mixtures of or substitutes for milk or cream.[10]
Dried whole milk.[11]
Dried buttermilk.[12]
Dried cream.[13]
Dried skimmed milk (nonfat, dry milk solids).[14]
Peanuts (blanched, roasted, prepared, or preserved).[15]
Peanuts (shelled, not shelled).[16]
Peanut oil (ground nut oil).[17]
Paddy rice.[18]
Uncleaned or brown rice.[19]
Cleaned or milled rice.[20]
Cleaned Patna rice for use in canned soups.[21]
Broken rice.[22]

SEC. 2. Importations of the following commodities and products, subject to Government regulation under the following conditions, will not have any of the effects specified in section 104 of the Defense Production Act of 1950, as amended:

(a) During the period from July 1, 1952, through June 30, 1953, Cheddar cheese in an aggregate quantity not in excess of 8,500,000 pounds;

(b) During the period from July 1, 1952, through June 30, 1953, the following varieties of Italian type cheese in an aggregate quantity not in excess of 8,000,000 pounds:

Romano in original loaves made from cow's milk.
Reggiano in original loaves.
Parmesano in original loaves.
Provoloni in original loaves.
Provolette in original loaves.
Sbrinz in original loaves.

(c) During the period from July 1, 1952, through June 30, 1953, Blue Mold cheese, except Stilton, in an aggregate quantity not in excess of 3,500,000 pounds;

(d) During the period from July 1, 1952, through June 30, 1953, Edam and Gouda cheese in an aggregate quantity not in excess of 4,000,000 pounds;

(e) During the period from July 1, 1952, through June 30, 1953, varieties (this term includes substitutes for cheese) containing, or processed in whole or in part from, Cheddar or Blue Mold, in an aggregate quantity not in excess of the quantity imported during the calendar year of 1950;

(f) During the period from July 1, 1952, through June 30, 1953, malted milk and compounds, or mixtures of or substitutes for milk or cream, which are determined by the official responsible for administration of Defense Food Order 3, as amended, to have none of the customary uses of butter;

(g) During the period from July 1, 1952, through June 30, 1953, registered or certified flaxseed and rice for planting purposes only and in accordance with applicable laws and regulations;

(h) During the period from July 1, 1952, through June 30, 1953, Brewer's rice;

(i) During the period beginning on the effective date of this revised determination through March 31, 1953, dried whole milk in an aggregate quantity not in excess of 6,500,000 pounds, exclusive of the quantity of such product which was in transit to the United States prior to the foregoing period;

(j) During the period beginning on the effective date of this revised determination through March 31, 1953, dried buttermilk in an aggregate quantity not in excess of 2,150,000 pounds, exclusive of the quantity of such product which was in transit to the United States prior to the foregoing period;

(k) During the period beginning on the effective date of this revised determination through March 31, 1953, dried cream in an aggregate quantity not in excess of 35,000 pounds, exclusive of the quantity of such product which was in transit to the United States prior to the foregoing period;

(l) During the period beginning on the effective date of this revised determination through March 31, 1953, any dried whole milk, dried buttermilk, or dried cream which was in transit to the United States prior to the foregoing period;

(m) During the period from July 1, 1952, through June 30, 1953, the listed commodities and products as samples or gifts or for personal use where the value of each consignment or shipment is less than $25.00; and

(n) During the period from July 1, 1952, through June 30, 1953, such amounts of the listed commodities and products as may be required to avoid unnecessary or unreasonable hardship and as may be required to assure equitable treatment for small or new business.

SEC. 3. This determination is made upon the basis of facts available and is subject to revision whenever it is determined that such action is necessary or appropriate in effectuating the purposes of the act.

SEC. 4. It is hereby deemed necessary, taking into consideration the broad effects upon international relationships and trade, that, with respect to each of the commodities and products listed in paragraphs (a), (b), (c), (d), and (e) of section 2 hereof, additional imports of 15 percent of the respective aggregate quantity fixed for each such commodity or product be authorized.

SEC. 5. Notwithstanding that any product listed in paragraph (i), (j), (k), or (l) of section 2 hereof was in transit to the United States prior to the effective date of this revised determination, such product may not be imported unless previous authorization for the importation is given pursuant to Defense Food Order 3, as amended.

SEC. 6. The provisions hereof shall become effective at 12:01 a. m., e. s. t., December 30, 1952, and shall supersede the determination of September 23, 1952 (17 F. R. 8547), under section 104 of the Defense Production Act of 1950, as amended, but said determination of September 23, 1952, shall be deemed to remain in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding concerning any violation, right accrued, liability incurred, or appeal taken under or with respect to said determination or Defense Food Order 3, issued August 9, 1951, as amended (16 F. R. 7934, 8272; 17 F. R. 4490, 5829, 6088, 8546), prior to the effective date hereof.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 3—VETERANS CLAIMS

EXAMINATIONS AND REEXAMINATIONS FOR DISABILITY COMPENSATION, PENSION, AND RATING PURPOSES

1. Section 3.76 is revised to read as follows:

§ 3.76 *Original examinations for disability compensation or pension.* In original claims for disability compensation or pension, either for peacetime or wartime service, service-connected or otherwise, an examination will not be authorized unless and until evidence is of record, either from the service departments, or in the form of certified statements, indicating the reasonable probability of a valid claim. If, after the development of the case, it is indicated that probability of a valid claim exists, an examination may be requested. Where the claimant appears in person and preliminary inquiry establishes the reasonable probability of a valid claim, an immediate physical examination may be requested (Veterans Regulation No. 1 series, 38 U. S. C. ch. 12). Where a claim is filed within 6 months from date of separation and the veteran was separated for disability, it may be rated initially on the records of the service department unless it would appear that error might result from such rating. Otherwise, no rating will be made without first obtaining an official Veterans' Administration examination. (See § 3.185.) Physical examination reports, clinical records, and transcripts of records received from State, county, municipal, and recognized private institutions and contract hospitals, referred to in § 3.216 (c), are acceptable for initial ratings upon the same basis as official Veterans' Administration examination reports, subject to the requirements of §§ 3.30 (a) and 3.216 (c) as to certification.

2. In § 3.185 (b), subparagraph (1) (i) is amended to read as follows:

§ 3.185 *Reexaminations for disability rating purposes.* • • •

(b) (1) *Scheduling examinations.* Except when initial ratings are made upon physical examination reports, clinical records and transcripts of records received from State, county, municipal, and recognized private institutions and contract hospitals referred to in § 3.216 (c), it is required that at least one examination be made by the Veterans' Administration in every case. When a case is initially rated on the records of the service department (§ 3.76), initial Veterans' Administration examination will be scheduled, in convalescent rating cases, in 6 months; otherwise, in 1 year.

(i) Following initial Veterans' Administration examination, or an examination acceptable in lieu thereof (see § 3.76), reexamination, if in order, will be scheduled based on the combined nonstatic disabilities as follows except as otherwise provided in the Rating Schedule or Extensions:

Rating 80—100 percent in 2 years.
Rating 40—70 percent in 3 years.
Rating 10—30 percent in 5 years.

This regulation is effective December 31, 1952.

Deputy Administrator.

TITLE 44—PUBLIC PROPERTY AND WORKS

Chapter I—General Services Administration

Subchapter D—Miscellaneous Regulations

PART 150—COVENANT AGAINST CONTINGENT FEES AND RELATED PROCEDURE

Subchapter D has been added to provide for regulations of the General Services Administration which because of scope or subject matter may not appropriately be included under Subchapters A, B or C. Part 150 is added; it deals with the subject matter contained in General Services Administration General Regulation No. 12, dated December 29, 1952, except for provisions thereof which do not have direct application to the public.

Sec.
150.1 Purpose.
150.2 Definitions.
150.3 Objectives and methods.
150.4 Required use of the covenant.
150.5 General principles and standards applicable to the covenant.
150.6 Representation and agreement required from prospective contractors.
150.7 Interpretation of the representation.
150.8 Promulgation of form.
150.9 Use of Standard Form 119.
150.10 Exceptions.
150.11 Enforcement.
150.12 Effective date.
150.13 Standard Form 119, December 1952 edition.

AUTHORITY: §§ 150.1 to 150.13 issued under sec. 205, 63 Stat. 389, as amended; 40 U. S. C. Sup. 486. Interpret or apply secs. 201, 206, 63 Stat. 383, 390, as amended; 40 U. S. C. Sup. 481, 487.

§ 150.1 *Purpose.* For the purpose of promoting uniformity among executive agencies with respect to the required use of the "covenant against contingent fees" and with respect to the procedure for obtaining information concerning contingent or other fees paid by contractors for soliciting and securing Government contracts, the Department of Defense and the General Services Administration have developed cooperatively and agreed upon the required use of the "covenant against contingent fees" and the form, procedure, principles and standards described in this part.

§ 150.2 *Definitions.* As used in this part:

(a) The term "executive agency" means any executive department or independent establishment in the executive branch of the Government, including any wholly owned Government corporation;

(b) The term "contract" means any contract for (1) the purchase by the Government of real property, personal property, or services; (2) construction or repair of public buildings or works; (3) lease of real or personal property for Government use; or (4) sale or lease of Government-owned real or personal property; and

(c) The term "improper influence" means influence, direct or indirect, which induces or tends to induce consideration or action by any employee or officer of the United States with respect to any Government contract on any basis other than the merits of the matter.

§ 150.3 *Objectives and methods.* The requirements of this part have as their objective the prevention of improper influence in connection with the obtaining of Government contracts, the elimination of arrangements which encourage the payment of inequitable and exorbitant fees bearing no reasonable relationship to the services actually performed and the prevention of unwarranted expenditure of public funds which inevitably results therefrom. The methods used to achieve these objectives are the requirement for disclosure of the details of arrangements under which agents represent concerns in obtaining Government contracts, and the prohibiting, by use of the covenant against contingent fees, of certain types of contractor-agent arrangements. The Criminal Code will apply in any case involving actual criminal conduct.

§ 150.4 *Required use of the covenant.* Executive agencies shall include in every negotiated or advertised contract a "covenant against contingent fees" substantially as follows:

(a) *In contracts for the purchase by the Government of real property, personal property or services, and contracts for the construction or repair of public buildings or works.* The following clause is set forth as Article 20 of General Provisions, Standard Form 32, November 1949 edition:

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this contract without liability or in its discretion to deduct from the contract price or consideration the full amount of such commission, percentage, brokerage, or contingent fee.

(b) *In contracts for the sale of Government-owned real or personal property.* The following clause is in the form substantially as set forth in Article 13 of Sale of Government Property—Invitation, Bid, and Acceptance, Standard Form 114, August 1950 edition:

Purchaser warrants that no person or agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial agencies maintained by the Purchaser for the purpose of securing business. For breach or violation of this warranty, the Government shall have the right to annul this contract without liability or in its discretion to require the Purchaser to pay, in addition to the contract price or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

(c) *Adaptation for leases.* The covenant as set forth in paragraph (a) of this section may be appropriately adapted for use in leases of real or personal property for Government use. The covenant as set forth in paragraph (b) of this section may be appropriately adapted for use in leases of Government-owned real or personal property.

§ 150.5 *General principles and standards applicable to the covenant*—(a) *Use of principles and standards.* The principles and standards set forth in this part are intended to be used as a guide in the negotiation, awarding, administration or enforcement of Government contracts.

(b) *Contingent character of the fee.* Any fee whether called commission, percentage, brokerage, or contingent fee, or otherwise denominated, is within the purview of the covenant if, in fact, any portion thereof is dependent upon success in obtaining or securing the Government contract or contracts involved. The fact, however, that a fee of a contingent nature is involved does not preclude a relationship which qualifies under the exceptions to the prohibition of the covenant.

(c) *Exceptions to the prohibition.* There are excepted from the prohibition of the covenant "bona fide employees" and "bona fide established commercial or selling agencies maintained by the contractor for the purpose of securing business."

(d) *Bona fide employee.* (1) The term "bona fide employee," for the purpose of the exception to the prohibition of the covenant, means an individual (including a corporate officer) employed by a concern in good faith to devote his full time to such concern and no other concern and over whom the concern has the right to exercise supervision and control as to time, place, and manner of performance of work. It is recognized that a concern, especially a small-business concern, may employ an individual who represents other concerns. The factors set forth in paragraph (e) (2) of this section, except subdivision (iv) thereof, shall be applied to determine whether such an individual comes within the exception to the prohibition of the covenant.

(2) The hiring must contemplate some continuity and it may not be related only to the obtaining of one or more specific Government contracts.

(3) An employee is not "bona fide" who seeks to obtain any Government contract or contracts for his employer through the use of improper influence or who holds himself out as being able to obtain any Government contract or contracts through improper influence.

(4) A person may be a bona fide employee whether his compensation is on a fixed salary basis or, when customary in the trade, on a percentage, commission or other contingent basis or a combination of the foregoing.

(e) *Bona fide established commercial or selling agency maintained by the contractor for the purpose of securing business.* (1) An agency or agent is not "bona fide" which seeks to obtain any Government contract or contracts for its principals through the use of improper influence or which holds itself out as being able to obtain any Government contract or contracts through improper influence.

(2) In determining whether an agency is a "bona fide established commercial or selling agency maintained by the contractor for the purpose of securing business," the factors set forth in this subparagraph shall be considered. They are necessarily incapable of exact measurement or precise definition and it is neither possible nor desirable to prescribe the relative weight to be given any single factor as against any other factor or as against all other factors. The conclusions to be reached in a given case will necessarily depend upon a careful evaluation of the agreement and other attendant facts and circumstances.

(i) The fees charged should not be inequitable and exorbitant in relation to the services actually rendered. That is, the compensation should be commensurate with the nature and extent of the services and should not be excessive as compared with the fees customarily allowed in the trade concerned for similar services related to commercial (non-Government) business. In evaluating reasonableness of the fee, there should be considered services of the agent other than actual solicitation, as for example, technical, consultant or managerial services, and assistance in the procurement of essential personnel, facilities, equipment, materials or subcontractors for performance of the contract.

(ii) The selling agency should have adequate knowledge of the products and the business of the concern represented, as well as other qualifications necessary to sell the products or services on their merits.

(iii) There should ordinarily be a continuity of relationship between the contractor and the agency. The fact that the agency has represented the contractor over a considerable period of time is a factor for favorable consideration. It is not intended, however, to disqualify newly established contractor-agent relationships where a continuing relationship is contemplated by the parties.

(iv) It should appear that the agency is an established concern. The agency may be either one which has been in business for a considerable period of time or a new agency which is a presently going concern and which is likely to continue in business as a commercial or selling agency in the future. The business of the agency should be conducted in the agency name and characterized by the customary indicia of the conduct of a regular business.

(v) The fact that a selling agency confines its selling activities to the field of Government contracts does not, in and of itself, disqualify it under the covenant. The fact, however, that the selling agency is employed to secure business generally, that is, to represent the concern in connection with sales to the Government as well as regular commercial sales to non-Government activities is a factor entitled to favorable consideration in evaluating the case as one coming within the authorized exception. Arrangements confined, however, to obtaining Government contracts, particularly those involving a selling agency organized immediately prior to or during periods of expanded procurement resulting from conditions of national emergency, must be closely scrutinized.

(f) *Fees for "information."* Contingent fees paid for "information" leading to obtaining a Government contract or contracts are included in the prohibition and, accordingly, are in breach of the covenant unless the agent qualifies under the exception as a bona fide employee or a bona fide established commercial or selling agency maintained by the contractor for the purpose of securing business.

§ 150.6 *Representation and agreement required from prospective contractors.* Except as provided in § 150.10, each executive agency shall inquire of and secure a written representation from prospective contractors as to whether they have employed or retained any company or person (other than a full-time employee working solely for the prospective contractor) to solicit or secure the contract, and shall secure a written agreement to furnish information relating thereto as required by the contracting officer. Where an invitation for bids is issued, this inquiry shall be made (and written representation and agreement secured) by requiring the bidder (or contractor) to check the appropriate box in the following statement to be included in the invitation or bid form:

The bidder [(or) contractor] represents: (a) That he ☐ has, ☐ has not, employed or retained any company or person (other than a full-time bona fide employee working solely for the bidder [(or) contractor]) to solicit or secure this contract; and (b) that he ☐ has, ☐ has not, paid or agreed to pay to any company or person (other than a full-time bona fide employee working solely for the bidder [(or) contractor]) any fee, commission, percentage or brokerage fee, contingent upon or resulting from the award of this contract, and agrees to furnish information relating thereto as requested by the contracting officer.

NOTE: For interpretation of the representation, including the term "bona fide employee," see General Services Administration Regulations, Title 44, §§ 150.7 and 150.5 (d), FEDERAL REGISTER, December 31, 1952, Volume 17, No. 253.

(The representation and agreement appearing on the face of Standard Form 33—Invitation, Bid, and Award—November 1949 edition; Standard Form 30—Invitation and Bid—November 1949 edition; and Standard Form 114—Sale of Government Property, Invitation, Bid and Acceptance—August 1950 edition, pending revision of such forms, shall be deleted and the above representation (and agreement) substituted therefor.)

§ 150.7 *Interpretation of the representation.* (a) For the purpose of the representation and agreement required from the prospective contractor, as described in § 150.6, the definition of "bona fide employee" is as specified in § 150.5 (d).

(b) The fact that the prospective contractor retains a person who does not devote his full time solely to the prospective contractor does not necessarily mean that the relationship involved is in violation of the covenant against contingent fees or that there is any stigma attached to the contractor-agent relationship. It does mean, however, that the prospective contractor must fill out the representation in the affirmative and, as required, furnish information with respect to such employment or retention.

(c) If the representation would otherwise be answered in the affirmative the fact that the person employed or retained by the bidder or contractor is an attorney, or a public relations consultant, or has any other special or professional title, does not permit answering in the negative.

§ 150.8 *Promulgation of form.* In furtherance of the purpose and objectives stated in §§ 150.1 and 150.3, Standard Form 119 (December 1952 edition), Contractor's Statement of Contingent or Other Fees for Soliciting or Securing or Resulting from Award of Contract, set forth in § 150.13, is hereby prescribed and shall be used in accordance with the provisions of this part.

§ 150.9 *Use of Standard Form 119.*—(a) *Required use.* Except as provided in § 150.10, Standard Form 119 (December 1952 edition) shall be used, without deviation, by executive agencies whenever either part of the inquiry provided for by § 150.6 is answered in the affirmative. The form shall be used also, without deviation, in any other case where an executive agency desires to obtain such information. When, after use of the form, further information is required, it may be obtained in any appropriate manner. Submission of the form shall be required, normally, only of successful bidders and contractors.

(b) *Statement in lieu of form.* Any bidder or proposed contractor who has previously furnished a Standard Form 119 (December 1952 edition) to the office issuing the invitation or negotiating the contract may be permitted to accompany his bid, or submit in connection with the proposed contract, a signed statement (1) indicating when such completed form was previously furnished, (2) identifying by number the previous invitation or contract in connection with which such form was submitted, and (3) representing that the statements in such previously furnished form are applicable to such subsequent bid or contract. In such case, submission of an additional completed Standard Form 119 need not be required.

§ 150.10 *Exceptions.* The inquiry and agreement specified in § 150.6 need not be made and submission of Standard Form 119 (December 1952 edition) need not be requested in connection with the following:

(a) Any advertised contract in which the aggregate amount involved does not exceed $25,000;

(b) Any negotiated contract in which the aggregate amount involved does not exceed, in the case of the Department of Defense, $5,000; in all other cases, $1,000;

(c) Any negotiated contract for perishable subsistence supplies in which the aggregate amount involved does not exceed $25,000;

(d) Any contract for services which are required to be performed by an individual contractor in person under Government supervision and paid for on a time basis and any contract for public utility services furnished by a public utility company where the utility company's rates for the services furnished are subject to regulation by Federal, State, or other regulatory body and the public utility company is the sole source of supply;

(e) Contracts to be made in foreign countries;

(f) Any other contracts, individually or by class, of the Department of Defense, designated by the Secretary, Under Secretary, or Assistant Secretary of a Military Department. (Reports of any such exceptions shall be filed promptly with the Administrator of General Services.)

§ 150.11 *Enforcement*—(a) *Failure or refusal to furnish representation and agreement.* Each executive agency shall take the necessary steps to assure

that the indicated successful bidder or proposed contractor has furnished a representation (negative or affirmative) and agreement as described in § 150.6.

(1) If the indicated successful bidder or proposed contractor makes such representation in the negative, such representation may be accepted and award made or offer accepted in accordance with established procedure.

(2) If the indicated successful bidder or proposed contractor makes such representation in the affirmative, a completed Standard Form 119 (December 1952 edition), shall be requested from the bidder or proposed contractor. In the case of formal advertising, the making of an award in accordance with established procedure need not be delayed pending receipt of the form. In the case of negotiation, if the proposed contractor makes such representation in the affirmative, he shall be required to file a completed Standard Form 119 (December 1952 edition), prior to acceptance of the offer or execution of the contract unless the head of the executive agency (including, for this purpose, any Military Department) concerned, or his authorized representative, considers that the interest of the Government will be prejudiced by the suspension of negotiations pending receipt and consideration of an executed Standard Form 119 (December 1952 edition).

(3) If the indicated successful bidder or proposed contractor fails to furnish the representation and agreement as set forth in § 150.6, such failure shall be considered a minor informality and, prior to award, such bidder or proposed contractor shall be afforded a further opportunity to furnish such representation and agreement. A refusal or failure to furnish such representation and agreement, after such opportunity has been afforded, shall require rejection of the bid or offer.

(b) *Failure or refusal to furnish Standard Form 119.* If the successful bidder or contractor, upon request, refuses or fails to furnish a completed Standard Form 119 (December 1952 edition), or a statement in lieu thereof as provided in § 150.9 (b), the executive agency concerned shall take one or more of the following actions, or other action, as may be appropriate:

(1) If an award has not been made or offer accepted, determine whether the bid or offer should be rejected.

(2) If the contract has been awarded or offer accepted, determine what action shall be taken, such as making an independent investigation or considering the eligibility of the contractor as a future contractor in accordance with established procedure.

(c) *Misrepresentations or violations of the covenant against contingent fees.* In case of misrepresentation, or violation or breach of the covenant against contingent fees, or some other relevant impropriety, the executive agency concerned shall take one or more of the following actions, or other action, as may be appropriate:

(1) If an award has not been made, or offer has not been accepted, determine whether the bid or offer should be rejected.

(2) If an award has been made or offer has been accepted, take action to enforce the covenant in accordance with its terms; that is, as the best interests of the Government may appear, annul the contract without liability or recover the amount of the fee involved.

(3) Consider the future eligibility as a contractor of the bidder or contractor in accordance with established procedure.

(4) Determine whether the case should be referred to the Department of Justice in accordance with established procedure with respect to determining matters of fraud or criminal conduct.

§ 150.12 *Effective date.* This part shall become effective on March 2, 1953, with respect to all contracts (negotiated or advertised) initiated, and all invitations for bids (whether pursuant to advertising or negotiation) prepared, on and after that date.

§ 150.13 *Standard Form 119 (December 1952 edition).* Standard Form 119 (December 1952 edition), for use as prescribed in § 150.9, is set forth:

[CGFR 52-62]

VESSEL INSPECTION

MISCELLANEOUS CORRECTIONS AND AMENDMENTS

The purpose of the amendments in this document is to make necessary editorial corrections and revisions in the vessel inspection regulations, which were revised extensively during 1952, in order to have uniformity in the requirements. The changes made are editorial in nature to correct errors, to clarify requirements or procedures, and to add miscellaneous provisions which were inadvertently omitted from previous documents con-

ment required from prospective contractors. Except as provided in § 150.10, Resulting from Award of Contract, set forth in § 150.13, is hereby prescribed *agreement.* Each executive agency shall take the necessary steps to assure

rejected.

"contractor" includes "bidder."

taining vessel inspection regulations which were published in the FEDERAL REGISTER dated July 17, August 21, October 18, and November 13, 1952.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate regulations in accordance with R. S. 4405, as amended, and 4462, as amended (46 U. S. C. 375, 416) and the statutes cited with the regulations below, the following amendments are prescribed:

Subchapter A—Procedures Applicable to the Public

PART 2—VESSEL INSPECTIONS

SUBPART 2.01—INSPECTING AND CERTIFICATING OF VESSELS

1. In the revision of Part 2, published October 18, 1952 (17 F. R. 9282), § 2.01–80 was omitted and this § 2.01–80 is hereby reinstated and reads as follows:

§ 2.01–80 *Vessel inspections in Alaska.* (a) The waters of southeastern Alaska, inside of the general trend of the shore from Cape Spencer, southeasterly to Cape Muzon, and thence easterly to Sitklan Island, shall be considered as bays, sounds, and lakes other than the Great Lakes, for the purpose of administering the vessel inspection laws and applicable regulations in this chapter.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416)

SUBPART 2.20—REPORTS AND FORMS

2. Section 2.20–1, published October 18, 1952 (17 F. R. 9284), is corrected by cancelling paragraph (i), redesignating paragraph (j) to paragraph (i), and revising paragraph (h) to read as follows:

§ 2.20–1 *Forms.* * * *

(h) *CG 809.* Station Bills, Drills and Reports of Masters, required by §§ 35.10–5, 78.17–50 (f), or 97.15–35 (d) of this chapter.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416)

SUBPART 2.50—NAVIGATION AND VESSEL INSPECTION LAWS

3. To clarify the procedures and the authority of the Coast Guard District Commander in connection with civil penalties, paragraph (a) of § 2.50–20 *Reports and assessments of penalties for violation of laws or regulations,* published October 18, 1952 (17 F. R. 9285), is corrected by inserting as the second sentence the following: "The Coast Guard District Commander is hereby authorized to determine whether or not to prosecute or to mitigate or to remit any civil penalties incurred for violations of navigation and vessel inspection laws, rules or regulations."

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416)

Subchapter C—Uninspected Vessels

PART 24—GENERAL PROVISIONS

SUBPART 24.05—APPLICATION

1. Table 24.05–1 (a) in § 24.05–1, published October 18, 1952 (17 F. R. 9289), is corrected by adding footnote reference "6" after the fifth item in Column 3.

2. The second sentence of § 24.05–5, published October 18, 1952 (17 F. R. 9289), is corrected by changing the phrase "or services or vessels" to "or services of vessels."

PART 25—REQUIREMENTS

SUBPART 25.30—FIRE EXTINGUISHING EQUIPMENT

1. Table 25.30–20 (a) (1) in § 25.30–20, published October 18, 1952 (17 F. R. 9292), is corrected by changing the upper right column heading from "Minimum number of B–I or B–II hand portable fire extinguishers required" to "Minimum number of B–I hand portable fire extinguishers required [1]" and adding a footnote 1 reading as follows:

[1] One B–II hand portable fire extinguisher may be substituted for two B–I hand portable fire extinguishers.

Subchapter D—Tank Vessels

PART 32—SPECIAL EQUIPMENT, MACHINERY, AND HULL REQUIREMENTS

SUBPART 32.35—MAIN AND AUXILIARY MACHINERY

1. The instructions that "Sections 32.25–1 to 32.35–25, inclusive, are cancelled" published Oct. 18, 1952 (17 F. R. 9295) are corrected and changed to: "Sections 32.35–1 to 32.35–25, inclusive, are cancelled."

PART 33—LIFESAVING APPLIANCES

SUBPART 33.15—EQUIPMENT FOR LIFEBOATS, LIFE RAFTS, OR BUOYANT APPARATUS

1. Section 33.15–1 (f) published Oct. 18, 1952 (17 F. R. 9299) is corrected by adding the following at the end thereof: "In lieu of the required floating orange smoke distress signals, either 12 approved hand orange smoke distress signals or 12 approved combination flare and smoke distress signals constructed in accordance with Subpart 160.023 or 160.037 of Subchapter Q (Specifications) of this chapter, may be substituted, provided such signals were installed prior to November 19, 1952. The service use of this equipment shall be limited to 3 years from date of manufacture, whereupon it shall be replaced with the required floating orange smoke signals."

2. Section 33.15–1 (h) is corrected to read as follows:

(h) *Drinking cup.* One enameled drinking cup, with ⅛-inch diameter cotton lanyard, 3 feet in length.

3. Section 33.15–1 (i) is corrected in the first sentence by changing the phrase "3 spare batteries" to "3 spare cells (or one 3-cell battery)".

4. Section 33.15–1 (p) is corrected by adding the following at the end thereof: "On tank ships the construction or conversion of which was started prior to November 19, 1952, masts, sails, and accompanying gear for lifeboats may be retained so long as they are in good condition. Any replacements shall meet the applicable provisions of this paragraph."

5. Table 33.15–1 (r) in § 33.15–1 is corrected to read as follows:

TABLE 33.15–1 (r)

Length of lifeboat, feet		Number of oars		Length of oars, feet	
Over	Not over	Rowing	Steering	Rowing	Steering
-------	15	4	1	8	9
15	19	6	1	10	11
19	21	6	1	11	12
21	23	6	1	12	13
23	25	8	1	13	14
25	27	8	1	14	15
27	-------	8	1	15	16

6. Section 33.15–1 (t) is corrected by changing the period at the end of the first sentence to a semicolon and adding the following: "or 12 approved hand-held rocket-propelled parachute red flare distress signals contained in a portable watertight container."

7. Section 33.15–1 (z) is corrected by adding at the end the following: "Sea anchors installed prior to January 1, 1944, meeting the requirements of regulations effective at the time of installation may be continued in use so long as they are in good and serviceable condition."

8. Section 33.15–1 (hh) is corrected to read as follows:

(hh) *Ladders, lifeboat gunwale.* All lifeboats approved to carry 60 or more persons shall be fitted with a suitable gunwale ladder consisting of 3 flat wood steps cut out for hand holds. The steps shall be spaced 12 inches apart and fastened with ⅝ inch diameter manila rope. Each rope end shall be tied inside the lifeboat at about amidships with the ladder stowed on top of the side benches and ready for immediate use. Other suitable devices may be specifically approved.

(R. S. 4405, as amended, 4417a, as amended, 4462, as amended; 46 U. S. C. 375, 391a, 416. Interprets or applies sec. 5, 55 Stat. 244, 245; 50 U. S. C. App. 1275)

SUBPART 33.20—STOWAGE OF LIFEBOATS, LIFE RAFTS, AND BUOYANT APPARATUS

9. Section 33.20–1 *Davits and launching devices—TB/ALL,* paragraph (c), subparagraph (5), published October 18, 1952 (17 F. R. 9301) is corrected by adding at the end thereof the following: "For vessels contracted for prior to November 19, 1952, skates need only be fitted if in the opinion of the Officer in Charge, Marine Inspection, the arrangement or construction of the vessel is such that overhanging decks, openings, or other similar obstructions make their use necessary."

(R. S. 4405, as amended, 4417a, as amended 4462, as amended; 46 U. S. C. 375, 391a, 416. Interpret or apply sec. 5, 55 Stat. 244, 245, as amended, 50 U. S. C. App. 1275)

PART 34—FIRE-FIGHTING EQUIPMENT

SUBPART 34.05—INSPECTIONS

1. Section 34.05–5 published October 18, 1952 (17 F. R. 9302) is corrected by changing the references "§§ 34.15–25 and 34.25–15" to "§§ 34.15–20 (e), 34.20–10 (h), 34.20–15 (d), and 34.25–15."

SUBPART 34.20—BOILER ROOM AND MACHINERY SPACES ON TANK SHIPS

2. Section 34.20–10 published October 18, 1952 (17 F. R. 9305) is corrected by adding a new paragraph (h) reading as follows:

§ 34.20–10 *Fixed carbon dioxide fire extinguishing systems installed on tank ships on or after November 19, 1952—TB/ALL.* * * *

(h) At annual inspections, all carbon dioxide cylinders shall be examined externally and replaced if any corrosion is found. They shall also be checked by weighing to determine their contents, and if found to be more than 10 percent under the required content of carbon dioxide, they shall be recharged.

(R. S. 4405, as amended, 4417a, as amended, 4462, as amended, 46 U. S. C. 375, 391a, 416. Interpret or apply sec. 5, 55 Stat. 244, 245, as amended, 50 U. S. C. App. 1275)

3. Section 34.20–15 (d) published October 18, 1952 (17 F. R. 9305) is corrected by changing the reference "§ 34.20–10 (f) and (g)" to "§ 34.20–10 (f) through (h)."

4. Section 34.20–25 (d) published October 18, 1952 (17 F. R. 9306) is corrected by changing the phrase "there shall be in addition to each space" to "there shall be in addition in each space."

Subchapter E—Load Lines

PART 43—FOREIGN OR COASTWISE VOYAGE

SUBPART 43.01—ADMINISTRATION

1. Section 43.01–97 (d) published October 18, 1952 (17 F. R. 9312) is corrected by changing the word "marketing" to "marking" in the first sentence.

SUBPART 43.15—LOAD LINES FOR STEAMERS

2. Section 43.15–43 (a) (3) published October 18, 1952 (17 F. R. 9318) is corrected by changing the references "Table 43.05–20 (a1) or 43.05–20 (a2)" to "Table 43.10–20 (a1) or 43.10–20 (a2)."

PART 46—SUBDIVISION LOAD LINES FOR PASSENGER VESSELS

SUBPART 46.01—AUTHORITY AND PURPOSE

1. Section 46.01–15 published October 18, 1952 (17 F. R. 9343) is corrected by adding a new paragraph (c) reading as follows:

§ 46.01–15 *Application of regulations.* * * *

(c) Subdivision load lines are required on passenger vessels engaged in foreign voyages, as well as on passenger vessels of 150 gross tons and over engaged in coastwise or Great Lakes voyages.

(Sec. 2, 45 Stat. 1493, as amended, sec. 2, 49 Stat. 888, as amended; 46 U. S. C. 85a, 88a)

SUBPART 46.10—ADMINISTRATION

2. Section 46.10–15 (b) published October 18, 1952 (17 F. R. 9344) is corrected by changing the reference "§ 46.40–15 (b) (1) through (3)" to "subparagraphs (1) through (3) of this paragraph."

Subchapter F—Marine Engineering

PART 50—GENERAL PROVISIONS

Immediately preceding § 50.10–1, published October 18, 1952 (17 F. R. 9346), insert the center heading "Subpart 50.10—Definition of Terms Used in This Subchapter."

PART 51—MATERIALS

SUBPART 51.61—MALLEABLE IRON AND GRAY IRON CASTINGS

1. Section 51.61–5, published August 21, 1952 (17 F. R. 7632), is corrected by changing the reference "§ 55.07–30" to "§ 61.30–5."

SUBPART 51.76—COPPER-ALLOY CASTINGS

2. Section 51.76–1, published August 21, 1952 (17 F. R. 7632), is corrected by changing the reference "§ 55.07–30" to "§ 61.30–5."

PART 52—CONSTRUCTION

SUBPART 52.05—CYLINDRICAL SHELLS

1. The instruction numbered 3 and published August 21, 1952 (17 F. R. 7633), is corrected by changing "§ 52.05–12 is added" to "§§ 52.05–12 and 52.05–13 are added."

2. Table 52.05–10 (a) in § 52.05–10 published August 21, 1952 (17 F. R. 7634, 7635), is corrected as follows:

a. For specification subpart 51.25 (Pipes and tubes; seamless carbon steel), A. S. T. M. designation A83, the stress values are changed in Column "700" from "11,500" to "11,450" and in Column "750" from "10,700" to "10,550."

b. For specification subpart 51.25 (Pipes and tubes; seamless carbon steel), A. S. T. M. designation A192, the stress values are changed in column "700" from "11,500" to "11,450" and in column "750" from "10,700" to "10,550."

c. For specification subpart 51.25 (Pipes and tubes; seamless carbon steel), A. S. T. M. designation A179, the stress values are changed in column "700" from "11,500" to "11,450" and in column "750" from "10,700" to "10,550."

d. For specification subpart 51.25 (Pipes and tubes; electric-resistance-welded carbon steel), A. S. T. M. designation A178, the notes in the sixth column are changed from "(4, 5)" to "(4, 8)."

e. For specification subpart 51.49 (Bolting; alloy steel), grade B8c, the stress values are changed in column "—20 to 650" from "14,850" to "11,850", in column "700" from "14,800" to "11,800", in column "750" from "14,700" to "11,750", in column "800" from "14,550" to "11,650", in column "850" from "14,300" to "11,450", in column "900" from "14,100" to "11,300", in column "950" from "13,850" to "11,100", in column "1,000" from "13,500" to "10,800", and in column "1,050" from "13,100" to "10,500."

f. For specification subpart 51.49 (Bolting; alloy steel), grade B8t, the stress values are changed in column "—20 to 650" from "14,850" to "11,850", in column "700" from "14,800" to "11,800", in column "750" from "14,700" to "11,750", in column "800" from "14,550" to "11,650", in column "850" from "14,300" to "11,450", in column "900" from "14,100" to "11,300", in column "950" from "13,850" to "11,100", in column "1,000" from "13,500" to "10,800", and in column "1,050" from "13,100" to "10,500."

g. For specification subpart 51.49 (Bolting; alloy steel), grade B8F, the stress values are changed in column "—20 to 650" from "14,850" to "11,850", in column "700" from "14,800" to "11,800", and in column "750" from "14,700" to "11,750."

3. Section 52.05–13 (f), published August 21, 1952 (17 F. R. 7636), is corrected by changing the reference "§ 51.58–5" to "Subpart 51.58".

SUBPART 52.10—SHELL JOINTS

4. Section 52.10–25 (i), published August 21, 1952 (17 F. R. 7637), is corrected by changing the reference "figure 52.20–10 (E)" to "figure 52.22–10 (E)."

SUBPART 52.20—DISHED HEADS

5. Section 52.20–10 (a), published August 21, 1952 (17 F. R. 7638), is corrected in the definition of terms for "E" in formulas by changing the reference "table 52.05–10 (b)" to "table 56.01–30 (a)."

6. Section 52.20–15 (a), published August 21, 1952 (17 F. R. 7639), is corrected in the last sentence by changing the phrase "shall not exceed the values given" to "shall not exceed 80 percent of the values given."

SUBPART 52.25—NOZZLE OPENINGS AND REINFORCEMENTS

7. Section 52.25–20 (k), published August 21, 1952 (17 F. R. 7643), is corrected by changing the reference "§ 52.20–15 (b)" to "§ 52.20–20 (a)."

PART 53—LOW PRESSURE HEATING BOILERS

SUBPART 53.05—CAST-IRON HEATING BOILERS

Section 53.05–10 is corrected by changing the reference "Subpart 51.64" to "Subpart 51.61."

PART 54—UNFIRED PRESSURE VESSELS

SUBPART 54.03—DESIGN AND CONSTRUCTION

1. Table 54.03–10 (c) in § 54.03–10, published August 21, 1952 (17 F. R. 7653), is corrected for specification Subpart 51.79 (Aluminum-alloy plates), grade GR20A, by changing the minimum tensile strength (p. s. i.) from "23,000" to "25,000", and by changing the stresses in column "subzero to 150" from "5,700" to "6,250", in column "250" from "5,250" to "6,000", in column "300" from "4,800" to "5,400", in column "350" from "4,200" to "4,650", and in column "400" from "3,500" to "3,900."

2. Table 54.03–15 (f) in § 54.03–15, published August 21, 1952 (17 F. R. 7654), is corrected by changing the pitch of tube (in inches) for outside diameter of tube "1¼" from "1$\frac{3}{16}$" to "1$\frac{9}{16}$."

3. Section 54.03–25 (b) is corrected by changing in subparagraph (2), first sentence, the phrase "high strength of alloy steel bolting" to "high strength or alloy steel bolting" and by changing the last sentence of subparagraph (1) to read: "Bolting and nuts shall meet the minimum requirements of American Standard Coarse Thread Series. Nuts shall meet the requirements of American Standard Heavy Dimensions as given in Table 54.03–25 (b)."

4. Table 54.03–25 (c1) in § 54.03–25 (c), published August 21, 1952 (17 F. R. 7656), is corrected to read as follows:

1. Table 24.05–1 (a) in § 24.05–1, published October 18, 1952 (17 F. R. 9289), corrected to read as follows:

5. Table 33.15–1 (17 FR § 33.15–1 [illegible]

2. Section 34.25 [illegible] published October 18, 1952 (17 F. R. 9305) is corrected by

PART 55—PIPING SYSTEMS, PUMPS, REFRIGERATION MACHINERY, AND FUEL TANKS

SUBPART 55.07—DETAIL REQUIREMENTS

1. Table 55.07–1 (b) in § 55.07–1, published August 21, 1952 (17 F. R. 7658), is corrected for material specification subpart 51.34 (Steel pipe; seamless-alloy) by changing the A. S. T. M. specification from "A335 (A286)" to "A335 (A280)."

2. Table 55.07–5 (a) in § 55.07–5, published August 21, 1952 (17 F. R. 7659), is corrected by deleting the notes in the sixth column for specification subpart 51.34 (Ferrous materials; seamless alloy-steel) for grades P2, P3a, P3b, P11, P12, P21, P22, P8b, and P8d.

SUBPART 55.10—PUMPING ARRANGEMENTS AND PIPING SYSTEMS

3. Section 55.10–10 (b) (3), published August 21, 1952 (17 F. R. 7665), is corrected in the last sentence by changing the phrase "welds are required" to "welds as required."

PART 56—ARC WELDING, GAS WELDING, AND BRAZING

SUBPART 56.05—TESTS AND INSPECTION

Section 56.05–6 (c), published August 21, 1952 (17 F. R. 7671), is corrected by changing the reference in the second sentence from "§ 56.05–5 (k)" to "§ 56.05–5 (o)."

Subchapter H—Passenger Vessels

PART 70—GENERAL PROVISIONS

SUBPART 70.10—DEFINITIONS OF TERMS USED IN THIS SUBCHAPTER

1. Section 70.10–13, published October 18, 1952 (17 F. R. 9386), is corrected by changing the phrase "under the designation" to "under this designation."

2. Section 70.10–15, published October 18, 1952 (17 F. R. 9386), is corrected by changing the phrase "for deck passengers and vehicles" to "for deck passengers and/or vehicles."

PART 71—INSPECTION AND CERTIFICATION

SUBPART 71.25—ANNUAL INSPECTION

1. Section 71.25–35, published October 18, 1952 (17 F. R. 9389), is corrected by changing in the headnote the word "moving" to "marine."

2. Table 71.35–5 (a) in § 71.35–5, published October 18, 1952 (17 F. R. 9389), is corrected by changing for third special survey No. 2 the date due in the second column from "33" to "32."

PART 72—CONSTRUCTION AND ARRANGEMENT

SUBPART 72.05—STRUCTURAL FIRE PROTECTION

1. Section 72.05–10 (c) (2), published October 18, 1952 (17 F. R. 9394), is corrected by changing in the next to the last line the phrase "Class 5–15" to "Class B–15."

2. Table 72.05–10 (e) in § 72.05–10, published October 18, 1952 (17 F. R. 9395), is corrected by changing in line 3 and column 6 the value "B–15" to B–0."

SUBPART 72.25—PASSENGER ACCOMMODATIONS

3. Section 72.25–5 (a), published October 18, 1952 (17 F. R. 9401), is corrected by changing the period at the end of the first sentence to a comma and by adding the following: "for any vessel engaged in a voyage from any port or place in the United States to any port or place in a foreign country or dominion (ports and places in foreign territory contiguous to the United States excepted) or conversely."

SUBPART 72.40—RAILS AND GUARDS

4. Section 74.40–5, published October 18, 1952 (17 F. R. 9402), is corrected to read as follows:

§ 72.40–5 *Where rails required.* (a) Rails or equivalent protection shall be installed near the periphery of all weather decks accessible to passengers or crew. The height and construction of such rails shall be as required by this section.

(b) Such rails on decks accessible to passengers shall be in at least three courses approximately evenly spaced, and shall be at least 42 inches high, except:

(1) On vessels of 65 feet in length or less, other than ferry boats, excursion vessels, and vessels of a similar type where large numbers of passengers are carried, such rails shall be at least 36 inches high.

(2) Where the height of the rails interferes with the business of the vessel, as in the case of a sport fishing vessel, other arrangements may be specifically approved by the Commandant: *Provided*, That in any case the effective rail or bulwark height above the deck on which the passengers stand shall be at least 30 inches.

(c) On the passenger decks of ferry boats, excursion vessels, and vessels of a similar type, the space below the top of the rail shall be fitted with suitable wire mesh or the equivalent. Depending upon the type of construction, the lower rail courses may not be required.

(d) All other such rails shall be at least 36 inches high and shall be in at least two courses.

(R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416)

PART 73—WATERTIGHT SUBDIVISION

SUBPART 73.10—RULES FOR SUBDIVISION—VESSELS ON INTERNATIONAL VOYAGES AND VESSELS OF 150 GROSS TONS AND OVER IN OCEAN OR COASTWISE SERVICE

1. Section 73.10–5 (d) (1), published October 18, 1952 (17 F. R. 9403), is corrected by changing in the first sentence the phrase "of verage permeability" to "of average permeability."

PART 112—EMERGENCY LIGHTING AND POWER SYSTEM

SUBPART 112.05—GENERAL REQUIREMENTS

1. Table 112.05–1 (a) in section 112.05–1 published October 18, 1952 (17 F. R. 9517), is corrected as follows:

a. In column 1 under "passenger vessels" the phrase "Other than Ocean and Coastwise, over 15 g. t. but less than 1,600 g. t." is changed to "Other than Ocean and Coastwise, over 15 g. t."

b. In column 2 the first and second sentences shall be combined into one sentence and the period after "temporary source" changed to a comma and the word "and" inserted.

2. Section 112.05–5 (b) published October 18, 1952 (17 F. R. 9517), is corrected by changing the phrase "source supply" to "source of supply."

SUBPART 112.15—EMERGENCY LOADS

3. Section 112.15–1 (e) published October 18, 1952 (17 F. R. 9517), is corrected by changing the phrase "except machinery spaces, stores and" to "except machinery spaces, and except stores and", and by changing the phrase "zone bulkheads and" to "zone bulkheads closed and".

4. Section 112.15–5 (a) published October 18, 1952 (17 F. R. 9517), is corrected in the first sentence by inserting a period after the word "source" and by deleting the words "for the following".

SUBPART 112.50—EMERGENCY DIESEL-ENGINE-DRIVEN GENERATOR SETS

5. Section 112.50–1 (a) published October 18, 1952 (17 F. R. 9518), is corrected by changing in the fourth sentence the phrase "½-minute of cranking" to "½-minute of cranking at a speed of not less than that specified by the engine manufacturer" and by changing the last two words in the same sentence from "normal voltage" to "nominal voltage".

SUBPART 112.55—STORAGE BATTERY INSTALLATION

6. Section 112.55–1 (a) published October 18, 1952 (17 F. R. 9519), is corrected by deleting from the end of the second sentence the phrase "and a specific gravity of the electrolyte when fully charged of 1.270 to 1.285, both inclusive, at 25 degrees C. may be used for engine cranking batteries," and the following sentence is added: "The fully charged specific gravity of the electrolyte of engine cranking batteries shall not exceed 1.260 at 25 degrees C. for high watering space type batteries, or 1.285 at 25 degrees C. for normal watering space type batteries."

7. Section 112.55–15 (a) published October 18, 1952 (17 F. R. 9519), is corrected by changing the reference "Table 112.05" to "Table 112.05–1 (a)", by changing the last word of the first sentence from "normal" to "nominal", by changing the phrase "normal potential" to "nominal potential" twice in the second sentence.

PART 113—COMMUNICATION AND ALARM SYSTEMS AND EQUIPMENT

SUBPART 113.30—SOUND POWERED TELEPHONY AND VOICE TUBE SYSTEMS

1. Section 113.30–5 (e) published October 18, 1952 (17 F. R. 9523), is corrected by changing the first sentence to read as follows: "Communication to radio and radio direction-finder shall comply with the requirements of this paragraph. The term 'radio installation' shall be construed to mean either the radiotelegraph installation or, where only a radiotelephone is installed, the radiotelephone installation."

2. Section 113.30–5 (e) (2) published October 18, 1952 (17 F. R. 9523), is corrected by changing the phrase "navigating bridge" to "wheelhouse."

3. Section 113.30–5 (e) (2) (i) published October 18, 1952 (17 F. R. 9523), is corrected by changing the phrase "navigating bridge structure" to "wheelhouse" and by changing the phrase "on the bridge" to "in the wheelhouse."

4. Section 113.30–90 (b) published October 18, 1952 (17 F. R. 9524), is corrected by inserting at the beginning thereof the phrase "Except as otherwise required by paragraph (d) of this section."

5. Section 113.30–90 published October 18, 1952 (17 F. R. 9524), is corrected further by adding a new paragraph (d) reading as follows:

§ 113.30–90 *Sound powered telephone and voice tube systems for existing vessels.* * * *

(d) The communication between the radio room and the wheelhouse on vessels contracted for prior to November 19, 1952, shall meet the requirements of § 113.30–5 (e) on or before November 18, 1954.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416)

SUBPART 113.35—ENGINE ORDER TELEGRAPH SYSTEMS

6. Section 113.35–45 (e) published October 18, 1952 (17 F. R. 9525), is corrected by redesignating subdivision (2) (i) to subparagraph (3).

Subchapter M—Bulk Grain Cargoes

PART 144—LOADING AND STOWAGE OF GRAIN CARGOES

SUBPART 144.10—GENERAL REQUIREMENTS

1. Section 144.10–40 (e) published October 18, 1952 (17 F. R. 9530), is corrected in the first sentence by changing the reference "§ 170.10–30 (b)" to "§ 144.10–30 (b)" and in the second sentence by changing the reference "§ 170.10–60" to "§ 144.10–60."

2. Figure 144.10–4 (f) (1) in § 144.10–40 (f) published October 18, 1952 (17 F. R. 9530), is redesignated "Figure 144.10–40 (f) (1)."

Subchapter N—Explosives or Other Dangerous Articles or Substances and Combustible Liquids on Board Vessels

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES, AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

SUBPART—DETAILED REGULATIONS GOVERNING EXPLOSIVES

1. Section 146.20–7 (e) published July 17, 1952 (17 F. R. 6465), is corrected in the first sentence by changing the word "blasing" to "blasting".

2. The table entitled "Stowage and Storage Chart of Explosives and Other Dangerous Articles" in § 146.20–90 is corrected in the heading for column 4, both horizontally and vertically, by changing the word "fuze" to "fuse", and the heading for column 15, both horizontally and vertically, is changed to read: "Cordeau detonant fuse, safety squibs, fuse lighters, fuse igniters, delay electric igniters, electric squibs, instantaneous fuse or igniter cord."

3. Table A—Classification: Class A; dangerous explosives in § 146.20–100 published July 17, 1952 (17 F. R. 6479), is corrected in column 1 by changing the item "Detonating fuses" to "Detonating fuzes."

4. Table B—Classification: Class B; less dangerous explosives in § 146.20–200 published July 17, 1952 (17 F. R. 6484), is corrected in column 1 by changing the item "Fireworks, specia (specia fireworks)" to "Fireworks, special (special fireworks)."

SUBPART—DETAILED REGULATIONS GOVERNING COMPRESSED GASES

5. The headnote for § 146.24–55 published July 17, 1952 (17 F. R. 6494), is changed to read: "Stowage of compressed gases and other dangerous articles."

6. Section 146.24–80 (a) published July 17, 1952 (17 F. R. 6495), is corrected to agree with previous amendment published January 11, 1950, and shall read as follows:

§ 146.24–80 *Liquid chlorine in bulk.* (a) Liquid chlorine may be transported in bulk on barges when loaded in Class I arc-welded steel tanks (pressure vessel type), which are independent of the structure of the vessel.

(R. S. 4405, as amended, 4462, as amended, 4472, as amended, 46 U. S. C. 375, 416, 170)

7. Table G—Classification: Compressed gases in § 146.24–100 published July 17, 1952 (17 F. R. 6505), is corrected in the fifth column opposite "Liquefied petroleum gas (pressure not exceeding 75 lb. per sq. in. at 105° F.)" by changing the phrase under stowage "(With washed heads)" to "(With dished heads)."

SUBPART—DETAILED REGULATIONS GOVERNING POISONOUS ARTICLES

8. Section 146.25–45 (f) published July 17, 1952 (17 F. R. 6511), is corrected in the second sentence by changing the

The Commission, having before it for

phrase "hard gamma rays or radium of filtered" to "hard gamma rays of radium filtered".

9. Table H—Classification: Class B; less dangerous poisons in § 146.25–200 published July 17, 1952 (17 F. R. 6517, 6529, 6539), is corrected in the fifth column, after stowage, opposite "Ammonium arsenate, solid" by changing one of the phrases "On deck under cover" to "On deck in open"; in the seventh column after outside containers, opposite "Drugs, chemicals, medicines or cosmetics, N. O. S. (solid)" by changing the phrase "Steel drums or drums" to "Steel barrels or drums"; and in the seventh column opposite "Phenyldichlorasine, liquid" by changing the word "permitted" to "Not permitted."

Additional authority. The President by Executive Order 10402 published in the FEDERAL REGISTER dated November 4, 1952 (17 F. R. 9917), assigned to the Department of the Treasury (Coast Guard) certain responsibilities relating to the enforcement of the Convention for Safety of Life at Sea, 1948, and directed, in relation to the fulfillment of the obligations undertaken by the Government of the United States of America under this Convention, the performance of those functions and duties prescribed in this Convention which appertain to the functions and duties which are now directed or authorized by law to be performed by the Department of the Treasury (Coast Guard). Therefore, under the authority for the regulations in 46 CFR Parts 1, 2, 3, 30 to 39, inclusive, 50 to 61, inclusive, 66 to 78, inclusive, 90 to 97, inclusive, 110 to 113, inclusive, 144, 146, 147, 157, 160 to 164, inclusive, 167, and 168, there shall be added as "Interpreted or applied E. O. 10402, 17 F. R. 9917."

Subchapter B—Merchant Marine Officers and Seamen

[CGFR 52-58]

PART 12—CERTIFICATION OF SEAMEN

ENDORSEMENTS PLACED ON SEAMEN'S DOCUMENTS UNDER WARTIME REGULATIONS

The President by Proclamation 2974, dated April 28, 1952, and published in the FEDERAL REGISTER April 30, 1952, declared that the existence of an Unlimited National Emergency proclaimed May 27, 1941, by Proclamation 2487 was terminated since the declaration by Congress of the existence of a state of war between the United States of America and Japan, which was the last of the states of war declared by Congress between the United States of America and Japan, Germany, Italy, Hungary, Rumania, and Bulgaria, was terminated by the coming into force on April 28, 1952, of the Treaty of Peace with Japan signed at San Francisco September 8, 1951. During World War II certain certificates or documents issued to seamen as "Able Seaman" or "Qualified Member of the Engine Department" were endorsed "Unless sooner invalidated this certificate shall expire six months after the termination of the war." In order to obtain a certificate with this restrictive endorsement, it was necessary for the applicant to meet all the present requirements for the rating of "Able Seaman" or "Qualified Member of the Engine Department" with exception of sea service, which had been reduced. In most instances these seamen now have the required service to obtain a document without this restrictive endorsement. It is urged that seamen holding documents bearing this restrictive endorsement apply for documents without this restrictive endorsement as soon as possible.

In order that the operation of vessels engaged in activities essential to our national defense will not be delayed, as well as to afford an opportunity for seamen presently holding certificates or documents bearing this restrictive endorsement to exchange them for documents without such restrictive endorsement, amendments to 46 CFR 12.05–13 and 12.15–13 extend the period of validity of such documents or certificates until July 1, 1953. The purpose for the amendments to 46 CFR 12.05–13 and 12.15–13 is to provide qualified seamen for the manning of merchant vessels which are necessary in our national defense. It is hereby found that compliance with a notice of proposed rule making, public rule making procedure thereon, and effective date requirements of the Administrative Procedure Act is impracticable and contrary to the public interest.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), and an Order of the Acting Secretary of the Treasury dated January 23, 1951, identified as CGFR 52–1 (16 F. R. 731), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments to the regulations are prescribed and shall be effective from October 28, 1952:

SUBPART 12.05—ABLE SEAMEN

Section 12.05–13 is amended to read as follows:

§ 12.05–13 *Certification of able seamen under wartime regulations.* (a) Any person who has been certified as able seaman under wartime regulations and whose certificate or document is endorsed "Unless sooner invalidated this certificate shall expire six months after the termination of the war" shall be permitted to be employed in the capacities indicated on his certificate or document until such certificate or document is revoked or suspended or until July 1, 1953. A seaman who can produce documentary evidence of sufficient service to comply with the peacetime sea service requirements may be issued a merchant mariner's document on which the restrictive endorsement is omitted: *Provided*, That he surrenders for cancellation the original certificate or merchant mariner's document bearing the restrictive endorsement and that he is qualified in all other respects.

(b) Any able seaman holding a certificate or document endorsed "Unless sooner invalidated this certificate shall expire six months after the termination of the war" may not be engaged in the capacities indicated on his certificate or document on or after July 1, 1953, except that he may be continued in employment necessary for completion of the voyage which commenced prior to that date.

SUBPART 12.15—QUALIFIED MEMBER OF THE ENGINE DEPARTMENT

Section 12.15–13 is amended to read as follows:

§ 12.15–13 *Certification of qualified members of the engine department under wartime regulations.* (a) Any person who has been certified as a qualified member of the engine department under wartime regulations and whose certificate or document is endorsed "Unless sooner invalidated this certificate shall expire six months after the termination of the war" shall be permitted to be employed in the capacities indicated on his certificate or document until such certificate or document is revoked or suspended or until July 1, 1953. A seaman who can produce documentary evidence of sufficient sea service to comply with the peacetime sea service requirements may be issued a merchant mariner's document on which the restrictive endorsement is omitted: *Provided*, That he surrenders for cancellation the original certificate or merchant mariner's document bearing the restrictive endorsement and that he is qualified in all other respects.

(b) Any qualified member of the engine department holding a certificate or document endorsed "Unless sooner invalidated this certificate shall expire six months after the termination of the war" may not be engaged in the capacities indicated on his certificate or document on or after July 1, 1953, except that he may be continued in employment necessary for completion of the voyage which commenced prior to that date.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

OWNERSHIP REPORTS, BROADCAST LICENSEES AND PERMITTEES

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 12th day of December 1952;

The Commission having before it for consideration its rules and regulations relating to FCC Forms 303, 314, 315, 323 and 323A; and

It appearing, that FCC Form 323 (Annual Ownership Report) has not been revised since January 1946 and that FCC Form 323A (Interim Ownership Report) has not been revised since 1945 and that a revision and consolidation of these forms is desirable at this time; and

It further appearing, that the issuance of a revised Form 323 as contemplated herein necessitates certain minor editorial changes in the Commission's rules and regulations and certain minor editorial changes in FCC Forms 303,[1] 314[1] and 315[1] to reflect the use of the revised Form 323;[1] and

It further appearing, that the proposed changes relate to practice and procedure; and that the provisions of section 4 of the Administrative Procedure Act with respect to notice of proposed rule making are inapplicable; and

It further appearing, that the amendments adopted herein are issued pursuant to the authority contained in sections 4 (i) and 303 (r) of the Communications Act of 1934, as amended;

It is ordered, That, effective February 1, 1953, FCC Form 323 "Ownership Report of Broadcast Stations" is revised and readopted in the form attached hereto;[1] and

It is further ordered, That, effective February 1, 1953, FCC Form 323A is deleted; and

It is further ordered, That the above revised form may be used immediately upon its availability at Commission offices; and

It is further ordered, That effective February 1, 1953, Part 1 of the Commission's rules and regulations are amended as set forth below.

Released: December 17, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

Part 1 of the rules is amended as follows:

1. Delete the following from the table showing forms currently in effect:

323A ..... 1.343 (b)

and insert in lieu thereof the following:

323 ..... 1.343 (b)

2. Section 1.343 is amended in part to read as follows:

§ 1.343 *Ownership reports, broadcast licensees and permittees.* (a) The licensee or permittee of each broadcast station (Standard, FM, television and international) shall file on or before April 1 of each year an Ownership Report (FCC Form 323) giving the following information as of December 31 of the preceding calendar year:

* * * * *

(4) In the case of all licensees or permittees (i) a list of all contracts still in effect required to be filed with the Commission by § 1.342 showing the date of execution and expiration of each contract; (ii) any interest which the licensee or permittee may have in any other broadcast station.

(b) A supplemental Ownership Report (FCC Form 323) shall be filed by each licensee or permittee within 30 days after any change occurs in the information required by the Ownership Report (the application or construction permit in the case of a permittee who has not filed an ownership report) from that previously reported. Such report shall include without limitation:

* * * * *

(2) Any change in officers and directors.

* * * * *

(4) Any change in the officers, directors, or stockholders of a corporation other than the licensee or permittee such as X, Y, or Z corporation described in the example above: *Provided, however*, That in the case of a change in the officers, directors, or stockholders of a corporation other than the licensee or permittee (such as X, Y, or Z corporation described in the example above), such change need not be reported in the supplemental report unless that corporation directly or indirectly owns 25 percent or more of the voting stock in the licensee or permittee.[2]

PROPOSED RULE MAKING

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 61]

SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATIONS RULES

FLIGHT TIME AND DUTY TIME LIMITATIONS

Notice is hereby given that the Civil Aeronautics Board will hear oral argument on February 26, 1953, at 10:00 a.m. standard time, in Room 5042, Department of Commerce Building, Washington, D. C.

By notice dated July 25, 1952, and published in the FEDERAL REGISTER on July 30, 1952 (17 F. R. 6971), the Board gave notice that it has under consideration the adoption of a revision of Part 40 of the Civil Air Regulations. On August 26, 1952, the Board circulated Draft Release No. 52–25 and published as a notice a proposed rule making in the FEDERAL REGISTER on August 30, 1952 (17 F. R. 7949) a proposal for the establishment of daily flight time limitations for domestic long-distance nonstop operations. Reference is made to the notice dated July 25, 1952, and Draft Release No. 52–25 for a full explanation of the purpose and background of the proposed rules. Copies of said notice and draft release may be obtained from the Director, Bureau of Safety Regulation, Civil Aeronautics Board, Washington 25, D. C.

Comment received in response to the notice dated July 25, 1952, and Draft Release No. 52–25 indicated substantial disagreement with certain of the flight time limitations proposed therein and, in addition, requested the establishment of weekly flight time and daily duty time limitations. Due to the controversial nature of some of these proposals, the Board considers it advisable that the problems associated therewith be treated separately from the general proposed revision of Part 40. The Board having received requests for opportunity to present oral argument concerning certain of the flight time limitation problems

and it appearing desirable that such argument be heard, the Board desires to hear oral argument with respect to the matters described herein for the purpose of permitting interested persons to participate in the formulation of rules concerning whether, and under what circumstances and conditions, it is reasonable and will promote safety of flight in air commerce to promulgate rules concerning the following:

Monthly flight time limitations. It has been requested that the Board amend the monthly flight time limitations for pilots engaged in scheduled interstate air transportation by amending § 61.117 (d) of Part 61 (section 40.140 of the proposed revision of Part 40) to provide a maximum of 85 hours of flying in lieu of the present maximum of 100 hours per month. The reason presented for this requested change is to bring the present flight time limitations into conformity with the maximum flying hours contained in National Labor Board decision number 83 which is incorporated by reference in section 401 (1) of the Civil Aeronautics Act of 1938, as amended. The primary issues to be considered with regard to this proposed change are as follows:

(1) Do the maximum hour provisions incorporated by section 401 (1) of the Civil Aeronautics Act constitute a limitation which must be conformed to by the Board in prescribing reasonable rules and regulations governing the maximum hours or periods of service of airmen of air carriers under section 601 (a) (5) of

given at least 8 hours free of all duty, if adequate rest facilities are provided at the airport; or 10 hours free of all duty, if adequate rest facilities are not provided at the airport.

In view of the fact that duty time limitations are provided in the regulations for dispatchers and for irregular air carrier pilots, it is considered that the same safety factors are also applicable to scheduled air carrier flight crew members.

Interested persons have also indicated that such a duty time limitation should provide a maximum of 12 hours of actual duty time instead of 16 hours of scheduled duty time. It also appears that it may be desirable to consider deadhead time as duty time unless adequate rest facilities are provided aboard the aircraft.

The issues to be considered are as follows:

(1) Are daily duty time limitations desirable for flight crew members in scheduled air carrier operations?

(2) If so, what maximum hours of on-duty time should be permitted during a 24-hour period, and should such duty time limitations be provided on the basis of hours scheduled or hours actually on duty?

(3) Should deadhead time be considered duty time?

(4) If deadhead time is considered duty time, should account be taken of adequate rest facilities provided aboard aircraft?

Daily flight time limitations for long-distance nonstop operations. Presently

The primary issues to be considered are as follows:

(1) Should the daily flight time limitations for all flight crew members on domestic long-distance nonstop operations be increased from 8 hours and, if so, to what extent?

(2) If the daily flight time limitations are increased to a time greater than 8 hours for long-distance nonstop operations, should flight deck duty time limitations be established?

(3) If so, what should be the magnitude of such flight deck duty time limitations?

(4) Should flight deck duty time limitations be equally applicable to pilots and other flight crew members?

Interested persons desiring to present views and arguments pertaining to the proposed rules are requested to inform the Director, Bureau of Safety Regulation, Civil Aeronautics Board, Washington 25, D. C., on or before January 26, 1953. In order that all interested persons may have the opportunity to ascertain the arguments to be presented to the Board and thereby present views which differ from those proposed to be presented by other interested persons, it is requested that communications in response to this notice specify those matters described herein concerning which the respondent desires to present oral argument and the nature of the argument to be presented. If comment received in response to this notice indicates that substantial agreement exists with regard to any one of the matters presented herein, it is contemplated that

30, 1952 (17 F. R. 6971), the Board gave notice that it has under consideration the adoption of a revision of Part 40 of the Civil Air Regulations. Reference is made to said notice for a full explanation of the purpose and background of the proposed rules. In the subject notice, the Board indicated that while it would not preclude comment on matters which were contained in the earlier published drafts on the proposed revision of Part 40, it did not seek nor desire to receive written comment which was simply repetitious of matters already fully considered. In addition, the Board indicated that if any interested person desired to present oral argument to the Board on any point raised in written comment, the particular point or points on which oral argument was desired should be specified.

As a result of comment received in response to the July 25, 1952 notice, the Board issued a supplemental notice of proposed rule making and oral argument which was published in the FEDERAL REGISTER on December 6, 1952 (17 F. R. 11124) and circulated as Draft Release No. 52–33. This notice set down certain, but not all, of the requested issues for oral argument on January 8, 1953. Subsequent to the publication of such notice the Board has received requests for permission to submit additional written comment on those issues concerning which oral argument was requested but which were not set down to be heard by the Board.

In view of the foregoing, written comment on such issues submitted prior to January 8, 1953, will be considered by the Board before taking final action on the proposed revision of Part 40. Comment should be submitted in duplicate addressed to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C.

MISCELLANEOUS AMENDMENTS

Pursuant to the requirements of section 3 (a) (1) of the Administrative Procedures Act (5 U. S. C. 1002; 60 Stat. 238), and pursuant to authority vested in the Secretary of State by sections 3 and 4 of the act of May 26, 1949 (63 Stat. 111; 5 U. S. C. 151c, 22 U. S. C. 811a), I hereby amend Public Notice 34 as

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Region VII, Redelegation of Authority No. 50]

DIRECTORS OF DISTRICT OFFICES, REGION VII, CHICAGO, ILL.

REDELEGATION OF AUTHORITY TO ACT UNDER SECTION 14 OF SR 87 TO THE GCPR

By virtue of the authority vested in me as Director of the Regional Office of Authority 7, Revised (16 F. R. 10752, 17 F. R. 7062), and Delegation of Authority 76, Revised (17 F. R. 8997, 17 F. R. 11252), this revised redelegation of authority is hereby issued.

1. *Authority to act under sections 6 and 7 of the GCPR.* Authority is hereby redelegated to the Territorial Directors of the Office of Price Stabilization in Alaska, Hawaii, Puerto Rico, and the Virgin Islands:

(a) To act under sections 6 and 7 of the GCPR, in respect to all matters referred to therein pertaining to appli-

the Civil Aeronautics Act of 1938, as amended?

(2) If it is determined that section 401 (1) of the Civil Aeronautics Act is a limitation upon the power of the Board under section 601 (a) (5) of the act, does section 401 (1) provide a maximum of 85 hours of flying in interstate air transportation or does it provide a maximum of 85 hours of all types of flying (i. e., include ferry flights, training flights, test flights, etc.) by pilots and copilots who are engaged in interstate air transportation?

Weekly flight time limitations. The Board has been requested to amend § 61.117 (c) of Part 61 (§ 40.140 of the proposed revision of Part 40) to provide that a pilot in scheduled air transportation shall not fly in excess of 32 hours during any 7 consecutive days. At present § 61.117 (c) specifies a maximum of 30 hours during any 7 consecutive days. The reason for the proposed change from 30 to 32 hours is the difficulty in complying with the 30-hour provision in certain transcontinental operations. The primary issues to be considered concerning this proposal are the necessity for such a limitation in scheduled air carrier operation and the desirability of the proposed increase in maximum hours from 30 to 32 hours.

Daily duty time limitations. It has been proposed that the Board add a new provision to the scheduled air carrier flight time limitations which will limit the scheduled duty time of flight crew members to 16 hours in any 24-hour period. Also, if over 16 hours of actual on-duty time transpires during any such period, the flight crew member shall be effective daily flight time limitations prevent the scheduling of flight crew members on domestic scheduled air carrier operations which will exceed 8 hours' duration. These flight time limitations at present preclude the inauguration of nonstop transcontinental operations because such flight would be of greater than 8 hours' duration. Since it appears that nonstop transcontinental service may be in the public interest, it was proposed in Draft Release No. 52–25, dated August 26, 1952, that the present daily flight time limitations be increased from 8 to 12 hours for long-distance scheduled nonstop operations. In recognition of the safety factors upon which the present flight time limitations are predicated, it also was proposed that flight deck duty time limitations be considered for the purpose of limiting the length of time which flight crew members could be assigned to flight deck duty in such operations. Comments received as a result of publication of Draft Release No. 52–25 were not responsive to the question of whether the existence of flight deck duty time limitations applicable to flight crew members would render acceptable the increase of daily flight time limitations. The proposed change would permit long-distance nonstop operations by increasing the allowable time which flight crew members may be assigned aloft, but also limit the time which such flight crew members could be assigned to flight deck duty. In this matter, long-distance nonstop operations would be permissible through the use of additional crew members when the flight would normally exceed 8 hours.

such matter will not be scheduled for oral argument. Copies of communications received in response to this notice will be available after February 2, 1953, for examination by interested persons at the Docket Section of the Board Room 5412, Department of Commerce Building, Washington, D. C. As soon as practicable, notice will be given to interested persons with regard to those matters concerning which oral argument will be heard and the allocation of time for presentation of argument.

Interested persons may also participate in the proposed rule making through the submission of written data, views, and arguments pertaining thereto. Such presentation may be in lieu of, or in addition to, matter presented orally.

FEDERAL POWER COMMISSION

[Docket No. G-2085]

NORTHERN NATURAL GAS CO.

ORDER GRANTING MOTION FOR OMISSION OF INTERMEDIATE DECISION PROCEDURE AND FIXING DATES FOR BRIEFS AND ORAL ARGUMENT

DECEMBER 22, 1952.

On November 24, 1952, at the conclusion of the hearing in the above-entitled proceeding, counsel for Northern Natural Gas Company (Northern) orally moved upon the record pursuant to § 1.30 (c) of the Commission's rules of practice and procedure (18 CFR 1.30 (c)) for the omission of the intermediate decision procedure and for oral argument before the Commission. This request for omission of the intermediate decision procedure was objected to by counsel for Iowa Power and Light Company, Minneapolis Gas Company, Minnesota Valley Natural Gas Company, and Northern States Power Company, interveners in the proceeding.

On December 17, 1952, telegrams were filed herein by the aforementioned interveners, Minnesota Valley advising that it withdrew its objection to the omission of the intermediate decision procedure, and the other three advising that, should opportunity for oral argument before the Commission be afforded, they concurred in the omission of the intermediate decision procedure. On December 18, 19, and 22, 1952, the other parties hereto advised that they were agreeable to the intermediate decision procedure being omitted.

The Presiding Examiner fixed the following dates for the filing of briefs in this proceeding: December 10, 1952, for the filing by Northern of its main brief, which has been done; December 23, 1952, for the filing of briefs by the other parties, interveners and Commission staff counsel; and January 5, 1953, for the filing by Northern of its reply brief. In connection with the requests for oral argument before the Commission, several of the parties to the proceeding have suggested that the oral argument be held on or about January 5, 1953, the date set for the filing of Northern's reply brief.

The Commission finds: It is appropriate and in the public interest in carrying out the provisions of the Natural Gas Act, to grant the request made by Northern in its aforesaid motion on November 24, 1952, for omission of the intermediate decision procedure herein, to modify the time for filing of briefs, and to provide for oral argument, all as hereinafter ordered.

The Commission orders:

(A) The intermediate decision procedure be and the same is hereby omitted in this proceeding in accordance with the provisions of § 1.30 (c) and (d) (5) of the Commission's rules of practice and procedure (18 CFR 1.30 (c) and (d) (5)) as requested by Northern in its aforesaid motion of November 24, 1952.

(B) The Presiding Examiner herein shall forthwith certify and file with the Secretary of the Commision a copy of the record of the hearing herein.

(C) Oral argument be had before the Commission in this proceeding on January 7, 1953, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

(D) Briefs, other than Northern's main brief (which was filed on December 10, 1952), be filed as follows: on or before December 29, 1952, for reply briefs to Northern's main brief; and, on or before January 5, 1953, for reply brief by Northern.

(E) Each party desiring to participate in the oral argument herein provided for shall notify the Secretary of the Commission, on or before January 5, 1953, of the amount of time desired for presentation of argument.

Date of issuance: December 23, 1952.

By the Commission.

[Docket No. G-2105]

ROANOKE PIPE LINE CO.

ORDER SUSPENDING PROPOSED RATE SCHEDULES

DECEMBER 22, 1952.

On December 4, 1952, Roanoke Pipe Line Company (Roanoke Pipe), a Virginia corporation having its principal place of business at Roanoke, Virginia, filed Fourth Revised Sheet No. 4, First Revised Sheet No. 5, and Original Sheet No. 5A to its FPC Gas Tariff, Original Volume No. 1, which, unless suspended, will become effective January 4, 1953.

Roanoke Pipe owns and operates a natural-gas transmission system whereby it transports natural gas purchased from Virginia Gas Transmission Corporation for resale to the Roanoke Gas Company, its sole customer, which distributes such natural gas in Roanoke, Virginia. Roanoke Pipe and its customer have common offices and identical boards of directors and officers.

By said Fourth Revised Sheet No. 4, First Revised Sheet No. 5, and Original Sheet No. 5A, Roanoke Pipe proposes to increase the rates and charges paid by Roanoke Gas Company $97,407 annually.

It does not appear from an office review of the data submitted by Roanoke Pipe that the proposed increase in rates and charges has been supported as required by section 4 (e) of the Natural Gas Act, and such increase in rates and charges may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful, and may place an undue burden upon ultimate consumers of natural gas. Among other things, it appears that Roanoke Pipe has improperly allocated joint administrative general expenses between Roanoke Pipe and Roanoke Gas Company.

The Commission finds: It is necessary or appropriate to carry out the provisions of the Natural Gas Act and to aid in the enforcement thereof in the public interest, that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such Act concerning the lawfulness of Roanoke Pipe's FPC Gas Tariff, Original Volume No. 1, as amended by Fourth Revised Sheet No. 4, First Revised Sheet No. 5 and Original Sheet No. 5A and that said Fourth Revised Sheet No. 4, First Revised Sheet No. 5, and Original Sheet No. 5A to its FPC Gas Tariff, Original Volume No. 1, be suspended and the use thereof deferred as provided by the Natural Gas Act.

The Commission orders:

(A) Pursuant to the authority contained in section 4 of the Natural Gas Act, a public hearing be held at a time and place and at a date to be fixed by further order of the Commission concerning the lawfulness of the rates, charges, classifications or services subject to the jurisdiction of the Commission, as set forth in Roanoke Pipe's FPC Gas Tariff, Original Volume No. 1 as amended by Fourth Revised Sheet No. 4, First Revised Sheet No. 5 and Original Sheet No. 5A.

(B) Pending such hearing and decision thereon, Roanoke Pipe's Fourth Revised Sheet No. 4, First Revised Sheet No. 5 and Original Sheet No. 5A to its FPC Tariff, Original Volume No. 1, be and the same is hereby suspended and its use deferred until June 4, 1953, and until such further time as such tariff and revised sheets may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested state commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: December 23, 1952.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-1158]

CARPEL CORP.

NOTICE OF APPLICATION TO WITHDRAW FROM REGISTRATION AND LISTING, AND OF OPPORTUNITY FOR HEARING

DECEMBER 23, 1952.

The Carpel Corporation, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to withdraw its Capital Stock, No Par Value, from registration and listing on the Washington Stock Exchange.

Among the reasons stated by the company in its application to withdraw this security from registration and listing are the following:

(1) There are only about 150 shareholders of the approximately 21,000 shares of the above security that are now outstanding.

(2) During the entire year 1950, there were three transactions in this security on the Washington Stock Exchange, involving approximately 300 shares altogether.

(3) During the entire year 1951, there were six transactions in this security on the Washington Stock Exchange, involving approximately 200 shares altogether.

(4) During the entire year 1952, there have been up until the present date five transactions in this security on the Washington Stock Exchange, involving approximately 400 shares altogether.

(5) It is the belief of the management of the company that due to the negligible amount of trading in this security, the price quotations are not truly reflective of the value of the security.

Upon receipt of a request, prior to January 16, 1953, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[File No. 54-177, 59-91]

PENNSYLVANIA GAS & ELECTRIC CORP. ET AL.

ORDER APPROVING PLAN AND RESERVING JURISDICTION

DECEMBER 15, 1952.

In the matter of Pennsylvania Gas & Electric Corporation, North Penn Gas Company, Crystal City Gas Company, Penn-Western Service Corporation, applicants, file No. 54-177; Pennsylvania Gas & Electric Corporation and its subsidiary companies, respondents, file No. 59-91.

Pennsylvania Gas & Electric Corporation ("Penn Corp"), a registered holding company, having filed a plan pursuant to section 11 (e) of the act, providing for its liquidation and dissolution and certain related transactions including the distribution to its stockholders of its direct and indirect holdings of the common stocks of North Penn Gas Company ("North Penn") and Crystal City Gas Company ("Crystal City"); North Penn and Crystal City having proposed various transactions for the purpose of making possible the consummation of the aforesaid plan; Penn-Western Service Corporation ("Penn-Western"), an approved mutual service company in the Penn Corp holding company system, having proposed to continue its operations for a limited period of time as a subsidiary service company of North Penn;

Public hearings having been held after appropriate notice at which hearings all interested persons were afforded an opportunity to be heard;

Penn Corp having requested the Commission to enter an order finding that the plan is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby;

Applicants herein having requested that the Commission's order approving the plan contain recitals in accordance with the requirements of the Internal Revenue Code, as amended, including Supplement R and section 1808 (f) thereof;

Penn Corp having further requested the Commission, pursuant to section 11 (e) of the act, to apply to an appropriate court, in accordance with the provisions of section 18 (f) of the act to enforce and carry out the terms and provisions of the plan;

The Commission having considered the entire record in this matter, having heretofore filed its findings and opinion herein on June 5, 1952, and having this day issued its supplemental findings and opinion herein, on the basis of said findings and opinion dated June 5, 1952, and said supplemental findings and opinion issued this day, and pursuant to the applicable provisions of the act and the rules and regulations thereunder:

It is ordered, Pursuant to section 11 (e) and the other applicable sections of the act, that the plan be, and it hereby is, approved subject to the terms and conditions contained in Rule U-24 of the general rules and regulations promulgated under the act and to the following additional terms and conditions:

(1) The order entered herein shall not be operative to authorize the consummation of the transactions proposed in the plan until a court of competent jurisdiction shall, upon application thereto, enter an order enforcing said plan.

(2) That Penn Corp or North Penn shall pay only such fees and expenses in connection with proceedings pursuant to section 11 of the act involving Penn Corp and companies now or formerly in its holding company system as the Commission may approve, allocate or award on appropriate application made to it, and jurisdiction hereby is specifically reserved to determine the reasonableness and appropriate allocation of all fees and expenses and other remuneration incurred or to be incurred in connection with the plan, the transactions incident thereto, and the proceedings thereon and related thereto.

(3) All interlocking relationships between the managements of North Penn and Crystal City shall be terminated.

(4) Jurisdiction be, and it hereby is, specifically reserved with respect to the following matters:

(a) The selection and composition of the board of directors of Crystal City;

(b) The supervision of efforts to locate holders of securities to be exchanged under the provisions of the plan;

(c) The appropriateness of the accounting entries to be made by Penn Corp and its subsidiaries in recording the transactions incident to the consummation of the plan;

(d) The selection of the exchange agent provided for in the plan, Penn Corp not to appoint an exchange agent until it has notified the Commission of the agent proposed to be employed and the manner by which such proposed agent was selected and the Commission has entered a further order herein releasing jurisdiction with respect to the agent proposed to be employed;

(e) The nature of all notices to security holders of Penn Corp issued in connection with carrying out the provisions of the plan and the methods to be employed by Penn Corp in effecting the exchanges of securities and the purchasing or selling of scrip certificates for stock of Crystal City as proposed in the plan;

(f) The entertaining of such further proceedings, entering of such further orders and the taking of such other action as may be necessary or appropriate in connection with the plan, the transactions incident thereto, and the consummation thereof.

It is further ordered, That Penn-Western be, and hereby is, permitted to continue as a subsidiary service company of North Penn for a period of six months: *Provided*, That such period may be extended by the Commission upon a proper showing of due diligence.

It is further ordered and recited, That the following transactions are necessary or appropriate to the simplification of the holding company system of which Penn Corp, North Penn, Crystal City and Penn-Western are members and necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, 49 Stat. 820 (U. S. C., Title 15, sec. 79k (b)) within the meaning of Supplement R and section 1808 (f) of the Internal Revenue Code, as amended, and are hereby authorized, permitted and approved:

1. The transfer by Penn Corp to its Exchange Agent of 450,000 shares of the $5 par value capital stock of North Penn.

2. The transfer by Penn Corp to its Exchange Agent of cash equivalent to $7.00 per annum from December 31, 1950, to the date of consummation of the plan for each share of Penn Corp's outstanding preferred stocks.

3. The issuance by Crystal City to North Penn of 43,047 shares of its $10 par value Common Stock in exchange for 2,639 shares of $100 par value Common Stock of Crystal City, which constitutes all of the issued and outstanding Common Stock of Crystal City, the surrender by North Penn to Crystal City of said 2,639 shares of $100 par value Common Stock of Crystal City, and the cancellation by Crystal City of said 2,639 shares of $100 par value Common Stock of Crystal City.

4. The transfer by North Penn to Penn Corp of 43,047 shares of $10 par value Common Stock of Crystal City.

5. The transfer by Penn Corp to its Exchange Agent of 43,047 shares of the $10 par value Common Stock of Crystal City.

6. The transfer, exchange and delivery by Penn Corp's Exchange Agent to holders of its $7 Cumulative Preferred Stock without par value or its 7 percent $100 par value Cumulative Preferred Stock of (a) 15 shares of the $5 par value capital stock of North Penn for each share of said preferred stock, (b) 1 share of the $10 par value Common Stock of Crystal City for every 2 shares of said Preferred Stock and (c) a cash distribution in liquidation equivalent to $7 per annum from December 31, 1950, to the date of consummation of the plan for each share of said preferred stock.

7. The transfer, exchange and delivery by Penn Corp's Exchange Agent to holders of Penn Corp's Class A Common Stock without par value of 1 share of the $10 par value Common Stock of Crystal City for every 5 shares of said Class A Common Stock.

8. The transfer, exchange and delivery by Penn Corp's Exchange Agent to holders of Penn Corp's Class B Common Stock without par value of 1 share of the $10 par value Common Stock of Crystal City for every 40 shares of said Class B Common Stock.

9. The issuance by Penn Corp, its Exchange Agent, or Crystal City, and the exchange and delivery by Penn Corp's Exchange Agent of scrip certificates representing interests in less than one full share of the $10 par value Common Stock of Crystal City to holders of Penn Corp's stocks not entitled to a full share of the said $10 par value Common Stock of Crystal City, on the basis of 20/40 for each share of preferred stock, 8/40 for each share of Class A Common Stock and 1/40 for each share of Class B Common Stock.

10. The surrender by holders of Penn Corp's stocks of certificates to Penn Corp or its Exchange Agent for shares of Penn Corp's preferred stock, Class A Common Stock, or Class B Common Stock, and the cancellation by Penn Corp or its Exchange Agent of such stock certificates.

11. The surrender of scrip certificates evidencing the right to receive a full share or more of the $10 par value Common Stock of Crystal City, the receipt by the Exchange Agent of such scrip certificates, and the issuance or transfer in lieu thereof of full shares of the $10 par value Common Stock of Crystal City and a scrip certificate representing the remaining fractional share of the $10 par value Common Stock of Crystal City.

12. The cancellation by Penn Corp of 379 shares of its Class B Common Stock without par value held in its treasury.

13. The donation by Penn Corp to Penn-Western of 120 shares of Common Stock of Penn-Western having a par value of $4.08 per share.

14. The distribution in liquidation by Penn-Western to North Penn of all assets, subject to all liabilities, of Penn-Western.

15. The sale by the Exchange Agent of the shares of North Penn and Crystal City stock remaining in its hands and unclaimed by Penn Corp stockholders at the expiration of five years from the date of consummation of the plan.

16. The transfer and delivery by the Exchange Agent to North Penn of the proceeds from the sale of stocks distributable to holders of Penn Corp preferred stock, any dividends paid thereon, and all cash held by the Exchange Agent pursuant to paragraph 1 (a) of the plan, such transfer and delivery constituting a capital contribution to North Penn except that holders of Penn Corp preferred stock for five years after said transfer and delivery may secure from North Penn their share of the cash proceeds described in paragraph 8 of the plan.

17. The transfer and delivery by the Exchange Agent to Crystal City of the proceeds from the sale of stocks distributable to holders of Penn Corp Class A and Class B Common Stock and any dividends paid thereon, such transfer and delivery constituting a capital contribution to Crystal City, except that holders of Penn Corp Class A and Class B Common Stock for five years after said transfer and delivery may secure from Crystal City their share of the cash proceeds described in paragraph 8 of the plan.

18. The transfer by Penn Corp to North Penn of all its remaining assets and the assumption by North Penn of such liabilities of Penn Corp as it may assume.

It is hereby further ordered and recited, That this Commission reserves jurisdiction to amend, supplement, or modify, upon the petition or application of Penn Corp or North Penn, the recitals, itemizations, and specifications required by Supplement R and section 1808 (f) of the Internal Revenue Code, as amended, contained in this order.

By the Commission.

EASTERN UTILITIES ASSOCIATES

ORDER APPROVING PLAN

DECEMBER 18, 1952.

Eastern Utilities Associates ("EUA"), a registered holding company, having filed an application, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act"), for approval of Amended Reorganization Plan No. 4 and amendments thereto ("plan") for it and its direct public-utility subsidiary companies, Blackstone Valley Gas and Electric Company ("Blackstone"), Brockton Edison Company ("Brockton"), and Fall River Electric Light Company ("Fall River"), and its indirect public-utility subsidiary company, Montaup Electric Company ("Montaup");

Said plan providing for the issuance by EUA of 989,407.0628 new common shares of $10 par value per share, of which 685,700¾ shares or 69.3 percent will be allocated to the holders of its presently outstanding common shares and 303,706.3128 shares or 30.7 percent to the holders of its presently outstanding convertible shares, resulting in a per-share allocation ratio as between each common and each convertible share of 2.6 to 1, respectively; and for the issuance and sale to the public of $7,000,000 principal amount of 25-year collateral trust bonds;

Public hearings having been duly held after appropriate notice with respect to said plan at which hearings all interested persons were afforded an opportunity to be heard;

EUA having requested that the Commission's order approving said plan contain recitals in accordance with the requirements of the Internal Revenue Code, as amended, including supplement R and section 1808 (f) thereof;

EUA having further requested the Commission, pursuant to section 11 (e) of the act, to apply to a United States District Court to enforce and carry out the terms and provisions of said plan; and

The Commission having considered the entire record in this matter and having this day filed its findings and opinion herein finding that said plan is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby:

It is ordered, On the basis of the entire record herein and said findings and opinion, pursuant to section 11 (e) and other applicable provisions of the act, that said plan be, and the same hereby is, approved, subject to the terms and conditions contained in Rule U-24 promulgated under the act and to the following additional terms and conditions:

1. That this order shall not be operative to authorize the consummation of the transactions proposed in said plan until an appropriate United States District Court shall, upon application thereto, enter an order enforcing said plan;

2. That only such fees and expenses in connection with said plan and the proceedings incident thereto shall be paid as the Commission may approve on appropriate application made to it, but no more, and jurisdiction hereby is specifically reserved to determine the reasonableness, appropriate allocation, and payment by EUA and its subsidiaries, of all fees and expenses and all other remuneration incurred or to be incurred in connection with said plan, the transactions incident thereto, and the proceedings thereon and related thereto, including, but without limiting the generality of the foregoing, fees and expenses charged to EUA and its subsidiary companies pursuant to any servicing arrangements with Stone & Webster Service Corporation which are allocable to this proceeding;

3. That, prior to the effective date of the plan, EUA and its subsidiaries shall file an undertaking with the Commission, in a form satisfactory to the Commission, to the effect that on such effective date neither EUA nor any of its subsidiary companies shall have as a trustee, director, officer or regular employee any person who is also a director, officer or employee of any service company outside the EUA holding company system which renders service to any company in such system or of any company affiliated with such service company and that no such interlocking relationship shall thereafter exist so long as such servicing arrangements shall continue with such service company;

4. That neither EUA nor its subsidiaries shall enter into a service contract with any service company outside its holding company system unless it or they shall have obtained a written commitment from such service company that such service company will file with the Commission quarterly reports showing the extent and nature of the services which such service company has rendered to EUA or its subsidiaries; the amount of charges made for fixed fee services and for specific work order services, together with copies of all contracts for services entered into during the quarterly period and of sample work orders; and such other information as the Commission may from time to time request;

5. That jurisdiction be, and it hereby is, specifically reserved with respect to the following:

a. All aspects of the procedure with respect to the selection of the initial board of trustees of EUA and the composition thereof;

b. The entry by the Commission of such further order or orders as it may deem necessary or appropriate in accordance with the provisions of the act and the rules and regulations promulgated thereunder regarding service contracts of EUA and its subsidiaries, including orders requiring their termination or modification;

c. The method to be employed in locating shareholders who have not exercised their rights to distribution under the plan, including the selection of any agent employed for such purpose;

d. The selection of the distribution or exchange agent or agents provided for in

the plan, EUA not to appoint a distribution or exchange agent until it has notified the Commission of the agent or agents proposed to be employed and the manner by which such proposed agent or agents were selected and the Commission has entered a further order herein releasing jurisdiction with respect to the agent or agents proposed to be employed;

e. The terms, conditions and procedures under which the exchange agent or agents may buy or sell any shares for the purpose of carrying out the terms and provisions of the plan;

f. The appropriateness of the accounting entries to be made in recording the transactions under the plan and incident to the consummation thereof;

g. The terms and conditions of the issuance of the $7,000,000 principal amount of 25-year collateral trust bonds proposed to be issued and sold to the public by EUA, which bonds will be the subject of a supplemental application herein;

h. The entertaining of such further proceedings, entering of such further orders and the taking of such further action as may be deemed to be necessary or appropriate in connection with the plan, the transactions incident thereto, and the consummation thereof and as may be deemed to be necessary or appropriate to effectuate the requirements of section 11 (b) of the act.

It is further ordered and recited, That the transactions, as specified and itemized below, proposed in said plan, are necessary or appropriate to the simplification of the holding-company system of which EUA and its subsidiary companies are members, and are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935:

1. The issuance by EUA, in order to effect the exchanges provided in paragraphs 2 and 3 below, of 989,407.0628 new common shares of the par value of ten dollars ($10) per share.

2. The exchange share for share by holders of the present 685,700.75, no par value common shares of EUA of their existing share certificates for new share certificates representing 685,700.75 common shares of ten dollars ($10) par value per share, including all the transfers to or by transfer or distributing agents or others, incidental thereto.

3. The exchange by the holders of convertible shares of EUA of their existing share certificates (representing in the aggregate 789,668 no par value shares) for certificates (representing in the aggregate 303,706.3128 shares) for common shares of ten dollars ($10) par value per share, such exchange to be in the ratio of 0.3846 of a new common share for each convertible share; together with any payment in lieu of dividends and scrip for any fraction of any common share to which the holder may be entitled on such exchange, including all the transfers to or by transfer or distributing agents or others, incidental thereto.

4. The issuance and sale by EUA of $7,000,000 face amount of its Collateral Trust Bonds, -- percent Series due 1978.

ELECTRIC BOND AND SHARE CO.

ORDER RELEASING JURISDICTION WITH RESPECT TO LEGAL FEE

DECEMBER 23, 1952.

The Commission having heretofore granted the application and permitted the declaration to become effective of Electric Bond and Share Company concerning the sale through a rights offering to its stockholders of 525,036 shares of common stock of its gas utility subsidiary, United Gas Corporation; the Commission having reserved jurisdiction over fees and expenses incurred in connection with said transactions; the record having been completed with respect to the fee of $5,000 proposed to be paid to the law firm of Reid & Priest and with respect to certain expenses in the amount of $3,100.09 paid by Reid & Priest on behalf of Bond and Share, and the Commission finding that said fee and expenses are not unreasonable:

It is ordered, That jurisdiction heretofore reserved with respect to the fees and expenses incurred in connection with these transactions be, and the same hereby is, released insofar as it relates to the fee and expenses of Reid & Priest.

MONTAUP ELECTRIC CO. ET AL.

ORDER AUTHORIZING ISSUANCE, SALE AND ACQUISITION OF DEBENTURE BONDS; ISSUANCE AND SALE OF UNSECURED NOTES TO BANKS

DECEMBER 23, 1952.

In the matter of Montaup Electric Company, Blackstone Valley Gas and Electric Company, Brockton Edison Company, Fall River Electric Light Company, File No. 70-2968; Blackstone Valley Gas and Electric Company, File No. 70-2966; Brockton Edison Company, File No. 70-2965; Fall River Electric Light Company, File No. 70-2964.

Montaup Electric Company ("Montaup"), Blackstone Valley Gas and Electric Company ("Blackstone"), Brockton Edison Company ("Brockton"), and Fall River Electric Light Company ("Fall River"), all public-utility subsidiary companies of Eastern Utilities Associates, a registered holding company, having filed with this Commission applications-declarations, pursuant to sections 6, 7, 9, 10, and 12 of the Public Utility Holding Company Act of 1935 and Rules U-42, U-43, U-45 and U-50 promulgated thereunder, with respect to the following proposed transactions:

Montaup presently has outstanding with a bank $11,000,000 principal amount of 3 percent promissory notes, due December 30, 1952. Such notes were issued principally to provide Montaup with funds necessary for an additional 60,000 kw generator in its steam plant, which was placed in service on October 1, 1951. Montaup proposes to issue and sell $11,000,000 principal amount of 30-year, 3⅜ percent Debenture Bonds to Blackstone ($4,573,000), Brockton ($2,689,000), and Fall River ($3,738,000) and to use the proceeds therefrom to pay off its presently outstanding promissory notes. Said Debenture Bonds are to be redeemable, in whole at any time or pro rata in part from time to time, at the principal amount and accrued interest to the date of redemption.

Blackstone, Brockton and Fall River expect to have outstanding during December, 1952, under a prior loan agreement, unsecured short-term 3 percent promissory notes in the aggregate face amount of $600,000, $1,100,000 and $900,000, respectively. Blackstone, Brockton and Fall River propose to issue to the First National Bank of Boston and certain participating banks on or before December 29, 1953, unsecured promissory notes in the aggregate principal amounts of $6,000,000, $4,450,000 and $5,200,000, respectively. Said notes will be issued by said companies in order to pay off such note indebtedness as may be outstanding during December, 1952, under said prior loan agreement, to purchase their proportionate shares of the Debenture Bonds proposed to be issued by Montaup and to provide sufficient funds for their 1953 construction programs. With respect to each company said notes will mature not later than one year less one day after the date of issue of the first of the notes and in no event later than December 29, 1953, and will be prepayable at any time without premium. Each note will bear interest at the prime rate of interest for short-term unsecured loans existing at the time of issuance thereof except that the interest rate on each note outstanding on June 30, 1953, will be adjusted to the prime interest rate existing on that date and each such note will bear such adjusted prime interest rate from that date to maturity or prior payment thereof. It is stated that the prime interest rate for such notes at the present time is 3 percent per annum. It is further stated that in the event that the interest rate of any proposed note would be in excess of 3¼ percent per annum, prior to the issuance thereof, the applicable borrowing company or companies will file an amendment to this proceeding setting forth the then existing proposed interest rate. It is requested that any such amendment become effective five days after the filing thereof unless the Commission notifies the company or companies filing such amendment to the contrary.

The filings indicate that the promissory notes proposed to be issued by Blackstone, Brockton, and Fall River will be refinanced through the issuance of bonds by said companies.

The Department of Public Utilities of Massachusetts has approved the issuance of said Debenture Bonds by Montaup and the acquisition of their proportionate share thereof by Brockton and Fall River. The filings state that no other State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions. The filings further state that the fees and expenses to be incurred in connection with the sale and acquisition of the Debenture Bonds will not exceed $14,700, including $2,500 of legal fees and $12,100 for Federal documentary tax, and that the fees and expenses to be incurred in connection with the notes to be issued and sold by Blackstone, Brockton, and Fall River will not exceed $1,000, including $900 of legal fees, for each company. It is requested that the Commission's order herein become effective upon issuance.

Notice of the filing of the applications-declarations having been given in the manner and form provided by Rule U-23 of the rules and regulations promulgated under the act, and a hearing not having been requested or ordered by the Commission within the time specified in said notice; and the Commission finding that the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that said applications-declarations be granted and permitted to become effective, forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said applications-declarations be, and hereby are, granted and permitted to become effective, subject to the terms and conditions prescribed in Rule U-24, and that this order shall become effective upon its issuance.

By the Commission.

ELECTRIC BOND AND SHARE CO.

NOTICE OF FILING REGARDING APPLICATION TO ACQUIRE SHARES OF COMMON STOCK OF PORTLAND GAS & COKE COMPANY

DECEMBER 23, 1952.

Notice is hereby given that an application has been filed with this Commission by Electric Bond and Share Company ("Bond and Share"), a registered holding company. The application states that it seeks approval of the Commission under such sections of the act as the Commission may deem applicable to the proposed transaction, and apparently requests such approval under sections 9 (a) and 10 of the act. The proposed transactions are summarized as follows:

Bond and Share is the owner of 183,050 shares, or approximately 7.8 percent, of the capital stock of American Power & Light Company ("American"), also a registered holding company. American owns 54,763 shares of the common stock of Portland Gas & Coke Company ("Portland"), being 10 percent of the outstanding stock of Portland. American recently filed a plan with the Commission, dated September 29, 1952, under section 11 (e) of the act, relating to its dissolution, and proposing in connection therewith the distribution to its own stockholders of their respective pro-rata shares of American's holdings of Portland stock; proceedings with respect to that plan are presently pending before the Commission (File No. 54-207).

The application requests approval of the Commission for Bond and Share to acquire, pursuant to such plan of American, 4,255 shares of the common stock of Portland. Bond and Share proposes to dispose of such shares of common stock of Portland, in such manner as the Commission may permit, as soon as practicable, but in no event later than one year following the receipt thereof by Bond and Share (unless such time shall be extended by the Commission), in conformity with the intent of Bond and Share's Final Comprehensive Plan, as amended June 12, 1952 (File Nos. 54-127 and 59-12).

The application requests that the Commission issue its order as promptly as possible pursuant to the Commission's Rule U-23, and that the thirty-day waiting period be waived so that the Commission's order may be effective at the earliest practicable date.

Notice is further given that any interested person may, not later than January 8, 1953, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by the said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after January 8, 1953, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof. All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed.

By the Commission.

INVESTORS DIVERSIFIED SERVICES, INC.

NOTICE OF APPLICATION

DECEMBER 23, 1952.

Notice is hereby given that Investors Diversified Services, Inc., a registered face amount certificate company, has filed an application pursuant to Rule N-17D-1 of the general rules and regulations under the Investment Company Act of 1940 for an order of the Commission permitting it to effect an incentive pay plan for the benefit of its district managers, sales representatives and divisional office secretaries who are engaged directly and indirectly in selling face amount certificates and other securities for which the applicant is the underwriter, under which proposed payments are to be made on or about October 1, 1953, based on business done during the year 1952. The plan is of similar purport, terms and conditions as a like plan for the year 1951.

The applicant is registered with this Commission as a broker under the provisions of the Securities Exchange Act of 1934. It is the underwriter and distributor of securities issued by Investors Syndicate of America, Inc., a registered face amount certificate company and a wholly-owned subsidiary company and of securities issued by Investors Mutual, Inc., Investors Stock Fund, Inc., and Investors Selective Fund, Inc., registered management investment companies which were organized and promoted by the applicant and which are affiliated with said applicant.

All interested persons are referred to said application which is on file at the Washington, D. C., office of the Commission for a more detailed statement of the matters of fact and the law therein asserted.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time on or after the 16th day of January 1952, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than the 14th day of January 1952, at 5:30 p. m., e. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

[File No. 812-810]

VALUE LINE FUND, INC., ET AL.

NOTICE OF APPLICATION

DECEMBER 22, 1952.

In the matter of the Value Line Fund, Inc., the Value Line Income Fund, Inc., and Value Line Fund Distributors, Inc.; File No. 812-810.

Notice is hereby given that the Value Line Fund, Inc. (herein called "Value Line") and the Value Line Income Fund, Inc. (herein called "Value Line-Income"), open-end diversified management investment companies registered under the Investment Company Act of 1940 and Value Line Fund Distributors, Inc. (herein called "Distributors"), the principal underwriter for Value Line and Value Line-Income, have filed an application pursuant to section 6 (c) of the act for an order exempting from the provisions of section 22 (d) of the act the offering of the shares of the companies at reduced public offering prices based on quantity purchases of shares of the companies under the circumstances hereinafter described.

It appears from the application that both of the above-named investment companies are Delaware corporations with virtually the same charter and by-laws; that the officers and directors, the principal underwriter, the manager and investment adviser and the custodian for each company are the same; that both companies have a single class of stock which is redeemable and that their sales charges are the same. However, the investment objectives of the two companies differ. Value Line's primary objective is capital appreciation whereas the primary objective of Value Line-Income is income yield.

The offering price of the shares of each of the above named investment companies is equal to the net asset value per share plus a percentage selling commission. Quantity discounts, resulting in decreased selling commissions, are presently available with respect to individual purchases of $25,000 or more of the shares of each of the companies. In each case, the selling commission is reduced to 7 percent on purchases of $25,000 or more, 4 percent on purchases of $50,000 or more and 2.25 percent on purchases of $100,000 or more.

It is now proposed to extend these quantity discounts to purchases of shares of both companies so that a quantity discount will be available for purchases of shares of both companies by (1) a single purchaser, (2) the same person acting as trustee or other fiduciary for one or more accounts, (3) one or more members of an immediate family (such immediate family to include, in the case of any person, only the spouse and the children of such person) and (4) to the total purchases over a period of twelve months by a person or persons in any of the three foregoing categories pursuant to a written statement of intention to purchase an aggregate amount in either or both companies which if purchased at one time would qualify for the particular quantity discount provided that the shares purchased during such period are still owned at the end of the period.

The application states that the proposed extension of quantity discounts would permit investors who wish to purchase shares in both companies on account of the difference in investment objectives to do so without sacrificing the discount for which they might have qualified if they had made their entire investment in shares of only one of the companies.

The proposed transactions would involve an offering of redeemable securities otherwise than "at a current public offering price described in the prospectus" within the meaning of section 22 (d) of the act, and such offering not being within any of the exceptions set forth in said section 22 (d) would be thereby prohibited unless an exemption therefrom is granted pursuant to section 6 (c) of the act.

All interested persons are referred to said application which is on file in the Washington, D. C., office of the Commission for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time on or after January 13, 1953, unless a hearing upon the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than January 9, 1953 at 5:30 p. m., e. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request in writing that the Commission order a hearing to be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

[File No. 812-811]

VALUE LINE FUND, INC., ET AL.

NOTICE OF APPLICATION

DECEMBER 22, 1952.

In the matter of the Value Line Fund, Inc., the Value Line Income Fund, Inc., and Value Line Fund Distributors, Inc.; File No. 812-811.

Notice is hereby given that the Value Line Fund, Inc. (herein called "Value Line") and the Value Line Income Fund, Inc. (herein called "Value Line-Income"), open-end diversified management investment companies registered under the Investment Company Act of 1940 and Value Line Fund Distributors, Inc. (herein called "Distributors"), the principal underwriter for Value Line and Value Line-Income, have filed an application pursuant to section 6 (c) of the act for an order exempting from the provisions of section 11 (a) certain proposed transactions by which the holders of shares of $1 par value stock of Value Line and Value Line-Income shall be offered the right to convert all or part of such shares into shares of $1 par value stock of the other of such investment companies at such price below the public offering price but in excess of the net asset value of the shares of such other investment company. The proposed transactions involve the making by Value Line and Value Line-Income and the Distributors, their principal underwriters of offers to the holders of capital stock of each of such investment companies to exchange their shares of stock for shares of stock of the other investment company on a basis other than the relative net asset values of the respective securities to be exchanged and would be prohibited by section 11 (a) of the act, unless the terms of the offers have been approved by the Commission or are in accordance with such rules or regulations as the Commission may have prescribed in respect of such offers, or unless an exemption therefrom is granted pursuant to section 6 (c) of the act. The proposed transactions would also involve an offering of redeemable securities by Value Line and Value Line-Income otherwise than "at a current public offering price described in the prospectus" within the meaning of section 22 (d) of the act, and such offering not being within any of the exceptions set forth in said section 22 (d) would be thereby prohibited unless an exemption therefrom is granted pursuant to section 6 (c) of the act.

It appears from the application that both the above-named investment companies are Delaware corporations with virtually the same charters and by-laws; that the officers and directors, the principal underwriter, the manager and investment adviser and the custodian for each company are the same; that both companies have a single class of stock which is redeemable and that their sales charges are the same. However, the investment objectives of the two companies differ. Value Line's primary objective is capital appreciation whereas the primary objective of Value Line-Income is high income yield.

It further appears that as of October 31, 1952, Value Line, the shares of which were first offered to the public in March, 1950, had net assets of $5.89 per share, while Value Line-Income, the shares of which were first offered to the public in September, 1952, had net assets of $5.01 per share. The sales load in the case of both of the above-named companies is approximately 9.3 percent of net asset value except on single purchases in excess of $25,000. It is the present intention of the applicants that upon shares issued in such conversions a sales load of approximately 3.4 percent of net asset value will be charged and that the dealers discount on shares issued on such conversions would be in each case equal to the full sales load less one-quarter of 1 percent of the offering price which would be received by Distributors. Changes may be made from time to time in the sales load or in the dealer's discount or in both, but the reduced offering price would at all times exceed the net asset value of the shares issued on conversion.

The application states that the Distributors do not plan to engage in active solicitation of transfers of investments from either of the above-named investment companies or to advise such transfers and that it plans to do nothing more than to call to the attention of dealers the reduced schedule of selling commission applicable in the case of such transfers, leaving it to the dealers upon request by any shareholder, to give such shareholder the advice which he should have, based upon such shareholder's investment requirements in relation to the respective investment objectives of Value Line and Value Line-Income.

All interested persons are referred to said application which is on file in the Washington, D. C., office of the Commission for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time on or after January 13, 1953, unless a hearing upon the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than January 9, 1953, at 5:30 p. m., e. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request in writing that the Commission order a hearing to be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

APPLICATION FOR RELIEF

DECEMBER 23, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Fertilizer compounds, carloads.

From: Specified points in Arkansas, Louisiana, Missouri, and Texas.

To: Points in Illinois, Iowa, Missouri, and Wisconsin, etc. (Illinois territory).

Grounds for relief: Competition with rail carriers, circuitous routes, market competition, to maintain grouping.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, ICC No. 3746, supl. 100.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.
